NOTES TO FINANCIAL STATEMENTS

There have been no material changes to the following December 31, 2008 Annual Statement notes: 1(B, C), 2-4, 5(A-C, D1, D2, E-G), 6A, 7, 8, 9(A, B, E, F), 10(F-L), 11, 12, 13(1-9, 11-13), 14(B-D), 15, 16(2), 17(A, B), 18, 19, 20(A-B, D-G, H2, H4, I), 21, 22(A, B, C2, C3, D-G), 23(A, B, D) and 25-34.

1. Summary of Significant Accounting Policies

- A. Allstate Insurance Company (“Company”) prepares its financial statements in conformity with accounting practices prescribed or permitted by the Illinois Department of Insurance (“IL DOI”). Prescribed statutory accounting practices include a variety of publications of the National Association of Insurance Commissioners (“NAIC”), as well as state laws, regulations and general administrative rules. Permitted statutory accounting practices encompass all accounting practices not so prescribed.

The state of Illinois requires its domestic insurance companies to prepare financial statements in conformity with the NAIC Accounting Practices and Procedures Manual (“APPM”), which includes all Statements of Statutory Accounting Principles (“SSAPs”), subject to any deviations prescribed or permitted by the IL DOI.

At December 31, 2008, the Company, with IL DOI approval, modified the accounting for deferred income taxes allowed in SSAP No. 10, *Income Taxes* (“SSAP No. 10”). The permitted practice increased the amount of deferred tax assets that can be included in statutory surplus to the lesser of deferred taxes that can be realized within three years or 15% of adjusted statutory surplus. SSAP No. 10 provides for a one year realization limitation and a surplus limitation of 10%. Admitted deferred tax assets totaled \$1.34 billion after the permitted practice, or 61.9% of total potential net deferred tax assets before non-admission limitations, at June 30, 2009. At December 31, 2008, admitted deferred tax assets totaled \$1.34 billion after the permitted practice, or 62.7% of total potential net deferred tax assets before non-admission limitations.

This permitted practice is deemed a change in accounting principle per SSAP No. 3, *Accounting Changes and Corrections of Errors*, and accordingly, the cumulative effect of this change is reported as an adjustment to unassigned funds (surplus) in the period of the change in accounting principle. This permitted practice had no impact on net income. If the Company had applied SSAP No. 10 guidance without regard to the permitted practice, statutory surplus would have been \$261 million and \$225 million lower at June 30, 2009 and December 31, 2008, respectively.

A reconciliation of the Company’s surplus between the APPM and the permitted practice approved by the IL DOI is shown below. This permitted practice had no impact on net income. If the Company had not obtained approval for this permitted practice, a risk-based capital (“RBC”) regulatory event would not have been triggered.

(in millions)	June 30, 2009	December 31, 2008
Statutory surplus - Illinois basis	\$ 13,775	\$ 13,021
Deferred tax assets permitted practice impact	(261)	(225)
Statutory surplus - APPM	\$ 13,514	\$ 12,796

5. Investments

D. Loan-backed Securities

3. At June 30, 2009 and December 31, 2008, the Company held loan-backed securities with statement values of \$81 million and \$141 million, respectively, where the valuation basis was changed from the retrospective to the prospective methodology due to the calculation of negative yields. For these specific securities, the statement value is equal to the undiscounted cash flows. The Company realized losses of \$7 million and \$35 million related to the write-down of these securities for the six months ended June 30, 2009 and the year ended December 31, 2008, respectively. The Company did not hold loan-backed securities where the valuation basis was changed from the retrospective to the prospective methodology due to the calculation of negative yields at June 30, 2008, and, as a result did not realize any related losses for that period.

6. Joint Ventures, Partnerships and Limited Liability Companies

- B. The Company recognized impairment write-downs totaling \$104 million on 29 partnership investments for the six months ended June 30, 2009. Impairment write-downs of \$95 million were recognized on 23 partnerships deemed to be other-than-temporarily impaired due to the length of time and extent to which fair values of their underlying investments were depressed. Impairment write-downs of \$6 million were recognized on five partnerships that were nearing liquidation and the Company believes it to be unlikely those partnerships will recover their carrying value. The fair value of these partnerships was determined by assessing the market value of the investments that the partnerships were holding. There was also an impairment write-down of \$3 million recognized on a partnership which experienced a large decrease in its value due to exposure to market conditions. The fair value of this partnership was determined by performing an updated cash flow analysis.

The Company recognized impairment write-downs totaling \$39 million on 11 partnership investments for the year ended December 31, 2008. An impairment write-down of \$12 million was recognized on an underperforming partnership that acquired investments in medium and small sized companies. In addition, impairment write-downs of \$12 million were recognized on five partnerships deemed to be other-than-temporarily impaired due to the length of time and extent to which fair values of their underlying investments were depressed. Impairment write-downs of \$9 million were recognized on four partnerships that were nearing liquidation and the Company believes it to be unlikely those partnerships will recover their carrying value. The fair value of these thirteen partnerships was determined by assessing the market value of the investments that the partnerships were holding. There was also an impairment write-down of \$6 million recognized on a partnership which experienced a large decrease in its intangible assets. The fair value of this partnership was determined by performing an updated cash flow analysis.

All impairment write-downs were identified during the Company’s normal ongoing portfolio monitoring process.

