NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Allstate Insurance Company ("Company") prepares its financial statements in conformity with accounting practices prescribed or permitted by the Illinois Department of Insurance ("IL DOI"). Prescribed statutory accounting practices include a variety of publications of the National Association of Insurance Commissioners ("NAIC"), as well as state laws, regulations and general administrative rules. Permitted statutory accounting practices encompass all accounting practices not so prescribed.

The state of Illinois requires its domestic insurance companies to prepare financial statements in conformity with the NAIC Accounting Practices and Procedures Manual ("APPM"), which includes all Statements of Statutory Accounting Principles ("SSAPs"), subject to any deviations prescribed or permitted by the IL DOI.

At December 31, 2009, no accounting permitted practices were used in preparing the Company's statutory annual statement.

At December 31, 2008, the Company, with IL DOI approval, modified the accounting for deferred income taxes per SSAP No. 10, *Income Taxes* ("SSAP No. 10"). The permitted practice increased the amount of deferred tax assets that could be recognized in statutory surplus to the lesser of deferred taxes that can be realized within three years or 15.0% of adjusted statutory surplus. SSAP No. 10 provided for a one year realization limitation and a surplus limitation of 10.0%. Effective December 31, 2009, SSAP No. 10R, *Income Taxes – Revised, a Temporary Replacement of SSAP No. 10* ("SSAP No. 10R") was adopted to revise the accounting for deferred tax assets similar to the permitted practice. At December 31, 2008, admitted deferred tax assets totaled $1.34 billion after the permitted practice, or 62.7% of total potential net deferred tax assets before non-admission limitations. This permitted practice was deemed a change in accounting principle per SSAP No. 3, *Accounting Changes and Corrections of Errors* ("SSAP No. 3"), and accordingly, the cumulative effect of this change was reported as an adjustment to unassigned funds (surplus) in the period of the change in accounting principle. If the Company had applied SSAP No. 10 guidance without regard to the permitted practice, statutory surplus would have been $225 million lower at December 31, 2008.

Reconciliation of the Company's December 31, 2008 surplus between the APPM and the permitted practice is shown below. The permitted practice had no impact on net income. If the Company had not obtained approval for the permitted practice, a risk-based capital ("RBC") regulatory event would not have been triggered.

(in millions)	
Statutory surplus - Illinois basis	$ 13,021
Deferred tax assets permitted practice impact	(225)
Statutory surplus - APPM	$ 12,796

B. The preparation of financial statements in conformity with accounting practices prescribed or permitted by the IL DOI requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

C. Listed below is a summary of the accounting policies that materially affect the financial statements.

Investments

Investments are stated at values prescribed by the NAIC Securities Valuation Office ("SVO"). Bonds, including bank loans, which are primarily senior secured corporate loans, loan-backed and other structured securities, are stated at amortized cost using the scientific interest method with two exceptions. Bonds with the NAIC designation of 3 through 6 and 5* are carried at the lower of amortized cost or fair value, with the difference reflected in unassigned surplus. 5* means the NAIC designation was assigned by the SVO in reliance on the insurer's certification that the issuer is current in all principal and interest payments. In addition, bonds with the NAIC designation of 6* are carried at zero. A designation of 6* means there was inadequate data for certification of interest and principal payments.

Non-agency residential mortgage-backed securities, which are a type of loan-backed security, utilize a two step valuation and rating process in accordance with SSAP No. 43R, *Loan-backed and Structured Securities* ("SSAP No. 43R"). The first step derives a rating for valuation using the current amortized cost to determine whether the securities are stated at amortized cost or the lower of amortized cost or fair value per the above rules. The second step derives a rating for reporting using the current carrying value as determined in the first step.

Loan-backed securities are defined as pass-through certificates, collateralized mortgage obligations and other securitized loans not included in structured securities, for which the payment of interest and/or principal is directly proportional to the interest and/or principal received by the issuer from the mortgage pool or other underlying securities. Structured securities are defined as loan-backed securities which have been divided into different classes for which the payment of interest and/or principal of any class of securities has been allocated in a manner which is not proportional to the interest and/or principal received. Prepayments are a significant variable element in the cash flow of loan-backed securities as they affect the yield and determine the expected maturity against which the yield is evaluated.

Redeemable preferred stocks are stated at amortized cost or the lower of amortized cost or fair value, depending on the assigned credit rating. Perpetual preferred stocks are carried at fair value or the lower of cost or fair value depending on the assigned credit rating. Unaffiliated common stocks are carried at fair value. For preferred stocks stated at fair value and unaffiliated common stocks, the differences between amortized cost or cost and fair value are recorded as a change in net unrealized capital gains (losses), which is a component of unassigned surplus.

Common stock investments in insurance subsidiaries, controlled, and affiliated ("SCA") entities are based on the underlying statutory equity of the subsidiary and adjusted for unamortized goodwill, if applicable. Common stock investments in non-insurance SCA entities are generally recorded based on the underlying Generally Accepted Accounting Principles ("GAAP") equity of the investee, with unrealized gains or losses reflected in unassigned surplus.

Mortgage loans are carried at outstanding principal balances, net of unamortized premium or discount and book value adjustments. Book value adjustments include derivative hedging adjustments and other-than-temporary impairment ("OTTI") adjustments. Generally, if the fair value of collateral, less the estimated costs to obtain and sell, is less than the outstanding principal balance and the decline is deemed to be other than temporary, an impairment is reflected in the carrying value and included in realized capital losses. If the decline is deemed to be temporary, the adjustment is reflected in a valuation allowance and included in unrealized capital losses.

Investments in real estate are stated at the lower of depreciated cost or fair value less encumbrances. The carrying value of real estate is adjusted for impairments that are other than temporary.

Cash equivalent investments are short-term, highly liquid investments, whose original maturities at the time of acquisition are three months or less. They are both readily convertible into known amounts of cash and so near to their maturity that they present an insignificant risk of change in value because of changes in interest rates.

Short-term investments are carried at cost or amortized cost that approximates fair value and includes the investment of cash collateral received from counterparties related to derivative transactions. The Company records an offsetting liability for the Company's obligation to return collateral or funds received.

Other invested assets include investments in joint ventures, limited partnerships, limited liability companies and surplus notes. Investments in joint ventures, limited partnerships and limited liability companies are generally recorded based on the underlying GAAP equity of the investee, with unrealized capital gains or losses reflected in unassigned surplus. Limited partnerships include low income housing tax credit ("LIHTC") property investments, which qualify as SCA entities in accordance with SSAP No. 97, *Investments in Subsidiary, Controlled and Affiliated Entities, A Replacement of SSAP No. 88* ("SSAP No. 97"). LIHTC property investments are generally recorded at cost and amortized based

NOTES TO FINANCIAL STATEMENTS

on the utilization of tax credits. Surplus notes of affiliates are carried at either their face value or at a reduced face value based on a prescribed statement factor calculation.

Investment income consists primarily of interest and dividends. Interest is recognized on an accrual basis using the effective yield method and dividends are recorded at the ex-dividend date. Interest income for certain loan-backed and structured securities is determined considering estimated principal repayments obtained from third party data sources and internal estimates. Actual prepayment experience is periodically reviewed and effective yields are recalculated when differences arise between the prepayments originally anticipated and the actual prepayments received and currently anticipated. For beneficial interests in securitized financial assets that are not of high credit quality, the effective yield is recalculated on a prospective basis. For all other loan-backed and structured securities the effective yield is recalculated on the retrospective basis. In periods subsequent to the recognition of an OTTI on a bond or mortgage loan, the Company accounts for the impaired asset as if it had been purchased on the measurement date of the impairment. The difference between the new amortized cost basis and the cash flows expected to be collected are accreted as interest income. Accrual of income is suspended for OTTI bonds when the timing and amount of cash flows expected to be received is not reasonably estimable. Accrual of income is suspended for mortgage loans that are in default or when the full and timely collection of principal and interest payments is not probable.

Realized capital gains and losses include gains and losses on investment sales, write-downs in value due to other-than-temporary declines in fair value and periodic changes in the fair value and settlements of certain derivatives. Realized capital gains and losses on investment sales include calls and prepayments and are determined on a specific identification basis.

The Company has a comprehensive portfolio monitoring process to identify and evaluate each security whose carrying value may be OTTI. For bonds, excluding loan-backed and structured securities, in an unrealized loss position, the Company assesses whether management with the appropriate authority has made a decision to sell the security prior to its maturity at an amount below its carrying value. If the decision has been made to sell the security, the security's decline in fair value is deemed other than temporary and the Company recognizes a realized loss equal to the difference between the amortized cost and the fair value of the security at the balance sheet date the assessment is made. If the Company has not made the decision to sell the bond, but the security's decline in value is specific to an issuer's fundamental credit difficulties, the decline is deemed other than temporary and a write-down of the amortized cost to fair value is required.

For loan-backed and structured securities, the Company first assesses whether management with the appropriate authority has made a decision to sell each loan-backed and structured security in an unrealized loss position. If the determination is made to sell a particular loan-backed or structured security in an unrealized loss position, the security's decline in fair value is deemed other than temporary and recognized in realized capital losses. If management has not made the decision to sell the loan-backed or structured security, then an evaluation of whether there is the intent and ability to retain the security for a period of time sufficient to recover amortized cost is required. If management does not have the intent and ability to retain the loan-backed and structured security for the time sufficient to recover the amortized cost basis, an OTTI shall be considered to have occurred. If management intends to hold the security, an evaluation of whether the entire amortized cost is expected to be recovered is needed. To determine if the amortized cost will be recovered, the present value of cash flows expected to be collected, discounted at the security's effective interest rate, is compared to amortized cost. When the present value of the discounted cash flows expected to be collected is less than the amortized cost, the security is considered to be OTTI and a realized capital loss is recognized for the difference between the amortized cost and the discounted present value of cash flows expected to be collected.

For common and preferred stocks, the Company considers various factors, including whether the Company has the intent and ability to hold the stock for a period of time sufficient to recover its cost basis. Where the Company lacks the intent and ability to hold to recovery, or believes the recovery period is extended, the stock's decline in fair value is considered other than temporary and the difference between the stock's cost and fair value is recognized as a realized loss. A decision to sell a security for an amount below its cost value would be considered an other-than-temporary decline and a realized loss recorded. For stocks managed by a third party, the Company has contractually retained its decision making authority as it pertains to selling stocks that are in an unrealized loss position.

The portfolio monitoring process includes a quarterly review of all securities through a screening process which identifies instances where the fair value compared to the amortized cost for bonds, including loan-backed and structured securities, and cost for stocks is below established thresholds, and also includes the monitoring of other criteria such as ratings and payment defaults. The securities identified, in addition to other securities for which the Company may have a concern, are evaluated for potential OTTI using all reasonably available information relevant to the collectibility or recovery of the security. Inherent in the Company's evaluation of OTTI for these securities are assumptions and estimates about the financial condition of the issue or issuer and its future earnings potential. Some of the factors considered in evaluating whether a decline in fair value is other than temporary include: 1) the length of time and extent to which the fair value has been less than amortized cost for bonds or cost for stocks; 2) the financial condition and near-term and long-term prospects of the issue or issuer, including relevant industry specific market conditions and trends, geographic location and implications of rating agency actions and offering prices; and 3) the specific reasons that a security is in a significant unrealized loss position, including overall market conditions which could affect liquidity.

Derivative financial instruments

Derivative financial instruments used by the Company include option contracts (including swaption agreements), swap agreements, futures contracts and foreign currency forward contracts. When derivatives meet specific criteria, they may be designated as accounting hedges, which means they may be accounted for and reported on in a manner that is consistent with the hedged asset or liability. Derivatives that are not designated as accounting hedges are accounted for on a fair value basis, with changes in fair value recorded as unrealized gains or losses in unassigned surplus.

Off-balance sheet financial instruments

Commitments to invest have off-balance sheet risk because their contractual amounts are not recorded in the Company's Assets or Liabilities, Surplus and Other Funds pages of the Annual Statement.

Premium revenue

Premiums are deferred and earned on a pro-rata basis over the policy period. The portion of premiums written applicable to the unexpired periods of the policies is recorded as unearned premiums. Premiums received in advance of the policies' effective dates are recorded as advance premiums.

Premiums written and not yet collected and agents' balances are shown as a receivable, with balances older than 90 days nonadmitted. The Company regularly evaluates this receivable and establishes valuation allowances, as appropriate, for items less than 90 days.

Reserves for losses and loss adjustment expenses

Reserves for losses and loss adjustment expenses are the estimated amounts necessary to settle both reported and unreported claims for the ultimate cost of insured losses, based upon the facts in each case and the Company's experience with similar cases. Estimated amounts of salvage and subrogation are deducted from the reserves for losses and loss adjustment expenses. The establishment of appropriate reserves, including reserves for catastrophes, is an inherently uncertain and complex process. Reserve estimates are regularly reviewed and updated using the most current information available. Any resulting reestimates are reflected in the current Statement of Income.

Reinsurance

In the normal course of business, the Company seeks to limit aggregate and single exposure to losses on large risks by purchasing reinsurance. The dollars reported in the Assets page as amounts recoverable from reinsurers include amounts billed to reinsurers for losses and loss adjustment expenses paid, as well as estimates of amounts expected to be recovered from reinsurers on losses and loss adjustment expense reserves that have not yet been paid. Reserves are reported net of unpaid reinsurance recoverables. Reinsurance recoverables on

NOTES TO FINANCIAL STATEMENTS

unpaid losses are estimated based upon assumptions consistent with those used in establishing the liabilities related to the underlying reinsured contract. Reinsurance premiums are generally reflected in income in a manner consistent with the recognition of premiums on the reinsured contracts. For catastrophe coverage, the cost of reinsurance premiums is earned ratably over the contract period to the extent coverage remains available. Reinsurance does not extinguish the Company's primary liability under the policies written. The Company regularly evaluates whether a provision for reinsurance is needed by evaluating the admissibility, collectibility and collateralization of reinsurers' balances in accordance with the APPM. A provision for reinsurance is established, as appropriate, and reported as a liability.

