SS:

The officers of this reporting entity being duly sworn, each depose and say that they are the described officers of said reporting entity, and that on the reporting period stated above, all of the herein described assets were the absolute property of the said reporting entity, free and clear from any liens or claims thereon, except as herein stated, and that this statement, together with related exhibits, schedules and explanations therein contained, annexed or referred to, is a full and true statement of all the assets and liabilities and of the condition and affairs of the said reporting entity as of the reporting period stated above, and of its income and deductions therefrom for the period ended, and have been completed in accordance with the NAIC Annual Statement Instructions and Accounting Practices and Procedures manual except to the extent that: (1) state law may differ; or, (2) that state rules or regulations require differences in reporting not related to accounting practices and procedures, according to the best of their information, knowledge and belief, respectively. Furthermore, the scope of this attestation by the described officers also includes the related corresponding electronic filing with the NAIC, when required, that is an exact copy (except for formatting differences due to electronic filing) of the enclosed statement. The electronic filing may be requested by various regulators in lieu of or in addition to the enclosed statement.

(a) Included in the above table are amounts of deposit-type contracts that originally contained a mortality risk. Amounts of deposit-type contracts in Column 2 that no longer contain a mortality risk are Life Insurance \$; Annuities \$209,929,359 ; Supplementary Contracts with Life Contingencies \$4,293 ; Accidental Death Benefits \$; Disability - Active Lives \$; Disability - Disabled Lives \$; Miscellaneous Reserves \$

ANNUAL STATEMENT FOR THE YEAR 2020 OF THE ALLSTATE LIFE INSURANCE COMPANY

EXHIBIT 5 - INTERROGATORIES

1.1

Has the reporting entity ever issued both participating and non-participating contracts?

Yes [] No [X]

1.2

If not, state which kind is issued.
Non-participating

2.1

Does the reporting entity at present issue both participating and non-participating contracts?

Yes [] No [X]

2.2

If not, state which kind is issued.
Non-participating

3.

Does the reporting entity at present issue or have in force contracts that contain non-guaranteed elements?
If so, attach a statement that contains the determination procedures, answers to the interrogatories and an actuarial opinion as described in the instructions.

Yes [X] No []

4.

Has the reporting entity any assessment or stipulated premium contracts in force?
If so, state:
4.1 Amount of insurance?
4.2 Amount of reserve?
4.3 Basis of reserve:

4.4 Basis of regular assessments:

4.5 Basis of special assessments:

4.6 Assessments collected during the year

\$

\$

5.

If the contract loan interest rate guaranteed in any one or more of its currently issued contracts is less than 5%, not in advance, state the contract loan rate guarantees on any such contracts.
2%, 3%

6.

Does the reporting entity hold reserves for any annuity contracts that are less than the reserves that would be held on a standard basis?
6.1 If so, state the amount of reserve on such contracts on the basis actually held:
6.2 That would have been held (on an exact or approximate basis) using the actual ages of the annuitants; the interest rate(s) used in 6.1; and the same mortality basis used by the reporting entity for the valuation of comparable annuity benefits issued to standard lives. If the reporting entity has no comparable annuity benefits for standard lives to be valued, the mortality basis shall be the table most recently approved by the state of domicile for valuing individual annuity benefits:
Attach statement of methods employed in their valuation.

Yes [X] No []

\$

\$

\$

7.

Does the reporting entity have any Synthetic GIC contracts or agreements in effect as of December 31 of the current year?
7.1 If yes, state the total dollar amount of assets covered by these contracts or agreements
7.2 Specify the basis (fair value, amortized cost, etc.) for determining the amount:

7.3 State the amount of reserves established for this business:
7.4 Identify where the reserves are reported in the blank:

Yes [] No [X]

\$

\$

\$

8.

Does the reporting entity have any Contingent Deferred Annuity contracts or agreements in effect as of December 31 of the current year?
8.1 If yes, state the total dollar amount of account value covered by these contracts or agreements:
8.2 State the amount of reserves established for this business:
8.3 Identify where the reserves are reported in the blank:

Yes [] No [X]

\$

\$

\$

9.

Does the reporting entity have any Guaranteed Lifetime Income Benefit contracts, agreements or riders in effect as of December 31 of the current year?
9.1 If yes, state the total dollar amount of any account value associated with these contracts, agreements or riders:
9.2 State the amount of reserves established for this business:
9.3 Identify where the reserves are reported in the blank:
Section 2 of Exhibit 5

Yes [X] No []

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Allstate Life Insurance Company (the “Company”) prepares its financial statements in conformity with accounting practices prescribed or permitted by the Illinois Department of Insurance (“IL DOI”). Prescribed statutory accounting practices include a variety of publications of the National Association of Insurance Commissioners (“NAIC”), as well as state laws, regulations and general administrative rules. Permitted statutory accounting practices encompass all accounting practices not so prescribed.

The State of Illinois requires its domestic insurance companies to prepare financial statements in conformity with the NAIC Accounting Practices and Procedures Manual (“APPM”), which includes all Statements of Statutory Accounting Principles (“SSAPs”), subject to any deviations prescribed or permitted by the IL DOI.

The Company holds one nonconforming credit tenant loan (“CTL”) with a book adjusted carrying value of \$14 million, as of December 31, 2020. This nonconforming CTL was reported on Schedule D, Part 1 with an NAIC Designation of 2.B FE. The asset was filed with the Securities Valuation Office (“SVO”) on January 14, 2021 and included as a permitted practice for the 2020 reporting year pursuant to the Statutory Accounting Principles Working Group INT 20-10.

A reconciliation of the Company’s net income and capital and surplus between statutory accounting principles (“SAP”) per the APPM and practices prescribed or permitted by the IL DOI as of December 31, 2020 is shown below. The Company’s net income and capital and surplus did not include any accounting practices prescribed or permitted by the IL DOI during 2019.

(in millions)		SSAP #	F/S Page #	F/S Line #	2020	2019
Net Income						
(1)	The Company’s state basis (Page 4, Line 35, Columns 1 & 2)	xxx	xxx	xxx	\$ 57	\$ 487
(2)	State prescribed practices that increase/(decrease) NAIC statutory accounting principles (“SAP”):				-	-
(3)	State permitted practices that increase/(decrease) NAIC SAP:				-	-
(4)	NAIC SAP (1-2-3=4)	xxx	xxx	xxx	\$ 57	\$ 487
Surplus						
(5)	The Company’s state basis (Page 3, Line 38, Columns 1 & 2)	xxx	xxx	xxx	\$ 3,927	\$ 3,817
(6)	State prescribed practices that increase/(decrease) NAIC SAP:				-	-
(7)	State permitted practices that increase/(decrease) NAIC SAP:					
	Nonconforming CTL reported on Schedule D Part 1	INT 20-10	2	1	14	-
	Nonconforming CTL not reported on Schedule BA Part 1	INT 20-10	2	8	(14)	-
(8)	NAIC SAP (5-6-7=8)	xxx	xxx	xxx	\$ 3,927	\$ 3,817

B. The preparation of financial statements in conformity with the NAIC Annual Statement Instructions and accounting practices prescribed or permitted by the IL DOI requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

C. Listed below is a summary of the accounting policies that materially affect the financial statements.

Investments

Bonds with an NAIC designation of 1 through 5, including loan-backed and structured securities (“LBASS”) and excluding SVO-identified investments, are reported at amortized cost using the effective yield method. Bonds with an NAIC designation of 6 are reported at the lower of amortized cost or fair value, with the difference reflected in unassigned surplus as an unrealized capital loss. In general, LBASS utilize a multi-step process for determining carrying value and NAIC designation in accordance with SSAP No. 43R, Loan-backed and Structured Securities. The Company’s bond portfolio also includes SVO-identified investments, which are reported at fair value. Changes in the fair value of SVO-identified investments are recorded as a change in net unrealized capital gains (losses), which is a component of unassigned surplus.

Redeemable preferred stocks are reported at cost, amortized cost or the lower of cost, amortized cost or fair value, depending on the assigned NAIC designation. Perpetual preferred stocks are reported at fair value or the lower of cost or fair value depending on the assigned NAIC designation. Unaffiliated common stocks are reported at fair value. For preferred stocks reported at fair value and unaffiliated common stocks, the differences between amortized cost or cost and fair value are recorded as a change in net unrealized capital gains (losses), which is a component of unassigned surplus.

Common stock investments in insurance subsidiaries are recorded based on the underlying statutory equity of the subsidiary.

Mortgage loans are reported at unpaid principal balances, net of unamortized premium or discount.

Investments in real estate are reported at depreciated cost less encumbrances or the lower of depreciated cost or fair value, less encumbrances and estimated cost to sell the property. Single real estate property investments, that are wholly owned by a limited liability company that is directly and wholly owned by the reporting entity, are reported as real estate investments.

Cash equivalents are reported at fair value or amortized cost. Due to a change in APPM requirements for SSAP No. 2R, Cash, Cash Equivalents, Drafts and Short-Term Investments (“SSAP No. 2R”), cash equivalents include the investment in the Allstate Short term pool (“Short term pool”) as of December 31, 2020. Cash equivalents reported at amortized cost are readily convertible into known amounts of cash and so near their maturity that they present an insignificant risk of change in value because of changes in interest rates.

Short-term investments, excluding December 31, 2019 investments in the Short term pool, are reported at amortized cost. As of December 31, 2019, investments in the Short term pool were included in short-term investments and were stated at the net asset value (“NAV”) as a practical expedient to determine fair value.

Contract loans are reported at the unpaid principal and capitalized interest balance. Interest is capitalized into the loan balance each contract anniversary. Loans deemed uncollectible are written off. Loan balances in excess of cash value are nonadmitted.

Other invested assets consist of investments in joint ventures, partnerships, limited liability companies, low income housing tax credit (“LIHTC”) property investments and surplus notes. Investments in joint ventures, partnerships and limited liability companies are generally reported based on the underlying audited Generally Accepted Accounting Principles equity of the investee, with undistributed earnings or losses reflected in unassigned surplus as a change in net unrealized capital gains and losses and, are generally recognized on a delay due to the availability of financial statements. The change in net unrealized capital gains and losses is reported in unassigned surplus, as well as used in the calculation of the asset valuation reserve (“AVR”) provision. LIHTC property investments are carried at proportional amortized cost, based on the proportion of tax benefits received in the current year to total estimated tax benefits allocated to the Company. Surplus notes are reported at amortized cost or the lower of amortized cost or fair value depending on the NAIC designation.

Realized capital losses recognized on all bonds due to other-than-temporary impairment (“OTTI”) resulting from changes in the general level of interest rates are reported in the interest maintenance reserve (“IMR”), net of tax and amortized into the Summary of Operations. For LBASS designated as no intent and ability to hold, the non-interest related portion of OTTI losses is used in the calculation of the AVR provision, while

NOTES TO FINANCIAL STATEMENTS

the interest-related OTTI is reported in IMR. All other net realized capital gains and losses for other invested assets resulting from changes in the general level of interest rates and OTTI realized capital losses for other invested assets and bonds that are not a result of changes in the general level of interest rates are reported in the Summary of Operations and used in the calculation of the AVR provision, the change of which is reported within unassigned surplus.

Investment income primarily consists of interest, dividends, income from limited partnership interests, rental income from real estate and amortization of any premium or discount. Interest is recognized on an accrual basis using the effective yield method and dividends are recorded at the ex-dividend date. Interest income for LBASS is determined considering estimated pay-downs, including prepayments, obtained from third-party data sources and internal estimates. Actual prepayment experience is periodically reviewed and effective yields are recalculated when differences arise between the prepayments originally anticipated and the actual prepayments received and currently anticipated. For LBASS of high credit quality with fixed interest rates, the effective yield is recalculated on a retrospective basis. For all others, the effective yield is recalculated on a prospective basis. In periods subsequent to the recognition of an OTTI on a bond, including LBASS, the difference between the new amortized cost basis and the cash flows expected to be collected is accreted as interest income. Accrual of income is suspended for other-than-temporarily impaired bonds when the timing and amount of cash flows expected to be received is not reasonably estimable. Accrual of income is suspended for mortgage loans and bank loans that are in default or when the full and timely collection of principal and interest payments is not probable. Cash receipts on investments on nonaccrual status are generally recorded as a reduction of carrying value. Cash distributions received from investments in joint ventures, partnerships and limited liability companies are recognized in investment income to the extent that they are not in excess of the undistributed accumulated earnings attributable to the investee and the unrealized gain would be reversed. Any distributions that are in excess of the undistributed accumulated earnings attributable to the investee reduce the carrying amount of the investment.

Realized capital gains and losses include gains and losses on investment sales, write-downs in value due to other than temporary declines in fair value, expirations and settlements of certain derivatives. Realized capital gains and losses on investment sales are determined on a specific identification basis.

The Company has a comprehensive portfolio monitoring process to identify and evaluate each bond, including LBASS, and common and preferred stock, whose carrying value may be other-than-temporarily impaired. For each bond, excluding LBASS, in an unrealized loss position (fair value is less than amortized cost), the Company assesses whether management with the appropriate authority has made a decision to sell the bond prior to its maturity at an amount below its carrying value. If the decision has been made to sell the bond, the bond's decline in fair value is considered other than temporary and the Company recognizes a realized capital loss equal to the difference between the amortized cost and the fair value of the bond at the balance sheet date the assessment is made. If the Company has not made the decision to sell the bond, but it is probable the Company will not be able to collect all amounts due according to contractual terms, the bond's decline in value is considered other-than-temporarily impaired, and a write-down of the amortized cost to fair value is required. For securities with an NAIC designation of 6, unrealized losses that are not deemed other-than-temporarily impaired are reflected in the Company's unassigned surplus.

For LBASS, the Company assesses whether management with the appropriate authority has made a decision to sell each LBASS in an unrealized loss position or does not have the intent and ability to retain the LBASS for a period of time sufficient to recover the amortized cost basis. If either situation exists, the security's decline in value is considered other-than-temporarily impaired and the security is written down as a realized capital loss to fair value. If management has not made the decision to sell the LBASS and management intends to hold the security for a period of time sufficient to recover the amortized cost basis, the Company analyzes the present value of the discounted cash flows expected to be collected. If the present value of the discounted cash flows expected to be collected is less than the amortized cost, the security is considered other-than-temporarily impaired and the Company recognizes a realized capital loss for the difference between the present value of the discounted cash flows and the amortized cost. For securities with an NAIC designation of 6, unrealized losses that are not deemed other-than-temporarily impaired are reflected in the Company's unassigned surplus.

For common and preferred stocks, the Company considers various factors, including whether the Company has the intent and ability to hold the stock for a period of time sufficient to recover its cost basis. Where the Company lacks the intent and ability to hold to recovery, or believes the recovery period is extended, the stock's decline in fair value is other than temporary and the difference between the stock's cost and fair value is recognized as a realized capital loss. A decision to sell stock for an amount below its cost would be an other than temporary decline and a realized capital loss is recorded. For stocks managed by a third-party, either the Company has contractually retained its decision making authority as it pertains to selling stocks that are in an unrealized loss position or it recognizes an unrealized loss at the end of the period through a charge to realized capital loss.

The Company's portfolio monitoring process includes a quarterly review of all securities to identify instances where the fair value of a security compared to its amortized cost (for bonds, including LBASS) or cost (for stocks) is below internally established thresholds. The process also includes the monitoring of other impairment indicators such as ratings, ratings downgrades and payment defaults. The securities identified, in addition to other securities for which the Company may have a concern, are evaluated for potential OTTI using all reasonably available information relevant to the collectibility or recovery of the security. Inherent in the Company's evaluation of OTTI for these securities are assumptions and estimates about the financial condition and future earnings potential of the issue or issuer. Some of the factors that may be considered in evaluating whether a decline in fair value is other than temporary are: (1) the financial condition, near-term and long-term prospects of the issue or issuer, including relevant industry specific market conditions and trends, geographic location and implications of rating agency actions and offering prices; (2) the specific reasons that a security is in an unrealized loss position, including overall market conditions which could affect liquidity; and (3) the length of time and extent to which the fair value has been less than amortized cost or cost.

Impairment adjustments on mortgage loans are recorded when it is probable contractual principal and interest will not be collected. OTTI adjustments reduce the carrying value of mortgage loans to the fair value of the collateral less the estimated cost to sell. The carrying value of real estate is adjusted for OTTI only if it is not recoverable and exceeds fair value.

Derivative financial instruments

Derivative financial instruments include interest rate, total return, credit default and foreign currency swap agreements, foreign currency forward contracts, futures contracts, interest rate cap agreements and index option contracts. When derivatives meet specific criteria, they may be designated as accounting hedges, which means they may be accounted for and reported on in a manner that is consistent with the hedged asset or liability. Derivatives that are not designated as accounting hedges are accounted for on a fair value basis, with changes in fair value recorded as unrealized capital gains or losses in unassigned surplus. The determination of the AVR and IMR impact of realized capital gains and losses on derivatives is based on how the realized capital gains and losses of the underlying asset is reported. The Company's accounting policy for the various types of derivative instruments is discussed further in Note 8, Parts A, B & C.

Securities loaned

The Company's business activities include securities lending transactions, which are used primarily to generate net investment income. The proceeds received in conjunction with securities lending transactions are reinvested in cash equivalents, short-term investments or bonds.

Off-balance sheet financial instruments

Commitments to invest, commitments to extend loans, and commitments to purchase private placement securities have off-balance-sheet risk because their contractual amounts are not recorded in the Company's Statements of Financial Position. The details of the off-balance-sheet commitments are discussed further in Note 16.

Premiums and annuity considerations

Annual premiums for most traditional life insurance policies are recognized as revenue on the policy anniversary date. Premiums, based on modal payment, for accident and health insurance, group life and certain immaterial traditional life insurance policies are recognized as revenue when due. Considerations received for supplementary contracts with life contingencies are recognized as revenue when due. Premiums for all

NOTES TO FINANCIAL STATEMENTS

single and flexible premium life insurance and annuity products are recognized as revenue when collected. Considerations received on deposit-type funds, which do not contain any life contingencies, are recorded directly to the related reserve liability.

Premiums written and not yet collected from policyholders are shown as a receivable, with balances older than 90 days nonadmitted.

Reserves for policy benefits

The Company adopted Principles Based Reserving ("PBR") which are computed actuarially according to the *Valuation Manual* Section 20 method with interest, mortality and other assumptions applied in compliance with statutory regulations for life policies issued on or after January 1, 2020.

