NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Allstate Insurance Company (referred to as the "Company") prepares its financial statements in conformity with accounting practices prescribed or permitted by the Illinois Division of Insurance ("IL DOI"). Prescribed statutory accounting practices include a variety of publications of the National Association of Insurance Commissioners ("NAIC"), as well as state laws, regulations and general administrative rules. Permitted statutory accounting practices encompass all accounting practices not so prescribed.

The state of Illinois requires its domestic insurance companies to prepare financial statements in conformity with the NAIC Accounting Practices and Procedures Manual ("APPM"), subject to any deviations prescribed or permitted by the IL DOI.

B. The preparation of financial statements in conformity with accounting practices prescribed or permitted by the IL DOI requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

C. Listed below is a summary of the accounting policies that materially affect the financial statements.

Investments

Investments are stated at values prescribed by the NAIC Securities Valuation Office ("SVO"). Bonds, including bank loans, which are primarily senior secured corporate loans, collateralized mortgage obligations and other structured securities, are stated at amortized cost using the scientific interest method with two exceptions. Bonds with an NAIC designation of 3 through 6 and 5* are carried at the lower of amortized cost or fair value, with the difference reflected in unassigned surplus. 5* means the NAIC designation was assigned by the SVO in reliance on the insurer's certification that the issuer is current in all principal and interest payments. In addition, bonds with an NAIC designation of 6* are carried at zero. 6* means the NAIC designation was assigned by the SVO due to inadequate certification of interest and principal payments. To-be-announced bonds involved in dollar roll transactions are marked to market through realized capital gains and losses.

Loan-backed securities, which consist of single class and multi-class mortgage-backed and asset-backed securities, utilize anticipated repayments to determine the effective yield at purchase. Any significant changes in the anticipated repayments are incorporated when determining statement value. Generally, significant changes in estimated cash flows from the original purchase assumptions are accounted for using the retrospective method. Beneficial interests held in securitized assets, which are not of high credit quality, are accounted for using the prospective method.

Redeemable preferred stocks are stated at amortized cost or the lower of amortized cost or NAIC fair value, depending on the assigned credit rating. Perpetual preferred stocks are carried at NAIC fair value or the lower of cost or NAIC fair value, depending on the assigned credit rating. Unaffiliated common stocks are carried at NAIC fair value. For preferred stocks stated at NAIC fair value and unaffiliated common stocks, the differences between amortized cost and NAIC fair value are recorded as a change in net unrealized capital gains (losses), which is a component of unassigned surplus.

Common stock investments in insurance subsidiaries, controlled, and affiliated entities are based on the underlying statutory equity of the subsidiary and adjusted for unamortized goodwill, if applicable. Common stock investments in non-insurance subsidiaries, controlled and affiliated entities are generally recorded based on the underlying Generally Accepted Accounting Principles ("GAAP") equity of the investee, with unrealized gains or losses reflected in unassigned surplus. Investments in joint ventures, limited partnerships and limited liability companies, which are included in other invested assets, are generally recorded based on the underlying GAAP equity of the investee, with unrealized gains or losses reflected in unassigned surplus.

Mortgage loans are carried at outstanding principal balances, net of unamortized premium or discount and book value adjustments. Book value adjustments include derivative hedging adjustments and other than temporary impairment adjustments. Generally, if the fair value of any collateral, less the estimated costs to obtain and sell, is less than the outstanding principal value and the decline is deemed to be other than temporary, an impairment is reflected in the carrying value and included in realized capital losses. If the decline is deemed to be temporary, the adjustment is reflected in a valuation allowance and included in unrealized capital losses.

Investments in real estate are stated at the lower of depreciated cost or fair value less encumbrances. The carrying value of real estate is adjusted for impairments that are other than temporary.

Cash equivalent investments are short term, highly liquid investments, whose original maturities at the time of acquisition are three months or less. They are both readily convertible into known amounts of cash and so near to their maturity that they present an insignificant risk of change in value because of changes in interest rates.

Short-term investments are carried at cost or amortized cost that approximates fair value, and include the investment of collateral received in connection with securities lending activities, funds received in connection with dollar reverse repurchase agreements, and collateral posted by counterparties related to derivative transactions. For these transactions, the Company records an offsetting liability for the Company's obligation to return the collateral or funds received. The Company also purchases securities under agreements to resell.

Surplus notes of affiliates are nonrated and included in other invested assets. They are carried at either their face value or at a reduced face value based on a prescribed statement factor calculation.

Investment income consists primarily of interest and dividends, net investment income from partnership interests and income from certain derivative transactions. Interest is recognized on an accrual basis and dividends are recorded at the ex-dividend date. Interest income on mortgage-backed and asset-backed securities is determined on the effective yield method, considering estimated principal repayments. Interest income on beneficial interests in securitized financial assets that are not of high credit quality are determined using the prospective yield method, based upon projections of expected future cash flows. Accrual of income is suspended for bonds and mortgage loans that are in default or when the receipt of interest payments is in doubt. Investment income is recorded for joint ventures, limited partnerships and limited liability companies as distributions are received.

Realized capital gains and losses include gains and losses on investment dispositions and write-downs in value due to other than temporary declines in fair value, including anticipated disposition write-downs. Anticipated disposition write-downs are write-downs recognized on investments in an unrealized loss position where the Company does not have the positive intent to hold the investments until recovery. Realized capital gains and losses on investment dispositions are determined on a specific identification basis.

The Company recognizes other-than-temporary impairment losses on bond and equity securities when the decline in fair value is deemed to be other-than-temporary. The assessment of other-than-temporary impairment of a security's fair value is performed on a portfolio review as well as a case-by-case basis considering a wide range of factors. As part of the Company's portfolio review evaluations, it is determined if there are any approved programs involving the disposition of investments such as changes in duration, revision to strategic asset allocations and liquidity actions; and any dispositions planned by the portfolio managers. In these instances, the Company recognizes an impairment on securities being considered for these approved planned actions if the security is in an unrealized loss position. There are a number of assumptions and estimates inherent in evaluating impairments and determining if they are other than temporary, including: 1) the Company's ability and intent to retain the investment for a period of time sufficient to allow for an anticipated recovery in value; 2) the recoverability of principal and interest; 3) the duration and extent to which the fair value has been less than cost for equity securities or amortized cost for bonds; 4) the financial condition, near-term and long-term prospects of the issuer, including relevant industry conditions and trends, and implications of rating agency actions and offering prices; and 5) the specific reasons that a security is in a significant unrealized loss position, including market conditions which could affect access to liquidity.

NOTES TO FINANCIAL STATEMENTS

Derivative financial instruments

Derivative financial instruments used by the Company include interest rate, credit default and excess return swaps, futures, and call and put options. When derivatives meet specific criteria, they may receive hedge accounting, which means they may be accounted for and reported on in a manner that is consistent with the hedged asset or liability. Derivatives that are not designated as accounting hedges are accounted for on a fair value basis, with changes in fair value recorded as unrealized gains or losses in unassigned surplus. The Company's accounting policy for these instruments is also discussed in Note 8, Part C.

Off-balance sheet financial instruments

Commitments to invest, commitments to extend mortgage loans and credit guarantees have off-balance sheet risk because their contractual amounts are not recorded in the Company's Assets or Liabilities, Surplus and Other Funds pages of the Annual Statement. The contractual amounts of these instruments are presented in Note 16.

Premium revenue

Premiums are deferred and earned on a pro-rata basis over the policy period. The portion of premiums written applicable to the unexpired periods of the policies is recorded as unearned premiums. Premiums received in advance of the policy's effective dates are recorded as advance premiums.

Premiums written and not yet collected and agents' balances are shown as a receivable, with balances older than 90 days nonadmitted. The Company regularly evaluates this receivable and establishes valuation allowances as appropriate, for items less than 90 days.

Reserves for losses and loss adjustment expense

Reserves for losses and loss adjustment expenses are the estimated amounts necessary to settle both reported and unreported claims for the ultimate cost of insured losses, based upon the facts in each case and the Company's experience with similar cases. Estimated amounts of salvage and subrogation are deducted from the reserves for losses and loss adjustment expenses. The establishment of appropriate reserves, including reserves for catastrophes, is an inherently uncertain and complex process. Reserve estimates are regularly reviewed and updated using the most current information available. Any resulting reestimates are reflected in the current Statement of Income.

Reinsurance

In the normal course of business, the Company seeks to limit aggregate and single exposure to losses on large risks by purchasing reinsurance from reinsurers. Admitted assets include amounts billed to reinsurers on losses and loss adjustment expenses paid. Reserves are reported net of unpaid reinsurance recoverables. Reinsurance recoverables on unpaid losses are estimated based upon assumptions consistent with those used in establishing the liabilities related to the underlying reinsured contract. Reinsurance premiums are generally reflected as income in a manner consistent with the recognition of premiums on the reinsured contracts or are earned ratably over the contract period to the extent coverage remains available. The Company regularly evaluates whether a provision for reinsurance is needed by evaluating the admissibility, collectibility and collateralization of reinsurers' balances in accordance with the APPM. A provision for reinsurance is established as appropriate, and reported as a liability. Reinsurance does not extinguish the Company's primary liability under the policies written.

Income taxes

The income tax provision is calculated under the liability method. Deferred tax assets and liabilities are recorded based on the difference between the statutory financial statement and tax bases of assets and liabilities at the enacted tax rates. The principal assets and liabilities giving rise to such differences were nonadmitted assets, unearned premiums and insurance reserves. Deferred income taxes also arise from unrealized gains and losses on common stocks, limited partnerships and impaired bonds carried at fair value. The net change in deferred tax assets and liabilities is applied directly to unassigned surplus. The nonadmitted portion of a gross deferred tax asset is determined by applying the rules prescribed by Statement of Statutory Accounting Principle ("SSAP") No. *10, Income Taxes*.

2. Accounting Changes

The Company did not have material accounting changes or corrections of errors for the years ended December 31, 2006 or 2005.

3. Business Combinations and Goodwill

A. Statutory Purchase Method

On October 1, 2005, Encompass Financial Group, LLC ("Encompass"), a subsidiary of the Company, purchased all the outstanding common stock of Encompass Insurance Company of America ("EICA"), Encompass Property and Casualty Company ("EPC"), Encompass Independent Insurance Company ("EIIC"), Encompass Insurance Company of Massachusetts ("EICMA") and Encompass Home and Auto Insurance Company ("EHAIC") for $60 million from Continental Casualty Company ("CCC"). Encompass acquired these companies in order to utilize their insurance licenses to further develop its personal lines independent agency business. The Company paid consideration in 1999 for the option to acquire these insurance companies from CCC at a future date. This consideration was recorded as an intangible asset on the Company's books and reported as a write-in for other than invested assets. In conjunction with the purchase of these five companies, the $8 million balance of intangible asset at October 1, 2005 was reclassed to goodwill and is now included in common stock investments. The purchase price recorded by Encompass and the goodwill recognized in 2006 and 2005 by the Company is presented in the table below:

(in thousands)

Company Acquired	Purchase Price	Goodwill	Goodwill Amortized in 2006	Goodwill Amortized in 2005
EICA	$ 28,655	$ 6,475	$ 648	$ 162
EPC	14,423	900	90	23
EIIC	5,891	500	50	13
EICMA	5,546	175	18	4
EHAIC	5,372	400	40	10

On January 1, 2000, the Company purchased all the outstanding common stock of Northbrook Indemnity Company ("NIC") for $26 million from St. Paul Fire & Marine Insurance Company. The Company acquired NIC as part of its plans to further develop the personal lines independent agency business. The transaction was accounted for using the statutory purchase method. At the purchase date, goodwill of $429 thousand was recorded. The Company recognized goodwill amortization related to this acquisition of $43 thousand in 2006 and 2005.

Effective September 1, 2000, the Company contributed its ownership interest in NIC to Encompass, a wholly owned subsidiary of the Company. Since the Company is the indirect parent of NIC, goodwill remains on the Company's balance sheet and continues to be amortized into its income.

On December 1, 2006, NIC paid an extraordinary stock dividend of all the common shares of Encompass Insurance Company ("EIC") to its parent, Encompass and goodwill of $1 million related to EIC was transferred to Encompass. Subsequently, on December 18, 2006 Encompass was dissolved and its assets, including its investment in EIC and the related goodwill, were transferred to the Company.

NOTES TO FINANCIAL STATEMENTS

B. Statutory Merger

The Company has not participated in business combinations taking the form of a statutory merger in 2006 or 2005.

C. Impairment Loss

The Company did not recognize impairment loss on the transactions described above in 2006 or 2005.

4. Discontinued Operations

The Company did not have discontinued operations in 2006 or 2005.

5. Investments

A. Mortgage Loans, including Mezzanine Real Estate Loans

1. The minimum and maximum lending rates for new mortgage loans in 2006 and 2005 were 5.51% and 6.57%, and 4.37% and 6.16%, respectively. All new mortgage loans in 2006 and 2005 were commercial.

2. The Company did not reduce interest rates on outstanding mortgage loans in 2006 or 2005.

3. For loans acquired during the year, the maximum percentage of any one loan to the value of security at the time of the loan was 71.25% and 74.14% in 2006 and 2005, respectively.

e. Balance at end of period	$ -	$ -

12. Interest income for impaired loans is recognized on an accrual basis if payments are expected to continue to be received; otherwise cash basis is used.

B. Debt Restructuring

1. The total recorded investment in restructured bonds was $39 million and $54 million at December 31, 2006 and 2005, respectively. The Company did not have investments in restructured mortgage loans at December 31, 2006 or 2005.

2. The Company did not recognize realized capital losses related to troubled mortgage loans and bond restructuring in 2006 or 2005.

3. The Company did not enter into contractual commitments to extend credit to debtors owning receivables whose terms were modified in troubled mortgage loans or bond restructurings.

4. Interest income for impaired mortgage loans is recognized on an accrual basis if payments are expected to continue to be received; otherwise cash basis is used. Interest income on nonperforming bonds is recognized on a cash basis once the original cost of the investment is recovered.