Income taxes

The income tax provision is calculated under the liability method. Deferred tax assets and liabilities are recorded based on the difference between the statutory financial statement and tax bases of assets and liabilities at the enacted tax rates. The principal assets giving rise to such differences were unearned premiums, investments, nonadmitted assets, insurance reserves, discounted loss reserves and additional minimum pension liability. Deferred income taxes also arise from net unrealized capital gains and losses on common stocks, limited partnerships and impaired bonds carried at fair value. The net change in deferred tax assets and liabilities is applied directly to unassigned surplus. The nonadmitted portion of a gross deferred tax asset is determined by applying the rules prescribed by SSAP No. 10R.

2. Accounting Changes and Corrections of Errors

For year-end December 31, 2009, the Company prepared its financial statement pursuant to SSAP No. 10R. The Company elected to admit a higher amount of adjusted gross deferred tax assets as calculated in paragraph 10e of the SSAP. The change in accounting principle resulted in an impact of $206 million relating to an increased amount of admitted assets and statutory surplus. As required, this impact was included in the Aggregate write-ins for special surplus funds (Page 3, Line 27) and Aggregate write-ins for gains and losses in surplus (Page 4, Line 37).

In 2009, the Company adopted SSAP No. 43R, accounted for this change as a change in accounting principle per SSAP No. 3, and recorded an adjustment to cumulative effect of changes in accounting principles. The adjustment recognizes the effect of initially applying the new guidance for determining an OTTI on loan-backed and structured securities that were still held at September 30, 2009, for which an OTTI was recognized in accordance with the prior accounting guidance provided under SSAP No. 43, *Loan-backed and Structured Securities* ("SSAP No. 43") on the same securities held on July 1, 2009. The impact of this change at December 31, 2009 was reported as a cumulative effect of changes in accounting principles and decreased surplus by $12 million, net of tax of $6 million. The initial adoption of SSAP No. 43R also decreased total assets by $12 million. The initial adoption of SSAP No. 43R did not impact net income or total liabilities of the Company in 2009. The current year change in accounting principle had no impact on the December 31, 2008 financial statement balances. At December 31, 2008, the Company determined if its loan-backed and structured securities were OTTI using the guidance set forth in SSAP No. 43, which did not include calculating the present value of cash flows expected to be collected and comparing it to amortized cost.

3. Business Combinations and Goodwill

A. Statutory Purchase Method

Encompass Insurance Company of America ("EICA"), Encompass Property and Casualty Company ("EPC"), Encompass Independent Insurance Company ("EIIC"), Encompass Insurance Company of Massachusetts ("EICMA") and Encompass Home and Auto Insurance Company ("EHAIC")

On October 1, 2005, Encompass Financial Group, LLC ("Encompass"), a subsidiary dissolved into the Company in December 2006, purchased all the outstanding common stock of EICA, EPC, EIIC, EICMA and EHAIC for $60 million from Continental Casualty Company ("CCC"). The Company paid consideration in 1999 for the option to acquire these insurance companies from CCC at a future date. This consideration was recorded as an intangible asset on the Company's books. In conjunction with the purchase of these five companies, the $8 million balance of intangible asset at October 1, 2005 was reclassed to goodwill and included in common stock investments. The purchase price, which included $55 million of cash, cash equivalents and short-term investments acquired, goodwill recorded by Encompass and the goodwill amortized in 2009 and 2008 by the Company is presented in the table below:

(in thousands)

Company Acquired	Purchase Price	Goodwill	Goodwill Amortized 2009	Goodwill Amortized 2008
EICA	$ 28,655	$ 6,475	$ 648	$ 486
EPC	14,423	900	90	68

Northbrook Indemnity Company ("NIC")

On January 1, 2000, the Company purchased all the outstanding common stock of NIC for $26 million from St. Paul Fire & Marine Insurance Company. The transaction was accounted for using the statutory purchase method. At the purchase date, goodwill of $429 thousand was recorded. In 2009 and 2008, the Company recognized goodwill amortization related to this acquisition of $43 thousand each year.

Encompass Insurance Company ("EIC")

On July 2, 2001, Encompass Holdings LLC ("Encompass LLC"), a former subsidiary of NIC, purchased all the outstanding common stock of EIC, formerly known as USF&G Business Insurance Company for $12 million from Fidelity and Guaranty Company. At the purchase date, goodwill of $2 million was recorded and evaluated annually by Encompass LLC for impairment per the applicable GAAP guidance. Effective December 31, 2003, Encompass LLC was dissolved and its assets, including its investment in EIC and the related goodwill, were transferred to NIC. In 2004, NIC began amortizing the goodwill. On December 31, 2006, NIC paid an extraordinary stock dividend of all the common shares of EIC, including the related unamortized goodwill of $1 million, to its parent, Encompass. Subsequently, on December 31, 2006, Encompass was dissolved and its assets, including its investment in EIC and the related unamortized goodwill, were transferred to the Company. In 2009 and 2008, the Company recognized goodwill amortization related to this acquisition of $237 thousand each year.

B. Statutory Merger

The Company did not participate in business combinations taking the form of a statutory merger in 2009 or 2008.

C. Impairment Loss

The Company did not recognize an impairment loss on the transactions described above in 2009 or 2008.

4. Discontinued Operations

The Company did not have discontinued operations in 2009 or 2008.

12. Mortgage loans are impaired when it is probable the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement. Interest income for impaired loans is recognized on an accrual basis if payments are expected to continue to be received. Accrual of income is suspended for mortgage loans that are in default or when full and timely collection of principal and interest payments is not probable.

B. Debt Restructuring

1. The total recorded investment in troubled debt restructurings was $38 million and $24 million at December 31, 2009 and 2008, respectively. The Company did not have investments in troubled loan restructurings at December 31, 2009 or 2008.

2. The Company realized capital losses of $3 million related to troubled debt restructurings in 2009. The Company did not realize capital losses related to troubled debt restructurings in 2008. There were no capital losses realized related to troubled loan restructurings in 2009 or 2008.

3. The Company did not enter into contractual commitments to lend additional funds to debtors owning receivables whose terms were modified in troubled debt or troubled loan restructurings.

4. Accrual of income is suspended for OTTI bonds when the timing and amount of cash flows expected to be received is not reasonably estimable. Interest income for impaired mortgage loans is recognized on an accrual basis if payments are expected to continue to be received. Accrual of income is suspended for mortgage loans that are in default or when full and timely collection of principal and interest payments is not probable.

C. Reverse Mortgages

The Company did not enter into reverse mortgages in 2009 or 2008.

D. Loan-Backed Securities

1. Prepayment assumptions for loan-backed and structured securities were obtained from broker/dealers and internal estimates.

2. When the fair value of a loan-backed or structured security is less than the amortized cost, the Company is required to assess if the impairment is other than temporary. For the year ended December 31, 2009, the Company recognized $67 million of losses on loan-backed and structured securities that were considered to be OTTI due to the discounted present value of the cash flows expected to be collected on each of these securities being less than their amortized cost. The amortized cost of these loan-backed and structured securities after OTTI adjustments was $319 million. The assessment of whether a loan-backed or structured security was OTTI at December 31, 2009 was made in accordance with the guidance of SSAP No. 43R.

For the year ended December 31, 2008, the Company recognized $43 million of OTTI losses on loan-backed and structured securities due to the book value of each of these securities being less than their undiscounted estimated cash flows. The amortized cost of these loan-backed and structured securities after OTTI adjustments was $119 million. The assessment of whether a loan-backed or structured security was OTTI at December 31, 2008 was made in accordance with the guidance of SSAP No. 43.

Total quarter		$ 238	(27)	$ 211	$ 112
Year ended December 31, 2009			$ (67)		

At December 31, 2008, the Company determined if its loan-backed and structured securities were OTTI using the guidance set forth in SSAP No. 43, which did not include calculating the present value of cash flows expected to be collected and comparing it to amortized cost.

4. The following tables provide the aggregate fair value and unrealized losses for all impaired loan-backed and structured securities as of December 31 for which an OTTI has not been recognized in earnings as a realized loss by the length of time the individual securities have been in a continuous unrealized loss position.

NOTES TO FINANCIAL STATEMENTS

(in millions)	2009		2008	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Less than or equal to 12 months	$ 415	$ (13)	$ 338	$ (130)
More than 12 months	1,350	(513)	1,090	(512)
Total	$ 1,765	$ (526)	$ 1,428	$ (642)

The aging of unrealized losses, and therefore the time period category of aging, as of December 31, 2009 was reset to the historical point of impairment for securities impacted by the adoption of SSAP No. 43R. December 31, 2008 balances were not restated.

5. See Note 1, Part C – Investments for the portfolio monitoring process for loan-backed and structured securities.

E. Repurchase Agreements and/or Securities Lending Transactions

2. The Company did not pledge its assets as collateral in repurchase agreement or securities lending transactions in 2009 or 2008.

3. At December 31, 2009 and 2008, the Company did not hold collateral that it had accepted from third parties related to repurchase agreements or securities lending transactions.

F. Real Estate

1. The Company did not recognize impairment losses related to its real estate investments in 2009 or 2008.

2. A portion of the Company's West Plaza property in Northbrook, Illinois was acquired via public condemnation action for road improvements. A loss of $34 thousand was recorded as a net realized loss in the Statement of Income related to this transaction. The Company did not sell any real estate investments in 2008. None of the Company's real estate investments were held for sale at December 31, 2009 or 2008.

3. There were no properties held for sale at December 31, 2009. During 2008, the Company entered into an agreement to sell a South Barrington, Illinois office building ("South Barrington") to a third party. However, the buyer was unable to secure financing and the agreement was terminated. The Company reclassified South Barrington from properties held for sale to properties occupied by the company at December 31, 2008. The Company recorded $4 million of depreciation in 2008 related to the period South Barrington was held for sale.

4. The Company did not engage in retail land sales operations in 2009 or 2008.

5. The Company did not hold real estate with participating mortgage loan features in 2009 or 2008.

G. LIHTC Property Investments

2. Except for normal ongoing compliance monitoring, none of the Company's LIHTC property investments were subject to regulatory review at December 31, 2009 or 2008.

3. The Company's LIHTC property investments did not exceed 10% of total admitted assets at December 31, 2009 or 2008.

4. The Company did not recognize OTTI losses for its LIHTC property investments in 2009 or 2008.

5. In 2009 and 2008, the Company did not write-down or reclassify LIHTC property investments.

6. Joint Ventures, Partnerships and Limited Liability Companies

A. The Company did not have investments in joint ventures, partnerships or limited liability companies that exceeded 10% of its admitted assets at December 31, 2009 or 2008.

B. The Company recognized impairment write-downs totaling $139 million on thirty-four partnership investments and one limited liability company investment in 2009. Impairment write-downs of $129 million were recognized on twenty-six partnerships deemed to be OTTI due to the length of time and extent to which fair values of their underlying investments were depressed. Impairment write-downs of $6 million were recognized on seven partnerships that were nearing liquidation and the Company believes it to be unlikely those partnerships will recover their carrying values. In addition, an impairment write-down of $1 million was recognized on a partnership whose investments experienced impairments during the second half of 2009 that impacted the potential recovery of the partnership's carrying value. The fair value of these thirty-four partnerships was determined by assessing the market value of the investments that the partnerships were holding. There was also an impairment write-down of $3 million recognized on a limited liability company with significant exposure to the real estate market. The fair value of this investment was determined by performing an updated cash flow analysis.

The Company recognized impairment write-downs of $39 million on eleven partnership investments in 2008. An impairment write-down of $12 million was recognized on an underperforming partnership that acquired investments in medium and small sized companies. In addition, impairment write-downs of $12 million were recognized on five partnerships deemed to be OTTI due to the length of time and extent to which fair values of their underlying investments were depressed. Impairment write-downs of $9 million were recognized on four partnerships that were nearing liquidation and the Company believes it to be unlikely it will recover its carrying value of those partnership investments. The fair value of these ten partnerships was determined by assessing the market value of the investments that the partnerships were holding. There was also an impairment write-down of $6 million recognized on a partnership which experienced a large decrease in its intangible assets. The fair value of this partnership was determined by performing an updated cash flow analysis.

All impairment write-downs were identified during the Company's normal ongoing portfolio monitoring process.

In addition, due and accrued investment income that is determined to be uncollectible, regardless of its age, is written off in the period that determination is made.

B. All due and accrued investment income was admitted at December 31, 2009 and 2008.

NOTES TO FINANCIAL STATEMENTS

8. Derivative Instruments

A. Derivative financial instruments utilized by the Company during 2009 and 2008 included equity index option contracts, call and put option contracts on specific equities, options on U.S. Treasury futures, equity collars, swaption agreements, interest rate, credit default and commodity index excess return swap agreements, foreign currency forward contracts and futures contracts.