Policy benefit reserves for traditional and flexible premium life insurance policies excluding PBR policies are computed actuarially according to the Commissioners' Reserve Valuation Method ("CRVM") with interest, mortality and other assumptions applied in compliance with statutory regulations. Benefit reserves for annuity products are calculated according to the Commissioners' Annuity Reserve Valuation Method with interest, mortality and other assumptions applied in compliance with statutory regulations. Benefit reserves for modified guaranteed annuity products are calculated according to Title 50 of the Illinois Administrative Code, Part 1410 with interest and mortality assumptions in compliance with statutory regulations.

Reserves for deposit-type funds are equal to deposits received and interest credited to the benefit of contractholders, less surrenders and withdrawals that represent a return to the contractholder. For deposit-type funds with no cash values prior to maturity, reserves are present values of contractual payments with interest assumptions in compliance with statutory regulations. Tabular interest on deposit-type funds is calculated as the prescribed valuation interest rate times the mean amount of funds subject to such rate held at the beginning and end of the year of valuation.

Policy benefit reserves for accident and health and group life insurance products include claim reserves, contract reserves and unearned premiums, if applicable. Claim reserves, including incurred but not reported claims, represent management's estimate of the ultimate liability associated with unpaid policy claims, based primarily upon analysis of past experience. To the extent the ultimate liability differs from the amounts recorded, such differences are reflected in the Summary of Operations when additional information becomes known.

Asset valuation and interest maintenance reserves

The Company establishes the AVR and IMR as promulgated by the NAIC. The AVR offsets potential credit-related investment losses and volatility in recorded changes in fair value measurements on all invested asset categories excluding cash, contract loans, premium notes, collateral notes and income receivables. The AVR calculation is formula-based and considers the prior year reserve balance, the current year's realized credit-related (default) and equity capital gains and losses, net of capital gains tax, and the current year's unrealized capital gains and losses, net of deferred taxes thereon, applicable to the invested asset categories that are grouped within the default and equity components. The default component includes long-term bonds, preferred stocks, short-term bonds, derivatives and mortgage loans. The equity component includes common stocks, real estate and other invested assets. Other invested assets consist of investments in joint ventures, partnerships, limited liability companies, low income housing tax credit property investments, collateral loans and surplus notes. The undistributed earnings or losses from investments in joint ventures, partnerships and limited liability companies are reported as changes in unrealized capital gains and losses and included in the AVR. Cash distributions received from investments in joint ventures, partnerships and limited liability companies are recognized in investment income to the extent that they are not in excess of the undistributed accumulated earnings attributable to the investee and the unrealized gain would be reversed, whereas, any distributions that are in excess of the undistributed accumulated earnings attributable to the investee reduce the carrying amount of the investment. Realized and unrealized capital gains increase the AVR and realized and unrealized capital losses decrease the AVR. The Company's total AVR is generally limited to a maximum amount of credit-related reserve that is calculated using a set of factors applied to the admitted asset values of the various invested asset categories. Total AVR in one sub-component of either the default or equity component that is in excess of the maximum reserve must be transferred to the "sister" sub-component if that sub-component's total AVR is below its maximum reserve. If the total AVR in either of the combined default or equity component is in excess of the combined maximum reserve, the Company may transfer the excess to the other component if that component's total AVR is below its maximum reserve, or the excess reserve may be released to unassigned surplus. In general, decreases in the Company's total invested assets portfolio will decrease the total AVR and increases will increase the total AVR.

The IMR captures the realized capital gains and losses that result from changes in the overall level of interest rates and amortizes them into investment income over the approximate remaining life of the investments sold. The IMR includes all realized capital gains and losses, net of capital gains tax thereon, due to interest rate changes on fixed income investments, mortgage loans and derivatives, and excludes credit-related realized capital gains and losses on default component invested assets, realized capital gains and losses on equity investments and unrealized capital gains and losses. After a realized capital gain or loss has been identified as interest-related and an expected maturity date has been determined, a company may select either a grouped method or serial method for calculating the IMR amortization. The Company has elected to use the grouped method in calculating its IMR amortization. The total IMR is calculated by adding the current year's interest-related capital gains and losses, net of capital gains tax, to the prior year reserve and subtracting the current year's amortization released to the Summary of Operations. A negative IMR is reported as a nonadmitted asset. Make whole fees and prepayment penalties are recorded as investment income and not included in the IMR.

Reinsurance

The amounts reported in the Assets page as amounts recoverable from reinsurers include amounts billed to reinsurers for losses paid. Contract claims are reported net of reinsurance recoverables on unpaid losses, which represent estimates of amounts expected to be recovered from reinsurers on incurred losses that have not yet been paid. Reinsurance recoverables on unpaid losses are estimated based upon assumptions consistent with those used in establishing the liabilities related to the underlying reinsured contract and in accordance with the coverage, terms and conditions of the reinsurance agreement. Reinsurance premiums are generally reflected in income in a manner consistent with the terms of the reinsurance agreements. Reinsurance does not extinguish the Company's primary liability under the policies written. Reinsurance recoverable balances that are current and from authorized reinsurers are reported as admitted assets. Reinsurance recoverable balances from unauthorized reinsurers require collateral at least equal to the amount recoverable, or the recoverable balance is nonadmitted. All reinsurance recoverable balances that are 90 days past due are nonadmitted. If it is probable that reinsurance recoverables on paid or unpaid claim or benefit payments are uncollectible, these amounts are written off through a charge to the Summary of Operations.

Income taxes

The income tax provision is calculated under the liability method. Deferred tax assets ("DTAs") and deferred tax liabilities ("DTLs") are recorded based on the difference between the statutory financial statement and tax bases of assets and liabilities at the enacted tax rates. Deferred income taxes also arise from net unrealized capital losses on certain investments carried at fair value. The net change in DTAs and DTLs is applied directly to unassigned surplus. The nonadmitted portion of gross DTAs is determined by applying the rules prescribed by SSAP No. 101, *Income Taxes* ("SSAP No. 101").

Separate Accounts

The assets of the Separate Accounts are carried at fair value. Separate Accounts liabilities represent the contractholders' claims to the related assets and are carried at the fair value of the assets. In the event the asset values of certain contractholder accounts are projected to be below the value guaranteed by the Company, a liability is established through a charge to earnings. Reserves for guarantees provided by the Company are included in Exhibit 5 of the Company's General Account Annual Statement.

The Company holds on a direct basis and assumes via a modified coinsurance agreement, reserves for variable annuity contracts and variable life policies at less than the fund balances carried in the Separate Accounts. The difference between the reserves and the fund balances of the Separate Accounts is transferred from the Separate Accounts to the General Account, and the majority of the variable annuity portion is

NOTES TO FINANCIAL STATEMENTS

subsequently reinsured via a modified coinsurance agreement. Premiums, contract benefits, reserve transfers, policy loans and policyholder charges are also transferred from the Separate Accounts to the General Account.

Separate Accounts premium deposits, benefit expenses and contract charges for mortality risk, contract and policy administration are recorded by the Company and reflected in the Summary of Operations. Investment income, realized capital gains and losses and changes in unrealized capital gains and losses related to assets which support variable annuity contracts and variable life policies accrue directly to the contractholders and, therefore, are not included in the Summary of Operations. Investment income, realized capital gains and losses and changes in unrealized capital gains and losses related to assets which support indexed variable annuity contracts accrue to the Company. Gains or losses from the indexed variable annuity business, net of reinsurance, are included in net transfers to or (from) Separate Accounts in the Summary of Operations. Reserve liabilities for indexed variable annuity contracts are valued using a prescribed statutory valuation interest rate.

D. Based upon its evaluation of relevant conditions and events, management did not have substantial doubt about the Company's ability to continue as a going concern as of December 31, 2020 or 2019.

2. Accounting Changes and Corrections of Errors

Not applicable.

3. Business Combinations and Goodwill

Not applicable.

4. Discontinued Operations

Not applicable.

5. Investments

A. Mortgage Loans, including Mezzanine Real Estate Loans

- 1. The minimum and maximum lending rates for new mortgage loans in 2020 and 2019 were 3.00% and 4.73%, and 3.20% and 5.24%, respectively. All new mortgage loans were commercial.
- 2. For loans acquired during 2020 and 2019, the maximum percentage of any one loan to the value of the property at the time of the loan was 74.3% and 75.0%, respectively.

(in millions)	2020		2019

2. Interest income recognized	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
3. Recorded investments on nonaccrual status	\$ -	\$ -	\$ -	\$ -	\$ 8	\$ -	\$ 8
4. Amount of interest income recognized using a cash-basis method of accounting	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -

7. The Company did not have any activity to report for 2020 or 2019 within the allowance for credit losses account.
8. None of the Company’s mortgage loans were derecognized as a result of foreclosure in 2020 or 2019.
9. Mortgage loans are evaluated for impairment on a specific loan basis through a quarterly credit monitoring process and review of key credit quality indicators. Mortgage loans are considered impaired when it is probable the Company will not collect the contractual principal and interest. Accrual of income is suspended for mortgage loans that are in default or when full and timely collection of principal and interest payments is not probable. Cash receipts on mortgage loans on nonaccrual status are generally recorded as a reduction of carrying value.

B. Debt Restructuring

(in millions)			2020	2019
1.	The total recorded investment in restructured loans, as of December 31		\$ 12	\$ 11
2.	The realized capital losses related to these loans		\$ 1	\$ -
3.	Total contractual commitments to extend credit to debtors owing receivables whose terms have been modified in troubled debt restructurings		\$ 2	\$ 6
4.	Accrual of income is suspended for mortgage loans and bank loans that are in default or when full and timely collection of principal and interest payments is not probable. Cash receipts on investments on nonaccrual status are generally recorded as a reduction of carrying value.			

C. Reverse Mortgages - Not applicable.

NOTES TO FINANCIAL STATEMENTS

D. Loan-Backed Securities

1. Prepayment assumptions for LBASS were obtained from external sources and, if not available, developed internally.
2. The following table presents the aggregate amortized cost of LBASS before recognized OTTI, the amount of OTTI recognized and the fair value of those securities.

(in millions)	2020			2019

4. Unrealized losses are calculated as the difference between amortized cost and fair value. They result from declines in fair value below amortized cost and are evaluated for OTTI. Every LBASS with unrealized losses was included in the portfolio monitoring process.

The following table summarizes gross unrealized losses and the fair value of LBASS by the length of time individual securities have been in a continuous unrealized loss position as of December 31.

(in millions)	2020	2019
a. The aggregate amount of unrealized losses:		
1. Less than 12 months	\$ (10)	\$ (1)
2. 12 months or longer	\$ (2)	\$ (3)
b. The aggregate related fair value of securities with unrealized losses:		
1. Less than 12 months	\$ 86	\$ 104
2. 12 months or longer	\$ 5	\$ 25

5. The following table summarizes the gross unrealized losses by unrealized loss position and credit quality as of December 31, 2020.

(in millions)	Investment Grade	Below Investment Grade	Total
LBASS with unrealized loss position less than 20% of amortized cost ⁽¹⁾⁽²⁾	\$ (1)	\$ (9)	\$ (10)
LBASS with unrealized loss position greater than or equal to 20% of amortized cost ⁽³⁾	(2)	-	(2)
Total unrealized losses	(3)	(9)	(12)

⁽¹⁾ Substantially all below investment grade LBASS have been in an unrealized loss position for less than twelve months.

⁽²⁾ Related to LBASS with an unrealized loss position less than 20% of amortized cost, the degree of which suggested that these securities did not pose a high risk of being other-than-temporarily impaired.

⁽³⁾ Evaluated on factors such as discounted cash flows and the financial condition and near-term and long-term prospects of the issue or issuer and were determined to have adequate resources to fulfill contract obligations.

NOTES TO FINANCIAL STATEMENTS

Investment grade is defined as a security having an NAIC designation of 1 or 2, a rating of Aaa, Aa, A or Baa from Moody's, a rating of AAA, AA, A or BBB from S&P Global Ratings, a comparable rating from another nationally recognized rating agency, or a comparable internal rating if an externally provided rating is not available. Market prices for certain securities may have credit spreads which imply higher or lower credit quality than the current third-party rating. Unrealized losses on investment grade securities were principally related to an increase in market yields which may include increased risk-free interest rates and/or wider credit spreads since the time of initial purchase. The unrealized losses are expected to reverse as the securities approach maturity.

LBASS in an unrealized loss position were evaluated based on actual and projected collateral losses relative to the securities' positions in the respective securitization trusts, security specific expectations of cash flows and credit ratings. This evaluation also takes into consideration credit enhancement, measured in terms of: (1) subordination from other classes of securities in the trust that are contractually obligated to absorb losses before the class of security the Company owns, and (2) the expected impact of other structural features embedded in the securitization trust beneficial to the class of securities the Company owns, such as overcollateralization and excess spread.

As of December 31, 2020, the Company had not made the decision to sell and it was not more likely than not the Company would be required to sell LBASS with unrealized losses before recovery of the amortized cost basis. As of December 31, 2020, the Company had the intent and ability to hold LBASS with unrealized losses for a period of time sufficient for them to recover.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions

- 1. The Company receives cash collateral for securities loaned in an amount generally equal to 102% and 105% of the fair value of domestic and foreign securities, respectively, and records the related obligations to return the collateral as a liability.
- 2. The Company did not pledge its assets as collateral in securities lending transactions as of December 31, 2020 or 2019.
- 3. Collateral Received

a. Aggregate Amount Collateral Received

- 1. The following table summarizes the Company's cash collateral received in connection with its securities lending program as of December 31:

	Fair Value	
	2020	2019
(in millions)		
Securities lending		
(a) Open	\$ 255	\$ 365
(b) 30 days or less	-	-
(c) 31 to 60 days	-	-
(d) 61 to 90 days	-	-
(e) Greater than 90 days	-	-
(f) Subtotal	\$ 255	\$ 365
(g) Securities received	-	-
(h) Total collateral received	\$ 255	\$ 365

- 2. The Company did not enter into dollar repurchase agreements in 2020 or 2019.

b.

	December 31,	
	2020	2019
(in millions)		
The fair value of that collateral and of the portion of that collateral that it has sold or repledged	\$ 260	\$ 369

- c. All collateral is received in the form of cash, unrestricted and maintained in a separate custody account. Collateral is invested in cash equivalents, short-term investments or bonds during the agreement period. The Company monitors the fair value of securities loaned on a daily basis and obtains additional collateral as necessary under the terms of the agreements to mitigate counterparty credit risk. The Company maintains the right and ability to repossess the securities loaned on short notice. Substantially all of the Company's securities loaned were placed with large banks.

- 4. The Company did not use affiliated agents for its securities lending transactions.

5. Collateral Reinvestment

a. Aggregate Amount Collateral Reinvested

- 1. The following table summarizes the Company's reinvested cash collateral in connection with its securities lending program as of December 31:

	2020		2019	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
(in millions)				
Securities lending				
(a) Open	\$ 201	\$ 201	\$ 209	\$ 209
(b) 30 days or less	-	-	160	160
(c) 31 to 60 days	-	-	-	-
(d) 61 to 90 days	-	-	-	-
(e) 91 to 120 days	59	59	-	-
(f) 121 to 180 days	-	-	-	-
(g) 181 to 365 days	-	-	-	-
(h) 1 to 2 years	-	-	-	-
(i) 2 to 3 years	-	-	-	-
(j) Greater than 3 years	-	-	-	-
(k) Subtotal	\$ 260	\$ 260	\$ 369	\$ 369
(l) Securities received	-	-	-	-
(m) Total collateral reinvested	\$ 260	\$ 260	\$ 369	\$ 369

- 2. The Company did not enter into dollar repurchase agreements in 2020 or 2019.

- b. The maturity dates of the liability (collateral to be returned) did not match the invested assets. The invested assets are short-term investments and bonds that can easily be liquidated on demand to match the liability.

- 6. All the collateral the Company has accepted under its securities lending program is permitted, by contract or custom, to be sold or repledged.
- 7. None of the securities lending transactions the Company has entered into extend beyond a year.

NOTES TO FINANCIAL STATEMENTS

- F. Repurchase Agreements Transactions Accounted for as Secured Borrowing - Not applicable.
- G. Reverse Repurchase Agreements Transactions Accounted for as Secured Borrowing - Not applicable.
- H. Repurchase Agreements Transactions Accounted for as a Sale - Not applicable.
- I. Reverse Repurchase Agreements Transactions Accounted for as a Sale - Not applicable.
- J. Real Estate
1. The Company did not recognize impairment losses related to its real estate investments in 2020 or 2019.
 2. None of the Company's real estate investments were sold in 2020 or 2019. At December 31, 2020, two real estate investments were classified as held for sale due to market conditions. No investments were held for sale as of December 31, 2019.
 3. In 2020 and 2019 there were no changes to the plan of sale for assets classified as held for sale.
 4. The Company did not engage in retail land sales operations in 2020 or 2019.
 5. The Company did not hold real estate with participating mortgage loan features in 2020 or 2019.
- K. LIHTC Property Investments
1. For the Company's LIHTC property investments, the number of remaining years of unexpired tax credits ranged from 2 to 13 years and 3 to 13 years as of December 31, 2020 and 2019, respectively. These investments have a required holding period of up to 15 years.
 2. The net amount of LIHTC and other tax benefits recognized during 2020 and 2019 was \$80 million and \$66 million, respectively.
 3. The balance of the admitted LIHTC property investments recognized within other invested assets was \$490 million and \$426 million as of December 31, 2020 and 2019, respectively.
 4. Management was not aware of any of the Company's LIHTC property investments and related properties being the subject of any regulatory reviews as of December 31, 2020 or 2019.
 5. The Company's LIHTC property investments did not exceed 10% of total admitted assets as of December 31, 2020 or 2019.
 6. The Company did not recognize OTTI losses related to its LIHTC property investments in 2020 or 2019.
 7. In 2020 and 2019, the Company did not write-down or reclassify LIHTC property investments.

NOTES TO FINANCIAL STATEMENTS

L. Restricted Assets

* u. = Column 1 divided by Liability Page, Line 26 (Column 1) v. = Column 1 divided by Liability Page, Line 27 (Column 1)		

NOTES TO FINANCIAL STATEMENTS

- M. Working Capital Finance Investments - Not applicable.
- N. Offsetting and Netting of Assets and Liabilities

None of the Company's derivative or securities lending transactions contain a valid right to offset assets and liabilities per the requirements of SSAP No. 64, *Offsetting and Netting of Assets and Liabilities*. The Company did not enter into repurchase agreements, reverse repurchase agreements or securities borrowing transactions.