C. Reverse Mortgages

The Company did not enter into reverse mortgages in 2006 or 2005.

D. Loan-Backed Securities

1. The Company elected not to use the book value as of January 1, 1994 as the cost for applying the retrospective adjustment method to securities purchased prior to that date.

2. Prepayment assumptions for single class and multi-class mortgage-backed and asset-backed securities were obtained from broker/dealers and internal estimates at settlement.

3. In 2006 and 2005, there were no securities with negative yields requiring the Company to change methodologies from retrospective to prospective.

E. Repurchase Agreements

The Company did not enter into repurchase agreements in 2006 or 2005.

See Note 11 for information relating to the Company's dollar reverse repurchase agreements.

NOTES TO FINANCIAL STATEMENTS

F. Real Estate

1. The Company did not recognize impairment losses related to its investments in real estate in 2006 or 2005.

2. The Company did not sell or classify real estate investments as held for sale in 2006 or 2005.

3. The Company did not experience changes to a plan of sale for an investment in real estate in 2006 or 2005.

4. The Company did not engage in retail land sales operations in 2006 or 2005.

G. Low Income Housing Tax Credits ("LIHTC")

1. The Company invests in LIHTC property investments. The number of remaining years of unexpired tax credits which the Company has ranges from 1 to 12 years and 4 to 6 years as of December 31, 2006 and December 31, 2005, respectively. These investments have a required holding period of 15 years.

2. In 2005, one of the properties held by two of the LIHTC partnerships owned by the Company was inspected by the Housing and Urban Development Real Estate Assessment Center ("HUD REAC") and failed the inspection. The property was reinspected by the HUD REAC in 2006 and passed.

3. The Company's LIHTC property investments did not exceed 10% of the total admitted assets as of December 31, 2006 or 2005.

4. The Company did not recognize any other-than-temporary impairment losses for its LIHTC property investments during 2006 or 2005.

5. The Company did not record a write-down or reclassification of these investments due to forfeiture or ineligibility of LIHTC or for any other reasons during 2006 or 2005.

6. Joint Ventures, Partnerships and Limited Liability Companies

A. The Company did not have investments in joint ventures, partnerships or limited liability companies that exceeded 10% of its admitted assets at December 31, 2006 or 2005.

B. The Company did not recognize impairment write-downs on joint ventures, partnerships or limited liability companies in 2006 or 2005.

7. Investment Income

1. All due and accrued investment income, excluding that related to mortgage loans, is included in unassigned surplus except for amounts that are over 90 days past due, which are nonadmitted. Mortgage loans in default for which interest is 180 days past due are nonadmitted. All due and accrued investment income deemed uncollectible is written off in the period it is determined to be uncollectible.

2. All due and accrued investment income was admitted at December 31, 2006. The total amount of due and accrued investment income nonadmitted was less than $1 thousand dollars at December 31, 2005.

8. Derivative Instruments

A. Derivative financial instruments utilized by the Company during 2006 and 2005 included interest rate, credit default and excess return swaps, futures, index option contracts, and call and put options on specific equities.

Interest rate swap agreements are agreements that periodically exchange the difference between two designated sets of cash flows, (fixed to variable rate, variable to fixed rate, or variable to variable rate) based upon designated market rates or rate indices and a notional amount. Credit default swaps are used for either buying credit protection or selling credit protection on a specified entity, basket of entities or index. Buying credit protection requires a payment of a premium to a counterparty in exchange for a future cash settlement or a promise to deliver a bond or loan, if a specified credit event occurs. Selling protection provides for the receipt of a premium from a counterparty in exchange for a future cash settlement, or a promise to purchase a bond or a loan, if a specified credit event occurs. Excess return swap agreements involve the payment of a fixed amount in exchange for the receipt of an excess return on the Goldman Sachs Commodity Index. The Company utilizes domestic index, commodities and interest rate futures. Futures are defined as commitments to buy or sell designated financial instruments based on specified prices, yields or indexes. These futures provide returns at specified or optional dates based upon a specified index applied to a notional amount. Index option contracts provide returns at specified or optional dates based on a specified equity index applied to the option's notional amount. Call and put option contracts are publicly traded option contracts on specific equities.

Market risk is the risk that the Company will incur losses due to adverse changes in market rates and prices. Market risk exists for all of the derivative financial instruments the Company currently holds, as these instruments may become less valuable due to adverse changes in market conditions. To limit this risk, the Company has established risk control limits. In addition, changes in the fair value of the derivative financial instruments that the Company uses for risk management purposes are generally offset by changes in the fair value or cash flows of the hedged risk component of the related assets, liabilities or forecasted transaction.

Credit exposure represents the Company's potential loss if all counterparties concurrently fail to perform under the contractual terms of the contracts and all collateral, if any, becomes worthless. This exposure is measured by the fair value of contracts with a positive fair value at the reporting date reduced by the effect, if any, of master netting agreements. Since credit exposure for over-the-counter instruments (interest rate, credit default and excess return swaps) is measured on a cumulative basis by counterparty, it is possible for specific instrument types to have negative values. In total, the credit exposure for over-the-counter instruments is positive. Futures and certain option contracts have limited credit exposure as they are executed on organized exchanges which require margin deposits and guarantee the execution of trades, as well as the daily cash settlement of margins.

The Company manages its exposure to credit risk by utilizing highly rated counterparties, establishing risk control limits, executing legally enforceable master netting agreements and obtaining collateral where appropriate. The Company uses master netting agreements for over-the-counter derivative transactions, including interest rate, credit default and excess return swaps. These agreements permit either party to net payments due for transactions covered by the agreements. Under the provisions of the agreements, collateral is either pledged or obtained when certain predetermined exposure limits are exceeded. To date, the Company has not incurred any losses on derivative financial instruments due to counterparty nonperformance. Other derivatives, including futures and certain option contracts are traded on organized exchanges, which require margin deposits and guarantee the execution of trades, thereby mitigating any associated potential credit risk.

The cash requirements of the derivatives vary by instrument. Cash settlements for swap agreements usually occur at dates specified in individual agreements. The amount of cash exchanged is equal to the difference between the rate in the contract at which the Company receives cash compared to the rate at which the Company is to pay cash. Daily cash settlement of variation margins, which is based on the changes in the daily prices, is required for futures. The final settlement of interest rate futures, commodity futures, and index option contracts may be settled in cash or through delivery of an underlying instrument (e.g. specified bond). The final settlement of indexed futures is always in cash. When the Company purchases/sells options at specific prices, it is required to pay/receive a premium to/from the counterparties. The amount of premium paid/received is based on the number of contracts purchased, the agreed-to price and the maturity date of the contract. The Company receives/pays cash equal to the premium of written/purchased options when the contract is established. If the options are exercised, the Company receives/pays cash equal to the price mutually agreed to in the contract (strike price) in exchange for the equity the option is written/purchased on. If the options are not exercised, then no additional cash is exchanged when the contract expires.

NOTES TO FINANCIAL STATEMENTS

B. The Company primarily uses derivative financial instruments to reduce its exposure to market risk (principally interest rate and equity price) and to replicate assets in conjunction with asset-liability management.

The Company primarily uses interest rate swap agreements to change the interest rate characteristics of existing assets to facilitate asset-liability management. The Company enters into certain credit default swaps to reduce the credit risk in a particular bond or loan while leaving the security intact. The Company enters into other credit default swaps as replication transactions, enabling greater diversification of credit risk by selling protection on specified entities, baskets of entities or indices that may not be frequent issuers in the traditional corporate bond market. Excess return swaps and commodities futures are used to allow the Company to participate in asset classes that offer diversification benefits within the Company's existing portfolio. The Company primarily utilizes index and interest rate futures contracts to reduce the duration of its bonds, manage equity risk in its equity portfolio and to reduce interest rate and equity risk associated with certain deferred compensation liability contracts. These futures hedge the changes in fair value of certain assets or liabilities. Written options used for income generation provide limited protection against declines in the underlying market price of equities owned by the Company. Index and purchased call options allow the Company to participate in increases in the underlying market price of equities while limiting downside risk to the premium paid. Purchased put options allow the Company to limit potential losses on equities owned in exchange for a premium paid.

C. The notional amounts specified in the contracts are used to calculate the exchange of contractual payments under agreements, and are not representative of the potential for gain or loss on these agreements.

Interest rate, credit default and excess return swaps are reported in Schedule DB, Part C and if used for replication purposes, Schedule DB, Part F. Interest rate and credit default swaps for buying protection receive non-hedge accounting treatment, and the change in the fair value of swaps open at the end of the reporting period are recorded as unrealized gains and losses in unassigned surplus. For credit default swaps and excess return swaps entered as replication transactions, the derivatives are valued at amortized cost. Periodic settlements, which represent amounts receivable from/payable to the counterparties based on the settlement terms within the agreement, are recorded as a component of investment income for credit default swaps and realized capital gains and losses for interest rate and excess return swaps.

Futures are reported in Schedule DB, Part D and receive either fair value or cash flow hedge accounting, or non-hedge accounting, depending on the strategy. Daily cash settlement of margin gains or losses are recognized in either realized capital gains and losses or as an offset to the expense related to the hedged obligation depending on the derivative strategy. Termination gains or losses on financial futures are incorporated into the daily cash settlement of margins. For those futures contracts that are utilized to reduce the duration on the bond portfolio and are open at the end of the reporting period, the daily cash settlement is reported as unrealized gains and losses in unassigned surplus.

Index and purchased option contracts are reported on Schedule DB, Part A and receive non-hedge accounting. The premium paid on purchased options is recorded as an asset. The change in the fair value of purchased options is recorded as an unrealized gain or loss classified in unassigned surplus, with an adjustment to a corresponding asset. If the purchased option is exercised or expires without being exercised, the premium paid is classified as a realized loss and the corresponding asset previously recorded is reversed.

Written option contracts are reported on Schedule DB, Part B and receive non-hedge accounting. The premium received on written options is recorded as a liability. The change in the fair value of written options is recorded as unrealized gains or losses classified in unassigned surplus, with an adjustment to a corresponding liability. If the written option is exercised by the counterparty, the difference between the strike price and the cost basis of the equity, adjusted for the amount of premium received, is recorded as a realized gain or loss. If the written option expires without being exercised, the premium received is classified as a realized gain and the corresponding liability previously recorded is reversed.

D. The Company did not have net gains or losses in unrealized gains or losses that represented a component of any derivatives gain or loss that was excluded from the assessment of hedge effectiveness in 2006 or 2005.

E. The Company did not have net gains or losses in unrealized gains or losses that resulted from derivatives that no longer qualify for hedge accounting in 2006 or 2005.

F. The Company did not have derivatives accounted for as cash flow hedges of a forecasted transaction.

9. Income Taxes

A. The components of the net deferred tax asset were as follows at December 31:

(in millions)	**2006**	**2005**
Total of gross deferred tax assets	$ 1,801	$ 1,968
Total of gross deferred tax liabilities	(632)	(679)
Net deferred tax asset	1,169	1,289
Deferred tax asset nonadmitted	135	170
Net admitted deferred tax asset	$ 1,034	$ 1,119
(Increase) decrease in nonadmitted asset	$ 35	

B. The Company recognized all deferred tax liabilities at December 31, 2006 and 2005.

C. The provision for incurred income taxes for the years ended December 31 was:

(in millions)	**2006**	**2005**
Federal income tax - excluding net capital gains	$ 1,813	$ 145
Federal income tax on net capital gains	198	182
Federal income taxes incurred	$ 2,011	$ 327

The provision for income tax incurred did not include foreign income taxes for the years ended December 31, 2006 or 2005.

NOTES TO FINANCIAL STATEMENTS

The tax effects of temporary differences that gave rise to significant portions of deferred tax assets and deferred tax liabilities were as follows at December 31:

(in millions)	2006	2005

2. The consolidated group elected under Internal Revenue Code Section 1552(a)(2) to allocate the consolidated federal income tax liability based on each member's federal income tax liability computed on a separate return basis, except all tax benefits resulting from operating losses and tax credits are allocated to the Company to the extent they can be utilized in the consolidated return. In years when the consolidated tax return results in an alternative minimum tax liability, the regular tax is allocated first as described above, and the excess of the alternative minimum tax over the regular tax is allocated to the members whose tax posture gives rise to the alternative minimum tax.

10. Information Concerning Parent, Subsidiaries and Affiliates

A.,
B. &
C. The following transactions were entered into by the Company with related parties in 2006 and 2005 that involved more than ½ of 1% of the Company's admitted assets. The $300 million of dividends paid on September 21, 2006 included $29 million of ordinary dividends and $271 million of extraordinary dividends. The $250 million of dividends paid on December 15, 2006 were extraordinary dividends.

NOTES TO FINANCIAL STATEMENTS

The Company also received dividends in the form of investment securities with aggregate fair values of $49 million from ALIC on December 15, 2005.

D. The Company reported the following amounts as receivable from affiliates at December 31:

(in millions)	2006	2005
ALIC	$ 539	$ 58
Lincoln Benefit Life Company	33	41
Allstate New Jersey Insurance Company	31	-

Allstate Floridian Insurance Company	-	18
Total	$ 669	$ 158

The Company also reported the following amounts as payable to affiliates at December 31:

(in millions)	2006	2005
Corporation	$ 167	$ 501
Allstate Floridian Insurance Company	27	-
Allstate Floridian Indemnity Company	-	2
Total	$ 194	$ 503

Intercompany receivables and payables are generally cash settled at least quarterly.

On December 27, 2006, ALIC issued an intercompany note with a face value of $500 million to the Company in exchange for cash. The interest rate on the note is 5.25% and it is due on or before March 30, 2007. This note was combined with other amounts received from ALIC and classified as receivables from parent, subsidiaries and affiliates at December 31, 2006.

