NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Allstate Insurance Company (referred to as the "Company") prepares its financial statements in conformity with accounting practices prescribed or permitted by the Illinois Department of Insurance ("IL DOI"). Prescribed statutory accounting practices include a variety of publications of the National Association of Insurance Commissioners ("NAIC"), as well as state laws, regulations and general administrative rules. Permitted statutory accounting practices encompass all accounting practices not so prescribed.

The State of Illinois requires its domestic insurance companies to prepare financial statements in conformity with the NAIC Accounting Practices and Procedures Manual ("Codification"), subject to any deviations prescribed or permitted by the IL DOI.

B. The preparation of financial statements in conformity with accounting practices prescribed or permitted by the IL DOI requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

C. Listed below is a summary of the accounting policies that materially affect the financial statements.

Investments

Investments are stated at values prescribed by the NAIC. Bonds, including collateralized mortgage obligations and other structured securities, are stated at amortized cost using the scientific interest method with two exceptions. Bonds with an NAIC designation of 3 through 6 and 5* are carried at the lower of amortized cost or market, with the difference reflected in unassigned surplus. 5* means the NAIC designation was assigned by the Securities Valuation Office ("SVO") in reliance on the insurer's certification that the issuer is current in all principal and interest payments. In addition, bonds with an NAIC designation of 6* are carried at zero. 6* means the NAIC designation was assigned by the SVO due to inadequate certification of interest and principal payments. To-be-announced ("TBA") bonds involved in dollar roll transactions are marked to market through realized capital gains and losses.

Loan-backed securities, which consist of single class and multi-class mortgage-backed and asset-backed securities, utilize anticipated repayments to determine the effective yield at purchase. Any significant changes in the anticipated repayments are incorporated when determining statement value. Generally, significant changes in estimated cash flows from the original purchase assumptions are accounted for using the retrospective method. Beneficial interests held in securitized assets which are not of high credit quality are accounted for using the prospective method.

Preferred stocks are carried at amortized cost or the lower of amortized cost or NAIC market value, depending on the assigned credit rating and whether the preferred stock has mandatory sinking fund provisions. Common stocks are carried at NAIC market value. For preferred stocks stated at NAIC market value and common stocks, the differences between cost or amortized cost and NAIC market value are recorded as a change in net unrealized capital gains (losses), which is a component of unassigned surplus.

Investments in insurance subsidiaries are based on the underlying statutory equity of the subsidiary and adjusted for unamortized goodwill, if applicable. Investments in non-insurance subsidiaries, controlled and affiliated entities and joint ventures, limited partnerships and limited liability companies are generally recorded based on the underlying Generally Accepted Accounting Principles ("GAAP") equity of the investee, with unrealized gains or losses reflected in unassigned surplus.

Mortgage loans are carried at outstanding principal value, net of unamortized premium or discount and book value adjustments. Book value adjustments include derivative hedging adjustments and other than temporary impairment adjustments. Generally, if the fair value of any collateral, less the estimated costs to obtain and sell, is less than the outstanding principal value and the decline is deemed to be other than temporary, an impairment is reflected in the carrying value and included in realized capital losses. If the decline is deemed to be temporary, the adjustment is reflected in a valuation allowance and included in unrealized capital losses.

Investments in real estate are stated at the lower of depreciated cost or fair value less encumbrances. The carrying value of real estate is adjusted for impairments that are other than temporary.

Short-term investments include investments whose maturities at the time of acquisition are one year or less and are stated at amortized cost, which approximates fair value.

Investment income consists primarily of interest and dividends. Interest is recognized on an accrual basis and dividends are recorded at the ex-dividend date. Interest income on mortgage-backed and asset-backed securities is determined on the effective yield method, based on estimated principal repayments. Accrual of income is suspended for bonds and mortgage loans that are in default or when the receipt of interest payments is in doubt. Investment income is recorded for joint ventures, limited partnerships and limited liability companies as distributions are received. Realized capital gains and losses are determined on a specific identification basis.

The Company writes down to fair value any bond or equity security that is classified as other than temporarily impaired in the period the security is deemed to be other than temporarily impaired. Inherent in the Company's evaluation of a particular security are assumptions and estimates about the operations of the issuer and its future earnings potential. Some of the factors considered in evaluating whether a decline in fair value is other than temporary are: 1) the Company's ability and intent to retain the investment for a period of time sufficient to allow for an anticipated recovery in value; 2) the recoverability of principal and interest; 3) the duration and extent to which the fair value has been less than cost for equity securities or amortized cost for bonds; 4) the financial condition, near-term and long-term prospects of the issuer, including relevant industry conditions and trends, and implications of rating agency actions and offering prices; and 5) the specific reasons that a security is in a significant unrealized loss position, including market conditions which could affect access to liquidity.

Derivative financial instruments

Derivative financial instruments used by the Company include foreign currency swaps, equity foreign currency forwards, futures and written call options. When derivatives meet specific criteria, they may receive hedge accounting, which means they may be accounted for and reported on in a manner that is consistent with the hedged asset or liability. Derivatives that are not designated as accounting hedges are accounted for on a fair value basis, with changes in fair value recorded as unrealized gains or losses in unassigned surplus. The Company's accounting policy for these instruments is also discussed in Note 8, Part C.

Premium revenue

Premiums are deferred and earned on a pro rata basis over the policy period of the policies. The portion of premiums written applicable to the unexpired terms of the policies is recorded as unearned premiums. Premiums received in advance of the policies' effective dates are recorded as advance premiums.

Premiums written and not yet collected and agents' balances are shown as a receivable, with balances older than 90 days nonadmitted. The Company regularly evaluates this receivable, and establishes valuation allowances, as appropriate, for items less than 90 days.

Reserves for losses and loss adjustment expense

Reserves for loss and loss adjustment expenses are the estimated amounts necessary to settle both reported and unreported claims of insured losses, based upon the facts in each case and the Company's experience with similar cases. Estimated amounts of salvage and subrogation are also deducted from the reserves for losses and loss adjustment expenses. The establishment of appropriate reserves, including reserves for catastrophes, is an inherently uncertain process. Reserve estimates are regularly reviewed and updated using the most current information available. Any resulting adjustments are reflected in current operations. These adjustments may be material.

NOTES TO FINANCIAL STATEMENTS

Reserve estimates are based on known facts and interpretations of circumstances, and internal factors, including the Company's experience with similar cases, historical trends involving claim payment patterns, loss payments, pending levels of unpaid claims, loss control programs and product mix. In addition, the reserve estimates are influenced by external factors including court decisions, economic conditions and public attitudes. In the normal course of business, the Company may also supplement its claims process by utilizing third party adjusters, appraisers, engineers, inspectors and other professionals and information sources to assess and settle catastrophe and non-catastrophe related claims.

Establishing net loss reserves for environmental and asbestos claims is subject to uncertainties that are greater than those presented by other types of claims. Among the complications are lack of historical data, long reporting delays, uncertainty as to the number and identity of insureds with potential exposure, unresolved legal issues regarding policy coverage, availability and collectibility of reinsurance and the extent and timing of any such contractual liability. The legal issues concerning the interpretation of various insurance policy provisions and whether those losses are covered, or were ever intended to be covered, are complex. Courts have reached different and sometimes inconsistent conclusions as to when losses are deemed to have occurred and which policies provide coverage; what types of losses are covered; whether there is an insurer obligation to defend, how policy limits are determined; how policy exclusions and conditions are applied and interpreted; and whether clean-up costs represent insured property damage. Management believes these issues are not likely to be resolved in the near future.

Reinsurance

In the normal course of business, the Company seeks to limit aggregate and single exposure to losses on large risks by purchasing reinsurance from other insurers or reinsurers. Admitted assets include amounts billed to reinsurers for losses and loss adjustment expenses paid. A provision for reinsurance is established by the Company based on an evaluation of the admissibility, collectibility and collateralization of reinsurers balances in accordance with NAIC guidelines and reported as a liability. Reinsurance recoverables on unpaid losses are estimated based upon assumptions consistent with those used in establishing the liabilities related to the underlying reinsured contract. Reserves are reported net of reinsurance recoverables. Prepaid reinsurance premiums are deferred and reflected as income in a manner consistent with the recognition of premiums on the reinsured contracts. Reinsurance does not extinguish the Company's primary liability under the policies written.

Income taxes

The income tax provision is calculated under the liability method. Deferred tax assets and liabilities are recorded based on the difference between the statutory financial statement and tax bases of assets and liabilities at the enacted tax rates. The principal assets and liabilities giving rise to such differences were insurance reserves and unearned premiums. Deferred income taxes also arise from unrealized gains and losses on equity securities carried at fair value. The net change in deferred tax assets and liabilities is applied directly to unassigned surplus. The nonadmitted portion of a net deferred tax asset is determined by applying the rules prescribed by Statement of Statutory Accounting Principle ("SSAP") No. 10, Income Taxes.

2. Accounting Changes

The Company did not have any material accounting changes or corrections of errors for the years ended December 31, 2003 or 2002.

3. Business Combinations and Goodwill

A. Statutory Purchase Method

On January 1, 2000, the Company purchased all the outstanding common stock of Northbrook Indemnity Company ("NIC"), for $26 million from St. Paul Fire & Marine Insurance Company ("St. Paul"). The Company acquired NIC as part of its plans to further develop the personal lines' independent agency business. The transaction was accounted for using the statutory purchase method. At the purchase date, goodwill of $429 thousand was recorded and is being amortized on a straight-line basis over 10 years. In 2003 and 2002, the Company recognized goodwill amortization of $43 thousand each year related to this acquisition.

On November 8, 1993, the Company purchased all the outstanding common stock of Deerbrook Insurance Company ("DIC"), formerly known as Belvedere American Reinsurance Company, for $22 million from Christiania General Insurance Corporation of New York. The Company acquired DIC in order to utilize its insurance licenses. The transaction was accounted for using the statutory purchase method. At the purchase date, goodwill of $1 million was recorded and is being amortized on a straight-line basis over 10 years. In 2003 and 2002, the Company recognized goodwill amortization of $104 thousand and $125 thousand, respectively, related to this acquisition.

