NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Allstate Insurance Company (the “Company” or “Allstate”) prepares its financial statements in conformity with accounting practices prescribed or permitted by the Illinois Department of Insurance (“IL DOI”). Prescribed statutory accounting practices include a variety of publications of the National Association of Insurance Commissioners (“NAIC”), as well as state laws, regulations and general administrative rules. Permitted statutory accounting practices encompass all accounting practices not so prescribed.

The State of Illinois requires its domestic insurance companies to prepare financial statements in conformity with the NAIC Accounting Practices and Procedures Manual (“APPM”), which includes all Statements of Statutory Accounting Principles (“SSAPs”), subject to any deviations prescribed or permitted by the IL DOI.

The Company’s net income and capital and surplus did not include any accounting practices prescribed or permitted by the IL DOI during 2025 and 2024.

B. The preparation of financial statements in conformity with the NAIC Annual Statement Instructions and accounting practices prescribed or permitted by the IL DOI requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

C. Listed below is a summary of the accounting policies that materially affect the financial statements.

Investments

Effective January 1, 2025, the Company adopted the NAIC’s Principles-Based Bond Definition standards, including changes to SSAP No. 26, Bonds, SSAP No. 43, Asset-Backed Securities and SSAP No. 21, Other Admitted Assets. Adoption of these standards impacts classification, accounting and reporting requirements for investments that were previously classified as bonds, including loan-backed and structured securities (“LBASS”). Pursuant to the requirements, debt securities representing a creditor relationship with a fixed payment schedule are now classified as issuer credit obligations (“ICO”) or asset-backed securities (“ABS”) based on the source of repayment, substantive credit enhancements, and the level of cash flows. Debt securities that do not meet the requirements in substance are classified as other invested assets. Changes were adopted on a prospective basis.

Investments that qualify as ICO, including certificates of deposit with fixed payment schedules and maturity dates in excess of a year, bank loans and Securities Valuation Office Identified Bond Exchange Traded Funds (“SVO-ETFs”), or ABS are reported as bonds. ICO, excluding SVO-ETFs, and ABS with an NAIC designation of 1 or 2 are reported at amortized cost using the effective yield method. ICO, excluding SVO-ETFs, and ABS with an NAIC designation of 3 through 6 are reported at the lower of amortized cost or fair value, with the difference reflected in unassigned surplus as an unrealized capital loss. The NAIC designations are determined in accordance with requirements detailed in the Purposes and Procedures Manual of the NAIC Investment Analysis Office. SVO-ETFs are reported at fair value. Changes in the fair value of SVO-ETFs are recorded as a change in net unrealized capital gains (losses), which is a component of unassigned surplus.

Debt securities that do not qualify as bonds are reported within other invested assets at the lower of amortized cost or fair value, with the changes recorded in unassigned surplus as unrealized capital loss. These investments follow the same accounting guidance as ABS for calculating amortized cost and determining and recognizing other-than-temporary impairments (“OTTI”). Effective January 1, 2025, debt securities with an aggregate carrying value of \$32 million were reclassified from bonds to other invested assets at amortized cost with no gain or loss recognized in surplus. As of June 30, 2025, additional debt securities, with an aggregate carrying value of \$43 million, were identified as not qualifying as bonds and reclassified to other invested assets at amortized cost with no gain or loss recognized in surplus. Upon reclassification, other invested assets were valued at the lower of amortized cost or fair value of \$75 million, resulting in no unrealized gains or losses within surplus.

Investments considered bonds and LBASS as of December 31, 2024, used the same valuation basis, income recognition policy and impairment process as ICO and ABS, respectively. Therefore, information provided for ABS in this policy note is also applicable to LBASS prior to January 1, 2025.

Perpetual preferred stocks and unaffiliated common stocks are reported at fair value. Differences between cost and fair value are recorded as a change in net unrealized capital gains (losses), which is a component of unassigned surplus.

Common stock investments in insurance subsidiaries domiciled in the United States are recorded based on the underlying statutory equity of the subsidiary and adjusted to eliminate surplus notes issued by subsidiaries and held by the Company. Common stock investments in foreign insurance subsidiaries are recorded based on the underlying accounting principles generally accepted in the United States of America (“GAAP”) equity from audited GAAP financial statements adjusted for items described in SSAP No. 97, Investments in Subsidiary, Controlled and Affiliated Entities.

Mortgage loans are reported at unpaid principal balances, net of unamortized premium or discount.

Investments in real estate are reported at depreciated cost less encumbrances or the lower of depreciated cost or fair value, less encumbrances and estimated cost to sell the property. Single real estate property investments, that are wholly owned by a limited liability company that is directly and wholly owned by the reporting entity, are reported as real estate investments.

Cash equivalents are reported at fair value or amortized cost. Cash equivalents reported at amortized cost are readily convertible into known amounts of cash and so near to their maturity that they present an insignificant risk of change in value because of changes in interest rates.

Short-term investments are reported at amortized cost.

Other invested assets consist of investments in joint ventures, partnerships, limited liability companies, low income housing tax credit (“LIHTC”) investments, collateral loans, residual tranche securities, capital and surplus notes and debt securities that do not qualify as bonds. Investments in joint ventures, partnerships and limited liability companies are generally reported based on the underlying audited GAAP equity of the investee, with undistributed earnings or losses reflected in unassigned surplus as a change in net unrealized capital gains and losses and, are generally recognized on a delay due to the availability of financial statements. LIHTC investments are carried at proportional amortized cost, based on the proportion of tax benefits received in the current year to total estimated tax benefits allocated to the Company. Collateral loans are reported at the outstanding principal balance and any related interest. Effective January 1, 2025, the Company elected to use the practical expedient method to value residual tranche securities and reported these securities at cost less exception-to-date distributions received. As of December 31, 2024, residual tranche securities were reported at the lower of amortized cost or fair value. Capital and surplus notes are reported at amortized cost or the lower of amortized cost or fair value depending on the NAIC designation.

NOTES TO FINANCIAL STATEMENTS

Investment income primarily consists of interest, dividends, income from limited partnership interests, rental income from real estate, income from certain derivative transactions and amortization of any premium or discount. Interest is recognized on an accrual basis using the effective yield method and dividends are recorded at the ex-dividend date. Interest income for ABS is determined considering estimated pay-downs, including prepayments, obtained from third-party data sources and internal estimates. Actual prepayment experience is periodically reviewed, and effective yields are recalculated when differences arise between the prepayments originally anticipated and the actual prepayments received and currently anticipated. For ABS of high credit quality with fixed interest rates, the effective yield is recalculated on a retrospective basis. For all others, the effective yield is generally recalculated on a prospective basis. In periods subsequent to the recognition of an OTTI on a bond, including ABS, the difference between the new amortized cost basis and the cash flows expected to be collected is accreted as interest income. Accrual of income is suspended for other-than-temporarily impaired bonds when the timing and amount of cash flows expected to be received is not reasonably estimable. Accrual of income is suspended for mortgage loans and bank loans that are in default or when the full and timely collection of principal and interest payments is not probable. Cash receipts on investments on nonaccrual status are generally recorded as a reduction of carrying value. Cash distributions received from investments in joint ventures, partnerships and limited liability companies are recognized in investment income to the extent that they are not in excess of the undistributed accumulated earnings attributable to the investee and the unrealized gain would be reversed. Any distributions that are in excess of the undistributed accumulated earnings attributable to the investee reduce the carrying amount of the investment. Investment income for residual tranche securities is recorded on a cash basis after full recovery of cost.

Realized capital gains and losses include gains and losses on investment sales, write-downs in value due to other than temporary declines in fair value, expirations and settlements of certain derivatives. Realized capital gains and losses on sales of investments are determined on a specific identification basis.

The Company has a comprehensive portfolio monitoring process to identify and evaluate each bond, including ABS, and common and preferred stock, whose carrying value may be other-than-temporarily impaired. For each bond, excluding ABS, in an unrealized loss position (fair value is less than amortized cost), the Company assesses whether management with the appropriate authority has made a decision to sell the bond prior to its maturity at an amount below its carrying value. If the decision has been made to sell the bond, the bond's decline in fair value is considered other than temporary and the Company recognizes a realized capital loss equal to the difference between the amortized cost and the fair value of the bond at the balance sheet date the assessment is made. If the Company has not made the decision to sell the bond, but it is probable the Company will not be able to collect all amounts due according to contractual terms, the bond's decline in value is considered other-than-temporarily impaired, and a write-down of the amortized cost to fair value is required. For securities with an NAIC designation of 3 through 6, unrealized losses that are not deemed other-than-temporarily impaired are reflected in the Company's unassigned surplus.

For ABS, the Company assesses whether management with the appropriate authority has made a decision to sell each ABS in an unrealized loss position or does not have the intent and ability to retain the ABS for a period of time sufficient to recover the amortized cost basis. If either situation exists, the security's decline in value is considered other-than-temporarily impaired and the security is written down as a realized capital loss to fair value. If management has not made the decision to sell the ABS and management intends to hold the security for a period of time sufficient to recover the amortized cost basis, the Company analyzes the present value of the discounted cash flows expected to be collected. If the present value of the discounted cash flows expected to be collected is less than the amortized cost, the security is considered other-than-temporarily impaired and the Company recognizes a realized capital loss for the difference between the present value of the discounted cash flows and the amortized cost. For securities with an NAIC designation of 3 through 6, unrealized losses that are not deemed other-than-temporarily impaired are reflected in the Company's unassigned surplus.

For common and preferred stocks, the Company considers various factors, including whether the Company has the intent and ability to hold the stock for a period of time sufficient to recover its cost basis. Where the Company lacks the intent and ability to hold to recovery, or believes the recovery period is extended, the stock's decline in fair value is other than temporary and the difference between the stock's cost and fair value is recognized as a realized capital loss. A decision to sell stock for an amount below its cost would be an other than temporary decline and a realized capital loss is recorded.

The Company's portfolio monitoring process includes a quarterly review of all securities to identify instances where the fair value of a security compared to its amortized cost (for bonds, including ABS) or cost (for stocks) is below internally established thresholds. The process also includes the monitoring of other impairment indicators such as ratings, ratings downgrades and payment defaults. The securities identified, in addition to other securities for which the Company may have a concern, are evaluated for potential OTTI using all reasonably available information relevant to the collectibility or recovery of the security. Inherent in the Company's evaluation of OTTI for these securities are assumptions and estimates about the financial condition and future earnings potential of the issue or issuer. Some of the factors that may be considered in evaluating whether a decline in fair value is other than temporary are: (1) the financial condition, near-term and long-term prospects of the issue or issuer, including relevant industry specific market conditions and trends, geographic location and implications of rating agency actions and offering prices; (2) the specific reasons that a security is in an unrealized loss position, including overall market conditions which could affect liquidity; and (3) the extent to which the fair value has been less than amortized cost or cost.

Impairment adjustments on mortgage loans are recorded when it is probable contractual principal and interest will not be collected. OTTI adjustments reduce the carrying value of mortgage loans to the fair value of the collateral less the estimated cost to sell. The carrying value of real estate is adjusted for OTTI only if it is not recoverable and exceeds fair value.

Derivative financial instruments

Derivative financial instruments include total return and credit default swap agreements, foreign currency forward contracts, futures contracts and indexed option contracts. When derivatives meet specific criteria, they may be designated as accounting hedges, which means they may be accounted for and reported on in a manner that is consistent with the hedged asset or liability. Derivatives that are not designated as accounting hedges are accounted for on a fair value basis, with changes in fair value recorded as unrealized gains or losses in unassigned surplus. The Company's accounting policy for the various types of derivative instruments is discussed further in Note 8, Parts A, B & C.

Securities loaned

The Company's business activities include securities lending transactions, which are used primarily to generate net investment income. The proceeds received in conjunction with securities lending transactions can be reinvested in short-term investments, cash equivalents or bonds.

Off-balance-sheet financial instruments

Commitments to invest, commitments to purchase private placement securities, commitments to fund loans and financial guarantees have off-balance-sheet risk because their contractual amounts are not recorded in the Company's Statements of Financial Position. The details of the off-balance-sheet commitments are discussed further in Note 16.

Premium revenue

Premiums are deferred and earned on a pro-rata basis over the policy period. The policy term on some Shared Economy policies is only one month. As a result, those policies are fully earned in the period they are written. The portion of premiums written applicable to the unexpired periods of the policies is recorded as unearned premiums. Premiums received in advance of the policies' effective dates are recorded as advance premiums. Premiums written and not yet collected and agents' balances are shown as a receivable, with balances older than 90 days generally nonadmitted. The Company regularly evaluates this receivable and establishes valuation allowances, as appropriate, for items less than 90 days.

The Company also writes contractual liability insurance policies ("CLPs") related to warranty coverage for the sale of mobile phones, televisions, tablets, computers, and other miscellaneous consumer products in all states except Florida, Washington and New Jersey. Premiums on these policies are deferred and earned over the risk period of the policies which would vary by product and range from one to five years. The CLPs that support these protection plan products are earned monthly based on loss emergence patterns that were developed using actual warranty loss trends, net of an estimate for cancellations.

Reserves for losses and loss adjustment expenses

The reserves for losses and loss adjustment expenses are the estimate of amounts necessary to settle all reported and unreported claims for the ultimate cost of insured losses, based upon the facts of each case and the Company's experience with similar cases. These reserves are reported net of unpaid reinsurance recoverables and estimated amounts of salvage and subrogation. The establishment of appropriate reserves, including reserves for catastrophe losses, is an inherently uncertain and complex process. Reserve estimates are regularly reviewed and updated, using the most current data and information available. Any resulting reestimates are reflected in the current Statement of Income.

NOTES TO FINANCIAL STATEMENTS

Reinsurance

In the normal course of business, the Company seeks to limit aggregate and single exposure to losses on large risks by purchasing reinsurance. The Company may also use reinsurance to affect the disposition of certain blocks of business. Reinsurance does not extinguish the Company's primary liability under the policies written. The Company regularly evaluates whether a provision for reinsurance is needed by evaluating the admissibility, collectability and collateralization of reinsurers' balances in accordance with the APPM. A provision for reinsurance is established, as appropriate, with a charge to unassigned surplus.

Indemnification

The Company may also participate in various indemnification mechanisms, including industry pools and facilities, which are reimbursement mechanisms that assess participating insurers for expected claims, reimburse participating insurers for qualifying paid claims and may permit participating insurers to recoup amounts assessed directly from insureds. Indemnification recoverables are backed by the financial resources of the property and casualty insurance company market participants. Indemnification recoverables are considered collectible based on the industry pool and facility enabling legislation.

The amounts reported in the Assets page as reinsurance and indemnification recoverables include amounts paid and due from reinsurers and indemnitors. Reserves are reported net of amounts expected to be recovered from reinsurers and indemnitors on losses and loss adjustment expense reserves that have not yet been paid. Reinsurance and indemnification recoverables on unpaid losses are estimated based upon assumptions consistent with those used in establishing the liabilities related to the underlying contract. Reinsurance and indemnification premiums are generally reflected in income in a manner consistent with the recognition of premiums on the associated contracts. For catastrophe coverage, the cost of reinsurance premiums is recognized ratably over the contract period to the extent coverage remains available. Certain catastrophe agreements are subject to reinstatement premiums. Reinstatement premium is earned over the period from the reinstatement of the limit to the expiration of the agreement.