The Company entered into an intercompany loan agreement with the Corporation. The amount available to the Company is at the discretion of the Corporation, however, the maximum amount of loans the Corporation can have outstanding to all its eligible subsidiaries at any given point in time is limited to $1 billion. From time to time, the Company borrows money from the Corporation to meet its short-term cash needs. At December 31, 2006, the Company did not have any amounts outstanding. At December 31, 2005, the Company's total outstanding intercompany loan balance, excluding interest, was $413 million. The interest rate on the loan outstanding at December 31, 2005 was 4.22%. The maturity date on the intercompany loan outstanding at December 31, 2005 was 4 days. Total interest paid on intercompany debt was during 2006 and 2005 was $2 million and $1 million, respectively. Since this debt was payable to the Corporation, it was combined with other amounts due to and receivable from the Corporation and classified as payable to parent, subsidiaries and affiliates.

E. The Company purchased structured settlement annuities, a type of immediate annuity, at prices determined based on interest rates in effect at the time of purchase, to fund structured settlements from ALIC and its subsidiary, Allstate Life Insurance Company of New York ("ALNY"). Prior to July 1, 2001, these annuities were issued to Allstate Settlement Corporation ("ASC"), a subsidiary of ALIC. Most of the structured settlements issued to ASC were under a "qualified assignment", meaning these entities assumed the Company's obligation to make future payments.

The Company issued surety bonds to guarantee the payment of structured settlement benefits assumed by ASC (from both the Company and non-related parties) and funded by certain annuity contracts issued by ALIC and ALNY. ASC has entered into a General Indemnity Agreement pursuant to which it indemnified the Company for any liabilities associated with the surety bonds and providing certain collateral security rights with respect to the annuities and certain other rights in the event of default covered by the surety bonds. Reserves recorded by ALIC and ALNY for annuities that are guaranteed by the surety bonds were $5 billion at both December 31, 2006 and 2005.

In 2005, the Company and AFIC entered into a Support Agreement effective June 1, 2005 through May 31, 2006. Under the terms of this agreement, the Company agreed to provide: (1) contingent limited capital support triggered by specified surplus levels of AFIC and (2) liquidity support in the event of delays in the collection of reinsurance recoverables by AFIC following a catastrophe. The Company committed to provide capital and liquidity support up to $375 million in the aggregate. On December 23, 2005, the Company provided $159 million of capital to AFIC pursuant to this agreement as a result of AFIC's 2005 hurricane losses.

F. The Company entered into an Investment Management Agreement with Allstate Investments, LLC ("AILLC") whereby AILLC provides investment management services and advice.

The Company, the Corporation and certain of its affiliates entered into an Amended and Restated Service and Expense Agreement (the "Agreement") pursuant to which the Company furnishes a variety of services. The Agreement provides for the cost sharing and allocation of operating expenses among the parties.

The Company entered into a Reimbursement Agreement with the Corporation under which the Corporation sponsors certain benefit and compensation plans.

The Company is a party to a federal income tax allocation agreement with the Corporation (see Note 9, Part F).

G. The Company is a wholly-owned subsidiary of the Corporation.

H. At both December 31, 2006 and 2005, the Company owned 37,471 common shares of the Corporation with a cost of $1 million. The entire amount of the investment was reported as a nonadmitted asset.

I. The Company did not have investments in subsidiaries, controlled or affiliated ("SCA") entities that exceeded 10% of the Company's December 31, 2006 or 2005 admitted assets.

J. The Company did not recognize any impairment related to its SCA entity investments in 2006 or 2005.

K. The Company did not have investments in foreign life insurance companies, and therefore, did not calculate annuity account value reserves.

NOTES TO FINANCIAL STATEMENTS

11. Debt

The Company did not have any capital notes outstanding at December 31, 2006 or 2005.

The Company had dollar reverse repurchase agreements outstanding as of December 31, 2006 and 2005 with total book values of $53 million and $367 million, respectively, and fair values of $53 million and $359 million, respectively. Under the terms of dollar reverse repurchase agreements, the Company sells a portion of its investments, generally mortgage-backed securities, and agrees to repurchase securities with the same or substantially the same projected cash flows at a specified date. The sold investments are not removed from their investment category on the Assets page and the proceeds from the sale are recorded as borrowed money in the Liabilities, Surplus and Other Funds page. The Company's policy is to maintain collateral equal to between 98% and 105% of the fair value of securities transferred. The Company is permitted to sell or re-pledge the collateral; however it has not done so in 2006 or 2005. Interest paid on dollar reverse repurchase agreements was $14 million and $28 million for the years ending December 31, 2006 and 2005, respectively. The weighted average coupon rates for dollar reverse repurchase agreements transactions were 5.00% in 2006 and 5.26% in 2005. All of the December 31, 2006 transactions end by January 11, 2007. All of the December 31, 2005 transactions ended by January 18, 2006.

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

Defined benefit pension plans cover most full-time employees, certain part-time employees and employee-agents. Benefits under the pension plans are based upon the employees' length of service and eligible annual compensation. A cash balance formula was added to the Allstate Retirement Plan effective January 1, 2003. All eligible employees hired before August 1, 2002 were provided with a one-time opportunity to choose between the cash balance formula and the final average pay formula. The cash balance formula applies to all eligible employees hired after August 1, 2002.

The Company also provides certain health care and life insurance subsidies for employees hired before January 1, 2003 when they retire ("Postretirement benefits"). Qualified employees may become eligible for these benefits if they retire in accordance with the Company's established retirement policy and are continuously insured under the Company's group plans or other approved plans in accordance with the plan's participation requirements. The Company shares the cost of the retiree medical benefits with retirees based on years of service, with the Company's share being subject to a 5% limit on annual medical cost inflation after retirement. The Company has the right to modify or terminate these plans.

The Company calculates benefit obligations based upon generally accepted actuarial methodologies using the projected benefit obligation ("PBO") for pension plans and the accumulated postretirement benefit obligation ("APBO") for other postretirement plans. The determination of pension costs and other postretirement obligations as of December 31 are determined using an October 31 measurement date. The benefit obligations represent the actuarial present value of all benefits attributed to employee service rendered. The PBO is measured using the pension benefit formula and assumptions as to future compensation levels. The plans' funded status is calculated as the difference between the benefit obligation and the fair value of plan assets. The Company's funding policy for the pension plans is to make annual contributions at a minimum level that is at least in accordance with regulations under the Internal Revenue Code ("IRC") and in accordance with generally accepted actuarial principles. The Company's postretirement benefit plans are not funded.

A reconciliation of the plans' funded status to amounts recognized in Liabilities, Surplus and Other Funds as of December 31 was as follows:

	Pension Benefits		Postretirement Benefits	
(in millions)	**2006**	**2005**	**2006**	**2005**
Fair value of plan assets	$ 4,393	$ 4,278	$	$ -
Benefit obligation	4,957	4,914	766	773
Funded status	(564)	(636)	(766)	(773)
Amounts not recognized:				
Unamortized prior service cost	(21)	(23)	(7)	(9)
Unamortized transition (asset)/obligation	(151)	(167)	95	123
Unamortized net actuarial loss	1,831	2,144	(41)	19
Net amount recognized	$ 1,095	$ 1,318	$ (719)	$ (640)
Prepaid benefit cost	$ 1,138	$ 1,351	$ -	$ -
Accrued benefit cost	(139)	(127)	(719)	(640)
Intangible asset	59	62	-	-
Minimum pension liability	37	32	-	-
Net amount recognized	$ 1,095	$ 1,318	$ (719)	$ (640)

The majority of the $1.83 billion and $2.14 billion of unrecognized net actuarial pension benefit losses in 2006 and 2005, respectively, reflected the effect of increases in the PBO resulting from decreases in the discount rate over time, and the impact of unfavorable equity market conditions on the value of the pension plan assets in the years 2001 and 2002. The Company amortizes its excess unrecognized net actuarial losses over the average remaining service period of active employees expected to receive benefits.

The accumulated benefit obligation ("ABO") for all defined benefit pension plans was $4.16 billion and $4.09 billion at December 31, 2006 and 2005, respectively. The ABO is the actuarial present value of all benefits attributed by the pension benefit formula to employee service rendered. However, it differs from the PBO due to the exclusion of an assumption as to future compensation levels. A minimum pension liability is recognized when the ABO exceeds the fair value of plan assets. The minimum pension liability, less allowable intangible assets, was $37 million and $32 million, at December 31, 2006 and 2005, respectively, and was reported as an adjustment to surplus.

The accrued pension benefit cost of $139 million and $127 million for 2006 and 2005, respectively, relates to certain unfunded non-qualified plans.

The changes in benefit obligations for all plans for the years ended December 31 were as follows:

	Pension Benefits		Postretirement Benefits	
(in millions)	**2006**	**2005**	**2006**	**2005**
Benefit obligation, beginning of year	$ 4,914	$ 4,732	$ 773	$ 836
Service cost	199	192	32	28
Interest cost	289	268	45	43
Participant contributions	-	-	40	40
Actuarial (gain) loss	100	(15)	(60)	(95)
Benefits paid	(533)	(255)	(76)	(79)
Other	(12)	(8)	12	-
Benefit obligation, end of year	$ 4,957	$ 4,914	$ 766	$ 773

The PBO and ABO for non-vested pension participants were $77 million and $66 million, respectively, at December 31, 2006. The PBO and ABO for non-vested pension participants were $35 million and $24 million, respectively, at December 31, 2005. The postretirement benefit obligation for non-vested employees was $285 million and $306 million at December 31, 2006 and 2005, respectively.

NOTES TO FINANCIAL STATEMENTS

The components of net periodic cost for all plans for the years ended December 31 were as follows:

	Pension Benefits		Postretirement Benefits	
(in millions)	**2006**	**2005**	**2006**	**2005**
Service cost	$ 199	$ 192	$ 32	$ 28
Interest cost	289	268	45	43
Expected return on plan assets	(306)	(302)	-	-
Amortization of:				
Unrecognized transition obligation	(1)	(16)	17	18
Prior service cost	(3)	(3)	(1)	(1)
Unrecognized prior period (gain) loss	150	142	-	-
Settlement loss	12	14	-	-
Curtainment	-	-	13	-
Special termination benefit	-	-	9	-
Net periodic cost	$ 340	$ 295	$ 115	$ 88

Weighted average assumptions used to determine net pension cost and net postretirement benefit cost for the years ended December 31 were:

	Pension Benefits		PostretirementBenefits	
	2006	**2005**	**2006**	**2005**
Discount rate	6.00 %	5.75 %	6.00 %	5.75 %
Rate of increase in compensation levels	4.00 - 4.50	4.00 - 4.50	n/a	n/a
Expected long-term rate of return on plan assets	8.50	8.50	n/a	n/a

Weighted average assumptions used to determine benefit obligations at December 31 based on an October 31 measurement date, were:

	Pension Benefits		PostretirementBenefits	
	2006	**2005**	**2006**	**2005**
Discount rate	6.00 %	6.00	6.00	6.00 %
Rate of increase in compensation levels	4.00 – 4.50	4.00 - 4.50	n/a	n/a

The weighted average health care trend rate used in measuring the APBO is 7.70% for 2007, gradually declining to 5.50% in 2010, and remaining level thereafter.

Assumed health care cost trend rates have a significant effect on the amounts reported for the postretirement health care plans. A one percentage-point increase in assumed health care cost trend rates would increase the total of the service and interest cost components of net periodic benefit cost of other postretirement benefits and the APBO by $3 million and $9 million, respectively. A one percentage-point decrease in assumed health care cost trend rates would decrease the total of the service and interest cost components of net periodic benefit cost of other postretirement benefits and the APBO by $2 million and $9 million, respectively.

The pension plans target percentage of plan assets at 2006 and the actual percentage of plan assets, by asset category at December 31 were as follows:

	Target Percentage of Plan Assets	Percentage of Plan Assets	
Asset Category	**2006**	**2006**	**2005**
Equity securities	64 %	65 %	66 %
Fixed income securities	30	29	32
Real estate	3	3	1
Other	3	3	1
Total	100 %	100 %	100 %

The expected long-term rate of return on plan assets reflects the average rate of earnings expected on plan assets. This assumption is reviewed annually giving consideration to appropriate financial data including, but not limited to, the plan asset allocation, the period over which benefits will be paid, historical returns on plan assets and other relevant market data. A consistent method was used to determine the long-term return on plan assets assumption at December 31, 2006 and 2005 of 8.50%. As of the 2006 measurement date, the arithmetic average of the annual actual return on plan assets for the most recent 10 and 5 years was 9.62% and 8.56%, respectively.

Pension plan assets include $5 million of the Corporation's stock at December 31, 2006 and 2005. No plan assets are expected to be returned to the Company during 2007.

The change in pension plan assets for the years ended December 31, was as follows:

(in millions)	**2006**	**2005**
Fair value of plan assets, beginning of year	$ 4,278	$ 3,816
Actual return on plan assets	543	386
Employer contributions	117	339
Benefits paid	(533)	(255)
Other	(12)	(8)
Fair value of plan assets, end of year	$ 4,393	$ 4,278

There was no minimum funding requirement under the IRC for the tax qualified pension plans as of December 31, 2006. The Company currently plans to contribute $128 million to its pension plans in 2007. This plan is subject to revision at the discretion of management.

The Company contributed $36 million and $40 million to the postretirement benefit plans in 2006 and 2005, respectively. Contributions by participants were $40 million in both 2006 and 2005.

Estimated future pension benefit payments expected to be paid in the next 10 years, based on the assumptions used to measure the Company's benefit obligation at December 31, 2006 were as follows:

(in millions)	
2007	$ 172
2008	239
2009	233
2010	264
2011	304
2012 – 2016	2,064
Total benefit payments	$ 3,276

Employees of the Company are eligible to become members of The Savings and Profit Sharing Fund of Allstate Employees. The Company's contributions are based on the Company's matching obligation and performance. The cost allocated to the Company for this benefit was $102 million and $34 million in 2006 and 2005, respectively.