Effective September 1, 2000, the Company contributed all the common stock of DIC to NIC. In addition, the Company contributed its ownership interest in NIC to Willow Holdings, LLC ("Willow"), a wholly owned subsidiary of the Company. Since the Company is the indirect parent of DIC and NIC, goodwill remains on the Company's balance sheet and continues to be amortized into its income.

Unamortized goodwill, reported as a component of the investment in the acquired entities, did not exceed 10% of the Company's capital and surplus at December 31, 2003 or 2002.

B. Statutory Merger

The Company has not participated in any business combinations taking the form of a statutory merger in 2003 or 2002.

C. Impairment Loss

The Company did not recognize any impairment loss on the transactions described above in 2003 or 2002.

4. Discontinued Operations

The Company did not have any discontinued operations in 2003 or 2002.

5. Investments

A. Mortgage Loans, including Mezzanine Real Estate Loans

1. The minimum and maximum lending rates for new mortgage loans in 2003 were 4.18% and 4.65%, respectively. The Company did not add any new mortgage loans to the portfolio in 2002.

2. The Company did not reduce interest rates on any outstanding mortgage loans in 2003. In 2002, the Company reduced the interest rate on one floating rate commercial mortgage loan that had a carrying value, excluding accrued interest, of $22 million. The interest rate on the loan was reduced by .42% to 2.91%.

3. The maximum percentage of any one loan to the value of security at the time of the loan was 61.54% in 2003.

4. At December 31, 2003 or 2002, the Company did not hold any mortgage loans with interest more than 180 days past due.

5. The Company did not have any taxes, assessments or amounts advanced at December 31, 2003 or 2002.

NOTES TO FINANCIAL STATEMENTS

6. Mortgage loans are impaired when it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement. The Company did not have any investment in impaired loans for which there was a related allowance for credit losses at December 31, 2003 or 2002.

7. The Company did not have any investment in impaired loans for which there was no related allowance for credit losses at December 31, 2003 or 2002.

8. There were no impaired mortgage loans at December 31, 2003 or 2002.

9. Interest income was not recognized on impaired loans during 2003 or 2002.

10. There was no interest income recognized on a cash basis on impaired mortgage loans during 2003 or 2002.

11. The Company did not record any allowance for credit losses at December 31, 2003 or 2002.

12. Interest income is recognized on a cash basis for impaired loans carried at the fair value of the collateral, beginning at the time of the impairment.

B. Debt Restructuring

1. The total recorded investment in restructured mortgage loans and bonds was $32 million and $33 million at December 31, 2003 and 2002, respectively.

2. The Company did not recognize any realized capital losses related to troubled mortgage loans and bond restructuring in 2003. The Company recognized realized capital losses of $3 million in 2002 related to troubled mortgage loans and bond restructuring.

3. The Company did not enter into any contractual commitments to extend credit to debtors owning receivables whose terms were modified in troubled mortgage loans and bond restructuring.

4. The Company's policy is to generally accrue interest income on impaired mortgage loans and bonds to the extent it was deemed collectible and the investment continued to perform under its original or restructured terms. Interest income on nonperforming mortgage loans is generally recognized on a cash basis. Interest income on nonperforming bonds is recognized on a cash basis once the original cost of the investment is recovered.

C. Reverse Mortgages

The Company did not enter into reverse mortgages in 2003 or 2002.

D. Loan-Backed Securities

1. The Company elected not to use the book value as of January 1, 1994 as the cost for applying the retrospective adjustment method to securities purchased prior to that date.

2. Prepayment assumptions for single class and multi-class mortgage-backed and asset-backed securities were obtained from broker-dealers and internal estimates.

3. In 2003 and 2002, there were no securities with negative yields requiring the Company to change methodologies from retrospective to prospective.

E. Repurchase Agreements

The Company requires a minimum of 102% of the fair value of securities purchased under repurchase agreements to be maintained as collateral. Required collateral is generally held by a custodial bank under a tri-party agreement.

See Note 11 for a description of the terms of the Company's dollar reverse repurchase agreements.

F. Real Estate

1.

a. In 2003, the Company did not recognize any impairment loss related to its investments in real estate in 2003. In 2002 the Company recognized an impairment loss on an apartment building in Texas that had been acquired in 2001 through the default of a municipal bond. The real estate was initially recorded by the Company at its pending sale price, however, the sale was never executed.

b. An impairment loss of $235 thousand was recognized in 2002. The fair value of the property was determined by an external appraisal in December 2002.

c. Impairment losses are included in net realized capital gains and losses.

2. The Company did not engage in any retail land sales operations in 2003 or 2002.

6. Joint Ventures, Partnerships and Limited Liability Companies

A. The Company had no investments in joint ventures, limited partnerships or limited liability companies that exceeded 10% of its admitted assets at December 31, 2003 or 2002.

B. The Company recognized impairment write-downs on joint ventures, partnerships and limited liability companies of $14 million and $3 million for the years ending December 31, 2003 and 2002, respectively. The fair value of these investments was determined by an analysis of both the underlying assets of the investment and the existing economic conditions.

7. Investment Income

1. All due and accrued investment income, excluding mortgage loans, over 90 days past due is nonadmitted. Mortgage loans in default for which interest is 180 days past due are considered nonadmitted. All due and accrued investment income deemed uncollectible is written off in the period it is determined to be uncollectible.

2. The total amount of due and accrued investment income nonadmitted was $49 and $88 thousand at December 31, 2003 and 2002, respectively.

8. Derivative Instruments

A. Derivative financial instruments utilized by the Company include foreign currency swaps, equity foreign currency forwards, futures and written call options contracts.

NOTES TO FINANCIAL STATEMENTS

Foreign currency swaps are agreements that involve the exchange, at specified intervals, of interest rate payments and currencies calculated by reference to an underlying notional amount or currency. Equity foreign currency forward contracts involve the future exchange or delivery of foreign currencies based on terms negotiated at the inception of the contract which are settled at the end of the contract. The Company utilizes both index and interest rate futures. Futures are defined as commitments to buy or sell designated financial instruments based on specified prices, yields or indexes. Written call option contracts are exchange traded call option contracts on specific equities.

Market risk is the risk that the Company will incur losses due to adverse changes in equity, interest, or currency exchange rates and prices. Market risk exists for all of the derivative financial instruments that the Company holds, as these instruments can become less valuable due to adverse changes in market conditions. To limit this risk, the Company's senior management has established risk control limits. In addition, changes in the value of the Company's derivative instruments designated as hedges are generally offset by changes in the value of the hedged risk component of the related assets and liabilities.

Credit exposure represents the Company's potential loss if all counterparties fail to perform under the contractual terms of the contracts and all collateral, if any, becomes worthless. This exposure is measured by the fair value of contracts with a positive fair value at the reporting date reduced by the effect, if any, of master netting agreements. Foreign currency swaps and equity foreign currency forward contracts utilized by the Company primarily have credit exposure.

The Company manages its exposure to credit risk by utilizing highly rated counterparties, establishing risk control limits, executing legally enforceable master netting agreements and obtaining collateral where appropriate. The Company utilizes master netting agreements for all over-the-counter derivative transactions. These agreements permit either party to net payments due for transactions covered by the agreements. Under the provisions of the agreements, collateral is either pledged or obtained when certain predetermined exposure limits are exceeded. To date, the Company has not incurred any losses on derivative financial instruments due to counterparty nonperformance.

Futures contracts have limited credit exposure as they are executed on organized exchanges and require collateral, as well as the daily cash settlement of margins. The written call options utilized by the Company are all exchanged traded and have limited credit exposure.

The cash requirements of the derivatives vary by instrument. Cash settlements for foreign currency swap agreements usually occur at dates specified in individual agreements. The amount of cash exchanged is equal to the difference between the rate in the contract at which the Company receives cash compared to the rate at which the Company is to pay cash. Equity foreign currency forward contracts require cash settlements when the contract matures. For equity foreign currency forward contracts the amount of cash exchanged is based on the difference between the rate agreed to at the date the contract was entered into (contract rate) compared to the actual rate on the settlement date. If the contract rate is less than the actual rate on the settlement date, the Company receives cash equal to the difference in rates multiplied by an agreed to notional amount. If the contract rate is greater than the actual rate on the settlement date, the Company pays cash equal to the differences in the rates multiplied by an agreed to notional amount. Daily cash settlement of variation margins, which are based on the changes in the daily prices, is required for futures. The final settlement of interest rate futures may be settled in cash or through delivery of an underlying instrument (e.g. specified bond). The final settlement of indexed futures may only be settled in cash. The Company receives cash equal to the premium of written call options when the contract is established. If the written covered call options are exercised, the Company receives cash equal to the price mutually agreed to in the contract (strike price) in exchange for the equity the call option was written on. If the options are not exercised, then no cash is exchanged when the contract expires.

B. The Company's primary use of derivative financial instruments is to reduce its exposure to market risk (principally interest rate, equity price, and foreign currency risk) on its invested assets and certain liabilities. The Company does not hold or issue these instruments for trading purposes.

   Foreign currency swap agreements and equity foreign currency forward contracts are utilized to hedge the currency risk associated with securities owned and denominated in foreign currencies. The Company utilizes futures contracts to reduce the duration of its fixed income portfolio and to reduce market risk associated with certain deferred compensation contracts. These futures hedge the changes in fair value of assets or liabilities. Written covered call options used for income generation provide limited protection against declines in the underlying market price of equities owned by the Company.

C. The contract or notional amounts are used to calculate the exchange of contractual payments under agreements and are not representative of the potential for gain or loss on these agreements.

   Written call option contracts are reported on Schedule DB, Part B. The premium received on written call options is recorded as a liability. The change in the fair value of written covered call options is recorded as unrealized gains or losses, with a corresponding liability. If the written covered call option is exercised by the counterparty, the difference between the strike price and the cost basis of the equity, adjusted for the amount of premium received, is recorded as a realized gain or loss. If the written covered call options expires without being exercised, the premium received is classified as a realized gain and the corresponding liability previously recorded is reversed.

   Foreign currency swap agreements are reported in Schedule DB, Part C and are generally designated as foreign currency hedges. Generally, if a swap is terminated prior to the expiration date, any gain or loss on termination is recognized as a capital gain or loss if the underlying hedged item had been disposed. If the hedged item still exists, any gain or loss is attached to the hedged item and amortized into income over the shorter of the remaining life of the underlying hedged item or the life of the swap contract. Accrued periodic settlements are reported as net investment income.

