NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Allstate Insurance Company (the "Company" or "Allstate") prepares its financial statements in conformity with accounting practices prescribed or permitted by the Illinois Department of Insurance ("IL DOI"). Prescribed statutory accounting practices include a variety of publications of the National Association of Insurance Commissioners ("NAIC"), as well as state laws, regulations and general administrative rules. Permitted statutory accounting practices encompass all accounting practices not so prescribed.

The State of Illinois requires its domestic insurance companies to prepare financial statements in conformity with the NAIC Accounting Practices and Procedures Manual ("APPM"), which includes all Statements of Statutory Accounting Principles ("SSAPs"), subject to any deviations prescribed or permitted by the IL DOI.

The Company's net income and capital and surplus did not include any accounting practices prescribed or permitted by the IL DOI during 2021 and 2020.

B. The preparation of financial statements in conformity with the NAIC Annual Statement Instructions and accounting practices prescribed or permitted by the IL DOI requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

C. Listed below is a summary of the accounting policies that materially affect the financial statements.

Investments

Bonds with an NAIC designation of 1 or 2, including loan-backed and structured securities ("LBASS") and excluding Securities Valuation Office ("SVO")-identified investments, are reported at amortized cost using the effective yield method. Bonds with an NAIC designation of 3 through 6 are reported at the lower of amortized cost or fair value, with the difference reflected in unassigned surplus as an unrealized capital loss. In general, LBASS utilize a multi-step process for determining carrying value and NAIC designation in accordance with SSAP No. 43R, *Loan-backed and Structured Securities*. The Company's bond portfolio also includes SVO-identified investments, which are reported at fair value. Changes in the fair value of SVO-identified investments are recorded as a change in net unrealized capital gains (losses), which is a component of unassigned surplus.

As of December 31, 2021, perpetual preferred stocks are reported at fair value as the Company adopted SSAP No. 32R, *Preferred Stock*. As of December 31, 2020, perpetual preferred stocks are reported at fair value or the lower of cost or fair value depending on the assigned NAIC designation. Redeemable preferred stocks are reported at cost, amortized cost or the lower of cost, amortized cost or fair value, depending on the assigned NAIC designation. Unaffiliated common stocks are reported at fair value. For preferred stocks reported at fair value and unaffiliated common stocks, the differences between amortized cost or cost and fair value are recorded as a change in net unrealized capital gains (losses), which is a component of unassigned surplus.

Common stock investments in insurance subsidiaries domiciled in the United States are recorded based on the underlying statutory equity of the subsidiary. Common stock investments in foreign insurance subsidiaries are recorded based on the underlying accounting principles generally accepted in the United States of America ("GAAP") equity from audited GAAP financial statements adjusted for items described in SSAP No. 97, *Investments in Subsidiary, Controlled and Affiliated Entities*.

Mortgage loans are reported at unpaid principal balances, net of unamortized premium or discount.

Investments in real estate are reported at depreciated cost less encumbrances or the lower of depreciated cost or fair value, less encumbrances and estimated cost to sell the property. Single real estate property investments, that are wholly owned by a limited liability company that is directly and wholly owned by the reporting entity, are reported as real estate investments.

Cash equivalents are reported at fair value or amortized cost. Cash equivalents reported at amortized cost are readily convertible into known amounts of cash and so near their maturity that they present an insignificant risk of change in value because of changes in interest rates.

Short-term investments are reported at amortized cost.

Other invested assets consist of investments in joint ventures, partnerships, limited liability companies, low income housing tax credit ("LIHTC") property investments, collateral loans and surplus notes. Investments in joint ventures, partnerships and limited liability companies are generally reported based on the underlying audited GAAP equity of the investee, with undistributed earnings or losses reflected in unassigned surplus as a change in net unrealized capital gains and losses and, are generally recognized on a delay due to the availability of financial statements. LIHTC property investments are carried at proportional amortized cost, based on the proportion of tax benefits received in the current year to total estimated tax benefits allocated to the Company. Collateral loans are reported at the outstanding principal balance and any related interest. Surplus notes are reported at amortized cost or the lower of amortized cost or fair value depending on the NAIC designation.

Investment income primarily consists of interest, dividends, income from limited partnership interests, rental income from real estate, income from certain derivative transactions and amortization of any premium or discount. Interest is recognized on an accrual basis using the effective yield method and dividends are recorded at the ex-dividend date. Interest income for LBASS is determined considering estimated pay-downs, including prepayments, obtained from third-party data sources and internal estimates. Actual prepayment experience is periodically reviewed, and effective yields are recalculated when differences arise between the prepayments originally anticipated and the actual prepayments received and currently anticipated. For LBASS of high credit quality with fixed interest rates, the effective yield is recalculated on a retrospective basis. For all others, the effective yield is generally recalculated on a prospective basis. In periods subsequent to the recognition of an other-than-temporary impairment ("OTTI") on a bond, including LBASS, the difference between the new amortized cost basis and the cash flows expected to be collected is accreted as interest income. Accrual of income is suspended for other-than-temporarily impaired bonds when the timing and amount of cash flows expected to be received is not reasonably estimable. Accrual of income is suspended for mortgage loans and bank loans that are in default or when the full and timely collection of principal and interest payments is not probable. Cash receipts on investments on nonaccrual status are generally recorded as a reduction of carrying value. Cash distributions received from investments in joint ventures, partnerships and limited liability companies are recognized in investment income to the extent that they are not in excess of the undistributed

NOTES TO FINANCIAL STATEMENTS

accumulated earnings attributable to the investee and the unrealized gain would be reversed. Any distributions that are in excess of the undistributed accumulated earnings attributable to the investee reduce the carrying amount of the investment.

Realized capital gains and losses include gains and losses on investment sales, write-downs in value due to other than temporary declines in fair value, expirations and settlements of certain derivatives. Realized capital gains and losses on investment sales are determined on a specific identification basis.

The Company has a comprehensive portfolio monitoring process to identify and evaluate each bond, including LBASS, and common and preferred stock, whose carrying value may be other-than-temporarily impaired. For each bond, excluding LBASS, in an unrealized loss position (fair value is less than amortized cost), the Company assesses whether management with the appropriate authority has made a decision to sell the bond prior to its maturity at an amount below its carrying value. If the decision has been made to sell the bond, the bond's decline in fair value is considered other than temporary and the Company recognizes a realized capital loss equal to the difference between the amortized cost and the fair value of the bond at the balance sheet date the assessment is made. If the Company has not made the decision to sell the bond, but it is probable the Company will not be able to collect all amounts due according to contractual terms, the bond's decline in value is considered other-than-temporarily impaired, and a write-down of the amortized cost to fair value is required. For securities with an NAIC designation of 3 through 6, unrealized losses that are not deemed other-than-temporarily impaired are reflected in the Company's unassigned surplus.

For LBASS, the Company assesses whether management with the appropriate authority has made a decision to sell each LBASS in an unrealized loss position or does not have the intent and ability to retain the LBASS for a period of time sufficient to recover the amortized cost basis. If either situation exists, the security's decline in value is considered other-than-temporarily impaired and the security is written down as a realized capital loss to fair value. If management has not made the decision to sell the LBASS and management intends to hold the security for a period of time sufficient to recover the amortized cost basis, the Company analyzes the present value of the discounted cash flows expected to be collected. If the present value of the discounted cash flows expected to be collected is less than the amortized cost, the security is considered other-than-temporarily impaired and the Company recognizes a realized capital loss for the difference between the present value of the discounted cash flows and the amortized cost. For securities with an NAIC designation of 3 through 6, unrealized losses that are not deemed other-than-temporarily impaired are reflected in the Company's unassigned surplus.

For common and preferred stocks, the Company considers various factors, including whether the Company has the intent and ability to hold the stock for a period of time sufficient to recover its cost basis. Where the Company lacks the intent and ability to hold to recovery, or believes the recovery period is extended, the stock's decline in fair value is other than temporary and the difference between the stock's cost and fair value is recognized as a realized capital loss. A decision to sell stock for an amount below its cost would be an other than temporary decline and a realized capital loss is recorded. For stocks managed by a third party, either the Company has contractually retained its decision making authority as it pertains to selling stocks that are in an unrealized loss position or it recognizes an unrealized loss at the end of the period through a charge to realized capital loss.

The Company's portfolio monitoring process includes a quarterly review of all securities to identify instances where the fair value of a security compared to its amortized cost (for bonds, including LBASS) or cost (for stocks) is below internally established thresholds. The process also includes the monitoring of other impairment indicators such as ratings, ratings downgrades and payment defaults. The securities identified, in addition to other securities for which the Company may have a concern, are evaluated for potential OTTI using all reasonably available information relevant to the collectibility or recovery of the security. Inherent in the Company's evaluation of OTTI for these securities are assumptions and estimates about the financial condition and future earnings potential of the issue or issuer. Some of the factors that may be considered in evaluating whether a decline in fair value is other than temporary are: (1) the financial condition, near-term and long-term prospects of the issue or issuer, including relevant industry specific market conditions and trends, geographic location and implications of rating agency actions and offering prices; (2) the specific reasons that a security is in an unrealized loss position, including overall market conditions which could affect liquidity; and (3) the extent to which the fair value has been less than amortized cost or cost.

Impairment adjustments on mortgage loans are recorded when it is probable contractual principal and interest will not be collected. OTTI adjustments reduce the carrying value of mortgage loans to the fair value of the collateral less the estimated cost to sell. The carrying value of real estate is adjusted for OTTI only if it is not recoverable and exceeds fair value.

Derivative financial instruments

Derivative financial instruments include total return and credit default swap agreements, foreign currency forward contracts, futures contracts and indexed option contracts. When derivatives meet specific criteria, they may be designated as accounting hedges, which means they may be accounted for and reported on in a manner that is consistent with the hedged asset or liability. Derivatives that are not designated as accounting hedges are accounted for on a fair value basis, with changes in fair value recorded as unrealized gains or losses in unassigned surplus. The Company's accounting policy for the various types of derivative instruments is discussed further in Note 8, Parts A, B & C.

Securities loaned

The Company's business activities include securities lending transactions, which are used primarily to generate net investment income. The proceeds received in conjunction with securities lending transactions are reinvested in short-term investments, cash equivalents or bonds.

Off-balance sheet financial instruments

Commitments to invest, commitments to purchase private placement securities, commitments to fund loans and financial guarantees have off-balance-sheet risk because their contractual amounts are not recorded in the Company's Statements of Financial Position. The details of the off-balance-sheet commitments are discussed further in Note 16.

Premium revenue

Premiums are deferred and earned on a pro-rata basis over the policy period. The policy term on some Shared Economy policies is only one month. As a result, those policies are fully earned in the period they are written. The portion of premiums written applicable to the unexpired periods of the policies is recorded as unearned premiums. Premiums received in advance of the policies' effective dates are recorded as advance premiums. Premiums written and not yet collected and agents' balances are shown as a receivable, with balances older than 90 days generally nonadmitted. The Company regularly evaluates this receivable and establishes valuation allowances, as appropriate, for items less than 90 days.

The company also writes contractual liability insurance policies ("CLPs") related to warranty coverage for the sale of mobile phones, televisions, tablets, computers, and other miscellaneous consumer products in all states except Florida, Washington and New Jersey. Premiums on these policies are deferred and earned over the risk period of the policies which would vary by product and range from one to five years. The CLPs that support these protection plan products are earned monthly based on loss emergence patterns that were developed using actual warranty loss trends, net of an estimate for cancellations.

Reserves for losses and loss adjustment expenses

Reserves for losses and loss adjustment expenses are the estimated amounts necessary to settle all reported and unreported claims for the ultimate cost of insured losses, based upon the facts in each case and the Company's experience with similar cases. These reserves are reported net of unpaid reinsurance recoverables and estimated amounts of salvage and subrogation. The establishment of appropriate reserves, including reserves for catastrophes, is an inherently uncertain and complex process. Reserve estimates are regularly reviewed and updated using the most current information available. Any resulting reestimates are reflected in the current Statement of Income.

NOTES TO FINANCIAL STATEMENTS

Reinsurance

In the normal course of business, the Company seeks to limit aggregate and single exposure to losses on large risks by purchasing reinsurance. The Company may also use reinsurance to affect the disposition of certain blocks of business. Reinsurance does not extinguish the Company's primary liability under the policies written. The Company regularly evaluates whether a provision for reinsurance is needed by evaluating the admissibility, collectability and collateralization of reinsurers' balances in accordance with the APPM. A provision for reinsurance is established, as appropriate, and this liability is netted against the reported reinsurance recoverable.

Indemnification

The Company may also participate in various indemnification mechanisms, including industry pools and facilities, which are reimbursement mechanisms that assess participating insurers for expected claims, reimburse participating insurers for qualifying paid claims and may permit participating insurers to recoup amounts assessed directly from insureds. Indemnification recoverables are backed by the financial resources of the property and casualty insurance company market participants. Indemnification recoverables are considered collectible based on the industry pool and facility enabling legislation.

The amounts reported in the Assets page as reinsurance and indemnification recoverables include amounts paid and due from reinsurers and indemnitors. Reserves are reported net of amounts expected to be recovered from reinsurers and indemnitors on losses and loss adjustment expense reserves that have not yet been paid. Reinsurance and indemnification recoverables on unpaid losses are estimated based upon assumptions consistent with those used in establishing the liabilities related to the underlying contract. Reinsurance and indemnification premiums are generally reflected in income in a manner consistent with the recognition of premiums on the associated contracts. For catastrophe coverage, the cost of reinsurance premiums is recognized ratably over the contract period to the extent coverage remains available. Certain catastrophe agreements are subject to reinstatement premiums. Reinstatement premium is earned over the period from the reinstatement of the limit to the expiration of the agreement.

Income taxes

The income tax provision is calculated under the liability method. Deferred tax assets ("DTAs") and deferred tax liabilities ("DTLs") are recorded based on the difference between the statutory financial statement and tax bases of assets and liabilities at the enacted tax rates. Deferred income taxes also arise from net unrealized capital gains and losses on certain investments carried at fair value. The net change in DTAs and DTLs is applied directly to unassigned surplus. The nonadmitted portion of gross DTAs is determined by applying the rules prescribed by SSAP No. 101, *Income Taxes* ("SSAP No. 101").

D. Based upon its evaluation of relevant conditions and events, management did not have substantial doubt about the Company's ability to continue as a going concern as of December 31, 2021 or 2020.

2. Accounting Changes and Corrections of Errors

4. Discontinued Operations

A. Discontinued Operation Disposed of or Classified as Held for Sale

1. The following is a list of discontinued operations classified as held for sale March 31, 2021 through September 30, 2021 and sold as of December 31, 2021:

Discontinued Operation Identifier	Description of Discontinued Operation
1	Divesture of the Company's life and annuities businesses through sales of its wholly owned insurance subsidiaries. On November 1, 2021, the Company sold 100% of the common stock of wholly owned insurance subsidiary, ALIC which includes ALIC's wholly owned insurance subsidiary, ALIC Reinsurance Company ("ALIC Re"). On October 1, 2021, ALIC sold 100% of the common stock of insurance subsidiary Allstate Life Insurance Company of New York ("ALNY").

2. On January 26, 2021, the Company and Allstate Financial Insurance Holdings Corporation ("AFIHC") entered into a Stock Purchase Agreement ("ALIC Purchase Agreement") with Everlake US Holdings Company (formerly Antelope US Holdings Company) ("Everlake"), an affiliate of an investment fund associated with The Blackstone Group Inc., to sell all of the shares of common stock of ALIC and certain affiliates for approximately $2.80 billion in cash. On March 29, 2021, the Company, ALIC, Allstate Insurance Holdings, LLC ("AIH") and AFIHC entered into a Stock Purchase Agreement ("ALNY Purchase Agreement") with Wilton Reassurance Company ("WRAC") to sell all of the shares of common stock of ALNY, a wholly owned subsidiary of ALIC, and Intramerica Life Insurance Company ("ILIC"), a wholly owned subsidiary of AFIHC, for $220 million in cash plus the growth in statutory value through the sale date.

   After receiving the necessary state regulatory approvals, the sale of ALIC, including ALIC Re, was completed on November 1, 2021. Everlake paid $2.73 billion in exchange for 100% of the shares of common capital stock of ALIC and certain affiliates, of which $2.71 billion was allocated to the Company in consideration for its investment in ALIC. The increase in the unrealized gain on the value of ALIC as of September 30, 2021 was limited to the net realizable value under the terms of the ALIC Purchase Agreement. The transactions resulted in the Company's divestiture of all of its life and annuities businesses.

   After receiving the necessary state regulatory approvals, the sale of ALNY was completed on October 1, 2021. Immediately before the consummation of the sale of ALNY, AIH invested $660 million in ALNY in exchange for shares of newly authorized common capital stock. WRAC paid $400 million in exchange for 100% of the shares of common capital stock of ALNY and ILIC, of which $207 million was allocated to ALIC in consideration for its investment in ALNY.

3. Due to the sale of ALIC on November 1, 2021, the carrying value of ALIC is zero as of December 31, 2021.

4. The following tables provide the carrying amount and fair value prior to the sale of the Company's discontinued operations and the effect on assets, liabilities, surplus and income as of December 31, 2021.

4. Unrealized losses are calculated as the difference between amortized cost and fair value. They result from declines in fair value below amortized cost and are evaluated for OTTI. Every LBASS with unrealized losses was included in the portfolio monitoring process.

   The following table summarizes gross unrealized losses and the fair value of LBASS by the length of time individual securities have been in a continuous unrealized loss position as of December 31.

