Notes required on a quarterly basis have been updated in their entirety. There have been no material changes to the following December 31, 2020 Annual Statement notes: 1(B), 2, 3, 5(B, C, K, O-R), 6, 7, 9(B, D, E, G-I), 10(D-O), 12(B-I), 13(A-C, E-M), 14(B, C-E), 15, 16-Derivative financial instruments, 17(A), 18, 19, 21(A, B, D-I), 23, 24(A-D) and 26-36. Only material or significant changes from the Annual Statement have been updated for all other notes, or portions thereof.

- 1. Summary of Significant Accounting Policies
  - A. Allstate Life Insurance Company (the "Company") prepares its financial statements in conformity with accounting practices prescribed or permitted by the Illinois Department of Insurance ("IL DOI"). Prescribed statutory accounting practices include a variety of publications of the National Association of Insurance Commissioners ("NAIC"), as well as state laws, regulations and general administrative rules. Permitted statutory accounting practices encompass all accounting practices not so prescribed.

The State of Illinois requires its domestic insurance companies to prepare financial statements in conformity with the NAIC Accounting Practices and Procedures Manual ("APPM"), which includes all Statements of Statutory Accounting Principles ("SSAPs"), subject to any deviations prescribed or permitted by the IL DOI.

The Company holds one nonconforming credit tenant loan ("CTL") with a carrying value of \$14 million as of December 31, 2020. This nonconforming CTL was reported on Schedule D, Part 1 with an NAIC Designation of 2.B FE. The asset was filed with the Securities Valuation Office ("SVO") on January 14, 2021 and included as a permitted practice for the 2020 reporting year pursuant to the Statutory Accounting Principles Working Group INT 20-10. The CTL received an SVO-assigned designation during the first quarter of 2021.

A reconciliation of the Company's net income and capital and surplus between statutory accounting principles ("SAP") per the APPM and practices prescribed or permitted by the IL DOI is shown below.

#### C. Investments

Loan-backed and structured securities ("LBASS") with an NAIC designation of 1 through 5 are reported at amortized cost using the effective yield method. LBASS with an NAIC designation of 6 are reported at the lower of amortized cost or fair value, with the difference reflected in unassigned surplus as an unrealized capital loss. In general, LBASS utilize a multi-step process for determining carrying value and NAIC designation in accordance with SSAP No. 43R, Loan-backed and Structured Securities. For LBASS of high credit quality with fixed interest rates, the effective yield is recalculated on a retrospective basis. For all others, the effective yield is recalculated on a prospective basis.

As of June 30, 2021, perpetual preferred stocks are reported at fair value as the Company adopted SSAP No. 32R, *Preferred Stock*. As of December 31, 2020, perpetual preferred stocks are reported at fair value or the lower of cost or fair value depending on the assigned NAIC designation. For preferred stocks reported at fair value, the differences between amortized cost or cost and fair value are recorded as a change in net unrealized capital gains (losses), which is a component of unassigned surplus.

D. Based upon its evaluation of relevant conditions and events, management did not have substantial doubt about the Company's ability to continue as a going concern as of June 30, 2021 or December 31, 2020.

#### 4. Discontinued Operations

- A. Discontinued Operation Disposed of or Classified as Held for Sale
  - 1. The following is a list of discontinued operations classified as held for sale beginning March 31, 2021:

#### Discontinued Operation Identifier

Description of Discontinued Operation

- 1 Anticipated sale of 100% of the common stock of wholly owned insurance subsidiary, Allstate Life Insurance Company of New York ("ALNY")
- 2. On March 29, 2021, the Company, Allstate Insurance Company ("AIC"), Allstate Insurance Holdings, LLC and Allstate Financial Insurance Holding Corporation ("AFIHC") entered into a Stock Purchase Agreement with Wilton Reassurance Company to sell all of the shares of common stock of ALNY, a wholly owned subsidiary of the Company and Intramerica Life Insurance Company, a wholly owned subsidiary of AFIHC for \$220 million in cash. This transaction will result in the Company's divestiture of all of its New York life and annuities business and is expected to close in 2021, subject to regulatory approvals, the consummation of certain pre-sale restructuring and reinsurance transactions and other customary closing conditions.
- 3. The Company recognized a loss on the sale of ALNY upon classification as held for sale as follows:

| (in millions) | Six         | Six months ended June 30, 2021 |                          |   |  |  |  |

4. Unrealized losses are calculated as the difference between amortized cost and fair value. They result from declines in fair value below amortized cost and are evaluated for OTTI. Every LBASS with unrealized losses was included in the portfolio monitoring process.