   Equity foreign currency forward contracts are also reported in Schedule DB, Part C and do receive hedge accounting. The final delivery of foreign currency is reflected in the book value of the hedged item at purchase, or it is reflected in the proceeds from the sale of the hedged item.

   Futures are reported in Schedule DB, Part D and receive either fair value hedge accounting or non-hedge accounting, depending on the strategy daily cash settlement of margin gains or losses are recognized in either realized capital gains and losses or as an offset to the expense related to the hedged obligation depending on the derivative strategy. Termination gains or losses on financial futures are incorporated into the daily cash settlement of margins. For those futures contracts that are utilized to reduce the duration on the fixed income portfolio and are open at the end of the reporting period, the daily cash settlement is reported as unrealized gains and losses in surplus.

D. The Company did not have any net gain or loss recognized in unrealized gains or losses during the reporting period representing the component of the derivative instruments' gain or loss excluded from the assessment of hedge effectiveness.

E. The Company did not have any net gain or loss recognized in unrealized gains or losses during the reporting period resulting from derivatives that no longer qualify for hedge accounting.

F. The Company did not have any derivatives accounted for as cash flow hedges of a forecasted transaction.

2. The consolidated group elected under Internal Revenue Code Section 1552(a)(2) to allocate the consolidated federal income tax liability based on each member's federal income tax liability computed on a separate return basis, except all tax benefits resulting from operating losses and tax credits are allocated to the Company to the extent they can be utilized in the consolidated return. In years when the consolidated tax return results in an alternative minimum tax liability, the regular tax is allocated first as described above, and the excess of the alternative minimum tax over the regular tax is allocated to the members whose tax posture gave rise to the alternative minimum tax. The excess alternative minimum tax is available as a credit. In 2003, the Company's net utilization of the alternative minimum tax credit carryforward is $110 million.

10. Information Concerning Parent, Subsidiaries and Affiliates

A.,
B.&
C. The following transactions were entered into by the Company with related parties in 2003 and 2002 that involved more than ½ of 1% of the Company's admitted assets. Reinsurance contracts, insurance contracts and cost allocation transactions based in accordance with intercompany contract provisions were excluded.

The Company paid the following cash dividends to its parent, The Allstate Corporation, ("Corporation") in 2003 and 2002:

(in millions) Date of payment	2003	2002
February 4	$ 150	$ -
April 1	300	-
May 1	-	200
July 1	175	175
September 3	-	150
October 1	-	150
November 3	150	-
December 5	400	-
Total	$ 1,175	$ 675

On November 26, 2003, the Company paid a dividend of $30 million to the Corporation using investment securities.

On June 19, 2003 the Company paid a dividend of $69 million to the Corporation using investment securities.

In addition, on December 23, 2002, the Corporation made a cash capital contribution of $100 million to the Company. The Corporation also contributed all its outstanding shares of Pafco Underwriting Managers, Inc., including its ownership interest in Pembridge Insurance Company, with a cost of $56 million to the Company on December 31, 2002.

On December 3, 2002, the Company extended the maturity date of the $405 million Demand Promissory Note ("Note") executed by the Corporation and payable to the Company from April 13, 2003 to December 1, 2007, or on demand. In addition, the interest rate on the Note was adjusted to reflect current market conditions.

The Company made cash capital contributions of $350 million to Allstate Life Insurance Company ("ALIC") in 2002: $150 million on June 28 and $100 million each on September 30 and December 23.

The Company received cash dividends on common stock from ALIC as follows in 2003 and 2002:

(in millions) Date of payment	2003	2002
March 28	$ -	$ 44
September 30	25	-
Total	$ 25	$ 44

The Company received dividends in the form of securities of $98 million from ALIC in 2003: $69 million on June 19 and $29 million on November 26.

On December 30, 2002, ALIC contributed its 100% ownership in Allstate Financial Services, LLC ("AFS"), with a cost of $2 million to the Company.

D. The Company reported the following amounts as receivable from its parent, subsidiaries and affiliates at December 31:

Total	$ 468	$ 359

At December 31, 2003 and 2002, the total amounts payable to parent, subsidiaries and affiliates were less than $1 million.

The intercompany balance from the Corporation includes the Note executed by the Corporation and payable to the order of the Company on December 1, 2007, or on demand. See Parts A, B & C above for more information on the Note.

The Company entered into an intercompany loan agreement with the Corporation. The amount of intercompany loans available to the Company is at the discretion of the Corporation. The maximum amount of loans the Corporation can have outstanding to all its eligible subsidiaries at any given point in time was limited to $1 billion. From time to time, the Company borrows money from the Corporation to meet its short-term cash needs. At December 31, 2003, the Company did not have any outstanding intercompany loan balance. At December 31, 2002, the Company's total outstanding intercompany loan balance, excluding interest, was $1 billion. The interest rate on the loan outstanding at December 31, 2002 was 1.25%. The maturity date on the intercompany loan outstanding at December 31, 2002 was two days. Total interest paid on intercompany debt during 2003 and 2002 was $.66 million and $1.5 million, respectively. Since this

NOTES TO FINANCIAL STATEMENTS

debt was payable to the Corporation, it was combined with other amounts due to and payable from the Corporation and classified as a receivable from parent, subsidiary and affiliate on the Statements of Financial Position.

Intercompany payables and receivables with the Company's subsidiaries are generally cash settled at least quarterly.

E. The Company purchased structured settlement annuities, a type of immediate annuity, at prices determined based on interest rates in effect at the time of purchase, to fund structured settlements from ALIC and two of its subsidiaries, Allstate Life Insurance Company of New York and Lincoln Benefit Life Company. Prior to July 1, 2001, these annuities were issued to Allstate Settlement Corporation ("ASC"), a subsidiary of ALIC. Annuities sold subsequent to July 1, 2001, involving the Company were issued to Allstate Assignment Company ("AAC"), a subsidiary of ALIC. Most of the structured settlements issued by ASC and AAC were under a qualified assignment," meaning these entities assumed the Company's obligation to make future payments.

The Company has issued surety bonds to guarantee the payment of structured settlement benefits assumed by ASC (from both the Company and non-related parties) and funded by certain annuity contracts issued by the Company. ASC has entered into general indemnity agreements pursuant to which it indemnified the Company for any liabilities associated with the surety bonds and providing the Company certain collateral security rights with respect to the annuities and certain other rights in the event of default. For contracts written on or after July 1, 2001, the Company no longer issues surety bonds to guarantee the payment of structured settlement benefits. Alternatively, ALIC guarantees the payment of structured settlement benefits on all contracts issued on or after July 1, 2001. Reserves recorded by the Company for annuities related to the surety bonds were $5.35 billion and $5.34 billion at December 31, 2003 and 2002, respectively.

F. Effective December 31, 2003, the Company executed a Capital Support Agreement with Allstate Financial Services, LLC ("AFS") wherein the Company agrees to make contributions to the capital of AFS for the purpose of funding its capital requirements for planned growth.

Effective April 29, 2003, the Company entered into a Service and Expense Agreement with certain of its affiliated insurance companies pursuant to which the Company furnishes a variety of services and facilities to those affiliates. The agreement provides for the cost sharing and allocation of operating expenses among the parties to the agreement.

Effective January 1, 2002, the Company entered into an Investment Management Agreement and Amendment to Certain Service and Expense Agreements with Allstate Investments, LLC ("AILLC") whereby AILLC provides investment management services to the Company.

Effective January 1, 2002, the Company entered into a Reimbursement Agreement with the Corporation under which the Corporation sponsors certain benefit and compensation plans.

Effective January 1, 1999, the Company and certain of its affiliated insurance companies entered into a Service and Expense agreement pursuant to which the Company furnishes a variety of services to the Corporation and certain subsidiaries and affiliates of the Company. The agreement provides for cost sharing and allocation of operating expenses among the parties to the agreement. Additional affiliated insurance companies have been made parties to this agreement by an addendum to the original agreement.

G. The Company is a wholly-owned subsidiary of the Corporation.

H. At both December 31, 2003 and 2002, the Company owned 37,471 common shares of the Corporation with a cost of $1 million. The entire amount of the investment was reported as a nonadmitted asset.

I. The Company did not have investments in subsidiaries, controlled or affiliated ("SCA") entities that exceeded 10% of the Company's December 31, 2003 or 2002 admitted assets.

J. The Company did not recognize any impairments related to SCA entity investments in 2003 or 2002.

11. Debt

The Company did not have any capital notes or debt outstanding at December 31, 2003 or 2002.

The Company had dollar reverse repurchase agreements outstanding as of December 31, 2003 and 2002 with total book values of $618 million and $357 million, respectively, and market values of $622 million and $349 million, respectively. Interest on reverse dollar repurchase agreements paid during the years ending December 31, 2003 and 2002 was $31 million and $30 million, respectively. The weighted average coupon for these transactions was 5.18% in 2003 and 5.83% in 2002. These agreements generally utilize mortgage-backed securities. All of these transactions end by February 19, 2004.

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

Defined benefit pension plans cover most domestic full-time, certain part-time employees and certain employee agents. Benefits under the pension plans are based upon the employee's length of service and eligible annual compensation. Upon adoption of SSAP 89, *Pensions*, the company elected, with regard to its incremental liability, to amortize it as a component of net periodic pension cost, and with regard to its incremental asset, to offset future periodic pension expense. The Company's funding policy for the pension plans is to make annual contributions in accordance with accepted actuarial cost methods.

The Company also provides certain health care and life insurance subsidies for certain employees when they retire. Qualified employees may become eligible for these benefits if they retire in accordance with the Company's established retirement policy and are continuously covered under the Company's group plans or other approved plans in accordance with the plans participation requirements. Benefits similar to those available for active employees are available to pre-Medicare retirees who pay the required contributions. A post-Medicare plan supplementing Medicare is also available upon payment of required contributions. The Company shares the cost of the retiree medical benefits with qualified employees based on their years of service, with the Company's share being subject to a 5% limit on annual medical cost inflation after retirement. The Company's postretirement plans currently are not funded. The Company has the right to modify or terminate these plans.

The Company calculates benefit obligations based upon actuarial methodologies using the projected benefit obligation for pension plans and the accumulated postretirement benefit obligation for other postretirement plans.

