NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Allstate Insurance Company (referred to as the "Company") prepares its financial statements in conformity with accounting practices prescribed or permitted by the Illinois Division of Insurance ("IL DOI"). Prescribed statutory accounting practices include a variety of publications of the National Association of Insurance Commissioners ("NAIC"), as well as state laws, regulations and general administrative rules. Permitted statutory accounting practices encompass all accounting practices not so prescribed.

The state of Illinois requires its domestic insurance companies to prepare financial statements in conformity with the NAIC Accounting Practices and Procedures Manual, subject to any deviations prescribed or permitted by the IL DOI.

B. The preparation of financial statements in conformity with accounting practices prescribed or permitted by the IL DOI requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

C. Listed below is a summary of the accounting policies that materially affect the financial statements.

Investments

Investments are stated at values prescribed by the NAIC. Bonds, including collateralized mortgage obligations and other structured securities, are stated at amortized cost using the scientific interest method with two exceptions. Bonds with an NAIC designation of 3 through 6 and 5* are carried at the lower of amortized cost or fair value, with the difference reflected in unassigned surplus. 5* means the NAIC designation was assigned by the Securities Valuation Office ("SVO") in reliance on the insurer's certification that the issuer is current in all principal and interest payments. In addition, bonds with an NAIC designation of 6* are carried at zero. 6* means the NAIC designation was assigned by the SVO due to inadequate certification of interest and principal payments. To-be-announced bonds involved in dollar roll transactions are marked to market through realized capital gains and losses.

Loan-backed securities, which consist of single class and multi-class mortgage-backed and asset-backed securities, utilize anticipated repayments to determine the effective yield at purchase. Any significant changes in the anticipated repayments are incorporated when determining statement value. Generally, significant changes in estimated cash flows from the original purchase assumptions are accounted for using the retrospective method. Beneficial interests held in securitized assets which are not of high credit quality are accounted for using the prospective method.

Preferred stocks are carried at amortized cost or the lower of amortized cost or NAIC fair value, depending on the assigned credit rating and whether the preferred stock has a mandatory sinking fund provision. Common stocks are carried at NAIC fair value. For preferred stocks stated at NAIC fair value and common stocks, the differences between amortized cost and NAIC fair value are recorded as a change in net unrealized capital gains (losses), which is a component of unassigned surplus.

Investments in insurance subsidiaries are based on the underlying statutory equity of the subsidiary and adjusted for unamortized goodwill, if applicable. Investments in non-insurance subsidiaries, controlled and affiliated entities and joint ventures, limited partnerships and limited liability companies are generally recorded based on the underlying Generally Accepted Accounting Principles ("GAAP") equity of the investee, with unrealized gains or losses reflected in unassigned surplus.

Mortgage loans are carried at outstanding principal value, net of unamortized premium or discount and book value adjustments. Book value adjustments include derivative hedging adjustments and other than temporary impairment adjustments. Generally, if the fair value of any collateral, less the estimated costs to obtain and sell, is less than the outstanding principal value and the decline is deemed to be other than temporary, an impairment is reflected in the carrying value and included in realized capital losses. If the decline is deemed to be temporary, the adjustment is reflected in a valuation allowance and included in unrealized capital losses.

Investments in real estate are stated at the lower of depreciated cost or fair value less encumbrances. The carrying value of real estate is adjusted for impairments that are other than temporary.

Cash equivalent investments are short term, highly liquid investments, whose original maturities at the time of acquisition are three months or less. They are both readily convertible into known amounts of cash and so near to their maturity that they present an insignificant risk of change in value because of changes in interest rates.

Short-term investments include investments whose maturities at the time of acquisition are one year or less and are stated at amortized cost, which approximates fair value.

Surplus notes of affiliates are included in other invested assets and carried at their face value.

Investment income consists primarily of interest and dividends, net investment income from partnership interests and income from certain derivative transactions. Interest is recognized on an accrual basis and dividends are recorded at the ex-dividend date. Interest income on mortgage-backed and asset-backed securities is determined on the effective yield method, based on estimated principal repayments. Accrual of income is suspended for bonds and mortgage loans that are in default or when the receipt of interest payments is in doubt. Investment income is recorded for joint ventures, limited partnerships and limited liability companies as distributions are received.

Realized capital gains and losses include gains and losses on investment dispositions, write-downs in value due to other than temporary declines in fair value and changes in the fair value of certain derivatives. Realized capital gains and losses are determined on a specific identification basis and recorded in the Statement of Income.

The Company writes down to fair value any bond or equity security that is classified as other than temporarily impaired in the period the security is deemed to be other than temporarily impaired. Inherent in the Company's evaluation of a particular security are assumptions and estimates about the operations of the issuer and its future earnings potential. Some of the factors considered in evaluating whether a decline in fair value is other than temporary are: 1) the Company's ability and intent to retain the investment for a period of time sufficient to allow for an anticipated recovery in value; 2) the recoverability of principal and interest; 3) the duration and extent to which the fair value has been less than cost for equity securities or amortized cost for bonds; 4) the financial condition, near-term and long-term prospects of the issuer, including relevant industry conditions and trends, and implications of rating agency actions and offering prices; and 5) the specific reasons that a security is in a significant unrealized loss position, including market conditions which could affect access to liquidity.

Derivative financial instruments

Derivative financial instruments used by the Company include equity foreign currency forwards, futures and written call options. When derivatives meet specific criteria, they may receive hedge accounting, which means they may be accounted for and reported on in a manner that is consistent with the hedged asset or liability. Derivatives that are not designated as accounting hedges are accounted for on a fair value basis, with changes in fair value recorded as unrealized gains or losses in unassigned surplus. The Company's accounting policy for these instruments is also discussed in Note 8, Part C.

NOTES TO FINANCIAL STATEMENTS

Off-balance sheet financial instruments

Commitments to invest, commitments to extend mortgage loans and commitments to purchase private placement securities have off-balance sheet risk because their contractual amounts are not recorded in the Company's Assets, or Liabilities, Surplus and Other Funds pages of the Annual Statement. The contractual amounts of these instruments are outlined in Note 16.

Premium revenue

Premiums are deferred and earned on a pro-rata basis over the policy period. The portion of premiums written applicable to the unexpired periods of the policies are recorded as unearned premiums. Premiums received in advance of the policy's effective date are recorded as advance premiums.

Premiums written and not yet collected and agents' balances are shown as a receivable, with balances older than 90 days nonadmitted. The Company regularly evaluates this receivable, and establishes valuation allowances, as appropriate, for items less than 90 days.

Reserves for losses and loss adjustment expense

Reserves for loss and loss adjustment expenses are the estimated amount necessary to settle both reported and unreported claims of insured losses, based upon the facts in each case and the Company's experience with similar cases. Estimated amounts of salvage and subrogation are deducted from the reserve for losses and loss adjustment expenses. The establishment of appropriate reserves, including reserves for catastrophes, is an inherently uncertain process. Reserve estimates are regularly reviewed and updated using the most current information available. Any resulting adjustments are reflected in the Statement of Income. These adjustments may be material.

Reinsurance

In the normal course of business, the Company seeks to limit aggregate and single exposure to losses on large risks by purchasing reinsurance from other insurers or reinsurers. Admitted assets include amounts billed to reinsurers for losses and loss adjustment expenses paid. Reinsurance recoverables on unpaid losses are estimated based upon assumptions consistent with those used in establishing the liabilities related to the underlying reinsured contract. Reserves are reported net of reinsurance recoverables. Prepaid reinsurance premiums are deferred and reflected as income in a manner consistent with the recognition of premiums on the reinsured contracts. The Company regularly evaluates whether a provision for reinsurance is needed by evaluating of the admissibility, collectibility and collateralization of reinsurers balances in accordance with NAIC guidelines. A provision for reinsurance is established as appropriate, and reported as a liability. Reinsurance does not extinguish the Company's primary liability under the policies written.

Income taxes

The income tax provision is calculated under the liability method. Deferred tax assets and liabilities are recorded based on the difference between the statutory financial statement and tax bases of assets and liabilities at the enacted tax rates. The principal assets and liabilities giving rise to such differences were nonadmitted assets, unearned premiums and insurance reserves. Deferred income taxes also arise from unrealized gains and losses on equity securities and impaired bonds carried at fair value. The net change in deferred tax assets and liabilities is applied directly to unassigned surplus. The nonadmitted portion of a gross deferred tax asset is determined by applying the rules prescribed by Statement of Statutory Accounting Principle ("SSAP") No. 10, Income Taxes.

2. Accounting Changes

The Company did not have any material accounting changes or corrections of errors for the years ended December 31, 2004 or 2003.

3. Business Combinations and Goodwill

A. Statutory Purchase Method

On January 1, 2000, the Company purchased all the outstanding common stock of Northbrook Indemnity Company ("NIC") for $26 million from St. Paul Fire & Marine Insurance Company ("St. Paul"). The Company acquired NIC as part of its plans to further develop the personal lines' independent agency business. The transaction was accounted for using the statutory purchase method. At the purchase date, goodwill of $429 thousand was recorded and is being amortized on a straight-line basis over 10 years. In 2004 and 2003, the Company recognized goodwill amortization related to this acquisition of $43 thousand each year.

On November 8, 1993, the Company purchased all the outstanding common stock of Deerbrook Insurance Company ("Deerbrook"), formerly known as Belvedere American Reinsurance Company, for $22 million from Christiania General Insurance Corporation of New York. The Company acquired Deerbrook in order to utilize its insurance licenses. The transaction was accounted for using the statutory purchase method. At the purchase date, goodwill of $1 million was recorded and amortized on a straight-line basis over 10 years. In 2003, the Company recognized the remaining goodwill amortization related to this acquisition of $104 thousand. In 2004 there was no goodwill remaining to amortize.

Effective September 1, 2000, the Company contributed all the common stock of Deerbrook to NIC. In addition, the Company contributed its ownership interest in NIC to Encompass Financial Group, LLC, formerly known as Willow Holdings, LLC, a wholly owned subsidiary of the Company. Since the Company is the indirect parent of Deerbrook and NIC, goodwill remains on the Company's balance sheet and continues to be amortized into its income.

Unamortized goodwill, reported as a component of the investment in the acquired entities, did not exceed 10% of the Company's capital and surplus at December 31, 2004 or 2003.

B. Statutory Merger

The Company has not participated in any business combinations taking the form of a statutory merger in 2004 or 2003.

C. Impairment Loss

The Company did not recognize any impairment loss on the transactions described above in 2004 or 2003.

4. Discontinued Operations

The Company did not have any discontinued operations in 2004 or 2003.

NOTES TO FINANCIAL STATEMENTS

5. Investments

A. Mortgage Loans, including Mezzanine Real Estate Loans

1. The minimum and maximum lending rates for new mortgage loans in 2004 and 2003 were 3.99% and 6.65%, and 4.18% and 4.65%, respectively. All new mortgage loans in 2004 and 2003 were commercial.

2. The Company refinanced two commercial mortgage loans with carrying values, excluding interest, of $16 million in 2004. The declines in interest rates on the loans were 0.48% and 3.38%. The Company did not reduce interest rates on any outstanding mortgage loans in 2003.