- O. 5GI Securities

The Company held the following 5GI securities as of December 31:

Investment	Number of 5GI Securities		Aggregate Book/Adjusted Carrying Value		Aggregate Fair Value	
	2020	2019	2020	2019	2020	2019
(1) Bonds - AC	3	6	\$ 18	\$ 27	\$ 19	\$ 28
(2) LBASS - AC	1	-	7	-	7	-
(3) Preferred stocks - AC	-	-	-	-	-	-
(4) Preferred stocks - FV	-	-	-	-	-	-
(5) Total (1+2+3+4)	4	6	\$ 25	\$ 27	\$ 26	\$ 28

AC – Amortized cost FV – Fair value

- P. Short Sales – Not applicable.
- Q. Prepayment Penalty and Acceleration Fees

The following table provides the number of CUSIPs sold, redeemed or otherwise disposed of and the aggregate amount of investment income generated for bonds, including LBASS, sold, redeemed or otherwise disposed of as a result of a callable feature for the years ended December 31:

(\$ in millions)	2020		2019	
	General Account	Separate Account	General Account	Separate Account
(1) Number of CUSIPs	416	3	313	-
(2) Aggregate amount of investment income	\$ 34	\$ 1	\$ 27	\$ -

- R. Reporting Entity’s Share of Cash Pool by Asset Type

The percentage share of the underlying assets of the Short term pool was as follows as of December 31, 2020:

(1) Cash	- %
(2) Cash equivalents	100.0 %
(3) Short-term investments	- %
(4) Total Short term pool	100.0 %

6. Joint Ventures, Partnerships and Limited Liability Companies

- A. The Company did not have investments in joint ventures, partnerships or limited liability companies that exceeded 10% of its admitted assets as of December 31, 2020 or 2019.
- B. The Company recognized impairment write-downs on its investments in partnerships accounted for in accordance with SSAP No. 48, *Joint Ventures, Partnerships and Limited Liability Companies* (“SSAP No. 48”) as follows. All impairment write-downs were identified during the Company’s normal ongoing portfolio monitoring process.

(\$ in millions)	Number of Assets		Impairment Amount		Facts and Circumstances Leading to Impairment	How Fair Value Determined
	2020	2019	2020	2019		
Asset Description						
Partnership	2	1	\$ 32	\$ 2	Decline in the fair value of the underlying investments deemed to be other-than-temporary	Assessment of market value of partnership’s investments

The Company did not recognize impairment write-downs on investments in joint ventures or limited liability companies accounted for in accordance with SSAP No. 48 in 2020 or 2019..

7. Investment Income

- A. Due and accrued investment income is recorded as an asset, with three exceptions. Due and accrued investment income on mortgage loans in default, where interest is more than 180 days past due, is nonadmitted. Due and accrued investment income for investments other than mortgage loans, that is more than 90 days past due, is nonadmitted. In addition, due and accrued investment income that is determined to be uncollectible, regardless of its age, is written off in the period that determination is made.
- B. All due and accrued investment income was admitted as of December 31, 2020 and 2019.

8. Derivative Instruments

- A. Derivatives under SSAP No. 86 – *Derivatives*

- 1.,
2. &
3. Derivative financial instruments utilized by the Company during 2020 and 2019 included interest rate, total return, credit default and foreign currency swap agreements, foreign currency forward contracts, futures contracts, interest rate cap agreements and index option contracts. The notional amounts specified in the contracts are used to calculate the exchange of contractual payments under the agreements and are generally not representative of the potential for gain or loss on these agreements. However, the notional amounts specified in credit default swap agreements where the Company has sold credit protection represents the maximum amount of potential loss, assuming no recoveries.

Market risk is the risk that the Company will incur losses due to adverse changes in market rates and prices. Market risk exists for all of the derivative financial instruments the Company currently holds, as these instruments may become less valuable due to adverse changes in market conditions. To limit this risk, the Company’s senior management has established risk control limits. In addition, changes in fair value of the derivative financial instruments that the Company uses for risk management purposes are generally offset by the change in the fair value or cash flows of the hedged risk component of the related assets, liabilities or forecasted transactions.

NOTES TO FINANCIAL STATEMENTS

The Company manages its exposure to credit risk by utilizing highly rated counterparties, establishing risk control limits, executing legally enforceable master netting agreements and obtaining collateral where appropriate. The Company has not incurred any losses on derivative financial instruments due to counterparty nonperformance. Other derivatives, including futures and certain option contracts, are traded on organized exchanges, which require margin deposits and guarantee the execution of trades, thereby mitigating any potential credit risk.

Counterparty credit exposure represents the Company's potential loss if all of the counterparties concurrently fail to perform under the contractual terms of the contracts and all collateral, if any, becomes worthless. This exposure is measured by the statement value of over-the-counter and cleared derivative contracts with a positive statement value at the reporting date.

The Company uses derivatives for risk reduction and to increase investment portfolio returns through asset replication. Risk reduction activity is focused on managing the risks with certain assets and liabilities arising from the potential adverse impacts from changes in risk-free interest rates, changes in equity market valuations, increases in credit spreads and foreign currency fluctuations. Asset replication refers to the "synthetic" creation of assets through the use of derivatives. The Company replicates bonds using a combination of a credit default swap agreement or a total return swap agreement and one or more highly rated bonds, primarily investment grade host bonds, to synthetically replicate the economic characteristics of one or more cash market securities. The Company replicates equity returns using total return swap agreements, futures and options to increase equity exposure. With the exception of non-hedge derivatives used for asset replication, all of the Company's derivatives are evaluated for their ongoing effectiveness as either accounting hedge or non-hedge derivative financial instrument on at least a quarterly basis. The Company does not use derivatives for speculative purposes.

The paragraphs below describe the derivatives the Company uses, including the objectives, cash requirements and accounting policies.

Swaps

Interest rate swap agreements are agreements that periodically exchange the difference between two designated sets of cash flows (fixed to variable rate, variable to fixed rate, or variable to variable rate), based upon designated market rates or rate indices and a notional amount. The Company primarily uses interest rate swap agreements to change the interest rate characteristics of existing assets and liabilities to ensure the relationship is maintained within specified ranges and to reduce exposure to rising or falling interest rates. Cash settlements usually occur at dates specified in individual agreements. The amount of cash exchanged is equal to the difference between the rate in the contract at which the Company receives cash compared to the rate at which the Company is to pay cash.

Total return swap agreements are agreements where one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income it generates and any capital gains. The Company uses total return swap agreements for asset replication and as a hedge to offset valuation losses in the portfolio during periods of declining market values. Cash settlements usually occur at dates specified in individual agreements. The amount of cash exchanged is equal to the difference between the set rate in the contract and the return of the underlying asset.

Credit default swap agreements are used for either buying credit protection or selling credit protection on a specified entity, basket of entities or index. Buying credit protection requires a payment of a premium to a counterparty or a clearing house in exchange for a future cash settlement or a promise to deliver a bond, if a specified credit event occurs. Selling credit protection provides for the receipt of a premium from a counterparty or a clearing house in exchange for a future cash settlement, or a promise to purchase a bond, if a specified credit event occurs. The Company enters into certain credit default swap agreements as a means to buy protection, mitigating the credit risk in a particular bond or bond portfolio, while leaving the security or bond portfolio intact. The Company enters into other credit default swap agreements as replication transactions, enabling greater diversification of credit risk by selling protection on specified entities, or baskets of entities that may not be frequent issuers in the traditional corporate bond market and by selling protection or indices also as a less expensive alternative to the cash market.

Foreign currency swap agreements involve the periodic exchange of consideration based on relative changes in two designated currencies and, if applicable, differences between fixed rate and variable cash flows or two different variable cash flows, all based on a pre-determined notional amount. The Company enters into these agreements primarily to reduce the currency risk associated with holding foreign currency denominated investments. Cash settlements are required when the contract matures. The amount of cash exchanged is based on the difference between the specified rate on the date the contract was entered into (contract rate) compared to the actual rate on the settlement date. On the settlement date, the Company will either pay or receive cash equal to the difference between the contract rate and the actual rate multiplied by a specified notional amount.

Interest rate, foreign currency, total return and credit default swap agreements are reported in Schedule DB, Part A. Contracts used for replication purposes are also reported in Schedule DB, Part C. Interest rate swap agreements receive either fair value or cash flow hedge accounting treatment, or non-hedge accounting treatment, depending on the strategy. Total return swap agreements used as a hedge receive non-hedge accounting treatment. Foreign currency swap agreements are generally accounted for as foreign currency fair value or cash flow hedges. Credit default swap agreements used for buying protection receive non-hedge accounting treatment. Periodic settlements, which represent amounts receivable from/payable to the counterparties or clearing houses are based on the settlement terms within the agreement, and reported as a component of net investment income. For interest rate swap agreements and foreign currency swap agreements hedging liabilities that receive fair value hedge accounting treatment, periodic settlements are reported with policyholder benefits and expenses. The change in the fair value of certain open swap agreements that receive non-hedge accounting treatment are reported as net unrealized capital gains and losses, within unassigned surplus and used in the calculation of the AVR provision. Total return and credit default swap agreements entered into as replication transactions are valued at amortized cost. When certain swap agreements receive hedge accounting treatment, the hedging relationship ceases if the swap agreement terminates or becomes ineffective or if the hedged asset becomes impaired or is sold. Generally, if a swap agreement is terminated prior to the expiration date, gains or losses are reported as net realized capital gains or losses if the underlying hedged item has been disposed. If the hedged item still exists and the swap agreement terminates or becomes ineffective, gains or losses are attached to the hedged item and amortized into net investment income over the remaining life of the underlying hedged item. If the hedged item is an impaired asset, gains or losses associated with the swap agreement are included in the written-down value of the impaired asset and depending on the circumstances, hedge accounting may cease. If the hedged item is sold, the swap agreement is generally terminated or accounted for as a non-hedge swap agreement.

Foreign currency forward contracts involve the future exchange or delivery of foreign currencies based on terms negotiated at the inception of the contract which are settled at the end of the contract. They are primarily used to reduce foreign currency risk associated with holding foreign currency denominated investments. Cash settlement is required when the contract matures. The amount of cash exchanged is based on the difference between the specified rate on the date the contract was entered into (contract rate) compared to the actual rate on the settlement date. On the settlement date, the Company will either pay or receive cash equal to the difference between the contract rate and the actual rate multiplied by the specified notional amount. The change in the fair value of open foreign currency forward contracts is reported as net unrealized capital gains and losses, within unassigned surplus and used in the calculation of the AVR provision, until closed (e.g. terminated or settled). If the contract was hedging coupon payments of a bond, any gains and losses at closing are reported in net investment income. If the contract was hedging the original principal of a bond or the bond the Company was hedging is sold, any gains and losses at closing are reported in realized capital gains or losses. These contracts are reported in Schedule DB, Part A and receive non-hedge accounting treatment.

Futures

The Company utilizes equity index and interest rate futures contracts. Futures contracts are defined as commitments to buy or sell designated financial instruments based on specified prices, yields or indices. Futures contracts provide returns at specified or optional dates based upon a specified index or interest rate applied to a notional amount. The Company utilizes futures contracts to (1) change the interest rate characteristics of existing assets and liabilities to ensure the relationship is maintained within specified ranges and to reduce exposure to rising or falling interest rates; (2) hedge the equity exposure contained in equity indexed life and annuity product contracts that offer equity returns to contractholders; (3) offset valuation losses in the common and preferred stock portfolios during periods of declining equity market values; and (4) increase equity exposure through asset replication. Daily cash settlement of variation margins is required for

NOTES TO FINANCIAL STATEMENTS

futures contracts and is based on the changes in daily prices. The final settlement of equity index and interest rate futures contracts is always in cash. Daily cash settlements of margin gains or losses for futures contracts receiving fair value hedge accounting treatment are reported in net investment income. The daily cash settlements of margin gains and losses for futures contracts that receive non-hedge accounting treatment and have terminated are reported in net realized capital gains or losses. The daily cash settlements of margin gains and losses for open futures contracts that receive non-hedge accounting treatment are reported as net unrealized capital gains and losses within unassigned surplus and used in the calculation of the AVR provision. Futures contracts are reported in Schedule DB, Part B and receive either fair value hedge accounting or non-hedge accounting treatment, depending on the strategy. Futures contracts used for replication purposes are also reported in Schedule DB, Part C.

Options

Interest rate cap agreements give the holder the right to receive at a future date, the amount, if any, by which a specified market interest rate exceeds the fixed cap rate, applied to a notional amount. These agreements are utilized to change the interest rate characteristics of existing assets and liabilities to ensure the relationship is maintained within specified ranges and to reduce exposure to rising or falling interest rates. Typically a premium is paid to the counterparty at the inception of a contract. Cash is received based on the amount, if any, by which a specified market interest rate exceeds the fixed cap rate, applied to the notional amount. Premiums paid are reported as derivative assets. Periodic settlements received are reported as net investment income. The change in the fair value of open agreements is reported as net unrealized capital gains and losses, within unassigned surplus and used in the calculation of the AVR provision. If an agreement is terminated prior to its expiration date, gains or losses are reported in net realized capital gains or losses. For certain interest rate cap agreements whose premiums are payable in installments, the initial interest rate cap agreement asset is equal to the initial premium payment plus the sum of the remaining premium installments payable. Interest rate cap agreements are reported on Schedule DB, Part A and receive non-hedge accounting treatment.

Index option contracts provide returns at specified or optional dates based on a specified equity index applied to the option's notional amount. When the Company purchases and writes (sells) option contracts at specific prices, a premium is calculated for the right, but not the obligation, to buy/sell the value of an underlying index at a stated price on or before the expiration date of the option. The amount of premium calculated is based on the number of contracts purchased/sold, the specified price and the maturity date of the contract. Premiums are paid or received in cash at either the inception of the purchase/sale of the contract or throughout the life of the contract depending on the agreement with the counterparties and brokers. If the option is exercised, the Company receives/pays cash equal to the product of the number of contracts and the specified price in the contract (strike price). Purchased and written put and call index option contracts are cash settled upon exercise. If the options are not exercised, then no additional cash is exchanged when the contract expires. Premiums incurred when purchasing option contracts are reported as a derivative asset and premiums received when writing option contracts are reported as a derivative liability. Purchased and written option contracts are reported on Schedule DB, Part A. Purchased and written option contracts used for replication purposes are also reported in Schedule DB, Part C.

The Company purchases and writes option contracts to hedge the equity exposure contained in equity indexed life and annuity product contracts that offer equity returns to contractholders. The purchased and written option contracts are accounted for as fair value hedges. The change in the fair value of purchased/written option contracts is reported as net investment income, with an adjustment to derivative assets/liabilities. The gain or loss on the cash settled exercise of a purchased/written index option is reported in net investment income. If the purchased/written option contract expires without being exercised, the premiums paid/received are reported as net investment income and the corresponding asset/liability previously recorded is reversed.

The Company purchases and writes option contracts for asset replication and as a hedge to offset valuation losses in the investment portfolio during periods of declining market values. Purchased and written index option contracts used as a hedge receive non-hedge accounting treatment. The change in the fair value of purchased/written option contracts is reported as net unrealized capital gains and losses, within unassigned surplus, with an adjustment to derivative assets/liabilities. The gain or loss on the cash settled exercise of a purchased/written index option is reported in realized capital gains or losses. If the purchased/written option contract expires without being exercised, the premiums paid/received are reported as realized capital gains or losses and the corresponding asset/liability previously recorded is reversed.

Purchased and written index option contracts entered into as replication transactions are valued at amortized cost. Premiums paid for a purchased/written option contract are amortized/accreted into net investment income over the life of the option. The gain or loss on the cash settled exercise of a purchased/written index option contract is reported in realized capital gains or losses.

4. The Company entered into option contracts which required the payment/receipt of premiums at either the inception of the contract or throughout the life of the contract, depending on the agreement with counterparties and brokers.
5. The Company did not have gains or losses in net unrealized capital gains or losses that represented a component of any derivatives' gain or loss that was excluded from the assessment of hedge effectiveness in 2020 or 2019.
6. The Company did not have gains or losses in net unrealized capital gains or losses that resulted from derivatives that no longer qualify for hedge accounting treatment in 2020 or 2019.
7. The Company did not have derivatives accounted for as cash flow hedges of a forecasted transaction.
8. The Company did not have open option contracts with financing premiums due as of December 31, 2020 or 2019.

B. Derivatives under SSAP No. 108 – *Derivative Hedging Variable Annuity Guarantees* ("SSAP No. 108")

The Company did not utilize hedging strategies accounted for under SSAP No. 108.

9. Income Taxes

The application of SSAP No. 101 requires the Company to evaluate the recoverability of DTAs and to establish a statutory valuation allowance adjustment ("valuation allowance") if necessary to reduce the DTA to an amount which is more likely than not to be realized. Considerable judgment is required in determining whether a valuation allowance is necessary, and if so, the amount of such valuation allowance. In evaluating the need for a valuation allowance the Company considers many factors, including: (1) the nature of the DTAs and DTLs; (2) whether they are ordinary or capital; (3) the timing of their reversal; (4) taxable income in prior carryback years as well as projected taxable earnings exclusive of reversing temporary differences and carryforwards; (5) the length of time that carryovers can be utilized; (6) unique tax rules that would impact the utilization of the DTAs; and (7) any tax planning strategies that the Company would employ to avoid an operating loss or tax credit carryforward from expiring unused. Although the realization is not assured, management believes it is more likely than not that the DTAs, net of valuation allowance, will be realized. The Company did not record a valuation allowance as of December 31, 2020 or 2019.

NOTES TO FINANCIAL STATEMENTS

A. 1. The components of the net DTA (DTL) were as follows as of December 31:

(in millions)	2020			2019			Change		
	(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)

4. Net DTAs/DTLs (2i – 3c)	<u>\$ 64</u>	<u>\$ (24)</u>	<u>\$ 88</u>

The change in net deferred income tax comprises the following as of December 31 (this analysis is exclusive of nonadmitted assets, as the change in nonadmitted assets is reported separately from the change in net deferred income tax in the surplus section of the Annual Statement):

(in millions)	2020	2019	Change
Total DTAs	\$ 368	\$ 289	\$ 79
Total DTLs	304	313	(9)
Net DTAs (DTLs)	<u>\$ 64</u>	<u>\$ (24)</u>	88
Tax effect of unrealized gains (losses)			(13)
Change in net deferred income tax			75
Tax effect of nonadmitted assets			(7)
Adjustment of prior year tax liabilities			(1)
Change in net deferred income tax relating to the provision			<u>\$ 67</u>
Total DTAs	\$ 289	\$ 324	\$ (35)
Total DTLs	313	310	3
Net DTAs (DTLs)	<u>\$ (24)</u>	<u>\$ 14</u>	(38)
Tax effect of unrealized gains (losses)			18
Change in net deferred income tax			(20)
Tax effect of nonadmitted assets			-
Adjustment of prior year tax liabilities			1
Change in net deferred income tax relating to the provision			<u>\$ (19)</u>

NOTES TO FINANCIAL STATEMENTS

D. The provision for federal income taxes incurred was different from that which would have been obtained by applying the statutory federal income tax rate to income before taxes. The items causing this difference were as follows as of December 31:

(in millions)	2020	Effective Tax Rate	2019	Effective Tax Rate
Provision computed at statutory rate	\$ 31	21.0 %	\$ 115	21.0 %
IMR amortization	4	2.6	(1)	(0.2)
Dividend received deduction	(2)	(1.6)	(2)	(0.4)
Intercompany dividends	(1)	(0.2)	(8)	(1.4)
Adjustment to prior year tax liabilities	(5)	(3.5)	-	-
Tax credits	(70)	(47.6)	(56)	(10.2)
Other	1	0.5	4	0.8
Change in net deferred income taxes	67	45.9	(19)	(3.6)
Total statutory income taxes	<u>\$ 25</u>	<u>17.1 %</u>	<u>\$ 33</u>	<u>6.0 %</u>

E. 1. As of December 31, 2020, the Company did not have net operating loss or tax credit carryforwards available to offset future net income subject to federal income taxes.