9. Income Taxes

- C. The provision for incurred income taxes for the six months ended June 30 was:

(in millions)	2009	2008
Federal income tax - excluding net capital gains (losses)	\$ 123	\$ 422
Federal income tax on net capital gains (losses)	22	(1)
Federal income taxes incurred	\$ 145	\$ 421

The provision for income tax incurred did not include foreign income taxes for the six months ended June 30, 2009 or 2008.

The tax effects of temporary differences that gave rise to significant portions of deferred tax assets and deferred tax liabilities did not have a material change from December 31, 2008 to June 30, 2009.

There were no material changes in the net deferred tax between the periods of June 30, 2009 and December 31, 2008 and June 30, 2008 and December 31, 2007. These analyses were exclusive of nonadmitted assets, as the change in nonadmitted assets is reported separately from the change in net deferred income tax in the surplus section of the Quarterly Statements.

NOTES TO FINANCIAL STATEMENTS

D. The provision for federal income taxes incurred was different from that which would have been obtained by applying the statutory federal income tax rate to income before taxes. The items causing this difference were as follows at June 30:

(in millions)	2009	Effective Tax Rate
Provision computed at statutory rate	\$ 224	35.0 %
Change in net deferred income taxes	29	4.5
Tax exempt interest deduction	(118)	(18.3)
Other	10	1.5
Total statutory income taxes	\$ 145	22.7 %

(in millions)	2008	Effective Tax Rate
Provision computed at statutory rate	\$ 475	35.0 %
Change in net deferred income taxes	59	4.4
Tax exempt interest deduction	(119)	(8.8)
Other	6	0.4
Total statutory income taxes	\$ 421	31.0 %

10. Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

- A.,
B. &
C. The following transactions were entered into by the Company with related parties in the first six months of 2009 and in 2008 that involved more than 1/2 of 1% of the Company’s admitted assets. Activity resulting from reinsurance agreements, insurance contracts or cost allocation transactions in accordance with intercompany agreement provisions was excluded.

Transactions with parent

On April 1, 2009, the Company received a capital contribution of all of the outstanding shares, including common stocks \$7.5 million and paid in surplus \$15 million, of North Light Specialty Insurance Company from its parent, Allstate Insurance Holdings, LLC (“AIH”).

On March 31, 2009, the Company received a capital contribution in cash of \$248 million from AIH.

On December 31, 2008, all of the issued and outstanding shares of common stock of the Company were transferred by The Allstate Corporation (“Corporation”) to its direct, wholly-owned subsidiary, AIH.

On October 28, 2008, the Company received a capital contribution in securities with a fair value of \$1.00 billion from the Corporation.

The Company paid a total of \$3.40 billion of dividends on common stock to the Corporation in 2008. The details of the dividend payments are disclosed in Note 13, Part 4 of the December 31, 2008 Annual Statement.

The Company received excess tax benefits of \$4 million in 2008, primarily related to the Corporation’s stock options exercised by Company employees. These amounts are presented in the Company’s Statement of Income as surplus paid in.

The Company entered into an intercompany loan agreement with the Corporation. The amount available to the Company is at the discretion of the Corporation, however, the maximum amount of loans the Corporation can have outstanding to all eligible subsidiaries at any given point in time is limited to \$1.00 billion. From time to time, the Company borrows money from the Corporation to meet its short-term cash needs. At June 30, 2009 and December 31, 2008, the Company did not have intercompany loans with the Corporation outstanding. Total interest paid on intercompany debt during the first six months of 2009 and in 2008 was \$142 thousand and \$26 thousand, respectively.

Transactions with Allstate Life Insurance Company (“ALIC”)

On March 31, 2009, the Company made a capital contribution of \$250 million to its subsidiary, ALIC.

On December 29, 2008, the Company canceled and forgave the principal amount of the \$400 million surplus note issued on August 29, 2008 by ALIC to the Company, and converted the \$400 million to a capital contribution to ALIC.

On November 17, 2008, the Company purchased, in cash, a \$400 million surplus note (“Surplus Note 2”) from ALIC. Surplus Note 2 accrues interest at a rate of 7.00% annually, which will be due on the first day of April and October in each year beginning April 1, 2009 until maturity on November 17, 2028. ALIC may repay principal and interest payments in whole or in part from time to time without premium or penalty. The payment of interest or principal is subject to prior written approval from the IL DOI, and can only be paid out of ALIC’s surplus that is in excess of minimum amounts required by the Illinois Insurance Code. In accordance with the APPM, interest is not recorded in the financial statements as an accrual until approval from the IL DOI is granted. No interest was accrued or received from ALIC in the first six months of 2009 or in 2008. In the event of the liquidation of ALIC, the payment of claims under Surplus Note 2 is subordinate and junior in right of payment to the prior payment in full of all policy obligations and all other liabilities of ALIC other than any indebtedness that is subordinate to, or ranks at equal standing with, these surplus notes, but prior to the distribution of assets to shareholders.

On September 10, 2008, the Company sold certain investment assets with a fair value of \$938 million plus accrued interest of \$6 million to ALIC for \$944 million in cash.

In June 2008, the Company made a capital contribution of \$350 million to ALIC. The contribution consisted of securities with a fair value of \$343 million which was paid on June 27 and cash of \$7 million which was paid on June 30. On November 13, 2008, the Company made an additional cash capital contribution of \$600 million to ALIC.

Other

On June 16, 2009, the Company borrowed \$750 million from the Corporation under the Amended and Restated Intercompany Liquidity Agreement. This amount is scheduled to be repaid by December 1, 2009 with interest accrued at the 30-day commercial paper rate which resets on the first of every month.