3. For loans acquired during the year, the maximum percentage of any one loan to the value of security at the time of the loan was 75.00% and 61.54% in 2004 and 2003, respectively.

4. At December 31, 2004 or 2003, the Company did not hold any mortgage loans with interest more than 180 days past due.

5. The Company did not have any taxes, assessments or amounts advanced and not included in mortgage loans at December 31, 2004 or 2003.

6. Mortgage loans are impaired when it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement. The Company did not have any investment in impaired loans for which there was a related allowance for credit losses at December 31, 2004 or 2003.

7. The Company did not have any investment in impaired loans for which there was a related allowance for credit losses at December 31, 2004 or 2003.

8. There were no impaired mortgage loans at December 31, 2004 or 2003.

9. Interest income was not recognized on impaired loans during 2004 or 2003.

10. There was no interest income recognized on a cash basis on impaired mortgage loans during 2004 or 2003.

11. The Company did not record any allowance for credit losses at December 31, 2004 or 2003.

12. Interest income for impaired loans is recognized on an accrual basis if payments are expected to continue to be received; otherwise cash basis is used.

B. Debt Restructuring

1. The total recorded investment in restructured bonds was $41 million and $45 million at December 31, 2004 and 2003, respectively. The Company did not have any investments in restructured mortgage loans at December 31, 2004 or 2003.

2. The Company did not recognize any realized capital losses related to troubled mortgage loans and bond restructuring in 2004 or 2003.

3. The Company did not enter into any contractual commitments to extend credit to debtors owning receivables whose terms were modified in troubled mortgage loans and bond restructuring.

4. Interest income for impaired mortgage loans is recognized on an accrual basis if payments are expected to continue to be received; otherwise cash basis is used. Interest income on nonperforming bonds is recognized on a cash basis once the original cost of the investment is recovered.

C. Reverse Mortgages

The Company did not enter into reverse mortgages in 2004 or 2003.

D. Loan-Backed Securities

1. The Company elected not to use the book value as of January 1, 1994 as the cost for applying the retrospective adjustment method to securities purchased prior to that date.

2. Prepayment assumptions for single class and multi-class mortgage-backed and asset-backed securities were obtained from broker-dealers and internal estimates.

3. In 2004 and 2003, there were no securities with negative yields requiring the Company to change methodologies from retrospective to prospective.

E. Repurchase Agreements

The Company did not enter into repurchase agreements in 2004 or 2003.

See Note 11 for a description of the terms of the Company's dollar reverse repurchase agreements.

F. Real Estate

1. The Company did not recognize any impairment losses related to its investments in real estate in 2004 or 2003.

2. The Company did not engage in any retail land sales operations in 2004 or 2003.

6. Joint Ventures, Partnerships and Limited Liability Companies

A. The Company had no investments in joint ventures, limited partnerships or limited liability companies that exceeded 10% of its admitted assets at December 31, 2004 or 2003.

B. The Company did not recognize any impairment write-downs on joint ventures, partnerships or limited liability companies in 2004. The Company recognized impairment write-downs on joint ventures, partnerships and limited liability companies of $14 million in 2003. The fair value of these investments was determined by an analysis of both the underlying assets of the investment and the existing economic conditions.

NOTES TO FINANCIAL STATEMENTS

7. Investment Income

1. All due and accrued investment income, excluding mortgage loans, over 90 days past due is nonadmitted. Mortgage loans in default for which interest is 180 days past due are nonadmitted. All due and accrued investment income deemed uncollectible is written off in the period it is determined to be uncollectible.

2. The total amount of due and accrued investment income nonadmitted was $198 thousand and $49 thousand at December 31, 2004 and 2003, respectively.

8. Derivative Instruments

A. Derivative financial instruments utilized by the Company during 2004 and 2003 included futures, written call options, and equity foreign currency forward contracts.

The Company utilizes both index and interest rate futures. Futures are defined as commitments to buy or sell designated financial instruments based on specified prices, yields or indexes. Indexed and interest rate futures provide returns at specified or optional dates based upon a specified index applied to a notional amount. Written call option contracts are exchange traded call option contracts on specific equities. Equity foreign currency forward contracts involve the future exchange or delivery of foreign currencies based on terms negotiated at the inception of the contract which are settled at the end of the contract.

Market risk is the risk that the Company will incur losses due to adverse changes in market rates and prices. Market risk exists for all of the derivative financial instruments the Company currently holds, as these instruments may become less valuable due to adverse changes in market conditions. To limit this risk the Company has established risk control limits. In addition, changes in the value of the derivative financial instruments that the Company uses for risk management purposes are generally offset by changes in the value or cash flows of the hedged risk component of the related assets, liabilities or forecasted transaction.

Credit exposure represents the Company's potential loss if all counterparties fail to perform under the contractual terms of the contracts and all collateral, if any, becomes worthless. This exposure is measured by the fair value of contracts with a positive fair value at the reporting date reduced by the effect, if any, of master netting agreements. Equity foreign currency forward contracts utilized by the Company primarily have credit exposure.

The Company manages its exposure to credit risk by utilizing highly rated counterparties, establishing risk control limits, executing legally enforceable master netting agreements and obtaining collateral where appropriate. The Company uses master netting agreements for over-the-counter derivative transactions. These agreements permit either party to net payments due for transactions covered by the agreements. Under the provisions of the agreements, collateral is either pledged or obtained when certain predetermined exposure limits are exceeded. To date, the Company has not incurred any losses on derivative financial instruments due to counterparty nonperformance. Futures and option contracts utilized by the Company are traded on organized exchanges, which require margin deposits and guarantee the execution of trades, thereby mitigating any associated potential credit risk.

The cash requirements of the derivatives vary by instrument. Daily cash settlement of variation margins, which are based on the changes in the daily prices, is required for futures. The final settlement of interest rate futures may be settled in cash or through delivery of an underlying instrument (e.g. specified bond). The final settlement of indexed futures may only be settled in cash. The Company receives cash equal to the premium of written call options when the contract is established. If the written covered call options are exercised, the Company receives cash equal to the price mutually agreed to in the contract (strike price) in exchange for the equity the call option was written on. If the options are not exercised, then no additional cash is exchanged when the contract expires. Equity foreign currency forward contracts require cash settlements when the contract matures. For equity foreign currency forward contracts the amount of cash exchanged is based on the difference between the rate agreed to at the date the contract was entered into (contract rate) compared to the actual rate on the settlement date. If the contract rate is less than the actual rate on the settlement date, the Company receives cash equal to the difference in rates multiplied by an agreed to notional amount. If the contract rate is greater than the actual rate on the settlement date, the Company pays cash equal to the differences in the rates multiplied by an agreed to notional amount.

B. The Company primarily uses derivative financial instruments to reduce its exposure to market risk (principally interest rate, equity price, and foreign currency) on its invested assets and certain liabilities.

The Company primarily utilizes futures contracts to reduce the duration of its bonds and to reduce interest rate risk associated with certain deferred compensation liability contracts. These futures hedge the changes in fair value of assets or liabilities. Written covered call options used for income generation provide limited protection against declines in the underlying market price of equities owned by the Company. Equity foreign currency forward contracts are utilized to hedge the currency risk associated with securities owned and denominated in foreign currency.

C. The notional amounts specified in the contracts are used to calculate the exchange of contractual payments under agreements, and are not representative of the potential for gain or loss on these agreements.

Written call option contracts are reported on Schedule DB Part B and receive non-hedge accounting. The premium received on written call options is recorded as a liability. The change in the fair value of written covered call options is recorded as unrealized gains or losses classified in unassigned surplus, with an adjustment to a corresponding liability. If the written covered call option is exercised by the counterparty, the difference between the strike price and the cost basis of the equity, adjusted for the amount of premium received, is recorded as a realized gain or loss. If the written covered call option expires without being exercised, the premium received is classified as a realized gain and the corresponding liability previously recorded is reversed.

Futures are reported in Schedule DB Part D and receive either fair value hedge accounting or non-hedge accounting, depending on the strategy. Daily cash settlement of margin gains or losses are recognized in either realized capital gains and losses or as an offset to the expense related to the hedged obligation depending on the derivative strategy. Termination gains or losses on financial futures are incorporated into the daily cash settlement of margins. For those futures contracts that are utilized to reduce the duration on the bond portfolio and are open at the end of the reporting period, the daily cash settlement is reported as unrealized gains and losses in unassigned surplus.

Equity foreign currency forward contracts are reported in Schedule DB Part C and receive hedge accounting. The final delivery of foreign currency is reflected in the book value of the hedged item at purchase, or it is reflected in the proceeds from the sale of the hedged item.

D. The Company did not have any net gain or loss in unrealized gains or losses that represented a component of any derivatives gain or loss that was excluded from the assessment of hedge effectiveness in 2004 or 2003.

E. The Company did not have any net gain or loss in unrealized gains or losses that resulted from derivatives that no longer qualify for hedge accounting in 2004 or 2003.

F. The Company did not have any derivatives accounted for as cash flow hedges of a forecasted transaction.

2. The consolidated group elected under Internal Revenue Code Section 1552(a)(2) to allocate the consolidated federal income tax liability based on each member's federal income tax liability computed on a separate return basis, except all tax benefits resulting from operating losses and tax credits are allocated to the Company to the extent they can be utilized in the consolidated return. In years when the consolidated tax return results in an alternative minimum tax liability, the regular tax is allocated first as described above, and the excess of the alternative minimum tax over the regular tax is allocated to the members whose tax posture gives rise to the alternative minimum tax.

NOTES TO FINANCIAL STATEMENTS

10. Information Concerning Parent, Subsidiaries and Affiliates

A.,
B.&
C. The following transactions were entered into by the Company with related parties in 2004 and 2003 that involved more than ½ of 1% of the Company's admitted assets. Reinsurance contracts, insurance contracts and cost allocation transactions based in accordance with intercompany contract provisions were excluded.

Transactions with The Allstate Corporation ("Corporation")

The Company paid the following cash dividends to its parent, the Corporation in 2004 and in 2003:

(in millions) Date of payment	2004	2003
February 4	$ -	$ 150
March 1	200	-
April 1	400	300
June 1	200	-
July 1	-	175
July 15	350	-
September 1	100	-
October 15	300	-
November 3	-	150
November 15	200	-
December 5	-	400
December 15	262	-
December 23	225	-
December 29	225	-
Total	$ 2,462	$ 1,175

In addition, the Company paid dividends, in the form of investment securities with NAIC ratings of 5 and 6 and aggregate fair values of $24 million, to the Corporation on December 22, 2004. On June 19, 2003 and November 26, 2003, the Company paid dividends with fair values of $69 million and $30 million, respectively, to the Corporation using investment securities.

On August 16, 2004, the Corporation paid in full, with cash, the $405 million Demand Promissory Note ("Note"), including $2 million of accrued interest held by the Company. The Note originally was executed on April 13, 1998 and issued in payment for 10,500,000 common stock shares of The PMI Group, Inc. On December 3, 2002, the Company extended the maturity date of the Note from April 13, 2003 to December 1, 2007, or on demand.