NOTES TO FINANCIAL STATEMENTS

The change in benefit obligations for all plans for the year ended December 31, were as follows:

	Pension Benefits		Postretirement Benefits	
(in millions)	**2003**	**2002**	**2003**	**2002**
Benefit obligation, beginning of year	$ 3,543	$ 3,078	$ 786	$ 722
Service cost	138	134	22	20
Interest cost	243	222	53	51
Contributions by plan participants	-	-	33	-
Actuarial losses	437	403	(11)	36
Benefits paid	(239)	(260)	(82)	(43)
Plan amendments	-	(28)	-	-
Other	(7)	(6)	-	-
Benefit obligation, end of year	$ 4,115	$ 3,543	$ 801	$ 786

There was no pension benefit obligation for non-vested employees at December 31, 2003 and 2002. The postretirement benefit obligation for non-vested employees was $317 million and $212 million at December 31, 2003 and 2002, respectively.

Pension plan assets at December 31, 2003 and 2002 comprise primarily equity securities and long-term corporate and United States government obligations. The Company's other postretirement benefit plans currently are not funded.

The change in pension plan assets for the years ended December 31, 2003 and 2002 was as follows:

(in millions)	**2003**	**2002**
Fair value of plan assets, beginning of year	$ 2,236	$ 2,444
Contributions	851	263
Benefits paid	(239)	(260)
Actual return on plan assets	461	(205)
Other	(7)	(6)
Fair value of plan assets, end of year	$ 3,302	$ 2,236

The plans' funded status, which was calculated as the difference between the projected benefit obligation and plan assets for pension benefits, and the difference between the accumulated benefit obligation and plan assets for other postretirement benefits was as follows:

	Pension Benefits		Postretirement Benefits	
(in millions)	**2003**	**2002**	**2003**	**2002**
Funded status	$ (813)	$ (1,306)	$ (801)	$ (786)
Unamortized prior service cost	(29)	(32)	(12)	(13)
Unrecognized net loss	2,180	2,150	116	129
Unamortized transition (asset)/obligation	(232)	(528)	158	175
Minimum liability adjustment	(309)	(973)	-	-
Accrued benefit cost	$ 797	$ (689)	$ (539)	$ (495)

The Company did not make any contributions between the measurement date and the end of the year in 2002. In addition, as of December 31, 2003 and 2002 an admitted intangible of $68 million and $81 million, respectively, was recorded related to the benefit plans.

The components of net periodic cost/(benefit) for all plans for the year ended December 31, were as follows:

	Pension Benefits		Postretirement Benefits	
(in millions)	**2003**	**2002**	**2003**	**2002**
Service cost	$ 139	$ 134	$ 21	$ 20
Interest cost	243	222	53	51
Expected return on plan assets	(208)	(286)	-	-
Amortization of unrecognized transition (asset)/obligation	(273)	(120)	18	17
Prior service cost recognized	(3)	4	(1)	(1)
Unrecognized prior period (gain) or loss amortization	113	41	3	1
Effect of settlement	18	23	-	-
Net periodic (benefit)/cost	$ 29	$ 18	$ 94	$ 88

A minimum pension liability adjustment was required when the actuarial present value of accumulated benefits exceeds plan assets and accrued pension liabilities. At December 31, 2003 and 2002, the minimum liability adjustment, less allowable intangible assets, net of tax benefit, was $241 million and $828 million, respectively, and was reported as an adjustment to surplus.

Weighted average assumptions used in the determination of the projected pension benefit obligation and plan assets at December 31, which were based on an October 31 measurement date, were:

	2003	**2002**
Discount rate	6.25%	7.00%
Rate of compensation increase	4.00% - 4.50%	4.00% - 4.50%
Expected long-term rate of return on plan assets	8.50%	9.50%

The weighted average health care trend rate used in measuring the accumulated postretirement benefit obligation was 11.9% for 2003, gradually declining to 5.5% in 2010, and remaining level thereafter.

A one percentage-point increase in assumed health care cost trend rates would increase the total of the service and interest cost component of net periodic benefit cost of other postretirement benefits, and the accumulated postretirement benefit obligation by $2 million and $12 million, respectively. A one percentage-point decrease in assumed health care cost trend rates would decrease the total of the service and interest cost components of net periodic benefit cost of other postretirement benefits and the accumulated postretirement benefit obligation by $4 million and $26 million, respectively.

Most domestic full-time, certain part-time employees and certain employee agents of the Company are eligible to participate in The Savings and Profit Sharing Fund of Allstate Employees ("Fund"). Employer contributions to the Fund are based on actual performance levels and matching obligations under the Fund. The cost allocated to the Company for this benefit, after reinsurance was $92 million and $99 million in 2003 and 2002, respectively.

13. Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations

1. The Company had 42,000 common shares authorized, issued and outstanding at December 31, 2003 and 2002. All shares had a par value of $100 per share.

2. The Company had no preferred stock outstanding at December 31, 2003 or 2002.

NOTES TO FINANCIAL STATEMENTS

3. The ability of the Company to pay dividends is dependent on business conditions, income cash requirements of the Company, receipt of dividends and other relevant factors. The payment of shareholder dividends by the Company without the prior approval of the state insurance regulator is limited to formula amounts based on net income and capital and surplus as specified under Illinois insurance law. The maximum amount of dividends the Company can distribute during 2004 without prior approval of the IL DOI is $2.71 billion. Dividends are not cumulative.

4. Within the limitations of Part 3 above, there were no restrictions placed on the portion of the Company's profits that may be paid as ordinary dividends to stockholders.

5. The unassigned funds, which were held for the benefit of the shareholder, were unrestricted except by requirement for regulatory approval as described in Part 3 above.

6. The Company was not a mutual or similarly organized company, therefore this disclosure requirement did not apply.

7. The Company did not hold any stock for special purposes at December 31, 2003 or 2002.

8. In September 1996, the Company completed the sale of its United States based reinsurance operations for policies written after 1984 to SCOR US Corporation ("SCOR"). The transaction consisted of the sale of certain non-insurance assets, liabilities and renewal rights and a reinsurance transaction for the insurance liabilities. The Company followed NAIC guidance for the accounting treatment of retroactive contracts and reported the gain on the sale as a "write-in" adjustment to special surplus from retroactive reinsurance account. The balance of the special surplus funds was $56.8 million at December 31, 2003 compared to $60.4 million at December 31, 2002. The change in the special surplus funds balance was due to a decrease of $3.5 million related to 2nd and 3rd quarter 2003 paid activity. No other significant changes in reserves occurred in 2003.

9. The cumulative amount of the components contributing to the increase or (reduction) of unassigned surplus at December 31 was as follows:

		2003	2002
a.	Unrealized gains and losses	$ 3.86 billion	$ 2.72 billion
b.	Nonadmitted asset values	(1.73) billion	(0.97) billion
c.	Separate Account business	-	-
d.	Asset valuation reserves	-	-
e.	Reinsurance in unauthorized companies	(.07) billion	(0.05) billion

10. The Company did not have any surplus debentures or similar obligations at December 31, 2003 or 2002.

11. The Company did not have any restatements due to quasi-reorganizations in 2003 or 2002.

12. The Company was not quasi-reorganized in 2003 or 2002.

14. Contingencies

A. Contingent Commitments

In addition to the item described in Note 10, Part E, the Company made the following contingent commitments and guarantees:

California Earthquake Authority ("CEA")

Exposure to certain potential losses from earthquakes in California is limited by the Company's participation in the CEA, which provides insurance for California earthquake losses.

The CEA is a privately-financed, publicly-managed state agency created to provide insurance coverage for earthquake damage. Insurers selling homeowners insurance in California are required to offer earthquake insurance to their customers either through their company or by participation in the CEA. The Company's homeowners policies continue to include coverages for losses caused by explosions, theft, glass breakage and fires following an earthquake, which are not underwritten by the CEA.

Should losses arising from an earthquake cause a deficit in the CEA, additional funding would be obtained through assessments on participating insurance companies, reinsurance proceeds and bond issuances funded by future policyholder assessments. Participating insurers are required to pay an assessment, currently estimated not to exceed $2.18 billion, if the capital of the CEA falls below $350 million. Participating insurers are required to pay a second assessment, currently estimated not to exceed $1.46 billion, if aggregate CEA earthquake losses exceed $5.55 billion and the capital of the CEA falls below $350 million. At December 31, 2003, the CEA's capital balance was approximately $1.48 billion. If the CEA assesses its member insurers for any amount, the amount of future assessments on members is reduced by the amounts previously assessed. To date, the only assessment made by the CEA has been its initial assessment paid by participating insurers beginning in 1996. The authority of the CEA to assess participating insurers for the first assessment expires when it has completed twelve years of operation, at year-end 2008. All future assessments on participating CEA insurers are based on their CEA insurance market share as of December 31 of the preceding year. As of December 31, 2003, the Company's share of the CEA was 23%. Allstate does not expect its CEA market share to materially change. At this level, the Company's maximum possible CEA assessment would be $837 million. However, Allstate does not expect its portion of these additional contingent assessments, if any, to exceed $502 million, its share of the first assessment. This is based on the low likelihood of an event exceeding the CEA claims paying capacity of $5.55 billion, and therefore the need for a second assessment is remote. Management believes Allstate's exposure to earthquake losses in California has been significantly reduced as a result of its participation in the CEA.

Other Hurricane Exposure

The Company has also mitigated its ultimate exposure to hurricanes through policy brokering. Examples include the Company's brokering of insurance coverage in certain areas of Florida and in Hawaii for hurricane insurance coverage to a non-affiliated company. However, the Company continues to own two subsidiaries, Allstate Floridian Insurance Company and Allstate Floridian Indemnity Company, that write homeowners business in the state of Florida.

Shared Markets

As a condition of maintaining its licenses to write personal property and casualty insurance in various states, the Company is required to participate in assigned risk plans, reinsurance facilities and joint underwriting associations that provide various types of insurance coverage to individuals or entities that otherwise are unable to purchase such coverage from private insurers. Underwriting results related to these arrangements, which tend to be adverse, were immaterial to the results of operations.