NOTES TO FINANCIAL STATEMENTS

13. Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations

1. The Company had 42,000 common shares authorized, issued and outstanding at December 31, 2006 and 2005. All shares had a par value of $100 per share.

2. The Company did not have preferred stock outstanding at December 31, 2006 or 2005.

3. The ability of the Company to pay dividends is dependent on business conditions, income, cash requirements of the Company, receipt of dividends from its subsidiaries and other relevant factors. Without prior approval of the IL DOI, dividends to shareholder are limited to $4.92 billion. This amount is formula driven based on net income and capital and surplus as specified by Illinois insurance law. Dividends are not cumulative.

4. Within the limitations of Part 3 above, there were no restrictions placed on the portion of the Company's profits that may be paid as ordinary dividends to stockholders.

5. The unassigned funds, which are held for the benefit of the shareholder, are unrestricted except by requirement for regulatory approval as described in Part 3 above.

6. The Company is not a mutual or similarly organized company, therefore, this disclosure requirement does not apply.

7. The Company did not hold stock for special purposes at December 31, 2006 or 2005.

8. In September 1996, the Company completed the sale of its United States based reinsurance operations for policies written after 1984 to SCOR U.S. Corporation ("SCOR"). The transaction consisted of the sale of certain non-insurance assets, liabilities and renewal rights and a reinsurance transaction for the insurance liabilities. The Company followed NAIC accounting guidance for the treatment of retroactive contracts and reported the gain on the sale as a "write-in" adjustment to special surplus from retroactive reinsurance account. The balance of the special surplus funds was $41 million at December 31, 2006 compared to $28 million at December 31, 2005. The increase in the special surplus funds balance was the result of a reduction in salvage reserves due to a commutation.

9. Cumulative unrealized gains and losses increased unassigned funds by $3.44 billion and $3.31 billion at December 31, 2006 and 2005, respectively.

10. The Company did not have surplus notes or similar obligations outstanding at December 31, 2006 or 2005.

11. The Company did not have restatements due to quasi-reorganizations in 2006 or 2005.

12. The Company was not quasi-reorganized.

14. Contingencies

A. Contingent Commitments

The Company has made the following contingent commitments in addition to the related party commitments described in Note 10, Part E.

Commitments to acquire financial interests or make capital contributions

The table below presents a summary of commitments the Company has made as of December 31, 2006 to acquire financial interests or make additional capital contributions:

(in millions)		
Limited partnerships	$	738
Economically targeted letters of credit		10
LIHTC		1

California Earthquake Authority ("CEA")

Exposure to certain potential losses from earthquakes in California is limited by the Company's participation in the CEA, which provides insurance for California earthquake losses. The CEA is a privately-financed, publicly-managed state agency created to provide insurance coverage for earthquake damage. Insurers selling homeowners insurance in California are required to offer earthquake insurance to their customers either through their company or by participation in the CEA. The Company's homeowners policies continue to include coverages for losses caused by explosions, theft, glass breakage and fires following an earthquake, which are not underwritten by the CEA.

Should losses arising from an earthquake cause a deficit in the CEA, additional funding would be obtained through assessments on participating insurance companies and reinsurance proceeds. Participating insurers are required to pay an assessment, currently estimated not to exceed $2.20 billion, if the capital of the CEA falls below $350 million. Participating insurers are required to pay a second assessment, currently estimated not to exceed $1.47 billion, if aggregate CEA earthquake losses exceed $8.17 billion and the capital of the CEA falls below $350 million. At September 30, 2006, the CEA's capital balance was approximately $2.44 billion. If the CEA assesses its member insurers for any amount, the amount of future assessments on members is reduced by the amounts previously assessed. To date, the only assessment made by the CEA has been its initial assessment paid by participating insurers beginning in 1996. The authority of the CEA to assess participating insurers for the first assessment expires when it has completed twelve years of operation, at year-end 2008. All future assessments on participating CEA insurers are based on their CEA insurance market share as of December 31 of the preceding year. As of December 31, 2005, the Company's share of the CEA was 22.2%. The Company does not expect its CEA market share to materially change. At this level, the Company's maximum possible CEA assessment would be $812 million. Accordingly, assessments from the CEA for a particular quarter or annual period may be material to the income and cash flows, but not the financial position of the Company. Management believes the Company's exposure to earthquake losses in California has been significantly reduced as a result of its participation in the CEA.

Shared Markets

As a condition of maintaining its licenses to write personal property and casualty insurance in various states, the Company is required to participate in assigned risk plans, reinsurance facilities and joint underwriting associations that provide various types of insurance coverage to individuals or entities that otherwise are unable to purchase such coverage from private insurers. Underwriting results related to these arrangements, which tend to be adverse, were immaterial to the Statement of Income.

Guarantees

The Company guaranteed debt issued by the Allstate Real Estate Trust ("Trust"), an unconsolidated special purpose entity, from which it leased an office building. On October 2, 2006, the Company purchased the office building from the Trust. The Trust used the proceeds from the purchase to retire the debt that the Company had guaranteed. At December 31, 2005, the maximum amount of potential future payments for the guarantee of the debt or the residual value guarantee or the combined debt and residual value guarantee was $66 million.

NOTES TO FINANCIAL STATEMENTS

The Company also provides residual value guarantees on Company leased automobiles. If all outstanding leases were terminated effective December 31, 2006, the Company's maximum obligation pursuant to these guarantees, assuming the automobiles have no residual value, would be $21 million at December 31, 2006. If all outstanding leases were terminated effective December 31, 2005, the Company's maximum obligation pursuant to these guarantees, assuming the automobiles have no residual value, would be $16 million at December 31, 2005. The remaining term of each residual value guarantee is equal to the term of the underlying lease, which ranges from less than one year to three years. Historically, the Company has not made any material payments pursuant to these guarantees.

A guarantee to Morgan Stanley DW, Inc. ("Morgan Stanley) was executed by the Company, related to the obligations of Northbrook Holdings, LLC ("Northbrook"), a wholly owned subsidiary of the Company, under a certain Note Purchase Agreement between Northbrook and Morgan Stanley and promissory notes issued by Northbrook pursuant thereto. The balance of the notes was $6 million and $32 million at December 31, 2006 and 2005, respectively.

PMI Runoff Support Agreement

The Company has certain limited rights and obligations under a capital support agreement ("Runoff Support Agreement") with PMI Mortgage Insurance Company ("PMI"), the primary operating subsidiary of The PMI Group, related to the Company's disposition of PMI in prior years. Under the Runoff Support Agreement, the Company would be required to pay claims on PMI policies written prior to October 28, 1994 if PMI fails certain financial covenants and fails to pay such claims. In the event any amounts are so paid, the Company would receive a commensurate amount of preferred stock or subordinated debt of The PMI Group or PMI. The Runoff Support Agreement also restricts PMI's ability to write new business and pay dividends under certain circumstances. Management does not believe this agreement will have a material adverse effect on the net income, liquidity or financial position of the Company.

B. Assessments

Guaranty Funds

Under state insurance guaranty fund laws, insurers doing business in a state can be assessed, up to prescribed limits, for certain obligations of insolvent insurance companies to policyholders and claimants. The Company's policy is to accrue guaranty fund assessments based on notification of new and ongoing insolvencies received from individual state guaranty associations. At December 31, 2006 and 2005, the Company had accrued $118 million and $126 million, respectively, for future guaranty fund assessments and $27 million and $30 million, respectively, for the related premium tax offset expected to be realized. The period over which assessments are expected to be paid varies. Premium tax offsets are realized on a straight-line basis over the period allowed by each individual state once the guaranty fund assessment has been paid.

Florida Hurricane Catastrophe Fund ("FHCF")

As of December 31, 2006, the Company participates in the mandatory coverage provided by the FHCF, and therefore has access to reimbursements on certain qualifying Florida hurricane losses from the FHCF, and has exposure to assessments and pays annual premiums to the FHCF for this reimbursement protection. The FHCF has the authority to issue bonds to pay its obligations to insurers participating in the mandatory coverage in excess of its capital balances. Payment of these bonds is funded by emergency assessments on all property and casualty premiums in the state, except workers' compensation, medical malpractice, accident and health insurance and policies written under the National Flood Insurance Program. The FHCF emergency assessments are limited to 6% of premiums per year beginning in the first year in which reimbursements require bonding, and up to a total of 10% of premiums per year for assessments in the second and subsequent years, if required to fund additional bonding. In 2006, the FHCF issued approximately $4 billion in bonds, and the Florida Office of Insurance Regulation ("FL OIR") ordered an emergency assessment of 1% of premiums collected, which began on January 1, 2007. As required, companies will collect the FHCF emergency assessments directly from policyholders and remit them to the FHCF as they are collected.

State Facilities

The Company is subject to assessments from Florida Citizens Property Insurance Corporation ("FL Citizens"), which was initially created by the state of Florida to provide insurance to property owners unable to obtain coverage in the private insurance market. FL Citizens, at the discretion and direction of its Board of Governors ("FL Citizens Board"), can levy a regular assessment on participating companies for a deficit in any calendar year up to a maximum of the greater of 10% of the deficit or 10% of Florida property premiums industry-wide for the prior year. An insurer may recoup a regular assessment through a surcharge to policyholders. In order to recoup this assessment, an insurer must file for a policy surcharge with the FL OIR at least fifteen days prior to imposing the surcharge on policies. If a deficit remains after the regular assessment, FL Citizens can also levy emergency assessments in the current and subsequent years. Companies are required to collect the emergency assessments directly from residential property policyholders and remit them to FL Citizens as collected. In addition, FL Citizens may issue bonds to further fund a deficit. Participating companies are obligated to purchase any unsold bonds issued by FL Citizens.

FL Citizens reported a deficit for the 2004 plan year. In 2005, the Company paid its portion of the assessment totaling $6 million and has recouped $1 million as of December 31, 2006, with an additional $120 thousand expected to be recouped in 2007. The difference between the assessment and the total expected recoupment is primarily due to the Company's exit from the commercial property market in Florida announced in May 2005 and expected to be completed in 2007. Recoupments are recorded as an admitted asset.

FL Citizens reported losses from Hurricane Wilma in 2005, which followed the deficit for the 2004 plan year. The FL Citizens Board met at the end of May 2006 and certified the 2005 FL Citizens deficit at $1.73 billion of which $920 million was to be funded through a regular assessment. The Company paid its portion of the deficit assessment totaling $2 million during 2006, which was a decrease from its estimated accrual of $10 million at December 31, 2005. The Company does not expect to recoup any of this assessment from policyholders. The remainder of the deficit and the continuing growth of FL Citizens will be funded by $3.1 million in bonds issued in 2006. Should the actions taken by FL Citizens not produce adequate cash flow to cover the debt, the Company could be subject to an emergency assessment.

The Company is also subject to assessments from the Louisiana Citizens Property Insurance Corporation ("LA Citizens"). LA Citizens can levy a regular assessment on participating companies for a deficit in any calendar year up to a maximum of the greater of 10% of the calendar year deficit or 10% of Louisiana direct property premiums industry-wide for the prior calendar year. LA Citizens had a financial deficit due to losses incurred from the hurricanes that struck Louisiana during 2005, and therefore levied an assessment to participating companies. The Company paid its share of this regular assessment totaling $34 million during 2005, and has recouped $27 million as of December 31, 2006, with the remaining $7 million expected to be recouped in 2007.

FL Citizens, LA Citizens and the FHCF are generally designed so that the ultimate cost is borne by policyholders, however, the exposure to assessments and the availability of recoupments or premium rate increases from these facilities may not offset each other in the Company's financial statements. Moreover, even if they do offset each other, they may not offset each other in financial statements for the same fiscal period due to the ultimate timing of the assessments and recoupments or premium rate increases, as well as the possibility of policies not being renewed in subsequent years.

C. Gain Contingencies

The Company has not recognized gain contingencies subsequent to December 31, 2006 but prior to the issuance of the Company's Annual Statutory Statement.

NOTES TO FINANCIAL STATEMENTS

D. All Other Contingencies

Regulation

The Company is subject to changing social, economic and regulatory conditions. From time to time regulatory authorities or legislative bodies seek to influence and restrict premium rates, require premium refunds to policyholders, restrict the ability of insurers to cancel or non-renew policies, limit insurers' ability to change coverage terms or to impose underwriting standards, impose additional regulations regarding agent and broker compensation and otherwise expand overall regulation of insurance products and the insurance industry. The ultimate changes and eventual effects of these initiatives on the Company's business, if any, are uncertain.

Legal and regulatory proceedings and inquiries

Background

The Company and certain subsidiaries are involved in a number of lawsuits, regulatory inquiries, and other legal proceedings arising out of various aspects of its business. As background to the "Proceedings" sub-section below, please note the following:

- These matters raise difficult and complicated factual and legal issues and are subject to many uncertainties and complexities, including but not limited to, the underlying facts of each matter; novel legal issues; variations between jurisdictions in which matters are being litigated, heard or investigated; differences in applicable laws and judicial interpretations; the length of time before many of these matters might be resolved by settlement, through litigation or otherwise and, in some cases, the timing of their resolutions relative to other similar matters involving other companies; the fact that many of the lawsuits are putative class actions in which a class has not been certified and in which the purported class may not be clearly defined; the fact that many of the lawsuits involve multi-state class actions in which the applicable law(s) for the claims at issue is in dispute and therefore unclear; and the current challenging legal environment faced by large corporations and insurance companies.

- In the lawsuits, plaintiffs seek a variety of remedies including equitable relief in the form of injunctive and other remedies and monetary relief in the form of contractual and extra-contractual damages. In some cases, the monetary damages sought include punitive or treble damages. Often specific information about the relief sought, such as the amount of damages, is not available because plaintiffs have not requested specific relief in their pleadings. When specific monetary demands are made, they are often set just below a state court jurisdictional limit in order to seek the maximum amount available in state court, regardless of the specifics of the case, while still avoiding the risk of removal to federal court. In our experience, monetary demands in pleadings bear little relation to the ultimate loss, if any, to the Company.