2. As of December 31, 2020, capital gain income taxes incurred by the Company in 2020, 2019, and 2018 of \$52 million, 45 million, and \$53 million, respectively, will be available for recoupment in the event of future net capital losses.

3. The Company did not have deposits admitted under Section 6603 of the Internal Revenue Code ("IRC") as of December 31, 2020 or 2019.

F. 1. The Allstate Corporation's (the "Corporation") federal taxable income for the year ended December 31, 2020 is consolidated with the entities listed below:

ALIC Reinsurance Company	Encompass Insurance Company
Allstate Assignment Company	Encompass Insurance Company of America
Allstate Assurance Company	Encompass Insurance Company of Massachusetts
Allstate Enterprises, LLC	Encompass Insurance Company of New Jersey
Allstate Financial Corporation	Encompass Property and Casualty Company
Allstate Financial Insurance Holdings Corporation	Encompass Property and Casualty Insurance
Allstate Fire and Casualty Insurance Company	Company of New Jersey
Allstate Indemnity Company	E.R.J. Insurance Group, Inc.
Allstate Insurance Company	Esurance Holdings, Inc.
Allstate International Assignments, Ltd.	Esurance Insurance Company
Allstate International Holdings, Inc.	Esurance Insurance Company of New Jersey
Allstate Investment Management Company	Esurance Insurance Services, Inc.
Allstate Investments, LLC	Esurance Property and Casualty Insurance Company
Allstate Life Insurance Company	First Colonial Insurance Company
Allstate Life Insurance Company of New York	iCracked Inc.
Allstate Motor Club, Inc.	InfoArmor, Inc.
Allstate New Jersey Insurance Company	Intramerica Life Insurance Company

Encompass Floridian Indemnity Company	SquareTrade Protection Solutions, Inc.
Encompass Floridian Insurance Company	ST Product Care Corporation
Encompass Home and Auto Insurance Company	The Allstate Corporation
Encompass Indemnity Company	VigilanteATI, Inc.
Encompass Independent Insurance Company	

2. The Company joins the Corporation and its 75 domestic subsidiaries in the filing of a consolidated federal income tax return. The consolidated group has elected under IRC Section 1552(a)(2) to allocate the consolidated federal income tax liability based on each member's federal income tax liability computed on a separate return basis, except all tax benefits resulting from operating losses and tax credits are allocated to the Company to the extent they can be utilized in the consolidated return.

G. The Company believes it is reasonably possible that the liability balance related to federal income tax loss contingencies will not significantly increase in the next twelve months.

H. The repatriation transition tax liability under the Tax Cuts and Jobs Act of 2017 is \$44 million.

The Company elected to pay the liability under the permitted installments. The schedule of payments made and expected future payments to satisfy the liability is as follows:

(in millions)	
First tax year (2017)	\$ 3
Second tax year (2018)	3
Third tax year (2019)	3
Fourth tax year (2020)	4
Fifth tax year (2021)	4
Sixth tax year (2022)	7
Seventh tax year (2023)	9
Eighth tax year (2024)	11
Total	<u>\$ 44</u>

I. Alternative Minimum Tax Credits – Not applicable.

NOTES TO FINANCIAL STATEMENTS

10. Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

- A.,
- B. &
- C. Transactions with Allstate Insurance Company ("AIC")

The Company paid a cash dividend of \$75 million to its parent, AIC, on June 24, 2019.

Transactions with Allstate Finance Company Agency Loans, LLC ("AFCAL")

On December 22, 2016, the Company purchased \$279 million of bonds issued by AFCAL. On December 16, 2019, the Company agreed to allow AFCAL to redeem the original notes at fair value of \$284 million, which included realized capital gains of \$10 million, plus accrued interest of \$219 thousand; and issue new notes at market rate. Concurrently with the redemption, the Company purchased an additional \$148 million of bonds issued by AFCAL. AFCAL is a bankruptcy remote, special purpose entity wholly owned by Allstate Non-insurance Holdings, Inc., which is wholly owned by the Corporation. The purpose of AFCAL is limited to purchasing and securitizing fixed rate term agent loans from Allstate Finance Company, LLC ("AFCO"), a wholly owned subsidiary of the Company, at fair value. AFCO originates commercial loans to Allstate exclusive insurance agents that are independent contractors of AIC and, as a result, the Company reports the investment in bonds as unaffiliated. The loans' sale transaction from AFCO to AFCAL meets "sale accounting" conditions in SSAP No. 103R, *Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* ("SSAP No. 103R"). AFCAL used the agent loans as collateral in the issuance of bonds, which are the sole source of cash flows for debt service. The transaction is structured as a loan securitization with oversight by a trustee and a servicer managing the portfolio. As of December 31, 2020 and 2019, the Company's investment in bonds issued by AFCAL was \$425 million and \$431 million, respectively. See Ref # - A in table below.

Transactions with AFCO

In 2020 and 2019, the Company paid capital contributions in cash to AFCO totaling \$12 million and \$30 million, respectively. AFCO provides commercial loans to insurance agents of AIC for the purpose of agency acquisitions, working capital and refinancing existing debt. On December 16, 2019, AFCO made a cash distribution to the Company totaling \$222 million, which comprised of return of capital of \$202 million and dividends of \$20 million. The amount of loans outstanding as of December 31, 2020 and 2019 was \$68 million and \$58 million, respectively.

Transactions with Allstate Short Term Pool, LLC

The Company invests in the Short term pool, which is offered by Allstate Short Term Pool, LLC, to certain wholly owned affiliated companies of the Corporation. The Short term pool is an investment pool managed by Allstate Investment Management Company ("AIMCO"), an affiliate of the Corporation, whose purpose is to efficiently manage cash and cash equivalents for its member companies. Each member company has an undivided interest in the underlying assets of the Short term pool per the Operating Agreement of Allstate Short Term Pool, LLC ("Operating Agreement"). The value of net assets that is the basis for current transactions and each share is determined daily by the Short term pool custodian. As of December 31, 2020, the Company's reported investment in the Short term pool was \$298 million. See Ref # - B in table below.

As of December 31, 2019, each member company had an undivided interest in the underlying assets of the Short term pool maintained at NAV as a practical expedient per the Operating Agreement. NAV was based on marking to market the underlying Short term pool's net assets and was the basis for current transactions between the Short term pool and member companies. As of December 31, 2019, the Company's investment in the Short term pool was \$421 million. See Ref # - B in table below.

Transactions with related parties who are not reported on Schedule Y

- (1) Detail of material related party transactions

(\$ in millions)							12/31/2020	12/31/2019
Ref #	Date of Transaction	Name of Related Party	Nature of Relationship	Type of Transaction	Written Agreement (Yes/No)	Due Date	Reporting Period Date Amount Due From (To)	Reporting Period Date Amount Due From (To)
A	12/16/2019	AFCAL	Affiliate	Investment in bonds issued	Yes	3/10/2037	\$ 425	\$ 431
B	7/15/2016	Allstate Short Term Pool, LLC	Affiliate	Investment in liquidity pool	Yes	on demand	\$ 298	\$ 421

- (2) Detail of material related party transactions involving services – Not applicable.
- (3) Detail of material related party transactions involving exchange of assets and liabilities – Not applicable.
- (4) Detail of amounts owed to/from a related party

See Note 10, Part D.

There were no other transactions entered into by the Company with related parties in 2020 or 2019 that involved more than ½ of 1% of the Company's admitted assets. Activity resulting from reinsurance agreements, insurance contracts or cost allocation transactions in accordance with intercompany agreement provisions was excluded.

NOTES TO FINANCIAL STATEMENTS

D. The Company reported the following as payable to affiliates as of December 31:

(in millions)	2020	2019
AIC	\$ 44	\$ 48
Allstate Investments, LLC ("AILLC")	4	5
Allstate Distributors, LLC	1	-
Total	<u>\$ 49</u>	<u>\$ 53</u>

The Company reported the following as receivables from affiliates as of December 31:

(in millions)	2020	2019
Allstate Life Insurance Company of New York ("ALNY")	\$ 3	\$ 2
Allstate Assurance Company ("AAC")	-	21
Total	<u>\$ 3</u>	<u>\$ 23</u>

Intercompany receivable and payable balances are evaluated on an individual company basis. Net intercompany balances less than \$1 million and those equal to or greater than \$1 million are generally settled quarterly and monthly, respectively.

E. The Company, the Corporation and certain of its affiliated insurance companies are parties to the Amended and Restated Service and Expense Agreement (the "Agreement") pursuant to which AIC provides access to a variety of services, including the utilization of shared bank accounts for cash collections and disbursements in certain situations. The Agreement provides for cost sharing and allocation of operating expense among the parties. The Company is a party to the Investment Management Agreement with AILLC whereby AILLC provides investment management services and advice.

The Company, the Corporation and certain of its wholly owned affiliated companies are parties to the Operating Agreement as described in Note 10, Parts A, B & C, which provides a framework for AIMCO to efficiently manage cash and cash equivalents of the Short term pool's members.

The Company, ALIC Re and The Bank of New York ("BONY") entered into the Amended and Restated Trust Agreement whereby the Company and ALIC Re created a trust account to be held by BONY for the benefit of the Company in connection with the Restated Coinsurance Agreement between the Company and ALIC Re.

The Company, ALNY and BONY entered into the Credit for Reinsurance Trust Agreement ("Reinsurance Trust") effective December 23, 2019, with the Company as grantor, ALNY as beneficiary and BONY as trustee. The Company established the Reinsurance Trust under the provisions of 11 CRR-NY 126 of New York Codes, Rules and Regulations (New York Regulation 114) for the benefit of ALNY. The assets held under the Reinsurance Trust amounted to \$1.56 billion and \$1.45 billion as of December 31, 2020 and 2019, respectively.

The Company is a party to a federal income tax allocation agreement with the Corporation (see Note 9, Part F).

The Company and AIC are parties to the Capital Support Agreement whereby AIC will provide capital and surplus to the Company in order for the Company to maintain a company action level risk-based capital ratio of at least 150.0%. AIC's obligation to provide capital and surplus to the Company is limited to an aggregate amount of \$1.00 billion, for which the Company pays AIC an annual commitment fee of 1.0% of the amount of the capital and surplus maximum, as defined in the agreement.

The Company, AIC and the Corporation are parties to the Liquidity Agreement as well as AAC, ALIC Re, Castle Key Insurance Company, Road Bay Investments, LLC, and AFCO. The Liquidity Agreement allows for short-term advances of funds to be made between parties for liquidity and other general corporate purposes, but does not establish a commitment to advance funds on the part of any party. The Company and AIC each serve as a lender and borrower, and the Corporation serves only as a lender, with a one-year term. The aggregate amount of advances made or received by the Company is limited to \$1.00 billion.

The Company entered into the Intercompany Loan Agreement with the Corporation. The amount available to the Company is at the discretion of the Corporation, however, the maximum amount of loans the Corporation will have outstanding to all its eligible subsidiaries at any given point in time is limited to \$1.00 billion. From time to time, the Company borrows money from the Corporation to meet its short-term cash needs. The Corporation may use commercial paper borrowings, bank lines of credit and securities lending to fund intercompany borrowings.

- F. All guarantees and undertakings of the Company are disclosed in Note 14, Part A in accordance with the requirements of SSAP No. 5R, *Liabilities, Contingencies and Impairments of Assets* ("SSAP No. 5R").
- G. The Company is wholly owned by AIC, an insurance company domiciled in the State of Illinois. AIC is a wholly owned subsidiary of Allstate Insurance Holdings, LLC ("AIH"), a Delaware limited liability company. AIH is a wholly owned subsidiary of the Corporation.
- H. Amount Deducted from Investment in Upstream Intermediate Entity or Ultimate Parent - Not applicable.
- I. The Company did not have investments in subsidiaries, controlled or affiliated ("SCA") entities that exceeded 10% of the Company's December 31, 2020 or 2019 admitted assets.
- J. Impairments of SCA Entities – Not applicable.
- K. Investments In Foreign Insurance Subsidiaries – Not applicable.
- L. The Company utilized the look-through approach to determine the carrying value of its investment in the downstream noninsurance holding company NBInv Riverside Management, LLC ("NBInv Management") as of December 31, 2020 and 2019. NBInv Management is a holding company whose financial statements are not audited. NBInv Management has invested in one limited liability company which prepared audited financials in conformity with GAAP. The carrying value of NBInv Management was zero as of December 31, 2020 and 2019. The Company has limited its investment in NBInv Management to its proportional share of the value of the underlying assets contained in the audited financial statements as required by SSAP No. 97, *Investments in Subsidiary, Controlled and Affiliated Entities* ("SSAP No. 97"). All liabilities, commitments, contingencies, guarantees and obligations of NBInv Management, which are required to be recorded as liabilities, commitments, contingencies, guarantees and obligations under applicable accounting guidance, are reflected in the Company's determination of the carrying value of its investment in NBInv Management.

NOTES TO FINANCIAL STATEMENTS

M. All SCA Investments

1. The following tables contain information about the Company’s investments in non-insurance SCA entities as of December 31:

(\$ in millions)		2020			
SCA Entity	Percentage of SCA Ownership		Gross Amount	Admitted Amount	Nonadmitted Amount
a. SSAP No. 97 8a entities	%	\$	-	\$	-
b. SSAP No. 97 8b(ii) entities	%	\$	-	\$	-
c. SSAP No. 97 8b(iii) entities					
Allstate International Assignments, Ltd. ("AIA")	100.0 %	\$	63	\$	63
Allstate Settlement Corporation ("ASC")	100.0 %		15	-	15
Allstate Assignment Company ("AACO")	100.0 %		1	-	1
Total SSAP No.97 8b(iii) entities		\$	79	\$	79
d. SSAP No. 97 8b(iv) entities	%	\$	-	\$	-
e. Total SSAP No. 97 8b entities (except 8b(i) entities) (b+c+d)		\$	79	\$	79
f. Aggregate Total (a+e)		\$	79	\$	79

		2019			
SCA Entity	Percentage of SCA Ownership		Gross Amount	Admitted Amount	Nonadmitted Amount
a. SSAP No. 97 8a entities	%	\$	-	\$	-
b. SSAP No. 97 8b(ii) entities	%	\$	-	\$	-
c. SSAP No. 97 8b(iii) entities					
AIA	100.0 %	\$	64	\$	64
ASC	100.0 %		15	-	15
AACO	100.0 %		1	-	1
Total SSAP No.97 8b(iii) entities		\$	80	\$	80
d. SSAP No. 97 8b(iv) entities	%	\$	-	\$	-
e. Total SSAP No. 97 8b entities (except 8b(i) entities) (b+c+d)		\$	80	\$	80
f. Aggregate Total (a+e)		\$	80	\$	80

2. The Company’s investments in AIA, ASC and AACO were not admitted, therefore, they were excluded from Sub 2 filing requirements in 2020 and 2019.

N. Investment in Insurance SCAs

1. The Company’s investment in ALNY, a wholly owned insurance company domiciled in the State of New York, was based on the underlying statutory capital and surplus of ALNY and included the impact of a New York prescribed practice which differed from the NAIC SAP. Specifically, the calculation of deferred premium assets included the establishment of a prepaid reinsurance premium asset in accordance with New York Regulation 172. SSAP No. 61R, *Life, Deposit-Type and Accident and Health Reinsurance* ("SSAP No. 61R"), requires the deferred premium asset to be reduced by the proportionate amount attributable to reinsurance.
2. The table below contains the monetary effect on the Company’s net income for the year ended and as of surplus which resulted from ALNY using the New York prescribed accounting practice described above, which differed from the NAIC SAP, the amount of the Company’s investment in ALNY based on ALNY’s statutory equity applying the prescribed practice and the amount of the Company’s investment in ALNY if ALNY had completed its statutory financial statements in accordance with the APPM, without considering the prescribed practice, as of December 31:

SCA Entity (Investments in Insurance SCA Entities)	Monetary Effect on NAIC SAP		Amount of Investment	
	Net Income Increase (Decrease)	Surplus Increase (Decrease)	Statutory Equity	If The Insurance SCA Had Completed Statutory Financial Statements*
2020				
ALNY	\$ -	\$ (7)	\$ 556	\$ 563
2019				
ALNY	\$ -	\$ (8)	\$ 614	\$ 622

* Per APPM (without permitted or prescribed practice)

The Company’s investment in ALNY as of December 31, 2020 was based on unaudited statutory equity. ALNY’s December 31, 2020 audited statutory equity will be available in June of 2021. The Company does not expect it to be materially different from what is disclosed in the table above. The Company’s investment in ALNY as of December 31, 2019 was equal to ALNY’s audited statutory equity.

3. If ALNY had not used the New York prescribed practice a risk-based capital regulatory event would not have been triggered.