PMI Runoff Support Agreement

The Company has certain limited rights and obligations under a Capital Support Agreement ("Runoff Support Agreement") with PMI Mortgage Insurance Company ("PMI"), the primary operating subsidiary of The PMI Group, Inc. Under the Runoff Support Agreement, the Company would be required to pay claims on PMI policies written prior to October 28, 1994 if PMI fails certain financial covenants and fails to pay such claims. In the event any amounts are so paid, the Company would receive a commensurate amount of preferred stock or subordinated debt of The PMI Group, Inc. or PMI. The Runoff Support Agreement also

NOTES TO FINANCIAL STATEMENTS

restricts PMI's ability to write new business and pay dividends under certain circumstances. Management does not believe this agreement will have a material adverse effect on results of operations, liquidity or financial position of the Company.

Morgan Stanley Guarantee

The Company executed a guarantee to Morgan Stanley DW Inc ("Morgan Stanley), related to the obligations of Northbrook Holdings, LLC ("Northbrook"), a wholly owned subsidiary of the Company under a certain Note Purchase Agreement between Northbrook and Morgan Stanley and promissory notes issued by Northbrook pursuant thereto. The balance of the notes was $77 million and $104 million at December 31, 2003 and 2002, respectively.

Allstate Real Estate Trust

The Company has guaranteed debt issued by Allstate Real Estate Trust, an unconsolidated special purpose entity, from which it leases an office building. The lease contains a residual value guarantee for the properties covered by the lease. The maximum amount of potential future payments for the guarantee of the debt or the residual value guarantee or the combined debt and residual value guarantee was $66 million and $62 million at December 31, 2003 and 2002, respectively. The guarantee for the office building expires on December 28, 2006.

Suntrust Guarantee

The Company provides residual value guarantees on Company leased automobiles. If all outstanding leases were terminated effective December 31, 2003, the Company's maximum obligation pursuant to these guarantees, assuming the automobiles have no residual value, would be $19 million at December 31, 2003. The remaining term of each residual value guarantee is equal to the term of the underlying lease that range from less than one year to three years. Historically, the Company has not made any material payments pursuant to these guarantees.

B. Assessments

Under state insurance guaranty fund laws, insurers doing business in a state can be assessed, up to prescribed limits, for certain obligations of insolvent insurance companies to policyholders and claimants. The Company's policy is to accrue guaranty fund assessments based on notification of new and ongoing insolvencies received from individual state guaranty associations. At December 31, 2003 and 2002, the Company had accrued on a direct basis $72 million and $58 million for future guaranty fund assessments and $27 million and $29 million, respectively, for the related premium tax offset expected to be realized. The period over which assessments are expected to be paid varies. Premium tax offsets are realized on a straight-line basis over the period allowed by each individual state once the guaranty fund assessment has been paid.

The Company is subject to assessments from the Florida Hurricane Catastrophe Fund ("FHCF"). The FHCF has the authority to issue bonds to pay its obligations to participating insurers. The bonds issued by the FHCF would be funded by assessments on all property and casualty premiums written in the state, except accident and health insurance. These assessments would be limited to 4% of the Company's Florida direct premiums written in the first year of assessment, and up to a total of 6% of the Company's Florida direct premiums written in the second and subsequent years. The Company may recoup assessments immediately through increases in policyholder rates. A rate filing or any portion of a rate change attributable entirely to an assessment would be deemed approved when made with the Florida Office of Insurance Regulation ("FL OIR"), subject to the FL OIR's statutory authority to review the adequacy of any rate at any time.

C. Gain Contingencies

The Company has not recognized any gain contingencies subsequent to December 31, 2003 but prior to the issuance of the Company's Annual Statutory Statement.

D. All Other Contingencies

Regulations and legal proceedings

The Company is subject to changing social, economic and regulatory conditions. Recent state and federal regulatory initiatives and proceedings have included efforts to influence and restrict premium rates in a manner adverse to insurers, restrict the ability of insurers to cancel policies, limit insurers' ability to impose underwriting standards, remove barriers preventing banks from engaging in the securities and insurance businesses, change tax laws affecting the taxation of insurance companies and the tax treatment of insurance products or competing non-insurance products that may impact the relative desirability of various personal investment products and otherwise expand overall regulation the insurance industry. The ultimate effect of these initiatives on the Company's business, if any, is uncertain.

There are two active nationwide class action lawsuits against the Company regarding its specification of after-market (non-original equipment manufacturer) replacement parts in the repair of insured vehicles. One of these suits alleges that the specification of such parts constitutes breach of contract and fraud, and this suit mirrors to a large degree lawsuits filed against other carriers in the industry. The plaintiffs allege that after-market parts are not "of like kind and quality" as required by the insurance policy, and they are seeking actual and punitive damages. In the second lawsuit, plaintiffs allege that the Company and three co-defendants have violated federal antitrust laws by conspiring to manipulate the price of auto physical damage coverages in such a way that not all savings realized by the use of aftermarket parts are passed on to policyholders. The plaintiffs seek actual and treble damages. In November 2002, a nationwide class was certified in this case. The defendants filed a petition to appeal the certification, and the Eleventh Circuit Court of Appeals granted review of the certification. The Company has been vigorously defending both of these lawsuits, and their outcome is uncertain.

There are a number of statewide and nationwide class action lawsuits pending against the Company alleging that its failure to pay "inherent diminished value" to insureds under the collision, comprehensive, uninsured motorist property damage, or auto property damage liability provisions of auto policies constitutes breach of contract and fraud. Plaintiffs define "inherent diminished value" as the difference between the market value of the insured automobile before an accident and the market value after repair. Plaintiffs allege that they are entitled to the payment of inherent diminished value under the terms of the policy. To a large degree, these lawsuits mirror similar lawsuits filed against other carriers in the industry. These lawsuits are pending in various state and federal courts, and they are in various stages of development. A class has been certified in only one case, a multi-state class action. The Company has been vigorously defending these lawsuits and, since 1998, has been implementing policy language in more than 40 states reaffirming that its collision and comprehensive coverages do not include diminished value claims. The outcome of these disputes is currently uncertain.

There are a number of state and nationwide class action lawsuits pending in various state courts challenging the legal propriety of the Company's medical bill review processes on a number of grounds, including, among other things, the manner in which the Company determines reasonableness and necessity. One nationwide class action has been certified. These lawsuits, which to a large degree mirror similar lawsuits filed against other carriers in the industry, allege these processes result in a breach of the insurance policy as well as fraud. The Company denies those allegations and has been vigorously defending these lawsuits. The outcome of these disputes is currently uncertain.

A number of nationwide and statewide putative class actions are pending against the Company, which challenge the Company's use of certain automated database vendors in valuing total loss automobiles. To a large degree, these lawsuits mirror similar lawsuits filed against other carriers in the industry. Plaintiffs allege that flaws in these databases result in valuations to the detriment of insureds. The plaintiffs are seeking actual and punitive damages. The lawsuits are in various stages of development and the Company has been vigorously defending them, but the outcome of these disputes is currently uncertain.

One putative statewide and a number of putative nationwide class action lawsuits have been filed in various courts seeking actual and punitive damages from the Company and alleging that the Company violated the Fair Credit Reporting Act or state law by failing to provide

appropriate notices to applicants and/or policyholders when adverse action was taken as a result of information in a consumer report or by ordering consumer reports without a permissible purpose. These cases have been centralized in the federal court in Nashville, Tennessee. The Company is also defending a putative nationwide class action that alleges that the Company discriminates against non-Caucasian policyholders, through underwriting and rate-making practices including the use of credit by charging them higher premiums. The Company is also defending two putative statewide class actions challenging its use of credit under certain state insurance statutes. The Company denies these allegations and has been vigorously defending these lawsuits. The outcome of these disputes is currently uncertain.

The Company is defending various lawsuits involving worker classification issues. These lawsuits include a number of putative class actions and one certified class action challenging the overtime exemption claimed by the Company under the Fair Labor Standards Act or state wage and hour laws. These class actions mirror similar lawsuits filed recently against other carriers in the industry and other employers. A putative nationwide class action filed by former employee agents also includes a worker classification issue; these agents are challenging certain amendments to the Agents Pension Plan and are seeking to have exclusive agent independent contractors treated as employees for benefit purposes. The Company has been vigorously defending these and various other worker classification lawsuits. The outcome of these disputes is currently uncertain.

The Company is also defending certain matters relating to the Company's agency program reorganization announced in 1999. These matters include an investigation by the U.S. Department of Labor and a lawsuit filed in December 2001 by the U.S. Equal Employment Opportunity Commission ("EEOC") with respect to allegations of retaliation under the Age Discrimination in Employment Act, the Americans with Disabilities Act and Title VII of the Civil Rights Act of 1964. A putative nationwide class action has also been filed by former employee agents alleging various violations of ERISA, breach of contract and age discrimination. The Company has been vigorously defending these lawsuits and other matters related to its agency program reorganization. In addition, the Company is defending certain matters relating to the life agency program reorganization announced in 2000. These matters include an investigation by the EEOC with respect to allegations of age discrimination and retaliation. The Company is cooperating fully with the agency investigation and will continue to vigorously defend these and other claims related to the life agency program reorganization. The outcome of these disputes is currently uncertain.

The Company is defending various lawsuits and regulatory proceedings that allege that it engaged in business or sales practices inconsistent with state or federal law. The Company has been vigorously defending these matters, but their outcome is currently uncertain.

Various other legal and regulatory actions are currently pending that involve the Company and specific aspects of its conduct of business. Like other members of the insurance industry, the Company is the target of an increasing number of class action lawsuits and other types of litigation, some of which involve claims for substantial or indeterminate amounts. This litigation is based on a variety of issues including insurance and claim settlement practices. The outcome of these disputes is currently unpredictable. However, at this time, based on their present status, it is the opinion of management that the ultimate liability, if any, in one or more of these other actions in excess of amounts currently reserved is not expected to have a material effect on the results of operations, liquidity or financial position of the Company.

15. Leases

A. Lessee Operating Lease

1. The Company leased certain office facilities and computer equipment under various noncancelable operating lease agreements that expire through 2014. Total rental expense for all leases was $349 million and $433 million in 2003 and 2002, respectively.