(in millions)		2021	2020
a. The aggregate amount of unrealized losses:			
	1. Less than 12 months	$ (1)	$ (1)
	2. 12 months or longer	$ -	$ (1)
b. The aggregate related fair value of securities with unrealized losses:			
	1. Less than 12 months	$ 388	$ 118
	2. 12 months or longer	$ 38	$ 101

5. As of December 31, 2021, substantially all of the unrealized losses were related to investment grade LBASS with an unrealized loss position less than 20% of amortized cost, the degree of which suggested that these securities did not pose a high risk of being other-than-temporarily impaired. Investment grade is defined as a security having an NAIC designation of 1 or 2, a rating of Aaa, Aa, A or Baa from Moody's, a rating of AAA, AA, A or BBB from S&P Global Ratings, a comparable rating from another nationally recognized rating agency, or a comparable internal rating if an externally provided rating is not available. Market prices for certain securities may have credit spreads which imply higher or lower credit quality than the current third-party rating. Unrealized losses on investment grade securities were principally related to an increase in market yields which may include increased risk-free interest rates or wider credit spreads since the time of initial purchase. The unrealized losses are expected to reverse as the securities approach maturity.

   LBASS in an unrealized loss position were evaluated based on actual and projected collateral losses relative to the securities' positions in the respective securitization trusts, security specific expectations of cash flows and credit ratings. This evaluation also takes into consideration credit enhancement, measured in terms of: (1) subordination from other classes of securities in the trust that are contractually obligated to absorb losses before the class of security the Company owns, and (2) the expected impact of other structural features embedded in the securitization trust beneficial to the class of securities the Company owns, such as overcollateralization and excess spread.

   As of December 31, 2021, the Company had not made the decision to sell and it was not more likely than not the Company would be required to sell LBASS with unrealized losses before recovery of the amortized cost basis. As of December 31, 2021, the Company had the intent and ability to hold LBASS with unrealized losses for a period of time sufficient for them to recover.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions

1. The Company receives cash collateral for securities loaned in an amount generally equal to 102% and 105% of the fair value of domestic and foreign securities, respectively, and records the related obligations to return the collateral as a liability.

2. The Company did not pledge its assets as collateral in securities lending transactions as of December 31, 2021 or 2020.

NOTES TO FINANCIAL STATEMENTS

3. Collateral Received

a. Aggregate Amount Collateral Received

c. All collateral is received in the form of cash, unrestricted and maintained in a separate custody account. Collateral is invested in cash equivalents, short-term investments or bonds during the agreement period. The Company monitors the fair value of securities loaned on a daily basis and obtains additional collateral as necessary under the terms of the agreements to mitigate counterparty credit risk. The Company maintains the right and ability to repossess the securities loaned on short notice. Substantially all of the Company's securities loaned were placed with large banks.

4. The Company did not use affiliated agents for its securities lending transactions.

5. Collateral Reinvestment

a. Aggregate Amount Collateral Reinvested

1. The following table summarizes the Company's reinvested cash collateral in connection with its securities lending program as of December 31:

6. Joint Ventures, Partnerships and Limited Liability Companies

A. The Company did not have investments in joint ventures, partnerships or limited liability companies that exceeded 10% of its admitted assets as of December 31, 2021 or 2020.

B. In 2021, the Company did not recognize impairment write-downs on investments in joint ventures, partnerships or limited liability companies accounted for in accordance with SSAP No. 48, *Joint Ventures, Partnerships and Limited Liability Companies* ("SSAP No. 48"). In 2020, the Company recognized impairment write-downs of $12 million on two partnership investments accounted for in accordance with SSAP No. 48. The impairments were due to declines in the fair value of the underlying investments of the partnerships that were deemed to be other-than-temporary. Fair value was determined based on an assessment of market value of the partnership's investments. All impairment write-downs were identified during the Company's normal ongoing portfolio monitoring process. The Company did not recognize impairment write-downs on investments in joint ventures or limited liability companies accounted for in accordance with SSAP No. 48 in 2020.

7. Investment Income

A. Due and accrued investment income is recorded as an asset, with three exceptions. Due and accrued investment income on mortgage loans in default, where interest is more than 180 days past due, is nonadmitted. Due and accrued investment income for investments other than mortgage loans, that is more than 90 days past due, is nonadmitted. In addition, due and accrued investment income that is determined to be uncollectible, regardless of its age, is written off in the period that determination is made.

B. As of December 31, 2021, the Company reported $252 thousand of non-admitted due and accrued investment income. All due and accrued investment income was admitted as of December 31, 2020.

8. Derivative Instruments

A. Derivatives under SSAP No. 86 – *Derivatives*

1.,
2. &
3. Derivative financial instruments utilized by the Company during 2021 and 2020 included total return and credit default swap agreements, foreign currency forward contracts, futures contracts and indexed option contracts. The notional amounts specified in the contracts are used to calculate the exchange of contractual payments under the agreements and are generally not representative of the potential for gain or loss on these agreements. However, the notional amounts specified in credit default swap agreements where the Company has sold credit protection represents the maximum amount of potential loss, assuming no recoveries.

Market risk is the risk that the Company will incur losses due to adverse changes in market rates and prices. Market risk exists for all of the derivative financial instruments the Company currently holds, as these instruments may become less valuable due to adverse changes in market conditions. To limit this risk, the Company's senior management has established risk control limits. In addition, changes in fair value of the derivative financial instruments that the Company uses for risk management purposes are generally offset by the change in the fair value or cash flows of the hedged risk component of the related assets, liabilities or forecasted transactions.

The Company manages its exposure to credit risk by utilizing highly rated counterparties, establishing risk control limits, executing legally enforceable master netting agreements and obtaining collateral where appropriate. The Company has not incurred any losses on derivative financial instruments due to counterparty nonperformance. Other derivatives, including futures and certain option contracts, are traded on organized exchanges, which require margin deposits and guarantee the execution of trades, thereby mitigating any potential credit risk.

NOTES TO FINANCIAL STATEMENTS

Counterparty credit exposure represents the Company's potential loss if all of the counterparties concurrently fail to perform under the contractual terms of the contracts and all collateral, if any, becomes worthless. This exposure is measured by the statement value of over-the-counter and cleared derivative contracts with a positive statement value at the reporting date.

The Company uses derivatives for risk reduction and to increase investment portfolio returns through asset replication. Risk reduction activity is focused on managing the risks with certain assets and liabilities arising from the potential adverse impacts from changes in risk-free interest rates, changes in equity market valuations, increases in credit spreads and foreign currency fluctuations. Asset replication refers to the "synthetic" creation of assets through the use of derivatives. The Company replicates fixed income securities using a combination of a credit default swap, index total return swap, options or a foreign currency forward contract and one or more highly rated bonds, primarily investment grade host bonds, to synthetically replicate the economic characteristics of one or more cash market securities. The Company replicates equity securities using futures, index total return swaps and options to increase equity exposure. With the exception of non-hedge derivatives used for asset replication, all of the Company's derivatives are evaluated for their ongoing effectiveness as either accounting hedge or non-hedge derivative financial instrument on at least a quarterly basis. The Company does not use derivatives for speculative purposes.

The paragraphs below describe the derivatives the Company uses, including the objectives, cash requirements and accounting policies.

Swaps

Total return swap agreements are agreements where one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income it generates and any capital gains. The Company uses total return swap agreements for asset replication and as a hedge to offset valuation losses in the portfolio during periods of declining market values. Cash settlements usually occur at dates specified in individual agreements. The amount of cash exchanged is equal to the difference between the set rate in the contract and the return of the underlying asset.

Credit default swap agreements are used for either buying credit protection or selling credit protection on a specified entity or index. Buying credit protection requires a payment of a premium to a counterparty or a clearing house in exchange for a future cash settlement or a promise to deliver a bond, if a specified credit event occurs. Selling credit protection provides for the receipt of a premium from a counterparty or a clearing house in exchange for a future cash settlement, or a promise to purchase a bond, if a specified credit event occurs. The Company enters into certain credit default swap agreements as a means to buy protection, mitigating the credit risk in a particular bond or bond portfolio, while leaving the security or bond portfolio intact. The Company enters into other credit default swap agreements as replication transactions, enabling greater diversification of credit risk by selling protection on specified entities that may not be frequent issuers in the traditional corporate bond market and by selling protection on indices also as a less expensive alternative to the cash market.

Total return and credit default swap agreements are reported in Schedule DB, Part A. Contracts used for replication purposes are also reported in Schedule DB, Part C. Total return swap agreements used as a hedge receive non-hedge accounting treatment. Credit default swap agreements used for buying protection receive non-hedge accounting treatment. Periodic settlements, which represent amounts receivable from/payable to the counterparties or a clearing house are based on the settlement terms within the agreement, and reported as a component of net investment income., The change in the fair value of open swap agreements that receive non-hedge accounting treatment are reported as net unrealized capital gains and losses, within unassigned surplus. Total return and credit default swap agreements entered into as replication transactions are valued at amortized cost.

Foreign currency forward contracts involve the future exchange or delivery of foreign currencies based on terms negotiated at the inception of the contract which are settled at the end of the contract. They are used to reduce foreign currency risk associated with holding foreign currency denominated investments. Cash settlement is required when the contract matures. The amount of cash exchanged is based on the difference between the specified rate on the date the contract was entered into (contract rate) compared to the actual rate on the settlement date. On the settlement date, the Company will either pay or receive cash equal to the difference between the contract rate and the actual rate multiplied by the specified notional amount. The change in the fair value of open foreign currency forward contracts is reported as net unrealized capital gains and losses, within unassigned surplus, until closed (e.g. terminated or settled). If the contract was hedging coupon payments of a bond, any gains and losses at closing are reported in net investment income. If the contract was hedging the original principal of a bond or the bond the Company was hedging is sold, any gains and losses at closing are reported in realized capital gains or losses. Foreign currency forward contracts entered into as a replication transaction are valued at amortized cost. These contracts are reported in Schedule DB, Part A and receive non-hedge accounting treatment. If any of these contracts were used for replication purposes, then they are also reported in Schedule DB, Part C.

Futures

The Company utilizes equity index and interest rate futures contracts. Futures contracts are defined as commitments to buy or sell designated financial instruments based on specified prices, yields or indices. Futures contracts provide returns at specified or optional dates based upon a specified index or interest rate applied to a notional amount. The Company utilizes futures contracts to (1) manage the interest rate risks of existing investments by changing the duration of the portfolio in order to offset the economic effect that interest rates would otherwise have on the fair value of the fixed income securities; (2) offset valuation losses in the common and preferred stock portfolios during periods of declining equity market values and (3) increase equity exposure through asset replication. In addition, equity index futures are used to hedge the market risk related to deferred compensation liability contracts. Daily cash settlement of variation margins is required for futures contracts and is based on the changes in daily prices. The final settlement of equity index and interest rate futures contracts is always in cash. Daily cash settlements of margin gains or losses for futures contracts receiving fair value hedge accounting treatment are reported in net investment income. The daily cash settlements of margin gains and losses for futures contracts that receive non-hedge accounting treatment and have terminated are reported in net realized capital gains or losses. The daily cash settlements of margin gains and losses for open futures contracts that receive non-hedge accounting treatment are reported as net unrealized capital gains and losses within unassigned surplus. Futures contracts are reported in Schedule DB, Part B and receive either fair value hedge accounting or non-hedge accounting treatment, depending on the strategy. Futures contracts used for replication purposes are also reported in Schedule DB, Part C.

Options

Index option contracts provide returns at specified or optional dates based on a specified equity index applied to the option's notional amount. When the Company purchases and write (sells) option contracts at specific prices, a premium is calculated for the right, but not the obligation, to buy/sell the value of an underlying index at a stated price on or before the expiration date of the option. The amount of premium calculated is based on the number of contracts purchased/sold, the specified price and the maturity date of the contract. Premiums are paid or received in cash at either the inception of the purchase/sale of the contract or throughout the life of the contract depending on the agreement with the counterparties and brokers. If the option is exercised, the Company receives/pays cash equal to the product of the number of contracts and the specified price in the contract (strike price). Purchased and written put and call index option contracts are cash settled upon exercise. If the options are not exercised, then no additional cash is exchanged when the contract expires. Premiums incurred when purchasing option contracts are reported as a derivative asset and premiums received when writing option contracts are reported as a derivative liability. Purchased and written option contracts are reported on Schedule DB, Part A. Purchased and written option contracts used for replication purposes are also reported in Schedule DB, Part C.

The Company purchases and writes option contracts for asset replication and as a hedge to offset valuation losses in the investment portfolio during periods of declining market values. Purchased and written index option contracts used as a hedge receive non-hedge accounting treatment. The change in the fair value of purchased/written option contracts is reported as net unrealized capital gains and losses, within unassigned surplus, with an adjustment to derivative assets/liabilities. The gain or loss on the cash settled exercise of a purchased/written index option is reported in realized capital gains or losses. If the purchased/written option contract expires without being

NOTES TO FINANCIAL STATEMENTS

exercised the premiums paid/received are reported as realized capital gains or losses and the corresponding asset/liability previously recorded is reversed.

Purchased and written index option contracts entered into as replication transactions are valued at amortized cost. Premiums paid for a purchased/written option contract are amortized/accreted into net investment income over the life of the option. The gain or loss on the cash settled exercise of a purchased/written index option contract is reported in realized capital gains or losses.

4. The Company entered into option contracts which required the payment/receipt of premiums at either the inception of the contract or throughout the life of the contract, depending on the agreement with counterparties and brokers.

5. The Company did not have gains or losses in net unrealized capital gains or losses that represented a component of any derivatives' gain or loss that was excluded from the assessment of hedge effectiveness in 2021 or 2020.

6. The Company did not have gains or losses in net unrealized capital gains or losses that resulted from derivatives that no longer qualify for hedge accounting treatment in 2021 or 2020.

7. The Company did not have derivatives accounted for as cash flow hedges of a forecasted transaction.

8. The Company did not have open option contracts with financing premiums due as of December 31, 2021 or 2020.

B. Derivatives under SSAP No. 108 – *Derivative Hedging Variable Annuity Guarantees* – Not applicable.

9. Income Taxes

The application of SSAP No. 101 requires the Company to evaluate the recoverability of DTAs and to establish a statutory valuation allowance adjustment ("valuation allowance") if necessary to reduce the DTA to an amount which is more likely than not to be realized. Considerable judgment is required in determining whether a valuation allowance is necessary, and if so, the amount of such valuation allowance. In evaluating the need for a valuation allowance the Company considers many factors, including: (1) the nature of the DTAs and DTLs; (2) whether they are ordinary or capital; (3) the timing of their reversal; (4) taxable income in prior carryback years as well as projected taxable earnings exclusive of reversing temporary differences and carryforwards; (5) the length of time that carryovers can be utilized; (6) unique tax rules that would impact the utilization of the DTAs; and (7) any tax planning strategies that the Company would employ to avoid an operating loss or tax credit carryforward from expiring unused. Although the realization is not assured, management believes it is more likely than not that the DTAs, net of the valuation allowance, will be realized. The Company did not record a valuation allowance as of December 31, 2021 or 2020.

2. The Company joins the Corporation and its 134 domestic subsidiaries in the filing of a consolidated federal income tax return. The consolidated group has elected under IRC Section 1552(a)(2) to allocate the consolidated federal income tax liability based on each member's federal income tax liability computed on a separate return basis, except all tax benefits resulting from operating losses and tax credits are allocated to the Company to the extent they can be utilized in the consolidated return.

G. The Company had no liability for federal income tax loss contingencies as of December 31, 2021, and believes that the liability balance will not materially increase within the next twelve months.

H. The repatriation tax liability under the Tax Legislation is $22 million.

The company elected to pay the liability under the permitted installments. The schedule of payments made and expected future payments to satisfy the liability is as follows:

10. Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

A.,
B. &
C. Transactions with AIH

The Company paid a total of $5.95 billion and $4.44 billion of dividends in cash and bonds to its parent, AIH, in 2021 and 2020, respectively. See Note 13, Part D for details.

Transactions with ALIC

The Company received ordinary dividends totaling $392 million from its previously wholly owned subsidiary, ALIC, in 2021. Investments with fair values of $40 million and $333 million were received on April 1, 2021 and May 1, 2021, respectively, and cash of $19 million was received on June 30, 2021.

The ALIC Purchase Agreement, specified that certain ALIC investments be sold or transferred prior to the sale closing ("Excluded investment assets"). As part of the Excluded investment assets transactions executed during the third quarter of 2021, ALIC transferred bonds, preferred stocks, common stocks, real estate investments, mortgage loans and other invested assets with fair values of $2.99 billion to the Company in exchange for bonds and cash. In addition, with the approval of the IL DOI and all the contingent conditions met, the Company received an extraordinary cash dividend of $1.25 billion from ALIC on November 1, 2021 immediately prior to ALIC's sale. See Note 4 for details.

Transactions with Allstate Finance Company ("AFCO")

On November 16, 2021, AFCO, a wholly owned subsidiary, made a cash distribution to the Company totaling $607 million, of which $590 million was recorded as a return of capital. The Company made capital contributions to AFCO in cash totaling $507 million in 2021.

Transactions with Allstate Short Term Pool, LLC

The Company invests in the Short term pool, which is offered by Allstate Short Term Pool, LLC, to certain wholly owned affiliated companies of the Corporation. The Short term pool is an investment pool managed by Allstate Investment Management Company ("AIMCO"), an affiliate of the Corporation, whose purpose is to efficiently manage cash and cash equivalents for its member companies. Each member company has an undivided interest in the underlying assets of the Short term pool per the Operating Agreement of Allstate Short Term Pool, LLC ("Operating Agreement"). The value of net assets that is the basis for current transactions and each share is determined daily by the Short term pool custodian. As of December 31, 2021 and 2020, the Company's reported investment in the Short term pool was $1.31 billion and $766 million, respectively. See Ref # - 001 in table below.