Transactions with Allstate Life Insurance Company ("ALIC")

The Company received cash dividends on common stock from ALIC as follows in 2004 and 2003:

(in millions) Date of payment	2004	2003
January 20	$ 75	$ -
March 31	25	-
June 29	25	-
August 31	150	-
September 30	-	25
Total	$ 275	$ 25

On December 22, 2004, the Company received dividends, in the form of investment securities with NAIC ratings of 5 and 6 and aggregate fair values of $24 million, from ALIC. The Company received dividends in the form of investment securities with aggregate fair values of $98 million from ALIC in 2003: $69 million on June 19 and $29 million on November 26.

Transactions with Allstate Floridian Insurance Company ("AFIC") and Allstate Holdings, LLC ("Holdings")

On September 30, 2004, AFIC, a subsidiary, issued a surplus note to the Company with a principal amount of $175 million in exchange for cash. The note accrues interest at a rate of 7.5% annually, which will be paid on the first day of April and October in each year beginning April 1, 2007 until maturity on September 30, 2019. The payment of principal or interest is subject to prior written approval from the IL DOI and the Florida Office of Insurance Regulation ("FL OIR") and can be paid only out of AFIC's surplus that is in excess of minimum amounts required by Illinois or Florida. The Company includes the note in other invested assets on the Asset page of the Annual Statement.

In addition, the Company entered into other transactions with AFIC, via Holdings, AFIC's direct parent. On both September 29, and December 23, 2004 the Company contributed cash of $100 million to Holdings, who, in turn, contributed it to AFIC. On January 20, 2004, AFIC paid a cash dividend of $57 million to Holdings, who, in turn, paid the dividend to the Company. In 2003, Holdings received the following cash dividends from AFIC and then paid them to the Company: $57 million on January 17 and $22 million on July 8.

The Company reported the following amounts as payable to its affiliates at December 31, 2004:

(in millions)	
Corporation	168
Sterling Collision Center Inc.	4
Total	$ 172

At December 31, 2003, the total amounts payable to affiliates was less than $1 million.

The intercompany balance from the Corporation at December 31, 2003 includes the Note executed by the Corporation and paid in full on August 16, 2004. See Parts A, B & C above for more information on the Note.

The Company entered into an intercompany loan agreement with the Corporation. The amount available to the Company is at the discretion of the Corporation, however the maximum amount of loans the Corporation can have outstanding to all its eligible subsidiaries at any given point in time is limited to $1 billion. From time to time, the Company borrows money from the Corporation to meet its short-term cash needs. At December 31, 2004, the Company's total outstanding intercompany loan balance, excluding interest, was $43 million. The interest rate on the loan outstanding at December 31, 2004 was 2.17%. The maturity date on the intercompany loan outstanding at December 31, 2004 was 3 days. At December 31, 2003, the Company did not have any outstanding intercompany loan balance. Total interest paid on intercompany debt during 2004 and 2003 was $1 million and $660 thousand, respectively. Since this debt was payable to the Corporation in 2004, it was combined with other amounts due to and payable from the Corporation and classified as payables from parent, subsidiaries and affiliates.

Intercompany payables and receivables are generally cash settled at least quarterly.

E. The Company purchased structured settlement annuities, a type of immediate annuity, at prices determined based on interest rates in effect at the time of purchase, to fund structured settlements from ALIC and its subsidiary, Allstate Life Insurance Company of New York ("ALNY"). Prior to July 1, 2001, these annuities were issued to Allstate Settlement Corporation ("ASC"), a subsidiary of ALIC. Annuities sold subsequent to July 1, 2001, involving the Company were issued to Allstate Assignment Company ("AAC"), a subsidiary of ALIC. Most of the structured settlements issued to ASC and AAC were under a "qualified assignment", meaning these entities assumed the Company's obligation to make future payments.

The Company issued surety bonds to guarantee the payment of structured settlement benefits assumed by ASC (from both the Company and non-related parties) and funded by certain annuity contracts issued by ALIC and ALNY. ASC has entered into a general indemnity agreement pursuant to which it indemnified the Company for any liabilities associated with the surety bonds and providing the Company certain collateral security rights with respect to the annuities and certain other rights in the event of any defaults covered by the surety bonds. For contracts written on or after July 1, 2001, the Company no longer issues surety bonds to guarantee the payment of structured settlement benefits. Alternatively, ALIC guarantees the payment of structured settlement benefits on all contracts issued on or after July 1, 2001. Reserves recorded by ALIC and ALNY for annuities that are guaranteed by the surety bonds were $5 billion at both December 31, 2004 and 2003.

F. The Company, the Corporation and certain of its affiliated insurance companies entered into a Service and Expense Agreement (the "Agreement") pursuant to which the Company furnishes a variety of services to the Corporation and certain subsidiaries and affiliates. The Agreement provides for the cost sharing and allocation of operating expenses among the parties

The Company entered into an Investment Management Agreement with Allstate Investments, LLC ("AILLC") whereby AILLC provided investment management services and advice to the Company.

The Company entered into a Reimbursement Agreement with the Corporation under which the Corporation sponsors certain benefit and compensation plans.

G. The Company is a wholly-owned subsidiary of the Corporation.

H. At both December 31, 2004 and 2003, the Company owned 37,471 common shares of the Corporation with a cost of $1 million. The entire amount of the investment was reported as a nonadmitted asset.

I. The Company did not have investments in subsidiaries, controlled or affiliated ("SCA") entities that exceeded 10% of the Company's December 31, 2004 or 2003 admitted assets.

J. The Company did not recognize any impairment related to SCA entity investments in 2004 or 2003.

11. Debt

The Company did not have any capital notes or debt outstanding at December 31, 2004 or 2003.

NOTES TO FINANCIAL STATEMENTS

The Company had reverse dollar repurchase agreements outstanding as of December 31, 2004 and 2003 with total book values of $665 million and $619 million, respectively, and fair values of $666 million and $622 million, respectively. Interest paid on reverse dollar repurchase agreements was $31 million for both the year ending December 31, 2004 and the year ending December 31, 2003 . The weighted average coupon for these transactions was 5.11% in 2004 and 5.18% in 2003. These agreements generally utilize mortgage-backed securities. All of the December 31, 2004 transactions end by January 19, 2005. All of the December 31, 2003 transactions ended by February 19, 2004.

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

Defined benefit pension plans cover most full-time, certain part-time employees and employee-agents. Benefits under the pension plans are based upon the employee's length of service and eligible annual compensation. A cash balance formula was added to the Allstate Retirement Plan effective January 1, 2003. All eligible employees hired before August 1, 2002 were provided with a one-time opportunity to choose between the cash balance formula and the final average pay formula. The cash balance formula applies to all eligible employees hired after August 1, 2002.

The Company adopted SSAP No. 89, Accounting for Pensions, a replacement of SSAP No. 8, Pensions on December 31, 2003. Upon adoption the Company elected, with regard to its incremental liability, to amortize it as a component of net periodic pension cost, and with regard to its incremental asset, to offset future periodic pension expense.

The Company also provides certain health care and life insurance subsidies for employees hired before January 1, 2003 when they retire ("Postretirement benefits"). Qualified employees may become eligible for these benefits if they retire in accordance with the Company's established retirement policy and are continuously insured under the Company's group plans or other approved plans in accordance with the plan's participation requirements. The Company shares the cost of the retiree medical benefits with retirees based on years of service, with the Company's share being subject to a 5% limit on annual medical cost inflation after retirement. The Company has the right to modify or terminate these plans.

The Medicare Prescription Drug, Improvement and Modernization Act of 2003 ("Act") was signed into law on December 8, 2003, and provides, among other things, a federal subsidy to plan sponsors who maintain postretirement health care plans ("plans") that provide prescription drug benefits and meet certain equivalency criteria. In July 2004, the Center for Medicare and Medicaid Services issued proposed regulations for the Act, including three different proposals for the determination of actuarial equivalence. Depending on which proposal is adopted, the Company's plans many not meet the actuarial equivalence criteria. As a result, the Company was unable to determine if its plans are actuarially equivalent, accordingly, the measurement of its accumulated postretirement benefit obligation and net periodic benefit cost do not reflect any amount associated with the subsidy at December 31, 2004.

The Company calculates benefit obligations based upon generally accepted actuarial methodologies using the projected benefit obligation ("PBO") for pension plans and the accumulated postretirement benefit obligation for other postretirement plans. Pension costs and other postretirement obligations as of December 31 were determined using an October 31 measurement date. The benefit obligations are the actuarial present value of all benefits attributed to employee service rendered. The PBO is measured using the pension benefit formula and assumptions as to future compensation levels. The plan's funded status is calculated as the difference between the benefit obligation and the fair value of plan assets. The Company's funding policy for the pension plans is to make annual contributions in accordance with regulations under the Internal Revenue Code and in accordance with generally accepted actuarial principles. The Company's postretirement benefit plans are not funded.

A reconciliation of the plans' funded status, to amounts recognized in Liabilities, Surplus and Other Funds as of December 31 was as follows:

	Pension Benefits		Postretirement Benefits	
(in millions)	**2004**	**2003**	**2004**	**2003**
Fair value of plan assets	$ 3,816	$ 3,302	$ -	$ -

The changes in benefit obligations for all plans for the years ended December 31, were as follows:

	Pension Benefits		Postretirement Benefits	
(in millions)	**2004**	**2003**	**2004**	**2003**
Benefit obligation, beginning of year	$ 4,115	$ 3,543	$ 801	$ 786

Other	(7)	(8)	-	-
Benefit obligation, end of year	$ 4,732	$ 4,115	$ 836	$ 801

The PBO and accumulated benefit obligation ("ABO") for non-vested pension participants was $69 million and $50 million, respectively at December 31, 2004. The PBO and ABO for non-vested pension participants was $57 million and $39 million, respectively at December 31, 2003. The postretirement benefit obligation for non-vested employees was $351 million and $317 million at December 31, 2004 and 2003, respectively.

The components of net periodic cost for all plans for the years ended December 31, were as follows:

	Pension Benefits		Postretirement Benefits	
(in millions)	**2004**	**2003**	**2004**	**2003**
Service cost	$ 161	$ 139	$ 31	$ 21

Net periodic cost	$ 285	$ 29	$ 98	$ 94

NOTES TO FINANCIAL STATEMENTS

Weighted average assumptions used to determine net pension cost and net postretirement benefit cost for the years ended December 31 were:

	Pension benefits		Postretirement benefits	
	2004	2003	2004	2003
Weighted average discount rate	6.25 %	7.0 %	6.25 %	7.0 %
Rate of increase in compensation levels	4.0 - 4.5	4.0 - 5.0	-	-
Expected long-term rate of return on plan assets	8.5	8.5	-	-

Weighted average assumptions used to determine benefit obligations at December 31, based on an October 31 measurement date, were:

	Pension benefits		Postretirement benefits	
	2004	2003	2004	2003
Weighted average discount rate	5.75 %	6.25 %	5.75 %	6.25 %
Rate of increase in compensation levels	4.0 - 4.5	4.0 - 5.0	-	-

The weighted average health care trend rate used in measuring the accumulated postretirement benefit obligation was 10.5% for 2005, gradually declining to 5.5% in 2010, and remaining level thereafter.