Index option contracts provide returns at specified or optional dates based on a specified equity index applied to the option's notional amount. Call and put option contracts are publicly traded option contracts on specific equities. Options on U.S. Treasury futures give the holder the right, but not the obligation, to enter into U.S. Treasury futures contracts at a future date. They can be exercised on any business day prior to expiration. Collars are a combination of purchased put option contracts and written call option contracts. Swaption agreements give the holder the right, but not the obligation, to enter into an interest rate swap agreement at a future date. Interest rate swap agreements are agreements that periodically exchange the difference between two designated sets of cash flows, (fixed to variable rate, variable to fixed rate, or variable to variable rate) based upon designated market rates or rate indices and a notional amount. Credit default swap agreements are used for either buying credit protection or selling credit protection on a specified entity, basket of entities or index. Buying credit protection requires a payment of a premium to a counterparty in exchange for a future cash settlement or a promise to deliver a bond, if a specified credit event occurs. Selling credit protection provides for the receipt of a premium from a counterparty in exchange for a future cash settlement, or a promise to purchase a bond, if a specified credit event occurs. Commodity index excess return swap agreements involve the payment of a fixed amount in exchange for the receipt of an excess return on the Goldman Sachs Commodity Index or Dow Jones AIG Commodity Index. Foreign currency forward contracts involve the future exchange or delivery of foreign currencies based on terms negotiated at the inception of the contract which are settled at the end of the contract. The Company utilizes the following types of futures contracts: domestic and global index, commodities and interest rate. Futures contracts are defined as commitments to buy or sell designated financial instruments based on specified prices, yields or indexes. These futures contracts provide returns at specified or optional dates based upon a specified index or interest rate applied to a notional amount.

Market risk is the risk that the Company will incur losses due to adverse changes in market rates and prices. Market risk exists for all of the derivative financial instruments the Company currently holds, as these instruments may become less valuable due to adverse changes in market conditions. To limit this risk, the Company's senior management has established risk control limits. In addition, changes in the fair value of the derivative financial instruments that the Company uses for risk management purposes are generally offset by the change in the fair value or cash flows of the hedged risk component of the related assets, liabilities or forecasted transaction.

The Company manages its exposure to credit risk by utilizing highly rated counterparties, establishing risk control limits, executing legally enforceable master netting agreements and obtaining collateral where appropriate. The Company uses master netting agreements for over-the-counter derivative transactions, including interest rate and credit default swap agreements, swaption agreements and certain option contracts. These agreements permit either party to net payments due for transactions covered by the agreements. Under the provisions of the agreements, collateral is either pledged or obtained when certain predetermined exposure limits are exceeded. The Company has not incurred any losses on derivative financial instruments due to counterparty nonperformance. Other derivatives, including futures and certain option contracts, are traded on organized exchanges, which require margin deposits and guarantee the execution of trades, thereby mitigating any potential credit risk associated with transactions executed on organized exchanges.

Counterparty credit exposure represents the Company's potential loss if all counterparties concurrently fail to perform under the terms of the contracts and all collateral, if any, becomes worthless. This exposure is measured by the carrying/statement value of over-the-counter contracts with a positive carrying/statement value at the reporting date reduced by the effect, if any, of legally enforceable master netting agreements.

The cash requirements of the derivatives vary by instrument. When the Company purchases/sells option contracts at specific prices, it is required to pay/receive a premium to/from the counterparties. The amount of premium paid/received is based on the number of contracts purchased/sold, the specified price and the maturity date of the contract. The Company receives/pays cash equal to the premium of written/purchased options when the contract is established. If the option is exercised, the Company receives/pays cash equal to the specified price in the contract (strike price) in exchange for the equity upon which the option is written/purchased. If the options are not exercised, then no additional cash is exchanged when the contract expires. Swaption agreements typically require a premium paid to the counterparty at the inception of a contract. Cash settlements for swap agreements usually occur at dates specified in individual agreements. The amount of cash exchanged is equal to the difference between the rate in the contract at which the Company receives cash compared to the rate at which the Company is to pay cash. Foreign currency forward contracts require cash settlements when the contract matures. The amount of cash exchanged is based on the difference between the specified rate on the date the contract was entered into (contract rate) compared to the actual rate on the settlement date. If the contract rate is less than the actual rate on the settlement date, the Company receives cash equal to the difference in rates multiplied by a specified notional amount. If the contract rate is greater than the actual rate on the settlement date, the Company pays cash equal to the difference in the rates multiplied by a specified notional amount. Daily cash settlement of variation margins is required for futures contracts and is based on the changes in daily prices. The final settlement of interest rate, commodity, and equity futures contracts and index option contracts is typically in cash, but can also occur through delivery of an underlying instrument (e.g. specified bond or stock). The final settlement of indexed futures contracts is always in cash.

B. The Company primarily uses derivative financial instruments to reduce its exposure to market risk (principally interest rate and equity price) and to replicate assets in conjunction with asset-liability management.

Purchased put and call option contracts on specific equities and index option contracts allow the Company to participate in increases or hedge against decreases in the underlying market price of equities while limiting downside risk to the premium paid. Purchased put option contracts on specific equities and index option contracts allow the Company to limit potential losses on equities owned in exchange for a premium received. Written option contracts used for income generation provide limited protection against declines in the underlying market price of equities owned by the Company. Put option contracts on U.S. Treasury futures are used to hedge against increasing interest rates. Swaption agreements are primarily used to hedge interest rate risk. The Company primarily uses interest rate swap agreements to change the interest rate characteristics of existing assets to facilitate asset-liability management. The Company enters into certain credit default swap agreements as a means to buy protection, reducing the credit risk in a particular bond or bond portfolio while leaving the security or bond portfolio intact. The Company enters into other credit default swap agreements as replication transactions, enabling greater diversification of credit risk by selling protection on specified entities, or baskets of entities that may not be frequent issuers in the traditional corporate bond market and by selling protection on indices also as a less expensive alternative to the cash market. Excess return swap agreements and commodities futures contracts are used to allow the Company to participate in asset classes that offer diversification benefits within the Company's existing portfolio. Foreign currency forward contracts are utilized to substantially eliminate currency risk exposure arising from investments in foreign currency denominated investments. The Company primarily utilizes index and interest rate futures contracts to reduce the duration of its bonds, manage equity risk in its equity portfolio and to reduce interest rate and equity risk associated with certain deferred compensation liability contracts. These futures contracts hedge the changes in fair value of certain assets or liabilities. The Company enters into equity futures contracts as replication transactions, increasing the Company's equity exposure.

C. The notional amounts specified in the contracts are used to calculate the exchange of contractual payments under the agreements and are generally not representative of the potential for gain or loss on these agreements. However, the notional amounts specified in selling protection credit default swap agreements represent the maximum amount of potential loss, assuming no recoveries.

Purchased put and call option contracts on specific equities, index option contracts and options on U.S. Treasury futures are reported on Schedule DB, Part A and receive non-hedge accounting treatment. Premiums paid on purchased option contracts are reported as aggregate write-ins for invested assets. The change in the fair value of purchased option contracts is reported as net unrealized capital gains and losses, within unassigned surplus, with an adjustment to a corresponding asset. If the purchased call option contract on a specific stock is exercised, the carrying amount of the purchased option will be reclassified as a basis adjustment to the cost of the stock acquired. If the purchased put option contract on a specific stock is exercised, the carrying amount of the purchased put option contract will be reported as a realized capital

NOTES TO FINANCIAL STATEMENTS

gain, separate from the disposition accounting for the stock. If the purchased option contract expires without being exercised, the premiums paid are reported as realized capital losses and the corresponding asset previously recorded is reversed.

Swaption agreements are also reported on Schedule DB, Part A and receive non-hedge accounting treatment. Premiums paid on swaption agreements are reported as aggregate write-ins for invested assets. The change in the fair value of open swaption agreements is reported as net unrealized capital gains and losses, within unassigned surplus, with an adjustment to the aggregate write-ins for invested assets. If a swaption agreement terminates prior to its expiration, or if it expires, gains or losses are reported in net realized capital gains or losses.

Written option contracts are reported on Schedule DB, Part B and receive non-hedge accounting treatment. Premiums received on written option contracts are reported as a liability. The change in the fair value of written option contracts is reported as net unrealized capital gains and losses, within unassigned surplus, with an adjustment to a corresponding liability. If the written option contract is exercised by the counterparty, the remaining premium will adjust the proceeds associated with the exercise, resulting in no explicit gain or loss for the derivative itself. If the written option contract expires without being exercised, the premiums received are reported as realized capital gains and the corresponding liability previously reported is reversed.

Interest rate, credit default and excess return swap agreements are reported in Schedule DB, Part C, and if used for replication purposes, Schedule DB, Part F. Interest rate and credit default swap agreements used for buying protection receive non-hedge accounting treatment, and the change in the fair value of open swap agreements are reported as net unrealized capital gains and losses within unassigned surplus. Credit default and excess return swap agreements entered into as replication transactions are valued at amortized cost. Periodic settlements, which represent amounts receivable from/payable to the counterparties are based on the settlement terms within the agreement, and reported as a component of net investment income for credit default swap agreements and realized capital gains or losses for interest rate and excess return swap agreements.

Equity collars are also reported on Schedule DB, Part C and receive non-hedge accounting treatment. The initial premiums paid/received represents the original cost basis of the collar that will then be carried at fair value and classified as aggregate write-ins for invested assets and aggregate write-ins for liabilities. The change in the fair value of collars is reported as unrealized gains and losses, within unassigned surplus. Net cash received or paid when an option is exercised or terminated is reported in realized capital gains or losses.

Foreign currency forward contracts are also reported in Schedule DB, Part C, and receive non-hedge accounting treatment. The change in the fair value of open foreign currency forward contracts is reported as net unrealized capital gains and losses, within unassigned surplus, until closed (e.g. terminated or settled). If the contract was hedging coupon payments of a bond, any gains and losses at closing are reported in net investment income. If the contract was hedging the original principal of a bond or the bond the Company was hedging is disposed of, any gains and losses at closing are reported in realized capital gains or losses.

Futures contracts are reported in Schedule DB, Part D and receive either fair value hedge accounting or non-hedge accounting treatment, depending on the strategy. Equity futures contracts entered into as replication transactions are also reported in Schedule DB, Part F. Daily cash settlements of margin gains or losses for futures contracts receiving fair value hedge accounting treatment are reported in net investment income. The daily cash settlements of margin gains and losses for futures contracts that receive non-hedge accounting treatment and have terminated are reported in net realized capital gains or losses. The daily cash settlements of margin gains and losses for open futures contracts that receive non-hedge accounting treatment are reported as net unrealized capital gains and losses within unassigned surplus.

D. The Company did not have gains or losses in net unrealized capital gains or losses that represented a component of any derivatives' gain or loss that was excluded from the assessment of hedge effectiveness in 2009 or 2008.

E. The Company did not have gains or losses in net unrealized capital gains or losses that resulted from derivatives that no longer qualify for hedge accounting treatment in 2009 or 2008.

F. The Company did not have derivatives accounted for as cash flow hedges of a forecasted transaction.

9. Income Taxes

The application of SSAP No. 10R requires the Company to evaluate the recoverability of deferred tax assets and to establish a valuation allowance if necessary to reduce the deferred tax asset to an amount which is more likely than not to be realized. Considerable judgment is required in determining whether a valuation allowance is necessary, and if so, the amount of such valuation allowance. In evaluating the need for a valuation allowance the Company considers many factors, including: (1) the nature of the deferred tax assets and liabilities; (2) whether they are ordinary or capital; (3) the timing of their reversal; (4) taxable income in prior carryback years as well as projected taxable earnings exclusive of reversing temporary differences and carryforwards; (5) the length of time that carryovers can be utilized; (6) unique tax rules that would impact the utilization of the deferred tax assets; and (7) any tax planning strategies that the Company would employ to avoid a tax benefit from expiring unused. Although the realization is not assured, management believes it is more likely than not that the deferred tax assets, net of the valuation allowance, will be realized. The total deferred tax valuation allowance was $256 million at December 31, 2009.

2. The Company joins the Corporation and its domestic subsidiaries in the filing of a consolidated federal income tax return. The consolidated group has elected under IRC Section 1552(a)(2) to allocate the consolidated federal income tax liability based on each entity's federal income tax liability computed on a separate return basis, except all tax benefits resulting from operating losses and tax credits are allocated to the Company to the extent they can be utilized in the consolidated return. In years when the consolidated tax return results in an alternative minimum tax liability, the regular tax is allocated first as described above, and the excess of the alternative minimum tax over the regular tax is allocated to the members whose tax posture gave rise to the alternative minimum tax.

10. Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

A.,
B. &
C. The following transactions were entered into by the Company with related parties in 2009 and 2008 that involved more than ½ of 1% of the Company's admitted assets. Activity resulting from reinsurance agreements, insurance contracts or cost allocation transactions in accordance with intercompany agreement provisions was excluded.

Transactions with Allstate Insurance Holdings, LLC ("AIH")

On September 30, 2009, the Company recorded contributed capital of $607 million from its parent, AIH, as a result of the forgiveness of a postretirement benefit plan liability. See Note 12 for additional information.

On April 1, 2009, the Company received a capital contribution of all of the outstanding shares, including common stocks of $7.5 million and paid in surplus of $15 million, of North Light Specialty Insurance Company ("NLSIC") from AIH.

On March 31, 2009, the Company received a cash capital contribution of $248 million from AIH.

Transactions with the Corporation

On June 16, 2009, the Company borrowed $750 million from the Corporation under the Amended and Restated Intercompany Liquidity Agreement with interest accrued at the 30-day commercial paper rate which resets on the first of every month. The loan was repaid in full on December 1, 2009 along with interest expense of $2 million.

On December 31, 2008, all of the issued and outstanding shares of common stock of the Company were transferred by the Corporation to its direct, wholly-owned subsidiary, AIH.

On October 28, 2008, the Company received a capital contribution in securities with a fair value of $1.00 billion from the Corporation.

The Company paid a total of $3.40 billion of dividends on common stock to the Corporation in 2008. The details of the dividend payments are disclosed in Note 13, Part 4.

Transactions with Allstate Life Insurance Company ("ALIC")

On December 17, 2009, the Company made a capital contribution in securities with a fair value of $443 million plus accrued interest of $5 million to its subsidiary, ALIC.

On March 31, 2009, the Company made a cash capital contribution of $250 million to ALIC.

On December 29, 2008, the Company canceled and forgave the principal amount of the $400 million surplus note issued on August 29, 2008 by ALIC to the Company, and converted the $400 million to a capital contribution to ALIC.