- In connection with regulatory examinations and proceedings, government authorities may seek various forms of relief, including penalties, restitution and changes in business practices. The Company may not be advised of the nature and extent of relief sought until the final stages of the examination or proceeding.

- For the reasons specified above, it is often not possible to make meaningful estimates of the amount or range of loss that could result from the matters described below in the "Proceedings" sub-section. The Company reviews these matters on an ongoing basis and follows the provisions of Statement of Statutory Accounting Principle ("SSAP") No. 5, *Liabilities, Contingencies and Impairments of Assets,* when making accrual and disclosure decisions. When assessing reasonably possible and probable outcomes, the Company bases its decisions on its assessment of the ultimate outcome following all appeals.

- Due to the complexity and scope of the matters disclosed in the "Proceedings" sub-section below and the many uncertainties that exist, the ultimate outcome of these matters cannot be reasonably predicted. In the event of an unfavorable outcome in one or more of these matters, the ultimate liability may be in excess of amounts currently reserved and may be material to the Company's operating results or cash flows for a particular quarter or annual period. However, based on information currently known to it, management believes that the ultimate outcome of all matters described below as they are resolved over time is not likely to have a material adverse effect on the financial position of the Company.

Proceedings

There are two multi-state certified class action lawsuits pending against the Company in state courts alleging that its failure to pay "inherent diminished value" to insureds under the collision, comprehensive, or uninsured motorist property damage liability provisions of auto policies constitutes breach of contract and fraud. Plaintiffs define "inherent diminished value" as the difference between the market value of the insured automobile before an accident and the market value after repair. Plaintiffs allege that they are entitled to the payment of inherent diminished value under the terms of the policy. To a large degree, these lawsuits mirror similar lawsuits filed against other carriers in the industry. A trial in the case involving collision and comprehensive coverage concluded on April 29, 2004, with a jury verdict in favor of the Company. The plaintiffs filed an appeal from the judgment, and on June 1, 2006, the judgment for the Company was affirmed by the appellate court. The plaintiffs requested a reconsideration of this ruling, which was denied by the court. The plaintiffs then filed a petition for leave to appeal to the Illinois Supreme Court, and that petition was denied on November 29, 2006. Plaintiffs have until February 27, 2007 to petition the U.S. Supreme Court to review this case, however, the Company does not expect the plaintiffs to do so. In the other case, which involves uninsured motorist property damage coverage, the trial court certified a 19 state class action. The appellate court granted the Company's petition for review of the order of certification, and has affirmed the certification. The Company has filed a petition to appeal to the Washington Supreme Court, which was denied. The case has been remanded to the trial court for further proceedings. The Company has been vigorously defending all these lawsuits and, since 1998, has been implementing policy language in more than 40 states reaffirming that its collision and comprehensive coverages do not include diminished value claims. The outcome of these disputes remains uncertain.

There are a number of state and nationwide class action lawsuits pending in various state courts challenging the legal propriety of the Company's medical bill review processes on a number of grounds, including, among other things, the manner in which the Company determines reasonableness and necessity. One nationwide class action and one statewide class action have been certified. These lawsuits, which to a large degree mirror similar lawsuits filed against other carriers in the industry, allege these processes result in a breach of the insurance policy as well as fraud. Plaintiffs seek monetary damages in the form of contractual and extra-contractual damages. The Company denies these allegations and has been vigorously defending these lawsuits. The outcome of these disputes is currently uncertain.

There is a nationwide putative class action pending against the Company that challenges the Company's use of a vendor's automated database in valuing total loss automobiles. To a large degree, this lawsuit mirrors similar lawsuits filed against other carriers in the industry. Plaintiffs allege that flaws in the database result in valuations to the detriment of insureds. The plaintiffs are seeking actual and punitive damages. The lawsuit is in the early stages of discovery and the Company is vigorously defending it, but the ultimate outcome is currently uncertain.

The Company has received preliminary approval of a settlement in a putative nationwide class action that alleged that the Company discriminates against non-Caucasian policyholders through underwriting and rate-making practices, including the use of credit information. The Company is also defending a putative statewide class action in federal court challenging its use of credit information under certain state insurance statutes. These plaintiffs seek monetary and equitable relief, including actual and punitive damages and injunctive relief. The Company denies these allegations and has been vigorously defending this lawsuit. The outcome of this dispute is currently uncertain.

NOTES TO FINANCIAL STATEMENTS

The Company is defending a number of matters filed in the aftermath of Hurricanes Katrina and Rita, including several statewide putative class action lawsuits pending in Mississippi, Louisiana and Texas. In one matter, the Mississippi Attorney General filed a suit asserting that the flood exclusion found in the Company's and other insurance companies' policies is either ambiguous, unenforceable as unconscionable or contrary to public policy, or inapplicable to the damage suffered in the wake of Hurricane Katrina. In a putative class action in Mississippi, some members of the Mississippi Windstorm Underwriters Association ("MWUA") have filed suit against the MWUA board members and the companies they represent, including a subsidiary of the Company, alleging that the Board purchased insufficient reinsurance to protect the MWUA members. In a putative class action in Louisiana, the trial court judge recently ruled that the Company's and other carriers' flood, water and negligent construction exclusions do not apply to man-made floods (i.e., floods caused by human negligence), and therefore do not apply to flooding in the New Orleans area to the extent it was caused by human negligence in the design, construction and/or maintenance of the levees. The Company and other insurers filed a petition for interlocutory appeal with the Fifth Circuit Court of Appeals, which was accepted on February 2, 2007. These suits seek primarily declaratory relief, and in some cases, actual and punitive damages in unspecified amounts. These matters are in various stages of development and the Company intends to vigorously defend them. The outcome of these disputes is currently uncertain.

The Company is defending various lawsuits involving worker classification issues. These lawsuits include a putative class action and several certified class actions challenging the overtime exemption claimed by the Company under the Fair Labor Standards Act or state wage and hour laws. In these cases, plaintiffs seek monetary relief, such as penalties and liquidated damages, and non-monetary relief, such as injunctive relief and an accounting. These class actions mirror similar lawsuits filed against other carriers in the industry and other employers. The Company is continuing to vigorously defend its other worker classification lawsuits. The outcome of these disputes is currently uncertain.

The Company is defending certain matters relating to the Company's agency program reorganization announced in 1999. These matters include a lawsuit filed in December 2001 by the U.S. Equal Employment Opportunity Commission ("EEOC") alleging retaliation under federal civil rights laws (the "EEOC I" suit) and a class action filed in August 2001 by former employee agents alleging retaliation and age discrimination under the Age Discrimination in Employment Act ("ADEA"), breach of contract and ERISA violations (the "Romero I" suit). In March 2004, in the consolidated EEOC I and Romero I litigation, the trial court issued a memorandum and order that, among other things, certified classes of agents, including a mandatory class of agents who had signed a release, for purposes of effecting the court's declaratory judgment that the release is voidable at the option of the release signer. The court also ordered that an agent who voids the release must return to the Company "any and all benefits received by the [agent] in exchange for signing the release." The court also stated that, "on the undisputed facts of record, there is no basis for claims of age discrimination." The EEOC and plaintiffs asked the court to clarify and/or reconsider its memorandum and order and on January 16, 2007, the judge denied their request. The case otherwise remains pending. The EEOC also filed another lawsuit in October 2004 alleging age discrimination with respect to a policy limiting the rehire of agents affected by the agency program reorganization (the "EEOC II" suit). In EEOC II, in October 2006, the court granted partial summary judgment to the EEOC. Although the court did not determine that the Company was liable for age discrimination under the ADEA, it determined that the rehire policy resulted in a disparate impact, reserving for trial the determination on whether the Company had reasonable factors other than age to support the rehire policy. The Company filed a motion for interlocutory appeal from the partial summary judgment, which was granted by the trial court on January 4, 2007. The Company has filed a petition for immediate review of two controlling issues of law to the Court of Appeals for the Eighth Circuit and that petition is currently pending. The Company is also defending a certified class action filed by former employee agents who terminated their employment prior to the agency program reorganization. These plaintiffs have asserted breach of contract and ERISA claims. A putative nationwide class action has also been filed by former employee agents alleging various violations of ERISA, including a worker classification issue. These plaintiffs are challenging certain amendments to the Agents Pension Plan and are seeking to have exclusive agent independent contractors treated as employees for benefit purposes. This matter was dismissed with prejudice by the trial court, was the subject of further proceedings on appeal, and was reversed and remanded to the trial court in April 2005. In all of these various matters, plaintiffs seek compensatory and punitive damages, and equitable relief. The Company has been vigorously defending these lawsuits and other matters related to its agency program reorganization. The outcome of these disputes is currently uncertain.

The Company is defending its homeowners insurance rates and discount programs in administrative actions filed by Texas Department of Insurance ("TX DOI"). The TX DOI is focusing, as they have with other insurers, on the reasonableness of the Company's rates for the risks to which they apply. On July 13, 2005, the Administrative Law Judge granted partial summary disposition in the Company's favor on almost all the TX DOI's claims regarding the Company's discount program. In the rate proceeding on May 22, 2006, the Texas Commissioner of Insurance ordered the Company to reduce its homeowners rates by 5% and to pay refunds on the difference plus interest back to December 30, 2004, for which the Company has been accruing. The Company has filed a petition for judicial review of the Texas Commissioner's rate refund order with the district court, and has also filed and implemented a 5% rate decrease occurring in two stages.

Other matters

The Corporation and some of its subsidiaries have received interrogatories and demands for information from regulatory and enforcement authorities relating to various insurance products and practices. The areas of inquiry include variable annuity market timing, late trading and the issuance of funding agreements backing medium-term notes. The Corporation and some of its subsidiaries have also received interrogatories and demands for information from authorities seeking information relevant to ongoing investigations into the possible violation of antitrust or insurance laws by unnamed parties and, in particular, seeking information as to whether any person engaged in activities for the purpose of price fixing, market allocation, or bid rigging. The Corporation believes that these inquiries are similar to those made to many financial services companies as part of industry-wide investigations by various authorities into the practices, policies and procedures relating to insurance and financial services products. Moreover, the Corporation has not received any communication from authorities related to the variable market timing and late trading inquiries since November 2005. The Corporation and its subsidiaries have responded and will continue to respond to these inquiries.

Various other legal and regulatory actions, including state market conduct exams, are currently pending that involve the Company and specific aspects of its conduct of business. Like other members of the insurance industry, the Company is the target of a number of class action lawsuits and other types of proceedings, some of which involve claims for substantial or indeterminate amounts. These actions are based on a variety of issues and target a range of the Company's practices. The outcome of these disputes is currently unpredictable.

One or more of these matters could have an adverse effect on the Company's net income or cash flows for a particular quarter or annual period. However, based on information currently known to it, management believes that the ultimate outcome of all matters described in this "Other matters" sub-section, in excess of amounts currently reserved, as they are resolved over time is not likely to have a material effect on the net income, cash flows or financial position of the Company.

15. Leases

A. Lessee Operating Lease

1. The Company leases certain office facilities and computer equipment under various noncancelable operating agreements that expire through 2017. Total rent expense, net sublease rental income, was $303 million and $337 million in 2006 and 2005, respectively. Sublease rental income was $1 million in both 2006 and 2005.

NOTES TO FINANCIAL STATEMENTS

2.

a. At December 31, 2006, the minimum aggregate rental commitments under noncancelable operating leases with an initial or remaining term of more than one year were as follows:

(in millions)	
2007	$ 205
2008	168
2009	121
2010	100
2011	62
Thereafter	138
Total	$ 794

b. At December 31, 2006, the total of minimum aggregate rental commitments to be received under noncancelable subleases with an initial or remaining term of more than one year were as follows:

(in millions)	
2007	$ 2
2008	1
2009	1
2010	1
2011	1
Total	$ 6

3. Sale-leaseback transactions

a. In 2006, the Company entered into various sale-leaseback transactions to dispose of three buildings and lease back certain portions of the buildings ranging from 49% to 100% for a period of ten years. The transaction resulted in a pre-tax gain of $12 million of which $4 million was recognized as a gain in 2006 and $8 million was deferred and will be amortized as a reduction of rent expense over the ten-year leaseback period. The Company also entered into another sale-leaseback transaction in 2006 to dispose of a building and leaseback approximately 23% of the building for a period of three years. This transaction resulted in a pre-tax gain of $8 million of which $7 million was recognized as a gain in 2006 and the remaining $1 million was deferred and will be amortized as a reduction to rent expense over the three-year leaseback period. The Company has limited involvement other than being a tenant and the leases are accounted for as operating leases.

In 2005, the Company entered into a sale-leaseback transaction to dispose of three buildings and leaseback 100% of the buildings for a period of ten years. The transaction resulted in a pre-tax gain of $40 million that was deferred and will be amortized as a reduction to rent expense over the ten-year leaseback period. The Company also entered into another sale-leaseback transaction in 2005 to dispose of a building and leaseback approximately 47% of the building for a period of ten years. This transaction resulted in a pre-tax gain of $24 million of which $12 million was recognized as a gain in 2005 and the remaining $12 million was deferred and will be amortized as a reduction to rent expense over the ten-year leaseback period. The Company has limited involvement other than being a tenant, and the leases are accounted for as operating leases.

b. The transactions described above were not accounted for as a deposit.

B. Lessor Leases

Leasing activities were not part of the Company's business activities in 2006 or 2005.