On August 15, 2008, the Company and nine of its subsidiaries signed a Consent Order to resolve a contested administrative complaint filed by the Florida Office of Insurance Regulation (“FL OIR”) in February 2008. The settlement terms included a provision whereby the Company would cancel and forgive the principal and related interest payment obligations associated with the \$175 million surplus note issued by its subsidiary, Castle Key Insurance Company (“CKIC”), to the Company on September 30, 2004. The Company converted the \$175 million principal amount of the surplus note to a capital contribution to CKIC.

Intercompany receivable and payable balances are evaluated on an individual company basis. Net intercompany balances less than \$1 million and those equal to or greater than \$1 million are generally settled quarterly and monthly, respectively, with two exceptions. Net intercompany balances with AFS are settled monthly regardless of dollar amount. In addition, net intercompany balances with the Corporation related to profit sharing the Corporation grants to the Company's employees are settled annually.

E. The Company purchased structured settlement annuities, a type of immediate annuity, at prices determined based on interest rates in effect at the time of purchase, to fund structured settlements from ALIC and its subsidiary, ALNY. Prior to July 1, 2001, these annuities were issued to Allstate Settlement Corporation ("ASC"), a subsidiary of ALIC. Most of the structured settlements issued to ASC were under a "qualified assignment", meaning these entities assumed the Company's obligation to make future payments.

The Company issued surety bonds to guarantee the payment of structured settlement benefits assumed by ASC (from both the Company and non-related parties) and funded by certain annuity contracts issued by ALIC and ALNY. ASC entered into a General Indemnity Agreement pursuant to which it indemnified the Company for any liabilities associated with the surety bonds and provided certain collateral security rights with respect to the annuities and certain other rights in the event of default covered by the surety bonds. Reserves recorded by ALIC and ALNY for annuities that are guaranteed by the surety bonds were \$5.10 billion at both June 30, 2009 and December 31, 2008, respectively.

The Company and ALIC entered into a Capital Support Agreement effective December 14, 2007. Under the terms of this agreement, the Company agreed to provide funds to ALIC in order for ALIC to maintain a company action level RBC ratio of at least 150%. The Company's obligation to provide funds to ALIC is limited to an aggregate amount of \$1.00 billion. A request by ALIC for funds, authorized by resolution of the Board or Executive Committee of ALIC, must be delivered to the Company's Chief Financial Officer or Treasurer to initiate payment. In exchange for providing such funds, on March 1 of each year, ALIC will pay the Company an annual commitment fee of 1.00% of the amount of the Capital and Surplus Maximum, as defined in the agreement, that remains available on January 1 of such year. ALIC or the Company have the right to terminate this agreement when: 1) ALIC qualifies for a financial strength rating from Standard and Poor's, Moody's or A.M. Best, without giving weight to the existence of this agreement, that is the same or better than its rating with such support; or 2) ALIC's company action level RBC ratio is at least 300% or 3) the Company no longer directly or indirectly owns at least 50% of the voting stock of ALIC. At June 30, 2009 and December 31, 2008, this agreement had not been triggered.

13. Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations

10. Cumulative unrealized gains and losses decreased unassigned funds by \$397 million and \$336 million at June 30, 2009 and December 31, 2008.

14. Contingencies

A. Contingent Commitments

The Company has made the following contingent commitments with external parties.

Commitments to acquire financial interests or make capital contributions

The Company made commitments to invest in limited partnerships interests of \$718 million and \$806 million at June 30, 2009 and December 31, 2008, respectively. These commitments are generally for making additional capital contributions or acquiring financial interests.

California Earthquake Authority ("CEA")

Exposure to certain potential losses from earthquakes in California is limited by the Company's participation in the CEA, which provides insurance for California earthquake losses. The CEA is a privately-financed, publicly-managed state agency created to provide insurance coverage for earthquake damage. Insurers selling homeowners insurance in California are required to offer earthquake insurance to their customers either through their company or by participation in the CEA. The Company's homeowners policies continue to include coverages for losses caused by explosions, theft, glass breakage and fires following an earthquake, which are not underwritten by the CEA.

NOTES TO FINANCIAL STATEMENTS

Should losses arising from an earthquake cause a deficit in the CEA, additional funding would be obtained through reinsurance proceeds and assessments on participating insurance companies. Beginning December 1, 2008, participating insurers are required to pay an assessment, currently estimated not to exceed \$1.47 billion, if the capital of the CEA falls below \$350 million. Participating insurers are required to pay a second assessment, currently estimated not to exceed \$1.30 billion, if aggregate CEA earthquake losses exceed \$8.74 billion and the capital of the CEA falls below \$350 million. In 2007, the authority of the CEA to assess participating insurers was extended for ten years from December 1, 2008, the date the previous authority was due to expire.

At October 31, 2008, the CEA's capital balance was approximately \$3.15 billion. If the CEA assesses its member insurers for any amount, the amount of future assessments on members is reduced by the amounts previously assessed. To date, the only assessment made by the CEA has been its initial assessment paid by participating insurers beginning in 1996.

All future assessments on participating CEA insurers are based on their CEA insurance market share as of December 31 of the preceding year. At December 31, 2007, the Company's share of the CEA was 19.9%. The Company does not expect its CEA market share to materially change. At this level, the Company's maximum possible CEA assessment would be \$551 million in 2009. Accordingly, assessments from the CEA for a particular quarter or annual period may be material to income and cash flows, but not the financial position of the Company. Management believes the Company's exposure to earthquake losses in California has been significantly reduced as a result of its participation in the CEA.