2. At January 1, 2004, the minimum aggregate rental commitments were as follows:

(in millions)	
2004	$ 234
2005	179
2006	123
2007	93
2008	72
Thereafter	152
Total	$ 853

3. Sale-leaseback transactions

a. During 2002, the Company entered into a transaction whereby it sold computer equipment to Meridian Leasing Corporation. Simultaneously, the Company entered into a three year noncancelable agreement to lease the computer equipment back for $32 thousand a month. The lease agreement contains provisions for the Company to repurchase the computer equipment or extend the lease at the end of its term.

b. The transaction described above was not accounted for as a deposit.

16. Information about Financial Instruments With Off-Balance Sheet Risk and Concentration of Credit Risk

Derivative financial instruments

1. The table below summarizes the contract or notional amount of the Company's derivative financial instruments, including those with off-balance sheet risk, at December 31:

(in millions)	**2003**	**2002**
Interest rate contracts		
Futures contracts	$ 290	$ 455
Equity and index contracts		
Index futures contracts	90	55
Foreign currency contracts		
Foreign currency swap agreements	-	-
Total derivative financial instruments	$ 380	$ 510

The contract or notional amounts are not representative of the potential gain or loss on these agreements.
See Schedule DB of the Company's Annual Statement for additional detail.

2. The credit risk, market risk, and cash requirements of the Company's derivative instruments are discussed in Note 8, Part 1. The accounting policies for the Company's derivative instruments are disclosed in Note 1, Part C and Note 8, Part 3.

3. At December 31, 2003 none of the Company's outstanding derivative contracts, including those with off-balance sheet risk, had credit exposure.

NOTES TO FINANCIAL STATEMENTS

Credit exposure represents the Company's potential loss if all of the counterparties fail to perform under the contractual terms of the contracts and all collateral, if any, became worthless. This exposure is measured by the fair value of contracts with a positive fair value at the reporting date reduced by the effect, if any, of master netting agreements. See Schedule DB of the Company's Annual Statement for additional detail.

4. The Company's policy for requiring collateral was discussed in Note 8, Part 1.

   In general, the collateral that was pledged by the Company was in the custody of a counterparty or an exchange. However, the Company had access to this collateral at any time, subject to replacement

   The Company was required to pledge collateral for all exchange traded futures contracts that were entered. The amount of collateral required is based upon the type and fair value of the open futures contract position. In order to satisfy the collateral requirement, the Company pledged U.S. Treasury bonds.

   Collateral was required for all over the counter contracts, including foreign currency swap agreements and equity foreign currency forward agreements. No collateral has been pledged as there were no over the counter contracts outstanding.

   There are no collateral requirements for written covered call options. However, the Company was restricted on selling shares of the equity owned for which the option was written.

Off-balance sheet financial instruments

1. The table below presents a summary of the contractual amounts of off-balance sheet financial instruments, other than derivatives at December 31:

(in millions)	2003	2002
Commitments to invest	$ 382	$ 136
Commitments to extend mortgage loans	14	-
Private placement commitments	6	-

   The contractual amounts represented the amount at risk if the contract was fully drawn upon, the counterparty defaulted and the value of any underlying security became worthless.

2. Commitments to invest generally represent commitments to acquire financial interests or instruments. The Company enters into these agreements to allow for additional participation in certain limited partnership investments. Commitments to invest are generally callable at the general partner's request.

   Commitments to extend mortgage loans are agreements to lend to a borrower provided there is no violation of any condition established in the contract. The Company enters into these agreements to commit to future loan fundings at a predetermined interest rate. Commitments generally have fixed expiration dates or other termination clauses.

   Private placement commitments represent conditional commitments to purchase a private placement debt and equity securities at a specified future date. The Company regularly enters into these agreements in the normal course of business.

3. For commitments to invest, commitments to extend mortgage loans, and commitments to purchase private placements, the amounts presented in part 1 above represent the amount at risk if the contract was fully drawn upon, the counterparty defaults and the value of any underlying security becomes worthless.

4. The Company does not require collateral or other security to support off-balance sheet financial instruments with credit risk.

17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

A. The Company did not report any transfers of receivables as sales in 2003 or 2002.

B.

1. During 2003 and 2002, the only transfers of financial assets, as defined by SSAP No. 18, Transfers and Servicing of Financial Assets and Extinguishment of Liabilities, the Company entered into were securities lending agreements. The Company was able to estimate the fair value of assets obtained and liabilities incurred in these agreements.

2. The Company entered into securities lending agreements using U.S. Treasury bonds, corporate bonds and domestic and foreign equities in 2003 and 2002. Securities lent were either specifically identified by the lending bank or segregated into a separate custody account. The amounts on loan were $1.21 billion and $1.39 billion at December 31, 2003 and 2002, respectively. The Company obtains collateral in an amount equal to 102% and 105% of the fair value of the loaned domestic and foreign securities, respectively. All collateral is maintained in a separate custody account. The Company monitors the market value of securities loaned on a daily basis with additional collateral obtained as necessary. Substantially all of the Company's securities loaned were with large brokerage firms.

3. The Company did not enter into any servicing assets or liability agreements in 2003 or 2002.

C. In the course of managing the Company's investment portfolio, securities are sold and reacquired within 30 days of the sale date. This practice is referred to as wash sales. The details, by NAIC designation 3 or below of bonds and preferred stock sold during 2003 and 2002 and reacquired within 30 days of the sale date were:

	2003			
(in millions)	Number of Transactions	Book Value of Securities Sold	Cost of Securities Repurchased	Gain/(Loss)

NAIC 3	8	$ 5	$ 6	$ (1)
NAIC 4	14	11	24	(13)

18. Gain or Loss to the Reporting Entity from Uninsured Plans and the Uninsured Portion of Partially Insured Plans

The Company did not act as a third party administrator for any uninsured plans.

19. Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

There were no direct premiums written through managing general agents/third party administrators which were equal to or greater than 5% of the Company's surplus in 2003 or 2002.

20. September 11 Events

Catastrophe losses in 2003 and 2002 included pre-tax losses, net of reinsurance, of $.3 million and $2 million, respectively due to the September 11, 2001 attack on the World Trade Center in New York City, the Pentagon in Washington D.C., and the plane crash in Pennsylvania. Management does not expect any future contingencies or unpaid claims or losses related to these events to have a material impact on the Company's financial statements.

21 Other Items

A. Extraordinary Items

The Company did not have any extraordinary items at December 31, 2003 or 2002.

B. Troubled Debt Restructuring: Debtors

The Company did not have any troubled debt restructurings at December 31, 2003 or 2002.

C. Other Disclosures

Effective January 1, 2002 the Company adopted Statement of SSAP No. 82, Accounting for the Costs of Computer Software Developed or Obtained for Internal Use and Web Site Development Costs. This statement required internal and external costs incurred to develop internal-use computer software and web sites during the application development stage and infrastructure stage be capitalized and costs incurred during the preliminary project stage and post-implementation/operation stage be expensed as incurred. Amortization guidelines outlined in Codification are applicable for all operating and non-operating software. The adoption of SSAP No. 82 resulted in an increase of $173 million to both assets and nonadmitted assets, therefore there was no impact to surplus.

Internally developed software consisted of the following at December 31, 2003:

(in millions)	
Adoption of SSAP 82:	
Costs capitalized	$ 213
Accumulated depreciation	(41)
Net impact of adoption	172
Capitalized cost 2002	26
Depreciation in 2002	(45)
Balance, 12/31/02	153
Capitalized cost 2003	9
Depreciation in 2003	(43)
Balance, 12/31/03	$ 119

Included with the Annual Statement is a schedule of net unpaid loss and loss expense reserves, as reported in Schedule P - Part 1, columns 13 through 24, which presents net unpaid loss and loss expense reserves for accident years 1993, 1992, 1991, 1990, 1989, and 1988 and prior, for each line of business reported ($'s in thousands).

D. Premium Balances Reasonably Possible to be Uncollectible

Premiums receivable are recorded net of the allowance for uncollectible amounts less than 90 days old. The allowance is determined based on the age of the receivable and prior collection experience. The Company routinely assesses the collectibility of its premium receivables. Premium receivables older than 90 days are nonadmitted. The allowance balance for admitted premium installment receivables, after reinsurance, was $12 million and $16 million at December 31, 2003 and 2002, respectively.

E. Noncash Transactions

The Company reported the following noncash investing activities within its Statements of Cash Flows for the years ended December 31:

(in millions)	**2003**	**2002**
Proceeds from bonds sold, matured or repaid	$ 260	$ 281
Proceeds from equities sold, matured or repaid	19	87
Cost of bonds acquired	257	269
Cost of equities acquired	21	93

The Company did not have any noncash financing activities within its Statements of Cash Flow for the years ended December 31, 2003 or 2002.

F. Business Interruption Insurance Recoveries

The Company did not own any business interruption insurance policies in 2003 or 2002, and therefore, has received no recoveries.

22. Events Subsequent

No events have occurred from December 31, 2003 to the filing of this Annual Statement that would make the financial statements materially inaccurate or misleading.

NOTES TO FINANCIAL STATEMENTS

23. Reinsurance

A. Unsecured Reinsurance Recoverables

The Company had unsecured reinsurance recoverables of $555 million and $586 million at December 31, 2003 and 2002, respectively, with the Michigan Catastrophic Claim Association (NAIC Group Code 00000, FEIN AA-9991159). The Company had no other unsecured reinsurance recoverables that exceeded 3% of the Company's policyholder surplus at December 31, 2003 or 2002.

B. Reinsurance Recoverable in Dispute

The Company had no items in dispute that either individually exceeded 5% of the Company's policyholders surplus, or in the aggregate exceeded 10% of the Company's policyholders surplus at December 31, 2003 or 2002.