NOTES TO FINANCIAL STATEMENTS

Interdependent Transactions Effective April 1, 2021: Commutation, Division and Merger

Effective April 1, 2021, the Company entered into Partial Commutation and Partial Termination Amendments to the Quota Share Reinsurance Agreements ("Amendments") with Allstate Property and Casualty Insurance Company ("APC"), Allstate Fire and Casualty Insurance Company ("AFCIC"), Allstate Indemnity Company ("AI"), Encompass Indemnity Company ("EI"), Encompass Property and Casualty Insurance Company ("EPC"), Esurance Insurance Company ("ESIC") and Esurance Property and Casualty Insurance Company ("ESPC") (collectively "Commutation Affiliates"). Under the terms of the Amendments, $185 million of liabilities related to certain inactive Michigan automobile insurance policies directly written by the Commutation Affiliates that had claim reserves associated with outstanding personal injury claims were commuted from the Quota Share Reinsurance Agreements as follows:

(in millions)		
APC	$	100
AFCIC	$	25
AI	$	4
EI	$	11
EPC	$	2
ESIC	$	4
ESPC	$	39

The commutation did not have a net effect on the Company's Statement of Income.

The Company's Plan of Division, in accordance and in full compliance with the Illinois Domestic Stock Company Law, 215 ILCS 5/35B-1, was approved by the Illinois Director of Insurance on March 19, 2021 and effective April 1, 2021. Seven affiliated Illinois domestic insurance companies filed similar plans which were approved and effective April 1, 2021.

Effective April 1, 2021, immediately after the execution of the Amendments, the Company divided. The division of the Company resulted in $303 million of assets and $191 million of liabilities moving to a newly formed Illinois insurance company. The difference between the assets and liabilities transferred represents the capital transferred to the newly formed Illinois insurance company, which was split between contributed surplus and unassigned funds in accordance with the Plan of Division. Immediately following the division, pursuant to a Merger Agreement and Plan of Merger, the newly formed Illinois insurance company merged into the surviving company in the merger, ASMI Auto Insurance Company, an Illinois insurance company which is a wholly owned subsidiary of AIH.

Net intercompany balances less than $1 million and those equal to or greater than $1 million are generally settled quarterly and monthly, respectively. Net intercompany balances with AFS are settled monthly regardless of dollar amount. In addition, net intercompany balances with the Corporation related to profit sharing the Corporation grants to the Company’s employees are settled annually.

E. The Company and the Corporation are parties to the Amended and Restated Intercompany Liquidity Agreement (“Liquidity Agreement”) as well as CKIC, Road Bay Investments, LLC, and AFCO. The Liquidity Agreement allows for short-term advances of funds to be made between parties for liquidity and other general corporate purposes, but does not establish a commitment to advance funds on the part of any party. The Company serves as a lender and borrower, and the Corporation serves only as a lender, with a one-year term. The aggregate amount of advances made or received by the Company is limited to $1.00 billion.

The Company entered into the Intercompany Loan Agreement with the Corporation. The amount available to the Company is at the discretion of the Corporation, however, the maximum amount of loans the Corporation can have outstanding to all its eligible subsidiaries at any given point in time is limited to $1.00 billion. From time to time, the Company borrows money from the Corporation to meet its short-term cash needs. The Corporation may use commercial paper borrowings, bank lines of credit and securities lending to fund intercompany borrowings.

The Company, the Corporation and certain of its affiliated insurance companies are parties to the Amended and Restated Service and Expense Agreement (the "Agreement") pursuant to which the Company provides access to a variety of services, including the utilization of shared bank accounts for cash collections and disbursements in certain situations. The Agreement provides for cost sharing and allocation of operating expenses among the parties.

The Company is a party to the Investment Management Agreement with AILLC whereby AILLC provides investment management services and advice.

The Company, the Corporation and certain of its wholly owned affiliated companies are parties to the Operating Agreement as described in Note 10, Parts A, B & C, which provides a framework for AIMCO to efficiently manage cash and cash equivalents of the Short term pool’s members.

The Company is a party to the Reimbursement Agreement with the Corporation under which the Corporation sponsors certain benefit and compensation plans.

The Company is a party to a federal income tax allocation agreement with the Corporation (see Note 9, Part F).

F. All guarantees and undertakings of the Company are disclosed in Note 14, Part A in accordance with the requirements of SSAP No. 5R, *Liabilities, Contingencies and Impairments of Assets* (“SSAP No. 5R”).

G. The Company is a wholly owned subsidiary of AIH, a Delaware limited liability company. AIH is a wholly owned subsidiary of the Corporation.

NOTES TO FINANCIAL STATEMENTS

H. As of December 31, 2021 and 2020, the Company owned 37,471 common shares of the Corporation with a cost of $1 million. The entire carrying amount of the investment was reported as a nonadmitted asset.

I. The Company did not have investments in subsidiaries, controlled or affiliated ("SCA") entities that exceeded 10% of the Company's December 31, 2021 or 2020 admitted assets.

J. Impairments of SCA Entities – Not applicable.

K. The Company did not have investments in foreign insurance subsidiaries that were calculated by adjusting annuity GAAP account value reserves using the Commissioners Annuity Reserve Valuation Method and the related actuarial guidelines as of December 31, 2021 or 2020.

L. The carrying value of the Company's investments in Current Creek Investments, LLC ("Current Creek"), AP Real Estate, LLC ("AP Real Estate"), and NBInv Riverside Management, LLC ("NBInv Management") as of December 31 is presented in the table below.

(in millions)	2021	2020
Current Creek	$ 10	$ 31
AP Real Estate	$ 1	$ 27
NBInv Management	$ -	$ -

The Company utilized the look-through approach to determine the carrying value of investments in downstream noninsurance holding companies as of December 31, 2021 and 2020. Current Creek, AP Real Estate and NBInv Management are holding companies whose financial statements are not audited. The Company has limited its investments in Current Creek, AP Real Estate and NBInv Management to its proportional share of the value of the underlying assets contained in the audited financial statements as required by SSAP No. 97, *Investments in Subsidiary, Controlled and Affiliated Entities* ("SSAP No. 97"). All liabilities, commitments, contingencies, guarantees and obligations of Current Creek, AP Real Estate and NBInv Management, which are required to be recorded as liabilities, commitments, contingencies, guarantees and obligations under applicable accounting guidance, are reflected in the Company's determination of the carrying value of its investments in Current Creek, AP Real Estate and NBInv Management.

N. Investment in Insurance SCAs

1. The Company's investment in NLSIC, a wholly owned insurance company domiciled in the State of Illinois, was based on the underlying statutory capital and surplus of NLSIC and included the impact of an Illinois prescribed practice which differed from the NAIC SAP as of December 31, 2021. Specifically, amounts receivable from affiliates that are not outstanding for more than three months may not exceed the lesser of 5% of the admitted assets or 10% of policyholder surplus in accordance with statute 215 ILCS 5/3.1. SSAP No. 25, *Affiliates and Other Related Parties*, does not include limitations on amounts receivable from affiliates that are not outstanding more than three months.

   Prior to the sale of ALIC on November 1, 2021, the Company's investment in ALIC was based on the underlying statutory capital and surplus of ALIC. ALIC's assets included an investment in ALNY, a wholly owned insurance company domiciled in the State of New York. ALIC's investment in ALNY was based on the underlying statutory capital and surplus of ALNY and included the impact of a New York prescribed practice which differed from the NAIC SAP. Specifically, the calculation of deferred premium assets included the establishment of a prepaid reinsurance premium asset in accordance with New York Regulation 172. SSAP No. 61R, *Life, Deposit-Type and Accident and Health Reinsurance*, required the deferred premium asset to be reduced by the proportionate amount attributable to reinsurance.

2. The table below contains the monetary effect on the Company's net income for the year ended and as of surplus which resulted from NLSIC using the Illinois prescribed accounting practice in 2021 and ALNY using the New York prescribed accounting practice in 2020 described above, which differed from the NAIC SAP, the amount of the Company's investments in NLSIC and ALIC based on applying the prescribed practices and the amount of the Company's investment in NLSIC and ALIC had completed its statutory financial statements in accordance with the APPM, without considering the prescribed practice, as of December 31:

(in millions)	Monetary Effect on NAIC SAP		Amount of Investment	
SCA Entity (Investments in Insurance SCA Entities)	Net Income Increase (Decrease)	Surplus Increase (Decrease)	Statutory Equity	If The Insurance SCA Had Completed Statutory Financial Statements*
2021				
NLSIC	$ -	$ (36)	$ 41	$ 77
2020				
ALIC	$ -	$ (7)	$ 3,927	$ 3,934

* Per APPM (without permitted or prescribed practice)

The Company's investment in NLSIC as of December 31, 2021 was based on unaudited statutory equity. The Company does not expect the investments to be materially different from what is disclosed in the table above. The Company's investment in ALIC as of December 31, 2020 was equal to ALIC's audited statutory equity.

3. If NLSIC had not used the Illinois prescribed practice a risk-based capital regulatory event would not have been triggered. If ALNY had not used the New York prescribed practice a risk-based capital regulatory event would not have been triggered.

Not applicable.

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

A. Defined Benefit Plan

(1) Change in benefit obligation

a. Pension Benefits

The Company was not a sponsor of defined benefit pension plans.

b. Postretirement Benefits

The Company provides a medical coverage subsidy for eligible claim employees hired before January 1, 2003, including their eligible dependents, when they retire ("postretirement benefits"). Effective January 1, 2021, the Company eliminated the medical coverage subsidy for employees who were not eligible to retire as of December 31, 2020. Qualified employees may become eligible for a medical subsidy if they retire in accordance with the terms of the applicable plans and are insured under the Company's group plans or other approved plans in accordance with the plan's participation requirements. The Company shares the cost of retiree medical benefits with non Medicare-eligible retirees based on years of service, with the Company's share being subject to a 5% limit on future annual medical cost inflation after retirement. For Medicare-eligible retirees, the Company provides a fixed Company contribution based on years of service and other factors, which is not subject to adjustments for inflation. The Company has reserved the right to modify or terminate its benefit plans at any time and for any reason.

The Company calculates benefit obligations based upon generally accepted actuarial methodologies using the accumulated postretirement benefit obligation ("APBO") for other postretirement plans. The other postretirement obligations are determined using a December 31 measurement date. The benefit obligations represent the actuarial present value of all benefits attributed to employee service rendered as of the measurement date. The Company's other postretirement benefit plans are not funded.

NOTES TO FINANCIAL STATEMENTS

B. Description of Defined Benefit Plans Investment Policies and Strategies – Not applicable.

C. Fair Value of Defined Benefit Plan Assets – Not applicable.

D. Basis Used to Determine Overall Expected Rate-of-Return for Defined Benefit Plan Assets – Not applicable.

E. Defined Contribution Plans – Not applicable.

F. Multiemployer Plans – Not applicable.

G. Consolidated/Holding Company Plans

The Corporation provides various benefits, including defined benefit pension plans, certain health care and life insurance benefits for certain eligible employees, retired employees and employee-agents and participation in The Allstate 401(k) Savings Plan. The Company was allocated its share of the costs associated with these benefits in accordance with the Agreement. The Company's allocated share of these benefits, before reinsurance, was $3 million and $(3) million in 2021 and 2020, respectively.

H. Postemployment Benefits and Compensated Absences – Not applicable.

I. Impact of Medicare Modernization Act on Postretirement Benefits – Not applicable.

13. Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations

A. The Company had 42,000 common shares authorized and 38,820 shares issued and outstanding as of December 31, 2021 and 2020. All common shares had a par value of $100 per share.

B. Preferred Stock – Not applicable.

C. The ability of the Company to pay dividends is generally dependent on business conditions, income, cash requirements, receipt of dividends and other relevant factors. More specifically, the Illinois Insurance Code ("Code") provides a two-step process. First, no dividend may be declared or paid except from earned (unassigned) surplus, as distinguished from contributed surplus, nor when the payment of a dividend reduces surplus below the minimum amount required by the Code. Secondly, a determination of the ordinary versus extraordinary dividends that can be paid is formula based and considers net income and capital and surplus, as well as the timing and amounts of dividends paid in the preceding twelve months as specified by the Code. Ordinary dividends to shareholders do not require prior approval of the IL DOI. Dividends are not cumulative. As of December 31, 2021, the maximum ordinary dividend that can be declared and paid in 2022 by the Company is limited to $5.51 billion.

D. The Company paid the following ordinary cash dividends to AIH:

(in millions)

Date of Payment	2021	2020
February 12	$ -	$ 501
March 25	2,819	1,358
April 20	818	818
July 22	254	55
October 19	200	200
December 18	-	400
December 20	1,103	-
Total	$ 5,194	$ 3,332

In addition, the Company paid ordinary dividends to AIH consisting of bonds with fair values of $748 million and related accrued interest of $4 million on March 25, 2021.

The Company paid ordinary dividends to AIH consisting of bonds with fair values of $200 million and $198 million, and related accrued interest of $2 million and $1 million, on February 12, 2020 and July 22, 2020, respectively.

The Company also paid extraordinary dividends of $703 million to AIH on December 18, 2020.

E. Within the limitations of Part C above, there were no restrictions placed on the portion of the Company's profits that may be paid as ordinary dividends to stockholders.

F. The unassigned funds, which are held for the benefit of the shareholder, are unrestricted except by requirement for regulatory approval as described in Part C above.

G. Advances to Surplus for Mutual Companies – Not applicable.

H. Stock Held for Special Purposes – Not applicable.

I. The special surplus funds balance was $16 million and $20 million as of December 31, 2021 and 2020, respectively. The change in the balance of special surplus funds between years was primarily due to amortization of deferred gains on sale-leaseback transactions.

J. Cumulative unrealized gains and losses increased unassigned funds by $2.41 billion and $3.53 billion as of December 31, 2021 and 2020, respectively.

K. Surplus Notes – Not applicable.

L. Restatements Due to Quasi-Reorganizations – Not applicable.

M. Dates of Quasi-Reorganizations – Not applicable.

14. Liabilities, Contingencies and Assessments

A. Contingent Commitments

1. The Company made commitments to invest in limited partnership interests, including commitments to invest in SCA entities of $2.82 billion and $2.02 billion as of December 31, 2021 and 2020, respectively. These commitments are generally for making additional capital contributions or acquiring financial interests.

In addition, the Company, as part of an investment in a joint venture, agreed to a non-recourse guarantee of a loan obtained to finance construction of a building, as well as a guarantee of the obligations under any lender interest rate protection agreement, in an amount not to exceed $7 million as of December 31, 2021 and 2020. The probability the Company will be required to make a payment on the guarantees is remote.

NOTES TO FINANCIAL STATEMENTS

The Company has made no other additional contingent commitments or guarantees related to its investments in SCA entities, joint ventures, limited liability companies or LIHTC property investments.

2. The Company was a party to the following guarantee agreements as of December 31, 2021:

(in millions)

1 Nature and circumstances of guarantee and key attributes, including date and duration of agreement.	2 Liability recognition of guarantee. (Include amount recognized at inception. If no initial recognition, document exception allowed under SSAP No. 5R).	3 Ultimate financial statement impact if action under the guarantee required.	4 Maximum potential amount of future payments (undiscounted) the guarantor could be required to make under the guarantee. If unable to develop an estimate, this should be specifically noted.	5 Current status of payment or performance risk of guarantee. Also provide additional discussion as warranted.
With third parties				
The Company provides residual value guarantees on Company leased automobiles. The remaining term of each residual value guarantee is equal to the term of the underlying lease that ranges from less than one year to four years.	$ 1	Expenses	$ 15	Historically, there have not been any material payments pursuant to these guarantees.
The Company, as part of an investment in a joint venture, is obligated to provide additional financial support if the joint ventures assets are insufficient to satisfy future legal obligations of the entity.	$ -	Other invested assets	$ 2	There have been no payments made.
Total	$ 1		$ 17	

None of the agreements above contained recourse provisions that would enable the Company to recover amounts paid to third parties under the guarantees and there were no assets held by the Company as collateral under the agreements.

In the normal course of business, the Company provides standard indemnifications to contractual counterparties in connection with numerous transactions, including acquisitions and divestitures. The types of indemnifications typically provided include indemnifications for breaches of representations and warranties, taxes and certain other liabilities, such as third-party lawsuits. The indemnification clauses are often standard contractual terms and are entered into in the normal course of business based on an assessment that the risk of loss would be remote. The terms of the indemnifications vary in duration and nature. In many cases, the maximum obligation is not explicitly stated and the contingencies triggering the obligation to indemnify have not occurred and are not expected to occur. Consequently, the maximum amount of the obligation under such indemnifications is not determinable. Historically, the Company has not made any material payments pursuant to these obligations

Related to the sale of ALNY on October 1, 2021, the Company agreed to indemnify WRAC in connection with certain representations, warranties and covenants of the Company, and certain liabilities specifically excluded from the transaction, subject to specific contractual limitations regarding the Company's maximum obligation. Management does not believe these indemnifications will have a material effect on the statement of income, cash flows or financial position of the Company.

Related to the sale of ALIC and AAC on November 1, 2021, the Company and AFIHC (collectively, the "Sellers") agreed to indemnify Everlake in connection with certain representations, warranties and covenants of the Sellers, and certain liabilities specifically excluded from the transaction, subject to specific contractual limitations regarding the Sellers' maximum obligation. Management does not believe these indemnifications will have a material effect on the statement of income, cash flows or financial position of the Company.