Shared markets

As a condition of maintaining its licenses to write personal property and casualty insurance in various states, the Company is required to participate in assigned risk plans, reinsurance facilities and joint underwriting associations that provide various types of insurance coverage to individuals or entities that otherwise are unable to purchase such coverage from private insurers. Underwriting results related to these arrangements, which tend to be adverse, were immaterial to the Statement of Income.

Guarantees

The Company provides residual value guarantees on Company leased automobiles. If all outstanding leases had been terminated effective June 30, 2009, the Company's maximum obligation pursuant to these guarantees, assuming the automobiles had no residual value, would have been \$15 million at June 30, 2009. If all outstanding leases were terminated effective December 31, 2008, the Company's maximum obligation pursuant to these guarantees, assuming the automobiles have no residual value, would be \$17 million at December 31, 2008. The remaining term of each residual value guarantee is equal to the term of the underlying lease that ranges from less than one year to three years. Historically, the Company has not made any material payments pursuant to these guarantees.

The Company owns certain bonds under which it is obligated to exchange credit risk or forfeit principal due, depending on the nature or occurrence of specified credit events for the referenced entities. In the event all such specified credit events were to occur, the Company's maximum amount at risk on these bonds, as measured by the amount of the aggregate initial investment was \$0 and \$303 thousand at June 30, 2009 and December 31, 2008, respectively. The obligations associated with these bonds expire at various dates during the next five years.

PMI Runoff Support Agreement

The Company has certain limited rights and obligations under a capital support agreement ("Runoff Support Agreement") with PMI Mortgage Insurance Company ("PMI"), the primary operating subsidiary of The PMI Group, related to the Company's disposition of PMI in prior years. Under the Runoff Support Agreement, the Company would be required to pay claims on PMI policies written prior to October 28, 1994, if PMI fails certain financial covenants and fails to pay such claims. The agreement only covers these policies and not any policies issued on or after that date. In the event any amounts are so paid, the Company would receive a commensurate amount of preferred stock or subordinated debt of PMI Group or PMI. The Runoff Support Agreement also restricts PMI's ability to write new business and pay dividends under certain circumstances. Management does not believe this agreement will have a material adverse effect on the net income, liquidity or financial position of the Company.

E. All Other Contingencies

Regulation

The Company is subject to changing social, economic and regulatory conditions. From time to time, regulatory authorities or legislative bodies seek to influence and restrict premium rates, require premium refunds to policyholders, restrict the ability of insurers to cancel or non-renew policies, require insurers to continue to write new policies or limit their ability to write new policies, limit insurers' ability to change coverage terms or to impose underwriting standards, impose additional regulations regarding agent and broker compensation and otherwise expand overall regulation of insurance products and the insurance industry. The ultimate changes and eventual effects of these initiatives on the Company's business, if any, are uncertain.

Legal and regulatory proceedings and inquiries

Background

The Company and certain subsidiaries are involved in a number of lawsuits, regulatory inquiries, and other legal proceedings arising out of various aspects of its business. As background to the "Proceedings" subsection below, please note the following:

- These matters raise difficult and complicated factual and legal issues and are subject to many uncertainties and complexities, including the underlying facts of each matter; novel legal issues; variations between jurisdictions in which matters are being litigated, heard or investigated; differences in applicable laws and judicial interpretations; the length of time before many of these matters might be resolved by settlement, through litigation or otherwise; the fact that some of the lawsuits are putative class actions in which a class has not been certified and in which the purported class may not be clearly defined; the fact that some of the lawsuits involve multi-state class actions in which the applicable law(s) for the claims at issue is in dispute and therefore unclear; and the current challenging legal environment faced by large corporations and insurance companies.
- The outcome of these matters may also be affected by decisions, verdicts, and settlements, and the timing of such decisions, verdicts, and settlements, in other individual and class action lawsuits that involve the Company, other insurers, or other entities and by other legal, governmental, and regulatory actions that involve the Company, other insurers, or other entities.
- In the lawsuits, plaintiffs seek a variety of remedies including equitable relief in the form of injunctive and other remedies and monetary relief in the form of contractual and extra contractual damages. In some cases, the monetary damages sought include punitive or treble damages. Often specific information about the relief sought, such as the amount of damages, is not available because plaintiffs have not requested specific relief in their pleadings. When specific monetary demands are made, they are often set just below a state court jurisdictional limit in order to seek the maximum amount available in state court, regardless of the specifics of the case, while still avoiding the risk of removal to federal court. In the Company's experience, monetary demands in pleadings bear little relation to the ultimate loss, if any, to the Company.
- In connection with regulatory examinations and proceedings, government authorities may seek various forms of relief, including penalties, restitution and changes in business practices. The Company may not be advised of the nature and extent of relief sought until the final stages of the examination or proceeding.

NOTES TO FINANCIAL STATEMENTS

- For the reasons specified above, it is often not possible to make meaningful estimates of the amount or range of loss that could result from the matters described below in the "Proceedings" subsection. The Company reviews these matters on an ongoing basis and follows the provisions of SSAP No. 5, *Liabilities, Contingencies and Impairments of Assets*, when making accrual and disclosure decisions. When assessing reasonably possible and probable outcomes, the Company bases its decisions on its assessment of the ultimate outcome following all appeals.
- Due to the complexity and scope of the matters disclosed in the "Proceedings" subsection below and the many uncertainties that exist, the ultimate outcome of these matters cannot be reasonably predicted. In the event of an unfavorable outcome in one or more of these matters, the ultimate liability may be in excess of amounts currently reserved, if any, and may be material to the Company's net income or cash flows for a particular quarterly or annual period. However, based on information currently known to it, management believes that the ultimate outcome of all matters described below as they are resolved over time is not likely to have a material adverse effect on the financial position of the Company.