The following table summarizes gross unrealized losses and the fair value of LBASS by the length of time individual securities have been in a continuous unrealized loss position.

| (in millions)                                                             |                        |    | June 30,<br>2021 | C  | December 31,<br>2020 |
|---------------------------------------------------------------------------|------------------------|----|------------------|----|----------------------|
| a. The aggregate amount of unrealized losses:                             |                        | _  |                  |    | <u>.</u>             |
|                                                                           | 1. Less than 12 months | \$ | (1)              | \$ | (10)                 |
|                                                                           | 2. 12 months or longer | \$ | (1)              | \$ | (2)                  |
| b. The aggregate related fair value of securities with unrealized losses: | -                      |    |                  |    |                      |
|                                                                           | 1. Less than 12 months | \$ | 34               | \$ | 86                   |
|                                                                           | 2. 12 months or longer | \$ | 30               | \$ | 5                    |

5. As of June 30, 2021, substantially all unrealized losses were related to investment grade LBASS with an unrealized loss position less than 20% of amortized cost, the degree of which suggested that these securities did not pose a high risk of being other-than-temporarily impaired. Investment grade is defined as a security having an NAIC designation of 1 or 2, a rating of Aaa, Aa, A or Baa from Moody's, a rating of AAA, AA, A or BBB from S&P Global Ratings, a comparable rating from another nationally recognized rating agency, or a comparable internal rating if an externally provided rating is not available. Market prices for certain securities may have credit spreads which imply higher or lower credit quality than the current third-party rating. Unrealized losses on investment grade securities were principally related to an increase in market yields which may include increased risk-free interest rates and/or wider credit spreads since the time of initial purchase. The unrealized losses are expected to reverse as the securities approach maturity.

LBASS in an unrealized loss position were evaluated based on actual and projected collateral losses relative to the securities' positions in the respective securitization trusts, security specific expectations of cash flows and credit ratings. This evaluation also takes into consideration credit enhancement, measured in terms of: (1) subordination from other classes of securities in the trust that are contractually obligated to absorb losses before the class of security the Company owns, and (2) the expected impact of other structural features embedded in the securitization trust beneficial to the class of securities the Company owns, such as overcollateralization and excess spread.

As of June 30, 2021, the Company had not made the decision to sell and it was not more likely than not the Company would be required to sell LBASS with unrealized losses before recovery of the amortized cost basis. As of June 30, 2021, the Company had the intent and ability to hold LBASS with unrealized losses for a period of time sufficient for them to recover.

The Company recognized obligations of less than \$1 million to return collateral assets within the Company's June 30, 2021 financial statements. The following table summarizes the recognized obligations to return collateral assets within the Company's December 31, 2020 financial statement:

(\$ in millions)

- 1 2 % of Liability to Total Liabilities\* \$ 255 1.1 % \$ - - %
- u. Recognized obligations to return collateral assets (General Account)
   v. Recognized obligations to return collateral assets (Separate Accounts)
   \* u. = Column 1 divided by Liability Page, Line 26 (Column 1)
   v. = Column 1 divided by Liability Page, Line 27 (Column 1)
- M. Working Capital Finance Investments Not applicable.
- N. Offsetting and Netting of Assets and Liabilities

None of the Company's derivative or securities lending transactions contain a valid right to offset assets and liabilities per the requirements of SSAP No. 64, *Offsetting and Netting of Assets and Liabilities*. The Company did not enter into repurchase agreements, reverse repurchase agreements or securities borrowing transactions.

- 8. Derivative Instruments
  - A. Derivatives under SSAP No. 86 Derivatives
    - 8. The Company did not have open option contracts with financing premiums due as of June 30, 2021 or December 31, 2020.
    - Derivatives under SSAP No. 108 Derivative Hedging Variable Annuity Guarantees ("SSAP No. 108")

The Company did not utilize hedging strategies accounted for under SSAP No. 108.

9. Income Taxes

В.