16. Information about Financial Instruments With Off-Balance Sheet Risk and Concentration of Credit Risk

Derivative financial instruments

1. The following table summarizes the notional amount, statement value and fair value of the Company's derivative financial instruments, including those with off-balance sheet risk at December 31:

	2006		
(in millions)	Notional Amount	Statement Value	Fair Value
Interest rate contracts			
Interest rate swap agreements	$ 400	$ 1	$ 1
Financial futures contracts	350	-	-
Equity and index contracts			
Options, commodities and financial futures	884	-	2
Other derivative financial instruments			
Replication excess return swaps	575	-	-
Credit default swaps – buying protection	174	(1)	(1)
Replication credit default swaps	77	-	-
Total other derivative financial instruments	826	(1)	(1)
Total derivative financial instruments	$ 2,460	$ -	$ 2

	2005		
(in millions)	Notional Amount	Statement Value	Fair Value
Interest rate contracts			
Interest rate swap agreements	$ -	$ -	$ -
Financial futures contracts	310	-	-
Equity and index contracts			
Options, commodities and financial futures	178	2	2
Other derivative financial instruments			
Replication excess return swaps	275	-	-
Credit default swaps – buying protection	86	-	-
Replication credit default swaps	90	-	-
Total other derivative financial instruments	451	-	-
Total derivative financial instruments	$ 939	$ 2	$ 2

The notional amounts specified in the contracts are used to calculate the exchange of contractual payments under the agreements and are not representative of the potential for gain or loss on these agreements.

Statement values are prescribed by the NAIC, and are generally equal to consideration paid or received except when non-hedge accounting is used, in which case statement value is equal to current fair value.

NOTES TO FINANCIAL STATEMENTS

Fair value is the estimated amount that the Company will receive/pay to terminate the derivative contracts at the reporting date. For exchange traded derivative contracts, the fair value is based on dealer or exchange quotes. The exchange requires margin deposits as well as daily cash settlements of margin. The fair value of non-exchange traded derivative contracts is based on either independent third party pricing sources, including broker quotes, or widely accepted pricing and valuation models which use independent third party data.

2. The credit risk, market risk, and cash requirements of the Company's derivative instruments are discussed in Note 8, Part A. The accounting policies for the Company's derivatives are disclosed in Note 1, Part C and Note 8, Part C.

3. Credit exposure on the Company's interest rate swap contracts was $1 million at December 31, 2006. None of the Company's derivative financial instruments had credit exposure at December 31, 2005.

   Credit exposure represents the Company's potential loss if all counterparties concurrently fail to perform under the contractual terms of the contracts and all collateral, if any, becomes worthless. This exposure is measured by the fair value of contracts with a positive fair value at the reporting date reduced by the effect, if any, of master netting agreements. The Company has not incurred any losses on derivative financial instruments due to counterparty nonperformance.

4. The Company's policy for requiring collateral is discussed in Note 8, Part A.

   In general, the collateral pledged by the Company is in the custody of a counterparty or an exchange. However, the Company has access to this collateral at any time, subject to replacement.

   The Company is required to post collateral for all exchange traded futures and option contracts. The amount of collateral required is determined by the type and fair value of the open futures or option contract position. In order to satisfy the collateral requirement, the Company pledged U.S. Treasury bonds. As of December 31, 2006 and 2005, the Company had pledged $39 million and $11 million, respectively, of securities in the form of margin deposits.

Other than derivative financial instruments

1. The table below presents a summary of the contractual amounts of off-balance sheet financial instruments, other than derivatives at December 31:

(in millions)	2006	2005
Commitments to invest	$ 749	$ 600
Commitments to extend mortgage loans	45	-
Credit guarantees	17	7

2. Commitments to invest generally represent commitments to acquire financial interests or instruments. The Company enters into these agreements to allow for additional participation in certain limited partnership investments. Commitments to invest are generally callable at the counterparty's request.

   Commitments to extend mortgage loans are agreements to lend to a borrower provided there is no violation of any condition established in the contract. The Company enters into these agreements to commit to future loan fundings at a predetermined interest rate. Commitments generally have fixed expiration dates or other termination clauses. Commitments to extend mortgage loans, which are secured by the underlying properties, are valued based on estimates of fees charged by other institutions to make similar commitments to similar borrowers.

   Credit guarantees represent conditional commitments included in certain bonds owned by the Company. These commitments provide for obligations to exchange credit risk or to forfeit principal due, depending on the nature or occurrence of credit events for the referenced entities. The Company enters into these transactions in order to achieve higher yields than direct investment in referenced entities. The fees for assuming the conditional commitments are reflected in the interest receipts reported in net investment income over the lives of the contracts.

3. For commitments to invest and commitments to extend mortgage loans, the contractual amounts presented in Part 1 above represent the amount at risk if the contract was fully drawn upon, the counterparty defaults and the value of any underlying security becomes worthless.

   For credit guarantees, in the event of bankruptcy or other default of the referenced entities, the Company's maximum amount at risk, assuming the value of the referenced credits becomes worthless, is the amount of the aggregate initial investment, which totaled $17 million and $7 million at December 31, 2006 and 2005, respectively. The Company includes the impact of credit guarantees in its analysis of credit risk, and the referenced credit guarantees were current to their contractual terms at December 31, 2006 and 2005.

4. The Company does not require collateral or other security to support off-balance sheet financial instruments with credit risk.

17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

A. The Company did not report transfers of receivables as sales in 2006 or 2005.

B.

1. During 2006 and 2005, the Company entered into securities lending agreements. The Company was able to estimate the fair value of assets obtained and liabilities incurred in these agreements.

2. The Company entered into securities lending agreements using U.S. Treasury bonds, corporate bonds and domestic and foreign equities in 2006 and 2005. Securities lent were either specifically identified by the lending bank or segregated into a separate custody account. The amounts on loan were $1.80 billion and $1.50 billion at December 31, 2006 and 2005, respectively. The Company receives collateral for securities loaned in an amount generally equal to 102% and 105% of the fair value of domestic and foreign securities, respectively, and records the related obligations to return the collateral in aggregate write-ins for liabilities. All collateral is received in the form of cash, not restricted and maintained in a separate custody account. None of the collateral has been sold or repledged. Generally, collateral is invested in short-term and long-term investments during the agreement period. The Company monitors the market value of securities loaned on a daily basis and obtains additional collateral obtained as necessary to mitigate counterparty credit risk. The Company maintains the right and ability to redeem the securities loaned on short notice. Substantially all of the Company's securities loaned were placed with large brokerage firms. Securities lending transactions are short-term in nature (usually 30 days or less).

3. The Company did not enter into servicing assets or liability agreements in 2006 or 2005.

4. The Company was not a transferor of securitized financial assets in 2006 or 2005.

5. The Company did not retain interest in securitized financial assets in 2006 or 2005.

6. The Company did not transfer receivables with recourse in 2006 or 2005.

NOTES TO FINANCIAL STATEMENTS

C. In the course of managing the Company's investment portfolio, securities are sold and reacquired within 30 days of the sale date. Such transactions are referred to as wash sales. The details, by NAIC designation 3 or below, of bonds sold during 2006 and 2005 and reacquired within 30 days of the sale date were:

	2006			
($ in millions)	Number of Transactions	Book Value of Securities Sold	Cost of Securities Repurchased	Gain/(Loss)
NAIC 3	2	$ 4	$ 4	$ -
NAIC 4	22	21	22	1
NAIC 5	5	5	5	-
NAIC 6	-	-	-	-

	2005			
($ in millions)	Number of Transactions	Book Value of Securities Sold	Cost of Securities Repurchased	Gain/(Loss)
NAIC 3	4	$ 10	$ 10	$ -
NAIC 4	8	6	7	(1)
NAIC 5	1	1	2	(1)
NAIC 6	2	1	1	-

The details, by NAIC designation P/RP3 or below, of preferred stock sold during 2006 and reacquired within 30 days of the sale date were:

	2006			
($ in millions)	Number of Transactions	Book Value of Securities Sold	Cost of Securities Repurchased	Gain/(Loss)
NAIC P/RP3	1	$ 1	$ 1	$ -
NAIC P/RP4	1	-	1	-
NAIC P/RP5	-	-	-	-
NAIC P/RP6	-	-	-	-

The Company did not have wash sales related to preferred stock for the year ending December 31, 2005.

18. Gain or Loss to the Reporting Entity from Uninsured Plans and the Uninsured Portion of Partially Insured Plans

The Company did not act as a third party administrator for uninsured plans.

19. Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

There were no direct premiums written through managing general agents/third party administrators that were equal to or greater than 5% of the Company's surplus in 2006 or 2005.

20. September 11 Events

Catastrophe losses in 2006 and 2005 included pre-tax losses, net of reinsurance, of $(2) thousand and $69 thousand, respectively, due to the September 11, 2001 attack on the World Trade Center in New York City, the Pentagon in Washington D.C., and the plane crash in Pennsylvania. Management does not expect any future contingencies or unpaid claims or losses related to these events to have a material impact on the Company's financial statements.

21. Other Items

A. Extraordinary Items

The Company did not have extraordinary items at December 31, 2006 or 2005.

B. Troubled Debt Restructuring: Debtors

The Company did not have troubled debt restructurings at December 31, 2006 or 2005.

C. Other Disclosures

Internally developed software

Internally developed software consisted of the following:

(in millions)	2006	2005
January 1, beginning balance	$ 134	$ 111
Capitalized cost	61	67
Depreciation	(28)	(44)
December 31, ending balance	$ 167	$ 134

Accumulated depreciation on internally developed software was $245 million and $217 million at December 31, 2006 and 2005, respectively. The internal and external costs incurred to develop internal-use computer software and web sites during the application and development stage and infrastructure stage are capitalized, and since it is all non-operating software, amortized on a straight-line basis over the lesser of five years or its estimated useful life. All internally developed software was nonadmitted at December 31, 2006 and 2005.

NOTES TO FINANCIAL STATEMENTS

Unrealized losses

Unrealized losses result from declines in fair value below amortized cost for bonds or cost for common stocks and preferred stocks and are evaluated for other-than-temporary impairment. The following table summarizes the fair value and gross unrealized losses of certain securities by the length of time that individual securities had been in a continuous unrealized loss position at December 31, 2006.

($ in millions)	Less than 12 months			12 months or more			
	Number of Issues	Fair Value	Unrealized Losses	Number of Issues	Fair Value	Unrealized Losses	Total Unrealized Losses
Bonds*	878	$ 3,592	$ (24)	1,055	$ 2,971	$ (67)	$ (91)
Unaffiliated common stocks	143	119	(11)	78	30	(5)	(16)
Preferred stocks	11	38	(1)	7	38	(5)	(6)
Total	1,032	$ 3,749	$ (36)	1,140	$ 3,039	$ (77)	$ (113)

* Bonds include loan-backed and structured securities

Of the $113 million of total unrealized losses, $16 million was related to unaffiliated common stocks and $74 million was related to investment grade bonds and preferred stocks. Unrealized losses on investment grade securities are principally related to rising interest rates or changes in credit spreads since the securities were acquired. At December 31, 2006, $98 million of unrealized losses related to securities with an unrealized loss position less than 20% of cost or amortized cost, the degree which suggests these securities did not pose a high risk of being other than temporarily impaired. Of the remaining $15 million of unrealized losses, approximately $7 million and $8 million were related to common stocks and bonds, respectively, that have primarily been adversely affected by industry or issue specific reasons. Investment grade is defined as a security having a rating from the NAIC of 1 or 2; a rating of Aaa, Aa, A or Baa from Moody's, a rating of AAA, AA, A or BBB from Standard & Poor's, Fitch or Dominion, or a rating of aaa, aa, a or bbb from A.M. Best; or a comparable internal rating if an externally provided rating is not available. Every security was included in the portfolio monitoring process. At December 31, 2006, the Company had the intent and ability to hold these securities with unrealized losses for a period of time sufficient for them to recover in value.

Capital adequacy

In 2005, the Corporation committed to provide capital to the Company, in the form of surplus notes or contributed surplus, to maintain levels of statutory surplus as set forth in a Capital Support Commitment. In accordance with its terms, this agreement terminated when the Company's statutory surplus excluding ALIC exceeded $13.1 billion. The Company's statutory surplus excluding ALIC was approximately $13.7 billion at June 30, 2006 and the commitment terminated with no capital contribution having been made.

Credit facility

The Company's primary credit facility is a $1 billion five-year revolving line of credit expiring in 2009. It contains an increase provision that would make up to an additional $500 million available for borrowing provided the increased portion could be fully syndicated at a later date among existing and new lenders. There were no borrowings under this line of credit during 2006 or 2005.

Miscellaneous

Included in the attachments at the end of the Annual Statement is a schedule of net losses and loss expenses unpaid, as reported in Schedule P - Part 1, columns 13 through 24, for accident years 1996, 1995, 1994, 1993, 1992 and 1991 and prior, for each line of business reported.

Other expenses reported on Line 5, Page 3, Liabilities, Surplus and Other Funds, included $50 million and $40 million of reserves related to employee medical and dental plans at December 31, 2006 and 2005, respectively.

The Company had $20,713 and $1,475 in incurred losses for extra-contractual obligations in 2006 and 2005, respectively. In both 2006 and 2005 extra contractual obligations were paid for one claim.

D. Premium Balances Reasonably Possible to be Uncollectible

The Company routinely assesses the collectibility of its premiums and considerations that are less than 90 days old. The allowance for uncollectible premiums and considerations is determined based on the age of the receivable and prior collection experience. The allowance balance for admitted premiums and considerations, after reinsurance, was $16 million and $15 million at December 31, 2006 and 2005, respectively. Premiums and considerations older than 90 days are nonadmitted.

E. Business Interruption Insurance Recoveries

The Company did not procure business interruption insurance in 2006 or 2005, and therefore, did not receive any recoveries.

NOTES TO FINANCIAL STATEMENTS

F. Hybrid Securities

The Company had the following hybrid securities at December 31, 2006:

(in millions)

CUSIP	Issuer	Description	Book/Adjusted Carrying Value

G. State Transferable Tax Credits

1. At December 31, 2006, the Company had an investment in a transferable state tax credit with a carrying value of $800 thousand.

2. The unused transferable state tax credit for the state of Missouri was $800 thousand at December 31, 2006.

3. The Company estimated the utilization of the remaining transferable state tax credit by projecting the future tax liability and comparing it to the availability of remaining transferable state tax credits.