Proceedings

There are a number of state and nationwide class action lawsuits pending in various state courts challenging the legal propriety of the Company's medical bill review processes on a number of grounds, including the manner in which the Company determines reasonableness and necessity. These lawsuits, which to a large degree mirror similar lawsuits filed against other carriers in the industry, allege these processes are used by the Company systematically to undervalue claims. Plaintiffs seek monetary damages in the form of contractual and extra contractual damages. The Company denies these allegations. One nationwide class action was certified. The Company has received preliminary approval of a settlement of this class action which is immaterial in amount. The Company continues to vigorously defend the other pending lawsuits.

There is a nationwide putative class action pending against the Company that challenges the Company's use of a vendor's automated database in valuing total loss automobiles. To a large degree, this lawsuit mirrors similar lawsuits filed against other carriers in the industry. Plaintiffs allege the Company systematically underpays first party total loss vehicle claims. The plaintiffs are seeking actual and punitive damages. The lawsuit is in the early stages of discovery and the Company is vigorously defending it.

The Company is defending a number of matters filed in the aftermath of Hurricanes Katrina and Rita, including individual lawsuits, and several statewide putative class action lawsuits pending in Mississippi and Louisiana. These matters are in various stages of development. The lawsuits and developments in litigation arising from the hurricanes include the following:

- The Mississippi Attorney General filed a suit asserting that the flood exclusion found in the Company's and other insurance companies' policies is either ambiguous, unenforceable as unconscionable or contrary to public policy, or inapplicable to the damage suffered in the wake of Hurricane Katrina. In December 2008, the trial court judge ruled that, as a matter of law, the flood exclusions are not ambiguous, unconscionable or against public policy and do not constitute a deceptive trade practice. The Court also ruled that the Attorney General lacks standing necessary to bring the suit, as he is not a party to the insurance contracts at issue. All of the claims filed against the Company were dismissed. The Attorney General has not appealed this dismissal. The dismissal order is now considered final.
- Six members of the Mississippi Windstorm Underwriters Association ("MWUA") have filed two separate lawsuits against the MWUA board members and the companies they represent, including a subsidiary of the Company, alleging that the Board purchased insufficient reinsurance to protect the MWUA members. One of these lawsuits (filed by four MWUA members) is pending in federal court and was filed as a class action. In that case, plaintiffs' motion for class certification was denied. The case proceeded to trial on March 3, 2009 on the four plaintiffs' individual claims. At the end of the March 2009 trial, judgment was entered in favor of all the defendants. Plaintiffs filed a Notice of Appeal, but then dismissed that appeal in return for the defendants' agreement not to seek costs and fees at the trial court. After the court denied class certification in the first case, two MWUA members that are not named plaintiffs in the first case filed another virtually identical lawsuit in the Mississippi state court. Plaintiffs dismissed their state court lawsuit as part of the agreement to resolve the first case.
- The Company has also been sued in a putative class action in the U.S. District Court for the Western District of Louisiana. The plaintiffs allege that they were entitled to, but did not receive, payment for general contractor overhead and profit ("GCOP") or that the GCOP they received was not adequate to compensate them for the entire costs of a general contractor. The plaintiffs also alleged that the Company incorrectly calculated depreciation on property losses. The Court granted partial summary judgment, and dismissed the claim challenging the method of calculating depreciation. In October 2008, the Court heard plaintiffs' motion to certify three subclasses: the first class would impose a "three trade rule", meaning any time three or more trades are reflected on the estimate, GCOP must be paid; the second class encompassed the alleged miscalculation of GCOP when both general and specialty contractors are involved; and the third class sought to impose on the Company statutory penalties for its alleged breach of contract with regard to the first two subclasses. The Court denied plaintiffs' motion on the certification of the two subclasses regarding the "three trade rule" and statutory penalties. The plaintiffs' motion for certification of the third subclass alleging that GCOP is not properly calculated when both general and specialty contractors are involved is pending.
- The Louisiana Attorney General filed a class action lawsuit in state court against the Company and other insurers on behalf of Road Home fund recipients alleging that the insurers have failed to pay all damages owed under their policies. The insurers removed the matter to federal court. The district court denied plaintiffs' motion to remand the matter to state court and the U.S. Court of Appeals for the Fifth Circuit affirmed that ruling. The defendants filed a motion to dismiss and the plaintiffs' filed a motion to remand the claims involving a Road Home subrogation agreement. In March 2009, the district court denied the state's request that its claims be remanded to state court. As for the defendant insurers' motion, the judge granted it in part and denied it in part. Dismissal of all the extra contractual claims, including the bad faith and breach of fiduciary duty claims was granted. Dismissal also was granted of all claims based on the Valued Policy Law and all flood loss claims based on the levee breaches finding that the insurers flood exclusions precluded coverage. The remaining claims are for breach of contract and for declaratory relief on the alleged underpayment of claims by the insurers. The judge did not dismiss the class action allegations. The defendants also had moved to dismiss the complaint on grounds that the state had no standing to bring the lawsuit as an assignee of insureds because of anti-assignment language in the insurers' policies. The judge denied the defendants' motion for reconsideration on the assignment issue but found the matter was ripe for consideration by the federal appellate court. The defendants have filed a petition for permission to appeal to the Fifth Circuit. The Fifth Circuit has accepted review.