C. Reinsurance Assumed and Ceded

1. The maximum amount of return commission which would have been due to reinsurers if they or the Company had canceled all of the Company's reinsurance or if the Company or a receiver had canceled all the Company's insurance assumed as of December 31 with the return of unearned premium reserve was as follows:

(in millions)	2003					
	Assumed Reinsurance Premium Reserve	Assumed Reinsurance Commission Equity	Ceded Reinsurance Premium Reserve	Ceded Reinsurance Commission Equity	Net Premium Reserve	Net Commission Equity
(i) Affiliates	$ 2,444	$ 286	$ -	$ -	$ 2,444	$ 286
(ii) All other	810	137	(91)	14	719	123
(iii) TOTAL	$ 3,254	$ 423	$ (91)	$ 14	$ 3,163	$ 409

(iv) Direct Unearned Premium Reserve: $4.78 billion

(in millions)	2002					
	Assumed Reinsurance Premium Reserve	Assumed Reinsurance Commission Equity	Ceded Reinsurance Premium Reserve	Ceded Reinsurance Commission Equity	Net Premium Reserve	Net Commission Equity
(i) Affiliates	$ 2,082	$ 220	$ -	$ -	$ 2,082	$ 220
(ii) All other	806	122	(87)	(12)	719	110
(iii) TOTAL	$ 2,888	$ 342	$ (87)	$ (12)	$ 2,801	$ 330

(iv) Direct Unearned Premium Reserve: $4.70 billion

2. The Company had no additional or return commission, predicated on loss experience or any other form of profit sharing arrangement as a result of existing contractual arrangements at December 31, 2003.

3. The Company had no protected cells at December 31, 2003.

D. Uncollectible Reinsurance

The Company wrote off reinsurance balances, for incurred losses of $10.2 million and $168 thousand in 2003 and 2002, respectively. In 2003, $8.1 million, $2.1 million and $10 thousand of the write off was attributable to reinsurance with Fremont Indemnity Company, Home Insurance Company and U.S. International Re., respectively. In 2002, $161 thousand and $7 thousand of the write off was attributable to reinsurance with Daiichi Mutual Fire and Marine Insurance Company and Folksam International Insurance, respectively.

E. Commutation of Ceded Reinsurance

In 2003, the Company reported an adjustment to incurred losses of $2.1 million as a result of the commutation of reinsurance with New England Reinsurance Corporation ($2.1 million) and Finnish Industrial and General Insurance Company Ltd. ($1 thousand).

In 2002, the Company reported an adjustment to incurred losses of $926 thousand as a result of the commutation of reinsurance with Taisei Fire and Marine Insurance Company Limited ($748 thousand), First Capital/Public Insurance Company ($176 thousand) and Central Reinsurance Corporation ($2 thousand).

NOTES TO FINANCIAL STATEMENTS

F. Retroactive Reinsurance

1. The Company entered into an Assumption and Indemnity Retrocession Agreement with SCOR.

(in millions)	2003	2002
a. Reserves transferred:		
1. Initial reserves	$ 411	$ 411
2. Adjustments – prior years	(351)	(354)

2. Adjustments – prior years	(3)	(6)
3. Adjustments – current year	(3)	3
4. Current year restricted surplus	$ 57	$ 60
5. Cumulative total transferred to unassigned funds	$ -	$ -

e. SCOR (NAIC number 30058) was the only cedant involved in all the transactions included in the summary totals above. The total ceded reserves transferred were $57 and $60 million for the year ending December 31, 2003 and 2002, respectively.

There were no reinsurers the Company assumed retroactive reinsurance from in 2003 or 2002.

f. There were no amounts of total paid loss/LAE amounts recoverable at December 31, 2003 or 2002.

G. Reinsurance Accounted for as a Deposit

On October 1, 1999, the Company completed the acquisition of the personal lines business from CNA Financial Corporation (“CNA”). The transaction included, among other things, an indemnity reinsurance agreement and a reserve agreement. The reserve agreement guaranteed the adequacy, in all material respects, of the loss reserves transferred by CNA under the indemnity reinsurance agreement. The Company used deposit accounting to account for the indemnity reinsurance agreement, as the portion of the indemnity reinsurance agreement governing the transfer of the loss reserves did not, despite its form, transfer both components of insurance risk. In accordance with the requirements of deposit accounting, an initial asset deposit equal to the amount of $1.03 billion was recorded. The inception to date payments for this agreement totaled $1.01 billion and $946 million at December 31, 2003 and 2002, respectively. In 2003, an additional $50 million was recognized as being due to the Company under the reinsurance agreement. The balance of the reserves on deposit was $68 million and $89 million at December 31, 2003 and 2002, respectively.

24. Retrospectively Rated Contracts and Contracts Subject to Redetermination

A. The Company estimated accrued retrospective premium adjustments through the review of each retrospectively rated risk, comparing the known loss development, including IBNR, with that anticipated in the policy contract to arrive at the best estimate of return or additional retrospective premium.

B. The Company recorded accrued retrospective premium as an adjustment to earned premiums.

C. See Schedule P – Part 7A for the amount of 2003 net premiums written that were subject to retrospective rating features. At December 31, 2002, $152,000 of net premiums written by the Company were subject to retrospective rating features.

In both 2003 and 2002, the net premiums written by the Company subject to retrospective rating features represented less than one half of one percent of the total net premiums written by the Company.

D. The Company nonadmitted ten percent of the amount of accrued retrospective premiums not offset by retrospective return premiums, other liabilities to the same party (other than loss and loss adjustment expense reserves), or collateral as permitted by SSAP No. 66, Retrospectively Rated Contracts, as follows:

(in millions)	2003	2002
1. Total accrued retro premiums	$ 7	$ 5
2. Unsecured amount	5	2
3. Less: Non-admitted amount (10%)	-	-
4. Less: Non-admitted for any person for whom agents’ balances or uncollected premiums are nonadmitted	1	1
5. Admitted amount (1) – (3) – (4)	$ 6	$ 4

25. Change in Incurred Losses and Loss Adjustment Expenses

NOTES TO FINANCIAL STATEMENTS

Activity in the reserve for losses and loss adjustment expenses was summarized as follows at December 31:

(in millions)	2003	2002
Balance at January 1	$ 13,318	$ 13,267
Incurred losses and loss adjustment expense related to:		
Current year	15,494	15,681
Prior years	473	700
Total incurred	15,967	16,381
Losses and loss adjustment expenses paid related to:		
Current year	9,554	9,871
Prior years	5,741	6,459
Total paid	15,295	16,330
Balance at December 31	$ 13,990	$ 13,318

Incurred losses and loss adjustment expenses attributable to insured events of prior years were $473 million and $700 million as a result of the reestimation of unpaid losses and loss adjustment expenses for the years ending December 31, 2003 and 2002, respectively. The increase in 2003 was primarily due to upward development for asbestos exposures offsetting the downward development to auto liability losses. The increase in 2002 was primarily due to upward development of homeowners losses resulting from claim severity inflation and late reported loss development that was greater than anticipated in previous reserve estimates, including losses related to mold claims in Texas, and the reestimation of liabilities for asbestos, environmental and other mass tort exposures. These increases were generally the result of ongoing analyses of recent loss development trends. Initial estimates were revised, as additional information became known regarding individual claims.

Anticipated salvage and subrogation of $604 million and $646 million was included as a reduction of loss reserves at December 31, 2003 and 2002, respectively.

26. Intercompany Pooling Arrangements

The Company was not a member of a pooling arrangement in 2003 or 2002.

27. Structured Settlements

A. To settle certain claims, the Company purchased annuities from various life insurers where the claimant was the payee but for which the Company was contingently liable in the event the issuer of the annuity was unable to perform. The aggregate amount due from life insurers at December 31, 2003 and 2002 was $370 million and $358 million respectively.

B. The total value of all annuities due from one life insurer which equaled or exceeded 1% of the Company's policyholder surplus was as follows at December 31:

(in millions)	2003		2002	
Life Insurance Company and Location	Licensed in Company's State of Domicile (yes/no)	Statement Value (i.e. present value) of Annuities	Licensed in Company's State of Domicile (yes/no)	Statement Value (i.e. present value) of Annuities
Allstate Life Insurance Company, Northbrook Illinois	Yes	$ 257	Yes	$ 256

28. Health Care Receivables

The Company did not have any health care receivables, as defined by SSAP 84, Certain Health Care Receivables and Receivables Under Government Insured Plans, at December 31, 2003 or 2002.

29. Participating Policies

The Company did not have any participating policies, as defined by SSAP No. 51, Life Contracts or SSAP No. 54, Individual Group Accident and Health Contracts at December 31, 2003 or 2002.

30. Premium Deficiency Reserves

The Company did not record any premium deficiency reserves at December 31, 2003 or 2002. Anticipated investment income was considered as a factor in the premium deficiency calculation.

31. High Deductibles

At December 31, 2003 and 2002, the amount of reserve credit recorded for high deductibles on unpaid claims was $398 thousand and $312 thousand, respectively. The amount billed and recoverable on paid claims was $49 thousand and $176 thousand at December 31, 2003 and 2002, respectively.

32. Discounting of Liabilities for Unpaid Losses or Unpaid Loss Adjustment Expense

The Company did not discount the liabilities for unpaid losses or unpaid loss adjustment expenses in 2003 or 2002.

33. Asbestos/Environmental Reserves

A. Reserves for environmental and asbestos claims were an accumulation of the estimated amounts necessary to settle all outstanding claims, including claims that have been incurred but not reported as of the reporting date. These reserve estimates were based on known facts and interpretations of circumstances, internal factors including the Company's experience with similar cases, historical trends involving claim payment patterns, loss payments and pending levels of unpaid claims. In addition, the reserve estimates were also influenced by external factors including court decisions, economic conditions and public attitudes.

The Company's exposure to asbestos and environmental claims arises principally from assumed reinsurance coverage written during the 1960s through the mid-1980's, including reinsurance on primary insurance written on large United States companies, and from direct excess insurance written from 1972 through 1982, including substantial excess general liability coverages on Fortune 500 companies. Additional exposure stems from direct primary commercial insurance written during the 1960s through the mid-1980s.

In 1986, the general liability policy form used by the Company and others in the property-liability industry was amended to introduce an "absolute pollution exclusion," which excluded coverage for environmental damage claims and added an asbestos exclusion. Most general liability policies issued prior to 1987 contain annual aggregate limits for product liability coverage. General liability

NOTES TO FINANCIAL STATEMENTS

policies issued in 1987 and thereafter contain annual aggregate limits for all coverages. The Company's experience to date has been that these policy form changes have limited its exposure to environmental and asbestos claim risks assumed.

The Company's exposure to liability for asbestos and environmental losses manifests differently for assumed reinsurance, direct excess insurance and direct primary commercial insurance. The direct insurance coverage the Company provided for these exposures was substantially "excess" in nature.