A. 1. The components of the net deferred tax assets ("DTAs")/deferred tax liabilities ("DTLs") were as follows:

- 2. The Company joins the Corporation and its 144 domestic subsidiaries in the filing of a consolidated federal income tax return. The consolidated group has elected under Internal Revenue Code Section 1552(a)(2) to allocate the consolidated federal income tax liability based on each member's federal income tax liability computed on a separate return basis, except all tax benefits resulting from operating losses and tax credits are allocated to the Company to the extent they can be utilized in the consolidated return.
- 10. Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

#### A., B. & C.

#### . Transactions with AIC

The Company paid \$392 million of dividends in investments and cash to its parent, AIC, in the first six months of 2021. See Note 13, Part D for details.

#### Transactions with Allstate Short Term Pool, LLC

The Company invests in the Allstate Short term pool ("Short term pool"), which is offered by Allstate Short Term Pool, LLC, to certain wholly owned affiliated companies of the Corporation. The Short term pool is an investment pool managed by Allstate Investment Management Company, an affiliate of the Corporation, whose purpose is to efficiently manage cash and cash equivalents for its member companies. Each member company has an undivided interest in the underlying assets of the Short term pool per the Operating Agreement of Allstate Short Term Pool, LLC ("Operating Agreement"). The value of net assets that is the basis for current transactions and each share is determined daily by the Short term pool custodian. As of June 30, 2021, the Company's reported investment in the Short term pool was \$625 million. See Ref # - 001 in table below.

#### Transactions with Allstate Finance Company Agency Loans, LLC ("AFCAL")

On December 22, 2016, the Company purchased \$279 million of bonds issued by AFCAL. On December 16, 2019, the Company agreed to allow AFCAL to redeem the original notes at fair value of \$284 million, which included realized capital gains of \$10 million, plus accrued interest of \$219 thousand; and issue new notes at market rate. Concurrently with the redemption, the Company purchased an additional \$148 million of bonds issued by AFCAL. AFCAL is a bankruptcy remote, special purpose entity wholly owned by Allstate Non-insurance Holdings, Inc., which is wholly owned by the Corporation. The purpose of AFCAL is limited to purchasing and securitizing fixed rate term agent loans from Allstate Finance Company, LLC ("AFCO"), a wholly owned subsidiary of AIC, at fair value. AFCO originates commercial loans to Allstate exclusive insurance agents that are independent contractors of AIC and, as a result, the Company reports the investment in bonds as unaffiliated. The loans' sale transaction from AFCO to AFCAL meets "sale accounting" conditions in SSAP No. 103R, *Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* ("SSAP No. 103R"). AFCAL used the agent loans securitization with oversight by a trustee and a servicer managing the portfolio. As of June 30, 2021, the Company's investment in bonds issued by AFCAL was \$404 million. See Ref # - 002 in table below.

Transactions with related parties who are not reported on Schedule Y

(2) Detail of material related party transactions involving services – Not applicable.

(3) Detail of material related party transactions involving exchange of assets and liabilities - Not applicable.

(4) Detail of amounts owed to/from a related party - Not applicable

There were no other transactions entered into by the Company with related parties in 2021 that involved more than ½ of 1% of the Company's admitted assets. Activity resulting from reinsurance agreements, insurance contracts or cost allocation transactions in accordance with intercompany agreement provisions was excluded.

11. Debt

Not applicable.

- 12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans
  - A. Defined Benefit Plans Not applicable.
- 13. Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations
  - D. The Company paid ordinary dividends of \$392 million to its parent, AIC during the first six months of 2021. Investments with fair values of \$40 million and \$333 million were paid on April 1, 2021 and May 1, 2021, respectively. Cash of \$19 million was paid on June 30, 2021. The Company did not pay dividends in 2020.
- 14. Liabilities, Contingencies and Assessments
  - A. Contingent Commitments
    - 1. The Company made commitments to invest in limited partnership interests, including commitments to invest in subsidiaries, controlled and affiliated entities engaged in the development of real estate of \$686 million and \$819 million as of June 30, 2021 and December 31, 2020, respectively. These commitments are generally for making additional capital contributions or acquiring financial interests.
  - F. All Other Contingencies

The Company is defending two putative class actions in California federal court, *Holland Hewitt v. Allstate Life Insurance Company* (E.D. Cal., filed May 2020) and *Farley v. Lincoln Benefit Life Company* (E.D. Cal., filed Dec. 2020), where the plaintiffs generally allege that the defendants failed to comply with certain California statutes which address contractual grace periods and lapse notice requirements for certain life insurance policies. Plaintiffs claim that these statutes apply to life insurance policies that existed before the statutes' effective date. The plaintiffs seek damages and injunctive relief. No classes have been certified in these matters.