Assumed health care cost trend rates have a significant effect on the amounts reported for the postretirement health care plans. A one percentage-point increase in assumed health care cost trend rates would increase the total of the service and interest cost component of net periodic benefit cost of other postretirement benefits and the accumulated postretirement benefit obligation by $3 million and $10 million, respectively. A one percentage-point decrease in assumed health care cost trend rates would decrease the total of the service and interest cost components of net periodic benefit cost of other postretirement benefits and the accumulated postretirement benefit obligation by $3 million and $10 million, respectively.

The change in pension plan assets for the years ended December 31, was as follows:

(in millions)	2004	2003
Fair value of plan assets, beginning of year	$ 3,302	$ 2,236
Employer contributions	454	851
Benefits paid	(260)	(239)
Actual return on plan assets	327	461
Other	(7)	(7)
Fair value of plan assets, end of year	$ 3,816	$ 3,302

Pension plan assets at December 31, 2004 and 2003 comprise primarily equity securities and long-term corporate and United States Government obligations. The Company's other postretirement benefit plans currently are not funded.

A minimum pension liability adjustment was required when the actuarial present value of accumulated benefits exceeded plan assets and accrued pension liabilities. At December 31, 2004 and 2003, the minimum liability adjustment, less allowable intangible assets, benefit was $303 million and $241 million, respectively, and was reported as an adjustment to surplus.

Most domestic full-time, certain part-time employees and employee-agents of the Company are eligible to participate in The Savings and Profit Sharing Fund of Allstate Employees ("Fund"). Employer contributions to the Fund are based on actual performance levels and matching obligations under the Fund. The cost allocated to the Company for this benefit was $88 million and $92 million in 2004 and 2003, respectively.

13. Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations

1. The Company had 42,000 common shares authorized, issued and outstanding at December 31, 2004 and 2003. All shares had a par value of $100 per share.

`2. The Company had no preferred stock outstanding at December 31, 2004 or 2003.

3. The ability of the Company to pay dividends is dependent on business conditions, income, cash requirements of the Company, receipt of dividends and other relevant factors. Without prior approval of the IL DOI, dividends to shareholders are limited to $3.86 billion. This amount is formula driven based on net income and capital and surplus as specified by Illinois insurance law. Dividends are not cumulative.

4. Within the limitations of Part 3 above, there were no restrictions placed on the portion of the Company's profits that may be paid as ordinary dividends to stockholders.

5. The unassigned funds, which were held for the benefit of the shareholder, were unrestricted except by requirement for regulatory approval as described in Part 3 above.

6. The Company was not a mutual or similarly organized company, therefore this disclosure requirement did not apply.

7. The Company did not hold any stock for special purposes at December 31, 2004 or 2003.

8. In September 1996, the Company completed the sale of its United States based reinsurance operations for policies written after 1984 to SCOR US Corporation ("SCOR"). The transaction consisted of the sale of certain non-insurance assets, liabilities and renewal rights and a reinsurance transaction for the insurance liabilities. The Company followed NAIC accounting guidance for the treatment of retroactive contracts and reported the gain on the sale as a "write-in" adjustment to special surplus from retroactive reinsurance account. The balance of the special surplus funds was $29 million at December 31, 2004 compared to $57 million at December 31, 2003. The change in the special surplus funds balance was due to payment activity.

9. The components contributing to the cumulative increase or (reduction) of unassigned surplus at December 31 were as follows:

(in millions)	2004	2003
a. Unrealized gains and losses	$ 3,417	$ 3,863
b. Nonadmitted asset values	(1,927)	(1,726)
c. Separate Account business	-	-
d. Asset valuation reserves	-	-
e. Provision for reinsurance	(167)	(70)

10. The Company did not issue any surplus debentures or similar obligations at December 31, 2004 or 2003.

11. The Company did not have any restatements due to quasi-reorganizations in 2004 or 2003.

NOTES TO FINANCIAL STATEMENTS

12. The Company was not quasi-reorganized in 2004 or 2003.

14. Contingencies

A. Contingent Commitments

In addition to the item described in Note 10, Part E, the Company made the following contingent commitments and guarantees:

California Earthquake Authority ("CEA")

Exposure to certain potential losses from earthquakes in California is limited by the Company's participation in the CEA, which provides insurance for California earthquake losses.

The CEA is a privately-financed, publicly-managed state agency created to provide insurance coverage for earthquake damage. Insurers selling homeowners insurance in California are required to offer earthquake insurance to their customers either through their company or by participation in the CEA. The Company's homeowners policies continue to include coverages for losses caused by explosions, theft, glass breakage and fires following an earthquake, which are not underwritten by the CEA.

Should losses arising from an earthquake cause a deficit in the CEA, additional funding would be obtained through assessments on participating insurance companies and reinsurance proceeds. Participating insurers are required to pay an assessment, currently estimated not to exceed $2.18 billion, if the capital of the CEA falls below $350 million. Participating insurers are required to pay a second assessment, currently estimated not to exceed $1.46 billion, if aggregate CEA earthquake losses exceed $5.14 billion and the capital of the CEA falls below $350 million. At December 31, 2004, the CEA's capital balance was approximately $1.81 billion. If the CEA assesses its member insurers for any amount, the amount of future assessments on members is reduced by the amounts previously assessed. To date, the only assessment made by the CEA has been its initial assessment paid by participating insurers beginning in 1996. The authority of the CEA to assess participating insurers for the first assessment expires when it has completed twelve years of operation, at year-end 2008. All future assessments on participating CEA insurers are based on their CEA insurance market share as of December 31 of the preceding year. As of December 31, 2003, the Company's share of the CEA was 23%. The Company does not expect its CEA market share to materially change. At this level, the Company's maximum possible CEA assessment would be $830 million. However, the Company does not expect its portion of these additional contingent assessments, if any, to exceed $498 million, its share of the first assessment. This is based on the low likelihood of an event exceeding the CEA claims paying capacity of $5.14 billion, and therefore the need for a second assessment is remote. Management believes the Company's exposure to earthquake losses in California has been significantly reduced as a result of its participation in the CEA.

Other Hurricane Exposure

The Company has also mitigated its ultimate exposure to hurricanes by placing insurance coverage with third parties; examples include insurance coverage in certain areas of Florida where AFIC and Allstate Floridian Indemnity Company ("AFI"), both subsidiaries of the Company, do not write homeowners insurance, and in Hawaii, for hurricane insurance coverage to a non-affiliated company. The Company owns four subsidiaries, AFIC, AFI, Encompass Floridian Indemnity Company and Encompass Floridian Insurance Company, that write homeowners business in the state of Florida.

Shared Markets

As a condition of maintaining its licenses to write personal property and casualty insurance in various states, the Company is required to participate in assigned risk plans, reinsurance facilities and joint underwriting associations that provide various types of insurance coverage to individuals or entities that otherwise are unable to purchase such coverage from private insurers. Underwriting results related to these arrangements, which tend to be adverse, were immaterial to the Statement of Income.

PMI Runoff Support Agreement

The Company has certain limited rights and obligations under a capital support agreement ("Runoff Support Agreement") with PMI Mortgage Insurance Company ("PMI"), the primary operating subsidiary of The PMI Group, Inc. Under the Runoff Support Agreement, the Company would be required to pay claims on PMI policies written prior to October 28, 1994 if PMI fails certain financial covenants and fails to pay such claims. In the event any amounts are so paid, the Company would receive a commensurate amount of preferred stock or subordinated debt of The PMI Group, Inc. or PMI. The Runoff Support Agreement also restricts PMI's ability to write new business and pay dividends under certain circumstances. Management does not believe this agreement will have a material adverse effect on the Statement of Income, liquidity or financial position of the Company.

Morgan Stanley Guarantee

The Company executed a guarantee to Morgan Stanley DW, Inc. ("Morgan Stanley), related to the obligations of Northbrook Holdings, LLC ("Northbrook"), a wholly owned subsidiary of the Company under a certain Note Purchase Agreement between Northbrook and Morgan Stanley and promissory notes issued by Northbrook pursuant thereto. The balance of the notes was $57 million and $77 million at December 31, 2004 and 2003, respectively.

Allstate Real Estate Trust

The Company has guaranteed debt issued by Allstate Real Estate Trust, an unconsolidated special purpose entity, from which it leases an office building. The lease contains a residual value guarantee for the properties covered by the lease. The maximum amount of potential future payments for the guarantee of the debt or the residual value guarantee or the combined debt and residual value guarantee was $66 million at both December 31, 2004 and 2003. The guarantee for the office building expires on December 28, 2006.

Suntrust Guarantee

The Company provides residual value guarantees on Company leased automobiles. If all outstanding leases were terminated effective December 31, 2004, the Company's maximum obligation pursuant to these guarantees, assuming the automobiles have no residual value, would be $19 million at December 31, 2004. If all outstanding leases were terminated effective December 31, 2003, the Company's maximum obligation pursuant to these guarantees, assuming the automobiles have no residual value, would also be $19 million at December 31, 2003. The remaining term of each residual value guarantee is equal to the term of the underlying lease that range from less than one year to three years. Historically, the Company has not made any material payments pursuant to these guarantees.

B. Assessments

Under state insurance guaranty fund laws, insurers doing business in a state can be assessed, up to prescribed limits, for certain obligations of insolvent insurance companies to policyholders and claimants. The Company's policy is to accrue guaranty fund assessments based on notification of new and ongoing insolvencies received from individual state guaranty associations. At December 31, 2004 and 2003, the Company had accrued, on a direct basis, $82 million and $72 million, respectively, for future guaranty fund assessments and $33 million and $27 million, respectively, for the related premium tax offset expected to be paid. The period over which assessments are expected to be paid varies. Premium tax offsets are realized on a straight-line basis over the period allowed by each individual state once the guaranty fund assessment has been paid.

NOTES TO FINANCIAL STATEMENTS

The Company is subject to assessments from the Florida Hurricane Catastrophe Fund ("FHCF"). The FHCF has the authority to issue bonds to pay its obligations to participating insurers in excess of its capital balances, which are funded by assessments on all property and casualty premiums in the state, except workers' compensation, medical malpractice and accident and health insurance. By law, these assessments are the obligation of insurance policyholders, which insurance companies must collect. The FHCF assessments are limited to 6% of premiums per year beginning in the first year in which reimbursements require bonding, and up to a total of 10% of premiums per year for assessments in the second and subsequent years, if required to fund additional bonding. Upon the order of the FL OIR, companies are required to collect the FHCF assessments directly from residential property policyholders and remit them to the FHCF as they are collected. Assessments in the amount of $4 million and $3 million were paid to the FHCF in 2004 and 2003, respectively.

In addition, the Company is subject to assessments from Citizens Property Insurance Corporation ("Citizens"), which was created by the state of Florida to provide insurance to property owners unable to obtain coverage in the private insurance market. Citizens, at the discretion and direction of its Board of Directors, can levy a regular assessment on participating companies for a deficit in any calendar year equal to the greater of 10% of the deficit or 10% of Florida property premiums industry-wide for the prior year. An insurer may recoup a regular assessment through a surcharge to policyholders subject to a cap on the amount that can be charged in any one year. A rate filing or any portion of a rate change attributable entirely to an assessment is subject to the FL OIR's statutory authority to review the "adequacy" of any rate at any time. If a deficit remains after the regular assessment, Citizens can also fund the remaining deficit by issuing bonds. The costs of these bonds are then funded through emergency assessments in subsequent years. Companies are required to collect the emergency assessments directly from residential property policyholders and remit them to Citizens as they are collected. Participating companies are obligated to purchase any unsold bonds issued by Citizens. In order to recoup its Citizens assessment, an insurer must file for a policy surcharge with the FL OIR at least 15 days prior to imposing the surcharge on policies.