On November 17, 2008, the Company purchased, in cash, another $400 million surplus note from ALIC. In accordance with the APPM, interest is not recorded in the financial statements as an accrual until approval from the IL DOI is granted. No interest was accrued or received from ALIC in 2009 or 2008. In the event of the liquidation of ALIC, the payment of claims under this surplus note is subordinate and junior in right of payment to the prior payment in full of all policy obligations and all other liabilities of ALIC other than any indebtedness that is subordinate to, or ranks at equal standing with, these surplus notes, but prior to the distribution of assets to shareholders.

On September 10, 2008, the Company sold certain invested assets with a fair value of $938 million plus accrued interest of $6 million to ALIC for $944 million in cash.

In June 2008, the Company made a capital contribution of $350 million to ALIC. The contribution consisted of securities with a fair value of $343 million which was paid on June 27 and cash of $7 million which was paid on June 30. On November 13, 2008, the Company made an additional cash capital contribution of $600 million to ALIC.

Other

On August 15, 2008, the Company and nine of its subsidiaries signed a Consent Order to resolve a contested administrative complaint filed by the Florida Office of Insurance Regulation in February 2008. The settlement terms included a provision whereby the Company would cancel and forgive the principal and related interest payment obligations associated with the $175 million surplus note issued by its subsidiary, Castle Key Insurance Company ("CKIC"), to the Company on September 30, 2004. The Company converted the $175 million principal amount of the surplus note to a capital contribution to CKIC.

Net intercompany balances less than $1 million and those equal to or greater than $1 million are generally settled quarterly and monthly, respectively, with two exceptions. Net intercompany balances with AFS are settled monthly regardless of dollar amount. In addition, net intercompany balances with the Corporation related to profit sharing the Corporation grants to the Company’s employees are settled annually.

E. The Company purchased structured settlement annuities, a type of immediate annuity, at prices determined based on interest rates in effect at the time of purchase, to fund structured settlements from ALIC and its subsidiary, ALNY. Prior to July 1, 2001, these annuities were issued to Allstate Settlement Corporation (“ASC”), a subsidiary of ALIC. Most of the structured settlements issued to ASC were under a “qualified assignment”, meaning these entities assumed the Company’s obligation to make future payments.

The Company also issued surety bonds to guarantee the payment of structured settlement benefits assumed by ASC (from both the Company and non-related parties) and funded by certain annuity contracts issued by ALIC and ALNY. ASC entered into a General Indemnity Agreement pursuant to which it indemnified the Company for any liabilities associated with the surety bonds and provided certain collateral security rights with respect to the annuities and certain other rights in the event of default covered by the surety bonds. Reserves recorded by ALIC and ALNY for annuities that are guaranteed by the surety bonds were $5.00 billion and $5.10 billion at December 31, 2009 and 2008, respectively.

In addition, the Company and ALIC entered into a Capital Support Agreement effective December 14, 2007. Under the terms of this agreement, the Company agrees to provide capital and surplus to ALIC in order for ALIC to maintain a company action level RBC ratio of at least 150%. The Company’s obligation to provide capital and surplus to ALIC is limited to an aggregate amount of $1.00 billion, for which ALIC pays the Company an annual commitment fee of 1% of the amount of the capital and surplus maximum, as defined in the agreement. At December 31, 2009 or 2008, no capital had been provided by the Company under this agreement.

F. The Company, ALIC and the Corporation are parties to a one-year Amended and Restated Intercompany Liquidity Agreement. The purpose of the agreement is to allow for short-term advances of funds to be made between parties for liquidity and other general corporate purposes, but does not establish a commitment to advance funds. The Company and ALIC each serve as a lender and borrower, with the maximum amount of advances made or received limited to $1.00 billion.

The Company, the Corporation and certain of its affiliated insurance companies are parties to an Amended and Restated Service and Expense Agreement (the "Agreement") pursuant to which the Company furnishes a variety of services. The Agreement provides for cost sharing and allocation of operating expenses among the parties.

The Company is a party to an Investment Management Agreement with AILLC whereby AILLC provides investment management services and advice.

There is a Reimbursement Agreement with the Corporation under which the Corporation sponsors certain benefit and compensation plans.

The Company entered into an intercompany loan agreement with the Corporation. The amount available to the Company is at the discretion of the Corporation, however, the maximum amount of loans the Corporation can have outstanding to all eligible subsidiaries at any given point in time is limited to $1.00 billion. From time to time, the Company borrows money from the Corporation to meet its short-term cash needs. At December 31, 2009 and 2008, the Company did not have outstanding intercompany loans with the Corporation.

The Company is a party to a federal income tax allocation agreement with the Corporation (see Note 9, Part F).

G. The Company is a wholly-owned subsidiary of AIH, a Delaware limited liability company. AIH is a wholly-owned subsidiary of the Corporation.

H. At both December 31, 2009 and 2008, the Company owned 37,471 common shares of the Corporation with a cost of $1 million. The entire amount of the investment was reported as a nonadmitted asset.

I. The Company did not have investments in SCA entities that exceeded 10% of the Company’s December 31, 2009 or 2008 admitted assets.

NOTES TO FINANCIAL STATEMENTS

J. The Company recognized $42 thousand and $14 million of impairment write-downs related to SCA entities at December 31, 2009 and 2008, respectively. In 2009, an impairment write-down was recognized on a partnership that is nearing liquidation and the Company believes it is unlikely it will recover the partnership's carrying value. In 2008, the impairment write-downs were related to two SCA entities. First, an impairment write-down of $12 million was recognized on an underperforming partnership that acquires investments in medium and small sized companies. Another impairment write-down of $2 million was also recognized in 2008 on a partnership that was nearing liquidation and the Company believes it is unlikely it will recover the partnership's carrying value. The fair value of all the SCA entities written down in 2009 and 2008 was determined by assessing the fair value of the investments these partnerships were holding. All the SCA entities written down in 2009 and 2008 were also part of the disclosure in Note 6, Part B.

K. The Company did not have investments in foreign insurance subsidiaries that were calculated by adjusting annuity GAAP account value reserves using the Commissioners Annuity Reserve Valuation Method and the related actuarial guidelines at December 31, 2009 or 2008.

L. At December 31, 2009, the Company did not utilize the look-through approach in valuing its investments in downstream non-insurance holding companies. The Company's investment in Domus Investment Holdings, LLC ("Domus"), which had utilized the look-through approach to determine its carrying value of $3 million at December 31, 2008, was written down to zero using the Company's OTTI process in 2009.

Domus is a holding company whose financial statements are not audited. Domus' only asset is its investment in Realogy Corporation ("Realogy"). Realogy prepares audited financial statements in conformity with GAAP. In 2008, the Company limited its investment in Domus to the value contained in Realogy's audited financial statements and made adjustments as required by SSAP No. 97. All liabilities, commitments, contingencies, guarantees and obligations of Domus, which are required to be recorded under applicable accounting guidance, are reflected in the Company's determination of the December 31, 2008 carrying value of Domus.

11. Debt

A. The Company did not have capital notes or debt outstanding at December 31, 2009 or 2008.

B. The Company did not have funding agreements or borrowing arrangements with the Federal Home Loan Bank at December 31, 2009 or 2008.

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

Defined benefit pension plans cover most full-time employees, certain part-time employees and employee-agents. Benefits under the pension plans are based upon the employee's length of service and eligible annual compensation. A cash balance formula was added to the Allstate Retirement Plan effective January 1, 2003. All eligible employees hired before August 1, 2002 were provided with a one-time opportunity to choose between the cash balance formula and the final average pay formula. The cash balance formula applies to all eligible employees hired after August 1, 2002.

The Company also provides certain health care subsidies for eligible claim employees hired before January 1, 2003 when they retire and their eligible dependents and life insurance for eligible claim employees hired before January 1, 2003 when they retire ("postretirement benefits"). These qualified employees may become eligible for these benefits if they retire in accordance with the Company's established retirement policy and are continuously insured under the Company's group plans or other approved plans in accordance with the plans' participation requirements. The Company shares the cost of retiree medical benefits with non Medicare-eligible retirees based on years of service, with the Company's share being subject to a 5% limit on annual medical cost inflation after retirement. During 2009, the Company decided to change its approach for delivering benefits to Medicare-eligible retirees. The Company will no longer offer medical benefits for Medicare-eligible retirees but instead provides a fixed company contribution (based on years of service and other factors), which is not subject to adjustments for inflation.

The Company reserved the right to modify or terminate its benefit plans at any time and for any reason.

Effective September 30, 2009, the Corporation became the sponsor of certain postretirement benefit plans. The Company remained the sponsor for the postretirement benefit plans for claim employees. Prior to September 30, 2009, the Company was the exclusive sponsor. In connection with the change in sponsorship, a liability totaling $607 million was forgiven. The forgiveness of this liability was recorded as an increase in gross paid in and contributed surplus. See Note 10, Parts A, B & C.

The Company calculates its benefit obligations based upon generally accepted actuarial methodologies using the projected benefit obligation ("PBO") for pension plans and the accumulated postretirement benefit obligation ("APBO") for other postretirement plans. Pension costs and other postretirement obligations at December 31, 2009 and 2008 were determined using a December 31 measurement date. The benefit obligations represent the actuarial present value of all benefits attributed to employee service rendered as of the measurement date. The PBO is measured using the pension benefit formula and assumptions as to future compensation levels. The plan's funded status is calculated as the difference between the benefit obligation and the fair value of plan assets. The Company's funding policy for the pension plans is to make annual contributions at a level that is in accordance with regulations under the IRC and generally accepted actuarial principles. The Company's postretirement benefit plans are not funded.

A reconciliation of the plans' funded status to amounts recognized in Liabilities, Surplus and Other Funds at December 31 was as follows:

	Pension Benefits		Postretirement Benefits	
(in millions)	**2009**	**2008**	**2009**	**2008**
Fair value of plan assets	$ 3,848	$ 3,195	$ -	$ -
Benefit obligation	4,965	4,317	120	528
Funded status	(1,117)	(1,122)	(120)	(528)
Amounts not recognized:				
Unamortized prior service cost	-	(1)	(25)	33
Unamortized transition (asset) obligation	(130)	(125)	2	61
Unamortized net actuarial loss (gain)	2,563	2,158	(97)	(380)
Net amount recognized	$ 1,316	$ 910	$ (240)	$ (814)
Prepaid benefit cost	$ -	$ -	$ -	$ -
Accrued benefit cost	(410)	(510)	(240)	(814)
Intangible asset	59	65	-	-
Minimum pension liability	1,667	1,355	-	-
Net amount recognized	$ 1,316	$ 910	$ (240)	$ (814)

The increase of $405 million in the unrecognized net actuarial pension benefit loss during 2009 was related to a decrease in the discount rate, partially offset by higher than expected returns. The majority of the $2.56 billion and $2.16 billion of unrecognized net actuarial pension benefit losses in 2009 and 2008, respectively, reflected the effect of unfavorable equity market conditions on the value of the pension plan assets in prior years, and to a lesser extent, decreases in the discount rate. The Company amortizes its excess unrecognized net actuarial losses over the average remaining service period of active employees expected to receive benefits. The decrease of $283 million in the unrecognized net actuarial postretirement benefit gain during 2009 was primarily related to the change in sponsorship of the Company's postretirement benefit plans for non-claim employees and a decrease in the discount rate.

The accumulated benefit obligation ("ABO") for all defined benefit pension plans was $4.26 billion and $3.71 billion at December 31, 2009 and 2008, respectively. The ABO is the actuarial present value of all benefits attributed by the pension benefit formula to employee service rendered at the measurement date. However, it differs from the PBO due to the exclusion of an assumption as to future compensation levels. A minimum

NOTES TO FINANCIAL STATEMENTS

pension liability is recognized when the ABO exceeds the fair value of plan assets. The minimum pension liability, less allowable intangible assets, was $1.67 billion and $1.36 billion, at December 31, 2009 and 2008, respectively, and was reported as an adjustment to unassigned surplus.

The PBO, ABO and fair value of plan assets for the Company's pension plans with an ABO in excess of plan assets were $4.97 billion, $4.26 billion and $3.85 billion, respectively, at December 31, 2009, and $4.32 billion, $3.71 billion and $3.20 billion, respectively, at December 31, 2008. Included in the accrued benefit cost of the pension benefits were certain unfunded non-qualified plans with accrued benefit costs of $106 million and $139 million for 2009 and 2008, respectively.

The changes in benefit obligations for all plans for the years ended December 31 were as follows:

	Pension Benefits		Postretirement Benefits	
(in millions)	2009	2008	2009	2008
Benefit obligation, beginning of year	$ 4,317	$ 4,678	$ 528	$ 610
Service cost	128	146	20	25
Interest cost	314	296	30	39
Participant contributions	-	-	38	38
Actuarial (gain) loss	544	(458)	42	(110)
Benefits paid	(333)	(353)	(68)	(74)
Plan amendments	-	14	(145)	-
Plan transfer due to change in sponsorship	-	-	(325)	-
Other	(5)	(6)	-	-
Benefit obligation, end of year	$ 4,965	$ 4,317	$ 120	$ 528

The PBO and ABO for non-vested pension participants were $8 million and $5 million, respectively, at December 31, 2009. The PBO and ABO for non-vested pension participants were $6 million and $4 million, respectively, at December 31, 2008. The postretirement benefit obligation for non-vested employees was $94 million and $183 million at December 31, 2009 and 2008, respectively.