16. Information about Financial Instruments with Off-Balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk

#### Off-balance-sheet financial instruments

1. The contractual amounts of off-balance-sheet financial instruments were as follows:

| (in millions)                                          | June 30,<br>2021 | De | cember 31,<br>2020 |

- 17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities
  - B. Transfer and Servicing of Financial Assets
    - 2. The Company did not enter into agreements to service assets or liabilities.
    - 4. The Company was not a transferor or transferee with respect to securitizations and asset-backed financing arrangements.
  - C. Wash Sales
    - 1. In the course of managing the investment portfolio, securities may be sold and reacquired within 30 days of the sale date in order to enhance the portfolio's yield.
    - 2. None of the Company's securities with an NAIC designation of 3 or below, and those without an NAIC designation were sold during the second quarter of 2021 and reacquired within 30 days of the sale date. The details of securities with an NAIC designation of 3 or below, and those without an NAIC designation, which were sold during the second quarter of 2020 and reacquired within 30 days of the sale date were as follows:

|                            | 2020                |                           |    |                                 |    |                                     |    |             |  |  |  |  |  |

#### 20. Fair Value Measurements

A. Fair value is defined, per SSAP No. 100R, Fair Value ("SSAP No. 100R"), as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. SSAP No. 100R identified three valuation techniques which are used, either independently or in combination, to determine fair value: (1) market approach; (2) income approach; and (3) cost approach. SSAP No. 100R also contains guidance about observable and unobservable inputs, which are assumptions that market participants would use in pricing an asset or liability. To increase consistency and comparability in fair value measurements, the fair value hierarchy prioritizes the inputs to valuation techniques into three broad levels: 1, 2 and 3. The hierarchy for inputs used in determining fair value maximizes the use of observable inputs by requiring that observable inputs be used when available. Certain assets are measured utilizing net asset value ("NAV") as a practical expedient to determine fair value.

The Company has two types of situations where investments are classified as Level 3 in the fair value hierarchy:

- (1) Specific inputs significant to the fair value estimation models are not market observable. This primarily occurs in the Company's use of broker quotes to value certain securities where the inputs have not been corroborated to be market observable, and the use of valuation models that use significant non-market observable inputs.
- (2) Quotes continue to be received from independent third-party valuation service providers and all significant inputs are market observable; however, there has been a significant decrease in the volume and level of activity for the asset when compared to normal market activity such that the degree of market observability has declined to a point where categorization as a Level 3 measurement is considered appropriate. The indicators considered in determining whether a significant decrease in the volume and level of activity for a specific asset has occurred include the level of new issuances in the primary market, trading volume in the secondary market, the level of credit spreads over historical levels, applicable bid-ask spreads, and price consensus among market participants and other pricing sources.
- 1. The following tables summarize the Company's assets and liabilities measured and reported at fair value in the Assets and Liabilities, Surplus and Other Funds pages:

| (in millions)                                    | June 30, 2021 |           |    |           |          |           |    |     |    |           |

Transfers into Level 3 during first six months of 2021 and 2020 included securities measured at lower of cost or market and reported at fair value in 2021 and 2020 and at cost in 2020 and 2019 respectively. Transfers out of Level 3 during 2021 included securities measured at lower of cost or market and reported at cost in 2021 and at fair value in 2020. There were no transfers out of Level 3 during the first six months of 2020.

- 3. The Company consistently follows its policy for determining when transfers between levels are recognized. The policy about the timing of recognizing transfers into Level 3 is the same as that for recognizing transfers out of Level 3.
- 4. In determining fair value, the Company principally uses the market approach which generally utilizes market transaction data for the same or similar instruments. To a lesser extent, the Company uses the income approach which involves determining fair values from discounted cash flow methodologies. For the majority of Level 2 and Level 3 valuations, a combination of the market and income approaches is used.

Listed below is a summary of the significant valuation techniques for assets and liabilities measured and reported at fair value.

#### Level 2 measurements

Perpetual preferred stocks - The primary inputs to the valuation include quoted prices or quoted net asset values for identical or similar assets in markets that are not active.

<u>Derivatives</u> - Free-standing exchange listed derivatives that are not actively traded are valued based on quoted prices for identical instruments in markets that are not active. Over-the-counter derivatives, including foreign exchange forward contracts, total return swap agreements and credit default swap agreements, are valued using models that rely on inputs such as interest rate yield curves, implied volatilities, index price levels, currency rates, and credit spreads that are observable for substantially the full term of the contract. The valuation techniques underlying the models are widely accepted in the financial services industry and do not involve significant judgment.