3. Total guarantee obligations if performance under the guarantees had been triggered were as follows as of December 31:

(in millions)	**2021**	**2020**
a. Aggregate maximum potential of future payments of all guarantees (undiscounted) the guarantor could be required to make under guarantees. (Should equal total of Column 4 for (2) above.)	$ 17	$ 1,022
b. Current liability recognized in F/S:		
1. Noncontingent liabilities	$ 1	$ 1
2. Contingent liabilities	$ -	$ -
c. Ultimate financial statement impact if action under the guarantee is required.

3. Dividends to stockholders (capital contribution)	-	-
4. Expense	15	22
5. Other	-	-
6. Total (should equal (3)a)	$ 17	$ 1,022

B. Assessments

Guaranty funds

Under state insurance guaranty fund laws, insurers doing business in a state can be assessed, up to prescribed limits, for certain obligations of insolvent insurance companies to policyholders and claimants. Amounts assessed to each company are typically related to its proportion of business written in each state. The Company's policy is to accrue assessments when the entity for which the insolvency relates has met its state of domicile's statutory definition of insolvency, the amount of the loss is reasonably estimable and the related premium upon which the assessment is based is written. In most states, the definition is met with a declaration of financial insolvency by a court of competent jurisdiction. In certain states there must also be a final order of liquidation. Since most states allow a credit against premium or other state related taxes for assessments, an asset is recorded based on paid and accrued assessments for the amount the Company expects to recover on the respective state's tax return and is realized over the period allowed by each state. As of December 31, 2021 and 2020, the liability balance included in other expenses was $11 million and $4 million, respectively. There were no accruals for premium tax offsets related to future assessments as of December 31, 2021 or 2020.

The Company did not incur assessments related to insolvencies of entities that wrote long-term care contracts as of December 31, 2021 or 2020.

NOTES TO FINANCIAL STATEMENTS

State facilities

The Company is also subject to assessments from the Louisiana Citizens Property Insurance Corporation ("LA Citizens"). LA Citizens can levy a regular assessment on participating companies for a deficit in any calendar year up to a maximum of the greater of 10% of the calendar year deficit or 10% of Louisiana direct property premiums industry-wide for the prior calendar year. If the plan year deficit exceeds the amount that can be recovered through Regular Assessments, LA Citizens may fund the remaining deficit by issuing revenue assessment bonds in the capital markets. LA Citizens then declares Emergency Assessments each year to provide debt service on the bonds until they are retired. Companies writing assessable lines must surcharge their policyholders Emergency Assessments in the percentage established annually by LA Citizens and must remit amounts collected to the bond trustee on a quarterly basis. Emergency assessments to pay off bonds issued in 2007 for the hurricanes of 2005 will continue until 2025.

The Company participates in the mandatory coverage provided by the Florida Hurricane Catastrophe Fund ("FHCF") and therefore has access to reimbursement for certain qualifying Florida hurricane losses from the FHCF. The Company has exposure to assessments and pays annual premiums to the FHCF for this reimbursement protection. The FHCF has the authority to issue bonds to pay its obligations to participating insurers in excess of its capital balances. Payment of these bonds is funded by emergency assessments on all property and casualty premiums in the state, except workers' compensation, medical malpractice, accident and health insurance and policies written under the National Flood Insurance Program ("NFIP"). The FHCF emergency assessments are limited to 6% of premiums per year beginning the first year in which reimbursements require bonding, and up to a total of 10% of premiums per year for assessments in the second and subsequent years, if required to fund additional bonding. The FHCF issued $2 billion in pre-event bonds in 2013 to build its capacity to reimburse member companies' claims. The FHCF plans to fund these pre-event bonds through current FHCF cash flows. Pursuant to an Order issued by the FL OIR, the emergency assessment is zero for all policies issued or renewed on or after January 1, 2015.

The Company is subject to assessments from Citizens Property Insurance Corporation in the state of Florida ("FL Citizens"), which was initially created by the state of Florida to provide insurance to property owners unable to obtain coverage in the private insurance market. FL Citizens, at the discretion and direction of its Board of Governors, can levy a regular assessment on assessable insurers and assessable insureds for a deficit in any calendar year up to a maximum of the greater of: 2% of the projected deficit or 2% of the aggregate statewide direct written premium for the prior calendar year. The base of assessable insurers includes all property and casualty premiums in the state, except workers' compensation, medical malpractice, accident and health insurance and policies written under the NFIP. An insurer may recoup a regular assessment through a surcharge to policyholders. In order to recoup this assessment, an insurer must file for a policy surcharge with the FL OIR at least fifteen days prior to imposing the surcharge on policies. If a deficit remains after the regular assessment, FL Citizens can also levy emergency assessments in the current and subsequent years. Companies are required to collect the emergency assessments directly from residential property policyholders and remit to FL Citizens as collected. Currently, the emergency assessment is zero for all policies issued or renewed on or after July 1, 2015.

Facilities such as LA Citizens and FL Citizens are generally designed so that the ultimate cost is borne by policyholders; however, the exposure to assessments from these facilities and the availability of recoupments or premium rate increases may not offset each other in the Company's financial statements. Moreover, even if they do offset each other, they may not offset each other in financial statements for the same fiscal period due to the ultimate timing of the assessments and recoupments or premium rate increases, as well as the possibility of policies not being renewed in subsequent years.

Reconciliations of assets recognized from policy surcharges and recorded in premiums and considerations were as follows:

(in millions)	2021	2020
Assets recognized from paid and accrued premium tax offsets and policy surcharges prior year-end	$ 1	$ 1
Decreases during the year:		
Payments made	5	5
Increases during the year:		
Policy surcharges collected	6	5
Assets recognized from paid and accrued premium tax offsets and policy surcharges at current year-end	$ 2	$ 1

C. Gain Contingencies

The Company has not recognized gain contingencies subsequent to December 31, 2021, but prior to the issuance of the Company's Annual Statement.

D. Claims Related Extra Contractual Obligation and Bad Faith Losses Stemming from Lawsuits – Not applicable.

E. Product Warranties – Not applicable.

F. Joint and Several Liabilities - Not applicable.

G. All Other Contingencies

Premium Balances Reasonably Possible to be Uncollectible

The Company routinely assesses the collectibility of its premiums and considerations that are less than 90 days old. Premiums and considerations older than 90 days are generally nonadmitted. The allowance for uncollectible premiums and considerations is determined based on the age of the receivable and prior collection experience. The allowance balance for admitted premiums and considerations, after reinsurance, was $35 million and $37 million as of December 31, 2021 and 2020, respectively.

California Earthquake Authority ("CEA")

Exposure to certain potential losses from earthquakes in California is limited by the Company's participation in the CEA, which provides insurance for California earthquake losses. The CEA is a privately-financed, publicly-managed state agency created to provide insurance coverage for earthquake damage. Insurers selling homeowners insurance in California are required to offer earthquake insurance to their customers either through their company or by participation in the CEA. The Company's homeowners policies continue to include coverages for losses caused by explosions, theft, glass breakage and fires following an earthquake, which are not underwritten by the CEA.

As of October 31, 2021, the CEA's capital balance was approximately $5.70 billion. Should losses arising from an earthquake cause a deficit in the CEA, an additional $1.70 billion would be obtained from the proceeds of revenue bonds the CEA may issue, an existing $9.50 billion reinsurance layer, $1.00 billion from policy surcharge, and finally, if needed, assessments on participating insurance companies. Participating insurers are required to pay an assessment, currently estimated not to exceed $1.70 billion, if the capital of the CEA falls below $350 million. Within the limits previously described, the assessment could be intended to restore the CEA's capital to a level of $350 million. There is no provision that allows insurers to recover assessments through a premium surcharge or other mechanism. The CEA's projected aggregate claim paying capacity is $19.60 billion as of October 31, 2021 and if an event were to result in claims greater than its capacity, affected policyholders may be paid a prorated portion of their covered losses, paid on an installment basis, or no payments may be made if the claim paying capacity of the CEA is insufficient.

All future assessments on participating CEA insurers are based on their CEA insurance market share as of December 31 of the preceding year. As of December 31, 2020, the Company's market share was 8.7%. The Company does not expect its market share to materially change. At this level, the Company's maximum possible CEA assessment was $144 million during 2021. These amounts are re-evaluated by the board of directors of the CEA on an annual basis. Accordingly, assessments from the CEA for a particular quarter or annual period may be material to

NOTES TO FINANCIAL STATEMENTS

the results of operations and cash flows, but not the financial position of the Company. Management believes the Company's exposure to earthquake losses in California has been significantly reduced as a result of its participation in the CEA.

Texas Fair Plan Association ("FAIR Plan")

The Company participates as a member of the FAIR Plan, which provides residential property insurance to inland areas designated as underserved by the Commissioner of Insurance and the applicant(s) are unable to procure coverage in the voluntary market. The FAIR Plan issues insurance policies, like an insurance company, and it also functions as a pooling mechanism that allocates premiums, claims and expenses back to the insurance industry. As a result of the losses incurred related to Hurricane Harvey, in 2017 the FAIR Plan Board unanimously voted to approve its first ever member assessment of which the Company's share was $8 million based on total direct premium written in Texas. Insurers are permitted to recover the assessment through either a premium surcharge applied to existing customers over a three-year period or increased rates, but the ability to fully recover the assessment may be impacted by market conditions or other factors.

North Carolina Reinsurance Facility ("NCRF")

The NCRF provides automobile liability insurance to drivers that insurers are not otherwise willing to insure. All insurers licensed to write automobile insurance in North Carolina are members of the NCRF. Premiums, losses and expenses are assigned to the NCRF. North Carolina law allows the NCRF to recoup operating losses for certain insureds through a surcharge to policyholders. As of September 30, 2021, the NCRF reported a deficit of $67 million in members' equity. The NCRF implemented a loss recoupment surcharge on all private passenger and commercial fleet policies effective October 1, 2021, through September 30, 2022. Member companies are assessed the recoupment surcharge. The loss recoupment surcharge will be adjusted on October 1, 2022 and discontinued once losses are recovered. The NCRF results are shared by the member companies in proportion to their respective North Carolina automobile liability writings. For the fiscal year ending September 30, 2021, NCRF net gain was $58 million, including $1.10 billion of earned premium, $244 million of certain private passenger auto risk recoupment and $127 million of member loss recoupments. As of December 31, 2021, the NCRF recoverables on unpaid claims is $2 million.

North Carolina Joint Underwriters Association ("NCJUA")

The NCJUA was created to provide property insurance for properties (other than the state's beach and coastal areas) that insurers are not otherwise willing to insure. All insurers licensed to write property insurance in North Carolina are members of the NCJUA. Premiums, losses and expenses of the NCJUA are shared by the member companies in proportion to their respective North Carolina property insurance writings. Member companies participate in plan deficits or surpluses based on their participation ratios, which are determined annually. The Company had a $2 million receivable from the NCJUA at December 31, 2021 representing our participation in the NCJUA's surplus of $16 million for all open years.

North Carolina Insurance Underwriting Association ("NCIUA")

The NCIUA provides windstorm and hail coverage as well as homeowners policies for properties located in the state's beach and coastal areas that insurers are not otherwise willing to insure. All insurers licensed to write residential and commercial property insurance in North Carolina are members of the NCIUA. Members are assessed in proportion to their North Carolina residential and commercial property insurance writings, which is determined annually and varies by coverage, for plan deficits. As of December 31, 2021, the NCIUA had a surplus of $664 million. No member company is entitled to the distribution of any portion of the Association's surplus. The Company does not recognize any interest related to this surplus. Legislation in 2009 capped insurers' assessments for losses incurred in any calendar year at $1.00 billion. Subsequent to an industry assessment of $1.00 billion, if the plan continues to require funding, it may authorize insurers to assess a 10% catastrophe recovery charge on each property insurance policy statewide to be remitted to the plan.

Federal Government - National Flood Insurance Program ("NFIP")

NFIP is a program administered by the Federal Emergency Management Agency ("FEMA") whereby the Company sells and services NFIP flood insurance policies as an agent of FEMA and receives fees for its services. The Company is fully indemnified for claims and claim expenses and does not retain any ultimate risk for the indemnified business. The federal government is obligated to pay all claims and certain allocated loss adjustment expenses in accordance with the arrangement.

Congressional authorization for the NFIP is periodically evaluated and may be subjected to freezes, including when the federal government experiences a shutdown. FEMA has a NFIP reinsurance program to manage the future exposure of the NFIP through the transfer of risk to private reinsurance companies and capital market investors. Congress is evaluating the funding of the program as well as considering reforms to the program that would be incorporated in legislation to reauthorize the NFIP.

The amounts recoverable as of December 31, 2021 and 2020 was $23 million and $29 million, respectively. Premiums earned under the NFIP include $266 million and $252 million in 2021 and 2020, respectively. Qualifying losses incurred include $165 million and $87 million in 2021 and 2020, respectively.

Shared markets

The Company is required to participate in assigned risk plans, reinsurance facilities and joint underwriting associations in various states that provide insurance coverage to individuals or entities that otherwise are unable to purchase such coverage from private insurers. The Company routinely reviews its exposure to assessments from these plans, facilities and government programs. Underwriting results related to these arrangements, which tend to be adverse, have been immaterial to the Company's results of operations in the last two years. Because of the Company's participation, it may be exposed to losses that surpass the capitalization of these facilities or assessments from these facilities.

Legal and regulatory proceedings and inquiries

Background

The Company and certain subsidiaries are involved in a number of lawsuits, regulatory inquiries, and other legal proceedings arising out of various aspects of its business.

The Company currently estimates that the aggregate range of reasonably possible loss in excess of the amount accrued, if any, for the disclosed matters where such an estimate is possible is zero to $135 million, pre-tax. This disclosure is not an indication of expected loss, if any. Under APPM, an event is "reasonably possible" if "the chance of the future event or events occurring is more than remote but less than likely" and an event is "remote" if "the chance of the future event or events occurring is slight." This estimate is based upon currently available information and is subject to significant judgment and a variety of assumptions, and known and unknown uncertainties. The matters underlying the estimate will change from time to time, and actual results may vary significantly from the current estimate. The estimate does not include matters or losses for which an estimate is not possible. Therefore, this estimate represents an estimate of possible loss only for certain matters meeting these criteria. It does not represent the Company's maximum possible loss exposure. Information is provided below regarding the nature of all of the disclosed matters and, where specified, the amount, if any, of plaintiff claims associated with these loss contingencies.

Due to the complexity and scope of the matters disclosed in the "Claims related proceedings" and "Other proceedings" subsections below and the many uncertainties that exist, the ultimate outcome of these matters cannot be predicted and in the Company's judgment, a loss, in excess of amounts accrued, if any, is not probable. In the event of an unfavorable outcome in one or more of these matters, the ultimate liability may be in excess of amounts currently accrued, if any, and may be material to the Company's operating results or cash flows for a particular quarterly or annual period. However, based on information currently known to it, management believes that the ultimate outcome of all matters described below, as they are resolved over time, is not likely to have a material effect on the financial position of the Company.

NOTES TO FINANCIAL STATEMENTS

Claims related proceedings

The Company is managing various disputes in Florida that raise challenges to the Company's practices, processes, and procedures relating to claims for personal injury protection benefits under Florida auto policies. Medical providers continue to pursue litigation under various theories that challenge the amounts that the Company pays under the personal injury protection coverage, seeking additional benefit payments, as well as applicable interest, penalties and fees. There is a pending class action, *Revival Chiropractic v. Allstate Insurance Company, et al.* (M.D. Fla. filed January 2019, appeal pending, 11th Circuit Court of Appeals), where the court denied class certification and plaintiff's request to file a renewed motion for class certification. The Company is also defending litigation involving individual plaintiffs.

The Company is defending putative class actions in various courts that raise challenges to the Company's depreciation practices in homeowner property claims. In these lawsuits, plaintiffs generally allege that, when calculating actual cash value, the costs of "non-materials" such as labor, general contractor's overhead and profit, and sales tax should not be subject to depreciation. The Company is currently defending the following lawsuits on this issue: *Perry v. Allstate Indemnity Company, et al.* (N.D. Ohio filed May 2016*; Lado v. Allstate Vehicle and Property Insurance Company* (S.D. Ohio filed March 2020); *Maniaci v. Allstate Insurance Company* (N.D. Ohio filed March 2020); *Ferguson-Luke et al. v. Allstate Property and Casualty Insurance Company* (N.D. Ohio filed April 2020); *Clark v. Allstate Vehicle and Property Insurance Company* (Circuit Court of Independence Co., Ark. filed February 2016); and *Mitchell, et.al v. Allstate Vehicle and Property Insurance Company, et al*. (S.D. Ala. filed August 2021). No classes have been certified in these matters. A settlement has been reached in Huey v. Allstate *Vehicle and Property Insurance Company (N.D. Miss*. filed October 2019), and a settlement-in-principle *has been reached in Thaxton v.* Allstate Indemnity Company (Madison Co., Ill. filed July *2020) and Hester v. Allstate Vehicle and* Property Insurance Company (St. Clair Co., Ill. filed June 2020).