The various suits described above seek a variety of remedies, including actual and/or punitive damages in unspecified amounts and/or declaratory relief. The Company has been vigorously defending these suits and other matters related to Hurricanes Katrina and Rita.

In addition, the Company provided documents to federal and state authorities conducting investigations into the insurance industry's handling of claims in the aftermath of Hurricanes Katrina and Rita. Other insurers have received similar subpoenas and requests for information.

The Company is defending various lawsuits involving worker classification issues. These lawsuits include a certified class action challenging a state wage and hour law. In these cases, plaintiffs seek monetary relief, such as penalties and liquidated damages, and non-monetary relief, such as injunctive relief. The Company is continuing to vigorously defend its worker classification lawsuits.

NOTES TO FINANCIAL STATEMENTS

The Company is defending certain matters relating to the Company's agency program reorganization announced in 1999. These matters are in various stages of development.

- These matters include a lawsuit filed in 2001 by the U.S. Equal Employment Opportunity Commission ("EEOC") alleging retaliation under federal civil rights laws (the "EEOC I" suit) and a class action filed in 2001 by former employee agents alleging retaliation and age discrimination under the Age Discrimination in Employment Act ("ADEA"), breach of contract and ERISA violations (the "Romero I" suit). In 2004, in the consolidated EEOC I and Romero I litigation, the trial court issued a memorandum and order that, among other things, certified classes of agents, including a mandatory class of agents who had signed a release, for purposes of effecting the court's declaratory judgment that the release is voidable at the option of the release signer. The court also ordered that an agent who voids the release must return to the Company "any and all benefits received by the [agent] in exchange for signing the release." The court also stated that, "on the undisputed facts of record, there is no basis for claims of age discrimination." The EEOC and plaintiffs asked the court to clarify and/or reconsider its memorandum and order and in January 2007, the judge denied their request. In June 2007, the court granted the Company's motions for summary judgment. Following plaintiffs' filing of a notice of appeal, the U.S. Court of Appeals for the Third Circuit ("Third Circuit") issued an order in December 2007 stating that the notice of appeal was not taken from a final order within the meaning of the federal law and thus not appealable at this time. In March 2008, the Third Circuit decided that the appeal should not summarily be dismissed and that the question of whether the matter is appealable at this time will be addressed by the Third Circuit along with the merits of the appeal. In July 2009, the Third Circuit vacated the decision which granted the Company's summary judgment motions, remanded the cases to the trial court for additional discovery, and directed that the cases be reassigned to another trial court judge.
- The EEOC also filed another lawsuit in 2004 alleging age discrimination with respect to a policy limiting the rehire of agents affected by the agency program reorganization (the "EEOC II" suit). In EEOC II, in 2006, the court granted partial summary judgment to the EEOC. Although the court did not determine that the Company was liable for age discrimination under the ADEA, it determined that the rehire policy resulted in a disparate impact, reserving for trial the determination on whether the Company had reasonable factors other than age to support the rehire policy. The Company's interlocutory appeal from the partial summary judgment was granted. In June 2008, the U.S. Court of Appeals for the Eighth Circuit ("Eighth Circuit") affirmed summary judgment in the EEOC's favor. In September 2008, the Eighth Circuit granted the Company's petition for rehearing en banc and vacated its earlier decision affirming the trial court's grant of summary judgment in favor of the EEOC. The Eighth Circuit then dismissed the Company's appeal, determining that it lacked jurisdiction to consider the appeal at this stage in the litigation.
- A putative nationwide class action has also been filed by former employee agents alleging various violations of ERISA, including a worker classification issue. These plaintiffs are challenging certain amendments to the Agents Pension Plan and are seeking to have exclusive agent independent contractors treated as employees for benefit purposes. This matter was dismissed with prejudice by the trial court, was the subject of further proceedings on appeal, and was reversed and remanded to the trial court in 2005. In June 2007, the court granted the Company's motion to dismiss the case. Following plaintiffs' filing of a notice of appeal, the Third Circuit issued an order in December 2007 stating that the notice of appeal was not taken from a final order within the meaning of the federal law and thus not appealable at this time. In March 2008, the Third Circuit decided that the appeal should not summarily be dismissed and that the question of whether the matter is appealable at this time will be addressed by the Third Circuit along with the merits of the appeal. In July 2009, the Third Circuit vacated the decision which granted the Company's motion to dismiss the case, remanded the case to the trial court for additional discovery, and directed that the case be reassigned to another trial court judge.

In all of these various matters, plaintiffs seek compensatory and punitive damages, and equitable relief. The Company has been vigorously defending these lawsuits and other matters related to its agency program reorganization.

In New Mexico, the Company is defending a certified class action challenging the method by which the Company discloses installment fees. The class members are limited to New Mexico policyholders based on the trial court's acceptance of plaintiffs' amended complaint. The plaintiffs contend that installment fees must be disclosed on the insurance policy itself, which would include the declarations page, because the fees allegedly meet the legal definition of "premium." Plaintiffs seek repayment of installment fees since October 1996.

Other matters

Various other legal, governmental, and regulatory actions, including state market conduct exams, and other governmental and regulatory inquiries are currently pending that involve the Company and specific aspects of its conduct of business. Like other members of the insurance industry, the Company is the target of a number of class action lawsuits and other types of proceedings, some of which involve claims for substantial or indeterminate amounts. These actions are based on a variety of issues and target a range of the Company's practices. The outcome of these disputes is currently unpredictable.