Excess insurance, and reinsurance, involve coverage written by the Company for specific layers of protection above retentions and other insurance plans. The nature of excess coverage and reinsurance provided to other insurers limits our exposure to loss to specific layers of protection in excess of policyholder retention or primary insurance plans. In addition, the Company has purchased significant reinsurance on its excess business, further limiting its exposure.

The Company's assumed reinsurance business involved writing generally small participations in other insurers' reinsurance programs. The reinsured losses in which the Company participates may be a proportion of all eligible losses or eligible losses in excess of defined retentions.

Liability for actual and potential asbestos losses has caused several major asbestos manufacturers to file for bankruptcy protection. The Company has pending claims related to excess policies issued to five large asbestos manufacturers that have filed for bankruptcy protection, and have not resolved payment plans within the bankruptcies. Reserves related to liability for these companies, whose claims are still in the process of adjudication, are appropriately established based on claims that have occurred and other related information. The process of adjudicating claims in the asbestos bankruptcies is lengthy and involves, among other factors, filing notices of claim by all current claimants, estimating the number and cost of resolving pre-petition and post-petition claims, negotiations among the various creditor groups and the debtors and, if necessary, evidentiary hearings by the bankruptcy court. The Company will continue to monitor the relevant bankruptcies.

The Company's exposure, if any, to bankruptcies of major asbestos manufacturers, including any currently in bankruptcy, would also arise if assumed reinsurance was written for an insurer providing insurance protection to a major asbestos manufacturer, and then only in proportion to the Company's participation share. The Company assesses its potential liability to each of its reinsurance programs and adjusts reserves accordingly based on its knowledge of the losses of each reinsured exposure.

Establishing net loss reserves for environmental and asbestos claims is subject to uncertainties that are greater than those presented by other types of claims. Among the complications are lack of historical data, long reporting delays, uncertainty as to the number and identity of insureds with potential exposure, unresolved legal issues regarding policy coverage, unresolved legal issues regarding the determination, availability and timing of exhaustion of policy limits, evolving and expanding theories of liability, availability and collectibility of recoveries from reinsurance, retrospectively determined premiums and other contractual agreements and estimating the extent and timing of any such contractual liability and other uncertainties. There are complex legal issues concerning the interpretation of various insurance policy provisions and whether those losses are covered, or were ever intended to be covered, and could be recoverable through retrospectively determined premium, reinsurance or other contractual agreements. Courts have reached different and sometimes inconsistent conclusions as to when losses are deemed to have occurred and which policies provide coverage; what types of losses are covered; whether there is an insurer obligation to defend; how policy limits are determined; how policy exclusions and conditions are applied and interpreted; and whether clean-up costs represent insured property damage. Management believes these issues are not likely to be resolved in the near future and the ultimate cost may vary materially from the amounts currently recorded resulting in an increase in loss reserves.

The table below summarizes the Company's reserve and claim activity for asbestos claims before (gross) and after (net) the effects of reinsurance for each of the five most recent calendar years.

GENERAL INTERROGATORIES

PART 2 - PROPERTY & CASUALTY INTERROGATORIES (continued)

6.1 What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?

The company does not write this line of business

6.2 Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process.

The company places heavy emphasis on the use of catastrophic (CAT) simulation modeling provided by leading CAT modeling vendors to estimate probable maximum loss (PML). An advanced methodology is employed to generate a large sample of hypothetical but possible events, apply model damage expectations against the company's book of business, and evaluate the existing policy conditions of the policies in force to determine an estimate of total damage

6.3 What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?

This company's commercial property business, as applicable, participates in the Florida Hurricane Catastrophe Fund

6.4 Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence? Yes [ ] No [X]

6.5 If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge it s exposure to unreinsured catastrophic loss.

A strategy to limit the exposure of loss in certain catastrophic prone regions has been initiated. Subject to insurance laws, regulations, and competitive pressures, our actions include restricting policy coverage, pursuing appropriate rate relief, limiting new business production and reducing the policies in force in catastrophic areas. Specifically, the company is participating in the California Earthquake Authority (CEA), a privately financed, publicly managed state agency to provide earthquake protection

7.1 Has this reporting entity reinsured any risk with any other entity under a quota share reinsurance contract which includes a provision which would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss ratio cap, an aggregate limit or any similar provision)? Yes [ ] No [X]

7.2 If yes, indicate the number of reinsurance contracts containing such provisions:

8.1 Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on the risk, or portion thereof, reinsured? Yes [ ] No [X]

8.2 If yes, give full information

9. If the reporting entity has assumed risks from another entity, there should be charged on account of such reinsurances a reserve equal to that which the original entity would have been required to charge had it retained the risks. Has this been done? Yes [X] No [ ] NA [ ]

10.1 Has this reporting entity guaranteed policies issued by any other entity and now in force? Yes [ ] No [X]

10.2 If yes, give full information

11.1 If the reporting entity recorded accrued retrospective premiums on insurance contracts on Line 12.3 of the assets schedule, Page 2, state the amount of corresponding liabilities recorded for:

11.11	Unpaid losses	$ 12,488,768
11.12	Unpaid underwriting expenses (including loss adjustment expenses)	$ 1,567,579

11.2 Of the amount on Line 12.3 of the assets schedule, Page 2, state the amount which is secured by letters of credit, collateral and other funds $ 1,766,796

11.3 If the reporting entity underwrites commercial insurance risks, such as workers' compensation are premium or promissory notes accepted from its insureds covering unpaid premiums and/or unpaid losses? Yes [ ] No [X] NA [ ]

11.4 If yes, provide the range of interest rates charged under such notes during the period covered by this statement:

11.41	From	%
11.42	To	%

11.5 Are letters of credit or collateral and other funds received from insureds being utilized by the reporting entity to secure premium or promissory notes taken by the reporting entity, or to secure any of the reporting entity's reported direct unpaid loss reserves, including unpaid losses under loss deductible features of commercial policies? Yes [X] No [ ]

11.6 If yes, state the amount thereof at December 31 of the current year:

11.61	Letters of Credit	$ 7,590,969
11.62	Collateral and other funds	$

12.1 What amount of installment notes is owned and now held by the reporting entity? $

12.2 Have any of these notes been hypothecated, sold or used in any manner as security for money loaned within the past year? Yes [ ] No [X]

12.3 If yes, what amount? $

13.1 Largest net aggregate amount insured in any one risk (excluding workers' compensation): $ 9,990,000

13.2 Does any reinsurance contract considered in the calculation of this amount include an aggregate limit of recovery without also including a reinstatement provision? Yes [X] No [ ]

13.3 State the number of reinsurance contracts (excluding individual facultative risk certificates, but including facultative programs, automatic facilities or facultative obligatory contracts) considered in the calculation of this amount. 1

SCHEDULE P INTERROGATORIES

1. What is the extended loss and expense reserve - direct and assumed - for the following classes? An example of an extended loss and expense reserve is the actuarial reserve for the free-tail coverage arising upon death, disability or retirement in most medical malpractice policies. Such a liability is to be reported here even if it was not reported elsewhere in Schedule P, but otherwise reported as a liability item on Page 3. Show the full reserve amount, not just the change during the current year.

Years in which premiums were earned and losses were incurred	1 Medical Malpractice	2 Other Liability	3 Products Liability
1.01 Prior			
1.02 1994			
1.03 1995			
1.04 1996			
1.05 1997			
1.06 1998			
1.07 1999			
1.08 2000			
1.09 2001			
1.10 2002			
1.11 2003			
1.12 Totals			

2. The definition of allocated loss adjustment expenses (ALAE) and, therefore, unallocated loss adjustment expenses (ULAE) was changed effective January 1, 1998. This change in definition applies to both paid and unpaid expenses. Are these expenses (now reported as "Defense and Cost Containment" and "Adjusting and Other") reported in compliance with these definitions in this statement? Yes [X] No [ ]

3. The Adjusting and Other expense payments and reserves should be allocated to the years in which the losses were incurred based on the number of claims reported, closed and outstanding in those years. When allocating Adjusting and Other expense between companies in a group or a pool, the Adjusting and Other expense should be allocated in the same percentage used for the loss amounts and the claim counts. For reinsurers, Adjusting and Other expense assumed should be reported according to the reinsurance contract. For Adjusting and Other expense incurred by reinsurers, or in those situations where suitable claim count information is not available, Adjusting and Other expense should be allocated by a reasonable method determined by the company and described in Interrogatory 7, below. Are they so reported in this Statement? Answer: Yes [X] No [ ]

4. Do any lines in Schedule P include reserves that are reported gross of any discount to present value of future payments, and that are reported net of such discounts on Page 10? Yes [ ] No [X]

   If Yes, proper reporting must be made in the Notes to Financial Statements, as specified in the Instructions. Also, the discounts must be reported in Schedule P - Part 1, Columns 32 and 33.

   Schedule P must be completed gross of non-tabular discounting. Work papers relating to discount calculations must be available for examination upon request.

   Discounting is allowed only if expressly permitted by the state insurance department to which this Annual Statement is being filed.

5. What were the net premiums in force at the end of the year for:
   (in thousands of dollars)

   5.1 Fidelity 387

   5.2 Surety 1,423

6. Claim count information is reported ..... Per Claim

7.1 The information provided in Schedule P will be used by many persons to estimate the adequacy of the current loss and expense reserves, among other things. Are there any especially significant events, coverage, retention or accounting changes which have occurred which must be considered when making such analyses? Yes [X] No [ ]

7.2 An extended statement may be attached.

In 1995, the company implemented Loss Control initiatives intended to favorably influence the growth of losses related to settling auto liability losses. These initiatives include improvements to the claim settlement process, medical management programs, the use of special investigative units to reduce fraud and, litigation management and defense strategies. Management believes that the implementation of these initiatives has resulted in an increase in the time it takes to settle claims, a corresponding increase in the number of outstanding claims and a decrease in the growth rate of loss payments.

Since 1997, the company has improved its claim settlement rate with corresponding reductions in the number of outstanding claims, and sequentially increasing the rate of loss payments. Persons using Schedule P to estimate the adequacy of Auto Liability loss and loss expense reserves should consider the effect that sustained disposition rate improvement may have on their estimates, taking into account the distortions that changing claim disposition rates cause to development patterns inherent in the historical data and projections that rely on that data.