<u>Separate Accounts</u> - Indexed variable annuity contracts may be supported by corporate bonds, including those that are privately placed. The primary inputs to the valuation for publicly traded corporate bonds include quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads. Privately placed corporate bonds are valued using a discounted cash flow model that is widely accepted in the financial services industry and uses market observable inputs and inputs derived principally from, or corroborated by, observable market data. The primary inputs to the discounted cash flow model include an interest rate yield curve, as well as published credit spreads for similar assets in markets that are not active that incorporate the credit quality and industry sector of the issuer. In addition, indexed variable annuity contracts may be supported by exchange listed derivatives that are not actively traded and are valued based on quoted prices for identical instruments in markets that are not active.

#### Level 3 measurements

Bonds - Includes corporate bonds, including bank loans and asset-backed securities ("ABS").

Corporate bonds, including those that are privately placed, and bank loans are valued based on non-binding broker quotes where the inputs have not been corroborated to be market observable. Other inputs include an interest rate yield curve, as well as published credit spreads for similar assets that incorporate credit quality and industry sector of the issuer. ABS are valued based on non-binding broker quotes where the inputs have not been corroborated to be market observable.

<u>Separate Accounts</u> - Indexed variable annuity contracts are supported by mortgage loans. The fair value of mortgage loans on real estate is based on discounted contractual cash flows or, if the loans are impaired due to credit reasons, the fair value of collateral less costs to sell. Risk adjusted discount rates are selected using current rates at which similar loans would be made to borrowers with similar characteristics using similar types of properties as collateral.

The fair value of bonds in Level 1 is based on unadjusted quoted prices for identical assets in active markets the Company can access. The fair value of publicly traded bonds in Level 2 is based upon quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads. Non-publicly traded bonds in Level 2 are valued using a discounted cash flow model that is widely accepted in the financial services industry and uses market observable inputs and inputs derived principally from, or corroborated by,

observable market data. The primary inputs to the discounted cash flow model include an interest rate yield curve, as well as published credit spreads for similar assets in markets that are not active that incorporate the credit quality and industry sector of the issuer. The fair value of municipal bonds in Level 3 not rated by third-party credit rating agencies, but receiving an NAIC designation is based on quoted prices for identical or similar assets in markets that exhibit less liquidity relative to those markets supporting Level 2 fair value measurements, contractual cash flows, benchmark yields and credit spreads. Also included are municipal bonds valued based on non-binding broker quotes where the inputs have not been corroborated to be market observable and municipal bonds in default valued based on the present value of expected cash flows. The fair value of corporate bonds in Level 3 is primarily based on non-binding broker quotes where the inputs have not been corroborated bonds in curve an interest rate yield curve, as well as published credit spreads for similar assets that incorporate the credit quality and industry sector of the issuer. The fair value of LBASS in Level 2 is primarily based on valuation models utilizing quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields, prepayment speeds, collateral performance and credit spreads to determine fair value. Certain LBASS in Level 2 are valued based on non-binding broker quotes whose inputs have been corroborated to be market observable. The fair value of LBASS in Level 3 is primarily based on benchmark yields, prepayment speeds, collateral performance and credit spreads to determine fair value. Certain LBASS in Level 2 is primarily based on non-binding broker quotes whose inputs have been corroborated to be market observable. The fair value of LBASS in Level 3 is primarily based on non-binding broker quotes where the inputs have not been corroborated to be market observable.

The fair value of perpetual preferred stocks in Level 2 is based on the valuation methods described in Part A4 of this note. The primary input to the valuation for redeemable preferred stocks in Level 2 include quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields, underlying stock prices and credit spreads. Certain preferred stocks, which do not have readily determinable fair values, and are investments in investment companies are measured utilizing NAV as a practical expedient.

The fair value of unaffiliated common stocks in Level 1 is based on unadjusted quoted prices for identical assets in active markets the Company can access. Certain unaffiliated private common stocks carried at fair value, which do not have readily determinable fair values, and are investments in investment companies that measure their assets at fair value on a recurring basis, are reported utilizing NAV as a practical expedient and are excluded from the fair value hierarchy

The fair value of mortgage loans on real estate in Level 3 is based on discounted contractual cash flows or, if the loans are impaired due to credit reasons, the fair value of collateral less costs to sell. Risk adjusted discount rates are selected using current rates at which similar loans would be made to borrowers with similar characteristics, using similar types of properties as collateral.