One or more of these matters could have an adverse effect on the Company's net income or cash flows for a particular quarterly or annual period. However, based on information currently known to it, management believes that the ultimate outcome of all matters described in this "Other matters" subsection, in excess of amounts currently reserved, if any, as they are resolved over time is not likely to have a material effect on the net income, cash flows or financial position of the Company.

16. Information about Financial Instruments with Off-Balance Sheet Risk and Financial Instruments with Concentrations of Credit Risk

Derivative financial instruments

1. Volume for over the counter derivative contracts is represented by their notional amounts. Volume for exchange traded derivatives is represented by the number of contracts which is the basis on which they are traded (n/a = not applicable). The notional amounts specified in the contracts are used to calculate the exchange of contractual payments under agreements and are generally not representative of the potential for gain or loss on these agreements. However, the notional amounts specified in credit default swap selling protection agreements represent the maximum amount of potential loss, assuming no recoveries. Statement values are generally equal to consideration paid or received except when non-hedge accounting is used, in which case statement value is equal to current fair value. Fair value is the estimated amount that the Company would receive or pay to terminate the derivative contracts at the reporting date. The fair value of exchange traded derivative contracts is based on observable market quotations in active markets, whereas the fair value of non-exchange traded derivative contracts is determined using widely accepted valuation models and other appropriate valuation methods.

The following tables summarize the notional amount, statement value and fair value of the Company's derivative financial instruments.

3. Credit exposure represents the Company’s potential loss if all counterparties concurrently fail to perform under the terms of the contracts and all collateral, if any, becomes worthless. This exposure is measured by the fair value of contracts with a positive fair value at the reporting date reduced by the effect, if any, of legally enforceable master netting agreements. The Company has not incurred any losses on derivative financial instruments due to counterparty nonperformance.

The following table summarizes the credit exposure on the Company’s over-the-counter contracts.

(in millions)	June 30, 2009	December 31, 2008
Interest rate swaption agreements	\$ 219	\$ -
Interest rate swap agreements	95	38
Credit default swap agreements - buying protection	6	43
Credit default swap agreements - selling protection	-	(1)
Total derivative financial instruments	\$ 320	\$ 80

4. In general, the collateral pledged by the Company is in the custody of a counterparty or an exchange. However, the Company has access to this collateral at any time, subject to replacement. For exchange traded derivatives, the exchange requires margin deposits as well as daily cash settlements of margin accounts. The Company pledged \$61 million and \$44 million of securities in the form of margin deposits at June 30, 2009 and December 31, 2008, respectively. Usually, the Company pledges U.S. Treasury bonds to satisfy this collateral requirement. The Company uses master netting agreements for over-the-counter derivative transactions. These agreements permit either party to net payments due for transactions covered by the agreements. Under the provisions of the agreements, collateral is either pledged or obtained when certain predetermined exposure limits are exceeded. At June 30, 2009, counterparties pledged \$62 million in securities and \$180 million in cash to the Company and the Company pledged \$36 million in securities to counterparties. At December 31, 2008, the Company pledged \$44 million in securities to counterparties, however counterparties did not pledge any collateral to the Company.

Other than derivative financial instruments

1. The only off-balance sheet financial instrument, other than derivatives, the Company had were commitments to invest in limited partnership agreements which had contractual amounts of \$718 million and \$806 million at June 30, 2009 and December 31, 2008, respectively.
3. The contractual amounts presented in Part 1 above represent the amount at risk if the contract was fully drawn upon, the counterparty defaults and the value of any underlying security becomes worthless.
4. The Company does not require collateral or other security to support off-balance sheet financial instruments with credit risk.

Assets in the amount of \$26 million, of which \$1 million was interest payable to policyholders, were on deposit at The Bank of New York Mellon related to an escrow account established in accordance with North Carolina Department of Insurance Bulletin 08-B-06.

H. Subprime Mortgage Related Risk Exposure

1. The Company identified it had exposure to subprime residential mortgage related risk in the form of asset-backed residential mortgage-backed securities ("ABS RMBS"), as well as a limited partnership investment. The ABS RMBS portfolio includes securities that are collateralized by mortgage loans issued to borrowers that cannot qualify for prime or alternative financing terms due in part to an impaired or limited credit history. It also includes securities that are collateralized by certain second lien mortgages regardless of the borrower's credit profile. At June 30, 2009 the ABS RMBS portfolio had net unrealized losses of \$205 million, of which \$206 million were gross unrealized losses and \$1 million were gross unrealized gains. At December 31, 2008, the ABS RMBS portfolio had net unrealized losses of \$327 million, of which \$330 million were gross unrealized losses and \$3 million were gross unrealized gains.

In addition, the Company owns Alt-A residential mortgage-backed securities ("Alt-A") which it does not consider to be a component of its exposure to subprime mortgage related risk. The Alt-A portfolio consists of mortgage-backed securities at fixed or variable rates and includes certain securities that are collateralized by residential mortgage loans issued to borrowers with stronger credit profiles than subprime borrowers, but do not qualify for prime financing terms due to high loan-to-value ratios or limited supporting documentation. At June 30, 2009, the Alt-A portfolio had net unrealized losses of \$40 million, of which \$43 million were gross unrealized losses and \$3 million were gross unrealized gains. At December 31, 2008, the Alt-A portfolio had net unrealized losses of \$73 million, of which \$74 million were gross unrealized losses and \$1 million were gross unrealized gains.