Income taxes

The income tax provision is calculated under the liability method. Deferred tax assets ("DTAs") and deferred tax liabilities ("DTLs") are recorded based on the difference between the statutory financial statement and tax bases of assets and liabilities at the enacted tax rates. Deferred income taxes also arise from net unrealized capital gains and losses on certain investments carried at fair value. The net change in DTAs and DTLs is applied directly to unassigned surplus. The nonadmitted portion of gross DTAs is determined by applying the rules prescribed by SSAP No. 101, *Income Taxes* ("SSAP No. 101").

- D. Based upon its evaluation of relevant conditions and events, management did not have substantial doubt about the Company's ability to continue as a going concern as of December 31, 2025 or 2024.
2. Accounting Changes and Corrections of Errors

The Company did not have accounting changes or material corrections or errors that impacted net income or surplus for the year ended December 31, 2025.

In 2024, the Company discovered an accounting error related to deferred ceding commission associated with an intercompany reinsurance agreement with an affiliate totaling \$151 million that should have transferred to the Company during 2021 and reported in receivables from parent, subsidiaries and affiliates (Assets Page, Line 23) and other underwriting expenses incurred (Statement of Income Page, Line 4) by the Company. The adjustment recorded in June 2024 included an increase to receivables from parent, subsidiaries and affiliates (Assets Page, Line 23) of \$151 million, a reduction to current federal and foreign income tax recoverable and interest thereon (Assets Page, Line 18.1) of \$31 million, and an increase to unassigned funds (surplus) (Liabilities, Surplus and Other Funds Page, Line 35) of \$120 million as of June 30, 2024. There was no impact to net income in 2024. As of December 31, 2024 the receivable with parent, subsidiaries and affiliated was settled.

- B. Statutory Merger - Not applicable.
- C. Impairment Loss

In 2025, the Company recognized an impairment write-down of \$32 million on its investment in Digital Bridge Small Cells Holdings, LLC that was acquired via a statutory purchase. The impairment was due to a decline in the fair value of the underlying investment that was deemed to be other than temporary. The fair value of the investment was determined to be zero as of the impairment date. In 2024, the Company did not recognize impairment losses on the investments disclosed above.

- D. Subcomponents and Calculation of Adjusted Surplus and Total Admitted Goodwill

The calculation of total admitted goodwill as a percent of the Company's September 30 adjusted surplus was as follows as of December 31:

None of the Company's mortgage loans were impaired or in nonaccrual status as of December 31, 2024. The Company did not recognize any interest income on mortgage loans using the cash-basis of accounting in 2024.

7. The Company did not have any activity to report for 2025 or 2024 within the allowance for credit losses account.
8. None of the Company's mortgage loans were derecognized as a result of foreclosure in 2025 or 2024.
9. Mortgage loans are evaluated for impairment on a specific loan basis through a quarterly credit monitoring process and review of key credit quality indicators. Mortgage loans are considered impaired when it is probable the Company will not collect the contractual principal and interest. Accrual of income is suspended for mortgage loans that are in default or when full and timely collection of principal and interest payments is not probable. Cash receipts on mortgage loans on nonaccrual status are generally recorded as a reduction of carrying value.

3. None of the Company's ABS in 2025 or LBASS in 2024 were other-than-temporarily impaired as a result of the discounted present value of the cash flows expected to be collected being less than amortized cost.
4. Unrealized losses are calculated as the difference between amortized cost and fair value. They result from declines in fair value below amortized cost and are evaluated for OTTI. Every ABS in 2025 and LBASS in 2024 with unrealized losses was included in the portfolio monitoring process.

None of the Company's ABS or LBASS were in an unrealized loss position as of December 31, 2025 or 2024.

NOTES TO FINANCIAL STATEMENTS

5. None of the Company's ABS were in an unrealized loss position as of December 31, 2025

ABS in an unrealized loss position were evaluated based on actual and projected collateral losses relative to the securities' positions in the respective securitization trusts, security specific expectations of cash flows, and credit ratings. This evaluation also takes into consideration credit enhancement, measured in terms of: (1) subordination from other classes of securities in the trust that are contractually obligated to absorb losses before the class of security the Company owns, and (2) the expected impact of other structural features embedded in the securitization trust beneficial to the class of securities the Company owns, such as overcollateralization and excess spread.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions

- 1. The Company receives cash collateral for securities loaned in an amount generally equal to 102% and 105% of the fair value of domestic and foreign securities, respectively, and records the related obligations to return the collateral as a liability.
- 2. The Company did not pledge its assets as collateral in securities lending transactions as of December 31, 2025 or 2024.
- 3. Collateral Received

a. Aggregate Amount Collateral Received

- 1. The following table summarizes the Company's cash collateral received in connection with its securities lending program as of December 31:

- c. All collateral is received in the form of cash, unrestricted and maintained in a separate custody account. Collateral is invested in cash equivalents, short-term investments or bonds during the agreement period. The Company monitors the fair value of securities loaned on a daily basis and obtains additional collateral as necessary under the terms of the agreements to mitigate counterparty credit risk. The Company maintains the right and ability to repossess the securities loaned on short notice. Substantially all of the Company's securities loaned were placed with large banks.

4. The Company did not use affiliated agents for its securities lending transactions.

5. Collateral Reinvestment

a. Aggregate Amount Collateral Reinvested

- 1. The following table summarizes the Company's reinvested cash collateral in connection with its securities lending program as of December 31:

- 2. The Company did not enter into dollar repurchase agreements in 2025 or 2024.

- b. The cash collateral was primarily invested in short-term investments and bonds that can be liquidated based on current market conditions on demand to match the liability. As of December 31, 2025, the Company had invested assets with a fair value of \$1.95 billion, which included \$336 million of investment grade bonds with remaining maturities greater than one year. As of December 31, 2024, the Company had invested assets with a fair value of \$2.04 billion, which included \$200 million of investment grade bonds with remaining maturities greater than one year. Additionally, the Company has sufficient liquidity to cover any shortfall on demand.

6. All the collateral the Company has accepted under its securities lending program is permitted, by contract or custom, to be sold or repledged.

7. None of the securities lending transactions the Company has entered into extend beyond a year.

NOTES TO FINANCIAL STATEMENTS

- G. Reverse Repurchase Agreements Transactions Accounted for as Secured Borrowing - Not applicable.
- H. Repurchase Agreements Transactions Accounted for as a Sale - Not applicable.
- I. Reverse Repurchase Agreements Transactions Accounted for as a Sale - Not applicable.
- J. Real Estate
1. In 2025, two real estate investments held for the production of income recognized impairment losses of \$8 million within net realized capital gains or losses as the carrying values exceeded the estimated fair values as determined by appraisals. The Company did not recognize impairment losses related to its real estate investments in 2024.
 2. For the year ended December 31, 2025, the Company recognized losses of \$1 million on the partial disposal of three real estate investments. For the year ended December 31, 2024, the Company recognized gains of \$5 million on the sale of real estate investments. The losses and gains were presented in net realized capital gains or losses in the Statement of Income. The Company had three and one real estate investments classified as held for sale as of December 31, 2025 and 2024, respectively, as part of a strategy to redeploy capital to other investment opportunities. Investments that are held for sale are expected to be disposed of through sales in the open market and completed in one year.
 3. As of December 31, 2025 and 2024, there were no changes to the plan of sale for assets classified as held for sale.
 4. The Company did not engage in retail land sales operations in 2025 or 2024.
 5. The Company did not hold real estate with participating mortgage loan features in 2025 or 2024.
- K. Investments in Tax Credit Structures
1. The Company invests in federal and state LIHTC programs aimed at developing affordable housing units. The investments are structured as equity investments in limited partnerships that own and operate housing projects. The Company accounts for its investments using the proportional amortization method. This method amortizes investments in proportion to the allocation of tax credits and other tax benefits received.
 2. Tax credits and other tax benefits, net of federal income taxes, were \$257 million and \$244 million for the years ended December 31, 2025 and 2024, respectively.
 3. The balance of admitted tax credit investments recognized within other invested assets was \$1.51 billion as of December 31, 2025 and 2024.
 4. The amount of tax credit investment amortization recognized within net investment gain (loss) was \$218 million for the year ended December 31, 2025. The amount of premium tax credits recognized as a reduction of other underwriting expenses incurred, after reinsurance, was \$67 million for the year ended December 31, 2025.
 5. As of December 31, 2025, the Company's investments in tax credit structures are expected to generate the following amounts of tax credits by year.

(in millions)	Transferable/ Certificated	Non- Transferable
2026	\$ 1	\$ 240
2027	\$ 1	\$ 249
2028	\$ 1	\$ 243
2029	\$ 1	\$ 221
2030	\$ —	\$ 190
Thereafter	\$ —	\$ 553

6. The Company recorded a liability of \$555 million as of December 31, 2025 which represents commitments to make additional contributions in tax credit investments. As of December 31, 2025, the Company did not have contingent commitments related to tax credit investments.
7. Management was not aware of the Company's tax credit investments and related properties being the subject of any regulatory reviews as of December 31, 2025 or 2024. No significant modifications or events changed the tax credit investments or relationships with the underlying projects as of December 31, 2025.
8. Impairment Losses – Not applicable.

6. Joint Ventures, Partnerships and Limited Liability Companies

- A. The Company did not have investments in joint ventures, partnerships or limited liability companies that exceeded 10% of its admitted assets as of December 31, 2025 or 2024.
- B. The Company recognized impairment write-downs on its investments in partnerships and limited liability companies accounted for in accordance with SSAP No. 48, *Joint Ventures, Partnerships and Limited Liability Companies* (“SSAP No. 48”) as follows for the years ended December 31. All impairment write-downs were identified during the Company’s normal ongoing portfolio monitoring process.

(\$ in millions)		Number of Assets		Impairment Amount		Facts and Circumstances Leading to Impairment	How Fair Value Determined
Asset Description		2025	2024	2025	2024		
Partnerships		12	1	\$ 90	\$ 16	Decline in the fair value of the underlying investments deemed to be other-than-temporary. Includes certain SCA partnerships, see Note 10, Part J.	Assessment of market value of partnership's investments
Partnerships		2	—	\$ 3	\$ —	Intent to sell	Price received to sell asset at measurement date under current market conditions
Limited liability companies		2	1	\$ 46	\$ 5	Decline in the fair value of the underlying investments deemed to be other-than-temporary	Assessment of market value of limited liability company's investments

The Company had no impairment write-downs on investments in joint ventures accounted for in accordance with SSAP No. 48 in 2025 or 2024.

7. Investment Income

- A. Due and accrued investment income is recorded as an asset, with three exceptions. Due and accrued investment income on mortgage loans in default, where interest is more than 180 days past due, is nonadmitted. Due and accrued investment income for investments other than mortgage loans, that is more than 90 days past due, is nonadmitted. In addition, due and accrued investment income that is determined to be uncollectible, regardless of its age, is written off in the period that determination is made.
- B. The Company reported \$0.1 million and \$0.2 million of nonadmitted due and accrued investment income as of December 31, 2025 and 2024, respectively.

8. Derivative Instruments

A. Derivatives under SSAP No. 86 - *Derivatives*

- 1.,
2. &
3.
- Derivative financial instruments utilized by the Company during 2025 and 2024 included total return and credit default swap agreements, foreign currency forward contracts, futures contracts and indexed option contracts. The notional amounts specified in the contracts are used to calculate the exchange of contractual payments under the agreements and are generally not representative of the potential for gain or loss on these agreements. However, the notional amounts specified in credit default swap agreements where the Company has sold credit protection represents the maximum amount of potential loss, assuming no recoveries.

Market risk is the risk that the Company will incur losses due to adverse changes in market rates and prices. Market risk exists for all of the derivative financial instruments the Company currently holds, as these instruments may become less valuable due to adverse changes in market conditions. To limit this risk, the Company's senior management has established risk control limits. In addition, changes in fair value of the derivative financial instruments that the Company uses for risk management purposes are generally offset by the change in the fair value or cash flows of the hedged risk component of the related assets, liabilities or forecasted transactions.

The Company manages its exposure to credit risk by utilizing highly rated counterparties, establishing risk control limits, executing legally enforceable master netting agreements and obtaining collateral where appropriate. The Company has not incurred any losses on derivative financial instruments due to counterparty nonperformance. Other derivatives, including futures and certain option contracts, are traded on organized exchanges, which require margin deposits and guarantee the execution of trades, thereby mitigating any potential credit risk.

Counterparty credit exposure represents the Company's potential loss if all of the counterparties concurrently fail to perform under the contractual terms of the contracts and all collateral, if any, becomes worthless. This exposure is measured by the statement value of over-the-counter and cleared derivative contracts with a positive statement value at the reporting date.

The Company uses derivatives for risk reduction and to increase investment portfolio returns through asset replication. Risk reduction activity is focused on managing the risks with certain assets and liabilities arising from the potential adverse impacts from changes in risk-free interest rates, changes in equity market valuations, increases in credit spreads and foreign currency fluctuations. Asset replication refers to the "synthetic" creation of assets through the use of derivatives. The Company replicates bonds using a combination of a credit default swap, index total return swap, options, futures, or a foreign currency forward contract and one or more highly rated bonds, primarily investment grade host bonds, to synthetically replicate the economic characteristics of one or more cash market securities. The Company replicates equity securities using futures, index total return swaps and options to increase equity exposure. With the exception of non-hedge derivatives used for asset replication, all of the Company's derivatives are evaluated for their ongoing effectiveness as either accounting hedge or non-hedge derivative financial instrument on at least a quarterly basis. The Company does not use derivatives for speculative purposes.

The paragraphs below describe the derivatives the Company uses, including the objectives, cash requirements and accounting policies.

Swaps

Credit default swap agreements are used for either buying credit protection or selling credit protection on a specified entity or index. Buying credit protection requires a payment of a premium to a counterparty or a clearing house in exchange for a future cash settlement or a promise to deliver a bond, if a specified credit event occurs. Selling credit protection provides for the receipt of a premium from a counterparty or a clearing house in exchange for a future cash settlement, or a promise to purchase a bond, if a specified credit event occurs. The Company enters into certain credit default swap agreements as a means to buy protection, mitigating the credit risk in a particular bond or bond portfolio, while leaving the security or bond portfolio intact. The Company enters into other credit default swap agreements as replication transactions, enabling greater diversification of credit risk by selling protection on specified entities that may not be frequent issuers in the traditional corporate bond market and by selling protection on indices also as a less expensive alternative to the cash market.

Total return swap agreements are agreements where one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income it generates and any capital gains. The Company uses total return swap agreements for asset replication. Cash settlements usually occur at dates specified in individual agreements. The amount of cash exchanged is equal to the difference between the set rate in the contract and the return of the underlying asset.

Credit default and total return swap agreements are reported in Schedule DB, Part A. Contracts used for replication purposes are also reported in Schedule DB, Part C. Credit default swap agreements used for buying protection receive non-hedge accounting treatment. Periodic settlements, which represent amounts receivable from/payable to the counterparties or a clearing house are based on the settlement terms within the agreement, and reported as a component of net investment income. The change in the fair value of open swap agreements that receive non-hedge accounting treatment are reported as net unrealized capital gains and losses, within unassigned surplus. Credit default and total return swap agreements entered into as replication transactions are valued at amortized cost.