While facilities such as the FHCF and Citizens are designed so that the ultimate cost is borne by policyholders, the exposure to assessments and the availability of recoveries from these facilities may not offset each other. Moreover, even if they do offset each other, they may not offset each other in the same fiscal period's financial statements. This would be due to the ultimate timing of the assessments and recoupments, as well as the possibility of policies not being renewed in subsequent years. Citizens is expected to report higher losses from the hurricanes that struck Florida in the third quarter of 2004. Its Board of Directors is meeting in March 2005 to review its financial condition and determine if it will assess the industry.

C. Gain Contingencies

The Company has not recognized any gain contingencies subsequent to December 31, 2004 but prior to the issuance of the Company's Annual Statutory Statement.

D. All Other Contingencies

Regulation

The Company is subject to changing social, economic and regulatory conditions. Recent state and federal regulatory initiatives and proceedings have included efforts to influence and restrict premium rates in a manner adverse to insurers, restrict the ability of insurers to cancel policies, limit insurers' ability to impose underwriting standards, impose additional regulations regarding agent and broker compensation, and otherwise expand overall regulation of insurance products and the insurance industry. The ultimate changes and eventual effects of these initiatives on the Company's business, if any, are uncertain.

Regulatory bodies have contacted various subsidiaries of the Company and have requested information relating to variable insurance products, including such areas as market timing and late trading and sales practices. The Company believes that these inquiries are similar to those made to many financial services companies as part of an industry-wide investigation by various regulatory agencies into the practices, policies and procedures relating to variable insurance product sales and subaccount trading practices. The various subsidiaries of the Company have and will continue to respond to these information requests and investigations. The Company at the present time is not aware of any systemic problems with respect to such matters that may have a material adverse effect on the Company's financial position.

Legal proceedings

Background

The Company and certain of its subsidiaries are named as defendants in a number of lawsuits and other legal proceedings arising out of various aspects of its business. As background to the "Proceedings" sub-section below, please note the following:

- These matters raise difficult and complicated factual and legal issues and are subject to many uncertainties and complexities, including but not limited to, the underlying facts of each matter, novel legal issues, variations between jurisdictions in which matters are being litigated, differences in applicable laws and judicial interpretations, the length of time before many of these matters might be resolved by settlement or through litigation and, in some cases, the timing of their resolutions relative to other similar cases brought against other companies, the fact that many of these matters are putative class actions in which a class has not be certified and in which the purported class may not be clearly defined, the fact that many of these matters involve multi-state class actions in which the applicable law(s) for the claims at issue is in dispute and therefore unclear, and the current challenging legal environment faced by large corporations and insurance companies.

- In these matters, plaintiffs seek a variety of remedies including equitable relief in the form of injunctive and other remedies and monetary relief in the form of contractual and extra-contractual damages. In some cases, the monetary damages sought include punitive or treble damages or are not specified. Often more specific information beyond the type of relief sought is not available because plaintiffs have not requested more specific relief in their court pleadings. In those cases where plaintiffs have made a specific demand for monetary damages, they often specify damages just below a jurisdictional limit regardless of the facts of the case. This represents the maximum they can seek without risking removal from state court to federal court. In our experience, monetary demands in plaintiffs' court pleadings bear little relation to the ultimate loss, if any, to the Company.

- For the reasons specified above, it is not possible to make meaningful estimates of the amount or range of loss that could result from these matters at this time. The Company reviews these matters on an ongoing basis and follows the provisions of SSAP No. 5, Liabilities, Contingencies and Impairments of Assets when making accrual and disclosure decisions. When assessing reasonably possible and probable outcomes, the Company bases its decisions on its assessment of the ultimate outcome following all appeals.

- In the opinion of the Company's management, while some of these matters may be material to the Company's operating results for any particular period if an unfavorable outcome results, none will have a material adverse effect on the financial condition of the Company.

Proceedings

There are two active nationwide class action lawsuits against the Company regarding its specification of after-market (non-original equipment manufacturer) replacement parts in the repair of insured vehicles. One of these suits alleges that the specification of such parts constitutes breach of contract and fraud, and this suit mirrors to a large degree lawsuits filed against other carriers in the industry. These plaintiffs allege that after-market parts are not "of like kind and quality" as required by the insurance policy, and they are seeking actual and punitive damages. The Company has been vigorously defending this lawsuit, but its outcome is

NOTES TO FINANCIAL STATEMENTS

uncertain. In the second lawsuit, plaintiffs allege that the Company and three co-defendants have violated federal antitrust laws by conspiring to manipulate the price of auto physical damage coverages in such a way that not all savings realized by the use of aftermarket parts are passed on to the policyholders. These plaintiffs seek actual and treble damages. In November 2002, a nationwide class was certified in this case. The defendants filed a petition to appeal the class certification. The Eleventh Circuit Court of Appeals did not reach the question of class certification, but ruled in favor of the defendants and ordered the lower court to dismiss the case on the grounds that under the McCarran-Ferguson Act, the defendants' alleged actions are not covered by the federal antitrust laws. The plaintiffs filed a motion for reconsideration, which was denied by the court on January 25, 2005. The Company is awaiting further actions, if any, by the plaintiffs.

There are several statewide and nationwide class action lawsuits pending against the Company alleging that its failure to pay "inherent diminished value" to insureds under the collision, comprehensive, uninsured motorist property damage, or auto property damage liability provisions of auto policies constitutes breach of contract and fraud. Plaintiffs define "inherent diminished value" as the difference between the market value of the insured automobile before an accident and the market value after repair. Plaintiffs allege that they are entitled to the payment of inherent diminished value under the terms of the policy. To a large degree, these lawsuits mirror similar lawsuits filed against other carriers in the industry. These lawsuits are pending in various state and federal courts, and they are in various stages of development. Classes have been certified in only two cases. Both are multi-state class actions. A trial in one of these multi-state class action cases involving collision and comprehensive coverage concluded on April 29, 2004, with a jury verdict in favor of the Company. The plaintiffs made a motion for a new trial, which was denied, and have now filed an appeal from the judgment. In the other certified class action lawsuit, which involves uninsured motorist property damage coverage, the appellate court has granted the Company's petition for review of the order of certification. The Company has been vigorously defending all these lawsuits and, since 1998, has been implementing policy language in more than 40 states reaffirming that its collision and comprehensive coverages do not include diminished value claims. The outcome of these disputes remain uncertain.

There are a number of state and nationwide class action lawsuits pending in various state courts challenging the legal propriety of the Company's medical bill review processes on a number of grounds, including, among other things, the manner in which the Company determines reasonableness and necessity. One nationwide class action has been certified. These lawsuits, which to a large degree mirror similar lawsuits filed against other carriers in the industry, allege these processes result in a breach of the insurance policy as well as fraud. Plaintiffs seek monetary damages in the form of contractual and extra contractual damages. The Company denies those allegations and has been vigorously defending these lawsuits. The outcome of these disputes is currently uncertain.

A number of nationwide and statewide putative class actions are pending against the Company, which challenge the Company's use of certain automated database vendors in valuing total loss automobiles. To a large degree, these lawsuits mirror similar lawsuits filed against other carriers in the industry. Plaintiffs allege that flaws in these databases result in valuations to the detriment of insureds. The plaintiffs are seeking actual and punitive damages. The lawsuits are in various stages of development and the Company has been vigorously defending them, but the outcome of these disputes is currently uncertain.

The Company is defending a putative nationwide class action that alleges that the Company discriminates against non-Caucasian policyholders, through underwriting and rate-making practices including the use of credit by charging them higher premiums. The plaintiffs seek both monetary relief, in the form of actual and punitive damages, and equitable relief, in the form of injunctive and other remedies. The Company is also defending a putative statewide class action challenging its use of credit under certain state insurance statutes. These plaintiffs seek monetary and equitable relief. The Company removed the case to Federal Court. Plaintiff's motion to remand to state court was denied and is now being appealed. The Company denies these allegations and has been vigorously defending these lawsuits. The outcome of these disputes is currently uncertain.

The Company is defending various lawsuits involving worker classification issues. These lawsuits include a number of putative class actions and one certified class action challenging the overtime exemption claimed by the Company under the Fair Labor Standards Act or state wage and hour laws. In the one certified class action, the trial court found the Company liable and the case will proceed to trial on damages. In these cases, plaintiffs seek monetary relief, such as penalties and liquidated damages, and non-monetary relief, such as injunctive relief and an accounting. These class actions mirror similar lawsuits filed recently against other carriers in the industry and other employers. A putative nationwide class action filed by former employee agents also includes a worker classification issue; these agents are challenging certain amendments to the Agents Pension Plan and are seeking to have exclusive agent independent contractors treated as employees for benefit purposes. This matter was dismissed with prejudice in late March 2004 by the trial court but is the subject of further proceedings on appeal. The Company has been vigorously defending these and various other worker classification lawsuits. The outcome of these disputes is currently uncertain.

The Company is defending certain matters relating to the Company's agency program reorganization announced in 1999. These matters include a lawsuit filed in December 2001 by the U.S. Equal Employment Opportunity Commission ("EEOC") alleging retaliation under federal civil rights laws, a class action filed in August 2001 by former employee agents alleging retaliation and age discrimination under the Age Discrimination in Employment Act, breach of contract and ERISA violations, and a lawsuit filed in October 2004 by the EEOC alleging age discrimination with respect to a policy limiting the rehire of agents affected by the agency program reorganization. The Company is also defending another action, in which a class was certified in June 2004, filed by former employee agents who terminated their employment prior to the agency program reorganization. These plaintiffs have asserted claims under ERISA and for constructive discharge, and are seeking the benefits provided in connection with the reorganization. In late March 2004, in the first EEOC lawsuit and class action lawsuit, the trial court issued a memorandum and order that, among other things, certified classes of agents, including a mandatory class of agents who had signed a release, for purposes of effecting the court's declaratory judgment that the release is voidable at the option of the release signer. The court also ordered that an agent who voids the release must return to the Company "any and all benefits received by the (agent) in exchange for signing the release". The court also "concluded that, on the undisputed facts of record, there is no basis for claims of age discrimination." The EEOC and plaintiffs have asked the court to clarify and/or reconsider its memorandum and order. The case otherwise remains pending. A putative nationwide class action has also been filed by former employee agents alleging various violations of ERISA. This matter was dismissed with prejudice in late March 2004 by the trial court but is the subject of further proceedings on appeal. In these matters, plaintiffs seek compensatory and punitive damages, and equitable relief. The Company has been vigorously defending these lawsuits and other matters related to its agency program reorganization. In addition, the Company is defending certain matters relating to the life agency program reorganization announced in 2000. These matters include an investigation by the EEOC with respect to allegations of age discrimination and retaliation. The Company is cooperating with the agency investigation and will continue to vigorously defend these and other claims related to the life agency program reorganization. The outcome of these disputes is currently uncertain.