Both ABS RMBS and Alt-A securities are considered loan-backed, and included in bonds in the Company's Asset page. The percentage of ABS RMBS and Alt-A securities considered highly rated by the NAIC at is presented below:

Type of Investment	June 30, 2009		December 31, 2008	
ABS RMBS	64	%	75	%
Alt-A	51	%	91	%

The Company has a comprehensive portfolio monitoring process to identify and evaluate, on a case-by-case basis, investments whose carrying value may be other-than-temporarily impaired. See the investments significant accounting policy in Note 1, Part C of the Annual Statement for more details. At June 30, 2009 and December 31, 2008, the Company recorded investment write-downs of \$(5) million and \$16 million, respectively, in the ABS RMBS portfolio related to asset impairments. The Company did not record investment write-downs in the ABS RMBS portfolio at June 30, 2009 or December 31, 2008 related to the potential sale of assets to meet future cash flow requirements. In addition, at June 30, 2009 and December 31, 2008, the Company recorded investment write-downs in the Alt-A portfolio of \$11 million and \$16 million, respectively, related to asset impairments. There were no investment write-downs recorded in the Alt-A portfolio at June 30, 2009 or December 31, 2008 due to the potential sale of assets to meet future cash flow requirements. The Company continues to believe that the unrealized losses on these securities are not necessarily predictive of the performance of the underlying collateral. In the absence of further deterioration in the collateral relative to the Company's positions in the securities' respective capital structures, which could require recognition of other-than-temporary impairments, the unrealized losses should reverse over the remaining lives of the securities.

The Company's practice for acquiring and monitoring ABS RMBS and Alt-A mortgage-backed securities takes into consideration the quality of the originator, quality of the servicer, security credit rating, underlying characteristics of the mortgages, borrower characteristics, level of credit enhancement in the transaction, and bond insurer strength, where applicable. The originators and servicers of the underlying mortgage loans are primarily subsidiaries of large banks and broker/dealers.

3. The Company's direct exposure to other subprime investments is summarized as follows:

(in millions)		June 30, 2009			
Type of Investment	Actual Cost	Book/Adjusted Carrying Values	Fair Values	Other-Than-Temporary (Gains) Losses	
ABS RMBS	\$ 1,114	\$ 776	\$ 571	\$ (5)	
Other assets	65	56	56	-

22. Reinsurance

C. Reinsurance Assumed and Ceded

- The maximum amount of return commission which would have been due to reinsurers if they or the Company had canceled all of the Company's reinsurance, or if the Company or a receiver had canceled all the Company's insurance assumed with the return of unearned premium reserve was as follows:

(iv) Direct Unearned Premium Reserve \$3.76 billion

23. Retrospectively Rated Contracts and Contracts Subject to Redetermination

- The amount of net premiums written by the Company in the first six months of 2009 and 2008 subject to retrospective rating features was \$998 million and \$750 million, respectively. These amounts represented 8.4% and 6.1% of total net premiums written in the first six months of 2009 and 2008, respectively.

24. Change in Incurred Losses and Loss Adjustment Expenses

For a summary of management's policies and methodologies for estimating the liabilities for losses and loss adjustment expenses, please refer to this note in the December 31, 2008 Annual Statement.

Activity in the reserve for losses and loss adjustment expenses was summarized as follows:

(in millions)	June 30, 2009	December 31, 2008
Balance at January 1	\$ 14,859	\$ 14,227
Incurred related to:		
Current year	8,973	18,191
Prior years	(28)	212
Total incurred	<u>8,945</u>	<u>18,403</u>
Paid related to:		
Current year	4,477	11,606
Prior years	4,578	6,165
Total paid	<u>9,055</u>	<u>17,771</u>
Ending Balance	<u>\$ 14,749</u>	<u>\$ 14,859</u>

Incurred losses and loss adjustment expenses represent the sum of paid losses and reserve changes in the calendar year. This expense included net losses from catastrophes of \$1.33 billion and \$3.26 billion for the six months ended June 30, 2009 and the year ended December 31, 2008, respectively. Catastrophes are an inherent risk that have contributed to, and will continue to contribute to, material year-to-year fluctuations in the Company's net income and financial position.

The Company calculates and records a single best reserve estimate for losses from catastrophes, in conformance with generally accepted actuarial principles. As a result, management believes that no other estimate is better than the recorded amount. Due to the uncertainties involved, including the factors described above, the ultimate cost of losses may vary materially from recorded amounts, which are based on management's best estimates. Accordingly, management believes that it is not practicable to develop a meaningful range for such changes in losses incurred.

Incurred losses and loss adjustment expenses attributable to insured events of prior years were \$(28) million and \$212 million as a result of the reestimation of unpaid losses and loss adjustment expenses for the six months ended June 30, 2009 and the year ended December 31, 2008, respectively. Favorable development in incurred losses and loss adjustment expenses related to prior years during the first six months of 2009 was primarily due to a reduction in catastrophe losses. Incurred losses and loss adjustment expenses related to prior years in 2008 were primarily composed of litigation settlements and catastrophe losses. These changes were generally the result of ongoing analyses of recent loss development trends. Initial estimates were revised, as additional information became known. Anticipated salvage and subrogation of \$612 million and \$620 million were included as a reduction of loss reserves at June 30, 2009 and December 31, 2008, respectively.