Foreign currency forward contracts involve the future exchange or delivery of foreign currencies based on terms negotiated at the inception of the contract which are settled at the end of the contract. They are used to reduce foreign currency risk associated with holding foreign currency denominated investments. Cash settlement is required when the contract matures. The amount of cash exchanged is based on the difference between the specified rate on the date the contract was entered into (contract rate) compared to the actual rate on the settlement date. On the settlement date, the Company will either pay or receive cash equal to the difference between the contract rate and the actual rate multiplied by the specified notional amount. The change in the fair value of open foreign currency forward contracts is reported as net unrealized capital gains and losses, within unassigned surplus, until closed (e.g. terminated or settled). If the contract was hedging coupon payments of a bond, any gains and losses at closing are reported in net investment income. If the contract was hedging the original principal of a bond or the bond the Company was hedging is sold, any gains and losses at closing are reported in realized capital gains or losses. Foreign currency forward contracts entered into as a replication transaction are valued at amortized cost. These contracts are reported in Schedule DB, Part A and receive non-hedge accounting treatment. If any of these contracts were used for replication purposes, then they are also reported in Schedule DB, Part C.

Futures

The Company utilizes equity index and interest rate futures contracts. Futures contracts are defined as commitments to buy or sell designated financial instruments based on specified prices, yields or indices. Futures contracts provide returns at specified or optional

NOTES TO FINANCIAL STATEMENTS

dates based upon a specified index or interest rate applied to a notional amount. The Company utilizes futures contracts to (1) manage the interest rate risks of existing investments by changing the duration of the portfolio in order to offset the economic effect that interest rates would otherwise have on the fair value of bonds; (2) offset valuation losses in the common and preferred stock portfolios during periods of declining equity market values and (3) increase equity or rate exposure through asset replication. In addition, equity index futures are used to hedge the market risk related to deferred compensation liability contracts. Daily cash settlement of variation margins is required for futures contracts and is based on the changes in daily prices. The final settlement of equity index and interest rate futures contracts is always in cash. Daily cash settlements of margin gains or losses for futures contracts receiving fair value hedge accounting treatment are reported in net investment income. The daily cash settlements of margin gains and losses for futures contracts that receive non-hedge accounting treatment and have terminated are reported in net realized capital gains or losses. The daily cash settlements of margin gains and losses for open futures contracts that receive non-hedge accounting treatment are reported as net unrealized capital gains and losses within unassigned surplus. Futures contracts are reported in Schedule DB, Part B and receive either fair value hedge accounting or non-hedge accounting treatment, depending on the strategy. Futures contracts used for replication purposes are also reported in Schedule DB, Part C.

Options

Index option contracts provide returns at specified or optional dates based on a specified equity index or rate applied to the option's notional amount. When the Company purchases and write (sells) option contracts at specific prices, a premium is calculated for the right, but not the obligation, to buy/sell the value of an underlying index at a stated price on or before the expiration date of the option. The amount of premium calculated is based on the number of contracts purchased/sold, the specified price and the maturity date of the contract. Premiums are paid or received in cash at either the inception of the purchase/sale of the contract or throughout the life of the contract depending on the agreement with the counterparties and brokers. If the option is exercised, the Company receives/pays cash equal to the product of the number of contracts and the specified price in the contract (strike price). Purchased and written put and call index option contracts are cash settled upon exercise. If the options are not exercised, then no additional cash is exchanged when the contract expires. Premiums incurred when purchasing option contracts are reported as a derivative asset and premiums received when writing option contracts are reported as a derivative liability. Purchased and written option contracts are reported on Schedule DB, Part A. Purchased and written option contracts used for replication purposes are also reported in Schedule DB, Part C.

The Company purchases and writes option contracts for asset replication and as a hedge to offset valuation losses in the investment portfolio during periods of declining market values. Purchased and written index option contracts used as a hedge receive non-hedge accounting treatment. The change in the fair value of purchased/written option contracts is reported as net unrealized capital gains and losses, within unassigned surplus, with an adjustment to derivative assets/liabilities. The gain or loss on the cash settled exercise of a purchased/written index option is reported in realized capital gains or losses. If the purchased/written option contract expires without being exercised the premiums paid/received are reported as realized capital gains or losses and the corresponding asset/liability previously recorded is reversed.

Purchased and written index option contracts entered into as replication transactions are valued at amortized cost. Premiums paid for a purchased/written option contract are amortized/accreted into net investment income over the life of the option. The gain or loss on the cash settled exercise of a purchased/written index option contract is reported in realized capital gains or losses.

4. In 2025 and 2024 the Company entered into option contracts which required the payment/receipt of premiums at the inception of the contract.
5. The Company did not have gains or losses in net unrealized capital gains or losses that represented a component of any derivatives' gain or loss that was excluded from the assessment of hedge effectiveness in 2025 or 2024.
6. The Company did not have gains or losses in net unrealized capital gains or losses that resulted from derivatives that no longer qualify for hedge accounting treatment in 2025 or 2024.
7. The Company did not have derivatives accounted for as cash flow hedges of a forecasted transaction.
8. Cash flows from derivatives are primarily reported within miscellaneous proceeds/miscellaneous applications in the cash from investments section of the Cash Flow Statement. In addition, the change in the derivative liability is reported within other cash provided in the cash from financing and miscellaneous sources section and derivative transactions that result in the recognition of net investment income are reported within the cash from operations section.
9. In 2025 and 2024 the Company entered into option contracts which required the payment/receipt of premiums at the inception of the contract.
10. The Company did not utilize portfolio layer method hedging.

B. Derivatives under SSAP No. 108 - *Derivative Hedging Variable Annuity Guarantees* - Not applicable..

9. Income Taxes

The Inflation Reduction Act of 2022 ("Act") which contains several tax-related provisions, was enacted on August 16, 2022. The Act created a 15% corporate alternative minimum tax ("CAMT") on certain large corporations, effective beginning in 2023. The controlled group of corporations of which the Company is a member has determined that it is an "applicable corporation" under the rules of CAMT, and as such, the controlled group is expected to be required to perform the CAMT computations. The controlled group of corporations will not have a CAMT liability in 2025.

Although the CAMT may apply in any given year where the CAMT liability exceeds the regular tax liability, the CAMT would generate a non-expiring tax credit carryforward which would be accounted for as a deferred tax asset. The CAMT credit can be used to reduce regular tax in future years when the regular tax liability is greater than the CAMT liability. There is no CAMT credit carryforward for the year ended December 31, 2025.

In assessing the realizability of our deferred tax assets, including determination of valuation allowance, the Company has made an accounting policy election to disregard the CAMT impact in evaluating the realizability of deferred tax assets.

The application of SSAP No. 101 requires the Company to evaluate the recoverability of DTAs and to establish a statutory valuation allowance adjustment ("valuation allowance") if necessary to reduce the DTA to an amount which is more likely than not to be realized. Considerable judgment is required in determining whether a valuation allowance is necessary, and if so, the amount of such valuation allowance. In evaluating the need for a valuation allowance the Company considers many factors, including: (1) the nature of the DTAs and DTLs; (2) whether they are ordinary or capital; (3) the timing of their reversal; (4) taxable income in prior carryback years as well as projected taxable earnings exclusive of reversing temporary differences and carryforwards; (5) the length of time that carryovers can be utilized; (6) unique tax rules that would impact the utilization of the DTAs; and (7) any tax planning strategies that the Company would employ to avoid an operating loss or tax credit carryforward from expiring unused. Although the realization is not assured, management believes it is more likely than not that the DTAs, net of the valuation allowance, will be realized. The Company did not record a valuation allowance at December 31, 2025 or 2024.

2. The Company joins the Corporation and its 119 domestic subsidiaries in the filing of the US consolidated federal income tax return. The consolidated group has elected under IRC Section 1552(a)(2) to allocate the consolidated federal income tax liability based on each member's federal income tax liability computed on a separate return basis, except all tax benefits resulting from operating losses and tax credits are allocated to the Company to the extent they can be utilized in the consolidated return.

If the controlled group has a CAMT liability for any year, such liability shall be allocated to each member according to the ratio of (i) the excess of the member's separate return tentative minimum tax for the year over the member's separate return regular tax for such year, to (ii) the sum of such excess amounts for all members of the group.

- G. The Company had no liability for federal income tax loss contingencies as of December 31, 2025, and believes the liability balance will not materially change in the next twelve months.
- H. As of December 31, 2025, no repatriation tax payments were required because the Company had fully remitted its repatriation tax liability as of December 31, 2024. The Company had elected to pay the repatriation tax liability in permitted installments. The schedule of payments made is as follows:

10. Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

- A. See Note 10, Part B.
- B. Transaction with Allstate Insurance Holdings, LLC ("AIH")

The Company paid dividends totaling \$750 million and \$3.20 billion to its parent, AIH, on September 15, 2025 and December 18, 2025, respectively. See Note 13, Part D for details.

Transactions with Allstate Short Term Pool, LLC

The Company invests in the Short term pool, which is offered by Allstate Short Term Pool, LLC, to certain wholly owned affiliated companies of the Corporation. The Short term pool is an investment pool managed by Allstate Investment Management Company ("AIMCO"), an affiliate of the Corporation, whose purpose is to efficiently manage cash and cash equivalents for its member companies. Each member company has an undivided interest in the underlying assets of the Short term pool per the Operating Agreement of Allstate Short Term Pool, LLC ("Operating Agreement"). The value of net assets that is the basis for current transactions and each share is determined daily by the Short term pool custodian. As of December 31, 2025 and 2024, the Company's reported investment in the Short term pool was \$1.44 billion and \$1.14 billion, respectively. See Ref # - 001 in Part C (1).

There were no other transactions entered into by the Company with related parties in 2025 or 2024 that involved more than ½ of 1% of the Company's admitted assets. Activity resulting from reinsurance agreements, insurance contracts or cost allocation transactions in accordance with intercompany agreement provisions was excluded.

Intercompany receivable and payable balances are evaluated on an individual company basis. Net intercompany balances less than \$1 million and those equal to or greater than \$1 million are generally settled quarterly and monthly, respectively. Net intercompany balances with AFS are settled monthly regardless of dollar amount. In addition, net intercompany balances with the Corporation related to profit sharing the Corporation grants to the Company's employees are settled annually.

E. The Company and the Corporation are parties to the Amended and Restated Intercompany Liquidity Agreement ("Liquidity Agreement") as well as CKIC and Road Bay Investments, LLC. The Liquidity Agreement allows for short-term advances of funds to be made between parties for liquidity and other general corporate purposes, but does not establish a commitment to advance funds on the part of any party. The Company serves as a lender and borrower, and the Corporation serves only as a lender, with a one-year term. The aggregate amount of advances made or received by the Company is limited to \$1.00 billion.

The Company entered into the Intercompany Loan Agreement with the Corporation. The amount available to the Company is at the discretion of the Corporation, however, the maximum amount of loans the Corporation can have outstanding to all its eligible subsidiaries at any given point in time is limited to \$1.00 billion. From time to time, the Company borrows money from the Corporation to meet its short-term cash needs. The Corporation may use commercial paper borrowings, bank lines of credit and securities lending to fund intercompany borrowings.

The Company, the Corporation and certain of its affiliated insurance companies are parties to the Amended and Restated Service and Expense Agreement (the "Agreement") pursuant to which the Company provides access to a variety of services, including the utilization of shared bank accounts for cash collections and disbursements in certain situations. The Agreement provides for cost sharing and allocation of operating expenses among the parties.

The Company is a party to the Investment Management Agreement with AILLC whereby AILLC provides investment management services and advice.

The Company, the Corporation and certain of its wholly owned affiliated companies are parties to the Operating Agreement as described in Note 10, Parts A, B & C, which provides a framework for AIMCO to efficiently manage cash and cash equivalents of the Short term pool's members.

The Company is a party to the Reimbursement Agreement with the Corporation under which the Corporation sponsors certain benefit and compensation plans.

The Company is a party to a federal income tax allocation agreement with the Corporation (see Note 9, Part F).

F. All guarantees and undertakings of the Company are disclosed in Note 14, Part A in accordance with the requirements of SSAP No. 5, *Liabilities, Contingencies and Impairments of Assets* ("SSAP No. 5").

NOTES TO FINANCIAL STATEMENTS

N. Investment in Insurance SCAs

1. The Company's investment in CKIC, a wholly owned insurance company domiciled in the State of Illinois, was based on the underlying statutory capital and surplus of CKIC and included the impact of an Illinois prescribed practice which differed from the NAIC SAP as of December 31, 2025. Specifically, amounts receivable from affiliates that are not outstanding for more than three months may not exceed the lesser of 5% of the admitted assets or 10% of policyholder surplus in accordance with statute 215 ILCS 5/3.1. SSAP No. 25, *Affiliates and Other Related Parties*, does not include limitations on amounts receivable from affiliates that are not outstanding more than three months. CKIC did not report any permitted or prescribed practices as of December 31, 2024.
2. The table below contains the monetary effect on the Company's net income for the year ended and as of surplus which resulted from CKIC using the Illinois prescribed accounting practice described above, which differed from the NAIC SAP, the amount of the Company's investment in CKIC based on applying the prescribed practice and the amount of the Company's investment in CKIC if CKIC had completed its statutory financial statement in accordance with the APPM, without considering the prescribed practice, as of December 31, 2025:

SCA Entity (Investments in Insurance SCA Entities)	Monetary Effect on NAIC SAP		Amount of Investment	
	Net Income Increase (Decrease)	Surplus Increase (Decrease)	Statutory Equity	If The Insurance SCA Had Completed Statutory Financial Statements*
CKIC	\$ —	\$ (6)	\$ 287	\$ 293

* Per APPM (without permitted or prescribed practice)

CKIC did not report any permitted or prescribed practices as of December 31, 2024.

3. If CKIC had not used the Illinois prescribed practice a risk-based capital regulatory event would not have been triggered.

11. Debt

- A. Outstanding Debt, Including Capital Notes and FHLB Borrowings - Not applicable.
- B. FHLB Agreements - Not applicable.
- C. Unused Commitments and Lines of Credit for Financing Arrangements

The Company is party to the Liquidity Agreement and the Intercompany Loan Agreement with the Corporation, see Note 10 Part E for details. The Company had no outstanding balances under these agreements as of December 31, 2025.

In addition, the Corporation and the Company have access to a \$750 million unsecured revolving credit facility that is available for short-term liquidity requirements. The maturity date of this facility is November 2027. The facility is fully subscribed among 11 lenders with the largest commitment being \$95 million. The commitments of the lenders are several and no lender is responsible for any other lender's commitment if such lender fails to make a loan under the facility. This facility contains an increase provision that would allow up to an additional \$500 million of borrowing, subject to the lenders' commitment. This facility has a financial covenant requiring that the Corporation not exceed a 37.5% debt to capitalization ratio as defined in the agreement. This ratio was 15.1% as of December 31, 2025. Although the right to borrow under the facility is not subject to a minimum rating requirement, the costs of maintaining the facility and borrowing under it are based on the ratings of the Corporation's senior unsecured, unguaranteed long-term debt. There were no borrowings under the credit facility during 2025.