The fair value of cash equivalents in Level 1 is based on unadjusted quoted prices or daily quoted net asset values for identical assets in active markets the Company can access. The fair value of cash equivalents in Level 2 is based on quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads.

The fair value of short-term investments in Level 1 is based on unadjusted quoted prices for identical assets in active markets the Company can access. The fair value of short-term investments in Level 2 is based on quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads.

The fair value of derivatives in Level 2 is based on the valuation methods described in Part A4 of this note.

The fair value of LIHTC property investments in Level 3 is based on amortized cost, using the proportional amortization method, which approximates fair value. The fair value of unaffiliated surplus notes in Level 2 is based upon quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads.

The fair value of reinvested collateral from securities lending in Level 2 is based on carrying value due to its short-term nature.

The fair value of the assets of the Separate Account in Level 1 is based on actively traded mutual funds that have daily quoted net asset values that are readily determinable for identical assets the Company can access. The fair value of the assets of the Separate Accounts in Levels 2 and 3 is based on the valuation methods described in Part A4.

#### **Financial liabilities**

Presented below are the aggregate fair value estimates and statement values of financial instruments:

The fair value of the liability for deposit-type contracts in Level 3 is generally based on the terms of the underlying contracts incorporating current market-based crediting rates for similar contracts that reflect the Company's own credit risk. Immediate annuities without life contingencies and fixed rate funding agreements are valued at the present value of future benefits using current market-based implied interest rates and reflect the Company's own credit risk. Fixed annuities are valued at the account value less surrender charges.

The fair value of the liabilities for collateral related to securities lending in Level 2 is based on carrying value due to its short-term nature.

The fair value of derivatives in Level 2 is based on the valuation methods described in Part A4 of this note.

- D. The Company was able to estimate the fair value of all its financial instruments in 2021 and 2020.
- E. Investments in certain common and preferred stocks measured and reported at NAV in the Assets page and presented in the table in Part A1 are generally not redeemable with the issuing corporation and cannot be sold without approval of the managing members. Distributions of income are usually received from the sale of common stock or the liquidation of the underlying asset or assets of the issuing corporation over the life of these investments, typically 3-7 years. The amount of remaining commitments to invest in these investments over their remaining lives is immaterial.

#### 21. Other Items

C. Other Disclosures

The Novel Coronavirus Pandemic or COVID-19 ("Coronavirus")

The Coronavirus resulted in governments worldwide enacting emergency measures to combat the spread of the virus, including travel restrictions, government-imposed shelter-in-place orders, quarantine periods, social distancing and restrictions on large gatherings. These

measures have moderated in 2021 as vaccines have become more widely available in the United States. There is no way of predicting with certainty how long the pandemic might last. The Company continues to closely monitor and proactively adapt to developments and changing conditions. Currently, it is not possible to reliably estimate the impact to the Company's operations, but the effects could be material.

#### Transfer of Investments

During 2018, the Company transferred limited partnership investments with a book/adjusted carrying value of \$1.55 billion and cash of \$53 million to AIMCO Private Fund I, LLC ("AIMCO I"). Since the transfer of the assets did not meet the conditions of a sale per SSAP No. 103R, the assets of AIMCO I, which consisted of limited partnership investments with a book/adjusted carrying value of \$1.58 billion, cash equivalents of \$141 million and cash of \$5 million as of June 30, 2021, will continue to be directly reported in the Company's financial statements.

#### Sale of the Company

On January 26, 2021, AIC and AFIHC entered into a Stock Purchase Agreement with Everlake US Holdings Company (formerly Antelope US Holdings Company), an affiliate of an investment fund associated with The Blackstone Group Inc. to sell the Company and certain affiliates for approximately \$2.8 billion in cash. The transaction is expected to close in 2021, subject to regulatory approvals, pre-sale restructuring and reinsurance transactions and other customary closing conditions.

#### Scottish Re (U.S.), Inc. ("SRUS")

On December 14, 2018, the Delaware Insurance Commissioner placed SRUS under regulatory supervision. On March 6, 2019, the Chancery Court of the State of Delaware entered a Rehabilitation and Injunction Order in response to a petition filed by the Insurance Commissioner.