The Company is defending a number of lawsuits brought by plaintiffs challenging trading restrictions the Company adopted in an effort to limit market-timing activity in its variable annuity sub-accounts. In one case, plaintiffs' motion for summary judgment on their breach of contract claims was granted and the matter will proceed to trial on damages. In these various lawsuits, plaintiffs seek a variety of remedies including monetary and equitable relief. The Company has been vigorously defending these matters, but their outcome is currently uncertain.

Other Actions

The Corporation and some of its agents and subsidiaries have received interrogatories and demands to produce information from several regulatory and enforcement authorities. These authorities are seeking information relevant to ongoing investigations into the possible violation of antitrust or insurance laws by unnamed parties and, in particular, are seeking information as to whether any person engaged in activities for the purpose of price fixing, market allocation, or bid rigging. Published press reports have indicated that numerous demands of this nature have been sent to insurance companies as part of industry-wide investigations. The Corporation has cooperated and intends to continue to cooperate with these and any similar requests for information.

Various other legal and regulatory actions are currently pending that involve the Company and specific aspects of its conduct of business. Like other members of the insurance industry, the Company is the target of a number of class action lawsuits and other types

NOTES TO FINANCIAL STATEMENTS

of litigation, some of which involve claims for substantial or indeterminate amounts. This litigation is based on a variety of issues and targets a range of the Company's practices. The outcome of these disputes is currently unpredictable. However, at this time, based on their present status, it is the opinion of management that the ultimate liability, if any, in one or more of these other actions in excess of amounts currently reserved is not expected to have a material effect on the results of operations, liquidity or financial position of the Company.

15. Leases

A. Lessee Operating Lease

1. The Company leases certain office facilities and computer equipment under various noncancelable operating lease agreements that expire through 2014. Total rent expense for all leases was $348 million and $349 million in 2004 and 2003, respectively.

2.

a. At December 31, 2004, the minimum aggregate rental commitments under noncancelable operating leases with an initial or remaining term of more than one year were as follows:

(in millions)	
2005	$ 209
2006	153
2007	104
2008	77
2009	62
Thereafter	132
Total	$ 737

3. Sale-leaseback transactions

a. During 2002, the Company entered into a transaction whereby it sold computer equipment to Meridian Leasing Corporation. Simultaneously, the Company entered into a three year noncancelable agreement to lease the computer equipment back for $32 thousand a month. The lease agreement contains provisions for the Company to repurchase the computer equipment or extend the lease at the end of its term.

b. The transaction described above was not accounted for as a deposit.

B. Lessor Leases

Leasing activities were not a material part of the Company's business activities in 2004 or 2003.

16. Information about Financial Instruments With Off-Balance Sheet Risk and Concentration of Credit Risk

Derivative financial instruments

1. The following table summarizes the notional amount of the Company's derivative financial instruments, including those with off-balance sheet risk, at December 31:

(in millions)	**2004**	**2003**
Interest rate contracts		
Futures contracts	$ 880	$ 290
Equity and index contracts		
Index futures contracts	113	90
Total derivative financial instruments	$ 993	$ 380

The notional amounts specified in the contracts are used to calculate the exchange of contractual payments under the agreements, and are not representative of the potential for gain or loss on these agreements. The fair value and statement value of the contracts listed above were zero at December 31, 2004 and 2003. Fair value is the estimated amount that the Company will receive (pay) to terminate the derivative contracts at the reporting date.

2. The credit risk, market risk, and cash requirements of the Company's derivative instruments are discussed in Note 8, Part A. The accounting policies for the Company's derivative instruments are disclosed in Note 1, Part C and Note 8, Part C.

3. At December 31, 2004 or 2003 none of the Company's derivative contracts, including those with off-balance sheet risk, had credit exposure.

Credit exposure represents the Company's potential loss if all of the counterparties failed to perform under the contractual terms of the contracts and all collateral, if any, became worthless. This exposure is measured by the fair value of freestanding derivative contracts with a positive fair value at the reporting date reduced by the effect, if any, of master netting agreements. Futures are traded on organized exchanges, which require margin deposits and guarantee the execution of trades, thereby mitigating any associated potential credit risk. To date, the Company has not incurred any losses on derivative financial instruments due to counterparty nonperformance.

4. The Company's policy for requiring collateral is discussed in Note 8, Part A.

In general, the collateral pledged by the Company is in the custody of a counterparty or an exchange. However, the Company has access to this collateral at any time, subject to replacement. The Company is required to post collateral for all exchange-traded futures contracts that are entered into. The amount of collateral required is determined by the type and fair value of the open futures contract position. In order to satisfy the collateral requirement, the Company pledged U.S. Treasury bonds. At December 31, 2004 and 2003, the Company had pledged $12 million and $8 million, respectively, as collateral to counterparties.

Off-balance sheet financial instruments (excluding derivatives)

1. The table below presents a summary of the contractual amounts of off-balance sheet financial instruments, other than derivatives at December 31:

(in millions)	**2004**	**2003**
Commitments to invest	$ 473	$ 382
Commitments to extend mortgage loans	11	14
Private placement commitments	6	6

NOTES TO FINANCIAL STATEMENTS

2. Commitments to invest generally represent commitments to acquire financial interests or instruments. The Company enters into these agreements to allow for additional participation in certain limited partnership investments. Commitments to invest are generally callable at the counterparty's request.

   Commitments to extend mortgage loans are agreements to lend to a borrower provided there is no violation of any condition established in the contract. The Company enters into these agreements to commit to future loan fundings at a predetermined interest rate. Commitments generally have fixed expiration dates or other termination clauses.

   Private placement commitments represent conditional commitments to purchase private placement debt and equity securities at a specified future date. The Company regularly enters into these agreements in the normal course of business.

3. For commitments to invest, commitments to extend mortgage loans, and commitments to purchase private placements, the amounts presented in part 1 above represent the amount at risk if the contract was fully drawn upon, the counterparty defaults and the value of any underlying security becomes worthless.

4. The Company does not require collateral or other security to support off-balance sheet financial instruments with credit risk.

17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

A. The Company did not report any transfers of receivables as sales in 2004 or 2003.

B.

1. During 2004 and 2003, the only transfers of financial assets, as defined by SSAP No. 18, Transfers and Servicing of Financial Assets and Extinguishment of Liabilities, the Company entered into were securities lending agreements. The Company was able to estimate the fair value of assets obtained and liabilities incurred in these agreements.

2. The Company entered into securities lending agreements using U.S. Treasury bonds, corporate bonds and domestic and foreign equities in 2004 and 2003. Securities lent were either specifically identified by the lending bank or segregated into a separate custody account. The amounts on loan were $1.26 billion and $1.21 billion at December 31, 2004 and 2003, respectively. The Company obtains collateral in an amount equal to 102% and 105% of the fair value of the loaned domestic and foreign securities, respectively. All collateral is maintained in a separate custody account. The Company monitors the market value of securities loaned on a daily basis with additional collateral obtained as necessary. Substantially all of the Company's securities loaned were with large brokerage firms.

3. The Company did not enter into any servicing assets or liability agreements in 2004 or 2003.

C. In the course of managing the Company's investment portfolio, securities are sold and reacquired within 30 days of the sale date. Such transactions are referred to as wash sales. The details, by NAIC designation 3 or below of bonds and preferred stock sold during 2004 and 2003 and reacquired within 30 days of the sale date were:

2004				
($ in millions)	Number of Transactions	Book Value of Securities Sold	Cost of Securities Repurchased	Gain/(Loss)
Bonds				
NAIC 3	4	$ 21	$ 27	$ (6)
NAIC 4	7	8	9	(1)
NAIC 5	-	-	-	-
Preferred Stock				
NAIC P/RP 4	-	-	-	-

2003				
($ in millions)	Number of Transactions	Book Value of Securities Sold	Cost of Securities Repurchased	Gain/(Loss)
Bonds				
NAIC 3	3	$ 1	$ 1	$ -
NAIC 4	7	11	12	(1)
NAIC 5	3	2	2	-
Preferred Stock				
NAIC P/RP 4	1	-	-	-

18. Gain or Loss to the Reporting Entity from Uninsured Plans and the Uninsured Portion of Partially Insured Plans

The Company did not act as a third party administrator for any uninsured plans.

19. Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

There were no direct premiums written through managing general agents/third party administrators which were equal to or greater than 5% of the Company's surplus in 2004 or 2003.

20. September 11 Events

Catastrophe losses in 2004 and 2003 included pre-tax losses, net of reinsurance, of $94 thousand and $321 thousand, respectively due to the September 11, 2001 attack on the World Trade Center in New York City, the Pentagon in Washington D.C., and the plane crash in Pennsylvania. Management does not expect any future contingencies or unpaid claims or losses related to these events to have a material impact on the Company's financial statements.

21. Other Items

A. Extraordinary Items

The Company did not have any extraordinary items at December 31, 2004 or 2003.

B. Troubled Debt Restructuring: Debtors

The Company did not have any troubled debt restructurings at December 31, 2004 or 2003.

NOTES TO FINANCIAL STATEMENTS

C. Other Disclosures

Internally developed software consisted of the following at December 31:

(in millions)	2004	2003
January 1, beginning balance	$ 119	$ 153
Capitalized cost	35	9
Depreciation	(43)	(43)
December 31, ending balance	$ 111	$ 119

Accumulated depreciation on internally developed software was $173 million and $130 million at December 31, 2004 and 2003, respectively. The internal and external costs incurred to develop internal-use computer software and web sites during the application development stage and infrastructure stage are capitalized, and since it is all non-operating software, amortized on a straight-line basis over the lesser of five years or its estimated useful life. All internally developed software was nonadmitted in the Assets page at December 31, 2004 and 2003.

Total assets on deposit at both December 31, 2004 and 2003 included bonds with par values of $35 million that were on deposit with the Bank of New York related to escrow accounts established in accordance with North Carolina Department of Insurance Bulletins 02-B-1 and 02-B-11 (“NC DOI Bulletins”). The fair values of the bonds related to NC DOI Bulletins were $43 million and $42 million at December 31, 2004 and 2003, respectively. At December 31, 2004 the Company had processed all refunds related to the NC DOI Bulletins and is pursuing release of the escrowed funds.

In June 2004, the Company, ALIC and the Corporation replaced its primary credit facility. The primary facility is a $1 billion five-year revolving line of credit expiring in 2009. It contains an increase provision that would make up to an additional $500 million available for borrowing provided the increased portion could be fully syndicated at a later date among existing and new lenders. There were no borrowings under this line of credit during 2004.

Included in the Annual Statement is a schedule of net unpaid loss and loss expense reserves, as reported in Schedule P - Part 1 columns 13 through 24, which presents net unpaid loss and loss expense reserves for accident years 1994, 1993, 1992, 1991, 1990 and 1989 and prior, for each line of business reported.

Line 5 on Page 3, Liabilities, Surplus and Other Funds included $32 million and $28 million of reserves related to employee medical and dental plans at December 31, 2004 and 2003, respectively.

The Company had $13 million in incurred losses for extra contractual obligations in 2004.

D. Premium Balances Reasonably Possible to be Uncollectible

Premiums receivable are recorded net of the allowance for uncollectible amounts less than 90 days old. The allowance is determined based on the age of the receivable and prior collection experience. The Company routinely assesses the collectibility of its premium receivables. Premium receivables older than 90 days are nonadmitted. The allowance balance for admitted premium receivables, after reinsurance, was $13 and $12 million at December 31, 2004 and 2003, respectively.