Aggregate unused commitments and lines of credit for the financing arrangements described above as of December 31:

(in millions)	2025	
	Unused Commitments	Unused Lines of Credit
Short-Term (contracts terminating in 12 months or less)	\$ 1,890	\$ 750
Long-Term (contracts terminating in more than 12 months)	—	—
Total	\$ 1,890	\$ 750

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

A. Defined Benefit Plan

(1) Change in benefit obligation

a. Pension Benefits

The Company was not a sponsor of defined benefit pension plans.

b. Postretirement Benefits

The Company provides a medical coverage subsidy for eligible claim employees hired before January 1, 2003, including their eligible dependents, when they retire ("postretirement benefits"). Effective January 1, 2021, the Company eliminated the medical coverage subsidy for employees who were not eligible to retire as of December 31, 2020. Certain employees may become eligible for a medical subsidy if they retire in accordance with the terms of the applicable plans and are insured under the Company's group plans or other approved plans in accordance with the plan's participation requirements. The Company shares the cost of retiree medical benefits with non Medicare-eligible retirees based on years of service, with the Company's share being subject to a 5% limit on future annual medical cost inflation after retirement. For Medicare-eligible retirees, the Company provides a fixed Company contribution based on years of service and other factors, which is not subject to adjustments for inflation. The Company has reserved the right to modify or terminate its benefit plans at any time and for any reason.

The Company calculates benefit obligations based upon generally accepted actuarial methodologies using the accumulated postretirement benefit obligation ("APBO") for other postretirement plans. The other postretirement obligations are determined using a December 31 measurement date. The benefit obligations represent the actuarial present value of all benefits attributed to employee service rendered as of the measurement date. The Company's other postretirement benefit plans are not funded.

G. Consolidated/Holding Company Plans

The Corporation provides various benefits, including defined benefit pension plans, certain health care and life insurance benefits for certain eligible employees, retired employees and employee-agents and participation in The Allstate 401(k) Savings Plan. The Company was allocated its share of the costs associated with these benefits in accordance with the Agreement. The Company's allocated share of these benefits, before reinsurance, was \$3 million and \$37 million in 2025 and 2024, respectively.

H. Postemployment Benefits and Compensated Absences – Not applicable.

I. Impact of Medicare Modernization Act on Postretirement Benefits – Not applicable.

13. Capital and Surplus, Dividend Restrictions and Quasi-reorganizations

A. The Company had 42,000 common shares authorized and 38,820 shares issued and outstanding as of December 31, 2025 and 2024. All common shares had a par value of \$100 per share.

B. Preferred Stock – Not applicable.

C. The ability of the Company to pay dividends is generally dependent on business conditions, income, cash requirements, receipt of dividends and other relevant factors. More specifically, the Illinois Insurance Code ("Code") provides a two-step process. First, no dividend may be declared or paid except from earned (unassigned) surplus, as distinguished from contributed surplus, nor when the payment of a dividend reduces surplus below the minimum amount required by the Code. Secondly, a determination of the ordinary versus extraordinary dividends that can be paid is formula based and considers net income and capital and surplus, as well as the timing and amounts of dividends paid in the preceding twelve months as specified by the Code. Ordinary dividends to shareholders do not require prior approval of the IL DOI. Dividends are not cumulative. As of December 31, 2025, the maximum ordinary dividend that can be declared and paid in 2026 by the Company is limited to \$7.98 billion.

D. Dates and Amounts of Dividends Paid

On September 15, 2025, the Company paid an ordinary cash dividend of \$750 million to AIH. On December 18, 2025, the Company paid an ordinary dividend of \$3.20 billion to AIH. The distribution consisted of \$1.29 billion in cash, bonds with fair values of \$1.89 billion and related accrued interest of \$17 million. The Company did not pay dividends in 2024.

E. Within the limitations of Part C above, there were no restrictions placed on the portion of the Company's profits that may be paid as ordinary dividends to stockholders.

Contingent Commitments

1.

The Company made commitments to invest in limited partnership interests and limited liability companies, including commitments to invest in SCA entities of \$3.37 billion and \$3.48 billion as of December 31, 2025 and 2024, respectively. These commitments are generally for making additional capital contributions or acquiring financial interests. In addition, the Company made a commitment to an SCA entity to purchase private placement debt of \$6 million as of December 31, 2025.

The Company did not have contingent commitments or guarantees related to its investments in joint ventures as of December 31, 2025. Commitments and contingent commitments to invest in tax credit structures and purchase tax credits are disclosed in Note 5, Part K(6) and Note 21, Part E(6), respectively. The Company did not have contingent commitments or guarantees related to its investments in joint ventures or LIHTC property investments as of December 31, 2024.

2.

The Company was a party to the following guarantee agreements as of December 31, 2025:

(in millions)	1	2	3	4	5
	Nature and circumstances of guarantee and key attributes, including date and duration of agreement.	Liability recognition of guarantee. (Include amount recognized at inception. 	The Company and CKIC entered into a Surplus Note Agreement, effective August 30, 2023, whereby the Company agreed to purchase up to a maximum of \$50 million of surplus notes from CKIC as needed in order for CKIC to maintain an Authorized Control Level Risk-Based Capital Ratio, as defined by the Code	See ⁽¹⁾ below	Investment in common stock of CKIC	\$ 50	Effective September 30, 2023, CKIC issued a \$4 million surplus note, with an annual interest rate of 3.00% to the Company. On September 12, 2025, with IL DOI approval, CKIC repaid the \$4 million surplus note plus \$234 thousand of accrued interest.

⁽¹⁾ Guarantees made to/or on behalf of a wholly-owned subsidiary are not required to record a liability in accordance with SSAP No. 5.

The agreement above did not contain a recourse provision that would enable the Company to recover amounts paid to third parties under the guarantee and there were no assets held by the Company as collateral under the agreement.

In the normal course of business, the Company provides standard indemnifications to contractual counterparties in connection with numerous transactions, including acquisitions and divestitures. The types of indemnifications typically provided include indemnifications for breaches of representations and warranties, taxes and certain other liabilities, such as third-party lawsuits. The indemnification clauses are often standard contractual terms and are entered into in the normal course of business based on an assessment of the risk of loss. The terms of the indemnifications vary in duration and nature. In many cases, the maximum obligation is not explicitly stated and the contingencies triggering the obligation to indemnify have not occurred and are not expected to occur. Consequently, the maximum amount of the obligation under such indemnifications is not determinable. Historically, the Company has not made any material payments pursuant to these obligations.

In connection with the sales of Allstate Life Insurance Company of New York to Wilton Reassurance Company (“Wilton”) and Allstate Life Insurance Company and Allstate Assurance Company to Everlake US Holdings Company (“Everlake”) in 2021, the Company agreed to indemnify Wilton and the Company and Allstate Financial Insurance Holdings Corporation (collectively, the “Sellers”) agreed to indemnify Everlake. The indemnification is in connection with certain representations, warranties and covenants of the Sellers, and certain liabilities specifically excluded from the transactions, subject to specific contractual limitations regarding the Sellers’ maximum obligations. Management does not believe these indemnifications will have a material effect on the statement of income, cash flows or financial position of the Company.

NOTES TO FINANCIAL STATEMENTS

B. Assessments

Guaranty funds

Under state insurance guaranty fund laws, insurers doing business in a state can be assessed, up to prescribed limits, for certain obligations of insolvent insurance companies to policyholders and claimants. Amounts assessed to each company are typically related to its proportion of business written in each state. The Company's policy is to accrue assessments when the entity for which the insolvency relates has met its state of domicile's statutory definition of insolvency, the amount of the loss is reasonably estimable and the related premium upon which the assessment is based is written. In most states, the definition is met with a declaration of financial insolvency by a court of competent jurisdiction. In certain states there must also be a final order of liquidation. Since most states allow a credit against premium or other state related taxes for assessments, an asset is recorded based on paid and accrued assessments for the amount the Company expects to recover on the respective state's tax return and is realized over the period allowed by each state. As of December 31, 2025 and 2024, the liability balance for guaranty funds was \$13 million and \$14 million, respectively.

Reconciliations of assets recognized from paid and accrued premium taxes recorded in accounts receivable were as follows:

(in millions)	2025	2024
Assets recognized from paid and accrued premium tax offsets as of January 1	\$ 47	\$ 44

Assets recognized from paid and accrued premium tax offsets as of December 31	<u>\$ 51</u>	<u>\$ 47</u>

The Company did not incur assessments related to insolvencies of entities that wrote long-term care contracts in 2025 or 2024.

State facilities

The Company is also subject to assessments from the Louisiana Citizens Property Insurance Corporation ("LA Citizens"). LA Citizens can levy a regular assessment on participating companies for a deficit in any calendar year up to a maximum of the greater of 10% of the calendar year deficit or 10% of Louisiana direct property premiums industry-wide for the prior calendar year. If the plan year deficit exceeds the amount that can be recovered through regular assessments, LA Citizens may fund the remaining deficit by issuing revenue assessment bonds in the capital markets. LA Citizens then declares emergency assessments each year to provide debt service on the bonds until they are retired. Companies writing assessable lines must surcharge their policyholders emergency assessments in the percentage established annually by LA Citizens and must remit amounts collected to the bond trustee on a quarterly basis. Emergency assessments to pay off bonds issued in 2007 for the hurricanes of 2005 continued through April 1, 2025 when LA Citizens terminated the 1.36% emergency assessment. No emergency assessments apply to policies effective on or after that date. Additionally, beginning January 1, 2025, LA Citizens implemented a temporary three-year waiver of its 10% Citizens surcharge on new and renewal policies to improve affordability.

The Company participates in the mandatory coverage provided by the Florida Hurricane Catastrophe Fund ("FHCF") and therefore has access to reimbursement for certain qualifying Florida hurricane losses from the FHCF. The Company has exposure to assessments and pays annual premiums to the FHCF for this reimbursement protection. The FHCF has the authority to issue bonds to pay its obligations to participating insurers in excess of its capital balances. Payment of these bonds is funded by emergency assessments on all property and casualty premiums in the state, except workers' compensation, medical malpractice, accident and health insurance and policies written under the National Flood Insurance Program ("NFIP"). The FHCF emergency assessments are limited to 6% of premiums per year beginning the first year in which reimbursements require the issuance of a revenue bond, and up to a total of 10% of premiums per year for assessments in the second and subsequent years, if required to fund additional bonds. The FHCF has not issued an emergency assessment since 2015.

The Company is subject to assessments from Citizens Property Insurance Corporation in the state of Florida ("FL Citizens"), which was initially created by the state of Florida to provide insurance to eligible property owners unable to obtain coverage in the private insurance market. FL Citizens, at the discretion and direction of its Board of Governors, may levy assessments if a deficit occurs in any calendar year. FL Citizens can impose a surcharge of up to 15% of premiums on its own policyholders to address a deficit in the Citizens Account. If a deficit remains after applying the policyholder surcharge, FL Citizens may levy an emergency assessment of up to 10% per year on all assessable premiums statewide until the deficit is eliminated. Companies are required to collect the emergency assessments directly from residential property policyholders and remit to FL Citizens as collected. Currently, the emergency assessment is zero for all policies issued or renewed on or after July 1, 2015.

Facilities such as LA Citizens and FL Citizens are generally designed so that the ultimate cost is borne by policyholders; however, the exposure to assessments from these facilities and the availability of recoupments or premium rate increases may not offset each other in the Company's financial statements. Moreover, even if they do offset each other, they may not offset each other in financial statements for the same fiscal period due to the ultimate timing of the assessments and recoupments or premium rate increases, as well as the possibility of policies not being renewed in subsequent years.

NOTES TO FINANCIAL STATEMENTS

Reconciliations of assets recognized from policy surcharges and recorded in premiums and considerations were as follows:

(in millions)	2025	2024

C. Gain Contingencies

The Company has not recognized gain contingencies subsequent to December 31, 2025, but prior to the issuance of the Company's Annual Statement.

D. Claims Related Extra Contractual Obligation and Bad Faith Losses Stemming from Lawsuits – Not applicable.

E. Product Warranties – Not applicable.

F. Joint and Several Liabilities - Not applicable.

G. All Other Contingencies

Premium Balances Reasonably Possible to be Uncollectible

The Company routinely assesses the collectibility of its premiums and considerations that are less than 90 days old. Premiums and considerations older than 90 days are generally nonadmitted. The allowance for uncollectible premiums and considerations is determined based on the age of the receivable and prior collection experience. The allowance balance for admitted premiums and considerations, after reinsurance, was \$51 million and \$61 million as of December 31, 2025 and 2024, respectively.

California Earthquake Authority ("CEA")

Exposure to certain potential losses from earthquakes in California is limited by the Company's participation in the CEA, which provides insurance for California earthquake losses. The CEA is a privately financed, publicly managed state agency created to provide insurance coverage for earthquake damage. Insurers selling homeowners insurance in California are required to offer earthquake insurance to their customers either through their company or by participation in the CEA. The Company's homeowners policies continue to include coverages for losses caused by explosions, theft, glass breakage and fires following an earthquake, which are not underwritten by the CEA.

As of September 30, 2025, the CEA's capital balance was approximately \$6.3 billion. Should losses arising from an earthquake cause a deficit in the CEA, an additional \$2.7 billion would be obtained from the proceeds of revenue bonds the CEA may issue, an existing \$7.7 billion reinsurance layer, \$1.0 billion from policy surcharges, and finally, if needed, assessments on participating insurance companies. Participating insurers are required to pay an assessment, currently estimated not to exceed \$1.7 billion, if the capital of the CEA falls below \$350 million. Within the limits previously described, the assessment could be intended to restore the CEA's capital to a level of \$350 million. Within the limits previously described, the assessment could be intended to restore the CEA's capital to a level of \$350 million. There is no provision that allows insurers to recover assessments through a premium surcharge or other mechanism. The CEA's projected aggregate claim paying capacity is \$19.3 billion as of September 30, 2025, and if an event were to result in claims greater than its capacity, affected policyholders may be paid a prorated portion of their covered losses, paid on an installment basis, or no payments may be made if the claim paying capacity of the CEA is insufficient.

All future assessments on participating CEA insurers are based on their share of the total CEA premiums written as of December 31 of the preceding year. As of December 31, 2025, the Company's market share was 7.9%. At the current level, the Company's maximum possible CEA assessment was \$131 million during 2025. These amounts are re-evaluated by the board of directors of the CEA on an annual basis. Accordingly, assessments from the CEA for a particular quarter or annual period may be material to the results of operations and cash flows, but not the financial position of the Company. Management believes the Company's exposure to earthquake losses in California has been significantly reduced as a result of its participation in the CEA.

California FAIR Plan Association ("FAIR Plan")

The FAIR Plan is a syndicated fire insurance pool that provides coverage to California homeowners who are unable to find insurance in the voluntary market. FAIR Plan members are all insurers licensed to provide property and casualty insurance coverage in the state of California. Each member participates in the profits, losses and expenses of the FAIR Plan in direct proportion to its market share of business written in the state during the second preceding calendar year. If the FAIR Plan is unable to pay losses during a catastrophe event, it may seek regulatory approval to assess member companies based on their market share during the second preceding calendar year.

As a result of the January California wildfires, the FAIR Plan received regulatory approval on February 11, 2025 to assess member insurers \$1.00 billion. The Company's personal lines and commercial lines average market share used for the assessment was 4.6% and 2.0%, respectively, net of credits. Members are allowed to request the state insurance commission's prior approval to collect temporary supplemental fees from policyholders in the state in order to recoup amounts assessed. Insurers may seek recoupment for 50% of their assessment share up to \$1.00 billion, and 100% of amounts exceeding that threshold, for both residential and commercial property insurance. In 2025, the Company paid \$45 million toward the FAIR Plan's \$1 billion assessment and has received approval from the California Department of Insurance to recoup 50% of the amount paid.

As of September 30, 2025, the FAIR Plan's capital balance was a deficit of \$444 million. At December 31, 2025, the Company accrued for its share of future estimated assessments based on the January 2025 wildfire event.