4. The Company did not recognize impairment losses on the carrying value of the state transferable tax credit investment.

H. Impact of Medicare Modernization Act on Postretirement Benefits

The recognition of the subsidy provided in 2005 from the Medicare Drug, Improvement and Modernization Act of 2003 reduced the Company's APBO by $78 million for benefits attributable to past service. In addition, the estimated annual net periodic postretirement benefit cost for 2005 was reduced by $8 million, of which $1 million was amortization of the actuarial experience gain attributable to past service, $3 million was a reduction of current period service cost, and $4 million was a reduction in interest cost on the APBO.

Estimated future benefit payments expected to be paid in the next 10 years, based on the assumptions used to measure the Company's postretirement benefit obligation at December 31, 2006 and the estimated subsidy to be received were as follows:

(in millions)	Gross Benefit Payments	Gross Medicare Part D Receipts
2007	$ 50	$ 3
2008	52	3
2009	54	3
2010	56	3
2011	58	4
2012 – 2016	316	23
Total benefit payments	$ 586	$ 39

22. Events Subsequent

On January 15, 2007, the Company declared a cash dividend of $400 million to the Corporation, which was paid on February 1, 2007.

23. Reinsurance

A. Unsecured Reinsurance Recoverables

The Company had unsecured reinsurance recoverables that exceeded 3% of the Company's policyholders surplus of $981 million and $1.02 billion at December 31, 2006 and 2005, respectively, with the Michigan Catastrophic Claim Association (NAIC Group Code 0000, FEIN AA-9991159).

B. Reinsurance Recoverable in Dispute

The Company did not have reinsurance recoverables on paid or unpaid (including incurred but not reported) losses in dispute by reason of notification, arbitration or litigation at December 31, 2006 or 2005, that either individually exceeded 5% of the Company's policyholders surplus, or in the aggregate exceeded 10% of the Company's policyholders surplus.

NOTES TO FINANCIAL STATEMENTS

C. Reinsurance Assumed and Ceded

1. The maximum amount of return commission which would have been due to reinsurers if they or the Company had canceled all of the Company's reinsurance, or if the Company or a receiver had canceled all the Company's insurance assumed as of December 31 with the return of unearned premium reserve was as follows:

(in millions)	2006					
	Assumed Reinsurance Premium Reserve	Assumed Reinsurance Commission Equity	Ceded Reinsurance Premium Reserve	Ceded Reinsurance Commission Equity	Net Premium Reserve	Net Commission Equity
(i) Affiliates	$ 4,575	$ 595	$ -	$ -	$ 4,575	$ 595
(ii) All other	18	-	(129)	(20)	(111)	(20)
(iii)Total	$ 4,593	$ 595	$ (129)	$ (20)	$ 4,464	$ 575

(iv) Direct Unearned Premium Reserve $ 4.41 billion

(in millions)	2005					
	Assumed Reinsurance Premium Reserve	Assumed Reinsurance Commission Equity	Ceded Reinsurance Premium Reserve	Ceded Reinsurance Commission Equity	Net Premium Reserve	Net Commission Equity
(i) Affiliates	$ 4,191	$ 539	$ -	$ -	$ 4,191	$ 539
(ii) All other	21	-	(110)	(33)	(89)	(33)
(iii)Total	$ 4,212	$ 539	$ (110)	$ (33)	$ 4,102	$ 506

(iv) Direct Unearned Premium Reserve $4.67 billion

2. The Company had no additional or return commission, predicated on loss experience or any other form of profit sharing arrangement as a result of existing contractual arrangements at December 31, 2006 or 2005.

3. The Company had no protected cells at December 31, 2006 or 2005.

D. Uncollectible Reinsurance

In 2006, the Company wrote-off reinsurance balances within incurred losses of $1 million with Vesta Group Companies. In 2005, the Company wrote-off reinsurance balances within incurred losses of $3 thousand with Chester Street Employers Association, Limited.

E. Commutation of Ceded Reinsurance

In 2006, the Company recorded an increase to incurred losses of $1 million as a result of the commutation of reinsurance. The increase in incurred losses was due to a loss of $2 million recognized on a commutation of reinsurance with CX Reinsurance Limited partially offset by a gain of $1 million recognized on a commutation with Saskatchewan Government Insurance.

In 2005, the Company recorded a decrease to incurred losses of $1 million primarily as a result of the commutation of reinsurance with Dunav Insurance Company.

F. Retroactive Reinsurance

The Company entered into an Assumption and Indemnity Retrocession Agreement with SCOR.

(in millions)	2006	2005
a. Reserves transferred:		
1. Initial reserves	$ 411	$ 411
2. Adjustments – prior years	(383)	(382)
3. Adjustments – current year	13	(1)
4. Current total	$ 41	$ 28
b. Consideration paid	$ 348	$ 348
c. Paid losses reimbursed or recovered	$ -	$ -
d. Special surplus from retroactive reinsurance		
1. Initial surplus gain or loss	$ 63	$ 63
2. Adjustments – prior years	(35)	(34)
3. Adjustments – current year	13	(1)
4. Current year restricted surplus	$ 41	$ 28
5. Cumulative total transferred to unassigned funds	$ -	$ -

e. SCOR (NAIC Company Code 30058) was the only cedant involved in all the transactions included in the summary totals above.

There were no reinsurers the Company assumed retroactive reinsurance from in 2006 or 2005.

f. There were no amounts of total paid loss or loss adjustment expenses recoverable at December 31, 2006 or 2005.

G. Reinsurance Accounted for as a Deposit

On October 1, 1999, the Company completed the acquisition of the personal lines business from CNA Financial Corporation ("CNA"). The transaction included an indemnity reinsurance agreement and a reserve agreement. The reserve agreement guaranteed the adequacy, in all material respects, of the loss reserves transferred by CNA under the indemnity reinsurance agreement. The Company used deposit accounting to account for the indemnity reinsurance agreement, as the portion of the indemnity reinsurance agreement governing the transfer of the loss reserves did not, despite its form, transfer both components of insurance risk. In accordance with the requirements of deposit accounting, an initial asset deposit of $1.05 billion was recorded. The inception-to-date payments for this agreement totaled $817 million and $809 million at December 31, 2006 and 2005, respectively. Inception-to-date net adjustments that related to the reserve agreement reduced the reserves on deposit by $187 million at both December 31, 2006 and 2005. The balance of the reserves on deposit was $43 million and $52 million at December 31, 2006 and 2005, respectively.

24. Retrospectively Rated Contracts and Contracts Subject to Redetermination

A. The Company estimated accrued retrospective premium adjustments on certain commercial insurance policies through the review of each individual retrospectively rated risk, comparing the known loss development, including IBNR reserves, with that anticipated in the policy contract to arrive at the best estimate of returned or additional retrospective premium.

NOTES TO FINANCIAL STATEMENTS

The Company also accrues estimated retrospective premium adjustments related to Your Choice Auto platinum ("YCA") policies in eligible states. YCA policies that are claim free during the policy period receive 5% of the premium paid for certain major coverages as a billing credit or refund, depending on whether or not the policy is renewed. The amount of accrued retrospective premium adjustments was determined by analyzing the historical loss experience of the YCA policyholders.

B. The Company recorded accrued retrospective premium as an adjustment to earned premiums on certain commercial insurance policies. For YCA policies, the Company recorded applicable accrued retrospective premium as an adjustment to written premiums.

C. For certain commercial insurance policies, see Schedule P – Part 7A for the amount of 2006 net premiums written that were subject to retrospective rating features. The amount of premiums written related to certain commercial insurance policies, subject to retrospective rating features was $50 thousand for the year ending December 31, 2005.

The amount of net premiums written by the Company in 2006 and 2005 subject to the YCA retrospective rating feature was $422 million and $62 million, respectively.

In 2006, net premiums written by the Company subject to retrospective rating features represented 1.7% of total net premiums written. In 2005, net premiums written by the Company subject to retrospective rating features represented less than one half of one percent of total net premiums written.

D. The Company nonadmitted ten percent of the amount of accrued retrospective premiums related to certain commercial insurance policies not offset by retrospective return premiums, other liabilities to the same party (other than loss and loss adjustment expense reserves), or collateral as permitted by SSAP No. 66, *Retrospectively Rated Contracts*, as follows:

(in millions)	2006	2005
a. Total accrued retro premiums	$ 3	$ 4
b. Unsecured amount	3	4
c. Less: Non-admitted amount (10%)	-	-
d. Less: Non-admitted for any person for whom agents' balances or uncollected premiums are nonadmitted	-	-
e. Admitted amount (a) – (c) – (d)	$ 3	$ 4

The Company is responsible for the return of premium to YCA policyholders. This amount represents a liability to the Company.

25. Change in Incurred Losses and Loss Adjustment Expenses

The Company establishes reserves for losses and loss adjustment expenses on reported and unreported claims of insured losses. The Company's reserving process takes into account known facts and interpretations of circumstances and factors including the Company's experience with similar cases, actual claims paid, historical trends involving claim payment patterns and pending levels of unpaid claims, loss management programs, product mix and contractual terms, law changes, court decisions, changes to regulatory requirements and economic conditions. In the normal course of business, the Company may also supplement its claims processes by utilizing third party adjusters, appraisers, engineers, inspectors, other professionals and information sources to assess and settle catastrophe and non-catastrophe related claims. The effects of inflation are implicitly considered in the reserving process.

Since reserves are estimates of the unpaid portions of losses that have occurred, including IBNR losses, the establishment of appropriate reserves, including reserves for catastrophes, is an inherently uncertain and complex process. The ultimate cost of losses may vary materially from recorded amounts, which are based on management's best estimates. The highest degree of uncertainty is associated with reserves for losses incurred in the current reporting period as it contains the greatest proportion of losses that have not been reported or settled. The Company regularly updates its reserve estimates as new information becomes available and as events unfold that may affect the resolution of unsettled claims. Changes in prior year reserve estimates, which may be material, are reflected in the Statement of Income in the period such changes are determined.

Activity in the reserve for losses and loss adjustment expenses is summarized as follows:

(in millions)	2006	2005
Balance at January 1	$ 16,483	$ 14,174
Incurred related to:		
Current year	15,501	19,712
Prior years	(748)	(328)
Total incurred	14,753	19,384
Paid related to:		
Current year	9,694	11,397
Prior years	7,202	5,678
Total paid	16,896	17,075
Balance at December 31	$ 14,340	$ 16,483

Incurred losses and loss adjustment expenses represent the sum of paid losses and reserve changes in the calendar year. This expense includes net losses from catastrophes of $917 million and $5.12 billion in 2006 and 2005, respectively. In 2005, losses from catastrophes included $4.6 billion, net of recoveries, related to Hurricanes Katrina, Rita and Wilma. Included in 2006 and 2005 losses from catastrophes are accruals for assessments from FL Citizens and various other facilities (see Note 14, Part B). Catastrophes are an inherent risk that have contributed to, and will continue to contribute to, material year-to-year fluctuations in the Company's net income and financial position.

The Company calculates and records a single best reserve estimate for losses from catastrophes, in conformance with generally accepted actuarial principles. As a result, management believes that no other estimate is better than the recorded amount. Due to the uncertainties involved, including the factors described above, the ultimate cost of losses may vary materially from recorded amounts, which are based on management's best estimates. Accordingly, management believes that it is not practicable to develop a meaningful range for any such changes in losses incurred.

Incurred losses and loss adjustment expenses attributable to insured events of prior years were $(748) million and $(328) million as a result of the reestimation of unpaid losses and loss adjustment expenses for the years ending December 31, 2006 and 2005, respectively. During 2006, incurred losses and loss adjustment expenses related to prior years was primarily composed of net decreases in auto reserves due to claim severity development and late reported loss development that was better than expected due to lower frequency trends in recent years, offset by increases in asbestos reserves of $86 million. Incurred losses and loss adjustment expenses related to prior years also included favorable catastrophe loss reserve reestimates of $132 million net of recoveries for the 2005 and 2004 hurricanes primarily related to lower than expected claim severity for Hurricane Katrina and $6 million related to a reduction of the expected assessment from FL Citizens. During 2005, incurred losses and loss adjustment expenses related to prior years was primarily composed of net decreases in auto reserves due to auto injury severity development and late reported loss development that was better than expected due to lower frequency trends in recent years, and increases in asbestos reserves of $139 million. Incurred losses and loss adjustment expenses related to prior years also included $16 million of property losses related to 2004 hurricanes of which $5 million was a FL Citizens assessment that was accruable in 2005.

Anticipated salvage and subrogation of $634 million and $605 million was included as a reduction of loss reserves at December 31, 2006 and 2005, respectively.

NOTES TO FINANCIAL STATEMENTS

26. Intercompany Pooling Arrangements

The Company was not a member of an intercompany pooling arrangement in 2006 or 2005.

27. Structured Settlements

A. To settle certain claims, the Company purchased annuities from various life insurers where the claimant was the payee but for which the Company was contingently liable in the event the issuer of the annuity was unable to perform. The aggregate amount due from life insurers at December 31, 2006 and 2005 was $382 million and $350 million, respectively.

B. ALIC, located in Northbrook, Illinois, was the only life insurer where the total value of all annuities due exceeded 1% of the Company's policyholder surplus at December 31. The statement value (i.e. present value) of the annuities due from ALIC was $214 million and $223 million at December 31, 2006 and 2005, respectively. This affiliated life insurer is licensed in the Company's state of domicile.

28. Health Care Receivables

The Company did not have health care receivables at December 31, 2006 or 2005.

29. Participating Policies

The Company did not have participating policies, as defined by SSAP No. 51, *Life Contracts,* or SSAP No. 54, *Individual and Group Accident and Health Contracts,* at December 31, 2006 or 2005.

30. Premium Deficiency Reserves

The Company did not record premium deficiency reserves at December 31, 2006 or 2005. Anticipated investment income was considered as a factor in the premium deficiency calculation.