Retrospectively rated premiums are assessed quarterly to determine if they are collectible by taking into consideration their age and prior collection experience. Retrospectively rated premiums older than 90 days are nonadmitted. Retrospectively rated premiums for which the Company believes it is probable they will be uncollectible are written off against operations in the period that determination is made. At December 31, 2004, the Company had recorded $108,743 of retrospectively rated premiums which were nonadmitted because they were older than 90 days, however the Company believes they are possible to collect. At December 31, 2003 none of the retrospectively rated premiums were nonadmitted by the Company and all were possible to collect.

E. Business Interruption Insurance Recoveries

The Company did not own any business interruption insurance policies in 2004 or 2003, and therefore, has received no recoveries.

22. Events Subsequent

On January 10, 2005 the Company declared a $200 million cash divided which was paid to the Corporation on February 1, 2005. In addition on February 10, 2005 the Company declared cash dividends payable to the Corporation of $200 million and $400 million. The $200 million dividend is to be paid on or after March 1, 2005 but no later than March 31, 2005. The $400 million is to be paid on or after April 1, 2005 but no later than April 30, 2005.

23. Reinsurance

A. Unsecured Reinsurance Recoverables

The Company had unsecured reinsurance recoverables of $820 million and $555 million at December 31, 2004 and 2003, respectively, with the Michigan Catastrophic Claim Association (NAIC Group Code 0000, FEIN AA-9991159). The Company had no other unsecured reinsurance recoverables that exceeded 3% of the Company’s policyholders surplus at December 31, 2004 or 2003.

B. Reinsurance Recoverable in Dispute

The Company had no reinsurance recoverable on paid or unpaid (including incurred but not reported) losses in dispute by reason of notification, arbitration or litigation at December 31, 2004 or 2003, that either individually exceeded 5% of the Company’s policyholders surplus, or in the aggregate exceeded 10% of the Company’s policyholders surplus.

NOTES TO FINANCIAL STATEMENTS

C. Reinsurance Assumed and Ceded

1. The maximum amount of return commission which would have been due to reinsurers if they or the Company had canceled all of the Company's reinsurance or if the Company or a receiver had canceled all the Company's insurance assumed as of December 31 with the return of unearned premium reserve was as follows:

(in millions)	2004					
	Assumed Reinsurance Premium Reserve	Assumed Reinsurance Commission Equity	Ceded Reinsurance Premium Reserve	Ceded Reinsurance Commission Equity	Net Premium Reserve	Net Commission Equity
(i) Affiliates	$ 3,034	$ 379	$ -	$ -	$ 3,034	$ 379

2. The Company had no additional or return commission, predicated on loss experience or any other form of profit sharing arrangement as a result of existing contractual arrangements at December 31, 2004 or 2003.

3. The Company had no protected cells at December 31, 2004 or 2003.

D. Uncollectible Reinsurance

In 2004, the Company did not write off any reinsurance balances. However, in 2003 the Company wrote off reinsurance balances for incurred losses of $10 million. In 2003, write-offs of $8 million and $2 million were attributable to reinsurance with Fremont Indemnity Company and Home Insurance Company, respectively.

E. Commutation of Ceded Reinsurance

In 2004, the Company recorded a net loss of $214 thousand to incurred losses as a result of the commutation of reinsurance. Listed below are the components of the net loss by individual reinsurer:

(in thousands)	(Gain)/Loss
St. Paul International Company	$ (348)
Hamburger Internationale Company	(29)
Constellation Reinsurance Company	261
Copenhagen Re	330
Total	$ 214

In 2003, the Company reported a net gain of $2 million to incurred losses primarily as a result of the commutation of reinsurance with New England Reinsurance Corporation.

F. Retroactive Reinsurance

1. The Company entered into an Assumption and Indemnity Retrocession Agreement with SCOR.

e. SCOR (NAIC number 30058) was the only cedant involved in all the transactions included in the summary totals above.

There were no reinsurers the Company assumed retroactive reinsurance from in 2004 or 2003.

f. There were no amounts of total paid loss or loss adjustment expenses recoverable at December 31, 2004 or 2003.

NOTES TO FINANCIAL STATEMENTS

G. Reinsurance Accounted for as a Deposit

On October 1, 1999, the Company completed the acquisition of the personal lines business from CNA Financial Corporation ("CNA"). The transaction included, among other things, an indemnity reinsurance agreement and a reserve agreement. The reserve agreement guaranteed the adequacy, in all material respects, of the loss reserves transferred by CNA under the indemnity reinsurance agreement. The Company used deposit accounting to account for the indemnity reinsurance agreement, as the portion of the indemnity reinsurance agreement governing the transfer of the loss reserves did not, despite its form, transfer both components of insurance risk. In accordance with the requirements of deposit accounting, an initial asset deposit equal to the amount of $1.05 billion was recorded. The inception to date net loss payments, for this agreement totaled $806 million and $774 million at December 31, 2004 and 2003, respectively. Inception to date net adjustments that related to the reserve agreement reduced the reserves on deposit by $187 million and $203 million at December 31, 2004 and 2003, respectively. The balance of the reserves on deposit was $54 million and $71 million at December 31, 2004 and 2003, respectively.

24. Retrospectively Rated Contracts and Contracts Subject to Redetermination

A. The Company estimated accrued retrospective premium adjustments through the review of each individual retrospectively rated risk, comparing the known loss development, including incurred but not reported reserves ("IBNR"), with that anticipated in the policy contract to arrive at the best estimate of returned or additional retrospective premium.

B. The Company recorded accrued retrospective premium as an adjustment to earned premiums.

C. See Schedule P – Part 7A for the amount of 2004 net premiums written that were subject to retrospective rating features. The amount of net premiums written by the Company subject to retrospective rating features was $(93) thousand for the year ending December 31, 2003.

In both 2004 and 2003, the net premiums written by the Company subject to retrospective rating features represented less than one half of one percent of the total net premiums written by the Company.

D. The Company nonadmitted ten percent of the amount of accrued retrospective premiums not offset by retrospective return premiums, other liabilities to the same party (other than loss and loss adjustment expense reserves), or collateral as permitted by SSAP No. 66, Retrospectively Rated Contracts, as follows:

(in millions)		**2004**		**2003**
a. Total accrued retro premiums	$	8	$	7
b. Unsecured amount		5		5
c. Less: Non-admitted amount (10%)		1		1
d. Less: Non-admitted for any person for whom agents' balances or uncollected premiums are nonadmitted		-		-
e. Admitted amount (a) – (c) – (d)	$	7	$	6

25. Change in Incurred Losses and Loss Adjustment Expenses

The Company establishes reserves for loss and loss adjustment expenses on reported and unreported claims of insured losses. These reserve estimates are based on known facts and interpretations of circumstances and internal factors including the Company's experience with similar cases, historical trends involving claim payment patterns, loss payments, pending levels of unpaid claims, loss management programs and product mix. In addition, the reserve estimates are influenced by external factors including law changes, court decisions, changes to regulatory requirements, economic conditions, and public attitudes. The Company, in the normal course of business, may also supplement its claim processes by utilizing third party adjusters, appraisers, engineers, inspectors, other professionals and information sources to assess and settle catastrophe and non-catastrophe related claims. The effects of inflation are implicitly considered in the reserving process.

Because reserves are estimates of losses that have occurred, including IBNR, the establishment of appropriate reserves, including reserves for catastrophes, is an inherently uncertain and complex process. The ultimate cost of losses may vary materially from recorded amounts, which are based on management's best estimates. The Company regularly updates its reserve estimates as new information becomes available and as events unfold that may impact the resolution of unsettled claims. Changes in prior year reserve estimates, which may be material, are reflected in the Statement of Income in the period such changes are determinable.

Activity in the reserve for losses and loss adjustment expenses, on a net basis was summarized as follows at December 31:

(in millions)		**2004**		**2003**
Balance at January 1	$	13,990	$	13,318
Incurred losses and loss adjustment expense related to:				
Current year		15,251		15,494
Prior years		(225)		473
Total incurred		15,026		15,967
Losses and loss adjustment expenses paid related to:				
Current year		9,311		9,554
Prior years		5,531		5,741
Total paid		14,842		15,295
Balance at December 31	$	14,174	$	13,990

Incurred losses and loss adjustment expenses attributable to insured events of prior years were $(225) million and $473 million as a result of the reestimation of unpaid losses and loss adjustment expenses for the years ending December 31, 2004 and 2003, respectively. For the year ended December 31, 2004 the favorable development in incurred loss and loss adjustment expenses related to the prior years was primarily due to decreases in auto injury severity development that was better than expected and late reported loss development that was better than expected due to lower frequency trends in recent years, partially offset by increases to the asbestos reserves. For the year ended December 31, 2003 the incurred loss and loss adjustment expenses related to prior years was primarily due to higher than expected losses for asbestos exposures partially offset by favorable development in auto liability coverages.

Anticipated salvage and subrogation of $575 million and $598 million was included as a reduction of loss reserves at December 31, 2004 and 2003, respectively.

26. Intercompany Pooling Arrangements

The Company was not a member of an intercompany pooling arrangement in 2004 or 2003.

NOTES TO FINANCIAL STATEMENTS

27. Structured Settlements

A. To settle certain claims, the Company purchased annuities from various life insurers where the claimant was the payee but for which the Company was contingently liable in the event the issuer of the annuity was unable to perform. The aggregate amount due from life insurers at December 31, 2004 and 2003 was $361 million and $365 million, respectively.

B. The total value of all annuities due from one life insurer which equaled or exceeded 1% of the Company's policyholder surplus was as follows at December 31:

(in millions)	2004		2003	
Life Insurance Company and Location	Licensed in Company's State of Domicile (yes/no)	Statement Value (i.e. present value) of Annuities	Licensed in Company's State of Domicile (yes/no)	Statement Value (i.e. present value) of Annuities
Allstate Life Insurance Company, Northbrook Illinois	Yes	$ 238	Yes	$ 257

28. Health Care Receivables

The Company did not have any health care receivables, as defined by SSAP No. 84, Certain Health Care Receivables and Receivables Under Government Insured Plans, at December 31, 2004 or 2003.

29. Participating Policies

The Company did not have any participating policies, as defined by SSAP No. 51, Life Contracts, or SSAP No. 54, Individual and Group Accident and Health Contracts, at December 31, 2004 or 2003.

30. Premium Deficiency Reserves

The Company did not record any premium deficiency reserves at December 31, 2004 or 2003. Anticipated investment income was considered as a factor in the premium deficiency calculation.

31. High Deductibles

At December 31, 2004 and 2003, the amount of reserve credit recorded for high deductibles on unpaid claims was $364 thousand and $398 thousand, respectively. The amount billed and recoverable on paid claims was $58 thousand and $49 thousand at December 31, 2004 and 2003, respectively.

32. Discounting of Liabilities for Unpaid Losses or Unpaid Loss Adjustment Expense

The Company did not discount the liabilities for unpaid losses or unpaid loss adjustment expenses in 2004 or 2003.