NOTES TO FINANCIAL STATEMENTS

O. SCA and SSAP No. 48, Joint Ventures, Partnerships and Limited Liability Companies Loss Tracking

The Company’s share of losses exceeded its reported investment for the following SCA entity, partnerships, joint partnerships and limited liability companies as of December 31:

(in millions)					
2020					
Entity	Reporting Entity's Share of Net Income (Loss)	Accumulated Share of Net Income (Losses)	Reporting Entity's Share of Equity, Including Negative Equity	Guaranteed Obligation / Commitment for Financial Support (Yes/No)	
AEP I Holdco LLC	\$ (1)	\$ (1)	\$ (1)	No	
Chryscapital VIII LLC	\$ -	\$ -	\$ 1	Yes	
Enervest Energy Institutional Fund XI-A LP	\$ -	\$ -	\$ -	No	
Enervest Energy Institutional Fund XIII-A LP	\$ -	\$ (4)	\$ (4)	No	
King Mill Distribution Park 2 LLC	\$ -	\$ -	\$ (1)	No	
Seasons Residential Holdings LLC	\$ (1)	\$ (1)	\$ (1)	Yes	
Sunstone Partners II LP	\$ -	\$ -	\$ -	Yes	
2019					
Entity	Reporting Entity's Share of Net Income (Loss)	Accumulated Share of Net Income (Losses)	Reporting Entity's Share of Equity, Including Negative Equity	Guaranteed Obligation / Commitment for Financial Support (Yes/No)	Reported Value
AEP I Holdco LLC	\$ -	\$ -	\$ -	No	\$ -
Chryscapital VIII LLC	\$ -	\$ -	\$ -	Yes	\$ -
Enervest Energy Institutional Fund XI-A LP	\$ -	\$ -	\$ -	No	\$ -
Enervest Energy Institutional Fund XIII-A LP	\$ (2)	\$ (4)	\$ (4)	No	\$ -
King Mill Distribution Park 2 LLC	\$ -	\$ -	\$ (1)	No	\$ -

The Company’s share of losses did not exceed its reported investment for joint ventures as of December 31, 2019. SCA entities that are U.S. insurance reporting entities are excluded from this disclosure per SSAP No. 97, *Investments in Subsidiary, Controlled and Affiliated Entities*.

11. Debt

Not applicable.

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

- A. Defined Benefit Plans – Not applicable.
- B. Description of Defined Benefit Plans Investment Policies and Strategies – Not applicable.
- C. Fair Value of Defined Benefit Plan Assets – Not applicable.
- D. Basis Used to Determine Overall Expected Rate-of-Return for Defined Benefit Plan Assets – Not applicable.
- E. Defined Contribution Plans – Not applicable.
- F. Multiemployer Plans – Not applicable.
- G. Consolidated/Holding Company Plans

The Company utilizes the services of AIC employees. AIC and the Corporation provide various benefits, including defined benefit pension plans, certain health care and life insurance benefits for certain eligible employees, retired employees and employee-agents and participation in The Allstate 401(k) Savings Plan. The Company was allocated its share of the costs associated with these benefits in accordance with the Agreement. The Company’s allocated share of these benefits, before reinsurance, was \$5 million and \$6 million in 2020 and 2019, respectively.

- H. Postemployment Benefits and Compensated Absences – Not applicable.
- I. Impact of Medicare Modernization Act on Postretirement Benefits – Not applicable.

13. Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations

- A. The Company had 23,800 common shares authorized, issued and outstanding as of December 31, 2020 and 2019. All common shares had a par value of \$227 per share. In addition, the Company had 3,000,000 shares of preferred stock authorized, but none issued and outstanding as of December 31, 2020 and 2019. All preferred stock shares had a par value of \$100 per share.
- B. Preferred Stock – Not applicable.
- C. The ability of the Company to pay dividends is generally dependent on business conditions, income, cash requirements, receipt of dividends and other relevant factors. More specifically, the Illinois Insurance Code (“Code”) provides a two-step process. First, no dividend may be declared or paid except from earned (unassigned) surplus, as distinguished from contributed surplus, nor when the payment of a dividend reduces surplus below the minimum amount required by the Code. Secondly, a determination of the ordinary versus extraordinary dividends that can be paid is formula based and considers net income and capital and surplus, as well as the timing and amounts of dividends paid in the preceding twelve months as specified by the Code. Ordinary dividends to shareholders do not require prior approval of the IL DOI. Dividends are not cumulative. As of December 31, 2020, the maximum ordinary dividend that can be declared and paid in 2021 by the Company is limited to \$393 million, less dividends paid during the preceding twelve months measured at that point in time. The payment of a dividend in excess of this amount requires 30 days advance written notice to the IL DOI. The dividend is deemed approved, unless the IL DOI disapproves it within the 30-day notice period. Additionally, any dividend must be paid out of unassigned surplus excluding unrealized appreciation from investments, which for the Company totaled \$864 million as of December 31, 2020, and cannot result in capital and surplus being less than the minimum amount required by law.
- D. The Company did not pay dividends in 2020. The Company paid an ordinary cash dividend of \$75 million to AIC on June 24, 2019.
- E. Within the limitations of Part C above, there were no restrictions placed on the portion of the Company’s profits that may be paid as ordinary dividends to stockholders.

NOTES TO FINANCIAL STATEMENTS

- F. The unassigned funds, which are held for the benefit of the shareholder, are unrestricted except by requirement for regulatory approval as described in Part C above.
- G. Advances to Surplus for Mutual Companies – Not applicable.
- H. Stock Held for Special Purposes – Not applicable.
- I. Changes in Special Surplus Funds – Not applicable.
- J. Cumulative unrealized gains and losses increased unassigned funds by \$1.17 billion and \$1.28 billion as of December 31, 2020 and 2019, respectively.
- K. Surplus Notes – Not applicable.
- L. Restatements Due to Quasi-Reorganizations – Not applicable.
- M. Dates of Quasi-Reorganizations – Not applicable.

14. Liabilities, Contingencies and Assessments

A. Contingent Commitments

1. The Company made commitments to invest in limited partnership interests, including commitments to invest in SCA entities engaged in the development of real estate of \$819 million as of December 31, 2020. These commitments are generally for making additional capital contributions or acquiring financial interests.

The Company made commitments to invest in limited partnership interests of \$930 million as of December 31, 2019. In addition, the Company made a commitment to provide additional capital contributions of \$5 million for the development of a real estate property which one of its wholly owned SCA entities invested in as of December 31, 2019.

The Company has made no other contingent commitments or guarantees related to its investments in SCA entities, joint ventures, limited liability companies or LIHTC property investments.

2. The Company was a party to the following guarantee agreements as of December 31, 2020:

(in millions)				
1	2	3	4	5
Nature and circumstances of guarantee and key attributes, including date and duration of the agreement.	Liability recognition of guarantee. (Include amount recognized at inception. If no initial recognition, document exception allowed under SSAP No. 5R).	Ultimate financial statement impact if action under the guarantee required.	Maximum potential amount of future payments (undiscounted) the guarantor could be required to make under the guarantee. If unable to develop an estimate, this should be specifically noted.	Current status of payment or performance risk of guarantee. Also provide additional discussion as warranted.
With third parties				
Related to the sale of Lincoln Benefit Life Company ("LBL") on April 1, 2014, the Company agreed to indemnify Resolution Life Holdings, Inc. in connection with certain representations, warranties and covenants of the Company, and certain liabilities specifically excluded from the transaction, subject to specific contractual limitations regarding the Company's maximum obligation.	\$ -	Expenses	\$ -	There have been no payments made.
The Company guarantees the payment of certain settlement arrangements in the event LBL is unable to make such payments.	\$ 8	Expenses	\$ 8	There have been no payments made.
The Company guarantees the payment of surrender proceeds for a specific block of universal life policies sold through LBL in the event LBL is unable to meet its obligation.	\$ -	Expenses	\$ -	In 2014, the Company made payments of \$467 thousand to 4 policyholders that surrendered their policies.
The Company, as part of an investment in a joint venture, is obligated to provide additional financial support if the joint venture's assets are insufficient to satisfy potential future legal obligations of the entity.	\$ 1	Other invested assets	\$ 2	There have been no payments made.
With affiliates				
The Company guarantees the payment of certain structured settlement arrangements and third party payment obligations intended to be qualified assignments, established by AACO and AIA and funded by annuities purchased from ALNY.	See ⁽¹⁾ below	Investment in common stock of ALNY	\$ 618	There have been no payments made.
The Company guarantees the payment of certain structured settlement arrangements and third party payment obligations to injured parties and contingent recipients through certain reinsurance agreements in the event ALNY is unable to make such payments.	See ⁽¹⁾ below	Investment in common stock of ALNY	\$ 1	There have been no payments made.
Total	\$ 9		\$ 629	

⁽¹⁾ Guarantees made to/or on behalf of a wholly-owned subsidiary and intercompany and related party guarantees are not required to record a liability in accordance with SSAP No. 5R.

None of the agreements above contained recourse provisions that would enable the Company to recover amounts paid to third parties under the guarantees and there were no assets held by the Company as collateral under the agreements.

In the normal course of business, the Company provides standard indemnifications to contractual counterparties in connection with numerous transactions, including divestitures. The types of indemnifications typically provided include indemnifications for breaches of representations and warranties, taxes and certain other liabilities, such as third-party lawsuits. The indemnification clauses are often standard contractual terms and are entered into in the normal course of business based on an assessment that the risk of loss would be remote. The terms of the indemnifications vary in duration and nature. In many cases, the maximum obligation is not explicitly stated and the contingencies triggering the obligation to indemnify have not occurred and are not expected to occur. Consequently, the maximum amount of the obligation under such indemnifications is not determinable. Historically, the Company has not made any material payments pursuant to these obligations.

NOTES TO FINANCIAL STATEMENTS

3. Total guarantee obligations if performance under the guarantees had been triggered were as follows as of December 31:

(in millions)	2020	2019
a. Aggregate maximum potential of future payments of all guarantees (undiscounted) the guarantor could be required to make under guarantees. (Should equal total of Column 4 for (2) above.)	\$ 629	\$ 637
b. Current liability recognized in F/S:		
1. Noncontingent liabilities	\$ 8	\$ 8
2. Contingent liabilities	\$ 1	\$ -
c. Ultimate financial statement impact if action under the guarantee is required.		
1. Investments in SCA	\$ 619	\$ 629
2. Joint venture	2	-
3. Dividends to stockholders (capital contribution)	-	-
4. Expense	8	8
5. Other	-	-
6. Total (should equal (3)a)	\$ 629	\$ 637

B. Assessments

Under state insurance guaranty fund laws, insurers doing business in a state can be assessed, up to prescribed limits, for certain obligations of insolvent insurance companies to policyholders and claimants. Amounts assessed to each company are typically related to its proportion of business written in each state. The Company's policy is to accrue assessments when the entity for which the insolvency relates has met its state of domicile's statutory definition of insolvency and the amount of the loss is reasonably estimable. In most states, the definition is met with a declaration of financial insolvency by a court of competent jurisdiction. In certain states there must also be a final order of liquidation. As of December 31, 2020 and 2019, the Company had accrued \$3 million for future guaranty fund assessments, and \$2 million for the related premium tax offset expected to be received. The period over which assessments are expected to be paid varies. Premium tax offsets are realized on a straight-line basis over the period allowed by each individual state once the guaranty fund assessment has been paid. The Company did not recognize an impairment loss on the premium tax offsets in 2020 or 2019.

Reconciliations of assets recognized from paid and accrued premium tax offsets and policy surcharges were as follows:

(in millions)	2020	2019
a. Assets recognized from paid and accrued premium tax offsets and policy surcharges as of prior year end	\$ 6	\$ 6
b. Decreases during the year:		
Premium tax offset applied	1	-
c. Increases during the year:	-	-
d. Assets recognized from paid and accrued premium tax offsets and policy surcharges as of current year end	\$ 5	\$ 6

Liabilities and assets related to guaranty fund assessments arising from insolvencies of entities that wrote long-term care contracts were as follows as of 12/31/2020:

- (\$ in thousands)
- a. Discount rate applied 4.3 %
- b. The undiscounted and discounted amount of the guaranty fund assessments and related assets by insolvency:

Name of the insolvency	Guaranty fund assessment		Related assets	
	Undiscounted	Discounted	Undiscounted	Discounted
American Network Insurance Company	\$ 5	\$ 1	\$ 4	\$ 1
Penn Treaty Network America Insurance Company	\$ 115	\$ 62	\$ 56	\$ 41

c. Number of jurisdictions, ranges of years used to discount and weighted average number of years of the discounting time period for payables and recoverables by insolvency:

Name of the insolvency	Payables			Recoverables		
	Number of Jurisdictions	Range of years	Weighted average number of years	Number of Jurisdictions	Range of years	Weighted average number of years
American Network Insurance Company	31	13-58	51	28	13-58	52
Penn Treaty Network America Insurance Company	39	40-59	51	35	40-59	51

Liabilities and assets related to guaranty fund assessments arising from insolvencies of entities that wrote long-term care contracts were as follows as of 12/31/2019:

- (\$ in thousands)
- a. Discount rate applied 4.3 %
- b. The undiscounted and discounted amount of the guaranty fund assessments and related assets by insolvency:

Name of the insolvency	Guaranty fund assessment		Related assets	
	Undiscounted	Discounted	Undiscounted	Discounted
American Network Insurance Company	\$ 5	\$ 1	\$ 4	\$ 1
Penn Treaty Network America Insurance Company	\$ 122	\$ 70	\$ 64	\$ 48

c. Number of jurisdictions, ranges of years used to discount and weighted average number of years of the discounting time period for payables and recoverables by insolvency:

Name of the insolvency	Payables			Recoverables		
	Number of Jurisdictions	Range of years	Weighted average number of years	Number of Jurisdictions	Range of years	Weighted average number of years
American Network Insurance Company	31	14-59	124	28	14-59	97
Penn Treaty Network America Insurance Company	40	41-68	63	36	41-68	67

C. Gain Contingencies – Not applicable.

D. Claims Related Extra Contractual Obligation and Bad Faith Losses Stemming from Lawsuits – Not applicable.

NOTES TO FINANCIAL STATEMENTS

- E. Joint and Several Liabilities – Not applicable.
- F. All Other Contingencies

The Company did not have material loss contingencies.

Agents’ balances receivable are 100% nonadmitted after the establishment of a valuation allowance. The allowance balance for admitted agents’ balances receivable, after reinsurance, was \$1 million as of December 31, 2020 and 2019.

15. Leases

Not applicable.

16. Information about Financial Instruments with Off-Balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk

Derivative financial instruments

- 1. The following table summarizes the notional amount of the Company’s derivative financial instruments, including those with off-balance-sheet risk as of December 31:

(in millions)	Assets		Liabilities	
	2020	2019	2020	2019
a. Swaps	\$ 88	\$ 196	\$ 157	\$ 91
b. Futures	6	2	-	-
c. Options	881	747	823	686
d. Total	\$ 975	\$ 945	\$ 980	\$ 777

See Schedule DB of the Company’s Annual Statement for additional detail.

The notional amounts specified in the contracts are used to calculate the exchange of contractual payments under the agreements and are generally not representative of the potential for gain or loss on these agreements. However, the notional amounts specified in credit default swap agreements where the Company has sold credit protection represent the maximum amount of potential loss, assuming no recoveries.

- 2. The credit risk, market risk and cash requirements of the Company’s derivative instruments utilized during 2020 and 2019 are discussed in Note 8, Parts A-C. The accounting policies for the Company’s derivative instruments are disclosed in Note 1, Part C and Note 8, Parts A-C.
- 3. The following table summarizes the credit exposure on the Company’s outstanding over-the-counter and cleared contracts, as of December 31:

(in millions)	2020	2019
Swaps	\$ 1	\$ 5
Futures	-	-
Options	-	-
Total	\$ 1	\$ 5

Counterparty credit exposure represents the Company’s potential loss if all counterparties concurrently fail to perform under the contractual terms of the contracts and all collateral, if any, becomes worthless. This exposure is measured by the statement value of over-the-counter and cleared derivative contracts with a positive statement value at the reporting date. The Company has not incurred any losses on derivative financial instruments due to counterparty nonperformance.

- 4. The Company’s policy for requiring collateral is discussed in Note 8, Parts A-C. In general, the collateral pledged by the Company is in the custody of a counterparty, a clearing house or an exchange. However, the Company has access to this collateral at any time, subject to replacement. For certain exchange traded and cleared derivatives, margin deposits are required as well as daily cash settlements of margin accounts. As of December 31, 2020 and 2019, the Company pledged securities with fair values of \$6 million in the form of margin deposits.

The Company pledges or obtains collateral for over-the-counter derivative transactions when certain predetermined exposure limits are exceeded. As of December 31, 2020, counterparties pledged \$3 million in cash collateral to the Company, and the Company pledged \$5 million in cash to counterparties. As of December 31, 2019, counterparties pledged \$7 million in cash collateral to the Company, and the Company pledged \$1 million in cash to counterparties.

Off-balance-sheet financial instruments

- 1. The contractual amounts of off-balance-sheet financial instruments as of December 31 were as follows:

(in millions)	2020	2019
Commitments to invest in limited partnership interests	\$ 819	\$ 930
Other loan commitments	\$ 14	\$ 39
Commitments to invest in real estate ⁽¹⁾	\$ -	\$ 5
Private placement commitments	\$ -	\$ 1

(1) Beginning December 31, 2020, commitments to invest in real estate are included within commitments to invest in limited partnerships interests.

- 2. Commitments to invest in limited partnership interests represent agreements to acquire new or additional participation in certain limited partnership investments. The Company enters into these agreements in the normal course of business. Other loan commitments are agreements to lend to a borrower provided there is no violation of any condition established in the contract. The Company enters into these agreements to commit to future loan fundings at predetermined interest rates. Commitments have either fixed or varying expiration dates or other termination clauses. Commitments to invest in real estate represent an agreement to provide additional capital for the development of real estate property. The Company enters into these agreements in the normal course of business. Beginning December 31, 2020, commitments to invest in real estate are included with commitments to invest in limited partnership interests. Private placement commitments represent commitments to purchase private placement debt and private equity securities at a future date. The Company enters into these agreements in the normal course of business.
- 3. The contractual amounts represent the amount at risk if the contract was fully drawn upon, the counterparty defaults and the value of any underlying security becomes worthless.
- 4. The Company does not require collateral or other security to support off-balance-sheet financial instruments with credit risk.

17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

- A. Transfers of Premium Receivables As Sales – Not applicable.
- B. Transfer and Servicing of Financial Assets

- 1. The Company’s business activities included securities lending programs with third parties, mostly large banks. As of December 31, 2020 and 2019, bonds, including LBASS and common stocks within the General Account with fair values of \$248 million and \$354 million, respectively, were on loan under these agreements. Separate Accounts did not have its own securities lending program. However, bonds

NOTES TO FINANCIAL STATEMENTS

not legally insulated within the Separate Accounts with fair values of \$1 million as of December 31, 2020 and 2019 were on loan as part of the General Account securities lending programs. Securities lent were either specifically identified by the lending bank or segregated into a separate custody account. See Note 5, Part E for more information about securities lending collateral.

- 2. The Company did not enter into agreements to service assets or liabilities.
- 3. The Company did not service assets and liabilities that were subsequently measured at fair value.
- 4. The Company was not a transferor or transferee with respect to securitizations and asset-backed financing arrangements.
- 5. The Company did not transfer financial assets accounted for as secured borrowings.
- 6. The Company did not transfer receivables with recourse.
- 7. The Company did not enter into dollar repurchase or dollar reverse repurchase agreements.