The Company's reinsurance program is designed to provide reinsurance protection for catastrophes resulting from multiple perils, including fires. Several of the Company's core traditional markets per occurrence agreements provide for the inclusion of non-recoupable assessments as part of the definition of loss.

Effective March 1, 2025 through February 28, 2026, the FAIR Plan's reinsurance program covers losses up to \$7.1 billion less retention of \$1.25 billion with \$3.46 billion placed with reinsurers.

North Carolina Reinsurance Facility ("NCRF")

The NCRF provides automobile liability insurance to drivers that private market insurers are not otherwise willing to insure. All insurers licensed to write automobile insurance in North Carolina are members of the NCRF. Premiums, losses and expenses are assigned to the NCRF. North Carolina law allows the NCRF to recoup operating losses for certain insureds through a surcharge to policyholders. As of September 30, 2025, the NCRF reported \$526 million in members' equity. The NCRF implemented a recoupment surcharge on all private passenger and commercial fleet policies effective October 1, 2025, through September 30, 2026. The NCRF results are shared by the member companies in proportion to their respective North Carolina automobile liability writings. As of December 31, 2025, the NCRF recoverables on unpaid claims was \$1 million. Paid recoverable balances, if covered, are typically settled within sixty days of monthly filing.

North Carolina Joint Underwriters Association ("NCJUA")

The NCJUA was created to provide property insurance for properties, other than the state's beach and coastal areas, that insurers are not otherwise willing to insure. All insurers licensed to write property insurance in North Carolina are members of the NCJUA. Premiums, losses

NOTES TO FINANCIAL STATEMENTS

and expenses of the NCJUA are shared by the member companies in proportion to their respective North Carolina property insurance writings. Member companies participate in deficits or surpluses based on their participation ratios, which are determined annually. The Company had a \$2 million receivable from the NCJUA on December 31, 2025 representing its participation in the NCJUA's surplus of \$87 million for all open years.

North Carolina Insurance Underwriting Association (“NCIUA”)

The NCIUA provides property insurance, including windstorm coverage, for properties located in the state's beach and coastal areas that insurers are not otherwise willing to insure. All insurers licensed to write residential and commercial property insurance in North Carolina are members of the NCIUA. Members are assessed in proportion to their North Carolina residential and commercial property insurance writings, which is determined annually and varies by coverage, for plan deficits. As of December 31, 2025, the NCIUA had a surplus of \$1.60 billion. No member company is entitled to the distribution of any portion of the NCIUA's surplus. Legislation in 2009 capped insurers' assessments for losses incurred in any calendar year at \$1.00 billion. Subsequent to an industry assessment of \$1.00 billion, if the NCIUA continues to require funding, it may authorize insurers to assess a 10% catastrophe recovery charge on each property insurance policy statewide to be remitted to the NCIUA.

Federal Government - National Flood Insurance Program (“NFIP”)

NFIP is a program administered by the Federal Emergency Management Agency (“FEMA”) whereby the Company sells and services NFIP flood insurance policies as an agent of FEMA and receives fees for its services. The Company is fully indemnified for claims and claim expenses and does not retain any ultimate risk for the indemnified business. The federal government is obligated to pay all claims and certain allocated loss adjustment expenses in accordance with the arrangement.

Congressional authorization for the NFIP is periodically evaluated and may be subjected to freezes, including when the federal government experiences a shutdown. Congress must periodically renew the funding of the program as well as consider reforms to the program that would be incorporated in legislation to reauthorize the NFIP. As of September 30, 2025, the NFIP owes \$22.5 billion to the U.S. Treasury. On February 3, 2026, the president signed legislation passed by Congress that extends the NFIP authorization until September 30, 2026. Should authorization lapse, existing policies remain valid, but insurance companies operating on behalf of the NFIP may not enter into new flood insurance contracts. The program will also have limited ability to issue increased coverage on existing policies, or issue renewal policies. The NFIP has the authority to process and pay new and existing flood insurance claims from the National Flood Insurance Fund and the National Flood Insurance Reserve Fund but its borrowing capacity is reduced to \$1 billion.

The amounts recoverable as of December 31, 2025 and 2024 were \$20 million and \$98 million, respectively. Annual premiums ceded to NFIP include \$274 million and \$253 million in 2025 and 2024, respectively. Qualifying losses incurred that are ceded to NFIP include \$9 million and \$371 million in 2025 and 2024, respectively.

Shared markets

The Company is required to participate in assigned risk plans, reinsurance facilities and joint underwriting associations in various states that provide insurance coverage to individuals or entities that otherwise are unable to purchase such coverage from private insurers. The Company routinely reviews its exposure to assessments from these plans, facilities and government programs and underwriting results related to these arrangements tend to be adverse. Because of the Company's participation, it may be exposed to losses that surpass the capitalization of these facilities or assessments from these facilities.

Legal and regulatory proceedings and inquiries

Background

The Company and certain subsidiaries are involved in a number of lawsuits, regulatory inquiries, and other legal proceedings arising out of various aspects of its business.

The Company currently estimates that the aggregate range of reasonably possible loss in excess of the amount accrued, if any, for the disclosed matters where such an estimate is possible is zero to \$153 million, pre-tax. This disclosure is not an indication of expected loss, if any. Under the APPM, an event is “reasonably possible” if “the chance of the future event or events occurring is more than remote but less than likely” and an event is “remote” if “the chance of the future event or events occurring is slight.” This estimate is based upon currently available information and is subject to significant judgment and a variety of assumptions and known and unknown uncertainties. The matters underlying the estimate will change from time to time, and actual results may vary significantly from the current estimate. The estimate does not include matters or losses for which an estimate is not possible. Therefore, this estimate represents an estimate of possible loss only for certain matters meeting these criteria. It does not represent the Company's maximum possible loss exposure. Information is provided below regarding the nature of all of the disclosed matters and, where specified, the amount, if any, of plaintiff claims associated with these loss contingencies.

Due to the complexity and scope of the matters disclosed in the “Claims related proceedings” and “Other proceedings” subsections below and the many uncertainties that exist, the ultimate outcome of these matters cannot be predicted and in the Company's judgment, a loss, in excess of amounts accrued, if any, is not probable. In the event of an unfavorable outcome in one or more of these matters, the ultimate liability may be in excess of amounts currently accrued, if any, and may be material to the Company's operating results or cash flows for a particular quarterly or annual period. However, based on information currently known to it, management believes that the ultimate outcome of all matters described below, as they are resolved over time, is not likely to have a material effect on the financial position of the Company.

Claims related proceedings

The Company is defending putative class actions in various courts that raise challenges to the Company's depreciation practices in homeowner property claims. In these lawsuits, plaintiffs generally allege that, when calculating actual cash value, the costs of “non-materials” such as labor, general contractor's overhead and profit, and sales tax should not be subject to depreciation. The Company is currently defending the following lawsuits on this issue: *Sims, et al. v. Allstate Fire and Casualty Insurance Company, et al.* (W.D. Tex. filed June 2022); *Thompson, et al. v. Allstate Insurance Company* (Circuit Court of Cole Co., Mo. filed June 2022); and *Hill v. Allstate Vehicle and Property Insurance Company* (Circuit Court of Cole Co., Mo. filed October 2022). A settlement was reached in *Hernandez v. Allstate Vehicle and Property Insurance Company* (D. Ariz. filed April 2023). No classes have been certified in any of these matters.

The Company is defending putative class actions pending in multiple states alleging that the Company underpays total loss vehicle physical damage claims on auto policies. The alleged systematic underpayments result from the following theories: (a) the third-party valuation tool used by the Company as part of a comprehensive adjustment process is allegedly flawed, biased, or contrary to applicable law; and/or (b) the Company allegedly does not pay sales tax, title fees, registration fees, and/or other specified fees or costs that are allegedly mandatory under policy language or state legal authority. The Company is currently defending the following lawsuits: *Golla v. Allstate Insurance Company* (N.D. Ohio filed June 2023); *Bibbs v. Allstate Insurance Company and Allstate Fire and Casualty Insurance Company* (N.D. Ohio filed August 2023); *Katz v. Esurance Property and Casualty Insurance Company and National General Insurance Company* (E.D.N.Y. filed February 2024); *Schott v. Allstate Insurance Company and Allstate Property and Casualty Insurance Company* (M.D. Ga. filed October 2024); and *Tang v. Allstate Insurance Company, et al.* (C.D. Cal. filed September 2025). No classes have been certified in any of these matters.

The Company is defending a class action in the U.S. District Court for the District of Arizona that alleges underpayment of uninsured/underinsured motorist claims, *Dorazio v. Allstate Fire and Casualty Insurance Company*, filed December 2022. The plaintiffs allege that uninsured/underinsured motorist coverages must be stacked, which is combining separate uninsured/underinsured coverage limits of multiple vehicles into one higher coverage limit, where the defendants allegedly did not include specified policy language and did not provide specified notice to policyholders. A settlement in principle has been reached in *Loughran v. MIC General Insurance Corporation*, a second putative class action alleging the same claims. In July 2023, the Arizona Supreme Court issued a ruling in *Franklin v. CSAA General Insurance*, a matter involving another insurer. The *Franklin* decision held, under the factual circumstances of that case, that stacking of uninsured/underinsured motorist coverages was required because the insurer did not include specified policy language and did not issue specified notice.

NOTES TO FINANCIAL STATEMENTS

In January 2026, the Company satisfied the judgment in *Simon v. Holguin* (Pierce County Superior Court, Wash. filed September 8, 2020), in which the Company defended its insured in a bodily injury lawsuit arising from an automobile accident. On October 21, 2022, a jury returned a verdict against the insured. The Company, on behalf of its insured, appealed the verdict to the Washington Court of Appeals, Division II, which affirmed the judgment on June 16, 2025. On September 19, 2025, the Company filed a petition for review with the Washington Supreme Court. On January 7, 2026, the Supreme Court denied the Company's request to appeal the ruling of the Court of Appeals.

Other proceedings

The Company is defending two lawsuits in the U.S. District Court for the Eastern District of California, *Holland Hewitt v. Allstate Life Insurance Company* filed May 2020 and *Farley v. Lincoln Benefit Life Company* ("LBL") filed December 2020, following the sale of ALIC. On April 19, 2023, the district court certified a class in *Farley*. On August 29, 2025, the Ninth Circuit Court of Appeals reversed the district court's order certifying a class. On March 27, 2024, the Magistrate Judge issued his Findings and Recommendations denying class certification in *Hewitt*. Plaintiffs filed their objection to the Magistrate's recommendation. In these cases, plaintiffs generally allege that the defendants failed to comply with certain California statutes which address contractual grace periods and lapse notice requirements for certain life insurance policies. Plaintiffs claim that these statutes apply to life insurance policies that existed before the statutes' effective date. The plaintiffs seek damages and injunctive relief. Similar litigation is pending against other insurance carriers. In August 2021, the California Supreme Court in *McHugh v. Protective Life*, a matter involving another insurer, determined that the statutory notice requirements apply to life insurance policies issued before the statutes' effective date. The Company asserts various defenses to plaintiffs' claims and to class certification.

The Company is subject to lawsuits related to the collection and use of driving behavior data, including a civil lawsuit filed by the Texas Attorney General in Montgomery County, Texas District Court and putative class actions filed in federal court. The lawsuits allege privacy and consumer protection claims and seek actual, statutory and punitive damages, restitution, injunctive relief and attorneys' fees.

The Company is defending a class action lawsuit in the U.S. District Court for the Central District of California, *Canchola, et al v. Allstate Insurance Company*, filed March 2023. Plaintiffs generally allege that Allstate owes them business expenses incurred in their operation of Allstate Exclusive Agencies under the California Labor Code because they were misclassified as independent contractors. The Company continues to defend the litigation and oppose plaintiffs' allegations

15. Leases

A. Lessee Operating Lease

- 1. The Company leases certain office facilities, computer and office equipment, internal-use computer software and automobiles under various noncancelable operating lease agreements that expire through 2032. Total rent expense, net of sublease rental income, was \$127 million and \$129 million in 2025 and 2024, respectively, before allocation to affiliates. Sublease rental income was \$4 million in 2025 and 2024.

The Company closed certain leased office facilities, which resulted in the early termination or non-use of leased property benefits. Under these lease agreements, the Company recognized a liability of \$7 million and \$28 million as of December 31, 2025 and 2024, respectively.

- 2. a. As of December 31, 2025, the minimum aggregate rental commitments under noncancelable operating leases with an initial or remaining term of more than one year were as follows:

(in millions)

	Year Ending December 31	Operating Leases
1. 2026	\$	52
2. 2027		40
3. 2028		28
4. 2029		13
5. 2030		11
6. Thereafter		—
7. Total (sum of 1 through 6)	\$	144

- b. As of December 31, 2025, the total of minimum aggregate rental commitments to be received under noncancelable subleases with an initial or remaining term of more than one year was \$18 million.

- 3. The Company was not involved in sale-leaseback transactions in 2025 or 2024.

B. Lessor Leases

Leasing activities were not part of the Company's business activities in 2025 or 2024.

16. Information about Financial Instruments with Off-Balance-Sheet Risk and Financial Instruments with Concentrations of Credit Risk

Derivative financial instruments

- 1. The following table summarizes the notional amount of the Company's derivative financial instruments, including those with off-balance-sheet risk as of December 31:

(in millions)

	Assets		Liabilities	
	2025	2024	2025	2024
a. Swaps	\$ 647	\$ 580	\$ 451	\$ 22
b. Futures	345	531	394	2,084
c. Options	8	—	7	—
d. Total (a+b+c)	\$ 1,000	\$ 1,111	\$ 852	\$ 2,106

See Schedule DB of the Company's Annual Statement for additional detail.

The notional amounts specified in the contracts are used to calculate the exchange of contractual payments under the agreements and are generally not representative of the potential for gain or loss on these agreements. However, the notional amounts specified in credit default swap agreements where the Company has sold credit protection represents the maximum amount of potential loss, assuming no recoveries.

- 2. The credit risk, market risk and cash requirements of the Company's derivative instruments utilized during 2025 and 2024 are discussed in Note 8, Parts A-C. The accounting policies for the Company's derivative instruments are disclosed in Note 1, Part C and Note 8, Parts A-C.
- 3. The Company's credit exposure related to its outstanding over-the-counter and cleared swap contracts was \$17 million and \$20 million as of December 31, 2025 and 2024, respectively.

Counterparty credit exposure represents the Company's potential loss if all counterparties concurrently fail to perform under the contractual terms of the contracts and all collateral, if any, becomes worthless. This exposure is measured by the statement value of over-the-counter and cleared derivative contracts with a positive statement value at the reporting date. The Company has not incurred any losses on derivative financial instruments due to counterparty nonperformance.

NOTES TO FINANCIAL STATEMENTS

4. The Company's policy for requiring collateral is discussed in Note 8, Parts A-C. In general, the collateral pledged by the Company is in the custody of a counterparty, a clearing house or an exchange. However, the Company has access to this collateral at any time, subject to replacement. For certain exchange traded and cleared derivatives, margin deposits are required as well as daily cash settlements of margin accounts. As of December 31, 2025 and 2024, the Company pledged cash and securities with fair values of \$95 million and \$79 million, respectively. Cash or securities in the form of margin deposits were not received as of December 31, 2025 and 2024.