The Company is defending putative class actions pending in multiple states alleging that the Company underpays total loss vehicle physical damage claims on auto policies. The allegedly systematic underpayments result from one or more of the following theories: (a) the third party valuation tool used by the Company as part of a comprehensive adjustment process is allegedly flawed, biased, or contrary to applicable law; (b) the Company allegedly does not pay sales tax, title fees, registration fees, and/or other specified fees that are allegedly mandatory under policy language or state legal authority; or (c) after paying for the value of the loss vehicle, then the Company allegedly is not entitled to retain the residual salvage value, and the Company allegedly must pay salvage value to the owner (or if the loss vehicle is retained by the owner, then the Company allegedly may not apply any offset for the salvage value). The following cases are currently pending against the Company: *Olberg v. Allstate Insurance Company, Allstate Fire and Casualty Insurance Company, and CCC Information Services, Inc.* (W.D. Wash., filed April 2018); *Bloomgarden v. Allstate Fire and Casualty Insurance Company* (S.D. Fla., filed July 2018, dismissed August 2019, refiled September 2019, remanded to 17th Judicial Circuit, Broward Co. October 2020); *Erby v. Allstate Fire and Casualty Insurance Company* (E.D. Pa., filed October 2018); *Kronenberg v. Allstate Insurance Company and Allstate Fire and Casualty Insurance Company* (E.D. N.Y., filed December 2018); *Durgin v. Allstate Property and Casualty Insurance Company* (W.D. La, filed June 7, 2019); *Saad v. National General Insurance Company* (Superior Ct., Los Angeles Co., Cal.; filed May 2020); *Williams v. Esurance Property and Casualty Insurance Company* (C.D. Cal.; filed September 2020); *Cotton v. Allstate Fire and Casualty Insurance Company* (Cir. Ct. of Cook Co. Ill., Chancery Div., filed October 2020); *Romaniak v. Esurance Property and Casualty Insurance Company* (N.D. Ohio, filed December 2020); *Rawlins v. Esurance Property and Casualty Insurance Company* (E.D. Mo., filed February 2021).

None of the courts in any of the pending matters *has ruled on class certification.*

Other proceedings

The Company is defending against an investigatory hearing before the California Insurance Commissioner concerning the private passenger automobile *insurance rating practices of Allstate Insurance Company and* Allstate Indemnity Company in California. The investigatory hearing is captioned: In the Matter of the Rating Practices of Allstate Insurance Company and Allstate Indemnity *Company. Pursuant to the Notice of Hearing* issued by the California Insurance Commissioner, the California Insurance *Commissioner is investigating: (1) whether Allstate has potentially violated California insurance* law by using illegal price optimization; (2) how Allstate *implemented any such potentially illegal price optimization in* its private passenger auto insurance rates and/or class plans*; and (3) how* such potentially illegal price optimization impacted Allstate's private passenger auto insurance policyholders. Fact *discovery has been completed in the* investigatory hearing and an administrative hearing is scheduled to begin on May 10, 2022.

The stockholder derivative actions described below are disclosed pursuant to SEC disclosure requirements for these types of *matters. The putative class action alleging violations* of the federal securities laws is disclosed because it involves similar allegations to those made in the *stockholder derivative actions.*

Biefeldt / IBEW Consolidated Action. Two separately filed stockholder derivative actions have *been consolidated into a single proceeding that is* pending in the Circuit Court for Cook County, Illinois, Chancery Division. The original complaint in the first-filed of those actions, *Biefeldt v. Wilson, et al.*, was filed on August 3, 2017, in that court by a plaintiff alleging that she is a stockholder of the Corporation. On June 29, 2018, the court granted defendants' motion to dismiss that complaint for failure to make a pre-suit demand on the Allstate Board but granted plaintiff permission to file an amended complaint. The original complaint in *IBEW Local No. 98 Pension Fund v. Wilson, et al.*, was filed on April 12, 2018, in the same court by another plaintiff alleging to be a stockholder of the Corporation. After the court issued its dismissal decision in the *Biefeldt* action, plaintiffs agreed to consolidate the two actions and filed a consolidated amended complaint naming as defendants the Corporation's chairman, president and chief executive officer, its former president, and certain present or former members of the Allstate Board. In that complaint, plaintiffs allege that the directors and officer defendants breached their fiduciary duties to the Corporation in connection with allegedly material misstatements or omissions concerning the Corporation's automobile insurance claim frequency statistics and the reasons for a claim frequency increase for Allstate brand auto insurance between October 2014 and August 3, 2015. The factual allegations are substantially similar to those at issue in *In re The Allstate Corp. Securities Litigation.* Plaintiffs further allege that a senior officer and several outside directors engaged in stock option exercises allegedly while in possession of material nonpublic information. Plaintiffs seek, on behalf of the Corporation, an unspecified amount of damages and various forms of equitable relief. Defendants moved to dismiss the consolidated complaint on September 24, 2018 for failure to make a demand on the Allstate Board. On May 14, 2019, the court granted defendants' motion to dismiss the complaint, but allowed plaintiffs leave to file a second consolidated amended complaint which they filed on September 17, 2019. Defendants moved to dismiss the complaint on November 1, 2019 for failure to make a demand on the Allstate Board. The court subsequently requested supplemental briefing on the motion which concluded on February 1, 2021. On February 24, 2021, the court dismissed the second amended consolidated complaint with prejudice. Plaintiffs appealed and the court held a hearing on February 8, 2022. The Corporation awaits the court's decision.

In Sundquist v. Wilson, et al., another plaintiff alleging to be a stockholder of the Corporation filed a stockholder derivative complaint in the United States District Court for the Northern District of Illinois on May 21, 2018. Plaintiff seeks, on behalf of the Corporation, an unspecified amount of damages and various forms of equitable relief. The complaint names as defendants the Corporation's chairman, president and chief executive officer, its former president, its former vice chairman, and certain present or former members of the board of directors. The complaint alleges breaches of fiduciary duty based on allegations similar to those asserted in *In re The Allstate Corp. Securities Litigation* as well as state law "misappropriation" claims based on stock option transactions by the Corporation's chairman, president and chief executive officer, its former vice chairman, and certain members of the board of directors. Defendants moved to dismiss and/or stay the complaint on August 7, 2018. On December 4, 2018, the court granted defendants' motion and stayed the case pending final resolution of the consolidated *Biefeldt/IBEW* matter.

Mims v. *Wilson, et al*., is an additional stockholder derivative action filed on February 12, 2020 in the United States District Court for the Northern District of Illinois. Plaintiff alleges that she previously made a demand on the Allstate Board and seeks, on behalf of the Corporation, an unspecified amount of damages and various forms of equitable relief. The complaint names as defendants the Corporation's chairman, president and chief executive officer, its former president, its former vice chairman, and certain present or former members of the Allstate Board. The complaint alleges breaches of fiduciary duty and unjust enrichment based on allegations similar to those asserted in *In re The Allstate Corp. Securities Litigation*. On February 20, 2020, the Allstate Board appointed a special committee to investigate the allegations in plaintiff's demand. The Corporation moved to dismiss the complaint on August 24, 2020 and on December 8, 2020, the court granted defendants' motion, and dismissed the complaint with prejudice. On January 5, 2021, plaintiff filed a motion to

NOTES TO FINANCIAL STATEMENTS

alter the judgment and requested leave to file an amended complaint and defendants opposed the motion. On February 10, 2021, the court denied plaintiff's motion to alter the judgment. No appeal was filed.

In *re The Allstate Corp. Securities Litigation* is a certified class action filed on November 11, 2016 in the United States District Court for the Northern District of Illinois against the Corporation and two of its officers asserting claims under the federal securities laws. Plaintiffs allege that they purchased The Allstate Corporation common stock during the class period and suffered damages as the result of the conduct alleged. Plaintiffs seek an unspecified amount of damages, costs, attorney's fees, and other relief as the court deems appropriate. Plaintiffs allege that the Corporation and certain senior officers made allegedly material misstatements or omissions concerning claim frequency statistics and the reasons for a claim frequency increase for Allstate brand auto insurance between October 2014 and August 3, 2015. Plaintiffs further allege that a senior officer engaged in stock option exercises during that time allegedly while in possession of material nonpublic information about Allstate brand auto insurance claim frequency. The Corporation, its chairman, president and chief executive officer, and its former president are the named defendants. After the court denied their motion to dismiss on February 27, 2018, defendants answered the complaint, denying plaintiffs' allegations that there was any misstatement or omission or other misconduct. On June 22, 2018, plaintiffs filed their motion for class certification. The court allowed the lead plaintiffs to amend their complaint to add the City of Providence Employee Retirement System as a proposed class representative and on September 12, 2018, the amended complaint was filed. On March 26, 2019, the court granted plaintiffs' motion for class certification and certified a class consisting of all persons who purchased The Allstate Corporation common stock between October 29, 2014 and August 3, 2015. On April 9, 2019, defendants filed with the U.S. Court of Appeals for the Seventh Circuit a petition for permission to appeal this ruling and the Seventh Circuit granted that petition on April 25, 2019. On July 16, 2020, the Seventh Circuit vacated the class certification order and remanded the matter for further consideration by the district court. Discovery in this matter concluded on October 5, 2020. On December 21, 2020, the district court again granted plaintiffs' motion for class certification and certified a class consisting of all persons who purchased The Allstate Corporation common stock between October 29, 2014 and August 3, 2015. On January 4, 2021, defendants filed with the Seventh Circuit a petition for permission to appeal this ruling. The petition was denied on January 28, 2021. On January 10, 2022, the magistrate judge denied the parties' *Daubert* challenges in all material respects. The court held a status conference on February 1, 2022 and set a schedule for summary judgment briefing to commence on March 23, 2022.

The Company is continuing to defend two putative class actions in California federal court, Holland Hewitt v. Allstate Life Insurance Company (E.D. Cal., filed May 2020) and Farley v. Lincoln Benefit Life *Company (E.D. Cal., filed Dec. 2020), following the sale of* ALIC. No classes have been certified in these matters. The Company is also defending an individual action in California state court, Gilmore v Lincoln Benefit Life Company (San Diego Co., Cal., filed October 29, 2021). In these cases, plaintiffs generally allege that the defendants failed to comply with certain California statutes which address contractual grace periods and lapse notice requirements for certain life insurance policies. Plaintiffs claim that these statutes apply to life insurance policies that existed before the statutes' effective date. The plaintiffs seek damages and injunctive relief. Similar litigation is pending against other insurance carriers. In August 2021, the California Supreme Court in *McHugh v. Protective Life*, a matter involving another insurer, determined that the statutory notice requirements apply to life insurance policies issued before the statutes' effective date. The Company asserts various defenses to plaintiffs' claims and to class certification.

15. Leases

A. Lessee Operating Lease

1. The Company leases certain office facilities, computer and office equipment, internal-use computer software, aircraft and automobiles under various noncancelable operating lease agreements that expire through 2029. Total rent expense, net of sublease rental income, was $174 million and $210 million in 2021 and 2020, respectively, before allocation to affiliates. Sublease rental income was $3 million in 2021 and $2 million in 2020, respectively.

   The Company closed certain leased office facilities, which resulted in the early termination or non-use of leased property benefits. Under these lease agreements, the Company recognized a liability of $59 million and $19 million as of December 31, 2021 and 2020, respectively.

2. a. As of December 31, 2021, the minimum aggregate rental commitments under noncancelable operating leases with an initial or remaining term of more than one year were as follows:

(in millions)

	Year Ending December 31		Operating Leases
1.	2022	$	73
2.	2023	$	103
3.	2024	$	78
4.	2025	$	59
5.	2026	$	28
6.	Total*	$	371

*Includes $30 million required after December 31, 2026

   b. As of December 31, 2021, the total of minimum aggregate rental commitments to be received under noncancelable subleases with an initial or remaining term of more than one year was $44 million.

3. The Company was not involved in sale-leaseback transactions in 2021 or 2020.

B. Lessor Leases

Leasing activities were not part of the Company's business activities in 2021 or 2020.

16. Information about Financial Instruments with Off-Balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk

Derivative financial instruments

1. The following table summarizes the notional amount of the Company's derivative financial instruments, including those with off-balance-sheet risk as of December 31:

(in millions)	Assets		Liabilities	
	2021	2020	2021	2020
a. Swaps	$ 760	$ 1,015	$ 315	$ 1,028
b. Futures	32	155	256	66
c. Options	25	19	-	-
d. Total	$ 817	$ 1,189	$ 571	$ 1,094

See Schedule DB of the Company's Annual Statement for additional detail.

The notional amounts specified in the contracts are used to calculate the exchange of contractual payments under the agreements and are generally not representative of the potential for gain or loss on these agreements. However, the notional amounts specified in credit default swap agreements where the Company has sold credit protection represent the maximum amount of potential loss, assuming no recoveries.

NOTES TO FINANCIAL STATEMENTS

2. The credit risk, market risk and cash requirements of the Company's derivative instruments utilized during 2021 and 2020 are discussed in Note 8, Parts A-C. The accounting policies for the Company's derivative instruments are disclosed in Note 1, Part C and Note 8, Parts A-C.

3. The Company's credit exposure related to its outstanding over-the-counter and cleared swap contracts was $20 million and $4 million as of December 31, 2021 and 2020, respectively.

   Counterparty credit exposure represents the Company's potential loss if all counterparties concurrently fail to perform under the contractual terms of the contracts and all collateral, if any, becomes worthless. This exposure is measured by the statement value of over-the-counter and cleared derivative contracts with a positive statement value at the reporting date. The Company has not incurred any losses on derivative financial instruments due to counterparty nonperformance.

4. The Company's policy for requiring collateral is discussed in Note 8, Parts A-C. In general, the collateral pledged by the Company is in the custody of a counterparty, a clearing house or an exchange. However, the Company has access to this collateral at any time, subject to replacement. For certain exchange traded and cleared derivatives, margin deposits are required as well as daily cash settlements of margin accounts. As of December 31, 2021, the Company pledged cash and securities with fair values of $73 million and received cash of $3 million in the form of margin deposits. As of December 31, 2020, the Company pledged cash and securities with fair values of $54 million and received cash of $12 million in the form of margin deposits.

   The Company pledges or obtains collateral for over-the-counter derivative transactions when certain predetermined exposure limits are exceeded. As of December 31, 2021, counterparties pledged $17 million in cash collateral to the Company, and the Company pledged $2 million in cash to counterparties. As of December 31, 2020, counterparties pledged $4 million in cash collateral to the Company, and the Company pledged $14 million in cash to counterparties.

Off-balance-sheet financial instruments

1. The contractual amounts of off-balance-sheet financial instruments as of December 31 were as follows:

(in millions)	2021	2020
Commitments to invest in limited partnership interests	$ 2,818	$ 2,015
Private placement commitments	$ 110	$ 35
Other loan commitments	$ 14	$ 17

2. Commitments to invest in limited partnership interests represent agreements to acquire new or additional participation in certain limited partnership investments. The Company enters into these agreements in the normal course of business. Private placement commitments represent commitments to purchase private placement debt and private equity securities at a future date. The Company enters into these agreements in the normal course of business. Other loan commitments are agreements to lend to a borrower provided there is no violation of any condition established in the contract. The Company enters into these agreements to commit to future loan fundings at predetermined interest rates. Commitments have either fixed or varying expiration dates or other termination clauses.

3. The contractual amounts represent the amount at risk if the contract was fully drawn upon, the counterparty defaults and the value of any underlying security becomes worthless.

4. The Company does not require collateral or other security to support off-balance-sheet financial instruments with credit risk.

17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

A. Transfers of Premium Receivables as Sales – Not applicable.

B. Transfer and Servicing of Financial Assets

1. The Company's business activities included securities lending programs with third parties, mostly large banks. As of December 31, 2021 and 2020, bonds, including LBASS and common stocks with fair values of $1.42 billion and $872 million, respectively, were on loan under these agreements. Securities lent were either specifically identified by the lending bank or segregated into a separate custody account. See Note 5, Part E for more information about securities lending collateral.

2. The Company did not enter into agreements to service assets or liabilities.

3. The Company did not service assets and liabilities that were subsequently measured at fair value.

4. The Company was not a transferor or transferee with respect to securitizations and asset-backed financing arrangements.

5. The Company did not transfer financial assets accounted for as secured borrowings.

6. The Company did not transfer receivables with recourse.

7. The Company did not enter into dollar repurchase or dollar reverse repurchase agreements.

C. Wash Sales – Not applicable.

18. Gain or Loss to the Reporting Entity from Uninsured Plans and the Uninsured Portion of Partially Insured Plans

Not applicable.

19. Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

Not applicable.

20. Fair Value Measurements

A. Fair value is defined, per SSAP No. 100R, *Fair Value* ("SSAP No. 100R"), as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. SSAP No. 100R identified three valuation techniques which are used, either independently or in combination, to determine fair value: (1) market approach; (2) income approach; and (3) cost approach. SSAP No. 100R also contains guidance about observable and unobservable inputs, which are assumptions that market participants would use in pricing an asset or liability. To increase consistency and comparability in fair value measurements, the fair value hierarchy prioritizes the inputs to valuation techniques into three broad levels: 1, 2 and 3. The hierarchy for inputs used in determining fair value maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that observable inputs be used when available. Certain assets are measured utilizing net asset value ("NAV") as a practical expedient to determine fair value.

The Company has two types of situations where investments are classified as Level 3 in the fair value hierarchy:

(1) Specific inputs significant to the fair value estimation models are not market observable. This primarily occurs in the Company's use of broker quotes to value certain securities where the inputs have not been corroborated to be market observable, and the use of valuation models that use significant non-market observable inputs.

NOTES TO FINANCIAL STATEMENTS

(2) Quotes continue to be received from independent third-party valuation service providers and all significant inputs are market observable; however, there has been a significant decrease in the volume and level of activity for the asset when compared to normal market activity such that the degree of market observability has declined to a point where categorization as a Level 3 measurement is considered appropriate. The indicators considered in determining whether a significant decrease in the volume and level of activity for a specific asset has occurred include the level of new issuances in the primary market, trading volume in the secondary market, the level of credit spreads over historical levels, applicable bid-ask spreads, and price consensus among market participants and other pricing sources.