The components of net periodic cost for all plans for the years ended December 31 were as follows:

	Pension Benefits		Postretirement Benefits	
(in millions)	2009	2008	2009	2008
Service cost	$ 128	$ 146	$ 20	$ 25
Interest cost	314	296	30	39
Expected return on plan assets	(384)	(381)	-	-
Amortization of:				
Unrecognized transition obligation	5	5	11	16
Unrecognized net actuarial (gain) loss	-	-	(15)	-
Prior service cost	(1)	(3)	-	2
Unrecognized prior period (gain) loss	23	54	-	(13)
Settlement loss	19	40	-	-
Net periodic cost	$ 104	$ 157	$ 46	$ 69

Weighted average assumptions used to determine net pension cost and net postretirement benefit cost for the years ended December 31 were:

	Pension Benefits		Postretirement Benefits	
	2009	2008	2009	2008
Weighted average discount rate	7.50 %	6.50 %	6.50 %	6.75 %
Rate of increase in compensation levels	4.00 - 4.50	4.00 - 4.50	n/a	n/a
Expected long-term rate of return on plan assets	8.50	8.50	n/a	n/a

Weighted average assumptions used to determine benefit obligations at December 31 are listed in the following table. Assumptions were based on a December 31 measurement date.

	Pension Benefits		Postretirement Benefits	
	2009	2008	2009	2008
Weighted average discount rate	6.25 %	7.50 %	6.25 %	7.75 %
Rate of increase in compensation levels	4.00 - 4.50	4.00 - 4.50	n/a	n/a

The weighted average health care trend rate used in measuring the APBO was 7.50% for 2010, gradually declining to 5.0% in 2015, and remaining level thereafter.

Assumed health care cost trend rates have a significant effect on the amounts reported for the postretirement health care plans. A one percentage-point increase in assumed health care cost trend rates would increase the total of the service and interest cost components of net periodic benefit cost of other postretirement benefits and the APBO by $2 million and $1 million, respectively. A one percentage-point decrease in assumed health care cost trend rates would decrease the total of the service and interest cost components of net periodic benefit cost of other postretirement benefits and the APBO by $2 million and $1 million, respectively.

The pension plans target percentage of plan assets at 2009 and the actual percentage of plan assets, by asset category at December 31 were as follows:

	Target Percentage of Plan Assets	Percentage of Plan Assets	
Asset Category	2009	2009	2008
U.S. equity securities	31 %	27 %	24 %
U.S. government fixed income securities	20	20	23
International equity securities	15	11	10
Hedge funds	11	9	11
Other fixed income securities	9	17	16
Real estate funds	7	3	4
Private equity funds	4	4	4
Short-term investments	1	9	8
Other	2	-	-
Total	100 %	100 %	100 %

The expected long-term rate of return on plan assets reflects the average rate of earnings expected on plan assets. This assumption is reviewed annually giving consideration to appropriate financial data including, but not limited to, the plan asset allocation, the period over which benefits will

NOTES TO FINANCIAL STATEMENTS

be paid, historical returns on plan assets and other relevant market data. A consistent method was used to determine the long-term return on plan assets assumption at both December 31, 2009 and 2008 of 8.50%. At the 2009 measurement date, the arithmetic average of the annual actual return on plan assets for the most recent 10 and 5 years was 3.66% and 5.63%, respectively.

Pension plan assets did not include any of the Corporation's stock at December 31, 2009 or 2008.

The change in pension plan assets for the years ended December 31 was as follows:

(in millions)	2009	2008
Fair value of plan assets, beginning of year	$ 3,195	$ 4,667
Actual return on plan assets	482	(1,248)
Employer contributions	511	135
Benefits paid	(333)	(353)
Other	(7)	(6)
Fair value of plan assets, end of year	$ 3,848	$ 3,195

There was no minimum funding requirement under the IRC for the tax qualified pension plans at December 31, 2009. The Company currently plans to contribute $294 million to its pension plans in 2010. This plan may be amended or terminated at any time.

The Company contributed $30 million and $36 million to the postretirement benefit plans in 2009 and 2008, respectively. Contributions by participants were $38 million in both 2009 and 2008.

Estimated future benefit payments expected to be paid in the next 10 years, based on the assumptions used to measure the Company's benefit obligation at December 31, 2009, are presented in the following table. Effective January 1, 2010, the Company will no longer participate in the Retiree Drug Subsidy program due to the change in the Company's retiree medical plan for Medicare-eligible retirees.

2015 - 2019	2,197	61
Total benefit payments	$ 3,696	$ 119

Employees of the Company are eligible to become members of The Allstate 401(K) Savings Plan. The Company's contributions are based on the Company's matching obligations and certain performance measures. The cost allocated to the Company for this benefit was $62 million and $36 million in 2009 and 2008, respectively.

13. Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations

1. The Company had 42,000 common shares authorized, issued and outstanding at December 31, 2009 and 2008. All shares had a par value of $100 per share.

2. The Company did not have preferred stock outstanding at December 31, 2009 or 2008.

3. The ability of the Company to pay dividends is generally dependent on business conditions, income, cash requirements of the Company, receipt of dividends and other relevant factors. More specifically, the Illinois Insurance Code ("Code") provides a two-step process. First, no dividend may be declared or paid except out of earned (unassigned) surplus, as distinguished from contributed surplus, nor when the payment of a dividend reduces surplus below the minimum amount required by the Code. Secondly, a determination of the ordinary versus extraordinary dividends that can be paid is formula based and considers net income and capital and surplus, as well as the timing and amounts of dividends paid in the preceding twelve months as specified by the Code. Ordinary dividends to shareholders do not require prior approval of the IL DOI. Dividends are not cumulative. At December 31, 2009, the maximum ordinary dividend that can be declared and paid was limited to $1.50 billion.

4. The Company did not pay dividends in 2009. The following cash dividends were paid to the Corporation in 2008:

(in millions) Date of Payment	Type of Dividends	Amount
February 1	Ordinary	$ 400
March 17	Ordinary	300
April 2	Ordinary	300
May 14	Ordinary	400
June 2	Ordinary	500
August 19	Ordinary	750
September 11	Ordinary	750
Total		$ 3,400

5. Within the limitations of Part 3 above, there were no restrictions placed on the portion of the Company's profits that may be paid as ordinary dividends to stockholders.

6. The unassigned funds, which are held for the benefit of the shareholder, are unrestricted except by requirement for regulatory approval as described in Part 3 above.

7. The Company is not a mutual or similarly organized company, and therefore, this disclosure requirement does not apply.

8. The Company did not hold stock for special purposes at December 31, 2009 or 2008.

9. The balance in the special surplus funds is comprised of two components at December 31, 2009. The first component relates to the completion of the Company's sale of its United States based reinsurance operations for policies written after 1984 to SCOR U.S. Corporation ("SCOR") in September 1996. The transaction consisted of the sale of certain non-insurance assets, liabilities and renewal rights and a reinsurance transaction for the insurance liabilities. The Company followed the APPM for the treatment of retroactive contracts and reported the gain on the sale as a "write-in" adjustment to special surplus from retroactive reinsurance account of $24 million and $27 million at December 31, 2009 and 2008, respectively. The decrease in the special surplus funds balance was due to lower reported reserves by a non-novated cedant and a corresponding decrease in incurred but not reported ("IBNR") reserves. The second component of the balance of the special surplus funds, which was $206 million at December 31, 2009, relates to the Company's election to admit a higher amount of adjusted gross deferred tax assets as calculated in paragraph 10e of SSAP No. 10R. The balance of the special surplus funds was $230 million and $27 million at December 31, 2009 and 2008, respectively.

NOTES TO FINANCIAL STATEMENTS

10. Cumulative unrealized gains and losses reduced unassigned funds by $510 million and $336 million at December 31, 2009 and 2008, respectively.

11. The Company did not have surplus notes or similar obligations outstanding at December 31, 2009 or 2008.

12. The Company did not have restatements due to quasi-reorganizations in 2009 or 2008.

13. The Company was not quasi-reorganized.

14. Contingencies

A. Contingent Commitments

The Company made the following contingent commitments with external parties.

Commitments to acquire financial interests or make capital contributions

The Company made commitments to invest in limited partnerships interests of $631 million and $806 million at December 31, 2009 and 2008, respectively. These commitments are generally for making additional capital contributions or acquiring financial interests.

California Earthquake Authority ("CEA")

Exposure to certain potential losses from earthquakes in California is limited by the Company's participation in the CEA, which provides insurance for California earthquake losses. The CEA is a privately-financed, publicly-managed state agency created to provide insurance coverage for earthquake damage. Insurers selling homeowners insurance in California are required to offer earthquake insurance to their customers either through their company or by participation in the CEA. The Company's homeowners policies continue to include coverages for losses caused by explosions, theft, glass breakage and fires following an earthquake, which are not underwritten by the CEA.

At December 31, 2009, the CEA's capital balance was approximately $3.42 billion. Should losses arising from an earthquake cause a deficit in the CEA, additional funding would be obtained from the proceeds of revenue bonds the CEA may issue, an existing $3.10 billion reinsurance layer, and finally, if needed, assessments on participating insurance companies. The authority of the CEA to assess participating insurers extends through December 31, 2018. Participating insurers are required to pay an assessment, currently estimated not to exceed $1.47 billion, if the capital of the CEA falls below $350 million. Participating insurers are required to pay a second additional assessment, currently estimated not to exceed $1.30 billion, if aggregate CEA earthquake losses exceed $9.60 billion and the capital of the CEA falls below $350 million. Within the limits previously described, the assessment could be intended to restore the CEA's capital to a level of $350 million. There is no provision that allows insurers to recover assessments through premium surcharge or other mechanism. The CEA's projected aggregate claim paying capacity is $9.60 billion as of December 31, 2009 and if an event were to result in claims greater than its capacity, affected policyholders would be paid a prorated portion of their covered losses.

All future assessments on participating CEA insurers are based on their CEA insurance market share as of December 31 of the preceeding year. As of December 31, 2008, the Company's share of the CEA was 18.7%. The Company does not expect its CEA market share to materially change. At this level, the Company's maximum possible CEA assessment would be $517 million during 2010. Accordingly, assessments from the CEA for a particular quarter or annual period may be material to income and cash flows, but not the financial position of the Company. Management believes the Company's exposure to earthquake losses in California has been significantly reduced as a result of its participation in the CEA.

Shared markets

As a condition of maintaining its licenses to write personal property and casualty insurance in various states, the Company is required to participate in assigned risk plans, reinsurance facilities and joint underwriting associations that provide various types of insurance coverage to individuals or entities that otherwise are unable to purchase such coverage from private insurers. Underwriting results related to these arrangements, which tend to be adverse, were immaterial to the Statement of Income.

Guarantees

The Company provides residual value guarantees on Company leased automobiles. If all outstanding leases were terminated effective December 31, 2009, the Company's maximum obligation pursuant to these guarantees, assuming the automobiles have no residual value, would be $11 million at December 31, 2009. If all outstanding leases were terminated effective December 31, 2008, the Company's maximum obligation pursuant to these guarantees, assuming the automobiles have no residual value, would be $17 million at December 31, 2008. The remaining term of each residual value guarantee is equal to the term of the underlying lease, which ranges from less than one year to three years. Historically, the Company has not made any material payments pursuant to these guarantees.

At December 31, 2008, the Company owned certain bonds under which it was obligated to exchange credit risk or to forfeit principal due, depending on the nature or occurrence of specified credit events for the referenced entities. In the event all such specified credit events were to occur, the Company's maximum amount at risk on these bonds, as measured by the amount of the aggregate initial investment was $303 thousand. The Company no longer held these bonds at December 31, 2009.

PMI Runoff Support Agreement

The Company has certain limited rights and obligations under a capital support agreement ("Runoff Support Agreement") with PMI Mortgage Insurance Company ("PMI"), the primary operating subsidiary of The PMI Group, related to the Company's disposition of PMI in prior years. Under the Runoff Support Agreement, the Company would be required to pay claims on PMI policies written prior to October 28, 1994, if PMI fails certain financial covenants and fails to pay such claims. The agreement only covers these policies and not any policies issued on or after that date. In the event any amounts are so paid, the Company would receive a commensurate amount of preferred stock or subordinated debt of PMI Group or PMI. The Runoff Support Agreement also restricts PMI's ability to write new business and pay dividends under certain circumstances. Management does not believe this agreement will have a material adverse effect on the net income, liquidity or financial position of the Company.

B. Assessments

Guaranty funds

Under state insurance guaranty fund laws, insurers doing business in a state can be assessed, up to prescribed limits, for certain obligations of insolvent insurance companies to policyholders and claimants. Amounts assessed to each insurer are typically related to its proportion of business written in each state. The Company's policy is to accrue a guaranty fund assessment when the entity for which the insolvency relates has met its state of domicile's statutory definition of insolvent and the amount of loss is reasonably estimable. In most states the definition is met with a declaration of financial insolvency by a court of competent jurisdiction. In certain states there must also be a final order of liquidation. At December 31, 2009 and 2008, the Company had accrued $93 million and $112 million, respectively, for future guaranty fund assessments and $6 million and $16 million, respectively, for the related premium tax offset expected to be realized. The period over which assessments are expected to be paid varies. Premium tax offsets are realized on a straight-line basis over the period allowed by each individual state once the guaranty fund assessment has been paid.

NOTES TO FINANCIAL STATEMENTS

State facilities

The Company is also subject to assessments from the Louisiana Citizens Property Insurance Corporation ("LA Citizens"). LA Citizens can levy a regular assessment on participating companies for a deficit in any calendar year up to a maximum of the greater of 10.0% of the calendar year deficit or 10.0% of Louisiana direct property premiums industry-wide for the prior calendar year.

Facilities such as LA Citizens are generally designed so that the ultimate cost is borne by policyholders, however, the exposure to assessments and the availability of recoupments or premium rate increases from the facility may not offset each other in the Company's financial statements. Moreover, even if they do offset each other, they may not offset each other in financial statements for the same fiscal period due to the ultimate timing of the assessments and recoupments or premium rate increases, as well as the possibility of policies not being renewed in subsequent years.

C. Gain Contingencies

The Company has not recognized gain contingencies subsequent to December 31, 2009, but prior to the issuance of the Company's Annual Statutory Statement.