33. Asbestos/Environmental Reserves

A. Reserves for environmental and asbestos claims were an accumulation of the estimated amounts necessary to settle all outstanding claims, including claims that have been incurred but not reported as of the reporting date. These reserve estimates were based on known facts and interpretations of circumstances and internal factors including the Company's experience with similar cases, historical trends involving claim payment patterns, loss payments and pending levels of unpaid claims. In addition, the reserve estimates were also influenced by external factors including law changes, court decisions, changes in regulatory requirements, economic conditions, and public attitudes.

The Company's exposure to asbestos and environmental claims arises principally from assumed reinsurance coverage written during the 1960s through the mid-1980's, including reinsurance on primary insurance written on large United States companies, and from direct excess insurance written from 1972 through 1985, including substantial excess general liability coverages on Fortune 500 companies. Additional exposure stems from direct primary commercial insurance written during the 1960s through the mid-1980s.

In 1986, the general liability policy form used by the Company and others in the property-liability industry was amended to introduce an "absolute pollution exclusion," which excluded coverage for environmental damage claims, and to add an asbestos exclusion. Most general liability policies issued prior to 1987 contain annual aggregate limits for product liability coverage. General liability policies issued in 1987 and thereafter contain annual aggregate limits for all coverages. The Company's experience to date has been that these policy form changes have limited the extent of our exposure to environmental and asbestos claim risks.

The Company's exposure to liability for asbestos and environmental losses manifests differently depending on whether it arises from assumed reinsurance coverage, direct excess insurance, or direct primary commercial insurance. The direct insurance coverage the Company provided for these exposures was substantially "excess" in nature.

Direct excess insurance and reinsurance involve coverage written by the Company for specific layers of protection above retentions and other insurance plans. The nature of excess coverage and reinsurance provided to other insurers limits the Company's exposure to loss to specific layers of protection in excess of policyholder retention or primary insurance plans. The Company's exposure is further limited by the significant reinsurance that was purchased on the excess business.

The Company's assumed reinsurance business involved writing generally small participations in other insurers' reinsurance programs. The reinsured losses in which the Company participates may be a proportion of all eligible losses or eligible losses in excess of defined retentions. The majority of the Company's assumed reinsurance exposure, approximately 85%, is for excess of loss coverage, while the remaining 15% is for pro-rata coverage.

The Company's direct primary commercial insurance business did not include coverage to large asbestos manufacturers. This business comprises a cross section of policyholders engaged in many diverse business sectors located throughout the country.

Establishing net loss reserves for environmental and asbestos claims is subject to uncertainties that are much greater than those presented by other types of claims. Among the complications are lack of historical data, long reporting delays, uncertainty as to the number and identity of insureds with potential exposure, unresolved legal issues regarding policy coverage, unresolved legal issues regarding the determination, availability and timing of exhaustion of policy limits, evolving and expanding theories of liability, the risks inherent in major litigation, the availability and collectibility of recoveries from reinsurance, retrospectively determined premiums and other contractual agreements, estimations of the extent and timing of any contractual liability, and other uncertainties. There are complex legal issues concerning the interpretation of various insurance policy provisions and whether those losses are covered, or were ever intended to be covered, and could be recoverable through retrospectively determined premium, reinsurance or other contractual agreements. Courts have reached different and sometimes inconsistent conclusions as to when losses are deemed to have occurred

NOTES TO FINANCIAL STATEMENTS

and which policies provide coverage; what types of losses are covered; whether there is an insurer obligation to defend; how policy limits are determined; how policy exclusions and conditions are applied and interpreted; and whether clean-up costs represent insured property damage. Management believes these issues are not likely to be resolved in the near future and the ultimate cost may vary materially from the amounts currently recorded resulting in an increase in loss reserves.

GENERAL INTERROGATORIES

PART 2 - PROPERTY & CASUALTY INTERROGATORIES

6.1 What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?

The company does not write this line of business

6.2 Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process.

The company places heavy emphasis on the use of catastrophic (CAT) simulation modeling provided by leading CAT modeling vendors to estimate probable maximum loss (PML). An advanced methodology is employed to generate a large sample of hypothetical but possible events, apply model damage expectations against the company's book of business, and evaluate the existing policy conditions of the policies in force to determine an estimate of total damage

6.3 What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?

Allstate Insurance Company purchased excess catastrophe reinsurance protection in the following states: Florida - One-year reimbursement contract through the Florida Hurricane Catastrophe Fund effective June 1, 2004 through May 31, 2005. Contract provides reimbursement for covered losses up to 90% of $112,014,395 excess of a $30,266,439 retention. North Carolina - Three year contract effective June 1, 2004 though May 31, 2007. Limits for the June 1, 2004 through May 31, 2005 period are 10% of $175 million excess of a $75 million retention. South Carolina - Three year contract effective June 1, 2004 though May 31, 2007. Limits for the June 1, 2004 through May 31, 2005 period are 10% of $435 million excess of a $90 million retention. New York - Three year contract effective June 1, 2004 though May 31, 2007. Limits for the June 1, 2004 through May 31, 2005 period are 90% of $200 million excess of a $400 million retention

6.4 Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence? Yes [ ] No [X]

6.5 If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge it s exposure to unreinsured catastrophic loss.

A strategy to limit the exposure of loss in certain catastrophic prone regions has been initiated. Subject to insurance laws, regulations, and competitive pressures, our actions include restricting policy coverage, pursuing appropriate rate relief, limiting new business production and reducing the policies in force in catastrophic areas. Specifically, the company is participating in the California Earthquake Authority (CEA), a privately financed, publicly managed state agency to provide earthquake protection.

7.1 Has this reporting entity reinsured any risk with any other entity under a quota share reinsurance contract which includes a provision which would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss ratio cap, an aggregate limit or any similar provision)? Yes [ ] No [X]

7.2 If yes, indicate the number of reinsurance contracts containing such provisions:

8.1 Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on the risk, or portion thereof, reinsured? Yes [ ] No [X]

8.2 If yes, give full information

9. If the reporting entity has assumed risks from another entity, there should be charged on account of such reinsurances a reserve equal to that which the original entity would have been required to charge had it retained the risks. Has this been done? Yes [X] No [ ] NA [ ]

10.1 Has this reporting entity guaranteed policies issued by any other entity and now in force? Yes [ ] No [X]

10.2 If yes, give full information

11.1 If the reporting entity recorded accrued retrospective premiums on insurance contracts on Line 12.3 of the assets schedule, Page 2, state the amount of corresponding liabilities recorded for:

11.11	Unpaid losses	$ 12,488,768
11.12	Unpaid underwriting expenses (including loss adjustment expenses)	$ 1,567,579

11.2 Of the amount on Line 12.3 of the assets schedule, Page 2, state the amount which is secured by letters of credit, collateral and other funds. $ 1,766,796

11.3 If the reporting entity underwrites commercial insurance risks, such as workers' compensation are premium or promissory notes accepted from its insureds covering unpaid premiums and/or unpaid losses? Yes [ ] No [X] NA [ ]

11.4 If yes, provide the range of interest rates charged under such notes during the period covered by this statement:

11.41	From	%
11.42	To	%

11.5 Are letters of credit or collateral and other funds received from insureds being utilized by the reporting entity to secure premium or promissory notes taken by the reporting entity, or to secure any of the reporting entity's reported direct unpaid loss reserves, including unpaid losses under loss deductible features of commercial policies? Yes [X] No [ ]

11.6 If yes, state the amount thereof at December 31 of the current year:

11.61	Letters of Credit	$ 6,800,000
11.62	Collateral and other funds	$

12.1 What amount of installment notes is owned and now held by the reporting entity? $

12.2 Have any of these notes been hypothecated, sold or used in any manner as security for money loaned within the past year? Yes [ ] No [X]

12.3 If yes, what amount? $

13.1 Largest net aggregate amount insured in any one risk (excluding workers' compensation): $ 7,500,000

13.2 Does any reinsurance contract considered in the calculation of this amount include an aggregate limit of recovery without also including a reinstatement provision? Yes [X] No [ ]

13.3 State the number of reinsurance contracts (excluding individual facultative risk certificates, but including facultative programs, automatic facilities or facultative obligatory contracts) considered in the calculation of this amount. 1

SCHEDULE P INTERROGATORIES

1. What is the extended loss and expense reserve - direct and assumed - for the following classes? An example of an extended loss and expense reserve is the actuarial reserve for the free-tail coverage arising upon death, disability or retirement in most medical malpractice policies. Such a liability is to be reported here even if it was not reported elsewhere in Schedule P, but otherwise reported as a liability item on Page 3. Show the full reserve amount, not just the change during the current year.

Years in which premiums were earned and losses were incurred	1 Medical Malpractice	2 Other Liability	3 Products Liability
1.01 Prior			
1.02 1995			
1.03 1996			
1.04 1997			
1.05 1998			
1.06 1999			
1.07 2000			
1.08 2001			
1.09 2002			
1.10 2003			
1.11 2004			
1.12 Totals			

2. The definition of allocated loss adjustment expenses (ALAE) and, therefore, unallocated loss adjustment expenses (ULAE) was changed effective January 1, 1998. This change in definition applies to both paid and unpaid expenses. Are these expenses (now reported as "Defense and Cost Containment" and "Adjusting and Other") reported in compliance with these definitions in this statement? Yes [X] No [ ]

3. The Adjusting and Other expense payments and reserves should be allocated to the years in which the losses were incurred based on the number of claims reported, closed and outstanding in those years. When allocating Adjusting and Other expense between companies in a group or a pool, the Adjusting and Other expense should be allocated in the same percentage used for the loss amounts and the claim counts. For reinsurers, Adjusting and Other expense assumed should be reported according to the reinsurance contract. For Adjusting and Other expense incurred by reinsurers, or in those situations where suitable claim count information is not available, Adjusting and Other expense should be allocated by a reasonable method determined by the company and described in Interrogatory 7, below. Are they so reported in this Statement? Answer: Yes [X] No [ ]

4. Do any lines in Schedule P include reserves that are reported gross of any discount to present value of future payments, and that are reported net of such discounts on Page 10? Yes [ ] No [X]

   If Yes, proper reporting must be made in the Notes to Financial Statements, as specified in the Instructions. Also, the discounts must be reported in Schedule P - Part 1, Columns 32 and 33.

   Schedule P must be completed gross of non-tabular discounting. Work papers relating to discount calculations must be available for examination upon request.

   Discounting is allowed only if expressly permitted by the state insurance department to which this Annual Statement is being filed.

5. What were the net premiums in force at the end of the year for:
   (in thousands of dollars)

   5.1 Fidelity 415

   5.2 Surety 982

6. Claim count information is reported per claim or per claimant (Indicate which)..... CLAIM
   If not the same in all years, explain in Interrogatory 7.

7.1 The information provided in Schedule P will be used by many persons to estimate the adequacy of the current loss and expense reserves, among other things. Are there any especially significant events, coverage, retention or accounting changes which have occurred which must be considered when making such analyses? Yes [X] No [ ]

7.2 An extended statement may be attached.
Persons using Schedule P to estimate the adequacy of Auto Liability loss and loss expense reserves should consider the effect that disposition rate changes over the 10 year period may have on their estimates, taking into account the distortions that changing claim disposition rates cause to development patterns inherent in the historical data and projections that rely on that data.....