Transfers into Level 3 during 2021 and 2020 included securities measured at lower of cost or market and reported at fair value in 2021 and 2020, and at cost in 2020 and 2019, respectively. In addition, transfers into Level 3 during 2020 included situations where a fair value quote was not provided by the Company's independent third-party valuation service provider and, as a result, the price was stale or had been replaced with a broker quote where the inputs had not been corroborated to be market observable.

Transfers out of Level 3 during 2021 and 2020 included securities measured at lower of cost or market and reported at cost in 2021 and 2020, and fair value in 2020 and 2019, respectively. Transfers out of Level 3 during 2021 and 2020 were also the result of assets utilizing NAV as a practical expedient to determine fair value. Transfers out of Level 3 during 2020 included situations where the valuation was not based on market observable inputs in the prior period; in the current period, a price quote utilizing market observable inputs became available and was utilized and any gains and losses related to the change in valuation source for individual securities were not significant.

3. The Company consistently follows its policy for determining when transfers between levels are recognized. The policy about the timing of recognizing transfers into Level 3 is the same as that for recognizing transfers out of Level 3.

4. In determining fair value, the Company principally uses the market approach which generally utilizes market transaction data for the same or similar instruments. To a lesser extent, the Company uses the income approach which involves determining fair values from discounted cash flow methodologies. For the majority of Level 2 and Level 3 valuations, a combination of the market and income approaches is used.

Listed below is a summary of the significant valuation techniques for assets and liabilities measured and reported at fair value.

NOTES TO FINANCIAL STATEMENTS

Level 2 measurements

Bonds - Includes corporate bonds, including those that are privately placed, residential mortgage-backed securities ("RMBS"), asset-backed securities ("ABS") and municipal bonds.

The primary inputs to the valuation for publicly traded corporate bonds and municipal bonds include quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads. Privately placed corporate bonds are valued using a discounted cash flow model that is widely accepted in the financial services industry and uses market observable inputs and inputs derived principally from, or corroborated by, observable market data. The primary inputs to the discounted cash flow model include an interest rate yield curve, as well as published credit spreads for similar assets in markets that are not active that incorporate the credit quality and industry sector of the issuer. The primary inputs to the valuation for RMBS and ABS include quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields, prepayment speeds, collateral performance and credit spreads. Certain ABS are valued based on non-binding broker quotes whose inputs have been corroborated to be market observable.

Unaffiliated common and perpetual preferred stocks - The primary inputs to the valuation include quoted prices or quoted net asset values for identical or similar assets in markets that are not active.

Redeemable preferred stocks - The primary inputs to the valuation include quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields, underlying stock prices and credit spreads.

Derivatives - Free-standing exchange listed derivatives that are not actively traded are valued based on quoted prices for identical instruments in markets that are not active. Over-the-counter derivatives, including foreign currency contracts, total return swap agreements and certain credit default swap agreements, are valued using models that rely on inputs such as interest rate yield curves, implied volatilities, index price levels, currency rates and credit spreads that are observable for substantially the full term of the contract. The valuation techniques underlying the models are widely accepted in the financial services industry and do not involve significant judgment.

Level 3 measurements

Bonds - Includes corporate bonds, including those that are privately placed, bank loans, commercial mortgage-backed securities ("CMBS"), ABS and municipal bonds.

Corporate bonds, including those that are privately placed, and bank loans are valued based on non-binding broker quotes where the inputs have not been corroborated to be market observable. Other inputs include an interest rate yield curve, as well as published credit spreads for similar assets that incorporate credit quality and industry sector of the issuer. CMBS and ABS are valued based on non-binding broker quotes received from brokers where the inputs have not been corroborated to be market observable. For municipal bonds that are not rated by third-party credit rating agencies, but receive an NAIC designation, the primary inputs to the valuation include quoted prices for identical or similar assets in markets that exhibit less liquidity relative to those markets supporting Level 2 fair value measurements, contractual cash flows, benchmark yields and credit spreads. Also included are municipal bonds valued based on non-binding broker quotes where the inputs have not been corroborated to be market observable and municipal bonds in default valued based on the present value of expected cash flows.

Perpetual preferred stocks - The primary inputs to the valuation include non-binding broker quotes where the inputs have not been corroborated to be market observable.

Unaffiliated common stocks - The primary inputs to the valuation include quoted prices or quoted net asset values for identical or similar assets in markets that are less active relative to those markets supporting Level 2 fair value measurements.

5. All information related to derivatives measured and reported at fair value is presented above.

NOTES TO FINANCIAL STATEMENTS

The fair value of bonds in Level 1 is based on unadjusted quoted prices for identical assets in active markets the Company can access. The fair value of publicly traded bonds in Level 2 is based upon quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads. Non-publicly traded bonds in Level 2 are valued using a discounted cash flow model that is widely accepted in the financial services industry and uses market observable inputs and inputs derived principally from, or corroborated by, observable market data. The primary inputs to the discounted cash flow model include an interest rate yield curve, as well as published credit spreads for similar assets in markets that are not active that incorporate the credit quality and industry sector of the issuer. The fair value of municipal bonds in Level 3 not rated by third-party credit rating agencies, but receiving an NAIC designation is based on quoted prices for identical or similar assets in markets that exhibit less liquidity relative to those markets supporting Level 2 fair value measurements, contractual cash flows, benchmark yields and credit spreads. Also included are municipal bonds valued based on non-binding broker quotes where the inputs have not been corroborated to be market observable and municipal bonds in default valued based on the present value of expected cash flows. The fair value of corporate bonds in Level 3 is primarily based on non-binding broker quotes where the inputs have not been corroborated to be market observable. Other inputs for corporate bonds include an interest rate yield curve, as well as published credit spreads for similar assets that incorporate the credit quality and industry sector of the issuer. The fair value of LBASS in Level 2 is primarily based on valuation models utilizing quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields, prepayment speeds, collateral performance and credit spreads to determine fair value. Certain LBASS in Level 2 are valued based on non-binding broker quotes whose inputs have been corroborated to be market observable. The fair value of LBASS in Level 3 is primarily based on non-binding broker quotes where the inputs have not been corroborated to be market observable.

The fair value of preferred stocks in Levels 2 is based on valuation methods described in Part A4 of this note. The fair value of preferred stocks in Level 3 is based on non-binding broker quotes where the inputs have not been corroborated to be market observable. Certain preferred stocks, which do not have readily determinable fair values, and are investments in investment companies are measured utilizing NAV as a practical expedient.

The fair value of unaffiliated common stocks in Level 1 is based on unadjusted quoted prices for identical assets in active markets the Company can access. The fair value of unaffiliated common stocks in Levels 2 and 3 is based on the valuation methods described in Part A4 of this note. Certain unaffiliated private common stocks carried at fair value, which do not have readily determinable fair values, and are investments in investment companies that measure their assets at fair value on a recurring basis, are reported utilizing NAV as a practical expedient and are excluded from the fair value hierarchy.

The fair value of mortgage loans on real estate in Level 3 is based on discounted contractual cash flows or, if the loans are impaired due to credit reasons, the fair value of collateral less costs to sell. Risk adjusted discount rates are selected using current rates at which similar loans would be made to borrowers with similar characteristics, using similar types of properties as collateral.

The fair value of cash equivalents in Level 1 is based on unadjusted quoted prices or daily quoted net asset values for identical assets in active markets the Company can access. The fair value of cash equivalents in Level 2 is based on quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads.

The fair value of short-term investments in Level 1 is based on unadjusted quoted prices for identical assets in active markets the Company can access. The fair value of short-term investments in Level 2 is based on quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads. The fair value of short-term investments in Level 3 is primarily based on non-binding broker quotes where the inputs have not been corroborated to be market observable.

The fair value of free-standing exchange listed derivatives in Level 1 is based on unadjusted quoted prices for identical assets in active markets the Company can access. The fair value of derivatives in Level 2 is based on the valuation methods described in Part A4 of this note.

The fair value of LIHTC property investments in Level 3 is based on amortized cost, using the proportional amortization method, which approximates fair value.

The fair value of unaffiliated surplus notes in Level 2 is based upon quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads. The fair value of affiliated surplus notes and collateral loans in Level 3 is based on discounted cash flow calculations using current interest rates for instruments with comparable terms.

The fair value of reinvested collateral from securities lending in Level 2 is based on carrying value due to its short-term nature.

Financial liabilities

Presented below are the aggregate fair value estimates and statement values of financial instruments as of December 31:

(in millions)	2021						
Type of Financial Instrument	Aggregate Fair Value	Statement Value	(Level 1)	(Level 2)	(Level 3)	NAV	Not Practicable (Carrying Value)
Securities lending collateral	$ 1,423	$ 1,423	$ -	$ 1,423	$ -	$ -	$ -
Derivatives	$ 15	$ 12	$ 3	$ 12	$ -	$ -	$ -

	2020						
Type of Financial Instrument	Aggregate Fair Value	Statement Value	(Level 1)	(Level 2)	(Level 3)	NAV	Not Practicable (Carrying Value)
Securities lending collateral	$ 898	$ 898	$ -	$ 898	$ -	$ -	$ -
Derivatives	$ 35	$ 35	$ -	$ 35	$ -	$ -	$ -

The fair value of the liabilities for collateral related to securities lending in Level 2 is based on carrying value due to its short-term nature.

The fair value of free-standing exchange listed derivatives in Level 1 is based on unadjusted quoted prices for identical assets in active markets the Company can access. The fair value of derivatives in Level 2 is based on the valuation methods described in Part A4 of this note.

D. The Company was able to estimate the fair value of all its financial instruments in 2021 and 2020.

E. Investments in certain common and preferred stocks measured and reported at NAV in the Assets page and presented in the table in Part A1 are generally not redeemable with the issuing corporation and cannot be sold without approval of the managing members. Distributions of income are usually received from the sale of the common stock or the liquidation of the underlying asset or assets of the issuing corporation over the life of these investments, typically 3-7 years. The Company had $25 million of remaining commitments to invest in these investments over their remaining lives.

21. Other Items

A. Unusual or Infrequent Items

The Company did not have unusual or infrequent items as of December 31, 2021.

Due to the significant decline in the number of auto accidents caused by mandated stay-at-home orders, other pandemic containment actions and reduced economic activity from the Novel Coronavirus Pandemic or COVID-19 (“Coronavirus), premium refunds were provided to certain

NOTES TO FINANCIAL STATEMENTS

policyholders. Auto and certain commercial lines customers received a Shelter-in-Place Payback under the terms of a policy endorsement reducing net premiums written and earned by $869 million for the six months ended June 30, 2020.

Additionally, the State of California requested that insurers assess the impact of the Coronavirus and issue premium refunds for passenger auto, motorcycle, various commercial lines of insurance as well as other lines. Net premiums written and earned were reduced by $133 million for the six months ended December 31, 2020.

B. Troubled Debt Restructuring: Debtors – Not applicable.

C. Other Disclosures

Coronavirus

The Coronavirus resulted in governments worldwide enacting emergency measures to combat the spread of the virus, including travel restrictions, government-imposed shelter-in-place orders, quarantine periods, social distancing and restrictions on large gatherings. These measures moderated in 2021 as vaccines have become more widely available in the United States and Canada. There is no way of predicting with certainty how long the pandemic might last. The Company continues to closely monitor and proactively adapt to developments and changing conditions. Currently, it is not possible to reliably estimate the impact to the Company's operations, but the effects have been and could be material.

Acquisition of National General Holdings Corp. ("National General")

On January 4, 2021, the Corporation completed the acquisition of National General, expanding its independent agent channel business. In conjunction with the acquisition, the Company entered into a quota share reinsurance agreement with Integon National Insurance Company ("INIC"), a new affiliate, whereby the Company assumes 100% of the net underwriting liabilities of INIC, effective January 4, 2021. INIC transferred $930 million in assets equal to the policy liabilities to the Company in connection with the quota share agreement.

Novation Endorsements, Quota Share Reinsurance Agreement and Trust Agreement

Following receipt of all regulatory approvals in November 2021, the Company, INIC and National General Re Ltd. ("NG Re") entered into a Novation Endorsement (the "Novation Endorsement") to the Amended & Restated National General Intercompany Quota Share Reinsurance Agreement between INIC and NG Re dated August 1, 2012, as amended (the "NG Re QS Reinsurance Agreement"). Pursuant to the Novation Endorsement, the NG Re QS Reinsurance Agreement was novated and the Company was substituted for INIC as a party to the NG Re QS Reinsurance Agreement effective January 4, 2021.

Following receipt of approval from the North Carolina Department of Insurance on January 6, 2022, the Company, INIC, NG Re, as Grantor, and Bank of New York Mellon, as Trustee, entered into a Novation Endorsement to the Trust Agreement, effective February 4, 2021, whereby the Company replaced INIC as the sole beneficiary under the original trust agreement in connection with the NG Re QS Reinsurance Agreement.

Quota Share Commutation Endorsement

Following receipt of all regulatory approvals in December 2021, the Company and NG Re entered into a Quota Share Commutation Endorsement to the NG Re QS Reinsurance Agreement, effective October 1, 2021, whereby the Company and NG Re commuted the 50% quota share participation of losses incurred prior to January 4, 2021.

Southern California Edison Settlement

On January 22, 2021, Southern California Edition reached a $2.20 billion settlement agreement with insurance companies, resolving subrogation claims arising from the Woolsey Wildfire. The Company was party to the agreement and recognized a net underwriting gain of $115 million, net of expenses, related to the subrogation settlement in the first quarter of 2021, which was reflected as follows in the Statement of Income:

(in millions)	Underwriting Gain/(Loss)
Losses incurred	$ 125
Loss adjustment expense incurred	(10)
Net underwriting gain	$ 115

As of December 31, 2021, the Company had received distributions from the trust representing 90% of its expected recovery.

On September 14, 2020, Southern California Edison reached a $1.16 billion settlement agreement with insurance companies, resolving all insurance subrogation claims arising from the December 2017 Thomas and Koenigstein Wildfires and January 2018 Montecito Mudslides litigation. The Company was party to the agreement and recognized a net underwriting gain of $44 million, net of expenses, related to the subrogation settlement in 2020, which was reflected as follows in the Statement of Income:

(in millions)	Underwriting Gain/(Loss)
Losses incurred	$ 51
Loss adjustment expense incurred	(7)
Net underwriting gain	$ 44

As of December 31, 2021, the Company had received distributions from the trust representing 95% of its expected recovery.

PG&E Corporation and Pacific Gas and Electric Company (together "PG&E") Settlement

On June 20, 2020, the United States Bankruptcy Court for the Northern District of California confirmed PG&E's Chapter 11 Plan of Reorganization. The Plan of Reorganization included an agreement to resolve insurance subrogation claims arising from the 2017 Northern California wildfires and the 2018 Camp Fire for $11 billion. The Company was party to the agreement.

On July 1, 2020, PG&E emerged from Chapter 11 and funded the subrogation trust from which distributions will be made to insurers. Insurers have five years from the effective date of the Plan of Reorganization to submit proof of paid losses to the trust prior to the final distribution.

The Company recognized a net underwriting gain of $444 million, net of expenses and adjustments to reinsurance, related to the subrogation settlement in 2020, which was reflected as follows in the Statement of Income:

(in millions)	Underwriting Gain/(Loss)
Premiums earned	$ 63
Losses incurred	393
Loss adjustment expense incurred	(12)
Net underwriting gain	$ 444

The favorable impact to premiums earned was due to reinstatement premiums returned by reinsurers.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2021, the Company had received distributions from the trust representing 95% of its expected recovery.

Transfer of Investments

During 2018, the Company transferred limited partnership investments with a book/adjusted carrying value of $1.70 billion and cash of $12 million to AIMCO Private Fund II, LLC ("AIMCO II"). Since the transfer of the assets did not meet the conditions of a sale per SSAP No. 103R, *Transfer and Servicing of Financial Assets and Extinguishments of Liabilities,* the assets of AIMCO II, which consisted of limited partnership investments with a book/adjusted carrying value of $2.65 billion, cash equivalents of $96 million and cash of $5 million as of December 31, 2021, will continue to be directly reported in the Company's financial statements.

Other

Included in the Annual Statement is a schedule of net losses and loss expenses unpaid, as reported in Schedule P - Part 1, Columns 13 through 24, for accident years 1996 and prior through 2011, for each line of business reported.

Other expenses reported on Page 3, Line 5, Liabilities, Surplus and Other Funds, included $43 million of reserves related to employee medical and dental plans as of December 31, 2021 and 2020.

D. Business Interruption Insurance Recoveries – Not applicable.

E. State Transferable and Non-transferable Tax Credits – Not applicable.

F. Subprime Mortgage Related Risk Exposure

1. The Company did not have subprime exposure as of December 31, 2021 and 2020.

   The Company owns Alt-A securities, which it does not consider to be a component of its exposure to subprime mortgage related risk. The Alt-A portfolio consists of mortgage-backed securities at fixed or variable rates and includes certain securities that are collateralized by residential mortgage loans issued to borrowers with stronger credit profiles than subprime borrowers, but do not qualify for prime financing terms due to high loan-to-value ratios or limited supporting documentation. There were no unrealized gains or losses on the Company's investment in Alt-A securities as of December 31, 2021. The Company's investment in Alt-A securities and the related net unrealized gains were less than $1 million as of December 31, 2020. Alt-A securities are considered loan-backed, and included in bonds in the Company's Asset page.

   The Company has a comprehensive portfolio monitoring process to identify and evaluate, on a case-by-case basis, investments whose carrying value may be other-than-temporarily impaired. See Note 5, Part D5 for details regarding the Company's portfolio monitoring process. OTTI losses were not recorded in the Alt-A portfolio in 2021 or 2020.