D. Claims Related Extra Contractual Obligation and Bad Faith Losses Stemming From Lawsuits

In 2009, the Company incurred direct losses of $5 thousand on one claim related to an extra contractual obligation lawsuit. The Company incurred direct losses of $18 million on three claims in 2008.

E. All Other Contingencies

Regulation and compliance

The Company is subject to changing social, economic and regulatory conditions. From time to time, regulatory authorities or legislative bodies seek to influence and restrict premium rates, require premium refunds to policyholders, require reinstatement of terminated policies, restrict the ability of insurers to cancel or non-renew policies, require insurers to continue to write new policies or limit their ability to write new policies, limit insurers' ability to change coverage terms or to impose underwriting standards, impose additional regulations regarding agent and broker compensation, and otherwise expand overall regulation of insurance products and the insurance industry. The Company has established procedures and policies to facilitate compliance with laws and regulations, to foster prudent business operations, and to support financial reporting. The Company routinely reviews its practices to validate compliance with laws and regulations and with internal procedures and policies. As a result of these reviews, from time to time the Company may decide to modify some of its procedures and policies. Such modifications, and the reviews that led to them, may be accompanied by payments being made and costs being incurred. The ultimate changes and eventual effects of these actions on the Company's business, if any, are uncertain.

Legal and regulatory proceedings and inquiries

Background

The Company and certain subsidiaries are involved in a number of lawsuits, regulatory inquiries, and other legal proceedings arising out of various aspects of its business. As background to the "Proceedings" subsection below, please note the following:

- These matters raise difficult and complicated factual and legal issues and are subject to many uncertainties and complexities, including the underlying facts of each matter; novel legal issues; variations between jurisdictions in which matters are being litigated, heard or investigated; differences in applicable laws and judicial interpretations; the length of time before many of these matters might be resolved by settlement, through litigation or otherwise; the fact that some of the lawsuits are putative class actions in which a class has not been certified and in which the purported class may not be clearly defined; the fact that some of the lawsuits involve multi-state class actions in which the applicable law(s) for the claims at issue is in dispute and therefore unclear; and the current challenging legal environment faced by large corporations and insurance companies.

- The outcome of these matters may be affected by decisions, verdicts, and settlements, and the timing of such decisions, verdicts, and settlements, in other individual and class action lawsuits that involve the Company, other insurers, or other entities and by other legal, governmental, and regulatory actions that involve the Company, other insurers, or other entities. The outcome may also be affected by future state or federal legislation, the timing or substance of which cannot be predicted.

- In the lawsuits, plaintiffs seek a variety of remedies including equitable relief in the form of injunctive and other remedies and monetary relief in the form of contractual and extra contractual damages. In some cases, the monetary damages sought include punitive or treble damages. Often specific information about the relief sought, such as the amount of damages, is not available because plaintiffs have not requested specific relief in their pleadings. When specific monetary demands are made, they are often set just below a state court jurisdictional limit in order to seek the maximum amount available in state court, regardless of the specifics of the case, while still avoiding the risk of removal to federal court. In the Company's experience, monetary demands in pleadings bear little relation to the ultimate loss, if any, to the Company.

- In connection with regulatory examinations and proceedings, government authorities may seek various forms of relief, including penalties, restitution and changes in business practices. The Company may not be advised of the nature and extent of relief sought until the final stages of the examination or proceeding.

- For the reasons specified above, it is often not possible to make meaningful estimates of the amount or range of loss that could result from the matters described below in the "Proceedings" subsection. The Company reviews these matters on an ongoing basis and follows the APPM when making accrual and disclosure decisions. When assessing reasonably possible and probable outcomes, the Company bases its decisions on its assessment of the ultimate outcome following all appeals.

- Due to the complexity and scope of the matters disclosed in the "Proceedings" subsection below and the many uncertainties that exist, the ultimate outcome of these matters cannot be reasonably predicted. In the event of an unfavorable outcome in one or more of these matters, the ultimate liability may be in excess of amounts currently reserved, if any, and may be material to the Company's net income or cash flows for a particular quarterly or annual period. However, based on information currently known to it, management believes that the ultimate outcome of all matters described below, as they are resolved over time, is not likely to have a material adverse effect on the financial position of the Company.

Proceedings

There are a number of state and nationwide class action lawsuits pending in various state courts challenging the legal propriety of the Company's medical bill review processes on a number of grounds, including the manner in which the Company determines reasonableness and necessity. These lawsuits, which to a large degree mirror similar lawsuits filed against other carriers in the industry, allege these processes are used by the Company systematically to undervalue claims. Plaintiffs seek monetary damages in the form of contractual and extra contractual damages. The Company denies these allegations. One nationwide class action was certified. The Company has received final approval of a settlement of this class action which is immaterial in amount. The Company continues to vigorously defend the other pending lawsuits.

NOTES TO FINANCIAL STATEMENTS

There is a nationwide putative class action pending against the Company that challenges the Company's use of a vendor's automated database in valuing total loss automobiles. To a large degree, this lawsuit mirrors similar lawsuits filed against other carriers in the industry. Plaintiffs allege the Company systematically underpays first party total loss vehicle claims. The plaintiffs are seeking actual and punitive damages. The lawsuit is in the discovery stage and the Company is vigorously defending it.

The Company is vigorously defending a number of matters filed in the aftermath of Hurricane Katrina, including individual lawsuits and two statewide putative class actions in Louisiana. These matters are in various stages of development. The lawsuits and developments in litigation arising from the hurricane include the following:

- The Company has been sued in a putative class action in the U.S. District Court for the Western District of Louisiana. The plaintiffs allege that they were entitled to, but did not receive, payment for general contractor overhead and profit ("GCOP") or that the GCOP they received was not adequate to compensate them for the entire costs of a general contractor. The plaintiffs also alleged that the Company incorrectly calculated depreciation on property losses. The Court granted partial summary judgment, and dismissed the claim challenging the method of calculating depreciation. In October 2008, the Court heard plaintiffs' motion to certify three subclasses: the first class would impose a "three trade rule", meaning any time three or more trades are reflected on the estimate, GCOP must be paid; the second class encompassed the alleged miscalculation of GCOP when both general and specialty contractors are involved; and the third class sought to impose on the Company statutory penalties for its alleged breach of contract with regard to the first two subclasses. The Court denied plaintiffs' motion on the certification of the two subclasses regarding the "three trade rule" and statutory penalties. The plaintiffs' motion for certification of the third subclass alleging that GCOP is not properly calculated when both general and specialty contractors are involved is pending.

- The Louisiana Attorney General filed a class action lawsuit in state court against the Company and other insurers on behalf of Road Home fund recipients alleging that the insurers have failed to pay all damages owed under their policies. The insurers removed the matter to federal court. The district court denied plaintiffs' motion to remand the matter to state court and the U.S. Court of Appeals for the Fifth Circuit affirmed that ruling. The defendants filed a motion to dismiss and the plaintiffs' filed a motion to remand the claims involving a Road Home subrogation agreement. In March 2009, the district court denied the state's request that its claims be remanded to state court. As for the defendant insurers' motion, the judge granted it in part and denied it in part. Dismissal of all the extra contractual claims, including the bad faith and breach of fiduciary duty claims was granted. Dismissal also was granted of all claims based on the Valued Policy Law and all flood loss claims based on the levee breaches finding that the insurers flood exclusions precluded coverage. The remaining claims are for breach of contract and for declaratory relief on the alleged underpayment of claims by the insurers. The judge did not dismiss the class action allegations. The defendants also had moved to dismiss the complaint on grounds that the state had no standing to bring the lawsuit as an assignee of insureds because of anti-assignment language in the insurers' policies. The judge denied the defendants' motion for reconsideration on the assignment issue but found the matter was ripe for consideration by the federal appellate court. The defendants have filed a petition for permission to appeal to the Fifth Circuit. The Fifth Circuit has accepted review. After the Fifth Circuit accepted review, plaintiffs filed a motion to remand the case to state court, asserting that the class claims on which federal jurisdiction was premised have now effectively been dismissed as a result of a ruling in a related case. The Fifth Circuit has denied the motion for remand, without prejudice to plaintiffs' right to refile the motion for remand after the Fifth Circuit disposes of the pending appeal.

The Company is vigorously defending a lawsuit involving worker classification issues. This lawsuit is a certified class action challenging a state wage and hour law. In December 2009, the liability phase of the case was tried and a decision is pending. In this case, plaintiffs seek monetary relief, such as penalties and liquidated damages, and non-monetary relief, such as injunctive relief.

The Company is defending certain matters relating to the Company's agency program reorganization announced in 1999. These matters are in various stages of development.

- These matters include a lawsuit filed in 2001 by the U.S. Equal Employment Opportunity Commission ("EEOC") alleging retaliation under federal civil rights laws (the "EEOC I" suit) and a class action filed in 2001 by former employee agents alleging retaliation and age discrimination under the Age Discrimination in Employment Act ("ADEA"), breach of contract and Employee Retirement Income Security Act ("ERISA") violations (the "Romero I" suit). In 2004, in the consolidated EEOC I and Romero I litigation, the trial court issued a memorandum and order that, among other things, certified classes of agents, including a mandatory class of agents who had signed a release, for purposes of effecting the court's declaratory judgment that the release is voidable at the option of the release signer. The court also ordered that an agent who voids the release must return to the Company "any and all benefits received by the [agent] in exchange for signing the release." The court also stated that, "on the undisputed facts of record, there is no basis for claims of age discrimination." The EEOC and plaintiffs asked the court to clarify and/or reconsider its memorandum and order and in January 2007, the judge denied their request. In June 2007, the court granted the Company's motions for summary judgment. Following plaintiffs' filing of a notice of appeal, the U.S. Court of Appeals for the Third Circuit ("Third Circuit") issued an order in December 2007 stating that the notice of appeal was not taken from a final order within the meaning of the federal law and thus not appealable at this time. In March 2008, the Third Circuit decided that the appeal should not summarily be dismissed and that the question of whether the matter is appealable at this time will be addressed by the Third Circuit along with the merits of the appeal. In July 2009, the Third Circuit vacated the decision which granted the Company's summary judgment motions, remanded the cases to the trial court for additional discovery, and directed that the cases be reassigned to another trial court judge.

- A putative nationwide class action has also been filed by former employee agents alleging various violations of ERISA, including a worker classification issue. These plaintiffs are challenging certain amendments to the Agents Pension Plan and are seeking to have exclusive agent independent contractors treated as employees for benefit purposes. This matter was dismissed with prejudice by the trial court, was the subject of further proceedings on appeal, and was reversed and remanded to the trial court in 2005. In June 2007, the court granted the Company's motion to dismiss the case. Following plaintiffs' filing of a notice of appeal, the Third Circuit issued an order in December 2007 stating that the notice of appeal was not taken from a final order within the meaning of the federal law and thus not appealable at this time. In March 2008, the Third Circuit decided that the appeal should not summarily be dismissed and that the question of whether the matter is appealable at this time will be addressed by the Third Circuit along with the merits of the appeal. In July 2009, the Third Circuit vacated the decision which granted the Company's motion to dismiss the case, remanded the case to the trial court for additional discovery, and directed that the case be reassigned to another trial court judge.

In all of these various matters, plaintiffs seek compensatory and punitive damages, and equitable relief. The Company has been vigorously defending these lawsuits and other matters related to its agency program reorganization.

In New Mexico, the Company is defending a certified class action challenging the method by which the Company discloses installment fees. The class members are limited to New Mexico policyholders based on the trial court's acceptance of plaintiffs' amended complaint. The plaintiffs contend that installment fees must be disclosed on the insurance policy itself, which would include the declarations page, because the fees allegedly meet the legal definition of "premium." Plaintiffs seek repayment of installment fees since October 1996.

Other matters

Various other legal, governmental, and regulatory actions, including state market conduct exams, and other governmental and regulatory inquiries are currently pending that involve the Company and specific aspects of its conduct of business. Like other members of the insurance industry, the Company is the target of a number of class action lawsuits and other types of proceedings, some of which involve claims for substantial or indeterminate amounts. These actions are based on a variety of issues and target a range of the Company's practices. The outcome of these disputes is currently unpredictable.

One or more of these matters could have an adverse effect on the Company's net income or cash flows for a particular quarterly or annual period. However, based on information currently known to it, management believes that the ultimate outcome of all matters described in this

NOTES TO FINANCIAL STATEMENTS

"Other matters" subsection, in excess of amounts currently reserved, if any, as they are resolved over time is not likely to have a material effect on the net income, cash flows or financial position of the Company.

15. Leases

A. Lessee Operating Lease

1. The Company leases certain office facilities and computer equipment under various noncancelable operating lease agreements that expire through 2019. Total rent expense, net of sublease rental income, was $248 million and $277 million in 2009 and 2008, respectively, before allocation to affiliates. Sublease rental income was $2 million and $3 million in 2009 and 2008, respectively.

2. a. At December 31, 2009, the minimum aggregate rental commitments under noncancelable operating leases with an initial or remaining term of more than one year were as follows:

2011	142
2012	107
2013	66
2014	49
Thereafter	60
Total	$ 619

b. At December 31, 2009, the total of minimum aggregate rental commitments to be received under noncancelable subleases with an initial or remaining term of more than one year was $4 million.

3. Sale-leaseback transactions

a. The Company did not enter into sale-leaseback transactions in 2009 or 2008.

b. The transactions described above were not accounted for as a deposit.

B. Lessor Leases

Leasing activities were not part of the Company's business activities in 2009 or 2008.