C. Wash Sales – Not applicable.

18. Gain or Loss to the Reporting Entity from Uninsured Plans and the Uninsured Portion of Partially Insured Plans

Not applicable.

19. Direct Premium Written/Produced by Managing General Agents (“MGAs”)/Third Party Administrators (“TPAs”)

The aggregate amount of direct premiums written/produced by MGAs/TPAs was \$40 million and \$37 million for the years ended December 31, 2020 and 2019, respectively, which was less than 5% of the Company’s surplus.

20. Fair Value Measurements

A. Fair value is defined, per SSAP No. 100R, *Fair Value* (“SSAP No. 100R”), as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. SSAP No. 100R identified three valuation techniques which are used, either independently or in combination, to determine fair value: (1) market approach; (2) income approach; and (3) cost approach. SSAP No. 100R also contains guidance about observable and unobservable inputs, which are assumptions that market participants would use in pricing an asset or liability. To increase consistency and comparability in fair value measurements, the fair value hierarchy prioritizes the inputs to valuation techniques into three broad levels: 1, 2 and 3. The hierarchy for inputs used in determining fair value maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that observable inputs be used when available. Certain assets are measured utilizing NAV as a practical expedient to determine fair value.

The Company has two types of situations where investments are classified as Level 3 in the fair value hierarchy:

- (1) Specific inputs significant to the fair value estimation models are not market observable. This primarily occurs in the Company’s use of broker quotes to value certain securities where the inputs have not been corroborated to be market observable, and the use of valuation models that use significant non-market observable inputs.
 - (2) Quotes continue to be received from independent third-party valuation service providers and all significant inputs are market observable; however, there has been a significant decrease in the volume and level of activity for the asset when compared to normal market activity such that the degree of market observability has declined to a point where categorization as a Level 3 measurement is considered appropriate. The indicators considered in determining whether a significant decrease in the volume and level of activity for a specific asset has occurred include the level of new issuances in the primary market, trading volume in the secondary market, the level of credit spreads over historical levels, applicable bid-ask spreads, and price consensus among market participants and other pricing sources.
1. The following tables summarize the Company’s assets and liabilities measured and reported at fair value in the Assets and Liabilities, Surplus and Other Funds pages as of December 31:

(in millions)	2020

Transfers into Level 3 during 2020 and 2019 included securities measured at lower of cost or market and reported at fair value in 2020 and 2019 and at cost in 2019 and 2018, respectively. Transfers out of Level 3 during 2020 included securities measured at lower of cost or market and reported at cost in 2020 and at fair value in 2019. Transfers out of Level 3 during 2020 and 2019 were also the result of assets utilizing NAV as a practical expedient to determine fair value.

3. The Company consistently follows its policy for determining when transfers between levels are recognized. The policy about the timing of recognizing transfers into Level 3 is the same as that for recognizing transfers out of Level 3.
4. In determining fair value, the Company principally uses the market approach which generally utilizes market transaction data for the same or similar instruments. To a lesser extent, the Company uses the income approach which involves determining fair values from discounted cash flow methodologies. For the majority of Level 2 and Level 3 valuations, a combination of the market and income approaches is used.

Listed below is a summary of the significant valuation techniques for assets and liabilities measured and reported at fair value.

Level 2 measurements

Derivatives - Free-standing exchange listed derivatives that are not actively traded are valued based on quoted prices for identical instruments in markets that are not active. Over-the-counter derivatives, including interest rate swap, foreign currency swap and total return swap agreements, certain options and credit default swap agreements, are valued using models that rely on inputs such as interest rate yield curves, implied volatilities, index price levels, currency rates, and credit spreads that are observable for substantially the full term of the contract. The valuation techniques underlying the models are widely accepted in the financial services industry and do not involve significant judgment.

Separate Accounts - Indexed variable annuity contracts may be supported by corporate bonds, including those that are privately placed. The primary inputs to the valuation for publicly traded corporate bonds include quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads. Privately placed corporate bonds are valued using a discounted cash flow model that is widely accepted in the financial services industry and uses market observable inputs and inputs derived principally from, or corroborated by, observable market data. The primary inputs to the discounted cash flow model include an interest rate yield curve, as well as published credit spreads for similar assets in markets that are not active that incorporate the credit quality and industry sector of the issuer. In addition, indexed variable annuity contracts may be supported by exchange listed derivatives that are not actively traded and are valued based on quoted prices for identical instruments in markets that are not active.

Level 3 measurements

Bonds - Includes corporate bonds, including bank loans and asset-backed securities ("ABS").

Corporate bonds, including those that are privately placed, and bank loans are valued based on non-binding broker quotes where the inputs have not been corroborated to be market observable. Other inputs include an interest rate yield curve, as well as published credit spreads for similar assets that incorporate credit quality and industry sector of the issuer. ABS are valued based on non-binding broker quotes where the inputs have not been corroborated to be market observable.

Unaffiliated common stocks - The primary inputs to the valuation include quoted prices or quoted net asset values for identical or similar assets in markets that exhibit less liquidity relative to those markets supporting Level 2 measurements.

Separate Accounts - Indexed variable annuity contracts are supported by mortgage loans. The fair value of mortgage loans on real estate is based on discounted contractual cash flows or, if the loans are impaired due to credit reasons, the fair value of collateral less costs to sell. Risk adjusted discount rates are selected using current rates at which similar loans would be made to borrowers with similar characteristics using similar types of properties as collateral.

5. All information related to derivatives measured and reported at fair value is presented above.

NOTES TO FINANCIAL STATEMENTS

- B. &
C. Presented below are the aggregate fair value estimates and the admitted values of financial instruments as of December 31:

Financial assets

(in millions)		2020								
Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	NAV	Not Practicable (Carrying Value)

The fair value of bonds in Level 1 is based on unadjusted quoted prices for identical assets in active markets the Company can access. The fair value of publicly traded bonds in Level 2 is based upon quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads. Non-publicly traded bonds in Level 2 are valued using a discounted cash flow model that is widely accepted in the financial services industry and uses market observable inputs and inputs derived principally from, or corroborated by, observable market data. The primary inputs to the discounted cash flow model include an interest rate yield curve, as well as published credit spreads for similar assets in markets that are not active that incorporate the credit quality and industry sector of the issuer. The fair value of municipal bonds in Level 3 not rated by third-party credit rating agencies, but receiving an NAIC designation is based on quoted prices for identical or similar assets in markets that exhibit less liquidity relative to those markets supporting Level 2 fair value measurements, contractual cash flows, benchmark yields and credit spreads. Also included are municipal bonds valued based on non-binding broker quotes where the inputs have not been corroborated to be market observable and municipal bonds in default valued based on the present value of expected cash flows. The fair value of corporate bonds in Level 3 is primarily based on non-binding broker quotes where the inputs have not been corroborated to be market observable. Other inputs for corporate bonds include an interest rate yield curve, as well as published credit spreads for similar assets that incorporate the credit quality and industry sector of the issuer. The fair value of LBASS in Level 2 is primarily based on valuation models utilizing quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields, prepayment speeds, collateral performance and credit spreads to determine fair value. Certain LBASS in Level 2 are valued based on non-binding broker quotes whose inputs have been corroborated to be market observable. The fair value of LBASS in Level 3 is primarily based on non-binding broker quotes where the inputs have not been corroborated to be market observable or internal models with non-market observable inputs.

The fair value of perpetual preferred stocks in Level 2 is based on quoted prices or quoted net asset values for identical or similar assets in markets that are not active. The primary input to the valuation for redeemable preferred stocks in Level 2 include quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields, underlying stock prices and credit spreads. The fair value of preferred stocks in Level 3 is based on non-binding broker quotes where the inputs have not been corroborated to be market observable. Certain preferred stocks, which do not have readily determinable fair values, and are investments in investment companies are measured utilizing NAV as a practical expedient.

The fair value of unaffiliated common stocks in Level 1 is based on unadjusted quoted prices for identical assets in active markets the Company can access. The fair value of unaffiliated common stocks in Level 3 is based on the valuation methods described in Part A4 of this note. Certain unaffiliated private common stocks carried at fair value, which do not have readily determinable fair values, and are investments in investment companies that measure their assets at fair value on a recurring basis, are reported utilizing NAV as a practical expedient and are excluded from the fair value hierarchy

The fair value of mortgage loans on real estate in Level 3 is based on discounted contractual cash flows or, if the loans are impaired due to credit reasons, the fair value of collateral less costs to sell. Risk adjusted discount rates are selected using current rates at which similar loans would be made to borrowers with similar characteristics, using similar types of properties as collateral.

As of December 31, 2020, the Short term pool was reported as a cash equivalent. The fair value of cash equivalents in Level 1 is based on unadjusted quoted prices or daily quoted net asset values for identical assets in active markets the Company can access. The fair value of cash equivalents in Level 2 is based on quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads.

The fair value of short-term investments in Level 1 is based on unadjusted quoted prices for identical assets in active markets the Company can access. The fair value of short-term investments in Level 2 is based on quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads. As of December 31, 2019, the Short term pool was reported as a short-term investment and the fair value measured at NAV. NAV is based on marking to market the underlying Short term pool's net assets and is the basis for current transactions between the Short term pool and member companies. The value of net assets and each share is determined daily by the Short term pool custodian.

The fair value of derivatives in Level 2 is based on the valuation methods described in Part A4 of this note.

The fair value of LIHTC property investments in Level 3 is based on amortized cost, using the proportional amortization method, which approximates fair value.

NOTES TO FINANCIAL STATEMENTS

The fair value of unaffiliated surplus notes in Level 2 is based upon quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads. The fair value of affiliated surplus notes in Level 3 is based on discounted cash flow calculations using current interest rates for instruments with comparable terms.

The fair value of reinvested collateral from securities lending in Level 2 is based on carrying value due to its short-term nature.

The fair value of the assets of the Separate Account in Level 1 is based on actively traded mutual funds that have daily quoted net asset values that are readily determinable for identical assets the Company can access. The fair value of the assets of the Separate Accounts in Levels 2 and 3 is based on the valuation methods described in Part A4.

Financial liabilities

Presented below are the aggregate fair value estimates and statement values of financial instruments as of December 31:

(in millions)		2020						
Type of Financial Instrument	Aggregate Fair Value	Statement Value	(Level 1)	(Level 2)	(Level 3)	NAV	Not Practicable (Carrying Value)	
Deposit-type contract	\$ 2,108	\$ 1,642	\$ -	\$ -	\$ 2,108	\$ -	\$ -	\$ -
Securities lending collateral	\$ 255	\$ 255	\$ -	\$ 255	\$ -	\$ -	\$ -	\$ -
Derivatives	\$ 104	\$ 104	\$ -	\$ 104	\$ -	\$ -	\$ -	\$ -
Separate Accounts - Derivatives	\$ 9	\$ 9	\$ -	\$ 9	\$ -	\$ -	\$ -	\$ -

		2019						
Type of Financial Instrument	Aggregate Fair Value	Statement Value	(Level 1)	(Level 2)	(Level 3)	NAV	Not Practicable (Carrying Value)	
Deposit-type contract	\$ 2,118	\$ 1,781	\$ -	\$ -	\$ 2,118	\$ -	\$ -	\$ -
Securities lending collateral	\$ 365	\$ 365	\$ -	\$ 365	\$ -	\$ -	\$ -	\$ -
Derivatives	\$ 54	\$ 54	\$ -	\$ 54	\$ -	\$ -	\$ -	\$ -
Separate Accounts - Derivatives	\$ 8	\$ 8	\$ -	\$ 8	\$ -	\$ -	\$ -	\$ -

The fair value of the liability for deposit-type contracts in Level 3 is generally based on the terms of the underlying contracts incorporating current market-based crediting rates for similar contracts that reflect the Company’s own credit risk. Immediate annuities without life contingencies and fixed rate funding agreements are valued at the present value of future benefits using current market-based implied interest rates and reflect the Company’s own credit risk. Fixed annuities are valued at the account value less surrender charges.

The fair value of the liabilities for collateral related to securities lending in Level 2 is based on carrying value due to its short-term nature.

The fair value of derivatives in Level 2 is based on the valuation methods described in Part A4 of this note.

- D. The Company was able to estimate the fair value of all its financial instruments in 2020 and 2019.
- E. Investments in certain common stock measured and reported at NAV in the Assets page and presented in the table in Part A1 are generally not redeemable with the issuing corporation and cannot be sold without approval of the managing members. Distributions of income are usually received from the sale of common stock or the liquidation of the underlying asset or assets of the issuing corporation over the life of these investments, typically 3-7 years. The amount of remaining commitments to invest in these investments over their remaining lives is immaterial.

The Company’s investment in the Short term pool was measured and reported at NAV in the Assets page and presented in the table in Part A1 as of December 31, 2019. There are no restrictions on withdrawals from the Short term pool. Withdrawals are made at current NAV. Each member company may make withdrawals on demand without penalty on any business day with the settlement of funds not to exceed ten business days. The Short term pool’s investment strategy is to invest in U.S. dollar-denominated, high quality and highly liquid investments with very low credit risk and a duration of less than 100 days. The Company did not have commitments to invest in the Short term pool.

Changes in APPM requirements, effective June 30, 2020, require the valuation of the assets in the Short term pool to be consistent with the valuations required by reported asset type as stipulated in SSAP No. 2R

21. Other Items
- A. Unusual or Infrequent Items – Not applicable.
- B. Troubled Debt Restructuring: Debtors – Not applicable.
- C. Other Disclosures

Novel Coronavirus Pandemic or COVID-19 (“Coronavirus”)

The Coronavirus resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which have included the implementation of travel restrictions, government-imposed shelter-in-place orders, quarantine periods, social distancing and restrictions on large gatherings, have caused material disruption to businesses globally, resulting in increased unemployment, a recession and increased economic uncertainty. Additionally, there is no way of predicting with certainty how long the pandemic might last, including the potential for restrictions being restored or new restrictions being implemented that could result in further economic volatility.

The Coronavirus has affected the Company’s operations and depending on its length and severity may continue to significantly affect the Company’s results of operations, financial condition and liquidity, including sales of new and retention of existing policies, life insurance mortality and hospital and outpatient claim costs, annuity reserves, investment valuations and returns, and increases in bad debts and credit risk.

The magnitude and duration of the global pandemic and the impact of actions taken by governmental authorities, businesses and consumers, including timing of vaccine distribution, to mitigate health risks create significant uncertainty. The Company will continue to closely monitor and proactively adapt to developments and changing conditions. Currently, it is not possible to reliably estimate the length and severity of the pandemic or its impact to the Company’s operations, but the effects could be material and may continue, emerge, evolve or accelerate into 2021.

Surety Bonds Issued by AIC

The Company issued structured settlement annuities (“SSAs”), a type of immediate annuity, in 2013 and prior at prices determined using interest rates in effect at the time of purchase, to fund structured settlements in matters involving AIC.

In most cases, these annuities were issued under a “qualified assignment”, whereby AACO and prior to July 1, 2001 ASC, both wholly owned subsidiaries of the Company, purchased annuities from the Company. Effective March 22, 2013, the Company no longer offers SSAs. AIC issued surety bonds to indemnify the payment of structured settlement benefits assigned to ASC from both AIC and unaffiliated parties, and funded by certain annuity contracts issued by the Company through June 30, 2001. ASC entered into a General Indemnity Agreement pursuant to which it indemnified AIC for any liabilities associated with the surety bonds and gave AIC certain collateral security rights with respect to the annuities and certain other rights in the event of any defaults covered by the surety bonds. For contracts written on or after July 1, 2001, AIC no longer issues surety bonds to indemnify the payment of structured settlement benefits. Alternatively, the Company guarantees the payment

NOTES TO FINANCIAL STATEMENTS

of structured settlement benefits on all contracts issued on or after July 1, 2001. Reserves recorded by the Company for annuity payments that are indemnified by the surety bonds of AIC were \$3.31 billion and \$3.38 billion as of December 31, 2020 and 2019, respectively.

Transfer of Investments

During 2018, the Company transferred limited partnership investments with a book/adjusted carrying value of \$1.55 billion and cash of \$53 million to AIMCO Private Fund I, LLC ("AIMCO I"). Since the transfer of the assets did not meet the conditions of a sale per SSAP No. 103R, the assets of AIMCO I, which consisted of limited partnership investments with a book/adjusted carrying value of \$1.49 billion, cash equivalents of \$152 million, receivable for securities of \$1 million and cash of \$3 million as of December 31, 2020, will continue to be directly reported in the Company's financial statements.

Scottish Re (U.S.), Inc. ("SRUS")

On December 14, 2018, the Delaware Insurance Commissioner placed SRUS under regulatory supervision. On March 6, 2019, the Chancery Court of the State of Delaware entered a Rehabilitation and Injunction Order in response to a petition filed by the Insurance Commissioner (the "Petition").

The Company joined in a joint motion filed on behalf of several affected parties asking the court to allow a specified amount of offsetting claim payments and losses against premiums remitted to SRUS. The Company and ALNY also filed a separate motion related to the reimbursement of claim payments where SRUS is also acting as administrator. The Court has not yet ruled on either of these motions. In the interim, the Company and several other affected parties have been permitted to exercise certain setoff rights while the parties address any potential disputes. On June 30, 2020, pursuant to the Petition, SRUS submitted a proposed Plan of Rehabilitation ("Plan") for consideration by the Court. On November 2, 2020, the Court issued a Third Amended Order to Show Cause scheduling a hearing on the Petition and Plan for May 25, 2021.

The Company's reinsurance reserve credit and paid claims recoverable with SRUS, net of the allowance for uncollectible reinsurance of \$5 million and net of nonadmitted recoverables for paid claims of \$8 million, were \$39 million as of December 31, 2020. The Company's reinsurance reserve credit and paid claims recoverable with SRUS, net of the allowance for uncollectible reinsurance of \$3 million and net of nonadmitted recoverables for paid claims of \$4 million, were \$52 million as of December 31, 2019. The Company continues to monitor SRUS for future developments and will reevaluate its allowance for uncollectible amounts as new information becomes available.

Reinsurance Agreement with ALNY

The Company has an agreement where via a reinsurance treaty it assumes reinvestment related risk on certain SSAs of its wholly owned subsidiary, ALNY. Under the terms of the agreement, if the fixed income book yield on the portion of ALNY's investment portfolio that supports SSAs' liabilities falls below the average statutory rates, the Company will pay a benefit. In return, the Company receives a premium from ALNY that is based on and varies with the aggregate statutory reserve balance of the SSAs. The Company received premium related to the reinsurance treaty from ALNY of \$3 million and \$4 million in 2020 and 2019, respectively. The Company paid benefits of \$21 million and \$2 million to ALNY in 2020 and 2019, respectively.