   The Company's practice for acquiring and monitoring Alt-A securities takes into consideration the quality of the originator, quality of the servicer, security credit rating, underlying characteristics of the mortgages, borrower characteristics, level of credit enhancement in the transaction, and bond insurer strength, where applicable. The originators and servicers of the underlying mortgage loans are primarily subsidiaries of large banks and brokers.

2. The Company did not have direct exposure to subprime mortgage loans.

3. The Company did not have direct exposure to other subprime investments as of December 31, 2021 and 2020.

   The actual cost, book/adjusted carrying value and fair value of the Company' Alt-A securities was less than $1 million as of December 31, 2021 and 2020. OTTI losses were not recorded in the Alt-A portfolio in 2021 or 2020.

4. The Company did not sell mortgage guaranty or financial guaranty insurance coverage, and therefore, does not have underwriting exposure to subprime mortgage risk.

G. Insurance-linked Securities ("ILS") Contracts

The Company and certain of its affiliated insurance companies were ceding insurers of seven ILS agreements and five ILS agreements related to directly-written insurance risks as of December 31, 2021 and 2020, respectively.

As of December 31, 2021, ILS placements provide $1.70 billion of reinsurance limits (with $1.40 billion remaining limit available) for qualifying losses in all states except Florida caused by "Named Peril Basis" events with no reinstatement of limits. ILS placements were comprised of $150 million, $400 million (62.5% placed), and $250 million placements providing occurrence only coverage; $500 million, $400 million (75% placed, $0 remaining aggregate limit available), $100 million ($97 million remaining aggregate limit available) placements providing occurrence and aggregate protection; and a placement providing an occurrence limit of $225 million (66.7% placed) and aggregate limit of $500 million (30% placed, available April 1, 2022).

As of December 31, 2020, ILS placements provide $1.43 billion of reinsurance limits for qualifying losses in all states except Florida caused by "Named Peril Basis" events with no reinstatement of limits. ILS placements were comprised of $150 million and $375 million placements providing occurrence only coverage; and $100 million, $400 million (75% placed) and $500 million placements providing occurrence and aggregate protection.

Allstate declared catastrophes to personal lines property and automobile business can be aggregated to erode the aggregate retention and qualify for coverage under the aggregate limit. Recoveries are limited to our ultimate net loss from the reinsured event. Each agreement's contractual limit applies to Allstate and its ceding affiliated property and casualty companies under the agreement as a group, and not separately to each ceding company. There were 42 and 22 ceding affiliated property and casualty companies under the agreement as a group as of December 31, 2021 and 2020, respectively. A ceding company's share of loss recovery under an agreement for a loss occurrence is based on the proportion of the ceding company's ultimate net loss for such loss occurrence to the total ultimate net loss incurred by the Company and its ceding affiliated property and casualty companies for the loss occurrence, and is limited to the ceding company's ultimate net loss. Reinsurance recoveries under the contract are limited to our ultimate net loss from a covered event subject to the contract's limit.

The table below reports all known ILS involvements that would likely be used to satisfy the Company's reinsurance agreements. The term "Aggregate Maximum Proceeds", as listed in the table, represents the aggregate of the contract limits of all of the Company's outstanding ILS contracts. Proceeds of $303 million were expected to be received under the terms of the ILS agreements as of December 31, 2021. Proceeds were not received under the terms of the ILS agreements as of December 31, 2020.

An evaluation of subsequent events was made through February 22, 2022 for the Annual Statement issued on February 24, 2022. There were no significant subsequent events requiring adjustment to or disclosure in the financial statements.

23. Reinsurance

A. Unsecured Reinsurance Recoverables

The Company did not have any unsecured reinsurance recoverables that exceeded 3% of the policyholders surplus as of December 31, 2021. The Company had the following unsecured reinsurance recoverables that exceeded 3% of the Company's policyholders surplus as of December 31, 2020.

($ in millions) Reinsurer	NAIC Group Code	FEIN	Amount
Michigan Catastrophic Claim Association ("MCCA")	0000	AA-9991159	$ 2,629

The MCCA is a statutory indemnification mechanism for member insurers' qualifying personal injury protection claims paid for the unlimited lifetime medical benefits above the applicable retention level for qualifying injuries from automobile, motorcycle and commercial vehicle accidents. The MCCA is funded by annually assessing participating member companies actively writing motor vehicle coverage in Michigan on a per vehicle basis that is currently $86 per vehicle insured. The MCCA's calculation of the annual assessment is based upon the total of members' actuarially determined present value of expected payments on lifetime claims by all persons expected to be catastrophically injured in that year and ultimately qualify for MCCA reimbursement, its operating expenses, and adjustments for the amount of excesses or deficiencies in prior assessments. The MCCA has also included its calculation of the impacts of the auto insurance reforms which have begun to phase in since their passage in June 2019, including the personal injury protection medical fee schedule that became effective July 2, 2021. The assessment is incurred by the Company as policies are written and recovered as a component of premiums from the Company's customers. The MCCA indemnifies qualifying claims of all current and former member companies (whether or not actively writing motor vehicle coverage in Michigan) for qualifying claims and claims expenses incurred while the member companies were actively writing the mandatory personal injury protection coverage in Michigan. Member companies actively writing automobile coverage in Michigan include the MCCA annual assessments in determining the level of premiums to charge insureds in the state. As required for member companies by the MCCA, the Company reports covered paid and unpaid claims to the MCCA when estimates of loss for a reported claim are expected to exceed the retention level, the claims involve certain types of severe injuries, or there are litigation demands received suggesting the claim value exceeds certain thresholds. The retention level is adjusted upward every other MCCA fiscal year by the lesser of 6% or the increase in the Consumer Price Index. The retention level will be $600 thousand per claim for the fiscal two-years ending June 30, 2023 compared to $580 thousand per claim for the fiscal two-years ending June 30, 2021. The MCCA is obligated to fund the ultimate liability of member companies' qualifying claims and claim expenses. The MCCA does not underwrite the insurance coverage or hold any underwriting risk. The MCCA indemnifies members as qualifying claims are paid and billed by members to the MCCA. Unlimited lifetime covered losses result in significant levels of ultimate incurred claim reserves being recorded by member companies along with offsetting indemnification recoverables. Disputes with claimants over coverage on certain reported claims can result in additional losses, which may be recoverable from the MCCA, excluding litigation expenses. There is currently no method by which insurers are able to obtain the benefit of managed care programs to reduce claims costs through the MCCA. The MCCA annual assessments fund current operations and member company reimbursements. The MCCA prepares statutory-basis financial statements in conformity with accounting practices prescribed or permitted by the State of Michigan Department of Insurance and Financial Services ("MI DOI"). The MI DOI has granted the MCCA a statutory permitted practice that expires in June 30, 2022 to discount its liabilities for loss and loss adjustment expense. As of June 30, 2021, the date of its most recent annual financial report, the MCCA had cash and invested assets of $27.26 billion and an accumulated surplus of $5.04 billion. The permitted practice reduced the accumulated deficit by $31.28 billion. As a result of the auto insurance reforms passed in June 2019, the MCCA announced on November 3, 2021 that the surplus had increased beyond a level necessary to safely cover its expected losses and expenses, and will return a portion of its surplus to its member insurance companies as a pass-through to issue a refund of $400 per vehicle and $80 per historical vehicle to the policyholders. At the time the returned surplus is received a liability will be recorded until the refunds are disbursed to the policyholders.

B. Reinsurance Recoverable in Dispute

The Company did not have reinsurance recoverables on paid or unpaid (including incurred but not reported) losses in dispute by reason of notification, arbitration or litigation as of December 31, 2021 or 2020, that either individually exceeded 5% of the Company's policyholders surplus, or in the aggregate exceeded 10% of the Company's policyholders surplus.

C. Reinsurance Assumed and Ceded

1. The maximum amount of return commission which would have been due to reinsurers if they or the Company had canceled all of the Company's reinsurance, or if the Company or reinsurers had canceled all the Company's insurance assumed as of December 31 with the return of unearned premium reserve was as follows:

G. Reinsurance Accounted for as a Deposit

On October 1, 1999, the Company completed the acquisition of the personal lines business from CNA Financial Corporation ("CNA"). The transaction included an indemnity reinsurance agreement and a reserve agreement. The reserve agreement guaranteed the adequacy, in all material respects, of the loss reserves transferred by CNA under the indemnity reinsurance agreement. The Company used deposit accounting to account for the indemnity reinsurance agreement, as the portion of the indemnity reinsurance agreement governing the transfer of the loss reserves did not, despite its form, transfer both components of insurance risk. The inception-to-date payments for this agreement totaled $846 million $845 million as of December 31, 2021 and December 31, 2020. Inception-to-date net adjustments related to the reserve agreement reduced the reserves on deposit by $187 million as of December 31, 2002. The balance of the reserves on deposit was $13 million and $15 million as of December 31, 2021 and December 31, 2020.

I. Certified Reinsurer Rating Downgraded or Status Subject to Revocation

1. The domiciliary state of the Company adopted the Credit for Reinsurance Model Law and Regulation. The Company has entered into reinsurance agreements with certified reinsurers. As of December 31, 2021, none of the certified reinsurers with which the Company transacted business have been downgraded.

2. The Company was not a certified reinsurer in 2021 or 2020.

J. Reinsurance Agreements Qualifying for Reinsurer Aggregation – Not applicable.

24. Retrospectively Rated Contracts and Contracts Subject to Redetermination

A. The Company accrues estimated retrospective premium adjustments related to Your Choice Auto® platinum ("YCA"), Your Choice Home® platinum and gold ("YCH"), Allstate House and Home® Enhanced ("H&H"), Encompass Edge ("EE"), Condo Helix Enhanced ("CH"), and Allstate Blue® policies in eligible states. YCA, YCH, H&H, EE, and CH policies that are claim free during the policy period receive 5% of the premium paid for certain major coverages as a billing credit or refund. Allstate Blue policies offer non-standard auto coverage and contain a loyalty bonus,

NOTES TO FINANCIAL STATEMENTS

in certain states, which rewards eligible policyholders who stay with the Company for a full policy term with a 5% to 10% bonus of premium paid for certain major coverages. The amount of accrued retrospective premium adjustments is determined by analyzing the historical loss experience of these policyholders.

In connection with the Drivewise® program, the Company accrues estimated retrospective premium adjustments related to certain auto policies in eligible states. Drivewise monitors the driving habits of policyholders and provides rewards in the form of premium adjustments to eligible policyholders for certain low risk driving habits.

The Company sells retrospectively rated premium contract related to a car sharing program, Avail® (formerly Drift®). The ultimate premium on these commercial auto policies will be adjusted based on the loss experience over the course of three years. There was no estimated retrospective premium adjustment accrual as of December 31, 2021 or 2020 due to immateriality and limited loss experience.

B. The Company records accrued retrospective premium as an adjustment to written premiums.

C. The amount of net premiums written by the Company in 2021 and 2020 subject to retrospective rating features was $6.09 billion and $5.38 billion, respectively. These amounts represented 16.2% and 16.8% of total net premiums written in 2021 and 2020, respectively.

D. Medical Loss Ratio Rebates – Not applicable.

E. The Company is responsible for the return of premium to YCA, YCH, H&H, EE, CH, Allstate Blue, Drivewise and Avail policyholders. These amounts represent a liability to the Company.

F. Risk-Sharing Provisions of the Affordable Care Act (ACA)

As a result of the acquisition of National General and reinsurance agreements entered into with INIC, the Company assumed balances related to the risk sharing provisions of the ACA in 2021.

25. Changes in Incurred Losses and Loss Adjustment Expenses

A. The Company establishes reserves for losses and loss adjustment expenses on reported and unreported claims of insured losses. The Company's reserving process takes into account known facts and interpretations of circumstances and factors including the Company's experience with similar cases, actual claims paid, historical trends involving claim payment patterns and pending levels of unpaid claims, loss management programs, product mix and contractual terms, changes in law and regulation, judicial decisions, and economic conditions.

When the Company experiences changes in the mix or type of claims or changing claim settlement patterns, it may need to apply actuarial judgment in the determination and selection of development factors to be more reflective of the new trends. For example, the Coronavirus has had a significant impact on driving patterns and auto frequency. Supply chain disruptions have resulted in higher parts costs and used car values which have combined with labor shortages to increase physical damage loss costs while medical inflation, treatment trends and higher levels of attorney representation have increased liability losses. These factors may lead to historical development trends being less predictive of future loss development, potentially creating additional reserve variability.

Generally, the initial reserves for a new accident year are established based on actual claim frequency and severity assumptions for different lines and coverages based on historical relationships to relevant inflation indicators. Reserves for prior accident years are statistically determined using several different actuarial estimation methods. Changes in auto claim frequency may result from changes in mix of business, the rate of distracted driving, miles driven or other macroeconomic factors. Changes in auto current year claim severity are generally influenced by inflation in the medical and auto repair sectors, the effectiveness and efficiency of claim practices and changes in mix of claim types. The Company mitigates these effects through various loss management programs. When such changes in claim data occur, actuarial judgment is used to determine appropriate development factors to establish reserves.

As part of the reserving process, the Company may also supplement its claims processes by utilizing third party adjusters, appraisers, engineers, inspectors, and other professionals and information sources to assess and settle catastrophe and non-catastrophe related claims. The effects of inflation are implicitly considered in the reserving process.

Because reserves are estimates of unpaid portions of losses that have occurred, including incurred but not reported losses, the establishment of appropriate reserves, including reserves for catastrophes, is an inherently uncertain and complex process. The ultimate cost of losses may vary materially from recorded amounts, which are based on management's best estimates.

The highest degree of uncertainty is associated with reserves for losses incurred in the initial reporting period as it contains the greatest proportion of losses that have not been reported or settled. The Company regularly updates its reserve estimates as new information becomes available and as events unfold that may affect the resolution of unsettled claims. Changes in reserve estimates, which may be material, are reflected in the Statement of Income in the period such changes are determined.

NOTES TO FINANCIAL STATEMENTS

Activity in the reserve for losses and loss adjustment expenses was summarized as follows:

(in millions)	2021	2020
Balance as of January 1	$ 17,869	$ 18,055

Paid related to:		
Current year	16,220	13,206
Prior years	7,195	7,273
Total paid	23,415	20,479
Balance as of December 31	$ 20,000	$ 17,869

[1] See "Interdependent Transactions Effective April 1, 2021: Commutation, Division and Merger" in Note 10, Parts A, B & C for details.

As a result of the acquisition of National General and reinsurance agreements entered into with INIC, the Company assumed the associated reserve for losses and loss adjustment expenses effective January 4, 2021. See "Novation Endorsement and Quota Share Reinsurance Agreement" in Note 21, Part C for details.

Incurred losses and loss adjustment expenses represent the sum of paid losses, loss adjustment expenses and reserve changes in the calendar year. This expense included net losses from catastrophes of $2.95 billion and $2.72 billion in 2021 and 2020, respectively. Catastrophes are an inherent risk that have contributed to, and will continue to contribute to, material year-to-year fluctuations in the Company's net income and financial position.

The Company calculates and records a single best reserve estimate for losses from catastrophes, in conformance with generally accepted actuarial standards. As a result, management believes that no other estimate is better than the recorded amount. Due to the uncertainties involved, including the factors described above, the ultimate cost of losses may vary materially from recorded amounts, which are based on management's best estimates. Accordingly, management believes that it is not practical to develop a meaningful range for any such changes in losses incurred.

Incurred losses and loss adjustment expenses attributable to insured events of prior years were $46 million and $(333) million as a result of the reestimation of unpaid losses and loss adjustment expenses for the years ended December 31, 2021 and 2020, respectively. These changes were generally the result of ongoing analyses of recent loss development trends. Initial estimates were revised as additional information regarding claims became known.

Anticipated salvage and subrogation of $1.18 billion and $834 million was included as a reduction of loss reserves as of December 31, 2021 and 2020, respectively.

There were no changes in methodologies and assumptions used in calculating the liability of unpaid losses and loss adjustment expenses for the most recent reporting period presented.

27. Structured Settlements

A. To settle certain claims, the Company purchased annuities from various life insurers where the claimant was the payee but for which the Company was contingently liable in the event the issuer of the annuity was unable to perform. The following table represents the aggregate amount of reserves for which the Company was contingently liable as of December 31:

(in millions)	Loss Reserves Eliminated by Annuities		Unrecorded Loss Contingencies	
	2021	2020	2021	2020
	$ 219	$ 225	$ 219	$ 225

B. There were no amounts due from any life insurer, which equaled or exceeded 1% of the Company's policyholder surplus as of December 31, 2021 or 2020.

28. Health Care Receivables

A. As a result of the acquisition of National General and reinsurance agreements entered into with INIC, the Company assumed pharmaceutical rebate receivables in 2021. Pharmaceutical rebates are the result of negotiating rebates as a form of price concessions paid by pharmaceutical manufacturers via a pharmacy benefit manager working on the plan's behalf. Pharmacy rebates are estimated by first calculating a historical per month ("PEPM") value based on the actual enrollment counts and rebates collected during the previous four quarters. Then, the historical PEPM is multiplied by the actual enrollment counts during the current period to calculate the current period rebate amounts. Rebate receivables in excess of minimum guarantee rebates specified within contracts are non-admitted. The following table provides details of the pharmaceutical rebate receivables for 2021:

($ in millions) Quarter	Estimated Pharmacy Rebates as Report on Financial Statements	Pharmacy Rebates as Billed or Otherwise Confirmed	Actual Rebates Received Within 90 Days of Billing	Actual Rebates Received Within 91 to 180 Days of Billing	Actual Rebates Received More Than 180 Days After Billing

The Company did not report pharmaceutical rebate receivables in 2020.