Volume for over-the-counter derivative contracts is represented by their notional amounts. Volume for exchange traded derivatives is represented by the number of contracts which is the basis on which they are traded (n/a = not applicable). The notional amounts specified in

NOTES TO FINANCIAL STATEMENTS

the contracts are used to calculate the exchange of contractual payments under the agreements and are generally not representative of the potential for gain or loss on these agreements. However, the notional amounts specified in credit default swap selling protection agreements represent the maximum amount of potential loss, assuming no recoveries. Statement values are generally equal to consideration paid or received except when non-hedge accounting is used, in which case statement value is equal to current fair value. Fair value is the estimated amount that the Company would receive or pay to terminate the derivative contracts at the reporting date. The fair value for exchange traded derivative contracts is based on observable market quotations in active markets, whereas the fair value for non-exchange traded derivative contracts is determined using widely accepted valuation models and other appropriate valuation methods.

2. The credit risk, market risk and cash requirements of the Company's derivative instruments utilized during 2009 and 2008 are discussed in Note 8, Part A. The accounting policies for the Company's derivative instruments are disclosed in Note 1, Part C and Note 8, Part C.

3. The following table summarizes the credit exposure on the Company's over-the-counter contracts at December 31:

(in millions)	2009	2008
Interest rate swaption agreements	$ 114	$ -
Foreign currency forward contracts	3	-
Interest rate swap agreements	(12)	38
Credit default swap agreements - buying protection	(7)	43
Credit default swap agreements - selling protection	-	(1)
Total derivative financial instruments	$ 98	$ 80

Credit exposure represents the Company's potential loss if all counterparties concurrently fail to perform under the contractual terms of the contracts and all collateral, if any, becomes worthless. This exposure is measured by the statement/carrying value of over-the-counter derivative contracts with a positive statement/carrying value at the reporting date reduced by the effect, if any, of legally enforceable master netting agreements. The Company has not incurred any losses on derivative financial instruments due to counterparty nonperformance.

4. The Company's policy for requiring collateral is discussed in Note 8, Part A. In general, the collateral pledged by the Company is in the custody of a counterparty or an exchange. However, the Company has access to this collateral at any time, subject to replacement. For exchange traded derivatives, the exchange requires margin deposits as well as daily cash settlements of margin accounts. At December 31, 2009 and 2008, the Company pledged $9 million and $44 million, respectively, of securities in the form of margin deposits. Usually, the Company pledges U.S. Treasury bonds to satisfy this collateral requirement. The Company uses master netting agreements for over-the-counter derivative transactions. These agreements permit either party to net payments due for transactions covered by the agreements. Under the provisions of the agreements, collateral is either pledged or obtained when certain predetermined exposure limits are exceeded. At December 31, 2009, counterparties pledged $39 million in cash to the Company, and the Company pledged $9 million in securities to counterparties. At December 31, 2008, counterparties did not pledge any collateral to the Company, and the Company did not pledge anything to counterparties.

Other than derivative financial instruments

1. The contractual amounts of the Company's commitments to invest in limited partnership agreements were $631 million and $806 million at December 31, 2009 and 2008, respectively. At December 31, 2009, the Company also had other commitments to invest with contractual amounts of $190 thousand.

2. Commitments to invest generally represent commitments to acquire financial interests or instruments. The Company enters into these agreements primarily to allow for additional participation in certain limited partnership investments.

3. The contractual amounts represent the amount at risk if the contract was fully drawn upon, the counterparty defaults and the value of any underlying security becomes worthless.

4. The Company does not require collateral or other security to support off-balance sheet financial instruments with credit risk.

17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

A. The Company did not report transfers of premium receivables as sales in 2009 or 2008.

B. Transfer and Servicing of Financial Assets

1. The Company did not enter into securities lending agreements in 2009, however it did during 2008. The Company was able to estimate the fair value of assets obtained and liabilities incurred in these 2008 agreements.

2. The Company did not enter into securities lending agreements in 2009. In 2008, the Company entered into securities lending agreements using U.S. Treasury and corporate bonds and domestic and foreign equities. Securities lent were either specifically identified by the lending bank or segregated into a separate custody account. At December 31, 2008, the Company did not have securities lending agreements outstanding. The Company received collateral for securities loaned in an amount generally equal to 102% and 105% of the fair value of securities and recorded the related obligations to return the collateral within liabilities. All collateral was received in the form of cash, unrestricted and maintained in a separate custody account. None of the collateral was sold or repledged. Generally, collateral was invested in short-term investments or bonds during the agreement period. The Company monitored the fair value of securities loaned on a daily basis and obtained additional collateral as necessary to mitigate counterparty credit risk. The Company maintained the right and ability to redeem the securities loaned on short notice. Substantially all of the Company's securities loaned were placed with large brokerage firms. Securities lending transactions were generally short-term in nature, usually 30 days or less.

3. The Company did not enter into servicing asset or liability agreements in 2009 or 2008.

4. The Company did not have securitized financial assets accounted for as sales in 2009 or 2008.

5. The Company was not the transferor of securitized financial assets in 2009 or 2008.

6. The Company did not transfer receivables with recourse in 2009 or 2008.

This facility contains an increase provision that would allow up to an additional $500 million of borrowing provided the increased portion could be fully syndicated at a later date among existing and new lenders. There were no borrowings under the line of credit in 2009 or 2008.

All internally developed software was nonadmitted at December 31, 2009 and 2008.

D. Premium Balances Reasonably Possible to be Uncollectible

The Company routinely assesses the collectibility of its premiums and considerations that are less than 90 days old. The allowance for uncollectible premiums and considerations is determined based on the age of the receivable and prior collection experience. The allowance balance for admitted premiums and considerations, after reinsurance, was $23 million at both December 31, 2009 and 2008. Premiums and considerations older than 90 days are nonadmitted.

E. Business Interruption Insurance Recoveries

The Company did not have business interruption insurance in 2009 or 2008.

F. State Transferable Tax Credits

1. The Company did not have state transferable tax credits at December 31, 2009. At December 31, 2008, the Company had unused transferable state tax credits in Connecticut of $929 thousand, which had a carrying value of $836 thousand.

2. The Company estimates the utilization of the remaining transferable state tax credits by projecting the future tax liability and comparing it to the availability of remaining transferable state tax credits.

3. The Company did not recognize impairment losses on the carrying values of state transferable tax credits in 2009 or 2008.

G. Subprime Mortgage Related Risk Exposure

1. The Company identified it had exposure to subprime residential mortgage related risk in the form of asset-backed residential mortgage-backed securities ("ABS RMBS"), as well as a limited partnership investment. The ABS RMBS portfolio includes securities that are collateralized by mortgage loans issued to borrowers that cannot qualify for prime or alternative financing terms due in part to an impaired or limited credit history. It also includes securities that are collateralized by certain second lien mortgages regardless of the borrower's credit profile. At December 31, 2009, the ABS RMBS portfolio had net unrealized losses of $78 million, of which $79 million were gross unrealized losses and $1 million were gross unrealized gains. At December 31, 2008, the ABS RMBS portfolio had net unrealized losses of $327 million, of which $330 million were gross unrealized losses and $3 million were gross unrealized gains.

   In addition, the Company owns Alt-A residential mortgage-backed securities ("Alt-A"), which it does not consider to be a component of its exposure to subprime mortgage related risk. The Alt-A portfolio consists of mortgage-backed securities at fixed or variable rates and includes certain securities that are collateralized by residential mortgage loans issued to borrowers with stronger credit profiles than subprime borrowers, but do not qualify for prime financing terms due to high loan-to-value ratios or limited supporting documentation. At December 31, 2009, the Alt-A portfolio had net unrealized gains of $3 million, of which $8 million were gross unrealized losses and $11 million were gross unrealized gains. At December 31, 2008, the Alt-A portfolio had net unrealized losses of $73 million, of which $74 million were gross unrealized losses and $1 million were gross unrealized gains.

   Both ABS RMBS and Alt-A securities are considered loan-backed, and included in bonds in the Company's Asset page.

   The Company has a comprehensive portfolio monitoring process to identify and evaluate, on a case-by-case basis, investments whose carrying value may be OTTI. See the investments significant accounting policy in Note 1, Part C for more details. The Company recorded investment write-downs of $38 million and $16 million in the ABS RMBS portfolio related to asset impairments in 2009 and 2008, respectively. Investment write-downs of $27 million and $16 million were recorded in the Alt-A portfolio related to asset impairments in 2009 and 2008, respectively. The Company did not record investment write-downs in the ABS RMBS or Alt-A portfolios in 2009 or 2008 for the potential sale of assets to meet future cash flow requirements. The Company continues to believe that the unrealized losses on these securities are not necessarily predictive of the performance of the underlying collateral. In the absence of further deterioration in the collateral relative to the Company's positions in the securities' respective capital structures, which could require recognition of OTTI, the unrealized losses should reverse over the remaining lives of the securities.

   The Company's practice for acquiring and monitoring ABS RMBS and Alt-A securities takes into consideration the quality of the originator, quality of the servicer, security credit rating, underlying characteristics of the mortgages, borrower characteristics, level of credit enhancement in the transaction, and bond insurer strength, where applicable. The originators and servicers of the underlying mortgage loans are primarily subsidiaries of large banks and broker/dealers.

2. The Company did not have direct exposure to subprime mortgage loans.

3. The Company's direct exposure to other subprime investments is summarized as follows at December 31:

(in millions)	2009			
Type of Investment	Actual Cost	Book/ Adjusted Carrying Values	Fair Values	OTTI Losses
ABS RMBS	$ 985	$ 644	$ 566	$ 38

Actual cost	$ 294	$ 313
Book/adjusted carrying values	221	272
Fair values	224	199
OTTI losses	27	16

4. The Company did not sell mortgage guaranty or financial guaranty insurance coverage, and therefore, does not have underwriting exposure to subprime mortgage risk.

(in millions)	2009	2008
a. Reserves transferred:		
1. Initial reserves	$ 411	$ 411

e. SCOR (NAIC Company Code 30058) was the only cedant involved in all the transactions included in the summary totals above. There were no reinsurers the Company assumed retroactive reinsurance from in 2009 or 2008.

f. There were no amounts of total paid loss or loss adjustment expenses recoverable at December 31, 2009 or 2008.

G. Reinsurance Accounted for as a Deposit

On October 1, 1999, the Company completed the acquisition of the personal lines business from CNA Financial Corporation (“CNA”). The transaction included an indemnity reinsurance agreement and a reserve agreement. The reserve agreement guaranteed the adequacy, in all material respects, of the loss reserves transferred by CNA under the indemnity reinsurance agreement. The Company used deposit accounting to account for the indemnity reinsurance agreement, as the portion of the indemnity reinsurance agreement governing the transfer of the loss reserves did not, despite its form, transfer both components of insurance risk. In accordance with the requirements of deposit accounting, an initial asset deposit of $1.05 billion was recorded. The inception-to-date payments for this agreement totaled $833 million and $828 million at December 31, 2009 and 2008, respectively. Inception-to-date net adjustments related to the reserve agreement reduced the reserves on deposit by $187 million at both December 31, 2009 and 2008. The balance of the reserves on deposit was $28 million and $33 million at December 31, 2009 and 2008, respectively.

23. Retrospectively Rated Contracts and Contracts Subject to Redetermination

A. The Company accrues estimated retrospective premium adjustments on certain commercial insurance policies through the review of each individual retrospectively rated risk, comparing the known loss development, including IBNR reserves, with that anticipated in the policy contract to arrive at the best estimate of returned or additional retrospective premium.

The Company also accrues estimated retrospective premium adjustments related to Your Choice Auto platinum (“YCA”), Your Choice Home platinum & gold (“YCH”) and Allstate Blue policies in eligible states. YCA and YCH policies that are claim free during the policy period receive 5.0% of the premium paid for certain major coverages as a billing credit or refund. Allstate Blue policies offer non-standard auto coverage and contain a loyalty bonus which rewards eligible policyholders who stay with the Company for a full policy term with a 5.0% to 10.0% bonus of premium paid for certain major coverages. The amount of accrued retrospective premium adjustments is determined by analyzing the historical loss experience of these policyholders.

B. The Company records accrued retrospective premium as an adjustment to earned premiums on certain commercial insurance policies. For YCA, YCH and Allstate Blue policies, the Company records accrued retrospective premium as an adjustment to written premiums.

C. The amount of net premiums written by the Company in 2009 and 2008 subject to retrospective rating features was $2.01 billion and $1.67 billion, respectively. These amounts represented 8.4% and 6.8% of total net premiums written in 2009 and 2008, respectively.

D. The Company nonadmitted 10.0% of accrued retrospective premiums related to certain commercial insurance policies not offset by retrospective return premiums, other liabilities to the same party (other than loss and loss adjustment expense reserves), or collateral as permitted by SSAP No. 66, *Retrospectively Rated Contracts*, as follows:

(in millions)	2009	2008
a. Total accrued retro premiums	$ 3	$ 2
b. Unsecured amount	3	2
c. Less: Nonadmitted amount (10.0%)	-	-
d. Less: Nonadmitted for any person for whom agents’ balances or uncollected premiums are nonadmitted	-	-
e. Admitted amount (a) - (c) - (d)	$ 3	$ 2

The Company is responsible for the return of premium to YCA, YCH and Allstate Blue policyholders. These amounts represent a liability to the Company.

24. Change in Incurred Losses and Loss Adjustment Expenses

The Company establishes reserves for losses and loss adjustment expenses on reported and unreported claims of insured losses. The Company’s reserving process takes into account known facts and interpretations of circumstances and factors including the Company’s experience with similar cases, actual claims paid, historical trends involving claim payment patterns and pending levels of unpaid claims, loss management programs, product mix and contractual terms, law changes, court decisions, changes to regulatory requirements and economic conditions. In the normal course of business, the Company may also supplement its claim processes by utilizing third party adjusters, appraisers, engineers, inspectors, other professionals and information sources to assess and settle catastrophe and non-catastrophe related claims. The effects of inflation are implicitly considered in the reserving process.