Recapture and Termination of Reinsurance Agreement with AAC

Pursuant to a recapture and termination agreement dated December 1, 2020, the Company recaptured 100% of the universal life insurance policies ceded to AAC and terminated the original reinsurance agreement effective April 1, 2015. AAC transferred assets of \$401 million, which equal the policy liabilities plus an adjustment for IMR of \$25 million, to the Company in connection with the Recapture and Termination Agreement.

Coinsurance and Modified Coinsurance Agreement with AAC

Effective December 1, 2020, the Company and AAC entered into a reinsurance agreement whereby AAC transferred assets of \$184 million to the Company and ceded on a 100% coinsurance basis corresponding term life and universal life general account policy liabilities plus an adjustment for IMR of \$12 million. Under the terms of the agreement, \$25 million of variable life separate account liabilities were also assumed from AAC on a modified coinsurance basis.

Other

In connection with AAC's plan to withdraw its New York license, the New York Department of Financial Services ("NYDFS") required the Company to establish a custodial account for the protection of AAC's New York issued business. As required by the NYDFS, the custodial account is to be maintained with a minimum amount of assets which may vary over time. As of December 31, 2020, the balance in the custodial account was \$3 million.

- D. Business Interruption Insurance Recoveries – Not applicable.
- E. State Transferable and Non-transferable Tax Credits – Not applicable.
- F. Subprime Mortgage Related Risk Exposure

The Company did not have subprime exposure as of December 31, 2020.

1. The Company identified it had exposure to subprime residential mortgage related risk in the form of asset-backed residential mortgage-backed securities ("ABS RMBS") as of December 31, 2019. The ABS RMBS portfolio included securities that were collateralized by mortgage loans issued to borrowers that cannot qualify for prime or alternative financing terms due in part to an impaired or limited credit history. It also included securities that were collateralized by certain second lien mortgages regardless of the borrower's credit profile. As of December 31, 2019, the ABS RMBS portfolio had net unrealized gains of \$24 million, which were primarily comprised of gross unrealized gains.

The Company also owned Alt-A securities, which it did not consider to be a component of its exposure to subprime mortgage related risk as of December 31, 2019. The Alt-A portfolio consisted of mortgage-backed securities at fixed or variable rates and included certain securities that were collateralized by residential mortgage loans issued to borrowers with stronger credit profiles than subprime borrowers, but did not qualify for prime financing terms due to high loan-to-value ratios or limited supporting documentation. As of December 31, 2019, the Alt-A portfolio had net unrealized gains of \$14 million, which were primarily comprised of gross unrealized gains.

Both ABS RMBS and Alt-A securities were considered loan-backed, and included in bonds in the Company's Asset page.

The Company has a comprehensive portfolio monitoring process to identify and evaluate, on a case-by-case basis, investments whose carrying value may be other-than-temporarily impaired. See Note 5, Part D5 for details regarding the Company's portfolio monitoring process. OTTI losses related to asset impairments in the ABS RMBS and Alt-A portfolios were less than \$1 million in 2019. OTTI losses due to the potential sale of assets to meet future cash flow requirements were not recorded in the ABS RMBS or Alt-A portfolios in 2019.

2. The Company did not have direct exposure to subprime mortgage loans.

NOTES TO FINANCIAL STATEMENTS

3. The Company's direct exposure to other subprime investments is summarized as follows as of December 31, 2019.
(in millions)

	Actual Cost	Book/ Adjusted Carrying Value	Fair Value	OTTI Losses Recognized
a. Residential mortgage-backed securities	\$ 40	\$ 23	\$ 47	\$ -
b. Commercial mortgage-backed securities	-	-	-	-
c. Collateralized debt obligations	-	-	-	-
d. Structured securities	-	-	-	-
e. Equity investments in SCAs	-	-	-	-
f. Other assets	-	-	-	-
g. Total	<u>\$ 40</u>	<u>\$ 23</u>	<u>\$ 47</u>	<u>\$ -</u>

The Company had Alt-A securities with the following actual cost, book/adjusted carrying value, fair value and OTTI losses as of December 31, 2019.

(in millions)	
Actual cost	\$ 49
Book/adjusted carrying value	\$ 40
Fair value	\$ 54
OTTI losses recognized	\$ -

4. The Company is not licensed to sell mortgage guaranty or financial guaranty insurance coverage, and therefore, does not have underwriting exposure to subprime mortgage risk.

G. Retained Assets

1. Effective August 2012, the Company began offering the Allstate Advantage Account ("Allstate Advantage") in certain states as a settlement option for beneficiaries of certain life and annuity contracts. In 2017, the Company discontinued this settlement option for annuity contracts. Allstate Advantage accounts are reported in Liability for deposit-type contracts on the Liabilities, Surplus and Other Funds Page 3, Line 3, and in the Supplemental Contracts column of Exhibit 7-Deposit-Type Contracts, in the Company's Annual Statement. If selected, the Company deposits the death benefit proceeds into an interest-bearing checking account in the beneficiaries' name at the Northern Trust Company. The beneficiary may draw upon these funds at their discretion, including an immediate withdrawal of the funds in full. During 2020 and 2019, the Allstate Advantage accounts earned interest at an average interest rate of 0.5%. All accounts are credited at the same rate of interest. The Allstate Advantage accounts are only charged for special services such as returned checks, stop payment requests, wire transfers and overnight mail processing. These accounts are not insured by the Federal Deposit Insurance Corporation. Effective December 1, 2020, the Company assumed the liability for Allstate Advantage accounts issued by AAC, per the reinsurance agreement as described in Note 21, Part C.
2. The number and balance of retained asset accounts in force are as follows:

(\$ in millions)	In Force			
	As of 12/31/2020		As of 12/31/2019	
	Number	Balance	Number	Balance
a. Up to and including 12 months	216	\$ 28	240	\$ 35
b. 13 to 24 months	180	18	160	15
c. 25 to 36 months	124	10	128	12
d. 37 to 48 months	111	10	149	9
e. 49 to 60 months	124	7	178	9
f. Over 60 months	502	23	403	19
g. Total	<u>1,257</u>	<u>\$ 96</u>	<u>1,258</u>	<u>\$ 99</u>

3. Below is a reconciliation of the retained asset accounts:

(\$ in millions)	2020			
	Individual		Group	
	Number	Balance/ Amount	Number	Balance/ Amount
a. Number/balance of retained asset accounts at the beginning of the year	1,258	\$ 99	-	\$ -

g. Number/balance of retained asset accounts at the end of the year	<u>1,258</u>	<u>\$ 99</u>	<u>-</u>	<u>\$ -</u>

H. Insurance-linked Securities Contracts – Not applicable.

NOTES TO FINANCIAL STATEMENTS

- I. The Amount That Could Be Realized on Life Insurance Where the Reporting Entity is Owner and Beneficiary or Has Otherwise Obtained Rights to Control the Policy - Not applicable.
22. Events Subsequent
- The Company did not write accident and health insurance premium subject to Section 9010 of the federal Affordable Care Act ("ACA") in 2020 or 2019.
- On January 26, 2021, AIC and Allstate Financial Insurance Holdings Corporation entered into a Stock Purchase Agreement with Antelope US Holdings Company, an affiliate of an investment fund associated with The Blackstone Group Inc. to sell the Company and certain affiliates for approximately \$2.8 billion in cash. AIC or an affiliate will retain ownership of ALNY while pursuing alternatives to sell or otherwise transfer risk to a third party. The transaction is expected to close in the second half of 2021 subject to regulatory approvals and other customary closing conditions.
- An evaluation of subsequent events was made through February 22, 2021 for the Annual Statement issued on February 24, 2021. There were no other significant subsequent events requiring adjustment to or disclosure in the financial statements.
23. Reinsurance

A. Ceded Reinsurance Report

Section 1 - General Interrogatories

1. Are any of the reinsurers, listed in Schedule S as non-affiliated, owned in excess of 10% or controlled, either directly or indirectly, by the Company or by any representative, officer, trustee, or director of the Company?
For both 2020 and 2019: Yes () No (X)
2. Have any policies issued by the Company been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) that is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor or any other person not primarily engaged in the insurance business?
For both 2020 and 2019: Yes () No (X)

Section 2 - Ceded Reinsurance Report - Part A

1. Does the Company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credits?
For both 2020 and 2019: Yes () No (X)
2. Does the Company have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies?
For both 2020 and 2019: Yes () No (X)

Section 3 - Ceded Reinsurance Report - Part B

1. What is the estimated amount of the aggregate reduction in surplus, (for agreements other than those under which the reinsurer may unilaterally cancel for reasons other than for nonpayment of premium or other similar credits that are reflected in Section 2 above) of termination of ALL reinsurance agreements, by either party, as of the date of this statement? Where necessary, the Company may consider the current or anticipated experience of the business reinsured in making this estimate.
For 2020: \$7 million
For 2019: \$11 million
2. Have any new agreements been executed or existing agreements amended, since January 1 of the year of this statement, to include policies or contracts which were in force or which had existing reserves established by the Company as of the effective date of the agreement?
For 2020: Yes (X) No ()
For 2019: Yes () No (X)
- If yes, what is the amount of reinsurance credits, whether an asset or a reduction of a liability, taken for such new agreements or amendments?
For 2020: \$-*
For 2019: \$-

*All business under a treaty was recaptured on 12/1/2020, reducing reinsurance credit from \$393 million as of 11/30/2020 to zero as of 12/31/2020.

B. Uncollectible Reinsurance Written Off

The Company wrote off reinsurance balances due from the following companies totaling \$126 thousand in 2020.

(in thousands)	2020
a. Claims incurred	\$ 126
b. Claims adjustment expenses incurred	\$ -
c. Premiums earned	\$ -
d. Other	\$ -
e. <u>Company</u>	<u>Amount</u>
RGA Reinsurance Company	\$ 126

The Company did not write off uncollectible reinsurance in 2019.

C. Commutation of Ceded Reinsurance

The Company reported the following in its operations as a result of commutations of reinsurance with the company listed below in 2020.

(in million)	2020
1. Claims incurred	\$ -
2. Claims adjustment expenses incurred	\$ -
3. Premium earned	\$ -
4. Other	\$ 13
	<u>Amount</u>
5. <u>Company</u>	
Allstate Assurance Company	\$ 13

NOTES TO FINANCIAL STATEMENTS

Net gains recognized as a result of commutation was \$13 million in 2020.

The Company did not commute ceded reinsurance in 2019.

D. Certified Reinsurer Rating Downgraded or Status Subject to Revocation

- 1. The Company did not cede business to certified reinsurers under the laws of the State of Illinois in 2020 or 2019.
- 2. The Company was not a certified reinsurer in 2020 or 2019.

E. Reinsurance of Variable Annuity Contracts with Affiliated Captive Reinsurers – Not applicable.

F. Reserve Credit Taken and Collateral on Variable Annuities Reinsured with Affiliated Captive Reinsurers – Not applicable.

G. XXX/AXX Captive Reinsurance

The Company ceded business subject to the XXX/AXXX captive framework to ALIC Re, which is a captive subsidiary. ALIC Re did not have a risk-based capital shortfall or a non-zero primary security shortfall as of December 31, 2020 or 2019.

H. Reinsurance Credit

For reinsurance contracts entered into, renewed or amended on or after January 1, 1996.

- 1. Does this reporting entity have any reinsurance contracts (or multiple contracts with the same reinsurer or its affiliates) subject to Appendix A-791 – *Life and Health Reinsurance Agreements* (“A-791”) that includes a provision that limits the reinsurer's assumption of significant risks identified as in A-791 (e.g. a deductible, a loss ratio corridor, a loss cap, an aggregate limit or similar effect)?.....Yes [] No [X]

If yes to 1, indicate the number of reinsurance contracts containing such provisions.

If yes to 1, was deposit accounting was applied for all contracts?.....Yes [] No []

- 2. Does this reporting entity have any reinsurance contracts (or multiple contracts with the same reinsurer or its affiliates) not subject to A-791 that includes a provision that limits the reinsurer's assumption of risks (e.g. a deductible, a loss ratio corridor, a loss cap, an aggregate limit or similar effect) for which reinsurance accounting was applied?.....Yes [] No [X]

If yes to 2, indicate the number of reinsurance contracts containing such provisions.

If yes to 2, was the amount of reinsurance credit taken reduced by the applicable risk limiting provision(s)?.....Yes [] No []

- 3. Does this reporting entity have any reinsurance contracts (except reinsurance contracts with a federal or state facility) that contain the following features resulting in delays in payment in form or in fact: (i) provisions that limits the reporting of loss, or settlements are made less frequently than quarterly, or payments due from the reinsurer are not made in cash within ninety days of the settlement date (unless there is no activity during the period), or (ii) payment schedule, accumulating retentions from multiple years or any features inherently designed to delay payment timing of the reimbursement to the ceding entity?.....Yes [] No [X]

- 4. Has this reporting entity reflected reinsurance accounting credits for contracts not subject to A-791 and not yearly renewable term, which meet the risk transfer requirements of SSAP No. 61R and identify the type of contracts and the reinsurance contracts:
 - Assumption reinsurance – new for the reporting period
 - Non-proportional reinsurance, which does not result in significant surplus relief?.....Yes [] No [X]

If yes to 4, indicate if the insured event(s) triggering contract coverage has been recognized.

- 5. Did this reporting entity cede any risk which is not subject to A-791 and not yearly renewable term reinsurance, under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement, and either:
 - Accounted for that contract as reinsurance under SAP and as a deposit under generally accepted accounting principles (“GAAP”); or
 - Accounted for that contract as reinsurance under GAAP and as a deposit under SAP?.....Yes [] No [X]
- 6. If yes to 5, explain why the contract(s) is treated differently for GAAP and SAP.

24. Retrospectively Rated Contracts and Contracts Subject to Redetermination

- A. Method Used to Estimate Accrued Retrospective Premium Adjustments – Not applicable.
- B. Recording of Accrued Retrospective Premiums Adjustments – Not applicable.
- C. Net Premiums Written Subject to Retrospective Rating Features – Not applicable.
- D. Medical Loss ratio Rebates – Not applicable.
- E. Risk Sharing Provisions of the ACA – Not applicable.

25. Change in Incurred Losses and Loss Adjustment Expenses

- A. For accident and health insurance products within the Company’s book of business, the changes in the provision for incurred losses and loss adjustment expenses attributable to insured events of prior years were immaterial in 2020 and 2019. The Company did not accrue additional premiums or return premiums related to the prior-year effects in 2020 or 2019.
- B. There were no changes in methodologies and assumptions used in calculating the liability of unpaid losses and loss adjustment expenses for the most recent reporting period presented.

26. Intercompany Pooling Arrangements

Not applicable.

27. Structured Settlements

Not applicable.

28. Health Care Receivables

Not applicable.

NOTES TO FINANCIAL STATEMENTS

29. Participating Policies

For 2020 and 2019, the Company recognized premiums related to life participating policies of \$56 thousand and \$68 thousand, respectively. In both 2020 and 2019, these amounts represented less than one-half of one percent of total life premiums and annuity considerations earned. The Company uses accrual accounting to record policyholder dividends on participating policies. The Company paid dividends of \$4 thousand in both 2020 and 2019 to participating policyholders and did not allocate additional income.

All of the Company's accident and health contracts were nonparticipating as of December 31, 2020 and 2019.

30. Premium Deficiency Reserves

Premium deficiency reserves for accident and health contracts as of December 31 were as follows:

(\$ in millions)	2020	2019
1. Liability carried for premium deficiency reserves	\$ -	\$ -
2. Date of the most recent evaluation of this liability	9/30/2020	9/30/2019
3. Was anticipated investment income utilized in the calculation?	Yes [x] No []	Yes [x] No []

31. Reserves for Life Contracts and Annuity Contracts

1. On traditional life insurance contracts, the Company waives deduction of deferred fractional premiums upon the death of the insured and returns any portion of the final premium beyond the date of death. Surrender values are not contracted in excess of the reserve as legally computed.
2. For life contracts, the cost of additional mortality for each policy is assumed to equal the additional premium charged for that policy period and is reserved accordingly. Additional premiums are collected for policies issued on substandard lives. Reserves are held in a manner consistent with traditional policies. For annuity contracts issued as substandard, reserves are calculated according to Actuarial Guidelines IX-A and IX-C as applicable.
3. As of December 31, 2020 and 2019, the Company had \$5.10 billion and \$6.26 billion, respectively, of insurance in force for which the gross premiums were less than the net premiums according to the standards of valuation set by the State of Illinois. Reserves to cover the above insurance totaled \$39 million and \$49 million as of December 31, 2020 and 2019, respectively.
4. Tabular interest, tabular less actual reserves released and tabular cost are determined by formula as described in the APPM.
5. Tabular interest for contracts not involving life contingencies represents the net amount credited taking into account increments of premiums and annuity considerations and decrements of benefits, withdrawals, loads and policy charges.
6. In 2020, the Company's aggregate reserves for life and annuity contracts were increased by other reserve changes of \$995 million. Other reserve changes in 2020 were as follows:

(in millions)	Ordinary					Credit Life Group and Individual	Group	
	Total	Industrial Life	Life Insurance	Individual Annuities	Supplementary Contracts		Life Insurance	Annuities
Application of Actuarial Guideline 38	\$ 52	\$ -	\$ 52	\$ -	\$ -	\$ -	\$ -	\$ -
AAC reinsurance	563	-	559	-	-	-	4	-
Asset adequacy reserve	350	-	-	350	-	-	-	-
Reserves under IL 1410	30	-	-	26	-	-	-	4
Total	\$ 995	\$ -	\$ 611	\$ 376	\$ -	\$ -	\$ 4	\$ 4

In 2019, the Company's aggregate reserves for life and annuity contracts were decreased by other reserve changes of \$9 million. Other reserve changes in 2019 were as follows:

(in millions)	Ordinary					Credit Life Group and Individual	Group	
	Total	Industrial Life	Life Insurance	Individual Annuities	Supplementary Contracts		Life Insurance	Annuities
Application of Actuarial Guideline 38	\$ (9)	\$ -	\$ (9)	\$ -	\$ -	\$ -	\$ -	\$ -
Reclass of life rider to annuity	-	-	(15)	15	-	-	-	-
Total	\$ (9)	\$ -	\$ (24)	\$ 15	\$ -	\$ -	\$ -	\$ -

NOTES TO FINANCIAL STATEMENTS

32. Analysis of Annuity Actuarial Reserves and Deposit-Type Liabilities by Withdrawal Characteristics

Withdrawal characteristics of annuity reserves and deposit-type contracts and other liabilities without life or disability contingencies were as follows as of December 31:

(\$ in millions)	2020				
	General Account	Separate Account with Guarantees	Separate Account Non-guaranteed	Total	% of Total
A. INDIVIDUAL ANNUITIES:

35. Separate Accounts

A. Separate Account Activity

1. Separate Accounts held by the Company are for variable annuity contracts, variable life policies and indexed variable annuity contracts.