The Company pledges or obtains collateral for over-the-counter derivative transactions when certain predetermined exposure limits are exceeded. As of December 31, 2025, the Company pledged cash of \$18 million to counterparties, and counterparties did not pledge collateral to the Company. As of December 31, 2024, the Company did not pledge any cash to counterparties, and counterparties pledged \$18 million in cash collateral to the Company.

Off-balance-sheet financial instruments

1. The contractual amounts of off-balance-sheet financial instruments as of December 31 were as follows:

(in millions)	2025	2024
Commitments to invest in limited partnership interests	\$ 3,374	\$ 3,482
Private placement commitments	\$ 81	\$ 36
Other loan commitments	\$ 14	\$ 16

2. Commitments to invest in limited partnership interests primarily represent agreements to acquire new or additional participation in certain limited partnership investments. The Company enters into these agreements in the normal course of business. Private placement commitments represent commitments to purchase private placement debt and private equity securities at a future date. The Company enters into these agreements in the normal course of business. Other loan commitments are agreements to lend to a borrower provided there is no violation of any condition established in the contract. The Company enters into these agreements to commit to future loan fundings at predetermined interest rates. Commitments have either fixed or varying expiration dates or other termination clauses.

3. The contractual amounts represent the amount at risk if the contract was fully drawn upon, the counterparty defaults and the value of any underlying security becomes worthless.

4. The Company does not require collateral or other security to support off-balance-sheet financial instruments with credit risk.

17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

A. Transfers of Premium Receivables as Sales – Not applicable.

B. Transfer and Servicing of Financial Assets

- The Company's business activities include securities lending programs with third parties, mostly large banks. As of December 31, 2025 and 2024 securities, primarily bonds and common stocks, with fair values of \$1.87 billion and \$1.95 billion, respectively, were on loan under these agreements. Securities lent were either specifically identified by the lending bank or segregated into a separate custody account. See Note 5, Part E for more information about securities lending collateral.
- The Company did not enter into agreements to service assets or liabilities.
- The Company did not service assets and liabilities that were subsequently measured at fair value. .
- The Company was not a transferor or transferee with respect to securitizations and asset-backed financing arrangements.
- The Company did not transfer financial assets accounted for as secured borrowings.
- The Company did not transfer receivables with recourse.
- The Company did not enter into dollar repurchase or dollar reverse repurchase agreements.

C. Wash Sales

- In the course of managing the investment portfolio, securities may be sold and reacquired within 30 days of the sale date in order to enhance the portfolio's yield.
- The details of securities with an NAIC designation of 3 or below, and those without an NAIC designation, which were sold during the quarter ended December 31 and reacquired within 30 days of the sale date were as follows:

(in millions)	2025				
	NAIC Designation	Number of Transactions	Book Value of Securities Sold	Cost of Securities Repurchased	Gain (Loss)
Description					
Unaffiliated common stocks	—	5	\$ 371	\$ 373	\$ 69

	2024				
	NAIC Designation	Number of Transactions	Book Value of Securities Sold	Cost of Securities Repurchased	Gain (Loss)
Description					
Unaffiliated common stocks	—	3	\$ 264	\$ 262	\$ —

18. Gain or Loss to the Reporting Entity from Uninsured Plans and the Uninsured Portion of Partially Insured Plans - Not applicable.

19. Direct Premium Written/Produced by Managing General Agents/Third Party Administrators - Not applicable.

20. Fair Value Measurements

A. Fair value is defined, per SSAP No. 100, *Fair Value* ("SSAP No. 100"), as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. SSAP No. 100 identified three valuation techniques which are used, either independently or in combination, to determine fair value: (1) market approach; (2) income approach; and (3) cost approach. SSAP No. 100 also contains guidance about observable and unobservable inputs, which are assumptions that market participants would use in pricing an asset or liability. To increase consistency and comparability in fair value measurements, the fair value hierarchy prioritizes the inputs to valuation techniques into three broad levels: 1, 2 and 3. The hierarchy for inputs used in determining fair value maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that observable inputs be used when available. Certain assets are measured utilizing net asset value ("NAV") as a practical expedient to determine fair value.

The Company has two types of situations where investments are classified as Level 3 in the fair value hierarchy:

- Specific inputs significant to the fair value estimation models are not market observable. This primarily occurs in the Company's use of broker quotes to value certain securities where the inputs have not been corroborated to be market observable, and the use of valuation models that use significant non-market observable inputs.

NOTES TO FINANCIAL STATEMENTS

- (2) Quotes continue to be received from independent third-party valuation service providers and all significant inputs are market observable; however, there has been a significant decrease in the volume and level of activity for the asset when compared to normal market activity such that the degree of market observability has declined to a point where categorization as a Level 3 measurement is considered appropriate. The indicators considered in determining whether a significant decrease in the volume and level of activity for a specific asset has occurred include the level of new issuances in the primary market, trading volume in the secondary market, the level of credit spreads over historical levels, applicable bid-ask spreads, and price consensus among market participants and other pricing sources.

Transfers into Level 3 during 2025 and 2024 included securities measured at lower of cost or market and reported at fair value in 2025 and 2024, and at cost in 2024 and 2023, respectively. Transfers into Level 3 during 2025 and 2024 also included assets no longer utilizing NAV as a practical expedient and reclassified into Level 3.

Transfers out of Level 3 during 2025 and 2024 included securities measured at lower of cost or market and reported at cost in 2025 and 2024, and fair value in 2024 and 2023, respectively. Transfers out of Level 3 during 2025 included an asset utilizing NAV as a practical expedient and reclassified out of Level 3.

3. The Company consistently follows its policy for determining when transfers between levels are recognized. The policy about the timing of recognizing transfers into Level 3 is the same as that for recognizing transfers out of Level 3.
4. In determining fair value, the Company principally uses the market approach which generally utilizes market transaction data for the same or similar instruments. To a lesser extent, the Company uses the income approach which involves determining fair values from

NOTES TO FINANCIAL STATEMENTS

discounted cash flow methodologies. For the majority of Level 2 and Level 3 valuations, a combination of the market and income approaches is used.

Listed below is a summary of the significant valuation techniques for assets and liabilities measured and reported at fair value.

Level 2 measurements

Bonds - The primary inputs to the valuation for publicly traded corporate bonds and municipal bonds include quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads. Privately placed corporate bonds are valued using a discounted cash flow model that is widely accepted in the financial services industry and uses market observable inputs and inputs derived principally from, or corroborated by, observable market data. The primary inputs to the discounted cash flow model include an interest rate yield curve, as well as published credit spreads for similar assets in markets that are not active that incorporate the credit quality and industry sector of the issuer. The primary inputs to the valuation for ABS include quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields, collateral performance and credit spreads. Certain ABS are valued based on non-binding broker quotes whose inputs have been corroborated to be market observable.

Unaffiliated common and perpetual preferred stocks - The primary inputs to the valuation include quoted prices for identical or similar assets in markets that are not active.

Derivatives - Free-standing exchange listed derivatives that are not actively traded are valued based on quoted prices for identical instruments in markets that are not active. Over-the-counter derivatives, including interest rate, foreign currency and total return swap agreements, foreign exchange forward contracts and certain options and certain credit default swap agreements, are valued using models that rely on inputs such as interest rate yield curves, implied volatilities, index price levels, currency rates and credit spreads that are observable for substantially the full term of the contract. The valuation techniques underlying the models are widely accepted in the financial services industry and do not involve significant judgment.

Level 3 measurements

Bonds - The primary inputs to the valuation for corporate bonds, including those that are privately placed, and bank loans are valued based on non-binding broker quotes where the inputs have not been corroborated to be market observable. Other inputs for corporate bonds include expected cash flows, an interest rate yield curve, as well as published credit spreads for similar assets that incorporate credit quality and industry sector of the issuer. For municipal bonds that are not rated by third-party credit rating agencies, but receive an NAIC designation, the primary inputs to the valuation include quoted prices for identical or similar assets in markets that are not market observable, contractual cash flows, benchmark yields and credit spreads. Also included are municipal bonds valued based on non-binding broker quotes where the inputs have not been corroborated to be market observable and municipal bonds in default valued based on the present value of expected cash flows.

Perpetual preferred stocks - The primary inputs to the valuation include non-binding broker quotes where the inputs have not been corroborated to be market observable.

Unaffiliated common stocks - The primary inputs to the valuation include quoted prices for identical or similar assets in markets that are not market observable.

Debt securities that do not qualify as bonds – The primary inputs to the valuation include discounted expected cash flows.

The fair value of bonds in Level 1 is based on unadjusted quoted prices for identical assets in active markets the Company can access. The fair value of publicly traded bonds in Level 2 is based upon quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads. Non-publicly traded bonds in Level 2 are valued using a discounted cash flow model that is widely accepted in the financial services industry and uses market observable inputs and inputs derived principally from, or corroborated by, observable market data. The primary inputs to the discounted cash flow model include an interest rate yield curve, as well as published credit spreads for similar assets in markets that are not active that incorporate the credit quality and industry sector of the issuer. The fair value of municipal bonds in Level 3 not rated by third-party credit rating agencies, but receiving an NAIC designation is based on quoted prices for identical or similar assets that are not market observable, contractual cash flows, benchmark yields and credit spreads. Also included are municipal bonds valued based on non-binding broker quotes where the inputs have not been corroborated to be market observable and municipal bonds in default valued based on the present value of expected cash flows. The fair value of corporate bonds in Level 3 is primarily valued using a discounted cash flow model that is widely accepted in the financial services industry using inputs that have not been corroborated to be market observable. In certain situations, non-binding broker quotes where the inputs have not been corroborated to be market observable are used. Other inputs for corporate bonds include expected cash flows, an interest rate yield curve, as well as published credit spreads for similar assets that incorporate the credit quality and industry sector of the issuer.

The fair value of ABS (LBASS prior to January 1, 2025) and residual tranche securities in Level 2 is primarily based on valuation models utilizing quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields, prepayment speeds, collateral performance and credit spreads. Certain ABS (LBASS prior to January 1, 2025) in Level 2 are valued based on non-binding broker quotes whose inputs have been corroborated to be market observable. The fair value of ABS (LBASS prior to January 1, 2025) in Level 3 is primarily based on expected cash flows, benchmark yields, collateral performance, prepayment speeds and credit spreads.

The fair value of preferred stocks in Levels 2 and 3 is based on valuation methods described in Part A4 of this note. Certain preferred stocks, which do not have readily determinable fair values, and are investments in investment companies are measured utilizing NAV as a practical expedient.

The fair value of unaffiliated common stocks in Level 1 is based on unadjusted quoted prices for identical assets in active markets the Company can access. The fair value of unaffiliated common stocks in Levels 2 and 3 is based on the valuation methods described in Part A4 of this note. Certain unaffiliated private common stocks carried at fair value, which do not have readily determinable fair values, and are investments in investment companies that measure their assets at fair value on a recurring basis, are reported utilizing NAV as a practical expedient and are excluded from the fair value hierarchy.

The fair value of mortgage loans on real estate in Level 3 is based on discounted contractual cash flows or, if the loans are impaired due to credit reasons, the fair value of collateral less costs to sell. Risk adjusted discount rates are selected using current rates at which similar loans would be made to borrowers with similar characteristics, using similar types of properties as collateral.

The fair value of cash equivalents in Level 1 is based on unadjusted quoted prices or daily quoted net asset values for identical assets in active markets the Company can access. The fair value of cash equivalents in Level 2 is based on quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads.

The fair value of short-term investments in Level 1 is based on unadjusted quoted prices for identical assets in active markets the Company can access. The fair value of short-term investments in Level 2 is based on quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads. The fair value of short-term investments in Level 3 is primarily based on amortized cost.

The fair value of free-standing exchange listed derivatives in Level 1 is based on unadjusted quoted prices for identical assets in active markets the Company can access. The fair value of derivatives in Level 2 is based on the valuation methods described in Part A4 of this note.

The fair value of LIHTC property investments in Level 3 is based on amortized cost, using the proportional amortization method, which approximates fair value.

The fair value of affiliated surplus notes and collateral loans in Level 3 is based on discounted cash flow calculations using current interest rates for instruments with comparable terms.

The fair value of unaffiliated surplus notes and capital notes in Level 2 is based upon quoted prices for identical or similar assets in markets that are not active, contractual cash flows, benchmark yields and credit spreads.

The fair value of debt securities that do not qualify as bonds is based on the valuation methods in Part A4 of this note.

The fair value of reinvested collateral from securities lending in Level 2 is based on carrying value due to its short-term nature.

Financial liabilities

Presented below are the aggregate fair value estimates and statement values of financial instruments as of December 31:

Derivatives	\$ 2	\$ 1	\$ 1	\$ 1	\$ —	\$ —	\$ —

The fair value of the liabilities for collateral related to securities lending in Level 2 is based on carrying value due to its short-term nature.

The fair value of free-standing exchange listed derivatives in Level 1 is based on unadjusted quoted prices for identical assets in active markets the Company can access. The fair value of derivatives in Level 2 is based on the valuation methods described in Part A4 of this note.

- D. The Company was able to estimate the fair value of all its financial instruments in 2025 and 2024.
- E. Investments in certain common and preferred stocks measured and reported at NAV in the Assets page and presented in the table in Part A1 are generally not redeemable with the issuing corporation and cannot be sold without approval of the managing members. Distributions of income are usually received from the sale of the common stock or the liquidation of the underlying asset or assets of the issuing corporation over the life of these investments, typically 3-7 years. As of December 31, 2025, the Company had \$41 million of remaining commitments to invest in these investments over their remaining lives.

- A. Unusual or Infrequent Items - Not applicable.
- B. Troubled Debt Restructuring: Debtors – Not applicable.
- C. Other Disclosures

Macroeconomic Impacts

Macroeconomic factors have and may continue to impact the results of operations, financial condition and liquidity, such as U.S. government fiscal and monetary policies, the Russia/Ukraine conflict, supply chain disruptions and labor shortages.

Beginning on April 2, 2025, the U.S. government announced additional tariffs on goods imported to the U.S. The Company regularly evaluates scenarios to understand the potential impact of tariffs on its businesses and incorporates estimates of the impact into its development of reserves for claims. The evolving and uncertain global trade environment makes it difficult to predict the full effect on its business and it may take time for the impact of inflation to become evident. The following factors may impact operations at levels beyond what it is currently observing: higher new and used vehicle pricing and replacement parts, increasing claims costs; increases in building material costs, driving increases in homeowners claim costs; lack of availability of replacement parts from disruption in global trade broadly impacting all businesses; fewer auto new issued applications due to lower new and used vehicle sales; bad debt and credit allowance exposure in all businesses; and adverse impact on investment valuations and liquidity for certain investments.

This is not inclusive of all potential impacts and should not be treated as such.

Investment Strategy

The Company utilizes two primary strategies, market-based and performance-based strategies, to manage risks and returns and to position its investment portfolio to take advantage of market opportunities while attempting to mitigate adverse effects. As strategies and market conditions evolve, the investment asset allocation may change.

Commutation and Amendment of Quota Share Reinsurance Agreement

Following receipt of regulatory approval from IL DOI on January 28, 2025, the Company and National General Re, Ltd. ("NG Re") entered into a commutation and release agreement, effective January 1, 2025, related to the 25% quota share participation under the previous agreement. NG Re transferred \$707 million of loss and loss expense reserves to the Company related to the commuted business. In addition, the Company and NG Re amended their intercompany quota share reinsurance agreement, effective January 1, 2025, whereby the Company will cede 15% of its business assumed from Integon National Insurance Company to NG Re.