Since reserves are estimates of the unpaid portion of losses that have occurred, including IBNR losses, the establishment of appropriate reserves, including reserves for catastrophes, is an inherently uncertain and complex process. The ultimate cost of losses may vary materially from recorded amounts, which are based on management’s best estimates. The highest degree of uncertainty is associated with reserves for losses incurred in the current reporting period as it contains the greatest proportion of losses that have not been reported or settled. The Company regularly updates its reserve estimates as new information becomes available and as events unfold that may affect the resolution of unsettled claims. Changes in prior year reserve estimates, which may be material, are reflected in the Statement of Income in the period such changes are determined.

NOTES TO FINANCIAL STATEMENTS

Activity in the reserve for losses and loss adjustment expenses was summarized as follows:

(in millions)	2009	2008
Balance at January 1	$ 14,859	$ 14,227
Incurred related to:		
Current year	17,259	18,191
Prior years	(68)	212
Total incurred	17,191	18,403
Paid related to:		
Current year	11,282	11,606
Prior years	6,269	6,165
Total paid	17,551	17,771
Balance at December 31	$ 14,499	$ 14,859

Incurred losses and loss adjustment expenses represent the sum of paid losses and reserve changes in the calendar year. This expense included net losses from catastrophes of $2.05 billion and $3.26 billion in 2009 and 2008, respectively. Catastrophes are an inherent risk that have contributed to, and will continue to contribute to, material year-to-year fluctuations in the Company's net income and financial position.

The Company calculates and records a single best reserve estimate for losses from catastrophes, in conformity with generally accepted actuarial principles. As a result, management believes that no other estimate is better than the recorded amount. Due to the uncertainties involved, including the factors described above, the ultimate cost of losses may vary materially from recorded amounts, which are based on management's best estimates. Accordingly, management believes that it is not practicable to develop a meaningful range for such changes in losses incurred.

Incurred losses and loss adjustment expenses attributable to insured events of prior years were $(68) million and $212 million as a result of the reestimation of unpaid losses and loss adjustment expenses for the years ended December 31, 2009 and 2008, respectively. During 2009, favorable development in incurred losses and loss adjustment expenses related to prior years was primarily due to a reduction in catastrophe losses. During 2008, incurred losses and loss adjustment expenses related to prior years were primarily composed of increases in litigation settlements and catastrophe losses. These changes were generally the result of ongoing analyses of recent loss development trends. Initial estimates were revised as additional information regarding claims became known.

Anticipated salvage and subrogation of $573 million and $620 million was included as a reduction of loss reserves at December 31, 2009 and 2008, respectively.

25. Intercompany Pooling Arrangements

The Company was not a member of an intercompany pooling arrangement in 2009 or 2008.

26. Structured Settlements

A. To settle certain claims, the Company purchased annuities from various life insurers where the claimant was the payee but for which the Company was contingently liable in the event the issuer of the annuity was unable to perform. At December 31, 2009 and 2008, the aggregate amount of statutory reserves, reported in the financial statements of third party life insurers, for which the Company was contingently liable was $309 million and $332 million, respectively.

B. ALIC, located in Northbrook, Illinois, was the only life insurer where the total statement value of statutory reserves for which the Company was contingently liable exceeded 1% of the Company's policyholder surplus at December 31. The statement value (i.e. present value) of ALIC statutory reserves for which the Company was contingently liable was $182 million and $204 million at December 31, 2009 and 2008, respectively. This affiliated life insurer is licensed in the Company's state of domicile.

27. Health Care Receivables

The Company did not have health care receivables at December 31, 2009 or 2008.

28. Participating Policies

The Company did not have participating policies, as defined by SSAP No. 51, *Life Contracts*, or SSAP No. 54, *Individual and Group Accident and Health Contracts*, at December 31, 2009 or 2008.

29. Premium Deficiency Reserves

The Company did not record premium deficiency reserves at December 31, 2009 or 2008. Anticipated investment income was considered as a factor in the premium deficiency calculation.

30. High Deductibles

At December 31, 2009 and 2008, the amount of reserve credit recorded for high deductibles on unpaid claims was $368 thousand and $450 thousand, respectively. The amount billed and recoverable on paid claims was $40 thousand and $178 thousand at December 31, 2009 and 2008, respectively.

31. Discounting of Liabilities for Unpaid Losses or Unpaid Loss Adjustment Expenses

The Company did not discount its liabilities for unpaid losses or unpaid loss adjustment expenses at December 31, 2009 or 2008.

32. Asbestos/Environmental Reserves

A. The Company continues to receive asbestos and environmental claims. Asbestos claims relate primarily to bodily injuries asserted by people who were exposed to asbestos or products containing asbestos. Environmental claims relate primarily to pollution and related clean-up costs.

The Company's exposure to asbestos and environmental claims arises principally from assumed reinsurance coverage written during the 1960s through the mid-1980s, including reinsurance on primary insurance written on large U.S. companies, and from direct excess insurance written from 1972 through 1985, including substantial excess general liability coverages on large U.S. companies. Additional exposure stems from direct primary commercial insurance written during the 1960s through the mid-1980s.

In 1986, the general liability policy form used by the Company and others in the property and casualty insurance industry was amended to introduce an "absolute pollution exclusion," which excluded coverage for environmental damage claims, and added an asbestos exclusion. Most general liability policies issued prior to 1987 contain annual aggregate limits for product liability coverage. General liability policies issued in 1987 and thereafter contain annual aggregate limits for product liability coverage and annual aggregate limits for all coverages. The Company's experience to date has been that these policy form changes have limited the extent of its exposure to environmental and asbestos claim risks.

NOTES TO FINANCIAL STATEMENTS

The Company's exposure to liability for asbestos and environmental losses manifests differently depending on whether it arises from assumed reinsurance coverage, direct excess insurance, or direct primary commercial insurance. The direct insurance coverage the Company provided for these exposures was substantially "excess" in nature.

Direct excess insurance and reinsurance involve coverage written by the Company for specific layers of protection above retentions and other insurance plans. The nature of excess coverage and reinsurance provided to other insurers limits the Company's exposure to loss to specific layers of protection in excess of policyholder retention on primary insurance plans. The Company's exposure is further limited by the significant reinsurance that was purchased on the direct excess business.

The Company's assumed reinsurance business involved writing generally small participations in other insurers' reinsurance programs. The reinsured losses in which the Company participates may be a proportion of all eligible losses or eligible losses in excess of defined retentions. The majority of the Company's assumed reinsurance exposure, approximately 85%, is for excess of loss coverage, while the remaining 15% is for pro-rata coverage.

The Company's direct primary commercial insurance business did not include coverage to large asbestos manufacturers. This business comprises a cross section of policyholders engaged in many diverse business sectors located throughout the country.

The Company conducts an annual review in the third quarter of each year to evaluate and establish asbestos and environmental reserves. Reserves are recorded in the reporting period in which they are determined. Using established industry and actuarial best practices and assuming no change in the regulatory or economic environment, this detailed and comprehensive "ground up" methodology determines asbestos reserves based on assessments of the characteristics of the exposure (e.g. claim activity, potential liability, jurisdiction, products versus non-products exposure) presented by individual policyholders, and determines environmental reserves based on assessments of the characteristics of exposure (e.g. environmental damage, respective shares of liability of potentially responsible parties, appropriateness and cost of remediation) to pollution and related clean-up costs. The number and cost of these claims is affected by intense advertising by trial lawyers seeking asbestos plaintiffs, and entities with asbestos exposure seeking bankruptcy protection as a result of asbestos liabilities, initially causing a delay in the reporting of claims, often followed by acceleration and an increase in losses and loss adjustment expenses as settlements occur.

After evaluating insureds' probable liabilities for asbestos and/or environmental claims, the Company evaluates the insureds' coverage programs for such claims. The Company considers the insureds' total available insurance coverage, including the coverage it issued. The Company also considers relevant judicial interpretations of policy language and applicable coverage defenses or determinations, if any.

Evaluation of both the insureds' estimated liabilities and the Company's exposure to the insureds depends heavily on an analysis of the relevant legal issues and litigation environment. This analysis is conducted by the Company's specialized claims adjusting staff and legal counsel. Based on these evaluations, case reserves are established by claims adjusting staff and actuarial analysis is employed to develop an IBNR reserve, which includes estimated potential reserve development and claims that have occurred but have not been reported.

For both asbestos and environmental reserves, the Company also evaluates its historical direct net loss and loss adjustment expenses paid and incurred experience to assess any emerging trends, fluctuations or characteristics suggested by the aggregate paid and incurred activity.

Establishing net loss reserves for environmental and asbestos claims is subject to uncertainties that are much greater than those presented by other types of claims. Among the complications are lack of historical data, long reporting delays, uncertainty as to the number and identity of insureds with potential exposure and unresolved legal issues regarding policy coverage; unresolved legal issues regarding the determination, availability and timing of exhaustion of policy limits; plantiffs' evolving and expanding theories of liability, availability and collectibility of recoveries from reinsurance; retrospectively determined premiums and other contractual agreements; estimates of the extent and timing of any contractual liability; the impact of bankruptcy protection sought by various asbestos producers and other asbestos defendants; and other uncertainties. There are also complex legal issues concerning the interpretation of various insurance policy provisions and whether those losses are covered, or were ever intended to be covered, and could be recoverable through retrospectively determined premium, reinsurance or other contractual agreements. Courts have reached different and sometimes inconsistent conclusions as to when losses were deemed to have occurred and which policies provide coverage; what types of losses are covered; whether there is an insurer obligation to defend; how policy limits are determined; how policy exclusions and conditions are applied and interpreted; and whether clean-up costs represent insured property damage. The Company's reserves for asbestos and environmental exposures could be affected by tort reform, class action litigation and other potential legislation and judicial decisions. Environmental exposures could also be affected by a change in the existing federal Superfund law and similar state statutes. There can be no assurance that any reform legislation will be enacted or that any such legislation will provide for a fair, effective and cost-efficient system for settlement of asbestos or environmental claims. Management believes these issues are not likely to be resolved in the near future, and the ultimate costs may vary materially from the amounts currently recorded resulting in material changes in loss reserves.

Management believes its net loss reserves for asbestos and environmental exposures are appropriately established based on available facts, technology, laws, regulations, and assessments of other pertinent factors and characteristics of exposure (e.g. claim activity, potential liability, jurisdiction, products versus non-products exposure) presented by individual policyholders, assuming no change in the legal, legislative or economic environment. Due to the uncertainties and factors described above, management believes it is not practicable to develop a meaningful range for any such additional net loss reserves that may be required.

The following table summarizes the Company's reserve and claim activity for asbestos claims on a direct basis, for assumed reinsurance and after (net) the effects of ceded reinsurance.

SCHEDULE P INTERROGATORIES

1. The following questions relate to yet-to-be-issued Extended Reporting Endorsements (EREs) arising from Death, Disability, or Retirement (DDR) provisions in Medical Professional Liability Claims Made insurance policies. EREs provided for reasons other than DDR are not to be included.

1.1 Does the company issue Medical Professional Liability Claims Made insurance policies that provide tail (also known as an extended reporting endorsement, or "ERE") benefits in the event of Death, Disability, or Retirement (DDR) at a reduced charge or at no additional cost? ..... Yes [ ] No [X]

If the answer to question 1.1 is "no", leave the following questions blank. If the answer to question 1.1 is "yes", please answer the following questions:

1.2 What is the total amount of the reserve for that provision (DDR Reserve), as reported, explicitly or not, elsewhere in this statement (in dollars)? ..... $.....

1.3 Does the company report any DDR reserve as Unearned Premium Reserve per SSAP #65? ..... Yes [ ] No [ ]

1.4 Does the company report any DDR reserve as loss or loss adjustment expense reserve? ..... Yes [ ] No [ ]

1.5 If the company reports DDR reserve as Unearned Premium Reserve, does that amount match the figure on the Underwriting and Investment Exhibit, Part 1A – Recapitulation of all Premiums (Page 7) Column 2, Lines 11.1 plus 11.2? ..... Yes [ ] No [ ] N/A [ ]

1.6 If the company reports DDR reserve as loss or loss adjustment expense reserve, please complete the following table corresponding to where these reserves are reported in Schedule P:

Years in Which Premiums Were Earned and Losses Were Incurred		DDR Reserve Included in Schedule P, Part 1F, Medical Professional Liability Column 24: Total Net Losses and Expenses Unpaid

2. The definition of allocated loss adjustment expenses (ALAE) and, therefore, unallocated loss adjustment expenses (ULAE) was changed effective January 1, 1998. This change in definition applies to both paid and unpaid expenses. Are these expenses (now reported as " Defense and Cost Containment" and "Adjusting and Other") reported in compliance with these definitions in this statement? ..... Yes [X] No [ ]

3. The Adjusting and Other expense payments and reserves should be allocated to the years in which the losses were incurred based on the number of claims reported, closed and outstanding in those years. When allocating Adjusting and Other expense between companies in a group or a pool, the Adjusting and Other expense should be allocated in the same percentage used for the loss amounts and the claim counts. For reinsurers, Adjusting and Other expense assumed should be reported according to the reinsurance contract. For Adjusting and Other expense incurred by reinsurers, or in those situations where suitable claim count information is not available, Adjusting and Other expense should be allocated by a reasonable method determined by the company and described in Interrogatory 7 below. 7.1 The information provided in Schedule P will be used by many persons to estimate the adequacy of the current loss and expense reserves, among other things. Are there any especially significant events, coverage, retention or accounting changes that have occurred that must be considered when making such analyses? ..... Yes [X] No [ ]

7.2 (An extended statement may be attached.)

Persons using Schedule P to estimate the adequacy of auto liability loss and loss expense reserves should consider the effect that disposition rate changes over the last 10 year period may have on their estimates, taking into account the distortions that changing claim disposition rates cause to development patterns inherent in the historical data and projections that rely on that data. .....