32. Discounting of Liabilities for Unpaid Losses or Unpaid Loss Adjustment Expenses

The Company did not discount its liabilities for unpaid losses or unpaid loss adjustment expenses as of December 31, 2021 or 2020.

33. Asbestos/Environmental Reserves

A. Does the company have on the books, or has it ever written an insured for which you have identified a potential for the existence of a liability due to asbestos losses? Yes (X) No ( )

The Company continues to receive asbestos and environmental claims. Asbestos claims relate primarily to bodily injuries asserted by people who were exposed to asbestos or products containing asbestos. Environmental claims relate primarily to pollution and related clean-up costs.

The Company's exposure to asbestos and environmental claims arise principally from assumed reinsurance coverage written during the 1960s through the mid-1980s, including reinsurance on primary insurance written on large U.S. companies, and from direct excess commercial insurance written from 1972 through 1985, including substantial excess general liability coverages on large U.S. companies. Additional exposure stems from direct primary commercial insurance written during the 1960s through the mid-1980s.

In 1986, the general liability policy form used by the Company and others in the property and casualty industry was amended to introduce an "absolute pollution exclusion," which excluded coverage for environmental damage claims, and added an asbestos exclusion. Most general

NOTES TO FINANCIAL STATEMENTS

liability policies issued prior to 1987 contain annual aggregate limits for product liability coverage. General liability policies issued in 1987 and thereafter contain annual aggregate limits for product liability coverage and annual aggregate limits for all coverages. The Company's experience to date has been that these policy form changes have limited the extent of its exposure to environmental and asbestos claim risks.

The Company's exposure to liability for asbestos and environmental losses manifests differently depending on whether it arises from assumed reinsurance coverage, direct excess commercial insurance or direct primary commercial insurance. The direct insurance coverage the Company provided for these exposures was substantially "excess" in nature.

Direct excess commercial insurance and reinsurance involve coverage written by the Company for specific layers of protection above retentions and other insurance plans. The nature of excess coverage and reinsurance provided to other insurers limits the Company's exposure to loss to specific layers of protection in excess of policyholder retention on primary insurance plans. The Company's exposure is further limited by the significant reinsurance that was purchased on the direct excess business.

The Company's assumed reinsurance business involved writing generally small participations in other insurers' reinsurance programs. The reinsured losses in which the Company participates may be a proportion of all eligible losses or eligible losses in excess of defined retentions. The majority of the Company's assumed reinsurance exposure, approximately 85%, is for excess of loss coverage, while the remaining 15% is for pro-rata coverage.

The Company's direct primary commercial insurance business did not include coverage to large asbestos manufacturers. This business comprises a cross section of policyholders engaged in many diverse business sectors throughout the country.

The Company conducts an annual review in the third quarter to evaluate, establish and adjust as necessary, asbestos and environmental reserves. Changes to reserves are recorded in the reporting period in which they are determined. Using established industry and actuarial best practices and assuming no change in the regulatory or economic environment, this detailed and comprehensive methodology determines asbestos reserves based on assessments of the characteristics of exposure (e.g. claim activity, potential liability, jurisdiction, products versus non-products exposure) presented by individual policyholders, and determines environmental reserves based on assessments of the characteristics of exposure (e.g. environmental damages, respective shares of liability of potentially responsible parties, appropriateness and cost of remediation) to pollution and related clean-up costs. The number and cost of these claims are affected by advertising by trial lawyers seeking asbestos plaintiffs, and entities with asbestos exposure seeking bankruptcy protection as a result of asbestos liabilities, initially causing a delay in the reporting of claims, often followed by an acceleration and an increase in losses and loss adjustment expenses as settlements occur.

After evaluating insureds' probable liabilities for asbestos and environmental claims, the Company evaluates the insureds' coverage programs for such claims. The Company considers the insureds' total available insurance coverage, including the coverage it issued. The Company also considers relevant judicial interpretations of policy language and applicable coverage defenses or determinations, if any.

Evaluation of both the insureds' estimated liabilities and the Company's exposure to the insureds depends heavily on an analysis of the relevant legal issues and litigation environment. This analysis is conducted by the Company's specialized claims adjusting staff and legal counsel. Based on these evaluations, case reserves are established by claims adjusting staff and actuarial analysis is employed to develop an IBNR reserve, which includes estimated potential reserve development and claims that have occurred but have not been reported.

For both asbestos and environmental reserves, the Company also evaluates its historical direct net loss and loss expense paid and incurred experience to assess any emerging trends, fluctuations or characteristics suggested by the aggregate paid and incurred activity.

Establishing net loss reserves for asbestos and environmental claims is subject to uncertainties that are much greater than those presented by other types of claims. Among the complications are lack of historical data, long reporting delays, uncertainty as to the number and identity of insureds with potential exposure and unresolved legal issues regarding policy coverage; unresolved legal issues regarding the determination, availability and timing of exhaustion of policy limits; plaintiffs' evolving and expanding theories of liability; availability and collectibility of recoveries from reinsurance; retrospectively determined premiums and other contractual agreements; estimates of the extent and timing of any contractual liability; the impact of bankruptcy protection sought by various asbestos producers and other asbestos defendants; and other uncertainties. There are also complex legal issues concerning the interpretation of various insurance policy provisions and whether those losses are covered, or were ever intended to be covered, and could be recoverable through retrospectively determined premium, reinsurance or other contractual agreements. Courts have reached different and sometimes inconsistent conclusions as to when losses are deemed to have occurred and which policies provide coverage; what types of losses are covered; whether there is an insurer obligation to defend; how policy limits are determined; how policy exclusions and conditions are applied and interpreted; and whether clean-up costs represent insured property damage. The Company's reserves for asbestos and environmental exposures could be affected by tort reform, class action litigation, and other potential legislation and judicial decisions. Environmental exposures could also be affected by a change in the existing federal Superfund law and similar state statutes. There can be no assurance that any reform legislation will be enacted or that any such legislation will provide for a fair, effective and cost-efficient system for settlement of asbestos or environmental claims. Management believes these issues are not likely to be resolved in the near future, and the ultimate costs may vary materially from the amounts currently recorded resulting in material changes in loss reserves.

Management believes its net loss reserves for asbestos and environmental exposures are appropriately established based on available facts, technology, laws, regulations, and assessments of other pertinent factors and characteristics of exposure (e.g. claim activity, potential liability, jurisdiction, products versus non-products exposure) presented by individual policyholders, assuming no change in the legal, legislative or economic environment. Due to the uncertainties and factors described above, management believes it is not practicable to develop a meaningful range for any such additional net loss reserves that may be required.

GENERAL INTERROGATORIES

PART 2 - PROPERTY AND CASUALTY INTERROGATORIES

6.1 What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?
THE COMPANY DOES NOT WRITE THIS LINE OF BUSINESS.

6.2 Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process.
THE COMPANY PLACES HEAVY EMPHASIS ON THE USE OF CATASTROPHIC (CAT) SIMULATION MODELING PROVIDED BY A LEADING CAT MODELING VENDOR TO ESTIMATE PROBABLE MAXIMUM LOSS (PML). AN ADVANCED METHODOLOGY IS EMPLOYED TO GENERATE A LARGE SAMPLE OF HYPOTHETICAL BUT POSSIBLE EVENTS, APPLY MODEL DAMAGE EXPECTATIONS AGAINST THE COMPANY'S BOOK OF BUSINESS, AND EVALUATE THE EXISTING POLICY CONDITIONS OF THE POLICIES IN FORCE TO DETERMINE AN ESTIMATE OF TOTAL DAMAGE.

6.3 What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?
UTILIZING A RISK MANAGEMENT METHODOLOGY, THE COMPANY'S ULTIMATE PARENT, THE ALLSTATE CORPORATION (CORPORATION) HAS DESIGNED A REINSURANCE PROGRAM TO ADDRESS EXPOSURE TO CATASTROPHES (CATS) NATIONWIDE. THE PROGRAM IS DESIGNED TO PROVIDE REINSURANCE PROTECTION FOR CATS INCLUDING HURRICANES, WINDSTORMS, HAIL, TORNADOS, FIRES FOLLOWING EARTHQUAKES, EARTHQUAKES, AND WILDFIRES. CONSISTENT WITH THE CORPORATION'S CAT MANAGEMENT STRATEGY, THE PROGRAM IS INTENDED TO PROVIDE AN ACCEPTABLE RETURN ON THE RISKS ASSUMED IN THE PROPERTY BUSINESS. AS OF DECEMBER 31, 2021, THE CORPORATION HAD LESS THAN A 1% LIKELIHOOD OF EXCEEDING ANNUAL AGGREGATE CAT LOSSES BY $2 BILLION, NET OF REINSURANCE, FROM HURRICANES AND EARTHQUAKES, BASED ON MODELED ASSUMPTIONS AND APPLICATIONS CURRENTLY AVAILABLE.

6.4 Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence? Yes [X] No [ ]

6.5 If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge its exposure to unreinsured catastrophic loss.

7.1 Has this reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss ratio cap, an aggregate limit or any similar provisions)? Yes [ ] No [X]

7.2 If yes, indicate the number of reinsurance contracts containing such provisions:

7.3 If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)? Yes [ ] No [ ]

8.1 Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured? Yes [ ] No [X]

8.2 If yes, give full information

9.1 Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:
(a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term;
(b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
(c) Aggregate stop loss reinsurance coverage;
(d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
(e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
(f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity. Yes [ ] No [X]

9.2 Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:
(a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or
(b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract. Yes [ ] No [X]

9.3 If yes to 9.1 or 9.2, please provide the following information in the Reinsurance Summary Supplemental Filing for General Interrogatory 9:
(a) The aggregate financial statement impact gross of all such ceded reinsurance contracts on the balance sheet and statement of income;
(b) A summary of the reinsurance contract terms and indicate whether it applies to the contracts meeting the criteria in 9.1 or 9.2; and
(c) A brief discussion of management's principle objectives in entering into the reinsurance contract including the economic purpose to be achieved.

9.4 Except for transactions meeting the requirements of paragraph 36 of SSAP No. 62R, Property and Casualty Reinsurance, has the reporting entity ceded any risk under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement, and either:
(a) Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP"); or
(b) Accounted for that contract as reinsurance under GAAP and as a deposit under SAP? Yes [ ] No [X]

9.5 If yes to 9.4, explain in the Reinsurance Summary Supplemental Filing for General Interrogatory 9 (Section D) why the contract(s) is treated differently for GAAP and SAP.

9.6 The reporting entity is exempt from the Reinsurance Attestation Supplement under one or more of the following criteria:
(a) The entity does not utilize reinsurance; or, Yes [ ] No [X]
(b) The entity only engages in a 100% quota share contract with an affiliate and the affiliated or lead company has filed an attestation supplement; or Yes [ ] No [X]
(c) The entity has no external cessions and only participates in an intercompany pool and the affiliated or lead company has filed an attestation supplement. Yes [ ] No [X]

10. If the reporting entity has assumed risks from another entity, there should be charged on account of such reinsurances a reserve equal to that which the original entity would have been required to charge had it retained the risks. Has this been done? Yes [X] No [ ] N/A [ ]

GENERAL INTERROGATORIES

PART 2 - PROPERTY AND CASUALTY INTERROGATORIES

11.1 Has the reporting entity guaranteed policies issued by any other entity and now in force? Yes [ ] No [X]

11.2 If yes, give full information

12.1 If the reporting entity recorded accrued retrospective premiums on insurance contracts on Line 15.3 of the asset schedule, Page 2, state the amount of corresponding liabilities recorded for:

12.11 Unpaid losses $

12.12 Unpaid underwriting expenses (including loss adjustment expenses) $

12.2 Of the amount on Line 15.3, Page 2, state the amount which is secured by letters of credit, collateral, and other funds $

12.3 If the reporting entity underwrites commercial insurance risks, such as workers' compensation, are premium notes or promissory notes accepted from its insureds covering unpaid premiums and/or unpaid losses? Yes [ ] No [ ] N/A [ ]

12.4 If yes, provide the range of interest rates charged under such notes during the period covered by this statement:

12.41 From %

12.42 To %

12.5 Are letters of credit or collateral and other funds received from insureds being utilized by the reporting entity to secure premium notes or promissory notes taken by a reporting entity, or to secure any of the reporting entity's reported direct unpaid loss reserves , including unpaid losses under loss deductible features of commercial policies? Yes [X] No [ ]

12.6 If yes, state the amount thereof at December 31 of the current year:

12.61 Letters of credit $ 1,002,387

12.62 Collateral and other funds $ 201,985

13.1 Largest net aggregate amount insured in any one risk (excluding workers' compensation): $ 24,880,220

13.2 Does any reinsurance contract considered in the calculation of this amount include an aggregate limit of recovery without also including a reinstatement provision? Yes [ ] No [X]

SCHEDULE P INTERROGATORIES

1. The following questions relate to yet-to-be-issued Extended Reporting Endorsements (EREs) arising from Death, Disability, or Retirement (DDR) provisions in Medical Professional Liability Claims Made insurance policies. EREs provided for reasons other than DDR are not to be included.

1.1 Does the company issue Medical Professional Liability Claims Made insurance policies that provide tail (also known as an extended reporting endorsement, or "ERE") benefits in the event of Death, Disability, or Retirement (DDR) at a reduced charge or at no additional cost? ..... Yes [ ] No [X]

If the answer to question 1.1 is "no", leave the following questions blank. If the answer to question 1.1 is "yes", please answer the following questions:

1.2 What is the total amount of the reserve for that provision (DDR Reserve), as reported, explicitly or not, elsewhere in this statement (in dollars)? ..... $ .....

1.3 Does the company report any DDR reserve as Unearned Premium Reserve per SSAP #65? ..... Yes [ ] No [ ]

1.4 Does the company report any DDR reserve as loss or loss adjustment expense reserve? ..... Yes [ ] No [ ]

1.5 If the company reports DDR reserve as Unearned Premium Reserve, does that amount match the figure on the Underwriting and Investment Exhibit, Part 1A - Recapitulation of all Premiums (Page 7) Column 2, Lines 11.1 plus 11.2? ..... Yes [ ] No [ ] N/A [ ]

1.6 If the company reports DDR reserve as loss or loss adjustment expense reserve, please complete the following table corresponding to where these reserves are reported in Schedule P:

Years in Which Premiums Were Earned and Losses Were Incurred	DDR Reserve Included in Schedule P, Part 1F, Medical Professional Liability Column 24: Total Net Losses and Expenses Unpaid	
	1 Section 1: Occurrence	2 Section 2: Claims-Made
1.601 Prior		
1.602 2012

1.604 2014		
1.605 2015		
1.606 2016		
1.607 2017		
1.608 2018		
1.609 2019		
1.610 2020		
1.611 2021		
1.612 Totals		

2. The definition of allocated loss adjustment expenses (ALAE) and, therefore, unallocated loss adjustment expenses (ULAE) was changed effective January 1, 1998. This change in definition applies to both paid and unpaid expenses. Are these expenses (now reported as " Defense and Cost Containment" and "Adjusting and Other") reported in compliance with these definitions in this statement? ..... Yes [X] No [ ]

3. The Adjusting and Other expense payments and reserves should be allocated to the years in which the losses were incurred based on the number of claims reported, closed and outstanding in those years. When allocating Adjusting and Other expense between companies in a group or a pool, the Adjusting and Other expense should be allocated in the same percentage used for the loss amounts and the claim counts. For reinsurers, Adjusting and Other expense assumed should be reported according to the reinsurance contract. For Adjusting and Other expense incurred by reinsurers, or in those situations where suitable claim count information is not available, Adjusting and Other expense should be allocated by a reasonable method determined by the company and described in Interrogatory 7, below. Are they so reported in this Statement? ..... Yes [X] No [ ]

4. Do any lines in Schedule P include reserves that are reported gross of any discount to present value of future payments, and that are reported net of such discounts on Page 10? ..... Yes [ ] No [X]

If yes, proper disclosure must be made in the Notes to Financial Statements, as specified in the Instructions. Also, the discounts must be reported in Schedule P - Part 1, Columns 32 and 33. Schedule P must be completed gross of non-tabular discounting. Work papers relating to discount calculations must be available for examination upon request.

Discounting is allowed only if expressly permitted by the state insurance department to which this Annual Statement is being filed.

5. What were the net premiums in force at the end of the year for:

(in thousands of dollars)

5.1 Fidelity 4

5.2 Surety .....

6. Claim count information is reported per claim or per claimant (Indicate which). ..... per claim .....

If not the same in all years, explain in Interrogatory 7.

7.1 The information provided in Schedule P will be used by many persons to estimate the adequacy of the current loss and expense reserves, among other things. Are there any especially significant events, coverage, retention or accounting changes that have occurred that must be considered when making such analyses? ..... Yes [X] No [ ]

7.2 (An extended statement may be attached.)

The Coronavirus pandemic or COVID-19 resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which have included the implementation of travel restrictions, government-imposed shelter-in-place orders, quarantine periods, social distancing, and restrictions on large gatherings which began 2020, and the ongoing adjustments to these measures in 2021, have caused material disruption to businesses globally. The user of Schedule P data should consider the potential impact of these measures, including but not limited to, changes in auto accident frequency, premium refunds and/or rate reductions, and material cost increases in both auto and property.

As described in Notes to the Financial Statements 10 A., B. & C., the Company entered into a partial commutation and Plan of Division. Schedule P parts 2 and 4 for years prior to 2021 were prepared based on an allocation of total historical bulk reserves as recorded for Michigan private passenger auto prior to the Plan of Division. The current year change in the level of incurred losses for Michigan private passenger auto reflects the change to a direct calculation from the allocation method used for periods prior to the division and is offset in Schedule P part 2 and 4 of ASMI. .....