In 2019, the Company joined in a joint motion filed on behalf of several affected parties asking the court to allow a specified amount of offsetting claim payments and losses against premiums remitted to SRUS. The motion was resolved by the implementation of a stipulated offset "protocol" that permits cedents to continue to offset claim payments and losses against premiums subject to certain limitations and reservations of rights by the receiver. The Company and ALNY also filed a separate motion related to the reimbursement of claim payments where SRUS is also acting as administrator. This motion resulted in the receiver's agreement to refund advances made by the Company to SRUS' administrator from collected premiums. On June 30, 2020, the receiver filed a proposed Plan of Rehabilitation ("Plan") for consideration by the Court. Following several months of negotiations and discussions with SRUS' cedents and retrocessionaires, the receiver filed an amended draft Plan on March 16, 2021. The receiver thereafter informed the Court that they would be revising the Plan further, and on July 26, 2021, the receiver filed an outline of anticipated Plan modifications. A revised Plan has not been filed, and no hearing has been scheduled. However, at the instruction of the Court, the receiver and the stakeholders have negotiated a proposed discovery and briefing schedule that is expected to culminate in a final Plan approval hearing during the first half of 2022. The parties are currently awaiting instruction from the Court on the legal standard that will be applied to the Court's evaluation of the Plan.

The Company continues to monitor SRUS for future developments and will reevaluate its allowance for uncollectible amounts as new information becomes available.

22. Events Subsequent

An evaluation of subsequent events was made through August 11, 2021 for the Quarterly Statement issued on August 13, 2021. There were no significant subsequent events requiring adjustment to or disclosure in the financial statements.

- 24. Retrospectively Rated Contracts and Contracts Subject to Redetermination
  - E. Risk Sharing Provisions of the Affordable Care Act Not applicable.
- 25. Change in Incurred Losses and Loss Adjustment Expenses
  - A. For accident and health insurance products within the Company's book of business, the changes in the provision for incurred losses and loss adjustment expenses attributable to insured events of prior years were immaterial in 2021 and 2020. The Company did not accrue additional premiums or return premiums related to the prior-year effects in 2021 or 2020.
  - B. There were no changes in methodologies and assumptions used in calculating the liability of unpaid losses and loss adjustment expenses for the most recent reporting period presented.

# SUPPLEMENTAL EXHIBITS AND SCHEDULES INTERROGATORIES

The following supplemental reports are required to be filed as part of your statement filing. However, in the event that your company does not transact the type of business for which the special report must be filed, your response of NO to the specific interrogatory will be accepted in lieu of filing a "NONE" report and a bar code will be printed below. If the supplement is required of your company but is not being filed for whatever reason enter SEE EXPLANATION and provide an explanation following the interrogatory questions.

| 7. | Will the Reasonableness and Consistency of Assumptions Certification required by Actuarial Guideline XXXVI (Updated Market Value) be filed with the state of domicile and electronically with the NAIC?                                                                                                                                                     | YES             |
| 8. | Will the Life PBR Statement of Exemption be filed with the state of domicile by July 1st and electronically with the NAIC with the second quarterly filing per the Valuation Manual (by August 15)? (2nd Quarter Only) The response for 1st and 3rd quarters should be N/A. A NO response resulting with a bar code is only appropriate in the 2nd quarter. | NO              |

Explanation:

1.

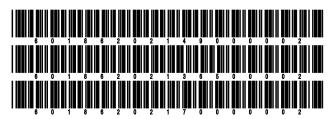

2.

- The Reasonableness of Assumptions Certification required by Actuarial Guideline XXXV will not be filed with the state of domicile and electronically with the NAIC because it is required for policies reserved for under Type 1 methods. The Company uses a Type 2 method.
- The Reasonableness of Assumptions Certification for Implied Guaranteed Rate Method required by Actuarial Guideline XXXVI will not be filed with the state of domicile and electronically with the NAIC because it is required for policies reserved for under Type 1 methods. The Company uses a Type 2 method.
- 6. The Reasonableness and Consistency of Assumptions Certification required by Actuarial Guideline XXXVI (Updated Average Market Value) will not be filed with the state of domicile and electronically with the NAIC because it is required for policies reserved for under Type 2a methods. The Company uses a Type 2 method.

8.

#### Bar Code:

- 1. Trusteed Surplus Statement [Document Identifier 490]
- 2. Medicare Part D Coverage Supplement [Document Identifier 365]
- 8. Life PBR Statement of Exemption (2nd Quarter Only) [Document Identifier 700]