31. High Deductibles

At December 31, 2006 and 2005, the amount of reserve credit recorded for high deductibles on unpaid claims was $464 thousand and $469 thousand, respectively. The amount billed and recoverable on paid claims was $56 thousand and $53 thousand at December 31, 2006 and 2005, respectively.

32. Discounting of Liabilities for Unpaid Losses or Unpaid Loss Adjustment Expenses

The Company did not discount the liabilities for unpaid losses or unpaid loss adjustment expenses at December 31, 2006 or 2005.

33. Asbestos/Environmental Reserves

A. The Company continues to receive asbestos and environmental claims. Asbestos claims relate primarily to bodily injuries asserted by people who were exposed to asbestos or products containing asbestos. Environmental claims relate primarily to pollution and related clean-up costs.

The Company's exposure to asbestos and environmental claims arises principally from assumed reinsurance coverage written during the 1960s through the mid-1980s, including reinsurance on primary insurance written on large United States companies, and from direct excess insurance written from 1972 through 1985, including substantial excess general liability coverages on Fortune 500 companies. Additional exposure stems from direct primary commercial insurance written during the 1960s through the mid-1980s.

In 1986, the general liability policy form used by the Company and others in the property-casualty insurance industry was amended to introduce an "absolute pollution exclusion," which excluded coverage for environmental damage claims, and added an asbestos exclusion. Most general liability policies issued prior to 1987 contain annual aggregate limits for product liability coverage. General liability policies issued in 1987 and thereafter contain annual aggregate limits for all coverages. The Company's experience to date has been that these policy form changes have limited the extent of its exposure to environmental and asbestos claim risks.

The Company's exposure to liability for asbestos and environmental losses manifests differently depending on whether it arises from assumed reinsurance coverage, direct excess insurance, or direct primary commercial insurance. The direct insurance coverage the Company provided for these coverages was substantially "excess" in nature.

Direct excess insurance and reinsurance involve coverage written by the Company for specific layers of protection above retentions and other insurance plans. The nature of excess coverage and reinsurance provided to other insurers limits the Company's exposure to loss to specific layers of protection in excess of policyholder retention or primary insurance plans. The Company's exposure is further limited by the significant reinsurance that was purchased on the direct excess business.

The Company's assumed reinsurance business involved writing generally small participations in other insurers' reinsurance programs. The reinsured losses in which the Company participates may be a proportion of all eligible losses or eligible losses in excess of defined retentions. The majority of the Company's assumed reinsurance exposure, approximately 85%, is for excess of loss coverage, while the remaining 15% is for pro-rata coverage.

The Company's direct primary commercial insurance business did not include coverage to large asbestos manufacturers. This business comprises a cross section of policyholders engaged in many diverse business sectors located throughout the country.

The Company conducts an annual review in the third quarter of each year to evaluate and establish asbestos and environmental reserves. Reserves are recorded in the reporting period in which they are determined. Using established industry and actuarial best practices and assuming no change in the regulatory or economic environment, this detailed and comprehensive "ground up" methodology determines asbestos reserves based on assessments of the characteristics of the exposure (e.g. claim activity, potential liability, jurisdiction, products versus non-products exposure) presented by individual policyholders, and determines environmental reserves based on assessments of the characteristics of exposure (e.g. environmental damage, respective shares of liability of potentially responsible parties, appropriateness and cost of remediation) to pollution and related clean-up costs. The number and cost of these claims is affected by intense advertising by trial lawyers seeking asbestos plaintiffs, and entities with asbestos exposure seeking bankruptcy protection as a result of asbestos liabilities, initially causing a delay in the reporting of claims, often followed by an acceleration and an increase in losses and loss adjustment expenses as settlements occur.

After evaluating insureds' probable liabilities for asbestos and/or environmental claims, the Company evaluates the insureds' coverage programs for such claims. The Company considers the insureds' total available insurance coverage, including the coverage it issued. The Company also considers relevant judicial interpretations of policy language and applicable coverage defenses or determinations, if any.

Evaluation of both the insureds' estimated liabilities and the Company's exposure to the insureds depends heavily on an analysis of the relevant legal issues and litigation environment. This analysis is conducted by the Company's specialized claims adjusting staff and legal counsel. Based on these evaluations, case reserves are established by claims adjusting staff and actuarial analysis is employed to develop an IBNR reserve, which includes potential reserve development and claims that have occurred but have not yet been reported.

For both asbestos and environmental reserves, the Company also evaluates its historical direct net loss and expense paid and incurred experience to assess any emerging trends, fluctuations or characteristics suggested by the aggregate paid and incurred activity.

NOTES TO FINANCIAL STATEMENTS

Establishing net loss reserves for environmental and asbestos claims is subject to uncertainties that are much greater than those presented by other types of claims. Among the complications are lack of historical data, long reporting delays, uncertainty as to the number and identity of insureds with potential exposure and unresolved legal issues regarding policy coverage; unresolved legal issues regarding the determination, availability and timing of exhaustion of policy limits; plantiffs' evolving and expanding theories of liability, the availability and collectibility of recoveries from reinsurance, retrospectively determined premiums and other contractual agreements; estimates of the extent and timing of any contractual liability; the impact of bankruptcy protection sought by various asbestos producers and other asbestos defendants; and other uncertainties. There are also complex legal issues concerning the interpretation of various insurance policy provisions and whether those losses are covered, or were ever intended to be covered, and could be recoverable through retrospectively determined premium, reinsurance or other contractual agreements. Courts have reached different and sometimes inconsistent conclusions as to when losses were deemed to have occurred and which policies provide coverage; what types of losses are covered; whether there is an insurer obligation to defend; how policy limits are determined; how policy exclusions and conditions are applied and interpreted; and whether clean-up costs represent insured property damage. The Company's reserves for asbestos and environmental exposures could be affected by tort reform, class action litigation, and other potential legislation and judicial decisions. Environmental exposures could also be affected by a change in the existing federal Superfund law and similar state statutes. There can be no assurance that any reform legislation will be enacted or that any such legislation will provide for a fair, effective and cost-efficient system for settlement of asbestos or environmental claims. Management believes these issues are not likely to be resolved in the near future, and the ultimate costs may vary materially from the amounts currently recorded resulting in material changes in loss reserves.

Management believes its net loss reserves for asbestos and environmental exposures are appropriately established based on available facts, technology, laws, regulations, and assessments of other pertinent factors and characteristics of exposure (e.g. claim activity, potential liability, jurisdiction, products versus non-products exposure) presented by individual policyholders, assuming no change in the legal, legislative or economic environment. Due to the uncertainties and factors described above, management believes it is not practicable to develop a meaningful range for any such additional net loss reserves that may be required.

The table below summarizes the Company's reserve and claim activity for asbestos claims on a direct basis, for assumed reinsurance and after (net) the effects of ceded reinsurance.

GENERAL INTERROGATORIES

PART 2 - PROPERTY AND CASUALTY INTERROGATORIES

6.1 What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?
THE COMPANY DOES NOT WRITE THIS LINE OF BUSINESS.

6.2 Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process.
THE COMPANY PLACES HEAVY EMPHASIS ON THE USE OF CATASTROPHIC SIMULATION MODELING BY LEADING CAT MODELING VENDORS TO ESTIMATE PROBABLE MAXIMUM LOSS (PML). AN ADVANCED METHODOLOGY IS EMPLOYED TO GENERATE A LARGE SAMPLE OF HYPOTHETICAL BUT POSSIBLE EVENTS, APPLY MODEL DAMAGE EXPECTATIONS AGAINST THE COMPANY'S BOOK OF BUSINESS, AND EVALUATE THE EXISTING POLICY CONDITIONS OF THE POLICIES IN FORCE TO DETERMINE AN ESTIMATE OF TOTAL DAMAGE.

6.3 What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?
THE COMPANY PURCHASED THE FOLLOWING EXCESS CATASTROPHE REINSURANCE CONTRACTS: ONE-YEAR REIMBURSEMENT CONTRACT THROUGH THE FLORIDA HURRICANE CATASTROPHE FUND; A THREE-YEAR EXCESS CATASTROPHE REINSURANCE CONTRACT IN NC, SC, NY, AND CT; A MULTI-YEAR REINSURANCE CONTRACT COVERING FIRE FOLLOWING EARTHQUAKE; A ONE-YEAR CONTRACT IN LA, MS, AL, GA, SC, NC, VA, MD, PA, DE AND DISTRICT OF COLUMBIA; A ONE-YEAR COUNTRYWIDE AGGREGATE REINSURANCE CONTRACT EXCLUDING FLORIDA EFFECTIVE JUNE 1, 2006 – MAY 31, 2007. LIMITS ARE 95% OF $2 BILLION IN THE AGGREGATE EXCESS OF A $2 BILLION AGGREGATE RETENTION.

6.4 Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence? Yes [X] No [ ]

6.5 If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge its exposure to unreinsured catastrophic loss.

7.1 Has this reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss ratio cap, an aggregate limit or any similar provisions)? Yes [ ] No [X]

7.2 If yes, indicate the number of reinsurance contracts containing such provisions:

7.3 If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)? Yes [ ] No [ ]

8.1 Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured? Yes [ ] No [X]

8.2 If yes, give full information

9.1 Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 3% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 3% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:
(a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term;
(b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
(c) Aggregate stop loss reinsurance coverage;
(d) An unconditional or unilateral right by either party to commute the reinsurance contract except for such provisions which are only triggered by a decline in the credit status of the other party;
(e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
(f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity. Yes [ ] No [X]

9.2 Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:
(a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or
(b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates. Yes [ ] No [X]

9.3 If yes to 9.1 or 9.2, please provide the following information in the Reinsurance Summary Supplemental Filing for General Interrogatory 9:
(a) The aggregate financial statement impact gross of all such ceded reinsurance contracts on the balance sheet and statement of income;
(b) A summary of the reinsurance contract terms and indicate whether it applies to the contracts meeting the criteria in 9.1 or 9.2; and
(c) A brief discussion of management's principle objectives in entering into the reinsurance contract including the economic purpose to be achieved.

9.4 Except for transactions meeting the requirements of paragraph 30 of SSAP No. 62, Property and Casualty Reinsurance, has the reporting entity ceded any risk under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement, and either:
(a) Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP"); or
(b) Accounted for that contract as reinsurance under GAAP and as a deposit under SAP? Yes [ ] No [X]

9.5 If yes to 9.4, explain in the Reinsurance Summary Supplemental Filing for General Interrogatory 9 (Section D) why the contract(s) is treated differently for GAAP and SAP.

10. If the reporting entity has assumed risks from another entity, there should be charged on account of such reinsurances a reserve equal to that which the original entity would have been required to charge had it retained the risks. Has this been done? Yes [X] No [ ] N/A [ ]

11.1 Has the reporting entity guaranteed policies issued by any other entity and now in force? Yes [ ] No [X]

11.2 If yes, give full information

SCHEDULE P INTERROGATORIES

1. What is the extended loss and expense reserve - direct and assumed - for the following classes? An example of an extended loss and expense reserve is the actuarial reserve for the free-tail coverage arising upon death, disability or retirement in most medical malpractice policies. Such a liability is to be reported here even if it was not reported elsewhere in Schedule P, but otherwise reported as a liability item on Page 3. Show the full reserve amount, not just the change during the current year.

	Years in which premiums were earned and losses were incurred	1 Medical Malpractice	2 Other Liability	3 Products Liability
1.01	Prior			
1.02	1997			
1.03	1998			
1.04	1999			
1.05	2000			
1.06	2002			
1.07	2002			
1.08	2003			
1.09	2004			
1.10	2005			
1.11	2006			
1.12	Totals			

2. The definition of allocated loss adjustment expenses (ALAE) and, therefore, unallocated loss adjustment expenses (ULAE) was changed effective January 1, 1998. This change in definition applies to both paid and unpaid expenses. Are these expenses (now reported as " Defense and Cost Containment" and "Adjusting and Other") reported in compliance with these definitions in this statement? ..... Yes [X] No [ ]

3. The Adjusting and Other expense payments and reserves should be allocated to the years in which the losses were incurred based on the number of claims reported, closed and outstanding in those years. When allocating Adjusting and Other expense between companies in a group or a pool, the Adjusting and Other expense should be allocated in the same percentage used for the loss amounts and the claim counts. For reinsurers, Adjusting and Other expense assumed should be reported according to the reinsurance contract. For Adjusting and Other expense incurred by reinsurers, or in those situations where suitable claim count information is not available, Adjusting and Other expense should be allocated by a reasonable method determined by the company and described in Interrogatory 7 below. Are they so reported in this Statement? ..... Yes [X] No [ ]

4. Do any lines in Schedule P include reserves that are reported gross of any discount to present value of future payments, and that are reported net of such discounts on Page 10 ..... Yes [ ] No [X]

   If Yes, proper disclosure must be made in the Notes to Financial Statements, as specified in the Instructions. Also, the discounts must be reported in Schedule P - Part 1, Columns 32 and 33. Schedule P must be completed gross of non-tabular discounting. Work papers relating to discount calculations must be available for examination upon request.

   Discounting is allowed only if expressly permitted by the state insurance department to which this Annual Statement is being filed.

5. What were the net premiums in force at the end of the year for:

   (in thousands of dollars)

   5.1 Fidelity 363

   5.2 Surety 4

6. Claim count information is reported per claim or per claimant (Indicate which) ..... per claim

   If not the same in all years, explain in Interrogatory 7.

7.1 The information provided in Schedule P will be used by many persons to estimate the adequacy of the current loss and expense reserves, among other things. Are there any especially significant events, coverage, retention or accounting changes that have occurred that must be considered when making such analyses? ..... Yes [X] No [ ]

7.2 (An extended statement may be attached.)

   Persons using Schedule P to estimate the adequacy of auto liability loss and loss expense reserves should consider the effect that disposition rate changes over the 10 year period may have on their estimates, taking into account the distortions that changing claim disposition rates cause to development patterns inherent in the historical data and projections that rely on that data. .....