State of California

The Company is not writing new homeowners business in the State of California.

Transfer of Investments

During 2018, the Company transferred limited partnership investments with a book/adjusted carrying value of \$1.70 billion and cash of \$12 million to AIMCO Private Fund II, LLC ("AIMCO II"). Since the transfer of the assets did not meet the conditions of a sale per SSAP No. 103R, *Transfer and Servicing of Financial Assets and Extinguishments of Liabilities*, the assets of AIMCO II are directly reported in the Company's financial statements. In 2021, additional assets were transferred into AIMCO II prior to the sale of Allstate Life Insurance Company, a former subsidiary. As of December 31, 2025, AIMCO II consisted of limited partnership investments with a book/adjusted carrying value of \$1.41 billion, cash equivalents of \$79 million and cash of \$7 million that were included in the Company's assets.

Other

Included in the Annual Statement is a schedule of net losses and loss expenses unpaid, as reported in Schedule P - Part 1, Columns 13 through 24, for accident years 2000 and prior through 2015, for each line of business reported.

Other expenses reported on Page 3, Line 5, Liabilities, Surplus and Other Funds, included \$34 million and \$49 million of reserves related to employee medical and dental plans as of December 31, 2025 and 2024, respectively.

- D. Business Interruption Insurance Recoveries – Not applicable.

F. Subprime Mortgage Related Risk Exposure

1. The Company identified it had exposure to subprime residential mortgage related risk in the form of an asset-backed residential mortgage-backed securities ("ABS RMBS"). The ABS RMBS portfolio includes securities that are collateralized by mortgage loans issued to borrowers that cannot qualify for prime or alternative financing terms due in part to an impaired or limited credit history. The ABS RMBS portfolio had unrealized gains of \$2 million as of December 31, 2025 and 2024.

In addition, the Company owns Alt-A securities, which it does not consider to be a component of its exposure to subprime mortgage related risk. The Alt-A portfolio consists of mortgage-backed securities at fixed or variable rates and includes certain securities that are collateralized by residential mortgage loans issued to borrowers with stronger credit profiles than subprime borrowers, but do not qualify for prime financing terms due to high loan-to-value ratios or limited supporting documentation. The unrealized gains on the Company's investment in Alt-A securities were less than \$1 million as of December 31, 2025 and 2024..

Both ABS RMBS and Alt-A securities are considered asset-backed in 2025 and LBASS in 2024 and included in bonds in the Company's Asset page.

The Company has a comprehensive portfolio monitoring process to identify and evaluate, on a case-by-case basis, investments whose carrying value may be other-than-temporarily impaired. See Note 5, Part D5 for details regarding the Company's portfolio monitoring process. OTTI losses were not recorded in the ABS RMBS or Alt-A portfolios in 2025 or 2024.

The Company's practice for acquiring and monitoring ABS RMBS and Alt-A securities takes into consideration the quality of the originator, quality of the servicer, security credit rating, underlying characteristics of the mortgages, borrower characteristics, level of credit enhancement in the transaction, and bond insurer strength, where applicable. The originators and servicers of the underlying mortgage loans are primarily subsidiaries of large banks and brokers.

2. The Company did not have direct exposure to subprime mortgage loans.
3. The Company's direct exposure to other subprime investments is summarized as follows as of December 31:

The actual cost, book/adjusted carrying value and fair value of the Company's Alt-A securities was less than \$1 million as of December 31, 2025 and 2024. OTTI losses were not recorded in the Alt-A portfolio in 2025 or 2024.

4. The Company did not sell mortgage guaranty or financial guaranty insurance coverage, and therefore, does not have underwriting exposure to subprime mortgage risk.T

G. Insurance-linked Securities ("ILS") Contracts

The Company and certain of its affiliated insurance companies were ceding insurers of thirteen and ten ILS agreements related to directly-written insurance risks as of December 31, 2025 and 2024, respectively.

As of December 31, 2025, the ILS placements provide \$2.70 billion of reinsurance limits (with \$2.64 billion remaining limit available) for qualifying losses in all states except Florida caused by "Named Peril Basis" events with no reinstatement of limits. The ILS placements were comprised of ten occurrence only placements providing \$2.20 billion placed limits; one occurrence and aggregate placement providing \$175 million placed limits; and two aggregate only placements providing \$325 million placed limits.

As of December 31, 2024, the ILS placements provide \$1.95 billion of reinsurance limits (with \$1.95 billion remaining limit available) for qualifying losses in all states except Florida caused by "Named Peril Basis" events with no reinstatement of limits. The ILS placements were comprised of six occurrence only placements providing \$1.30 billion placed limits; two occurrence and aggregate placements providing \$325 million placed limits; and two aggregate only placements providing \$325 million placed limits.

Allstate declared catastrophes to personal lines property and automobile business can be aggregated to erode the aggregate retention and qualify for coverage under the aggregate limit. Recoveries are limited to our ultimate net loss from the reinsured event. Each agreement's contractual limit applies to Allstate and its ceding affiliated property and casualty companies under the agreement as a group, and not separately to each ceding company. There were 46 ceding affiliated property and casualty companies under the agreement as a group as of December 31, 2025 and 2024. A ceding company's share of loss recovery under an agreement for a loss occurrence is based on the proportion of the ceding company's ultimate net loss for such loss occurrence to the total ultimate net loss incurred by the Company and its ceding affiliated property and casualty companies for the loss occurrence, and is limited to the ceding company's ultimate net loss. Reinsurance recoveries under the contract are limited to our ultimate net loss from a covered event subject to the contract's limit.

The table below reports all known ILS involvements that would likely be used to satisfy the Company's reinsurance agreements. The term "Aggregate Maximum Proceeds", as listed in the table, represents the aggregate of the contract limits of all of the Company and affiliates' outstanding ILS contracts described above. Aggregate proceeds of \$380 million and \$280 million were expected to be received under the terms of ILS agreements as of December 31, 2025 and 2024, respectively.

An evaluation of subsequent events was made through February 20, 2026 for the Annual Statement issued on February 24, 2026. There were no significant subsequent events requiring adjustment to or disclosure in the financial statements..

23. Reinsurance

A. Unsecured Reinsurance Recoverables

The Company did not have unsecured reinsurance recoverables that exceeded 3% of the Company's policyholders surplus as of December 31, 2025 or 2024.

B. Reinsurance Recoverable in Dispute

The Company did not have reinsurance recoverables on paid or unpaid (including incurred but not reported) losses in dispute by reason of notification, arbitration or litigation as of December 31, 2025 or 2024, that either individually exceeded 5% of the Company's policyholders surplus, or in the aggregate exceeded 10% of the Company's policyholders surplus.

G. Reinsurance Accounted for as a Deposit

On October 1, 1999, the Company completed the acquisition of the personal lines business from CNA Financial Corporation ("CNA"). The transaction included an indemnity reinsurance agreement and a reserve agreement. The reserve agreement guaranteed the adequacy, in all material respects, of the loss reserves transferred by CNA under the indemnity reinsurance agreement. The Company used deposit accounting to account for the indemnity reinsurance agreement, as the portion of the indemnity reinsurance agreement governing the transfer of the loss reserves did not, despite its form, transfer both components of insurance risk. The inception-to-date payments for this agreement totaled \$848 million as of December 31, 2025 and 2024. Inception-to-date net adjustments related to the reserve agreement reduced the reserves on deposit by \$187 million as of December 31, 2025. The balance of the reserves on deposit was \$12 million as of December 31, 2025 and 2024.

24. Retrospectively Rated Contracts and Contracts Subject to Redetermination

- A. The Company accrues estimated retrospective premium adjustments related to Your Choice Auto® platinum ("YCA"), Your Choice Home® platinum and gold ("YCH"), Allstate House and Home® Enhanced ("H&H"), Encompass Edge ("EE"), Condo Helix Enhanced ("CH"), and Allstate Blue® policies in eligible states. YCA, YCH, H&H, EE, and CH policies that are claim free during the policy period receive 5% of the premium paid for certain major coverages as a billing credit or refund. Allstate Blue policies offer non-standard auto coverage and contain a loyalty bonus, in certain states, which rewards eligible policyholders who stay with the Company for a full policy term with a 5% to 10% bonus of premium paid for certain major coverages. The amount of accrued retrospective premium adjustments is determined by analyzing the historical loss experience of these policyholders.

NOTES TO FINANCIAL STATEMENTS

In connection with the Drivewise® program, the Company accrues estimated retrospective premium adjustments related to certain auto policies in eligible states. Drivewise monitors the driving habits of policyholders and provides rewards in the form of premium adjustments to eligible policyholders for certain low risk driving habits.

Prior to fourth quarter of 2024, the Company sold retrospectively rated premium contract related to a car sharing program, Avail® (formerly Drift®). The ultimate premium on these commercial auto policies were adjusted according to the losses experienced.

- B. The Company records accrued retrospective premium as an adjustment to written premiums.
- C. The amount of net premiums written by the Company in 2025 and 2024 subject to retrospective rating features was \$8.35 billion and \$9.21 billion, respectively. These amounts represented 15.2% and 18.1% of total net premiums written in 2025 and 2024, respectively.
- D. Medical Loss Ratio Rebates – Not applicable.
- E. The Company is responsible for the return of premium to YCA, YCH, H&H, EE, CH, Allstate Blue, Drivewise and Avail policyholders. These amounts represent a liability to the Company.
- F. Risk-Sharing Provisions of the Affordable Care Act ("ACA")
 - (1) Did the reporting entity write accident and health insurance premium that is subject to the ACA risk sharing provisions?
Yes [] No [X]

As a result of the acquisition of National General Holdings Corp. and reinsurance agreements entered into with Integon National Insurance Company, the Company assumed balances related to the risk sharing provisions of the ACA as of December 31, 2021. The accidental and health business, from which the Company assumed these balances, was sold to an unaffiliated insurer on July 1, 2025.

- (2) Impact of Risk-Sharing Provisions of the ACA on Admitted Assets, Liabilities and Revenue for the Current Year

There were no premium adjustments receivable or payable due to ACA risk adjustment as of December 31, 2025. The balances were immaterial as of December 31, 2024.

- (3) Roll-Forward of Prior Year ACA Risk-Sharing Provisions

There were no premium adjustments receivable or payable due to ACA risk adjustment as of December 31, 2025. The balances were immaterial as of December 31, 2024.

25. Changes in Incurred Losses and Loss Adjustment Expenses

- A. The Company establishes reserves for losses and loss adjustment expenses on reported and unreported claims of insured losses. The Company's reserving process considers known facts and interpretations of circumstances and factors including the Company's experience with similar cases, actual claims paid, historical trends involving claim payment patterns and pending levels of unpaid claims, loss management programs, product mix and contractual terms, changes in laws and regulations, judicial decisions, and economic conditions.

When the Company experiences changes in the mix or type of claims or changing claim settlement patterns or data, it applies actuarial judgment in the determination and selection of development factors to develop reserve liabilities. Recent tort reform measures in certain jurisdictions have altered the legal environment and may affect claim settlement patterns over time. These changes require the Company to evaluate whether historical settlement trends remain appropriate for reserve development. In cases where tort reform is expected to influence claim outcomes, more recent claim settlement experience may be given greater consideration when selecting development factors. While inflationary pressures have moderated compared to prior periods, factors such as a higher mix of more complex repairs, combined with skilled labor shortages, continue to influence physical damage loss costs. Medical cost trends, increased treatment trends, higher attorney representation, rising litigation costs and more severe accidents have contributed to higher third-party bodily injury loss costs. The Company continues to digitize and modernize claim processes where necessary to increase effectiveness and efficiency. These factors may lead to historical development trends being less predictive of future loss development, potentially creating additional reserve variability.

Generally, the initial reserves for a new accident year are established based on claim frequency and severity assumptions for different lines and coverages based on historical relationships to relevant inflation indicators. Reserves for prior accident years are statistically determined using several different actuarial estimation methods. Changes in auto claim frequency may result from changes in mix of business, driving behaviors, miles driven or other factors. Changes in auto current year claim severity are generally influenced by inflation in the medical and auto repair sectors, changes in attorney represented and litigated claim behavior, the effectiveness and efficiency of claim settlements and changes in mix of claim types. When changes in claim data occur, actuarial judgment is used to determine appropriate development factors to establish reserves. The Company's reserving process incorporates changes in loss patterns, operational statistics and changes in claims reporting processes to determine its best estimate of recorded reserves.

As part of the reserving process, the Company may also supplement its claims processes by utilizing third-party adjusters, appraisers, engineers, inspectors, and other professionals and information sources to assess and settle catastrophe and non-catastrophe related claims. The effects of inflation are implicitly considered in the reserving process.

Because reserves are estimates of unpaid portions of losses that have occurred, including incurred but not reported losses, the establishment of appropriate reserves, including reserves for catastrophes, is an inherently uncertain and complex process. The ultimate cost of losses may vary materially from recorded amounts, which are based on management's best estimates.

The highest degree of uncertainty is associated with reserves for losses incurred in the initial reporting period as it contains the greatest proportion of losses that have not been reported or settled as well as heightened uncertainty for claims that involve litigation or take longer to settle during periods of rapidly increasing loss costs. The Company regularly updates its reserve estimates as new information becomes available and as events unfold that may affect the resolution of unsettled claims. Changes in reserve estimates, which may be material, are reflected in the Statement of Income in the period such changes are determined.

Activity in the reserve for losses and loss adjustment expenses was summarized as follows:

(in millions)	2025	2024
Balance as of January 1	\$ 28,565	\$ 27,188
Incurred related to:		
Current year	35,522	35,790
Prior years	(1,634)	(363)
Total incurred	33,888	35,427
Paid related to:		
Current year	21,214	21,069
Prior years	12,703	12,981
Total paid	33,917	34,050
Balance as of December 31	\$ 28,536	\$ 28,565

Incurred losses and loss adjustment expenses represent the sum of paid losses, loss adjustment expenses and reserve changes in the calendar year. This expense included net losses from catastrophes of \$4.53 billion and \$4.68 billion in 2025 and 2024, respectively. Catastrophes are an inherent risk of the property and casualty insurance business that have contributed to, and will continue to contribute to, material year-to-year fluctuations in the Company's net income and financial position.

The Company derives and records a single best reserve estimate for losses from catastrophes, in conformance with generally accepted actuarial standards. As a result, management believes that no other estimate is better than the recorded amount. Due to the uncertainties involved, including the factors described above, the ultimate cost of losses may vary materially from recorded amounts, which are based on management's best estimates. Accordingly, management believes that it is not practical to develop a meaningful range for any such changes in losses incurred.

NOTES TO FINANCIAL STATEMENTS

Incurred losses and loss adjustment expenses attributable to insured events of prior years were \$(1.63) billion and \$(363) million as a result of the reestimation of unpaid losses and loss adjustment expenses for the years ended December 31, 2025 and 2024, respectively. These changes were generally the result of ongoing analyses of recent loss development trends. The favorable incurred losses related to prior years in 2025 was primarily due to favorable severity development in personal auto injury coverage and all other personal auto coverages. Initial estimates were revised as additional information regarding claims became known.

Anticipated salvage and subrogation of \$1.26 billion and \$1.42 billion was included as a reduction of loss reserves as of December 31, 2025 and 2024, respectively.