The assets and liabilities of variable annuity contracts and variable life policies are recorded as assets and liabilities of the Separate Accounts and are legally insulated from the General Account, excluding any purchase payments or transfers directed by the contractholder to earn a fixed rate of return which are included in the Company's General Account assets. The legal insulation of the Separate Accounts assets prevents such assets from being generally available to satisfy claims resulting from the General Account. Separate Accounts which contain variable annuity and variable life business are unit investment trusts and registered with the Securities and Exchange Commission

NOTES TO FINANCIAL STATEMENTS

(“SEC”). As of December 31, 2020 and 2019, all assets of the Separate Accounts that support the variable annuity and variable life business were legally insulated.

The assets and liabilities of indexed variable annuity contracts are also recorded as assets and liabilities of the Separate Accounts, however, they are not legally insulated from the General Account. The indexed variable annuity product is non-unitized and is registered with the SEC.

2. The Company’s Separate Accounts were attributed to the following products/transactions as of December 31:

(in millions)	2020		2019	
	Legally insulated assets	Separate Account Assets (Not legally insulated)	Legally insulated assets	Separate Account Assets (Not legally insulated)
Variable annuity contracts	\$ 2,944	\$ -	\$ 2,688	\$ -
Variable life policies	63	-	56	-
Indexed variable annuity contracts	-	194	-	221
Total	\$ 3,007	\$ 194	\$ 2,744	\$ 221

3. Some of the Separate Account liabilities are guaranteed by the General Account. To compensate the General Account for the risk taken on variable annuity products, the Separate Accounts paid risk charges as follows for the past five years:

(in millions)		
a. 2020	\$	7
b. 2019	\$	11
c. 2018	\$	11
d. 2017	\$	11
e. 2016	\$	13

The amount paid by the General Account for Separate Account guarantees for variable annuity products was \$26 million, \$24 million, \$26 million, \$25 million and \$31 million in 2020, 2019, 2018, 2017 and 2016, respectively.

4. Separate Accounts did not have its own securities lending program. However, bonds not legally insulated within the Separate Accounts with fair value of \$1 million as of December 31, 2020 and 2019, respectively, were on loan as part of the General Account securities lending programs. See Note 17, Part B for more information about the General Account securities lending programs.

B. General Nature and Characteristics of Separate Account Business

Variable annuity and variable life business allow the contractholder to accumulate funds within a variety of portfolios, at rates which depend upon the return achieved from the types of investments chosen. The net investment experience of the Separate Accounts is credited directly to the contractholder and can be favorable or unfavorable. The assets of each portfolio are held separately from the other portfolios and each has distinct investment objectives and policies. Absent any contract provision wherein the Company provides a guarantee, the contractholders of the variable annuity and variable life products bear the investment risk that the Separate Account’s funds may not meet their stated investment objectives. Variable annuity and variable life business is included in the Nonguaranteed Separate Accounts column of the following tables.

Indexed variable annuity products provide the opportunity for the contractholder to invest for a specified length of 5, 7, or 10 years in one or more investment options linked to the S&P 500 and subject to a maximum and minimum investment performance which may be negative. Indexed variable annuity business is included in the Index column of the following tables.

In connection with the disposal of the Company’s variable annuity business to Prudential Insurance Company of America (“Prudential”), there is a modified coinsurance reinsurance agreement under which the Separate Account assets and liabilities remain in the Company’s Assets and Liabilities, Surplus and Other Funds pages, but the related results of operations are fully reinsured to Prudential and presented net of reinsurance in the Summary of Operations. In contrast, assets supporting General Account liabilities, including the future rights and obligations related to benefit guarantees and fixed rate of return fund investments, have been transferred to Prudential under the coinsurance reinsurance provisions. The reinsurance agreements do not contain limits or indemnifications with regard to the insurance risk transfer, and transferred all of the future risks and responsibilities for performance in the underlying variable annuity contracts to Prudential, including those related to benefit guarantees and fixed rate of return fund investments, in accordance with SSAP No. 61R. The Separate Accounts balances related to the modified coinsurance reinsurance, including the assumed modified coinsurance reinsurance from LBL and American Maturity Life Insurance Company (“AML”), were \$3.36 billion and \$3.10 billion as of December 31, 2020 and 2019, respectively. The General Account liability balances reinsured to Prudential under the coinsurance reinsurance were \$1.08 billion and \$1.14 billion as of December 31, 2020 and 2019, respectively, and consisted of the liabilities for fixed rate of return fund investments and benefit guarantees.

NOTES TO FINANCIAL STATEMENTS

Information regarding the Company's Separate Accounts as of December 31 was as follows:

(in millions)	2020				
	Index	Nonindexed Guarantee Less Than/ Equal To 4%	Nonindexed Guarantee More than 4%	Non- Guaranteed Separate Accounts	Total

c. Net transfers assumed from AAC pursuant to modified coinsurance agreement	1	-
3. Transfers as reported in the Summary of Operations of the Life, Accident & Health Annual Statement (1c) + (2) = (Page 4, Line 26)	\$ (415)	\$ (446)

36. Loss/Claim Adjustment Expenses

The Company's reserves for unpaid claims and the related claims adjustment expenses for accident and health contracts were deemed immaterial as of December 31, 2020 and 2019.

ANNUAL STATEMENT FOR THE YEAR 2020 OF THE ALLSTATE LIFE INSURANCE COMPANY

GENERAL INTERROGATORIES

PART 1 - COMMON INTERROGATORIES

GENERAL

1.1

Is the reporting entity a member of an Insurance Holding Company System consisting of two or more affiliated persons, one or more of which is an insurer?
If yes, complete Schedule Y, Parts 1, 1A and 2

Yes ☒ No ☐

1.2

If yes, did the reporting entity register and file with its domiciliary State Insurance Commissioner, Director or Superintendent, or with such regulatory official of the state of domicile of the principal insurer in the Holding Company System, a registration statement providing disclosure substantially similar to the standards adopted by the National Association of Insurance Commissioners (NAIC) in its Model Insurance Holding Company System Regulatory Act and model regulations pertaining thereto, or is the reporting entity subject to standards and disclosure requirements substantially similar to those required by such Act and regulations?

Yes ☒ No ☐ N/A ☐

1.3

State Regulating?

ILLINOIS

1.4

Is the reporting entity publicly traded or a member of a publicly traded group?

Yes ☒ No ☐

1.5

If the response to 1.4 is yes, provide the CIK (Central Index Key) code issued by the SEC for the entity/group.

0000899051

2.1

Has any change been made during the year of this statement in the charter, by-laws, articles of incorporation, or deed of settlement of the reporting entity?

Yes ☐ No ☒

2.2

If yes, date of change:

3.1

State as of what date the latest financial examination of the reporting entity was made or is being made.

12/31/2018

3.2

State the as of date that the latest financial examination report became available from either the state of domicile or the reporting entity. This date should be the date of the examined balance sheet and not the date the report was completed or released.

12/31/2018

3.3

State as of what date the latest financial examination report became available to other states or the public from either the state of domicile or the reporting entity. This is the release date or completion date of the examination report and not the date of the examination (balance sheet date).

04/29/2020

3.4

By what department or departments?
ILLINOIS

3.5

Have all financial statement adjustments within the latest financial examination report been accounted for in a subsequent financial statement filed with Departments?

Yes ☐ No ☐ N/A ☒

3.6

Have all of the recommendations within the latest financial examination report been complied with?

Yes ☐ No ☐ N/A ☒

4.1

During the period covered by this statement, did any agent, broker, sales representative, non-affiliated sales/service organization or any combination thereof under common control (other than salaried employees of the reporting entity), receive credit or commissions for or control a substantial part (more than 20 percent of any major line of business measured on direct premiums) of:
4.11 sales of new business?
4.12 renewals?

Yes ☐ No ☒
Yes ☐ No ☒

4.2

During the period covered by this statement, did any sales/service organization owned in whole or in part by the reporting entity or an affiliate, receive credit or commissions for or control a substantial part (more than 20 percent of any major line of business measured on direct premiums) of:
4.21 sales of new business?
4.22 renewals?

Yes ☐ No ☒
Yes ☐ No ☒

5.1

Has the reporting entity been a party to a merger or consolidation during the period covered by this statement?
If yes, complete and file the merger history data file with the NAIC.

Yes ☐ No ☒

5.2

If yes, provide the name of the entity, NAIC Company Code, and state of domicile (use two letter state abbreviation) for any entity that has ceased to exist as a result of the merger or consolidation.

1 Name of Entity	2 NAIC Company Code	3 State of Domicile

6.1

Has the reporting entity had any Certificates of Authority, licenses or registrations (including corporate registration, if applicable) suspended or revoked by any governmental entity during the reporting period?

Yes ☐ No ☒

6.2

If yes, give full information:

7.1

Does any foreign (non-United States) person or entity directly or indirectly control 10% or more of the reporting entity?

Yes ☐ No ☒

7.2

If yes,
7.21 State the percentage of foreign control;
7.22 State the nationality(s) of the foreign person(s) or entity(s) or if the entity is a mutual or reciprocal, the nationality of its manager or attorney-in-fact; and identify the type of entity(s) (e.g., individual, corporation or government, manager or attorney in fact).

ANNUAL STATEMENT FOR THE YEAR 2020 OF THE ALLSTATE LIFE INSURANCE COMPANY

GENERAL INTERROGATORIES

30. Provide the following information for all short-term and long-term bonds and all preferred stocks. Do not substitute amortized value or statement value for fair value.

	1	2	3
	Statement (Admitted) Value	Fair Value	Excess of Statement over Fair Value (-), or Fair Value over Statement (+)
30.1 Bonds	18,627,386,245	20,325,165,483	1,697,779,238
30.2 Preferred stocks	25,996,452	29,268,104	3,271,652
30.3 Totals	18,653,382,697	20,354,433,587	1,701,050,890

30.4 Describe the sources or methods utilized in determining the fair values:
THE AGGREGATE FAIR VALUE WAS BASED UPON PRICES FROM EXTERNAL PRICING SOURCES. INTERNAL PRICING MODELS WERE USED WHEN EXTERNAL PRICES WERE NOT AVAILABLE.

31.1 Was the rate used to calculate fair value determined by a broker or custodian for any of the securities in Schedule D? Yes [X] No []

31.2 If the answer to 31.1 is yes, does the reporting entity have a copy of the broker's or custodian's pricing policy (hard copy or electronic copy) for all brokers or custodians used as a pricing source? Yes [] No [X]

31.3 If the answer to 31.2 is no, describe the reporting entity's process for determining a reliable pricing source for purposes of disclosure of fair value for Schedule D:
THE BROKER QUOTES WERE REFLECTIVE OF TRANSACTIONS BETWEEN MARKET PARTICIPANTS BY PERFORMING VARIOUS PRICING REVIEWS. THESE REVIEWS INCLUDED MONITORING CHANGES OR LACK OF CHANGES IN PRICES, COMPARISON OF SIMILAR SECURITIES, AND GATHERING INPUT FROM ASSET CLASS PERSONNEL AS WELL AS PUBLICLY AVAILABLE INFORMATION.

32.1 Have all the filing requirements of the Purposes and Procedures Manual of the NAIC Investment Analysis Office been followed? Yes [X] No []

32.2 If no, list exceptions:
.....

33. By self-designating 5GI securities, the reporting entity is certifying the following elements of each self-designated 5GI security:
a. Documentation necessary to permit a full credit analysis of the security does not exist or an NAIC CRP credit rating for an FE or PL security is not available.
b. Issuer or obligor is current on all contracted interest and principal payments.
c. The insurer has an actual expectation of ultimate payment of all contracted interest and principal.
Has the reporting entity self-designated 5GI securities? Yes [X] No []

34. By self-designating PLGI securities, the reporting entity is certifying the following elements of each self-designated PLGI security:
a. The security was purchased prior to January 1, 2018.
b. The reporting entity is holding capital commensurate with the NAIC Designation reported for the security.
c. The NAIC Designation was derived from the credit rating assigned by an NAIC CRP in its legal capacity as a NRSRO which is shown on a current private letter rating held by the insurer and available for examination by state insurance regulators.
d. The reporting entity is not permitted to share this credit rating of the PL security with the SVO.
Has the reporting entity self-designated PLGI securities? Yes [] No [X]

35. By assigning FE to a Schedule BA non-registered private fund, the reporting entity is certifying the following elements of each self-designated FE fund:
a. The shares were purchased prior to January 1, 2019.
b. The reporting entity is holding capital commensurate with the NAIC Designation reported for the security.
c. The security had a public credit rating(s) with annual surveillance assigned by an NAIC CRP in its legal capacity as an NRSRO prior to January 1, 2019.
d. The fund only or predominantly holds bonds in its portfolio.
e. The current reported NAIC Designation was derived from the public credit rating(s) with annual surveillance assigned by an NAIC CRP in its legal capacity as an NRSRO.
f. The public credit rating(s) with annual surveillance assigned by an NAIC CRP has not lapsed.
Has the reporting entity assigned FE to Schedule BA non-registered private funds that complied with the above criteria? Yes [] No [X]

36. By rolling/renewing short-term or cash equivalent investments with continued reporting on Schedule DA, Part 1 or Schedule E Part 2 (identified through a code (%) in those investment schedules), the reporting entity is certifying to the following:
a. The investment is a liquid asset that can be terminated by the reporting entity on the current maturity date.
b. If the investment is with a nonrelated party or nonaffiliate, then it reflects an arms-length transaction with renewal completed at the discretion of all involved parties.
c. If the investment is with a related party or affiliate, then the reporting entity has completed robust re-underwriting of the transaction for which documentation is available for regulator review.
d. Short-term and cash equivalent investments that have been renewed/rolled from the prior period that do not meet the criteria in 36.a - 36.c are reported as long-term investments.
Has the reporting entity rolled/renewed short-term or cash equivalent investments in accordance with these criteria? Yes [X] No [] N/A []

(a) Active Status Counts:
L - Licensed or Chartered - Licensed insurance carrier or domiciled RRG51 R - Registered - Non-domiciled RRGs.....
E - Eligible - Reporting entities eligible or approved to write surplus lines in the state..... Q - Qualified - Qualified or accredited reinsurer.....
N - None of the above - Not allowed to write business in the state.....6

(b) Explanation of basis of allocation by states, etc., of premiums and annuity considerations

ANNUAL STATEMENT FOR THE YEAR 2020 OF THE ALLSTATE LIFE INSURANCE COMPANY

ORDINARY INSURANCE AND ANNUITY CONSIDERATIONS ARE ALLOCATED TO THE ADDRESS OF THE POLICY OWNER. FOR GROUP POLICIES AND CONTRACTS COVERING LESS THAN 500 LIVES, PREMIUMS OR CONSIDERATIONS ARE ALLOCATED TO THE STATE IN WHICH THE EMPLOYEES ARE PRINCIPALLY LOCATED, OR IN WHICH THE PRINCIPAL OFFICE OF THE CREDITOR GROUP POLICYHOLDER IS LOCATED. FOR SUCH POLICIES AND CONTRACTS COVERING 500 LIVES OR MORE, THE PREMIUM OR CONSIDERATIONS ARE ALLOCATED ACCORDING TO THE LOCATIONS OF VARIOUS EMPLOYEES, OR THE LOCATIONS AND VOLUME OF BUSINESS OF THE VARIOUS AGENCIES OF THE CREDITOR GROUP POLICYHOLDERS.

(c) Column 4 should balance with Exhibit 1, Lines 6.4, 10.4, and 16.4, Cols. 8, 9, 10, or with Schedule H, Part 1, Line 1, indicate which: Exhibit 1, Lines 6.4, 10.4, and 16.4, Cols. 8, 9, 10.

AUGUST FILING		
53.	Will Management's Report of Internal Control Over Financial Reporting be filed with the state of domicile by August 1?	YES
Explanations:		
12.		
13.		
14.		
15.		
18.		
19.		
20.	The Reasonableness of Assumptions Certification required by Actuarial Guideline XXXV will not be filed with the state of domicile and electronically with the NAIC because it is required for policies reserved for under Type 1 methods. The Company uses a Type 2 method.	
22.	The Reasonableness of Assumptions Certification for Implied Guaranteed Rate Method required by Actuarial Guideline XXXVI will not be filed with the state of domicile and electronically with the NAIC because it is required for policies reserved for under Type 1 methods. The Company uses a Type 2 method.	
23.	The Reasonableness and Consistency of Assumptions Certification required by Actuarial Guideline XXXVI (Updated Average Market Value) will not be filed with the state of domicile and electronically with the NAIC because it is required for policies reserved for under Type 2a methods. The Company uses a Type 2 method.	
27.	The Actuarial Certifications Related to Annuity Nonforfeiture Ongoing Compliance for Equity Indexed Annuities will not be filed with the state of domicile and electronically with the NAIC because it is only required if the Company takes the additional reduction provided under Section 4C of the Standard Nonforfeiture Law for Individual Deferred Annuities; the Company does not take this additional reduction on any of its in force Equity Indexed Annuities.	
33.	The Company does not use preferred mortality tables permitted by said model regulation; therefore, no certification is required.

(a)	Code	Description of Hedged Risk(s)

ANNUAL STATEMENT FOR THE YEAR 2020 OF THE ALLSTATE LIFE INSURANCE COMPANY

(b)

Code	Financial or Economic Impact of the Hedge at the End of the Reporting Period
0001	Credit default swap effectively hedges credit risk exposure on the named debt security or related index or basket of debt securities. Notional amount is equivalent to hedged amount of par on debt security.
0002	Foreign Currency forward effectively reduces foreign currency exposure on foreign denominated equities.
0003	Interest rate liability caps limit the exposure to interest rate increases on variable rate liability or portfolio of variable rate liabilities up to the contracted strike rate. Notional amount is equivalent to hedged amount of par on liability or portfolio of liabilities.

(a)	Code	Description of Hedged Risk(s)
(b)	Code	Financial or Economic Impact of the Hedge at the End of the Reporting Period
	0001	Credit default swap effectively hedges credit risk exposure on the named debt security or related index or basket of debt securities. Notional amount is equivalent to hedged amount of par on debt security.
	0002	Foreign currency forward effectively reduces foreign currency exposure on foreign denominated equities.
	0003	Interest rate liability caps limit the exposure to interest rate increases on variable rate liability or portfolio of variable rate liabilities up to the contracted strike rate. Notional amount is equivalent to hedged amount of par on liability or portfolio of liabilities.
	0004	Total return swap agreements are used to hedge exposure to the corporate bond and leveraged loan markets.