32. Discounting of Liabilities for Unpaid Losses or Unpaid Loss Adjustment Expenses

The Company did not discount its liabilities for unpaid losses or unpaid loss adjustment expenses as of December 31, 2025 or 2024.

33. Asbestos/Environmental Reserves

A. Does the company have on the books, or has it ever written an insured for which you have identified a potential for the existence of a liability due to asbestos losses? Yes (X) No ()

The Company continues to receive asbestos and environmental claims. Asbestos claims relate primarily to bodily injuries asserted by people who were exposed to asbestos or products containing asbestos. Environmental claims relate primarily to pollution and related clean-up costs.

The Company's exposure to asbestos and environmental claims arise principally from assumed reinsurance coverage written from the 1960s through the mid-1980s, including reinsurance on primary insurance written on large U.S. companies, and from direct excess commercial insurance written from 1972 through 1985, including substantial excess general liability coverages on large U.S. companies. Additional exposure stems from direct primary commercial insurance written from the 1960s through the mid-1980s.

In 1986, the general liability policy form used by the Company and others in the property and casualty industry was amended to introduce an "absolute pollution exclusion," which excluded coverage for environmental damage claims, and added an asbestos exclusion. Most general liability policies issued prior to 1987 contain annual aggregate limits for product liability coverage. General liability policies issued in 1987 and thereafter contain annual aggregate limits for product liability coverage and annual aggregate limits for all coverages. The Company's experience to date has been that these policy form changes have limited the extent of its exposure to environmental and asbestos claim risks.

The Company's exposure to liability for asbestos and environmental losses manifests differently depending on whether it arises from assumed reinsurance coverage, direct excess commercial insurance or direct primary commercial insurance. The direct insurance coverage the Company provided for these exposures was substantially "excess" in nature.

Direct excess commercial insurance and reinsurance involve coverage written by the Company for specific layers of protection above retentions and other insurance plans. The nature of excess coverage and reinsurance provided to other insurers limits the Company's exposure to loss to specific layers of protection in excess of policyholder retention on primary insurance plans. The Company's exposure is further limited by the significant reinsurance that was purchased on the direct excess business.

The Company's assumed reinsurance business involved writing generally small participations in other insurers' reinsurance programs. The reinsured losses in which the Company participates may be a proportion of all eligible losses or eligible losses in excess of defined retentions. The majority of the Company's assumed reinsurance exposure, approximately 85%, is for excess of loss coverage, while the remaining 15% is for pro-rata coverage.

The Company's direct primary commercial insurance business comprises a cross section of policyholders engaged in many diverse business sectors throughout the country and did not include coverage to large asbestos companies.

The Company conducts an annual review in the third quarter to evaluate, establish and adjust as necessary, asbestos and environmental reserves. Changes to reserves are recorded in the reporting period in which they are determined. Using established industry and actuarial best practices and assuming no change in the regulatory or economic environment, this detailed and comprehensive methodology determines asbestos reserves based on assessments of the characteristics of exposure (e.g. claim activity, potential liability, jurisdiction, products versus non-products exposure) presented by individual policyholders, and determines environmental reserves based on assessments of the characteristics of exposure (e.g. environmental damages, respective shares of liability of potentially responsible parties, appropriateness and cost of remediation) to pollution and related clean-up costs. The number and cost of these claims are affected by advertising by trial lawyers seeking asbestos plaintiffs, and entities with asbestos exposure seeking bankruptcy protection as a result of asbestos liabilities, initially causing a delay in the reporting of claims, often followed by an acceleration and an increase in losses and loss adjustment expenses as settlements occur.

After evaluating insureds' probable liabilities for asbestos and environmental claims, the Company evaluates the insureds' coverage programs for such claims. The Company considers the insureds' total available insurance coverage, including the coverage it issued. The Company also considers relevant judicial interpretations of policy language and applicable coverage defenses or determinations, if any.

Evaluation of both the insureds' estimated liabilities and the Company's exposure to the insureds depends heavily on an analysis of the relevant legal issues and litigation environment. This analysis is conducted by the Company's specialized claims adjusting staff and legal counsel. Based on these evaluations, case reserves are established by claims adjusting staff and actuarial analysis is employed to develop an IBNR reserve, which includes estimated potential reserve development and claims that have occurred but have not been reported.

For both asbestos and environmental reserves, the Company also evaluates its historical direct net loss and loss expense paid and incurred experience to assess any emerging trends, fluctuations or characteristics suggested by the aggregate paid and incurred activity.

Establishing net loss reserves for asbestos and environmental claims is subject to uncertainties that are much greater than those presented by other types of claims. Among the complications are lack of historical data, long reporting delays, uncertainty as to the number and identity of insureds with potential exposure and unresolved legal issues regarding policy coverage; unresolved legal issues regarding the determination, availability and timing of exhaustion of policy limits; plaintiffs' evolving and expanding theories of liability; availability and collectability of recoveries from reinsurance; retrospectively determined premiums and other contractual agreements; estimates of the extent and timing of any contractual liability; the impact of bankruptcy protection sought by various asbestos producers and other asbestos defendants; and other

NOTES TO FINANCIAL STATEMENTS

uncertainties. There are also complex legal issues concerning the interpretation of various insurance policy provisions and whether those losses are covered, or were ever intended to be covered, and could be recoverable through retrospectively determined premium, reinsurance or other contractual agreements. Courts have reached different and sometimes inconsistent conclusions as to when losses are deemed to have occurred and which policies provide coverage; what types of losses are covered; whether there is an insurer obligation to defend; how policy limits are determined; how policy exclusions and conditions are applied and interpreted; and whether clean-up costs represent insured property damage. The Company's reserves for asbestos and environmental exposures could be affected by tort reform, class action litigation, and other potential legislation and judicial decisions. Environmental exposures could also be affected by a change in the existing federal Superfund law and similar state statutes. There can be no assurance that any reform legislation will be enacted or that any such legislation will provide for a fair, effective and cost-efficient system for settlement of asbestos or environmental claims. Management believes these issues are not likely to be resolved in the near future, and the ultimate costs may vary materially from the amounts currently recorded resulting in material changes in loss reserves.

Management believes its net loss reserves for asbestos and environmental exposures are appropriately established based on available facts, laws, regulations, and assessments of other pertinent factors and characteristics of exposure (e.g. claim activity, potential liability, jurisdiction, products versus non-products exposure) presented by individual policyholders, assuming no change in the legal, legislative or economic environment. Due to the uncertainties and factors described above, management believes it is not practicable to develop a meaningful net loss reserve range.

The table below summarizes the Company's reserve and claim activity for asbestos claims on a direct basis, for assumed reinsurance and after (net) the effects of ceded reinsurance.

GENERAL INTERROGATORIES

PART 2 - PROPERTY AND CASUALTY INTERROGATORIES

6.1

What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?
THE COMPANY DOES NOT WRITE THIS LINE OF BUSINESS

6.2

Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process:
THE COMPANY PLACES HEAVY EMPHASIS ON THE USE OF CATASTROPHIC (CAT) SIMULATION MODELING PROVIDED BY A LEADING CAT MODELING VENDOR TO ESTIMATE PROBABLE MAXIMUM LOSS (PML). AN ADVANCED METHODOLOGY IS EMPLOYED TO GENERATE A LARGE SAMPLE OF HYPOTHETICAL BUT POSSIBLE EVENTS, APPLY MODEL DAMAGE EXPECTATIONS AGAINST THE COMPANY'S BOOK OF BUSINESS, AND EVALUATE THE EXISTING POLICY CONDITIONS OF THE POLICIES IN FORCE TO DETERMINE AN ESTIMATE OF TOTAL DAMAGE.

6.3

What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?
UTILIZING A RISK MANAGEMENT METHODOLOGY, THE COMPANY'S ULTIMATE PARENT, THE ALLSTATE CORPORATION (CORPORATION) HAS DESIGNED A REINSURANCE PROGRAM TO ADDRESS EXPOSURE TO CATASTROPHES (CATS) NATIONWIDE. THE PROGRAM IS DESIGNED TO PROVIDE REINSURANCE PROTECTION FOR CATS INCLUDING HURRICANES, WINDSTORMS, HAIL, TORNADOS, FIRES FOLLOWING EARTHQUAKES, EARTHQUAKES, AND WILDFIRES. CONSISTENT WITH THE CORPORATION'S CAT MANAGEMENT STRATEGY, THE PROGRAM IS INTENDED TO PROVIDE AN ACCEPTABLE RETURN ON THE RISKS ASSUMED IN THE PROPERTY BUSINESS. AS OF SEPTEMBER 30, 2025, THE MODELED 1-IN-100 ANNUAL AGGREGATE PROBABLE MAXIMUM LOSS FOR HURRICANE, EARTHQUAKE AND WILDFIRE PERILS IS APPROXIMATELY \$3.1 BILLION, NET OF REINSURANCE

6.4

Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence?

Yes [X] No []

6.5

If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge its exposure to uninsured catastrophic loss
.....

7.1

Has this reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss cap, an aggregate limit or any similar provisions)?.....

Yes [] No [X]

7.2

If yes, indicate the number of reinsurance contracts containing such provisions.

7.3

If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)?.....

Yes [] No []

8.1

Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured?

Yes [] No [X]

8.2

If yes, give full information
.....

9.1

Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:
(a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term;
(b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
(c) Aggregate stop loss reinsurance coverage;
(d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
(e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
(f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity.

Yes [] No [X]

9.2

Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:
(a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or
(b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract.

Yes [] No [X]

9.3

If yes to 9.1 or 9.2, please provide the following information in the Reinsurance Summary Supplemental Filing for General Interrogatory 9:
(a) The aggregate financial statement impact gross of all such ceded reinsurance contracts on the balance sheet and statement of income;
(b) A summary of the reinsurance contract terms and indicate whether it applies to the contracts meeting the criteria in 9.1 or 9.2; and
(c) A brief discussion of management's principle objectives in entering into the reinsurance contract including the economic purpose to be achieved.

9.4

Except for transactions meeting the requirements of paragraph 36 of SSAP No. 62 - Property and Casualty Reinsurance, has the reporting entity ceded any risk under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement, and either:
(a) Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP"); or
(b) Accounted for that contract as reinsurance under GAAP and as a deposit under SAP?

Yes [] No [X]

9.5

If yes to 9.4, explain in the Reinsurance Summary Supplemental Filing for General Interrogatory 9 (Section D) why the contract(s) is treated differently for GAAP and SAP.

9.6

The reporting entity is exempt from the Reinsurance Attestation Supplement under one or more of the following criteria:
(a) The entity does not utilize reinsurance; or, ...
(b) The entity only engages in a 100% quota share contract with an affiliate and the affiliated or lead company has filed an attestation supplement; or
(c) The entity has no external cessions and only participates in an intercompany pool and the affiliated or lead company has filed an attestation supplement.

Yes [] No [X]
Yes [] No [X]
Yes [] No [X]

10.

If the reporting entity has assumed risks from another entity, there should be charged on account of such reinsurances a reserve equal to that which the original entity would have been required to charge had it retained the risks. Has this been done?

Yes [X] No [] N/A []

SCHEDULE P INTERROGATORIES

1. The following questions relate to yet-to-be-issued Extended Reporting Endorsements (EREs) arising from Death, Disability, or Retirement (DDR) provisions in Medical Professional Liability Claims Made insurance policies. EREs provided for reasons other than DDR are not to be included.
- 1.1 Does the company issue Medical Professional Liability Claims Made insurance policies that provide tail (also known as an extended reporting endorsement, or “ERE”) benefits in the event of Death, Disability, or Retirement (DDR) at a reduced charge or at no additional cost?

Yes [] No [X]

If the answer to question 1.1 is “no”, leave the following questions blank. If the answer to question 1.1 is “yes”, please answer the following questions:
- 1.2 What is the total amount of the reserve for that provision (DDR Reserve), as reported, explicitly or not, elsewhere in this statement (in dollars)?
- \$
- 1.3 Does the company report any DDR reserve as Unearned Premium Reserve per SSAP #65?
- Yes [] No []
- 1.4 Does the company report any DDR reserve as loss or loss adjustment expense reserve?
- Yes [] No []
- 1.5 If the company reports DDR reserve as Unearned Premium Reserve, does that amount match the figure on the Underwriting and Investment Exhibit, Part 1A - Recapitulation of all Premiums (Page 7) Column 2, Lines 11.1 plus 11.2?
- Yes [] No [] N/A []
- 1.6 If the company reports DDR reserve as loss or loss adjustment expense reserve, please complete the following table corresponding to where these reserves are reported in Schedule P:

Years in Which Premiums Were Earned and Losses Were Incurred		DDR Reserve Included in Schedule P, Part 1F, Medical Professional Liability Column 24: Total Net Losses and Expenses Unpaid	
		1 Section 1: Occurrence	2 Section 2: Claims-Made

1.607	2021		
1.608	2022		
1.609	2023		
1.610	2024		
1.611	2025		
1.612	Totals		

2. The definition of allocated loss adjustment expenses (ALAE) and, therefore, unallocated loss adjustment expenses (ULAE) was changed effective January 1, 1998. This change in definition applies to both paid and unpaid expenses. Are these expenses (now reported as “Defense and Cost Containment” and “Adjusting and Other”) reported in compliance with these definitions in this statement?
- Yes [X] No []
3. The Adjusting and Other expense payments and reserves should be allocated to the years in which the losses were incurred based on the number of claims reported, closed and outstanding in those years. When allocating Adjusting and Other expense between companies in a group or a pool, the Adjusting and Other expense should be allocated in the same percentage used for the loss amounts and the claim counts. For reinsurers, Adjusting and Other expense assumed should be reported according to the reinsurance contract. For Adjusting and Other expense incurred by reinsurers, or in those situations where suitable claim count information is not available, Adjusting and Other expense should be allocated by a reasonable method determined by the company and described in Interrogatory 7, below. Are they so reported in this Statement?
- Yes [X] No []
4. Do any lines in Schedule P include reserves that are reported gross of any discount to present value of future payments, and that are reported net of such discounts on Page 10?
- Yes [] No [X]
- If yes, proper disclosure must be made in the Notes to Financial Statements, as specified in the Instructions. Also, the discounts must be reported in Schedule P - Part 1, Columns 32 and 33. Schedule P must be completed gross of non-tabular discounting. Work papers relating to discount calculations must be available for examination upon request.
- Discounting is allowed only if expressly permitted by the state insurance department to which this Annual Statement is being filed.
5. What were the net premiums in force at the end of the year for:
- (in thousands of dollars)
- 5.1 Fidelity
- 5.2 Surety
6. Claim count information is reported per claim or per claimant (Indicate which). per claim.....
- If not the same in all years, explain in Interrogatory 7.
- 7.1 The information provided in Schedule P will be used by many persons to estimate the adequacy of the current loss and expense reserves, among other things. Are there any especially significant events, coverage, retention or accounting changes that have occurred that must be considered when making such analyses?
- Yes [X] No []
- 7.2 (An extended statement may be attached.)
- The Coronavirus pandemic or COVID-19 resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which included the implementation of travel restrictions, government-imposed shelter-in-place orders, quarantine periods, social distancing, and restrictions on large gatherings beginning in 2020, and the adjustments to these measures in 2021, caused material disruption to businesses globally. The user of Schedule P data should consider the impact of these measures and the subsequent reversal of these measures, including but not limited to, changes in auto accident frequency, premium refunds and/or rate reductions, and material cost increases in both auto and property.
